LAWLESS SPARROWS.

They Think They Have a Right to Take Anything They Want.

Sparrows seem to be governed by the same impulsesi that cause a hungry boy to tip-toe into the pantry and "coon" a fistful of cookies; that is, they think a thing is right because they want to do it. It is no uncommon thing to see a busy little cock sparrow hop between a horse's hind feet and then dart and seize a hair of the horse's tail. Unless interrupted the sparrow will pull at that hair until he gets it. Then he will fly away to his nest in triumph. An English writer describes a similar experience with a London sparrow. He says:

"I have just received a small story from St. James's Park which is interesting as a confirmation of the conclusions of science. My informant was feeding with bread crumbs a wood pigeon at his feet. One of the bird's feathers, an under tail cover, which was ruffled and out of place, caught the eye of a sparrow. The sparrow flew down, seized it in his beak and pulled its best. The feather did not yield at once and the pigeon walked off with offended dignity. The sparrow followed, still holding on, and in the end flew off triumphant with the trophy to its nest."

Fighting Hornets.

Boys who propose to bombard hornets' nests may find valuable information in the description, by Hervey Laney, in the Scientific American, in the way these insects defend their homes. There is always a sentinel on watch at the entrance, and when a stone is thrown at the nest the hand that threw it has been marked as sure as the sun shines, and before the attacking party can turn the head he will feel a stunning blow on the forehead, and possibly drop to the earth with pain, for the hornet flies with such velocity that the human body is not swift enough in movement to get out of the way. In making such a charge, Mr. Laney says, the hornet flies with head and tail together, and the sting is driven deep. But if the boy gets behind a tree or bush, and throws from shelter, he is likely to escape, because the hornet seems to possess little power of locating the enemy at sight. When the delivery of the stone is followed by a successful charge, Mr. Laney thinks, it is because the hornet possesses "the faculty of marking the direction of the missile thrown at the nest."

This Girl Wants a Chum.

My ideal chum would be a girl of my own age, who was large rather than small, and more light than dark. I should want her to be very strong, so that when she came to me she could manage my brother, who would be sure to tease her. She must love knowledge and be zealous in pursuit of it. I would prefer one who had musical talent. She must have some opinions of her own, and be able to argue without becoming angry, but she must believe in woman's suffrage, prohibition and Protestantism. She must not be too bold, selfish or proud; nor must she be overmodest; better a little inclined to tomboyishness. She must not be afraid of mice, bugs, snakes or the dark; she must like horses and know a good deal about them—not only to ride and drive, but the care of them. She must be industrious. I would prefer a country girl who knew how to farm. Lastly, she must not be easy to take offense, for I would speak plainly to her in all things and expect the same of her.

The Difference.

Wee Isabella is such a pet
At school among the rest!
"The baby!" Lou and Charlie say
Who love her quite the best.

They show her how to string her beads
And weave her paper mat.

They laugh at all her cunning ways,
And kiss her fingers fat.

At noon they lift her from her chair,
And help her with her things.
They button up her little coat,
And tie her bonnet-strings.

They watch and tend and talk to her
Just like a doll alive.
Because, you see, she's only four,
And they are nearly five.
—Margaret Johnson in Youths' Companion.

Composition on Breathing.

A boy 14 years old, who was told to write all he could about breathing in a composition, handed in the following:

"Breath is made of air. We breathe with our lungs, our lights, our liver and kidneys. If it wasn't for our breath we would die when we sleep. Our breath keeps the life a-going through our nose when we are asleep. Boys that stay in a room all day should not breathe. They should wait until they get outdoors. Girls kill the breath with corsets and squeeze the diagram. Girls can't holler or run like boys because their diagram is squeezed too much. If I was a girl I'd rather be a boy so I can run and holler and have a great big diagram."

Crocodiles Eat Stones.

Crocodiles, like ostriches, swallow pebbles and small stones, which serve the purpose of grinding their food. The natives assert that it is possible to tell the age of a crocodile by the number of stones in its stomach, for they swallow one each year. In point of fact, 15 stones have been found in the stomach of a crocodile 12 feet long, whereas the average number for younger ones varies between four and eight. So says Mr. Voltkow, who has been studying this matter for several years.

Governess—Come, Ethel, it's time for good little girls to be in bed.

Ethel—Yeth. Mith Morgan; but you know I have been naughty to-day.

Kitty's First Mouse.

"Bessie, Bessie, come quickly, and bring kitty with you," called Aunt Ella up the stairs.

"What for, Auntie?" was the answer, as Bessie came running down. She held a pretty little tabby kitten of thres months old in her baby arms.

"Cook says there's a mouse in the back of the kitchen, dear," replied Auntie, as she lifted the little girl off the last step of the stairs.

"A live mouse!" cried Bessie, trotting down the passage after her Auntie. "Why, hasn't it run away? It will be kitty's first mouse, won't it, Auntie?"

(Kitty's first mouse.)

"Yes, and I think it will be mousie's first kitty, too. Cook says it's a very little one," said Auntie.

Opening a door at the end of the passage, Bessie ran into the kitchen.

"Where is the mousie, cook?" she asked. "I've brought kitty."

"Be very quiet, Bessie," said cook as she led the way to the little yard back of the kitchen. "He'll come again in a minute, if you wait."

Bessie put down the kitten, who, never having seen a mouse before, sat down on the steps wondering why he was awakened from his cozy nap on Bessie's soft bed. Very soon the dearest, tinest, timidest gray mouse Bessie had ever seen ran out from under the grate, and looked around with its bright black eyes. He did not seem a bit afraid of kitty, but ran up to him and held up his little nose for a kiss. As kitty was not very big, no doubt mousie thought it was his mother.

"'Kitty thinks, 'What a funny little thing,'" said Bessie in a whisper, as he bent down and smelt it. Mousie gave a little jump, and ran away as fast as he could go. Then kitty sprang after him.

"Oh, he will kill the poor little mousie," cried Bessie, jumping up from her chair.

"No, he won't. Look, dear! He's gone!" said Auntie. And sure enough, at that moment Master Mousie reached his hole under the fence and ran into it with a squeak of joy.

Bessie picked up the kitten. "Poor kitty! don't be disappointed! Never mind if you have lost him. I'll give you a nice dinner instead."

Then she added, as she ran upstairs, "You're a very good little kitten to let mousie run home and not kill him."

A Rattle for Dolly.

Crack an English walnut in halves, and, having first taken out the kernel and put in either a bell or one or two small pebbles, paste the two shells together again. Lay it to dry for a quarter of an hour. When dry it will be found that there is a small opening near one end. In this opening insert a match (from which the sulphur has been broken off) and glue it in. When this is dry gild the rattle. It may then be tied around the doll's neck with ribbon, or it may be fastened to a necklace of beads. This may be improved upon in various ways and makes quite an attractive little rattle.

A Rabbit Hatched Them.

From London comes the story of a rabbit that hatched doves' eggs and thus became the foster mother of two little squabs. The rabbit was captured when very young and put among the doves because there seemed no better place for it at the time. It at once made friends with its feathered companions, and for some reason or another insisted upon geting into one of the nests. So the sitting dove let the rabbit attend to the incubation of her eggs, but after the young doves came the mother bird again assumed control and attended to feeding them.

Surprised the Congregation.

Two little folks went to church alone. It was only around the corner from their home, and their mamma knew they would be safe. During the long sermon they got tired, and the older one supposing that the school rule held good in church, led his sister up in front of the pulpit and said: "Please may we go home?" Much surprised the clergyman gazed at them over his spectacles; then he understood and said: "Certainly, my children." And the two toddled out, while the congregation smiled.

Chickens With Croup.

The small girl who was in the country for the first time since she was of an age to take serious observations was much intersted in a lot of little ducks in a neighbor's yard. She was more acquainted with infantile weaknesses than with barnyards, so, being a clever little woman, she put her wits to work, and soon solved the problem as to why the quacking of the ducks was so different from the peeping of chickens. 'Mamma," she said, "when she went home, "I have just seen a lot of little chickens with the croup."

Good Imitation.

Fannie, aged five, was visiting in the country, and, seeing a lot of sheep and lambs for the first time, she exclaimed: "Oh, mamma, just look at the cute little lambs, and they're such good imitations, too. They squeak just like my toy lamb and have the same kind of hair on."

The Oldest Toy.

Probably the oldest toy in the world is the top. It has ben used all over the world for thousands of years, and in some savage tribes is used in the performance of religious rites.

THE AMUSEMENT WORLD

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local and Metropolitan Performances That Will Please Those Who Delight in the Art of Thespis and Mimic World

"The Rising Generation," which will be seen at Music Hall tonight, is making the hit of the season. Everywhere this laughable comedy has been enacted it has been greeted with tremendous throngs whose enjoyment of the play was amply attested by the continued rounds of applause which greeted the action of the players. "The Rising Generation" is a distinct departure from the run of Irish plays, and in that fact chiefly lies its great success. It is a distinctly high-class comedy, with not a single dull line in the book. The story is that of an Irishman who lands poor in New York, and whose honesty and shrewdness eventually rock him in the lap of luxury. The change of environment is the source of a continual vein of wit and humor in the character of Mr. McShayne. Of course there are foils to his wit, and there are specialties introduced all through the action of the piece, which make it a thoroughly up-to-date and enjoyable production.

* * * * *

The "Knobs O'Tennessee," at Music Hall Saturday night, deals with the "Moonshiners" and the troubles that are continually occurring between them and the Government officials. Joe Preston is a leader among these men, yet mentally not of their character. A pleasing love story runs through the play in which Preston and Madeline Bailey, the cultured daughter of a wealthy resident of Nashville, are the principals. There are many romantic and pathetic scenes as well as thrilling ones, and the author has provided ample comedy. At the end of the second act Harry Preston's mother shoots him just as he is being taken to prison, to save him from hanging. This scene is well worked and never fails to win the audience. A novel feature of a later scene is the introduction of President McKinley in his private office. Preston and his son appear to plead for a pardon for the latter and his mother, which is granted. The play was a pronounced hit last season, and is admitted by those who have seen it again this season to be far superior in every way to last year's production.

* * * * *

As an operatic attraction "The Highwayman," presented at Music Hall last night, was one of the finest productions ever witnessed in this city. Though the company that presented it here is not the same in any particular that was seen in the Broadway Theatre in New York, it was thoroughly equal to the dramatic and vocal demands for a finished and clever presentation. Arthur Deacon, as "Dick Fitzgerald," was a splendid actor and possessed a full, sweet tenor voice that charmed the audience and won for him great applause. "Constable Fogy Quiller" is a character that demands acting of a superior quality for its successful interpretation and in this part W. H. Tredenick was equal to all the requirements, besides possessing a capable bass voice. Miss Florence Wolcott, as "Lady Constance," masquerading as a man, sang in a remarkably mellow soprano voice, carefully trained to the difficult execution of the solos assigned the character, and besides singing and acting finely she looked stunningly. The other characters were all carefully impersonated, together with a large and excellent chorus, which afforded the audience an enjoyable performance.

Miss Lena Erickson, of Sundsvall, Sweden, is visiting her sister, Mrs. Herman Keller, of Somerset street.

Walter Serrell, of Washington Park, has returned to his position in New York, after a recovery from typhoid fever.

CASTORIA

For Infants and Children.

The Kind You Have Always Bought

Bears the Signature of Chas. H. Fletcher.

In a Nutshell:

Regular collections; intelligent washing; careful ironing, prompt deliveries. This makes a good laundry. People who have known us as dyers for thirty years back may not realize that we are doing the largest laundry business in New Jersey. Send us your bundle for a trail.

HILLIER & CO.,

129 West Front Street,

Opposite Crosby & Hill's. 'Phone 851.

SPORTING.

GOLF.

The McCutchen Cup will be competed for Saturday on the links of the Park Golf Club despite the fact that the Park Clubites are to be the guests of the Hillside Club that day. Several of the players who stand well up for the trophy have made arrangements to play their round for the cup in the morning and attend the Hillside reception in the afternoon.

Those who intend to enter the competitions at the Hillside Tennis and Golf Club links Saturday afternoon, which are open to members of the Hillside and Park Clubs, are reminded of the fact that the entries will close with L. E. Waring, 900 Park avenue tomorrow evening. Each entry must be accompanied by the last three scores made by the player entering.

The greens committee of the Park Golf Club has issued a notice that is of interest to all who play on the links of that club. There is a rise in the charges for caddies. Heretofore it has been the custom to pay the caddies ten cents a round except on holidays, when fifteen cents a round was the rule. According to the new rule caddies are now to receive fifteen cents for one round or twenty-five cents for two consecutive rounds or ten cents for a round of six holes or less. The rule went into effect last Saturday.

ON THE GRIDIRON.

The first game of the Alis football team Saturday afternoon developed the strong and the weak points of the team. Behind the line the eleven is wonderfully strong and it will be hard to get a combination that will overcome it. While Roy Phillips ran with the ball comparatively seldom, he was in the interference all the time and showed excellent judgment in his direction of the team. The centre of the line is the weakest part of the team. George Smith is new to the place and to the game, and therefore too much must not be expected of him at the first. He is strong, however, and after a few games ought to get into the play more. If he could secure some hints from Cuming, who played centre for the Plainfield A. A. two years ago, it would be valuable to him. With a little more practice the Alis team will be up to its old standard.

WHIST

The whist four of the Park Club played its first game of the season for the State challenge trophy last evening at the clubhouse of the Elizabeth Chess and Whist Club in Elizabeth. It resulted in a victory for the Elizabeth Club, which still holds the trophy. Plainfield was represented by Arthur A. Freeman, Peter B. Matthews, Albert O. Woltman and Ralph Willis. The score by rounds was as follows:

	ELIZABETH.	PARKS.
First round	6	4
Second round	7	2
Third round	2	4
	15	10

PARTICULAR MENTION.

Mrs. Ruth Layton, of Liberty Corner, will spend the winter with Mrs. Lowerie, of this city.

David W. Rogers, of West Second street, is slowly recovering from a tedious illness with rheumatism.

Everett J. Peck, of Myrtle avenue, is home from Lehigh University until Monday. Today is Founder's Day at Lehigh and is the occasion of a general holiday at the university. Peck will spend it at home.

Trip to Gettysburg.

Honeyman's private tour to Gettysburg and Luray left Philadelphia on Tuesday and the following Plainfield people are in the party: Mr. and Mrs. Harry H. Moore and Herbert Moore, 95 Grove street; Mrs. E. R. Pope, 420 Park avenue. There are in all seventeen people in the party. They will return Saturday next.

A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard street, Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"It soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the Universe." So will everyone who tries Dr. King's New Discovery for any trouble of the Throat, Chest or Lungs. Price 50c. and $1.00. Trial bottles free at L. W. Randolph's Drug store; every bottle guaranteed.

To Cure a Cough in One Day
To Cure a Cold in One Day
To Cure Sore Throat in One Day
To Cure Hoarseness in One Day

Take Cleveland's Lung Healer, 25c. Trial size free. If it fails to cure, your money will be refunded. T. S. Armstrong, the apothecary, corner Park and North avenue.

FIXING THE STREETS.

South Avenue to Be Repaired by the Street Department—Steam Roller is to Be Used There.

Now that Park avenue is in such excellent condition the street department of this city will next turn its attention to one of the other principal thoroughfares leading into Plainfield. South avenue is in very poor condition and greatly in need of repairs. The remainder of the season will be devoted principally by the department to putting South avenue in good shape.

Sometime ago work was begun raising South avenue, at the foot of Netherwood hill, to the proper grade so as to do away with the low ground where the water used to collect after every storm and make the roadway nearly impossible to wheelmen. This portion has been raised to sub-grade and is ready for the ten inches of Telford pavement that will be laid.

Beginning at Richmond street the roadway will be overhauled eastward to the city line and put in its old time condition. The steam roller will be put to work there when East Second street is completed and kept there until it is necessary to lay up the roller for the winter.

EARLY INTELLIGENCE.

—Tomorrow afternoon the Woman's Home Missionary Society of the Crescent Avenue church will hold its regular meeting for sewing.

—VanAsdale has something to say in his advertisements this week about the Stacy, Adams & Co. shoe for men. This is absolutely one of the best shoes on the market today.

—T. S. Armstrong, the druggist, corner Park and North avenues, is the maker of Reynolds' oderless disinfectant, and it is claimed that there is none better on the market.

—The Christian Endeavor Society of the First Baptist church will hold a regular meeting tomorrow evening and a cordial invitation is extended to all. There will be special features.

—Owing to the great amount of work that Thomas McGann, contractor, has on hand, his horses will not take part in the firemen's parade. The members of Warren company have engaged Mr. Deible's team for the hose wagon, and Capt. Hand's team for the engine.

PARTICULAR MENTION.

Miss Virgie Tunison, of Dunellen, has been visiting Plainfield friends.

Stephen Ryder, one of Plainfield's oldest firemen, and at one time a foreman of Gazelle Engine Company, is in town today greeting his old friends.

Harry Margerum, of Mercer Hose Company, Princeton, accompanied his fellow members to Plainfield today, and he will remain in the city for a few days visiting relatives.

Charles Sylvester Cook, the veteran bill-poster, compositor, and general all round man of great efficiency at The Daily Press office, is spending a few days with friends in Philadelphia.

Robbed the Grave.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongued coated, pain continually in the back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately a friend advised trying 'Electric Bitters;' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50cts., guaranteed, at L. W. Randolph's Drug Store

from the Manufacturer to the Consumer.

For the past three weeks we have been very busy bringing from our factory bundle after bundle of our Fall and Winter stock and arranging them on our tables. We didn't say a word about them because we wanted to display our line in full and then scream.

NOW WE'RE READY TO SCREAM.

We never scream unless we have something to scream about, and we won't scream about anything that we can't substantiate. We are showing as extensive a line of clothing as any store in the vicinity, and the prices are right. The cut and finish is there and all extra profits are off. Besides our staple blacks and blues, we are showing a variety of up-to-date worsteds, with and without double breasted vests in stripes, checks and plaids. Everything that the designers art and fine tailoring can do is in them. We are proud of our stock and want everybody to see it. Come and look at it whether you want clothing or not, you will be treated right.

Below We Quote a Few Prices:

Men's Black and Blue Cheviot suits 2.75, 3.75, 4.25, 7.25, 8.00 and 9.00.
" Fancy Cheviot suits 3.25, 4.25, 5.00, 6.00, 8.50.
" Fancy Worsteds, elegant 7.50, 9.75, 10.50, 11.00
Boy's long pant suits 3.00 to 8.75 Child's knee pant suits 95c to 4.00.

Winter Overcoats are being placed in stock now.

WE DO TAILORING, IT MIGHT INTEREST YOU.

FIREMEN'S GREAT DAY.

Yesterday's Parade Was A Big Success.

FIVE HUNDRED IN LINE.

EIGHT VISITING COMPANIES PARTICIPATED.

Several Thousand People Came To Town To See The Parade—Great Weather—Excellent Appearance Of Marching Companies—Big Dinner At Sangerbund Hall—Speeches Made By Many Prominent Guests.

Under a coludless sky, five hundred of Jersey's finest volunteer firemen tramped through the streets of North Plainfield and of Plainfield yesterday afternoon amid the plaudits of an enthusiastic crowd and the fluttering of flags and bunting on every hand. It was the most successful gathering of its kind in the annals of the local departments, passing off without a mishap to mar the general enjoyment. For half a day the visiting firemen simply owned the town and there wasn't anything too good for them. They went everywhere and the strains of martial music could be heard at every street corner until late at night when the last of the visiting companies departed homeward.

The weather bureau gave out that showers might be expected during the afternoon but they never came. It was warm, more like August than October, but never a cloud put in its appearance. The streets soon became dusty with the unusual traffic and the warmth was severely felt by the firemen with their heavy dress coats. Aside from the heat, the weather was ideal for the parade.

The efforts of the North Plainfield department, under whose auspices the whole affair was conducted, had spread the news of the parade far and wide. As a result there was an army of several thousand spectators beside the firemen who gathered in city and borough at the hour for starting. Sidewalks were crowded and the people good humoredly pushed and shouldered each other as they lined up along the curbs. The borough schools were closed for the afternoon and the small boys went positively wild over the music, the many uniforms and the excitement of it all. Even the older ones felt the thrill of the occasion. It has been long since Plainfield has had such a rousing time.

William C. Smith was marshal of the parade and he had everything down to a system so, with his assistant marshal, John P. Emmons, he was enabled to get everybody where they belonged and the parade ready to start within twelve minutes of the appointed time, 2:30 o'clock.

The line of march published in the Daily Press was followed without deviation. During the morning the borough and city streets along which the parade was to go simply blossomed out with a grand array of flags and tri-colored bunting. Every house and every store had its decoration, some of them quite elaborate. Every piazza and window was filled with watchers who applauded and waved at the passing freemen.

The committee in charge made its headquarters at Spencer's store on Somerset street, and there the invited guests were received and placed in the waiting carriages. Marshal Campbell with two others of the borough police force were on hand to head the procession. Two marshals on bicycles preceded it.

The parade started with the following formation:

Chief Marshal, William C. Smith.

Invited guests in carriages.

Mayor Newton B. Smalley, of North Plainfield, Mayor George W. Rockfellow, of Plainfield, Assessor Elston M. French, of North Plainfield, and City Judge William N. Runyon, of Plainfield.

Andrew Love, Sr., of the Board of Health, and Superintendent John Adelmann, of the Plainfield Street Railway.

Former Assemblyman A. V. Van-Doren, of Millstone, Former Mayor B. A. Hegeman, Jr., Councilman S. S. Swackhamer and Attorney Francis J. Blatz.

Senator Charles A. Reed, Assemblyman E. E. Cooper, of Warren, Councilman George T. Rogers and Councilman John Valiant.

Borough Clerk Frank W. Rowley, Borough Collector George F. Brown Councilman Robert Clark, Jr., and Councilman Harrison Coddington.

Mayor E. M. Updyke, of Bound Brook, Former Mayor John H. Van Winkle, F. I. Woodhull and Jacob Kriney.

Dr. J. H. Buchanan, Dr. Zeglio and Dr. Mattison.

Freeholder Andrew Lutkins, Surrogate Newton Spencer, former Borough Clerk Harry Brokaw, of Somerville, Street Commissioner Thomas Dowd and Jacob Voehl.

Chief George H. Fairchild, and Assistant Chief William Demarest, of the North Plainfield Fire Department; Chief T. O. Doane and First Assistant Chief J. W. Murray, Jr., of the Plainfield Fire Department, Former Chief Andrew Carney.

Bartow's Band, of Cranford, 20 pieces.

Exempt Firemen's Association, of Plainfield. J. E. Flannery, marshal; Joseph Blimm and Charles S. Burnett, assistant marshals. 80 men and silver hose carriage.

Liberty Band, of New Brunswick, 20 pieces.

Princeton Fire Department, First Assistant Chief Jesse Snook, Second Assistant Chief Chas. McDermott. Mercer Engine Company, No. 3, 40 men and hose wagon. Foreman Edward C. Kopp, First Assistant Foreman Charles E. Seger, Second Assistant Albert Stryker.

L. D. Fife and Drum Corps, of Perth Amboy, 12 men.

Perth Amboy Fire Department, Chief J. H. Terrill, Jr., First Assistant Chief John Kress, Second Assistant Chief T. Chuney. Lincoln Hose Company, No. 1, 60 men and hose wagon. Foreman Charles McKenzey, First Assistant Foreman Hanietta, Second Assistant Foreman William Willer.

Goodwill Band, of New Brunswick, 18 pieces.

New Brunswick fire department, Chief John Banker; First Assistant Chief John Pierce; Second Assistant Chief Charles Banks. Phoenix Engine Company, No. 3, 57 men and steamer, 25 guests, including Board of Aldermen. Foreman Morris Bauer; First Assistant Foreman William Faulkner; Second Assistant Foreman Oscar Bauer.

Orescent Band, of Raritan, 18 pieces.

Raritan fire department, Chief Eugene Dilts. Relief Hose Company, No. 2, 42 men and hose carriage. Foreman John Slattery; First Assistant Foreman A. J. Chamberlain; Second Assistant Foreman Thos. Enright.

Westfield fire department, First Assistant Chief J. A. Dennis. Empire Chemical Engine Company, No. 2, 32 men and chemical engine. Foreman W. B. Toucey; Assistant Foreman J. O. Blenis.

Brown's Band, of Bayonne, 20 pieces.

Bayonne fire department. First Assistant Chief John T. Beck; Second Assistant Chief Harry Phillips. Hope Hose Company, No. 2, 40 men and hose wagon. Foreman Andrew Phillips; First Assistant Foreman S. Osborne; Second Assistant Foreman James Seymour.

Goodwill Fife and Drum Corps, of New Brunswick, 10 men.

Bound Brook fire department, Chief Fred J. Pettengill; First Assistant Chief R. T. Cody; Second Assistant Chief Charles VanNess. Bound Brook Hose Company, No. 1, 60 men and Ivy Hook and Ladder Truck. Foreman David VanNess; First Assistant Foreman Fred Miller; Second Assistant Foreman Chas. Toman.

Independent Fife and Drum Corps, of Plainfield, 14 men.

North Plainfield fire department. West End Hose Company, 20 men and hose carriage. Foreman, John H. Higgins; First Assistant Foreman, Frank Perry; Second Assistant Foreman, Wm. Paasch.

Queen City Band, of Plainfield, 18 pieces.

Warren Engine Company, No. 1, 40 men, steamer and hose wagon. Foreman W. B. Bennett; First Assistant Foreman F. M. Lunger; Second Assistant Foreman E. J. Smith; Engineer, A. F. Brokaw.

The two Mayors and Senator Reed received most of the applause given to the invited guests. There was lots of cheering for the Exempts with their silver hose carriage. The old Gazelle hand engine was dragged to the starting place but owing to the misunderstanding it was decided not to have it in the procession. Bartow's Band was with the Exempts and gave fine music. Five of the musicians were from Sousa's band.

Eight of the Exempts were unable to march over the route and followed in carriages. Among them was William C. Ayres, the only living member of Plainfield's first company, organized in 1832.

The Princeton boys looked well in their uniform of buff frock coats and

FIRE DESTROYED THE DENTON HOMESTEAD

Gave Fire Department a Long Run At 2:30 A. M.

OF INCENDIARY ORIGIN.

IT HAD BEEN PLANNED TO REBUILD THE STRUCTURE.

The House Was Built in 1860, Fire Chief Doane Being One of the Men Employed on It—Now Owned by Miss Emma Egel—Loss on the Building Will be $2,500, With Insurance of $1,000 on It.

The burning of the old Denton homestead on Hillside avenue early this morning gave Plainfield a vivid illumination. The fire, which was undoubtedly of incendiary origin, was probably started to give the visiting firemen a little excitement that was not down on the programme. It came too late, however, for most of the visitors had left when the alarm came in from box 76 at 2:30 o'clock this morning.

The Denton homestead stands on the high ground just south of Prospect avenue. It formerly belonged to the Denton estate but was recently sold to the S. D. Drake Realty Company with the rest of the Denton farm for the opening up of that section for building. The house itself was recently sold to Miss Emma Egel, of Lincoln, who had the plans all drawn and was intending to move the house to another lot and entirely remodel it. The house was built in 1860, when Chief T. O. Doane was employed on it.

When the apparatus reached the scene of the fire, the roof was all ablaze and the flames were roaring out of the windows. The interior was like a furnace. There is no clue to the origin of the fire, but as the house was vacant incendiarism is the only probable solution. It is supposed that the fire was started in the kitchen or at the foot of the back stairs and spread all over the house before the flames showed themselves. The walls of the house are nearly intact, but the roof is entirely gone. The rooms of the second floor are completely gutted, while those on the first floor are not much better off.

The building is estimated to be worth $3,500, and the loss is placed at $2,500. It was empty. The insurance on the house amounted to $1,000 with E. M. French & Co.

The fire broke out again this morning and Chief Doane and No. 2 hose wagon went to the scene of the fire and the ruins were thoroughly soaked.

SEVERAL ARE WILLING.

SOMERSET DEMOCRATS WILL NOT HUNT FOR SENATORIAL NOMINEE.

Four Names Already Loom up for the Honor—James J. Bergen Making an Active Canvass—Candidacy of Elston French.

The fight for the Senatorial nomination in Somerset county is in full swing. In the Republican ranks the Reed and Thompson factions are now fighting openly, the former for his own nomination and the latter for the nomination of ex-Sheriff Dilts, of Raritan. The convention will doubtless be an exciting one. As a result of this factional strife, the Democrats, who are in the minority, stand a fair chance of winning.

The most popular candidates among the Democrats are Jas. J. Bergen, Elston M. French, Samuel S. Childs and Nelson Y. Dungan. The first named is the only one who is making any great effort to obtain the nomination.

Elston M. French has many friends throughout the county and will probably have the hearty support of the North Plainfield Democrats, for he has been an ardent worker in the party's interest for years and is regarded as a thoroughly campable man for so important an office. His record in the office of borough assessor is a creditabe one, and in his study of taxation problems he is fitted for work that is bound to become very important in the Legislature, and in which Somerset county will be greatly interested.

The chances are in favor of Mr. Childs' election to the Assembly if he accepts that nomination, but the party may not consider it wise to give the Senatorial nomination to one who was so recently defeated for the Assembly.

In reference to Prosecutor Dungan's canvass, it is said that he is not working particularly hard for the nomination. The only thing against him is that in performing his duties as prosecutor he has made many enemies among the liquor men, but this fact may benefit him in some quarters. He is a member of several lodges, whose members will doubtless support him.

HAND CLUTCHED LIVE ELECTRIC LIGHT WIRE.

Walter Bennett's Narrow Escape From Being Killed.

UNCONSCIOUS WHEN FOUND

DR. ZEGLIO WORKED NEARLY AN HOUR TO BRING HIM TO.

Was Removing the Decorations on Warren Engine House When He Came in Contact With the Wire—Hole Burned Into the Flesh Where Wires Touched—Found by Julius Stahl on the Roof.

Walter Bennett narrowly escaped being killed this morning while at work on the roof of Warren Engine Company house taking down some of the decorations and removing electric light wires. He had been working for sometime alone, when Julius J. Stahl came along and thought he would go on the roof and assist Bennett.

When he reached the roof he found Bennett lying prostrate on his back in an unconscious condition. He held fast to an electric light wire and had evidently been unable to let go.

As quickly as possible Dr. Zeglio was sent for, and in the meantime Mr. Stahl released Bennett's grasp. The doctor arrived in a few minutes and worked for three-quarters of an hour before he finally succeeded in rendering him conscious and bringing him out of danger.

The wires that Mr. Bennett was handling were used last evening to illuminate the decorations in front of the house. They carried the regular street light voltage, which is pretty high sometimes. The injured man's hands were terribly burned to the bones and he will be uable to use them for sometime. He did not realize what he was doing at the time of the accident, not being an electrician. About noon Mr. Bennett was removed to his home.

A CLEVER ENTERTAINER.

Royal S. Goldsbury Pleased All Who Heard Him in the Y. M. C. A. Hall Last Night.

Last evening at the Y. M. C. A. Hall, under the auspices of the Christian Endeavor Society of Trinity Reformed church, a large and appreciative audience assembled to enjoy an entertainment given by that peerless impersonator, Royal S. Goldsbury. From beginning to end he kept his audience roaring with laughter, and his witticism produced a happy effect on all.

Edgar Sheppard, president of the society, was in charge, and he assisted in making the affair a pleasant one. A feature of the entertainment was the first public exhibition in this city of the wonderful piano player, the "Angelus," by Messrs. Vanderbeek & Sattels. This is a wonderful instrument and as manipulated by Mr. Sattels was a pleasure to all. The entertainment was a success financially and otherwise.

Stole Eighteen Bunches of Celery.

A mean thief entered the yard of Charles Kiederling, East Front street, last evening and stole eighteen bunches of fine celery. A neighbor happened to see a person enter the yard, and the party was identified as a woman. She left a tub outside of the gate, and it is supposed she placed the celery in it. Mr. Kiederling is almost sure he knows the party and he advises her to return the same be action is brought against her.

Governor Couldn't Come

It was a disappointment to many yesterday that Gov. Voorhees was not present at the firemen's parade. Wednesday evening he informed Senator Reed that he would probably be present, but something must have happened to keep him away. It is seldom that Plainfield or the borough has a chance to see its chief executive, and he would have received a warm welcome yesterday.

Tendered a Surprise.

At a recent meeting of the members of the Minerva Sewing Circle a surprise was tendered to Mrs Sadie Bowman in connection with her birthday celebration. The members presented her with a handsomely embroidered table cover which was a complete surprise. The meeting which was to have been held yesterday was postponed until next week on account of the firemen's parade.

Thrown Out of Court.

The assault case of Hensinger against Rheinekop, which was called at Somervillie Wednesday before Judge Bartine, was thrown out of court. The Judge said that in his opinion one was as much to blame as the other.

—The Republican county executive committee meets this evening at Elizabeth.

LOST HIS ARM IN A HURRY TO GET HOME

Terrible Accident That Happened to a Raritan Fireman.

FELL FROM A COAL TRAIN.

JAMES CONBOY HAD MISSED A PASSENGER TRAIN.

Said to Have Been Slightly Intoxicated—Arm Crushed So That It Had to Be Amputated at the Muhlenberg Hospital This Morning—Laid at Side of Track Unconscious for Some Time.

The only accident that happened to mar the festivities of yesterday was that which befell James Conboy, aged 22 years, a member of Relief Hose Company, of Raritan, but as the unfortunate affair occurred at Bound Brook it really cannot be said that it had anything to do with the celebration here.

Conboy is a weaver and he was anxious to reach home in time to go to work this morning. It was late when he left Plainfield, and upon arriving at Bound Brook he learned that it would be a long time before a passenger train would go to Somerville. He had been drinking some and he determined to get home if he had to go on a coaler. It was not long before one came along and Conboy made an attempt to get aboard.

He missed his footing and went under the train. That the man was not killed is a mystery. His injuries were bad enough, however, and as a result he loses his arm from a point just below the shoulder joint. He fell by the side of the tracks, after his arm had been so horribly mangled, and became unconscious. The accident is supposed to have happened about 4 o'clock this morning and it was about 5 o'clock when the man was found.

Dr. Fisher, of Bound Brook, was called and after ascertaining the man's condition, decided it was best to send him to the hospital. This was done and the man was taken there in the ambulance about 6 o'clock from the North Avenue Station. Today about noon the arm was amputated, and although Conboy is suffering considerable from shock, it is believed he will recover.

FOLLOWED THE CROWD.

CONGRESSMAN DALY MINGLED WITH THE FIREMEN.

He Was Scheduled to Speak in Somerville. But When He Got There He Found the Attendance Was Too Slim.

Among the prominent guests who attended the banquet given to the visiting firemen by the North Plainfield fire department last night after the parade was Congressman Wm. D. Daly, of Hoboken. Congressman Daly was scheduled to deliver an address at the Somerset county fair grounds yesterday afternoon, but when he arrived there he found the audience so slim that he decided not to speak.

Instead he followed the crowd and came to Plainfield unannounced, where he had no sooner arrived than he was captured by a number of friends and was soon one of the shining lights of the firemen's celebration.

He made up for his loss at Somerville by delivering a speech to the firemen at Saengerbund Hall. He was greeted with great applause, but eschewed politics in his talk.

Afterwards he had a long talk with James E. Martine, one of the leaders in Union county who recently expresseed dissatisfaction with the address issued by the "True Democrats," of which Congressman Daly is chairman.

A humorous part of Congressman Daly's trip to this section was the fact that yesterday the Newark Advertiser printed the speech the Congressman was supposed to deliver in Somerville. Mr. Daly had furnished the speech in advance to the papers and in lieu of other information the address was printed, it being introduced with a graphic account of how he was received by the crowd at Somerville.

SAYS HE IS GUILTY.

Vail Passed Bogus Checks Because His Family Was Destitute.

Edgar R. Vail, who was charged with passing bogus checks on H. A. Weber, the groceryman, and Charles Arnold, the butcher, was arraigned before Justice Moffett yesterday afternoon. Vail admitted his guilt. His excuse was that his family was starving when he issued the checks. The check which Weber cashed was for $15, and the one passed upon Arnold was for $5. Vail gave bail in the sum of $100 for his appearance before the Grand Jury. His father went on his bond.

THE PRIMARIES TONIGHT

REPUBLICANS AND DEMOCRATS BOTH MEET TONIGHT.

Republicans Who Are Slated to be Delegates—Democratic Delegates Will Probably be for French for Senator.

This evening the Republican primaries will be held in the basement of the borough public school for the purpose of selecting four delegates from the borough to attend the county convention to be held at Somerville next Wednesday.

There is every prospect that the men to be chosen will be Mayor Smalley, Former Mayor B. A. Hegeman, Jr., Dr. J. H. Cooley and Councilman Clark. It is quite likely that Mr. Wolfert will be selected to represent the township. The meeting will be held at 8 o'clock and a full representation is desired.

It might be added that there seems to be no doubt but what the delegation will go to Somerville with the idea of supporting Senator Reed for a renomination.

The Democrats of the borough have arranged to hold their primaries this evening in Saengerbund Hall and Dreyer's Hotel. Of course the slate is fixed as to who shall be selected to go to Somerville and attend the county convention. It is understood that the delegation will be for Elston M. French for State Senator. The primaries will be called at 8 o'clock and every Democratic voter is urged to attend.

WHY THE OLD ENGINE DIDN'T GO.

Majority Did Not Want To Pull It on Account of Its Weight.

There was one disappointment in yesterday's parade and that was the failure to have the old Plainfield hand engine in line. Arrangments had been made by several members of the Exempt Firemen's Association to take the old standby along. At the last minute it was discovered that the pole on the engine would not work and horses could not be used. Then a number of members volunteed to pull the engine and it was taken to Craig place, the place of formation. Then there was trouble.

Through the disinclination of a majority of the members the engine was not taken along. Only eight members could be found who would pull the engine on account of its weight. This action caused regret on the part of the lovers of the old apparatus, and one of the oldest firemen sat down on the curb and shed tears because of the failure to take the engine along. J. M. C. Smith, a member over 80 years of age, came a long distance for the purpose of assisting in taking the old engine out.

ASSAULTED PATROLMAN MYERS.

Young Stranger Gave the Officer a Blow in the Face Without Provocation.

Patrolman Nicholas Myers has a pronounced black eye with which to remember the visit of the firemen to Plainfield. Last night Myers was on duty on Watchung avenue. He was close by the Crescent Rink when the fire alarm blew. There was general rush of those inside and the crowd swept past Myers. Without warning a young man, a stranger in town, deliberately struck Myers in the eye, nearly closing it. In the rush Myers was unable to distinguish his assailant who thus escaped unpunished.

BUNDY HELD IN BAIL.

He is a Raritan Man, Charged With Passing Bogus Check.

Dr. Sigmund Bundy, of Raritan, who was arrested at that place Wednesday by Detective Jackes, of Newark, on a charge of passing a fraudulent check for $94 60 on Emil Schill, of 388 Hunterdon street, Newark, was held in $500 bail for the Grand Jury yesterday. Bundy passed the bad check May 31st and the warrant was issued for him June 21st last.

Doing Missionary Work.

The missionary committee of the Woman's Guild of the Church of the Holy Cross have organized for the season and will hold its meetings each Tuesday in the guild room at 2 o'clock. A great deal of work has been mapped out for the winter, and the chairman, Mrs. George P. Dupee, is hoping to get off several boxes of clothing for India's missions before Thanksgiving. Great interest is manifested in the work of the guild and all its branches.

Saw the Department Run.

The out-of-town firemen had a good chance last evening to see the Plainfield fire department turn out for a fire. An alarm was sent in from box 19, corner of George and Johnston streets, at 9:25 o'clock. The fire was only a burning brush heap and the visitors returned to town disappointed.

Miss Eva Estelle Wilkins, of East Fifth street, returned today from Bordentown where she attended the wedding of Miss Mary Brucker held in the Grace Episcopal church.

METUCHEN WANTS PLAINFIELD TROLLEY.

Everybody in That Town Is Anxious For Connecting Line.

FAVOR A LINE TO AMBOY.

PLAINFIELD'S SUPERIOR STORES A BIG ATTRACTION

The Trolley Line to New Brunswick is Not Enough For Metuchen—New Brunswick's Stores are Behind the Times—Middlesex Will Give Brunswick Co. a Right to City Lines.

Metuchen wants a trolley line to Plainfield. The good citizens of that place are extremely anxious to see such a line in operation as soon as possible. They have been for a long time but the recent visit of the officials of the Brunswick Traction Company over the route of the proposed line has renewed the enterest in the movement. If Plainfield will do her share in allowing the Brunswick Company to enter on the southern side of this city, the Metuchen people declare that Middlesex county will be glad of the opportunity to open up the section of land between Metuchen and the Plainfield city line.

The visit of a Plainfielder to Metuchen a few days ago showed that there was an almost unanimous feeling in favor of trolley connection with Plainfield. The merchants are, strange to say, a unit in favor of the line. The hotel men are enthusiastic for it. The purchasing public of Metuchen are particularly anxious for the trolley line. While there is a trolley road to New Brunswick, the stores of that city do not offer half the attractions that those of Plainfield do.

It is conceded by the people in all this neighborhood that the stores of Plainfield are far ahead of those of any of the surrounding towns. New Brunswick has nothing that can in any way compare with the stores of this city and the people of Metuchen appreciate the fact. So it is not surprising that they are so anxious for rapid transit to Plainfield.

The proposed line between Plainfield and Metuchen would open up a section of Middlesex county that is now compelled to depend on horses and bicycles as the only means of transportation to the neighboring towns. There is little doubt but that the property owners along the so-called "back road" will be very glad to give the necessary consents to the representative of the Brunswick Traction Company the moment he appears. As far as they are concerned, the trolley cannot come too quickly.

Besides trolley connection with Plainfield, the people of Metuchen are quite anxious to have a line to Perth Amboy. The Brunswick Traction Company is working with that end in view now it will undoubtedly be constructed in a course of a year. When this line is completed, it will open up communication between Staten Island and this part of the county by a much nearer route than exists at present.

MISS HUNT A BRIDE.

Marriage Took Place at the Home of Peter S. VanFleet—Groom From Connecticut.

A number of relatives and friends assembled at the home of Mr. and Mrs. Peter S. VanFleet, 703 West Front street, Wednesday evening to witness the marriage of Miss Grace Hunt, daughter of Mr. and Mrs. B. F. Hunt, formerly of Westport, Conn., to George E. Pouch, of Connecticut. The ceremony took place at 9 o'clock and was performed by Rev. Cornelius Schenck, Ph. D., pastor of Trinity Reformed church.

After tieing of the matrimonial knot, congratulations were offered, supper was served, and dancing was enjoyed by the guests. At a late hour the bride and groom left for a wedding trip, after which they will reside in Connecticut. Music was furnished by Prof. Frazee.

Y. M. C. A. Worker to Speak.

Frank L. Smith, one of the Y. M. C. A. Army and Navy Secretaries, a man of wide experience in Y. M. C. A. work among the Army and Navy, has consented to deliver an address Sunday evening next in Trinity Reformed church, at 7:30 o'clock. Mr. Smith is a very entertaining speaker and those who listen to his address will be well repaid.

Old Ball Player Greeted.

John Harkins, once famous in baseball circles and a terror to Plainfield's team, was a guest at the borough parade yesterday and marched over the whole line of march. He did not seem to mind it in the least and he received an ovation along the line.

CHARGED THE FILIPINOS.

Bacheler's Battalion of the 24th Infantry Puts the Enemy to Flight.

THE NATIVES RETREATED

Americans Suffer Practically No Loss and Very Little Inconvenience During the Skirmish.

More Fighting is Expected to Take Place Near Manila—Arayat Captured By Our Forces With Little Resistance—War Department Receives News From Otis.

Manila, Oct. 13.—Gen. Young entered Arayat after half-an-hour's fighting. Major Bacheler's battalion of the 24th (negro) Infantry charged three hundred Filipinos, who retreated in the direction of Magalang. The American loss was one man slightly wounded. Four of the enemy were killed. The remainder of Gen. Young's forces, consisting of a battalion of the 22d Regiment and the gunboat Florida, under command of Lieutenant Dalton, were not needed and arrived after the town had been captured.

The ground was too soft for work by mounted men and the cavalry was held in reserve.

Official Word From Otis.

Washington, Oct. 13.—Gen. Otis in a cable despatch to the War Department, gives further particulars of the advance of the American troops into the country occupied by the Filipinos. Gen. Schwan's return from Manila was only temporary. He is now leading a flying column into the country south of Manila for the purpose of driving hostile natives from the towns of Perez, Dasmarinas and Saban.

Gen. Young's advance into the north country is more important than at first reported. He has now established his headquarters at Arayat and will be joined there by the forces under Gen. Lawton. When the concentration has been completed Gen. Lawton will take command of that expedition.

A battle south of Manila is expected at any moment, as the Filipinos in the vicinity of Saban are in force and will offer resistence to Gen. Schwan's troops. His column consists of the 13th Infantry, one battalion of the 14th Infantry, one troop of the 30th Cavalry, and Light Battery F, of the 5th Artillery. To reinforce Gen. Schwan 500 men now at Imus have been directed to move toward Saban and form a junction with him. It is evident that Gen. Schwan's movement is only temporary, as he has sent his transportation back toward Manila by way of Bacoor. Supplies for Gen. Young's column are being sent in cascoes up the Rio Grande toward Arayat.

Gen. Otis's despatch says:

Manila, Oct. 12.

Adjutant General, Washington:

"Schwan's column moving on Saban and Dasmarinas, to-day, where opposition expected. His artillery and wagon transportation returning to Bacoor by way of Rosario. Column of 500 men marching from Imus to support Gen. Schwan if necessary.

"Young at north occupied Arayat and supplies being moved up Rio Grande by cascoes to that point. Lawton will command column when full concentration effected. Young's loss was one enlisted man, wounded yesterday. Natives attacked Angeles line, quickly repulsed, six enlisted men were slightly wounded.

Will Crush the Yaquis.

Chicago, Oct. 13.—A despatch from Chihuahua, Mex., says that Col. Antonio Ramos Cadena and Lieut.-Col. Hauro Candano of the Mexican army have arrived there on their way to take command of reinforcements that are being sent against the Yaqui Indians. Those officers will join the Mexican troops near Potamu. They say the War Department has issued orders for an immediate decisive campaign against the Indians.

Quarreled and Jumped to Death.

Hickman, Ky., Oct. 13.—In a dispute over business affairs Free Hopen shot and dangerously wounded his partner, T. L. Eversole, after which he commited suicide by jumping into the river. Bad feeling had existed for some time between the men, who were proprietors of the flouring mills at this place. Both men were prominent in business circles, and Hopen was a member of the City Council.

Rockefeller Corners Lake Freights.

Cleveland, O., Oct. 13.—A battle between the Rockefeller and Carnegie interests on the Great Lakes, which has been under way for several days past, culminated apparently in favor of the former. Mr. Rockefeller has practically cornered the lake freight market and the Carnegie Company must now pay double this year's carrying charges on iron ore next season.

The Marietta Sails for Manila.

Washington, Oct. 13.—The gunboat Marietta has started on her long voyage to Manila from Alexandria, Va., seven miles down the Potomac from Washington. She will stop at Lambert's Point, Norfolk, to get coal and will proceed thence to Gibraltar. The gunboat Machias, also destined for Manila, has arrived at Alexandria from Washington.

Cash for the Refugees.

London, Oct. 13.—Five of the leading South African firms in London have subscribed £5,000 each to the Lord Mayor's fund for the relief of the refugees.

Died of Starvation.

Wabash, Ind., Oct. 13.—Absalom E. Haas died here of starvation, having been unable for many months to eat food to sustain him.

Tallon Sails for America.

London, Oct. 13.—Daniel Tallon, lord mayor of Dublin, has sailed for the United States on board the White Star steamship Majestic.

NEW TROLLEY LINE IS NEARLY FINISHED.

A REVIEW OF WORK AND INFORMATION FOR THE FUTURE.

Originally Published in The Elizabeth Journal and Reproduced in The Daily Press by Courtesy of The Journal.

When the Elizabeth and Westfield Street Railway Company finishes its work on the line now in course of construction, and it is opened, it will be one of the biggest events in trolleydom yet recorded in Northern New Jersey.

With commendable enterprise the Elizabeth Journal has compiled a history of the enterprise up to date, which also includes a wealth of interesting information concerning the methods to be used in operating the line, which will connect with the Plainfield Street Railway Company. Through the courtesy of The Journal, The Daily Press is enabled to reproduce several interesting parts of the article, as well as a view of the route of the trolley and pictures of the chief officers of the company. It is as follows:

The Westfield and Elizabeth Street Railway Company, of which the Hon. Chandler W. Riker is president, Colonel Edwin W. Hine, secretary, and Adrain Riker, a director, was incorporated Jan. 11th, 1897, with a capital of $250,000. The object of the company was to build a trolley line from Elizabeth to Plainfield. Representative A. A. Gaddis came to Westfield and first began talking trolley to the people nearly three years ago. Today every franchise has been secured, excepting for the section in Elizabeth, and the road is rapidly nearing completion. There remains about one-half a mile to be built between Westfield and Scotch Plains, and then cars will be running from Plainfield to Roselle. This work, it is expected, will be completed inside of one month, and cars will be running by Nov. 1st to the Elizabth city line.

The estimated cost of building this line between Elizabeth and Plainfield will amount to $450,000. The great amount of street grading, macadamizing and opening a private property secured by the company has already cost a mint of money. Nearly six miles of boulevard, 80 feet wide, will be secured by the several municipalities through which the trolley will run, and the benefits to property owners, the municipalities and the people can hardly be estimated.

The Cars.

The cars to be used by the Westfield and Elizabeth Street Railway Company over the main line will be unlike any used in this section of the country. At first it was the intention to use the double deck cars. This, however, could not be done on account of the overhead brides located along the line.

The company is now considering the adoption of a style of car which is not only a beautiful conveyance, but a comfortable vehicle. These cars are adapted for winter and summer use, and can be changed to suit one condition of the weather to another in a few minutes. The cars resemble the Broadway cable cars used in New York city. The windows are much larger than usual, and slide completely out of sight when an open car is desired. By simply closing the windows and turning on the electrical heating apparatus the car is converted into a winter one. These cars are also vestibuled and are designed to not only protect the passengers but also the motorman and conductor from the extreme cold of winter. The cars are lighted throughout by electricity, and the seats are highly upholstered. The cars are the same as are being used very successfully by the Twin City Transit Company, of Minnesota, which road connects St. Paul with Minneapolis.

For some time the company has been considering the style of car with which to equip the road, and it is almost certain that this style of car will be used. While on his vacation this summer Col. Hine visited the shops of the Twin City Transit Company at Minneapolis, and inspected these cars, which he will recommend to the company. There is no car to compare with this. The idea of a suitable car for a double track road has been shown to be worked out successfully by the adoption of these combination cars in the west. As a comfortable conveyance for the traveling public there is nothing in the shape of a trolley car in the east to equal these cars. The cars will run under fifteen-minute headway, making four cars an hour between this place and Plainfield.

The cars will be beautifully painted and lettered. Along the body of the car will be painted "Westfield and Elizabeth Street Railway Company." The signs on cars will read as follows: "Elizabeth and Plainfield," "Roselle," "Cranford," "Westfield."

Map of the Route.

The route of the Westfield and Elizabeth Street Railway Company trolley, to connect Plainfield with Elizabeth, is clearly shown on the above map. At the Dunellen line, where the cars of the Plainfield Street Railway Company connect with the cars of the New Brunswick Traction Company for New Brunswick, the line commences.

Beginning at a point in Front street in Plainfield, thence over that thoroughfare, touching the Clinton and Grant avenue stations of the Central Railroad, and continuing on to Watchung avenue, passing through the business sections of Plainfield to the Plainfield depot.

Thence to Fifth street, through Fifth street to Richmond street, where connection is made with the branch trolley running to Netherwood. The main line continues through Richmond street to Second street, thence through Second street to a point about 300 feet east of Netherwood avenue, which avenue runs to the depot on the north side of of the Central Railroad.

From the point east of Netherwood avenue the line runs over a private right of way known as the extension of Second avenue to Scotch Plains or Fanwood township. This private right of way will be a boulevard 80 feet wide, and passes through the lands of the estate of Elias Cole, the J. K. VanNess property, and Mrs. Mary McCrea's property to the Plainfield city line.

Thence continuing over pr vate right of way and boulevard in Fanwood township through the lands of the estate of Warren Ackerman, William H. Brower, Aug. G. Shepard, Charles N. Flanders, John R. Marsh, to Park avennue in Scotch Plains or Fanwood township.

The line then crosses Park avenue into Westfield avenue, and runs on a 56-foot street for about 1,000 feet with single track, again turning into a double track, and an 80 foot boulevard which was dedicated by the property owners; still along Westfield avenue to Westfield road, crossing Westfield road; thence through private property being the extension of Westfield avenue, and still continuing on an 80 foot boulevard through Cook's property and the properties of Ackerman, Sheelan and the Osborn estate and Austin properties to the intersection of the Jerusalem road and Morse avenue at the Westfield avenue township line.

All of the foregoing is boulevard with the exception of the 1,000 feet mentioned. Continuing along the Jerusalem road in Westfield township to Brightwood avenue, to Prospect street, to a point about 1,400 feet north of Dudley avenue; thence through private property, making another 80-foot boulevard through the lands of Richard N. and Robert M. French, a portion of the Amos Clark property, Mrs. Mapes property, and the A. D. Bloodgood property, making the extension of Elm street to Elm street proper, at the intersection of Dudley avenue.

Continuing over Elm street to Broad street, the main business block in Westfield; thence over Broad street to Westfield avenue, the county road, crossing under the Central Railroad to South avenue, touching the Westfield depot at Summit avenue; thence over Summit avenue to Grove street, to Central avenue, crossing Central avenue, the county road, at right angles to a private right of way, through the Ripley estate, now owned by the Westfield Land and Improvement Company, of which William S. Welch and J. S. Irving, of Westfield, are the principal owners, continuing on through the Garwood Land and Improvement Company property to Spruce street, to Centre street, to the Garwood depot. Centre street is an 80 foot boulevard, and was originally so made by the land company. At South avenue and the end of the Westfield township line the trolley line turns into South avenue and runs in Cranford township over a straight line on that thoroughfare, touching the Cranford depot at Walnut street. Continuing along South avenue to Aldene, where the line touches the Aldene depot on the Central Railroad, and the Faitoute depot on the line of the Lehigh Valley.

South avenue, near this point, merges into First avenue, Roselle; thence over First avenue to a point 100 feet west of Locust street in Roselle, through private right of way to Second avenue, the boulevard to be widened to 81 feet feet and paved from curb to curb; this boulevard runs from Locust street to Sheridan avenue; at Sheridan avenue the line turns at right angles, and runs thence over Sheridan avenue to Third avenue, to the line of the city of Elizabeth, which is located in the woods a short distance east of Dark lane, at Lorraine.

Third avenue is Jersey street in Elizabeth, and it is over this thoroughfare that the line will likely come into Elizabeth, connecting with the West Jersey street line of the North Jersey Traction Company running to Bread street at Elizabeth.

Anotner proposed connecting link to get into Elizabeth is through Pennington street, or private right of way, and connect with the West Jersey street line near Grove street. Still another connection might be made by going over private right of way to Bayway to El Mora station, and then making connection with the north side trolley. The intention is to make the connection on the south side of the Central Railroad tracks with the West Jersey street trolley at Elizbeth. The connecting link may be made over Jersey avenue to the Jersey street line, or over Jersey avenue to Bayway; thence over Bayway or private right of way to Pennington street, to Jersey avenue, and the Jersey street line, or over private right of way paralleling Pennington street.

Consents have been obtained from the required number of property owners on Jersey avenue at Elizabeth, and the map of the connecting link, together with the application for a franchise, will be presented at the next meeting of the city council to be held on Monday evening, Oct. 16.

The length of the line is 63,700 feet from Plainfield to the city line of Elizabeth, or about 12 miles. There is 8,600 feet of the road in Plainfield, 12,100 feet of road in Fanwood, 18,500 feet in Westfield, 11,700 feet in Cranford, and 12,800 feet in Roselle.

Rates of Fare.

The rates of fare from Elizabeth will be as follows: To Roselle, five cents; to Cranford, five cents; to Westfield, seven cents; to Scotch Plains; ten cents, and to Plainfield, fifteen cents.

The main line will connect with all lines of the North Jersey Traction Company in Elizabeth, and the Plainfield Street Railway Company at Plainfield.

A twenty-cent fare will be charged when transfers are to be given over the Plainfield lines to all points and Dunellen, and the Elizabeth lines to all points, including the Newark line. Transfers will also be given over the cross country line. When that line is completed the rates of fare will be determined.

In time the main line will connect with an extension of the Plainfield line to Hillside cemetery, which line will run over Woodlawn avenue, through Oak Tree, connect with the Plainfield golf links, and on to Metuchen and connect there with the New Brunswick lines. One of the conditions of the last franchise granted the Plainfield Street Railway Company was, that it build to connect with the Hillside cemetrey. This petition is now pending, and the road will likely be built in the spring.

School tickets will be issued, the same to be sold at half fare, to be good when presented by a scholar going or coming from school between the hours of 8 a. m. and 5 p. m. The fare over the main line of the Westfield and Elizabeth Street Railway Company's trolley is placed at the rate of one cent a mile.

The Westfield and Elizabeth Street Railway Company has its line completed excepting a small portion at Roselle and Fanwood, which work can be done very quickly. The company will ask the City Council at its next meeting for a franchise over Jersey avenue at the point where that thoroughfare begins at West Jersey street, on the line of the North Jersey Traction Company, where it proposes to connect with the line to be built on Third avenue in Roselle, the same being a connection of Jersey avenue at that place.

A trolley line to the suburban section means a great benefit to the business houses and stores of Elizabeth, a boom for suburban property, and rapid transit between Elizabeth and Plainfield, connecting all the important towns, and such a mode of rapid transit as the people in the outlying districts have never had before. When this road is completed a few minutes' ride in comfortable cars will bring the people to this city, the county seat, to do their shopping from not only Roselle, but from Aldene, Cranford, Garwood Westfield and the immediate vicinity. To ride the entire length of the line from Plainfield to Elizabeth will not require more than thirty-five minutes.

The territory through which this road will pass is thickly populated, Cranford has a population of over 3,000 and Westfield has a population of nearly 5,000. The line passes directly through the centre of each of these important towns, and a cross-country line will be constructed which will connect all the outlying districts of Westfield and Rahway.

A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard street, Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"It soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the Universe." So will everyone who tries Dr. King's New Discovery for any trouble of the Throat, Chest or Lungs. Price 50c. and $1.00. Trial bottles free at L. W. Randolph's Drug store; every bottle guaranteed.

Dr. Lewis, of Seventh street, has gone west on a tour of business in connection with the Seventh-Day Baptist denomination.

Nasal CATARRH

In all its stages there should be cleanliness.

Ely's Cream Balm cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Druggists or by mail; Trial Size, 10 cents by mail.

ELY BROTHERS, 56 Warren Street, New York.

M'KINLEY AT MINNEAPOLIS

Reviews the Parade in Which the Minnesota Volunteers Marched.

GREETED WITH CHEERS.

President and Cabinet Enthusiastically Received in the Metropolis of the Northwest.

Chief Executive Heads the Parade in Honor of Returning Soldiers. The Volunteers Are Treated to an Elaborate Banquet at Which the President Speaks.

Minneapolis, Minn., Oct. 13.—When President McKinley and party arrived in this city an immense crowd was assembled at the railway depot to greet the Chief Executive.

As he emerged from the train tremendous cheering began, and was taken up by the waiting crowds and carried down the line for blocks.

Carriages conveyed the President and Cabinet to the home of Thomas Lowry. Here a light luncheon was served.

Meanwhile the train bearing home the Thirteenth Minnesota Volunteers from the Philippines arrived and was greeted with tremendous cheering. The regiment formed in line at the head of Nicollet avenue.

Carriages bearing President McKinley and his Cabinet drew up and took their positions at the head of the column.

The procession passed down Nicollet avenue to the centre of the city. At Tenth street the President entered the reviewing stand and the Philippine veterans passed before him.

As the rear guard passed the reviewing stand the President entered his carriage and drove by a shorter route to the Exposition building.

Here within the building in which the Republican convention of 1892 nominated Benjamin Harrison for President of the United States under the chairmanship of William McKinley, was spread a feast for the volunteers.

At the conclusion of the banquet President McKinley was introduced by President Cyrus Northrop, of the University of Minnesota, and made a speech in which he said:

"The great powers, under the inspiration of the Czar of Russia, have been seeking together in a parliament of peace, seeking to find a common basis for the adjustment of controversies without war and waste. While they have made peace more probable, and have emphasized the universal love of peace, they have made a gain for the world's repose. Americans, while rejoicing in what was accomplished, rejoice also for their participation in the great cause yet to be advanced, we trust, to more perfect fulfilment.

"We have had wars with foreign powers, and the unhappy one at home—but all terminated in no loss of prestige or honor or territory, but a gain in all. The increase of our territory has added vastly to our strength and prosperity without changing our republican character. It has given wider scope to democratic principles and enlarged the area for republican institutions."

In referring to the Eighth Army Corps the President said:

"I have come from the capital of the Nation that I might give the Nation's welcome to a regiment of the Nation's defenders. I have come to speak the voice of love and gratitude which comes from every American heart that loves the Flag. I have come to bid you welcome because you did your duty, and that is the highest tribute that can be paid to any soldier anywhere. I do not think the members of this regiment, or the regiments constituting the Eighth army corps in the Philippines realize the importance and heroism of their action after the treaty of peace was signed and ratified.

"I want to say to you men, and to Colonel Summers—General Summers now because of his gallantry—that the officers and men of the Eighth army corps sent to Washington telling me that they would stay in the Philippines until I could create a new army and send it there to take their places.

"I come to bid you welcome and give you the honor of the Nation because you sustained the Flag of the Nation, because you refused to stack arms, refused to sound retreat. And you have come back having a high place in the hearts and effections of the American people and gratitude that will continue for all time."

To Return Indians to Canada.

Helena, Mont., Oct. 13.—Governor Smith has received a letter of inquiry from Secretary of State John Hay concerning the vagabond Cree Indians who now overrun this state, which leads him to believe that the government contemplates sending the Indians back to Canada, where they belong. The Crees are homeless. They took a prominent part in the Riel rebellion, and since that time have been roaming from place to place.

Whitelaw Reid Will Speak.

Princeton, Oct. 13.—Prof. Andrew E. West, chairman of the Committee on the Commemoration Day exercises which will be observed here on Oct. 21, has announced that Whitelaw Reid would be the speaker of the day. Ex-President Cleveland and Dr. Gilman, of Johns Hopkins University, addressed the students in 1897 and 1898, respectively, on similar occasions.

Resigns After Fifteen Years.

Perth Amboy, N. J., Oct. 13.—Charles K. Seaman has resigned the post of Special Deputy Collector of Customs at Perth Amboy, which he has held for fifteen consecutive years under different administrations, and is now Treasurer of the Perth Amboy Savings Institution.

The Dean Richmond Aground.

Fishkill Landing, N. Y., Oct. 13.—The steamboat Dean Richmond is aground off Esopus Lighthouse. She ran on the mud in a dense fog. It is thought that she is not damaged much.

STORAGE, RENTAL AND REPAIRS.

405 PARK AVENUE.

Yes, I am a chemist, and as a chemist I had an engagement for two seasons at Boothbay Harbor in Maine, a place where we took in fish scraps and other refuse and turned out bags of fertilizer, the first smelling about as bad as it could and the transformed substance I thought gave out an odor that was a little worse. I don't know that the smells had anything to do with upsetting my stomach, but I came away from that place with about the worst digestive apparatus I ever knew about and it was complicated with insomnia. When I did sleep I was not much refreshed. With a headache every morning, little sleep and no appetite for food, I lost twenty-five pounds in weight and my friends said my disposition was worse than my physical appearance. It was by the recommendation of a member of a rowing family that I first used Ripans Tabules, but the result was satisfactory and immediate. I soon gained in weight all I had lost and added three pounds more, and never in my life was my appetite better or my sleep more sound and refreshing than now. My daughter, who was troubled with a distress after eating, took some of the Tabules on my recommendation and says she thinks they are splendid. We are both well now. I was 44 years of age on the 17th of February.

A box of six (60) RIPANS TABULES in a paper carton (without glass) is now for sale at some druggists. The low price (5 cents) sets it within reach of the poor and the economical. One dozen cartons (72 tabules) can be had by mail by sending forty-eight cents to the RIPANS CHEMICAL COMPANY, No. 10 Spruce street, New York—or a single carton (SIX TABULES) will be sent for five cents.

We Shine 'em Free, The New Styles in Winter Shoes. Enamel Leathers, Box Calf and Tans.

Sherwins, 149 W. Front St.

POLICE ARE IN THE DARK.

Their Efforts to Unravel the Murder Mystery Are Unavailing.

New York, Oct. 13.—The police are as much in the dark as ever as to the identity of the woman, parts of whose body have been found in various localities in this city during the last few days, and are following up every clew that promises to clear up the mystery. Capt. Schmittberger said that the police were now looking up every midwife in this city and making a house-to-house search in the neighborhood of the West Thirtieth street police station in the hope of finding the missing parts of the woman's body. He said that the most promising clues that the police still had to work on were the stories told by Eric Larssen, the electric cab motorman who thought that he was accosted on Friday night by the man who had distributed the parts of the body, and Capt. Connelly, who was in his barge in the North River on Friday night and saw a woman throw a bundle into the water.

A bundle, containing what was thought might be the viscera of the woman, was picked up in the East River off Pier 28, at the foot of Dover street. Thomas Bagley and Edward Doyle saw the bundle, which was wrapped in a cloth, floating in the river and fished it out. They took it to the Oak street police station, from where it was taken to he Morgue and the coroner notified.

Wabash Must Reduce Fares.

Detroit, Mich., Oct. 13.—State Railroad Commissioner Osborne has filed a petition in the Wayne Circuit Court for a mandamus to compel the Wabash Railroad Company to reduce its rate of fare from 3 cents a mile to 2½ cents. The mandamus is asked for under the general railroad law of Michigan, which provides that when a road's earnings are more than $2,000 a mile they can charge but 2½ cents a mile for fare. The last report of the Wabash showed an earnnig of more than $2,000 a mile, and Commissioner Osborne accordingly notified the company to reduce its rate. No attention was paid to his letter, and the petition was then filed.

Harrison Feels Slighted.

Chicago, Ill., Oct. 13.—Mayor Harrison declares that political manoeuvring and provincialism marked the Fall Festival. He has praise only for Chief Kipley, because of the police arrangements. If another festival is held in Chicago while he is the city's chief executive, Harrison threatens not to take part in it unless the political clubs keep their hands off. To those clubs Mayor Harrison attributes the inability of the people to see President McKinley. When Admiral Dewey comes to Chicago the Mayor proposes to have the city take charge of his reception, or he will decline to receive him.

For a Deep Waterway.

Peoria, Ill., Oct. 13.—Congress is to be petitioned this winter to consider the deep waterway or ship canal project. The deep waterway convention passed strong resolutions favoring the ship canal enterprise, and a committee of prominent workers in the state was named to take the matter in charge. In a few weeks they expect to outline the plan of campaign. They hope to have the liberal support of many leading men in congress. Senator Cullom, in his speech before the convention, pledged his hearty support to the work. Congressman Reeves, Caldwell, Graff and others also pledged their support.

Alexandria Celebrates.

Alexandria, Va., Oct. 13.—Alexandria yesterday celebrated the 150th anniversary of the founding of the town by George Washington. The day parade included Federal cavalry, infantry, artillery, sailors and marines, State military, District of Columbia National Guard, veterans, volunteer and paid firemen, school children and various organizations, societies, &c. The Dolphin, Machias and Marietta lie off the town, which was lavishly decorated and crowded.

Steamship Kennebec Floated.

Whitestone Landing, L. I., Oct. 13.—The steamship Kennebec has been floated. She carried passengers for New York, and ran ashore during the fog at Fort Schuyler Thursday morning. The passengers were landed in a tug here, and took the train for the city. The steamer was not damaged, as she was feeling her way slowly through the fog when she struck on the sand-bar inside the buoy.

Whole Train Leaves the Track.

Chattanooga, Tenn., Oct. 13.—At Nemo, on the Cincinnati Southern, 18 cars of merchandise and provisions were destroyed and Harry Welsh, of Mobile, Ala., was killed in a freight wreck. While going at a high rate of speed a wheel broke on Train No. 31 and the train left the track. Welsh was stealing a ride.

Applied for a Receiver.

Hamilton, Ohio, Oct. 13.—A petition asking for the appointment of a receiver for the firm of William Dinglefeder & Co., lumber dealers has been filed here. The partners are William Dinglefeder, Amelia Webster and Pauline Dinglefeder.

Maas to Represent Transvaal.

The Hague, Oct. 13.—At the request of the government of the South African Republic, the Dutch Consul-General in London, Dr. H. S. J. Maas, will take charge of the interests of Transvaal in Great Britain.

Railroad Roundhouse Burned.

Ft. Wayne, Ind., Oct. 13.—The Wabash roundhouse was destroyed by fire. A strong wind carried burning embers and set many houses afire. Several dwellings were either totally or partially burned.

More Smallpox in Ohio.

Columbus, Ohio, Oct. 13.—The State Board of Health has received a notice that a case of smallpox has developed at Union Furnace, Hocking County, and three new cases at Lancaster.

Rain Stops Lexington Races.

Lexington, Ky., Oct. 13.—The trotting races here had to be declared off on account of rain.

ARE RUSHING INTO NATAL.

Believed That the Boer Forces Are Now Occupying Newcastle.

STILL PUSHING FORWARD

The Paris Representative Informed That War Has Existed Since Wednesday Night.

Boers Reported to be Making Raids Into Zululand—Premier of Natal Confirms the News That Boers Are Crossing Reenan's Pass—Attitude of the United States.

Paris, Oct. 13.—The representative here of the Transvaal Government has officially notified M. Delcasse, the Minister of Foreign Affairs, that war between Great Britain and the South African Republic has been existing since Wenesday night.

London, Oct. 13.—When the Cabinet meets it is evident the Boer advance will be well under way. Judging from present appearances, the Boers are preparing for a simultaneous invasion at Laing's Nek, Kimberley, Vryburg, Mafeking, Lobatsi and Van Reenen's Pass. Therefore, it almost is impossible to guess the plan of campaign.

A dispatch from Durban announces that the Boers seized Albertina Station, in Orange Free State, and demanded the keys, which were delivered to them by the station master, who reached Ladysmith on a trolley.

A special dispatch from Ladysmith, Natal, says that the Boers occupied Laing's Nek the moment the ultimatum expired and began marching into Natal. Ingogo Heights has been occupied.

Official confirmation of the announcement that the Orange Free State burghers have entened Natal by way of Van Reenen's Pass has been received.

Rushing Into Natal.

London, Oct. 13.—It is reported that the Boers are rushing into Natal by way of Laing's Nek and that they have occupied Ingogo. It is expected that they now occupy Newcastle.

A despatch to the Daily Telegraph from Pietermaritzburg, says the Premier of Natal confirms the statement that the Boers are crossing Van Reenen's Pass into Natal. The British patrol on seeing them retired. It is also stated that the Boers have been making raids into Zululand and seizing cattle belonging to the Kaffirs.

It is believed that these raids are made by restless burghers who are anxious for war. The highest British civil and military authorities believe the Boer army has not yet invaded Natal.

The British railway companies have decided that any of their employes who are called on to join the army reserves shall be reemployed on the cessation of hostilities. The time while they are absent will count as service. A free pension will be given by the companies. In the case of married men half-pay will be allowed to their wives and families during their absence.

Baron de Rothschild and Mr. Alfred Beit, the South African millionaire, have each contributed £5,000 to the Red Cross Society.

United States Not to Interfere.

Washington, Oct. 13.—The Department of State, through Second Assistant Secretary of State Adee, has issued an official statement regarding the attitude of the United States in the Transvaal controversy. The statement particularly sets at rest the many reports that this Government would mediate or interest itself in behalf of either the Transvaal or Great Britain, and declares it to be the intention of the United States Government to confine its efforts to seeing that neither our national interests nor those of our citizens shall suffer unnecessary injury. The statement says:

"The President has received a large number of petitions, signed by many citizens of distinction, requesting him to tender the mediation of the United States to settle the differences existing between the Government of Great Britain and that of the Transvaal. He has received other petitions on the same subject, some of them directing him to make common cause with Great Britain to redress the wrongs alleged to be suffered by the outlanders, and especially by American citizens in the Transvaal, and others wishing him to assist the Boers against alleged aggression.

"It is understood that the President does not think it expedient to take action in either of these directions. As to taking side with either party to the dispute, it is not to be thought of. As regards mediation, the President has received no intimation from the countries interested that the mediation of the United States would be acceptable, and in the absence of such intimation from both parties there is nothing in international rules or usages to justify an offer of mediation in the present circumstances. It is known that the President sincerely hopes and desires that hostilities may be avoided; but if unfortunately they should come to pass, the efforts of this Government will be directed—as they are at present—to seeing that neither our National interests nor those of our citizens shall suffer unnecessary injury."

It is made evident by this announcement that the Department of State does not consider Gen. O'Beirne's representations as an official request from the South African Republic for this country's interference.

X-Ray for the Hatfields.

Columbus, Ohio, Oct. 13.—Dr. J. C. Hatfield, of Kentucky, left this city the possessor of an X-ray machine and a knowledge of its use. Dr. Hatfield's professional skill is sometimes called into use by reason of the long-standing feud between his family and the McCoys, and the X-ray machine is desired to locate bullets which have been placed in various Hatfields by sundry McCoys.

COMING EVENTS.

October 13—German Class at Y. M. C. A.
October 15—Capt. George D. Morrison will address the Y. M. C. A. men's rally at 4:15 p. m.

Democratic County Convention.

The last call to duty of the Union county Democrats in the preliminary campaign was issued yesterday by John Crowell, chairman of the Democratic county committee, when he set Friday, October 27th, as the date for holding the county convention for the nomination of candidates for offices to be elected November 7th.

The call for the Democratic convention was left to the discretion of Chairman Crowell, in order that the date might be set later than that of the Republicans, so that the lay of the latter's political ground, after the ticket is named, could be secured to guide the Democrats in the strongest attack that is possible upon the ranks of the enemy.

The date set for the primaries to elect delegates is Wednesday, October 25th. There will be 141 delegates in the county convention, of which Plainfield Democrats are entitled as follows: First ward, 4; Second ward, 3; Third ward, 3; Fourth ward, 8. Besides the election of delegates the primaries will elect a member of the County Executive Committee.

From start to finish the firemen's parade and celebration yesterday was a complete success. The North Plainfield firemen, acting as promoters of the affair and hosts for the guests, deserve great credit for their management and hospitality. It is a matter matter for congratulation that every detail was carried out smoothly, and that no accidents or miscalculations in the preliminary arrangements tended to mar the brilliancy of the pageant of firemen. The visitors were a fine set of men in both appearance and character, and immediately won the complete welcome of both city and borough. The parade itself was quite the best held in Plainfield in several years.

The Elizabeth correspondent of the New York Tribune sent the following to his paper last light: "Assemblyman

LINES OF COLUMBIA AND SHAMROCK.

The illustrations show the lines of the rival yachts Columbia and Shamrock. To the landsman these do not mean anything and there is no perceptible difference between the two yachts. The fact is the boats are built upon very much the same lines. The Columbia's fin is seven feet shorter than that of the British boat.

George A. Squire wants it to be distinctly understood that the report started in a Plainfield newspaper that he had withdrawn from the contest for County Clerk of Union was absolutely without foundation. Mr. Squire this afternoon said: 'I am in the race, and in it to stay.' Mr. Squire says he has promises of strong support at the convention." That is the kind of talk that indicates Mr. Squire's fighting blood is roiled. Developments will be awaited with considerable interest.

In deciding to hold a public hearing on the application of the People's Gas Company for a franchise to operate a plant in this city, the Common Council has acted wisely. A public hearing will allow all sides to present their sides of the important question, which will be of inestimable aid in determining the Council to act in the right manner.

On the second page of today's paper The Daily Press presents, by courtesy of the Elizabeth Journal, some interesting history and information in connection with the enterprise of Elizabeth and Westfield Street Railway Company, which is building a trolley line between Plainfield and Elizabeth.

New Brunswick is agitating the question of a municipal gas plant. Municipal ownership is the proper thing, but it's dollars to doughnuts that Plainfield will secure cheaper gas quicker by private competition than New Brunswick will by public manufacture of the commodity.

WHAT THE SHEARS FIND

Editorial Comment From Other Papers of Interest in Plainfield.

"What has become of the State Sewerage Commission that was coming to Plainfield to inspect the sewage beds?"—Plainfield Press.

They will be alone in good time Mr. Press, but they cannot be bribed to visit your city on a junketing tour, although an invitation was extended to them with the promise of a good feed thrown in. They do not do business for the people and the State in that way. Do you see?—Dunellen Call.

JUNIORS ASSEMBLED.

Big Meeting of Franklin Council Held Last Night—Arrangements For a Trip.

One of the best meetings ever held by Franklin Council, No. 41, Jr. O. U. A. M., took place last evening, notwithstanding the fact that the State officers failed to put in an appearance. There were delegations present from Bernard Council, of Liberty Corner; Fairview Council, Mt. Bethel; Friendship Council, New Market; Wm. G. Holton Council, Dunellen, and from Somerset Council, this city.

The meeting was a lively one throughout. The home members have decided to charter a special trolley car on the Brunswick Traction road for next Monday evening when they when they will go to Somerville, and attend a union meeting of the neighboring councils. The State officers will be present and there will be a discussion regarding the per capita tax matter. The car will leave North and Watchung avenues at 7:45 o'clock in the evening.

CAKEWALK WAS THE FEATURE.

First Ball of the P. O'Keefe Association Given Last Night.

The P. O'Keefe Association took advantage of the visit of the firemen to Plainfield last evening to make its debut to the public with a ball at the Crescent Rink. An exciting cakewalk was won by Miss Mamie Hogan, of Bound Brook, and Frank Gano, of Somerville.

The officers of this association are: President, P. O'Keefe; vice-president, M. J. Kane; treasurer, J. A. Sloane; financial secretary, J. J. Cory; recording secretary, T. J. Muldowney. Sloan acted as floor manager with Kane and Muldowney as assistants.

The friends of Mrs. R. MacDonald will be pained to learn that she is not as well as it was anticipated.

A HOLE IN THE GROUND.

NOVEL CLAIM MADE TO TRY TO CONTINUE A LEASE.

Contention Was Between Victor D. Schomp and John Maire—Supreme Court Yesterday Decided in Favor of the Former.

Some time ago Victor D. Schomp, of Dog Corners, brought an ejectment suit against John Maire, of this city, for the purpose of forcing the latter to vacate twelve feet of ground, which is a dividing line and which was claimed by both parties. At one time a house stood on this dividing line. So as to provide for a right of way for the house to the road this strip was leased to the tenant of the property now owned by Maire.

A few years ago the house was burned down and then the trouble began. Mr. Schomp thought that the purpose of the right of way was at an end and he claimed the lease was invalid. He employed Codington & Swackhamer and suit was brought in the Supreme Court against Mr. Maire. Lawyer W. S. Angleman represented Mr. Maire, and the case was concluded yesterday when the court gave Mr. Schomp a decision in his favor, and Mr. Maire will have to vacate. The court held that the cellar, the only thing remaining, does not maintain the lease, and therefore decided adversely to Mr. Maire.

The counsel for the plaintiff fought the case with great care and skill and deserve credit. On the other hand the defendant's counsel took advantage of every point, and the case was warmly contested.

That Throbbing Headache.

Would quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and strong nerves and build up your health. Easy to take. Try them. Only 25 cents. Money back if not cured. Sold by L. W. Randolph, Druggist.

An Anniversary Sermon.

The anniversary of the Young Men's Christian Association of Plainfield will be duly observed Sunday morning at the Church of the Holy Cross, and the rector, Rev. W. Montgomery Downey, will preach a sermon appropriate to the occasion. Subject. "Christian Manliness."

Bought a New House.

George Dupuy, of East Front street, has purchased through E. C. Mulford & Son, North avenue real estate brokers, the new house owned by Messrs. Manning & Runyon at the corner of LaGrande and Woodland avenues, and will take possession when completed.

Attending Annual Union.

Mrs. T. H. Tomlinson, of LaGrande avenue, one of the prominent officers of the State W. C. T. U. left yesterday for Seattle, where she will attend the twenty-fifth annual meeting of the National Union.

—Press want ads bring results.

GIVE THE CHILDREN A DRINK

called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder, and children, as well as adults, can drink it with great benefit. Costs about ¼ as much as coffee 15 and 25c.

Domestic Finish Only.

With our new machinery we are making a specialty of the Colar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

NOTICE.

Office of the Plainfield
Gas & Electric Light Co.,
110 East Front St., Plainfield, N. J.

October 7, 1899.

It has been the custom of this Company for several years past, to make a reduction in the price of gas on November 1st., and in continuation of this policy, we hereby notify our customers that gas consumed for illuminating purposes, on and after November 1st, 1899, will be charged for at $1.50 per thousand cubic feet—subject to a discount of ten cents per thousand feet for prompt payment, making the net rate $1.40. Gas used for fuel will be charged at the same gross price, with a discount of 25 cents per thousand feet—making the net rate $1.25.

Plainfield Gas & Electric Light Co.,
By H. G. RUNKLE, PRESIDENT.
10 7 6

The fat undertaker.
Who plants by the acre,
Poor victims of cough and cold,
Is sighing and crying,
For we've all stopped dying
Since Brazilian Balm was sold.
And for those who desire
Not just yet to go higher
It is worth its weight in gold.

For sale by all druggists. L. W. Randolph, Wholesale Agent.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Daily Press.)

At the next meeting of the borough Council it is expected that H. Brewster Willis, the legal Council, will be present to assist the councilmen in straightening out the question of whether or not to accept the new water works from the Watchung Water Company.

There will be a trial of the new water works tomorrow afternoon at 5 o'clock. This will be an official test to demonstrate to the satisfaction of the borough officials whether there is sufficient force of water and if the works are constructed according to contract.

The pupils of the tenth grade of the Whittier School have organized a class and elected these officers: President, Cora Doty; vice-president, Rose Haynes; secretary, Alwilda Dennick; treasurer, C. C. Vail. It is the purpose of the class to hold frequent meetings.

So many people visited Plainfield yesterday to witness the splendid parade of the firemen that the place was nearly deserted yesterday afternoon. The Dunellen fire department was not represented.

Rev. Dr. Jamison, pastor of the Methodist church, will lecture at the South Branch Reformed church next week. The Misses Mabel and Ethel Jamison will supply the musical entertainment.

Rev. J. A. Harper and wife, of Scarsdale, who have been visiting the family of Rev. J. A. Martine, have returned to their home.

The Dunellen and Brunswick Gun Club will have another shoot on the Dunellen grounds tomorrow afternoon.

Every fireman is requested to be present tomorrow afternoon and assist in making the test of the water works.

The masons have commenced to plaster the new house of Mrs. Louisa Terry, which is nearing completion.

A series of ten cent entertainments are to be given at the Methodist church this winter.

Street Commissioner Staats has been doing some good work on Jackson avenue of late.

The printing shop of the Dunellen Call has been supplied with electric lights.

Mr. and Mrs. L. B. Nelson have gone to South Orange to spend a couple of weeks.

Mrs. D. D. Drake, of New York, is visiting Mrs. Charles Carpenter.

Lewis Coriell, of Jersey City, has been stopping at Cedar Cottage.

PLAINS AND FA[illegible]OOD.

(Special Correspondence of The Press.)

Scotch Plains, Oct. 13—The trolley cars were kept busy yesterday afternoon handling the Scotch Plains delegations who attended the firemen's parade in Plainfield.

The literary society of the Methodist church met in the class rooms of the church last evening. The society has taken up several Chautauqua works and are finding them very interesting and instructive.

A good sized crowd of Sunday-school workers from the village attended the Sunday-school convention held in the First Baptist church of Roselle, Thursday.

Miss Sadie Bartlett, who has been spending a few days with the Misses Nichols, has returned to her home in New York.

Mr. and Mrs. A. L. Jamieson, of Westfield, were the guest of their daughter, Mrs. George W. Marsh last evening.

Goodwill Lodge, K. of P., met in their rooms last evening. Business of importance was transacted.

Mrs. H. M. Scamets, of Westfield, was the guest of friends in town yesterday.

Miss Emily Schreiner has returned from a pleasant visit with out-of town friends.

Mrs. John Ford was the guest of relatives in Plainfield yesterday.

Miss Susie L. Parse visited friends in Plainfield Thursday.

—Flynn Bros., of 222 West Front street, near Music Hall, have just received a full line of fall and winter shoes. Goods selected from the best manufacturers. Give them a call.

Miss Giddis, of Mt. Horeb, is visiting relatives in the borough.

THE AMUSEMENT WORLD

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local and Metropolitan Performances That Will Please Those Who Delight in the Art of Thespis and Mimic World

The picturesque life of the Tennessee mountains always strike a sympathetic chord and affords abundant opportunity for theatric effects. "Knobs o' Tennessee," by Hal Reid, which will be seen at Music Hall tomorrow night, is one of the strongest plays of its class now before the public and possesses sufficient power to ensure its popularity. The moonshiner has been made an interesting figure by novelists and sketch writers, who have thrown a halo of romance around the wild mountain life, and the playwrights have skillfully accoutred the popular conception. One of the strongest scenes in the play, vividly portraying the love of the mother for her youngest son, preferring to kill him rather than see him hanged for a crime of which he is innocent, is one of the most intense dramatic climaxes ever seen upon any stage. The visit of father and son to President McKinley is a clever drawn picture and well brought out.

"The Whispering Pines in the Moonlight" scene used in the first act, is a marvel of scenic realization and artistic beauty. A strong cast of characters has been carefully selected to interpret this popular play.

* * * * *

Under the original contract between Israel Zangwill and Liebler & Co., the producers of his new play, "Children of the Ghetto," this firm secured the English rights to this drama. Its success in Washington, Baltimore and Philadelphia has been so great that they have decided to produce it in London at once. They feel confident that when it is presented in New York at the Herald Square Theatre next Monday night it will make the memorial hit of years. "Children of the Ghetto" will be produced in London at the Adelphi Theatre, December 9th. The play will be staged in London by George Clarke, for many years with Augustin Daly. Frederick DeBellesville will be sent over to play "Reb" Shemuel, the part in which Wilton Lackaye has scored so emphatically. The London production will be under the management of Al. H. Canby, the former manager of Francis Wilson and Julia Arthur.

* * * * *

Richly mounted and glistening with vari-colored costumes, abounding in bright sparkles of wit and musical selections, interpreted by the very cleverest artists the vaudeville and comedy ranks contain, "A High Toned Burglar," which will be at Music Hall next Tuesday night, is one of the "really good things," for the fun-loving public. The names of Dolan & Lenharr, and the many others to be found in the cast of this new and up-to-date offering of hilarity, are alone sufficient to guarantee an evening's enjoyment such as is seldom to be offered in any one attraction. An additional feature of this all star comedy cast, is the engagment of the peer of all monologists, Mr. Geo. Fuller Golden.

A Frightful Blunder,

Will often cause a horrible Burn, Scald, Cut or Bruise. Bucklen's Arnica Salve, the best in the world, will kill the pain and promptly heal it. Cures Old Sores, Fever Sores, Ulcers, Boils, Felons, Corns, all Skin Eruptions. Best Pile cure on earth. Only 25 cts. a box. Cure guaranteed. Sold by L. W. Randolph, Druggist.

EARLY INTELLIGENCE.

—There are two cases of contagious disease in the borough at present, but there are both in light form.

—The Plainfield Street Railway Company gave the people good service yesterday by running special cars.

—This evening the eighth anniversary of the Epworth League of Monroe Avenue church will be celebrated.

—Fred Endress, the butcher, can sell you all kinds of meats to suit the season, fresh, wholesome, appetizing and nutritious.

—Miss Mabel Trerdwell will lead the regular meeting of the Christian Endeavor Society this evening at the Park Avenue Baptist church.

—City Steam and Hand Laundry, 19 Somerset street, near Front street, do nice work cleaning lace curtains and blankets. Give them a trial.

—The handsome decorations at the home of Mayor Smalley, on Somerset street, yesterday, was the work of Henry Windham, and as usual he displayed good taste.

—Woodhull & Martin advertise to give double the usual number of trading stamps all day Saturday (tomorrow.) A rare opportunity to hasten the filling of stamp books.

—Always take advice. You may not need it yourself, but it is handy to give to someone else. We're going to give our readers a little advice and that is if you want good fitting and good wearing kid gloves buy them at Peck's kid glove store.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

Mrs. Mary Conway is quite ill at her home, 530 West Fourth street.

Mrs. F. O. Smith, of this city, has been visiting relatives in Newark.

Edmund Dantes, of Jersey City, is visiting Plainfield friends for a few days.

Mrs. K. H. Marsh has recovered from her illness and is attending to business.

Dr. T. S. Davis and family, of Park avenue, have returned after a trip of pleasure.

Mr. Hunt, of Washington Park, has been entertaining company from Warshington.

George Graves, of Liberty street, has left Hillier & Co. to accept another position.

Miss Edna Bowers, of Basking Ridge, is the guest of relatives in North Plainfield.

Miss Kittie Graves has secured a position as bookkeeper for J. A. Smith & Brother, grocers.

Mr. and Mrs. D.S. Roberts, of North avenue, have been entertaining their daughter from Scranton, Pa.

Miss Doeringer, of this city, has accepted the position of stenographer in the law offices of Robt. M. Clark.

Mr. and Mrs. George Saums, of West Front street, have been entertaining company from out of town.

M. J. O'Keeffe and family have moved to this city from Paterson and are now residing on Carlton avenue.

Frank H. Leitheiser and John Watson, of New Brunswick, who have been visiting in town, have returned home.

Judge J. T. Harle, of Cleveland, Bradley county, Tenn, has been the guest of F. A. Dunham, of Madison avenue.

D. N. Messler, editor of the Somerset Democrat, was a visitor and a guest at the borough firemen's parade, yesterday.

Mrs. Randolph, of Newark, who has been visiting her son, L. Warren Randolph, of Washington Park, has returned home.

Mr. and Mrs. Gilbert Fletcher, of Brooklyn, have been visiting at the home of Mrs. Fletcher's parents on Jackson avenue.

Miss Annie Miles, who has spent the summer at Cornwall-on-the-Hudson, has returned to her home on Somerset street.

Miss Edna Woodruff, of Phillipsburg, is visiting at the home of Mr. and Mrs. Joseph F. Sheppard, of West Fifth street.

Mrs. David Lewis and her daughter, Miss Francis Weir, of Illion, N.Y., are stopping for a short time at Mrs. West's on Crescent avenue.

Mrs. Clarence Leland, of Elmwood place, who has been seriously ill for a long time, is able to be about the house and is improving rapidly.

Charles W. McCutchen and family, of Washington Park, will return to their home next week after spending the summer in the Adirondacks.

Miss Bennett, for many years the efficient bookkeeper at the grocery of J. A. Smith & Brother, has tendered her resignation to take effect in a short time.

F. A. Dunham, of Madison avenue, has gone to Cleveland, Tenn, to take charge of the building of 95 miles of county macadamized roads in that part of Tennessee.

Miss Carrie Moffett, of Watchung avenue, started for New Prospect, New York, Wednesday morning, to spend two weeks with her brother, Rev. E.O. Moffett, of that place.

Pliny Fisk and family, who have been spending the summer at Woodstock, Conn., have returned to Plainfield and have taken up their residence 112 West Seventh street.

Ex-Assemblyman VanDoren, of Millstone, just happened in town yesterday in time to take part in the borough festivities. He found many of his friends about and felt quite at home.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free.

to the

Consumer.

For the past three weeks we have been very busy bringing from our factory bundle after bundle of our Fall and Winter stock and arranging them on our tables. We didn't say a word about them because we wanted to display our line in full and then scream.

NOW WE'RE READY TO SCREAM.

We never scream unless we have something to scream about, and we won't scream about anything that we can't substantiate. We are showing as extensive a line of clothing as any store in the vicinity, and the prices are right. The cut and finish is there and all extra profits are off. Besides our staple blacks and blues, we are showing a variety of up-to-date worsteds, with and without double breasted vests in stripes, checks and plaids. Everything that the designers art and fine tailoring can do is in them. We are proud of our stock and want everybody to see it. Come and look at it whether you want clothing or not, you will be treated right.

Below We Quote a Few Prices:

Men's Black and Blue Cheviot suits 2.75, 3.75, 4.25, 7.25, 8.00 and 9.00.

" Fancy Cheviot suits 3.25, 4.25, 5.00, 6.00, 8.50.

" Fancy Worsteds, elegant 7.50, 9.75, 10.50, 11.00

Boy's long pant suits 3.00 to 8.75 Child's knee pant suits 95c to 4.00.

Preußen.

Provinz Brandenburg.

Berlin. Die Stadt Berlin hatte am Schlusse des Etatsjahres 1898 eine Schuldenlast von 273,572,133.25 Mark. An derselben waren betheiligt: die Gaswerke mit 21,947,325.90 Mark, die Wasserwerke mit 50,320,547.13 Mark, die Kanalisationswerke mit 91,176,737.57 Mark, Viehmarkt und Schlachthof mit 15,213,023.18 Mark, die Markthallen mit 26,147,344.78 Mark; auf den Stadthaushalt im engeren Sinne entfallen daher 68,767,154.69 Mark.—Das hiesige Bismarck-Denkmal vor dem Reichstagsgebäude soll am 1. April 1901 enthüllt werden.—In Castans Panoptikum ist der sogenannte Theatersaal ausgebrannt.—Der 15jährige Franz Wagner wird von der hiesigen Polizei gesucht. Derselbe hat seine Großmutter, eine Frau Kaps, überfallen und tödtlich verwundet, nachdem letztere einen Geldbrief aus Amerika erhalten hatte und dessen Inhalt dem Taugenichts zu überlassen sich weigerte.—Ein Akkumulatoren-Automobil ist bei der hiesigen Feuerwehr in Dienst gestellt worden. Es ist das ein sogenannter kleiner Mannschaftswagen, der neun Mann befördern kann.—Der Reichskanzler hat an die Bundes-Sezstaaten, also an Preußen, Lübeck, Hamburg, Bremen, Oldenburg ein Rundschreiben gerichtet, in welchem den Regierungen dieser Staaten empfohlen wird, zur Verhütung der Gefahr der Einschleppung der Beulenpest sich die Vertilgung der Ratten und Mäuse, der gefährlichsten Pestverbreiter, in den verschiedenen Hafenplätzen angelegen sein zu lassen.

Charlottenburg. Gegen die hiesige Schloßbrücke fuhr kürzlich ein Heuwagen des Rittergutes Dahlem an, und der Kutscher sowie zwei Frauen, die oben auf dem Heu saßen, flogen über das Geländer der Brücke hinweg in die Spree. Alle Drei wurden durch Schiffer gerettet.

Pankow. Hier fuhr ein Wagen der elektrischen Bahn in ein Fuhrwerk, in welchem sich eine aus sechs Personen bestehende Taufgesellschaft mit dem Täufling befand. Die sämmtlichen Insassen des Wagens erhielten Verletzungen.

Spandau. Auf Antrag des Generalkommandos des Gardekorps hat das königliche Amtsgericht Spandau beschlossen, das Vermögen des fahnenflüchtigen Kanoniers Friedrich Wilhelm August Schröder der fünften Lehrbatterie-Feldartillerieschießschule, bis zur Höhe von 3000 Mark zur Deckung einer denselben möglicher Weise treffenden Geldstrafe und der Kosten des Verfahrens mit Beschlag zu belegen.

Provinz Hannover.

Hannover. Innerhalb 15 Tagen hat neuerdings unsere elektrische Straßenbahn vier Menschen todtgefahren. Die Aufregung in der Bürgerschaft über die fortgesetzten Unglücksfälle ist nicht gering.

Hildesheim. Um den alten Baustil Hildesheims nach Möglichkeit zu erhalten, hat die Stadtverwaltung nach dem Vorgange Nürnbergs beschlossen, in den älteren Stadttheilen nur solche Neubauten zuzulassen, die sich der alten Bauart anpassen. Um nun besonders den kleineren Meistern im Baugewerbe Muster von Fassadenzeichnungen, die künstlerisch und stilgerecht ausgeführt sind, an die Hand zu geben, hat man beschlossen, eine Sammlung solcher Zeichnungen speziell für den Bau mittlerer und kleinerer Häuser zu veranstalten. Es soll zu diesem Zweck ein Preisausschreiben erlassen werden und die Architekten Deutschlands aufgefordert werden, je dreißig einfache Zeichnungen von Fassaden einzureichen. Es werden drei Preise zu 1000, 750 und 500 Mark ausgesetzt. Sämmtliche auf diese Weise erworbenen Zeichnungen sollen dann zu einem Werk vereinigt werden. Die städtischen Kollegien bewilligten zu diesem Unternehmen 3000 Mark.

Helgoland.

Der alte Fischer Dente, ein bekanntes Helgoländer Original, hat sich vom Felsen herabgestürzt und ist bald darauf gestorben. Das Motiv für den Selbstmord ist unbekannt.

Provinz Hessen-Nassau.

Frankfurt. Der Dreyfusfall äußert seine Wirkungen jetzt auch auf die standesamtlichen Eintragungen. Ein hiesiges Ehepaar hat seinem neugeborenen Sohne die Vornamen Hans Labori beigelegt.—Der hiesige Zimmererstrike, der 12 Wochen währte, endete mit dem Siege der Arbeiter.—Im Stadttheile Bockenheim wurde eine Falschmünzerbande ermittelt. Der Techniker Sprengel und der Kaufmann Lehr wurden als Inhaber der Werkstätte verhaftet.

Gombeth. Durch eine verheerende Feuersbrunst wurden hier 17 Bauerngehöfte in Asche gelegt.

Trendelburg. Während einer Dienstfahrt des Oberförsters Padberg ging das Pferd seines Wagens durch. Padberg wurde auf die Straße geschleudert und fiel so unglücklich, daß ihm der Schädel zerschmettert wurde.

HOMELY HELPS.

Variety of Uses for the Pungent Green Pepper.

Green peppers suggest all sorts of good things to the housekeeper and makes her sigh that she cannot keep this most useful vegetable within reach the year round. Combined with almost any "left-over," the green pepper possesses possibilities for an unlimited number of appetizing dishes. If the small ends are cut off and the seeds removed, the peppers may be filled with creamed salmon or creamed chicken and served hot for luncheon, or they may be filled with bits of celery or cabbage, mixed with mayonnaise, chilled and served as a salad on lettuce leaves. They may also be cut into rather large bits, fried in olive oil and served with chicken as a vegetable, or, cut very small, may be added to chicken mince, to its great improvement.

Kitchen Hints.

A plateful of odd bits of chicken which are insufficient for a meal will, however, afford the foundation for several substantial dishes. A most appetizing one is made with the aid of boiled rice, well seasoned and pressed into a square pan. When it is cold it should be sliced and fried until very crisp and brown. The chicken minced and seasoned is piled upon bread slices. If curry powder is liked, a little of this may be added to the chicken by way of a distinctive flavor.

When you have been through all the regular list of meats and have grown somewhat tired of each one, you will find it a most delightful variety to try and get some game, even though you may not be having a dinner party, with which occasions it always seems specially connected.

Oyster salad is also seasonable at this time. The oyster should be cooked barely a minute, sprinkled with salt, pepper and a dish of vinegar, and put on ice. When they are chilled, drain carefully, and lay them upon lettuce leaves and cover with mayonnaise.

Every housekeeper has experienced the sense of desperation caused by the occasional obstinacy of her double boiler. The water in the outside vessel often unaccountably refuses to boil. When this happens, fill the outer saucepan with strong salt water, and it boils much sooner.

It is well to know that any strong pungent smell will keep away moths. A mixture of cloves, cinnamon, orris root and other fragrant things may be substituted for camphor preparations with less disagreeable after-effects.

Lettuce or celery may kept fresh and crisp for several days by wrapping in a cloth wrung out of cold water, and then pinning the whole in a thick newspaper.

Table linens should be washed well and rinsed thoroughly and ironed when very damp. Iron rust on table linen can be removed by applying lemon juice and salt and laying in sun until drawn out.

For washing glassware, to a gallon of water put a lump of washing soda the size of a walnut; scrub the glass with a small hand scrub brush; rinse in warm water and polish with a dry cloth.

A Lady's Jacket.

According to present prospects fashion will be divided the coming winter with its choice of outer garments, with short jackets first, coats second and

(Lady's jacket.)

cloaks third. Jackets are always becoming, and this season one may rest easy in the consciousness that they will be popular.

The jacket shown is of hunter's green diagonal cloth. The back may be made with all the seams or with a French back, omitting the centre seam, and cut with a scalloped or straight edge, as shown by the illustration. The double-breasted front is half tight fitting with single darts, trimmed with two rows of buttons, and pockets are inserted, which are covered with curved laps. Smart turned down coat collar and pointed lapels. The strict tailor-made effect is obtained by keeping the severe lines around the bottom of this jacket, but the scalloped edges are very popular at present and more becoming to some figures. To make this jacket in the medium size will require one and three-fourths yards of material fifty-four inches wide.

MUST REVISE ASSESSMENT.

State of New Jersey Wants George Gould to Pay More Taxes.

Lakewood, N. J., Oct. 13.—The New Jersey State Board of Assessors met here to hear the protest of the Lakewood Hotel Company against extortionate taxation. Incidental to the hearing the Assessors brought out a fact which will propably precipitate a fight in the courts against the rich New Yorkers who have made homes in New Jersey to escape what they consider the unreasonable taxes of the metropolis. When Local Assessor Robbins was on the stand members of the State Board asked him if he had made any effort to fix the assessment against George J. Gould at an equitable figure, in obedience to instructions given last year.

The reply of Mr. Robbins aroused the ire of members of the Board, and he was sharply reminded of his duty and ordered to go ahead. Mr. Robbins said he had fixed Mr. Gould's assessment on both real and personal property at $200,000.

"I have made several attempts to get a personal interview with Mr. Gould," continued the Assessor, "but have never been able to see him. I have sent him blanks with a request that they be filled out, but he has not even acknowledged them."

"The blanks were delivered," spoke up Capt. A. M. Bradshaw, the Postmaster of the place.

The State Assessors declared that an assessment of $200,000 in Mr. Gould's case was absurd, and that Mr. Robbins would be obliged to revise his figures. The members of the Board displayed so much feeling it is feared it is the intention of the State authorities to take concerted action against all rich New Yorkers who claim New Jersey as a residence.

Four Killed on a Crossing.

Riverside, N. J., Oct 13.—A father and three daughters went to death almost in an instant on the tracks of the Camden and Amboy division of the Pennsylvania Railroad here. One train struck the vehicle which contained the party, but to insure the destruction another rushed along from an opposite direction and completed any part of the fatal work which had been neglected. The instrumentality of two rushing columns of locomotives and cars was invoked to cut short four lives. In the group in the wagon was the father, Frederick George, huckster, 40 years old, and his three daughters, Lena, 6 years old; Maggie, 4, and Frieda, 2, all of whom were killed almost instantly.

Cattle Quarantine Line Extended.

Chicago, Oct. 13.—Tuberculosis and Texas fever in cattle are the principal topics under discussion at the Inter-State Live Stock Sanitary Board, which is holding its third annual convention in this city. A new quarantine line, suggested by the committee, adds Lincoln, Cannon and Cumberland counties, Tenn., to the established line, which runs from the northwest corner of California in a southeasterly course touching the southeastern border of Virginia and North Carolina.

American Poultry for England.

Chicago, Oct. 13.—A despatch to the Tribune from St. Joseph, Mo., says: "A single order for 350,000 pounds of dressed poultry has been received here from London. Over 100,000 chickens are to be slaughtered this week in filling the order.

"Some of the consignment is to be used by the British army and navy. Similar large orders from the same source are expected."

Brigandage in the South Seas.

San Francisco, Oct. 13.—A despatch to the Call from Victoria, B. C., says: "According to letters received from the New Hebrides, British and French men-of-war, acting in concert, have been suppressing bands of brigands which have been robbing and looting the native villages and in many cases the stores of the traders in the Southern Pacific archipelago.

Brickmakers Form a Combine.

Pittsburg, Oct. 13.—The thirty-nine brickmaking concerns here, together with the Western Pennsylvania Brick Company, have all been absorbed by the New York syndicate of capitalists represented by Attorney George W. Mackey, and the brickmaking trust is now in reality.

Wedded a Swedish Prince.

Chicago, Oct. 13.—Miss Vesta Raven Lindbloom, the woman broken, is the wife of Prince Clas Ake Pauli, of the Skanski Dragoons, Sweden. They were married at the Church of the Holy Trinity, and will sail from New York for Sweden on October 19.

International Commercial Congress.

Philadelphia, Oct. 13.—The International Commercial Congress was opened here with impressive ceremonies in the large auditorium of the main building at the National Export Exhibition. Fully twenty nations were represented by delegates.

Atlantic Liner Disabled.

Halifax, N. S., Oct. 13.—The steamship Trojan, from New York for Spanish ports, laden with tobacco, was towed to port here by the steamship Iser. The Trojan's propeller is gone.

Ex-Senator Ingalls Ill.

St. Joseph, Mo., Oct. 13.—It is stated here that ex-United States Senator John J. Ingalls, of Kansas, has cancer of the throat. He has gone to Mexico for change of climate.

Killed By a Rhinoceros.

Mombasa, Zanzibar, Coast East Africa, Oct. 13.—A report has reached here that Dr. Kolb, the well-known German traveler, has been killed near Lake Rudolph by a rhinoceros.

Newport Fever Controlled.

Newport, Oct. 13.—Surgeons at the naval hospital state that they have the typhoid epidemic under control in spite of the fact that there are five new cases.

The Kentucky Nearly Finished.

Washington, D. C., Oct. 13.—The battleship Kentucky lacks 7 per cent. of completion. The Ohio is only 6 per cent. toward completion.

Finest Hot Water Baths with Shower in the city, always ready. Barber Shop adjoining. Open SUNDAY. Foreign and Domestic Cigars on sale.

MILLINERY.

A New Showing of Trimmed Hats.

Beginning Friday, there will be ready for your inspection mor new hats. Many of the "opening" hats found ready purchasers. Our sales have been very gratifying and we lay much of the success to the fact that no one leaves our Millinery Department dissatisfied. Everything can be found here that has the most remote connection with women's headwear.

Everything that is newest finds place here. Our designer has had long experience with the best city trade and is thoroughly capable of constructing a hat to please the most exacting people.

Meat Market,
318 Liberty St.,
Near Fourth St.

Every man or woman who deals with me will save money.

I buy for spot cash, thus saving a large percentage which I share with my customers.

I deal in choice meats of all kinds and game in season.

My market is first-class in every respect and people who deal with me can depend upon being treated fair, courteous and with satisfaction.

If you buy poor meat all the steak pounders in the world won't make it good.

A small portion of the beef, veal, mutton, lamb or pork I sell contains more nourishment than a whole quarter of inferior stuff—let what you eat be good.

The quality of meat I sell is guaranteed the best in the market.

Special attention is given to home-dressed poultry, Jersey Pork; also prime cuts of Beef, Veal and Mutton.

IT WILL PAY YOU TO BUY OF ME BECAUSE I buy for cash, sell for cash, and therefore can give you the best meat for the smallest amount of money.

THAT'S THE IDEA!

You ought to see what we can do for you before doing anything for yourself. Painting depends upon the paint and the painter. Better preparations than ours were never put on by a brush. Wherever paint is put, it should be put there to stay long enough to make it worth while to do the job. The warring elements have no effect on our durable mixtures.

SHARKEY IS CONFIDENT.

Says He Will be in the Best of Form When He Meets Jeffries.

New Dorp, S. I., Oct. 13.—Here is what Sharkey says of his chances in the coming fight: "Upon my word, I never felt better in my life. We have not had the most desirable weather during the last few days, but the fogs and mists have made no difference to me. I have been going through my favorite routine with as much vigor as I ever possessed, and feel as full of strength as could be asked. My handlers unanimously agree that my condition is of the highest order. As handlers are the best critics, and very often shocking kickers, when they don't like this, that or the other trifling, little apparent weakness, I do not hesitate to say that everything is satisfactory. I always liked these training quarters, and each day makes me more attached to them. The other men who are training down here are all congenial and give me every kind of a lift they can, and that means a great deal. There will be no question of my form when I go into the ring with Jeffries on October 27."

On the other hand, Jeffries is equally confident that he will be the victor. His training is going on satisfactorily, and both fighters are ready to enter the ring at a few hours' notice.

Fitzsimmons to Fight Dunkhorst.

Syracuse, N. Y., Oct. 13.—Bob Fitzsimmons is apparently about to re-enter the ring. His manager, Martin Julian, has wired Edward Dunkhorst, of this city, asking if he would fight Fitzsimmons six rounds in Chicago this month. Dunkhorst accepted on condition that the date be fixed after Oct. 23, as he is to fight Peter Maher before the Monarch Athletic Club of this city on that night. Fitzsimmons will probably meet Dunkhorst about Oct. 30. The Syracusan is confident that he will win from Maher and says he can beat Fitzsimmons.

Cotton Seed Products go Higher.

Houston, Tex., Oct. 13.—Not since the season of 1892 have cottonseed products reached such prices as are being asked for them. Most of the mills in this state have sold their holdings two weeks ahead. Prime crude oil is selling for 25 cents to 25½ cents and prime yellow at from 27 cents to 28 cents. At the corresponding date last year prime crude was being offered on the market at from 12 cents to 12½ cents and prime yellow at from 15 cents to 15½ cents. Seed and cake are worth $20.50 per ton, while last year both were stagnant at $12.50 and $13 per ton.

Butte City Changing Her Base.

Butte, Mont. Oct. 13.—The startling fact has become evident that for several weeks a large portion of the city of Butte has been sliding down hill. The evidence of it is seen on a number of large buildings and residences, including the County Court House and the residence of United States Senator W. A. Clark. The buildings have been cracked and fissured. Geologists say that the buildings damaged are located on a seam of rock or earth along which a cleavage is taking place.

Good News Received in Jail.

Washington, Ind., Oct. 13.—Henry E. Hellmund, who has been confined in the County Jail for some time, charged with having stolen brass from the Baltimore and Ohio Southwestern Railway machine shops, has received word that his uncle died in Germany, and left his entire estate, valued at $80,000, to Hellmund and his sister, the estate to be equally divided. Hellmund and his sister both reside at Bedford, Ind. The prisoner is 27 years old, and married.

Mason to Champion Boers' Cause.

Chicago, Oct. 13.—United States Senator Mason has promised to champion the cause of the Boers on the floor of the Senate. He said he would introduce a resolution at the earliest opportunity expressing sympathy for the Boers in their struggle for the preservation of their independence. He said that he would also propose a memorial to the Queen of England in behalf of the South African Republic.

No Race Again.

New York, Oct. 13.—The yacht race was officialy declared off again. What wind there was came from the northwest, and developed a velocity of not more than four miles. There was a thick haze. Interest in the race has greatly abated owing to the repeated failures.

THE MARKETS.

New York, Oct. 13.—Listless trading characterized the stock market. London traders were apparently waiting for the leadership of New York and Wall street brokers seemed to have fallen back to await the leadership of London. The natural result of this mood on both sides of the water was an irregular movement in the market, with fractional advances and declines about evenly divided. Local bankers were attempting to put out all the time loans possible at 6 per cent., but with the growing ease in money rates the tendency of sterling exchange was upward.

Chicago, Oct. 13.—Closing quotations for spot: Wheat 72, corn 32¼, oats 23¼, pork 8.15, lard 5.37, ribs 5.07½.

SPORTING.

GOLF.

There will be no competiton for either the McCutchen or Buttfield cups on the Park golf links tomorrow.

The greens committee of the Park Golf Club announces that there will be no competition for either the McCutchen or Buttfield Cups on the Park Club links Saturday owing to the invitation received from the Hillside Club. The competition for the Cups will be extended one week longer than was first proposed. This means that the competitions will end Saturday, November 4, instead of Saturday, October 28th.

OCTOGENARIAN HONORED.

Surprised Tendered to Venerable Father of Mayor Smalley, of North Plainfield.

William L. Smalley, the venerable father of Mayor Smalley, of North Plainfield, was agreeably surprised last evening. The old gentleman reached his eighty-first birthday yesterday, and the children decided to take some notice of the important event. The affair was kept from Mr. and Mrs. Smalley, who in the afternoon had been invited to the home of the Mayor, where they witnessed the parade.

When the old couple returned in the evening to their home at 22 Craig place they were surprised to find gathered there children and grandchildren, to the number of about thirty.

The only out-of-town member of the family present was Wm. L. Smalley, Jr., of Princeton. Owing to a recent death in the family none but the relatives were invited to last evening's festivities.

MRS. ROGERS DEFEATED.

Competed For Women's National Golf Championship at Philadelphia.

Mrs. N. Pendleton Rogers, of the Hillside Tennis and Golf Club, was among those who competed in the first round for the women's National golf championship at Philadelphia this week. She was one of several who tied for thirty-second place. The first sixteen qualified for the championship rounds, and the second sixteen for the consolation rounds. In playing off the tie Mrs. Rogers was defeated.

BONES FOUND IN THE WOODS.

Part of a Skeleton May Be That of a Boy.

Reuben Jacques, night operator of the Telephone Exchange, in Rahway, while chestnutting Tuesday with other young men in Crows' Woods, between Amboy Junction and Colonia, came upon an old coat, inside of which was a lot of bones.

There was a piece of iron pipe, two feet long, about twenty feet from the bones. The Coroner will examine the bones, which are supposed to be those of a young boy.

An Advertisement Sociable.

Last evening at the home of Mr. and Mrs. George H. Batchelor, of West Eighth street, the Christian Endeavor Society of the First Baptist church, enjoyed an "Advertisement Social," which was arranged by the social committee of the society. There was a good attendance and everyone thoroughly enjoyed themselves. During the evening refreshments were served by the committee. There was also a programme of vocal and instrumental music that added to the pleasure of all.

Wedded Quietly in Church.

A quiet marriage took place in the First Presbyterian church last evening, when Mrs. Amy Linbarger, of 121 East Front street, was wedded to Peter P. Laire, of 183 Somerset street. The ceremony was performed by Rev. C.E. Herring, pastor of the church. Mr. and Mrs. John W. Poole stood up with the couple. They will reside in this city. Mr. Laire is a traveling salesman.

An Old Fire Hat.

As the firemen's parade passed along Grandview avenue yesterday many noticed an old fire cap draped in patriotic colors, which was in a conspicuous place in front of the house of Mrs. Lowerre. The cap was worn by George W. Lowerre fifty years ago when a member of Volunteer Hose Company, No. 46, of New York city.

Death of Mrs. Sullivan.

The death of Mrs. Mary Sullivan, aged sixty years, occurred this morning at her home, 518 West Third street. She has been ill for a long time. She leaves three sons, John, Joseph and William. The funeral will be held from her late home tomorrow morning at 8:30 o'clock, and from St. Mary's church at 9 o'cock.

YACHT RACE OFF.

(Special to The Daily Press.)

New York, Oct. 13—Dense fog and lack of wind has still further delayed matters in the international yachting contests. The trial for today was called off at 12:15 o'clock, on account of these same obstacles to successful racing.

Teachers' Meeting.

The County Teachers' Association will meet in the Somerville High School building Saturday at 10:30 a. m. An interesting programme has been prepared by President Krebs, of Somerville. G. A. West, of Raritan, will make an address. There will be a general discussion among the members and the question box will not be the least of the attractive features.

Robbed the Grave.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongued coated, pain continually in the back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately a friend advised trying 'Electric Bitters;' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50cts., guaranteed, at L. W. Randolph's Drug Store

Extraordinary Sale of Fine Clothing.

A Sale that gives you an opportunity to buy your fine Fall and Winter Suits and Fall and Winter Overcoats and Trousers

At ⅓ the Manufacturer's Prices.

HERE IS THE STORY:

We closed out the entire stock of a large manufacturer of few days ago securing over $6,000 worth of the finest and most up to-date men's dress suits, business suits and trousers at a mere fraction of their value and we will place them on sale this Saturday morning.

Over 500 styles in suits and overcoats to choose from; this is without a question the greatest offering in men's apparel Plainfield has ever seen, and one that every man and woman intending to buy clothing this season should take advantage and note these extraordinary prices.

MEN'S FALL COVERT TOP COATS—Very stylish in appearance, made of strictly all-wool materials, regular $10.00 garments, at this sale $3 75.

MEN'S STRICTLY ALL WOOL TOP COATS—Exceedingly stylish, guaranteed to be worth $12.50, will close out what is left at $5 00.

MEN'S ALL WOOL BUSINESS SUITS—Made of black or blue cheviots and mixed cassimeres. These suits are made up in this season's styles and patterns and would easily command in other stores from $8 00 to $10 00; we will sell them at an unusual low price, $3.50 and $3.90.

MEN'S SACK COAT SUITS in striped worsted and checked cheviots, neat, stylish and well made, easily worth $15.00, your selection at $6.50.

MEN'S BLACK CLAY DIAGONAL COATS and VESTS—Winter weight sack or cutaway, guaranteed to be worth wholesale $9.00, to go at this sale at $4.50

CHILDREN' VESTEE SUITS—Age 3 to 8, and boy's double breasted suits 7 to 16, all-wool in blue and fancy cheviots at $1.00, $1.50 and $1.75, worth $3.00.

YOUTH' SUITS with long trousers, ages 14 to 19, in blue and black serges, single or double breasted, a $10.00 suit, at $5.75.

Men's blue or black welton overcoats, worth $10.00, at $4.50, and hundreds of other fine coats in proportion.

Men's suspenders at 6 cents, worth 25c. All-wool half hose at 9c, worth 25c

NEW YORK CLOTHING CO.,

PLAINFIELD, N. J.

FIREMEN'S GREAT DAY.

CONTINUED FROM PAGE 1.

blue trousers with the big fire helmets. The crowd marked them at once for the excellent line they kept. Perth Amboy had a good turnout.

New Brunswick's crack company, Phoenix, was uniformed in blue, with the blue fatigue caps. There was a great ovation at every turn for the New Brunswick boys who did some great evolutions and kept splendid allignment.

Of the visiting companies, Raritan seemed to catch the public eye. Relief Hose Company was made up of a select body of men who were not to be excelled in physical appearance. Their uniforms with the buff long frock coats and trousers and fatigue caps of the same colors were decidedly becoming. They marched well and were generally favorites with the crowd.

The Bayonne company looked more comfortable than the rest as they paraded in uniform blouses without coats. There was a natty turnout from Bound Brook that attracted favorable attention. Westfield's delegation was not a large one but an intelligent looking set. Their uniforms, all blue, were spick and span.

The twenty men from the West End Hose Company were received with enthusiasm. Every member of the company was there and the brand new uniforms, long frock coats and trousers of blue, looked well indeed. They wore fatigue caps of blue. Herman Klinsman had a team of sorrels driven tadem to the hose cart and he handled them very cleverly.

There were cheers upon cheers for the boys of Warren Engine Company who brought up the rear of the procession. They had Queen City Band with them. The new uniforms and the new white fire helments came in for lots of praise. The firemen looked well in them and everybody was pleased.

Many of the firemen in the procession carried bouquets that were given to them by their friends along the line of march.

At the close of the parade the various companies separated and adjourned to Saengerbund Hall and Arlington Hotel, where a substantial supper was served by members of Warren Engine Company and the West End Hose Company. The former company entertained five hundred firemen and guests of honor at Saengerbund Hall, where Caterer William Stephenson provided the eatables, and Proprietor Jensen, of the Arlington Hoetl, provided for the balance of about two hudred. There was an abundance of everything and the firemen who were very hungry were equal to the occasion.

The guests of honor at Saengerbund Hall were all called upon for a speech after the inner man was provided for. Chief George H. Fairchild made an admirable toast-master. He first called for Mayor Smalley, who welcomed the boys and gave them assurances of regard for them. Mayor Rockfellow, of this city, then made a short speech, welcoming the boys on the part of the city. The next speaker was Senator Charles A. Reed, who gave the firemen a short, but impressive talk, and mentioned the various companies, all of which he was glad to meet. Councilman George T. Rogers, chairman of the fire, water and lamps committee, assured all that they were welcome and he paid some compliments to the firemen for their fine appearance.

Former Mayor B. A. Hegeman, Jr., could not escape and he was called upon. He responded in his usual happy manner, and gave the boys a good speech, as did also Surrogate H. N. Spencer. A surprise was in store for the crowd when Chief Fairchild called on Congressman William Daly, who just happened in. Mr. Daly, never at a loss for words, gave a rousing speech, and elicited the enthusiasm of all. Closely following Mr. Daly the toast-master called on James E. Martine. The popular Plainfielder from "Cedar Brook Farm" received a great ovation, and his enthusiastic remarks were heartily applauded. Chief T. O. Doane, of the Plainfield Fire Department, responded happily and expressed his appreciation for the way he had been treated. The last speaker was John H. Carney, who is a favorite with the firemen. He carried a revolver and by discharging it a few times called the boys to order, after which he recited a parody on "Barbara Freitche," entitled "Sampson Seven Miles Away." His German dialect won the crowd who cheered lustily.

Each speaker was received with the loudest applause and enthusiam. After the speeches all left the room and assembled in front of Warren Engine house, which was brilliantly illuminated and open to receive visitors. The several bands and drum corps gathered outside and discoursed lively airs to the enjoyment of all. Everybody was loud in their praise of the way they had been treated and again and again thanked the borough firemen for their hospitality. The committee in charge did everything possible to give everybody a good time and they succeeded in every respect. They looked after the visitors and gave them personal attention. About 8 o'clock the visitors began leaving for home, but many remained until a late hour and attended some of the various amusements about town. During the evening there was a display of colored fire along the various streets and the town was fairly alive with people.

—Great bargains at VanEmburgh's closing out sale at 135 East Front street. Ribbons, hoisery, underwear, yarns, worsted, etc., all at closing out prices. Goods must be sold and you can save money by buying at VanEmburgh's. W. R. Codington, assignee.

In a Nutshell:

Regular collections; intelligent washing; careful ironing, prompt deliveries. This makes a good laundry. People who have known us as dyers for thirty years back may not realize that we are doing the largest laundry business in New Jersey. Send us your bundle for a trail.

NO CRACK MADE IN PREARRANGED SLATE

Borough Republican Primary Went off Smoothly.

DELEGATES ARE FOR REED.

FORMER MAYOR PLACE PRESIDED OVER PRIMARY.

Some Grumbling Heard Because the North Plainfield Township Voters are Compelled to Come to the Borough to Elect Delegates—The Delegates Slated Were Named Unanimously.

Republicans of North Plainfield to the number of three hundred assembled in the basement of the school building last evening, and selected delegates to attend the Somerset county convention to be held at Somerville next week Wednesday. The slate was well made and not a crack could be seen anywhere.

Former Mayor Charles Place was chosen chairman, and Former Borough Clerk James K. Arnold was selected as secretary. After the call was read by the secretary the work of selecting the necessary five delegates was an easy matter. The following persons were nominated: Mayor N. B. Smalley, Dr. J. H. Cooley, B. A. Hegeman, Jr., and Councilman Clark, Jr., to represent the borough, and Mr. Wolfert, of Washingtonville, to represent the township. The secretary was then instructed to cast the ballot for those named, which was done. After the collection was taken the meeting adjourned.

There was considerable dissatisfaction expressed on the quiet over the fact that the Republicans will not allow the township to hold its own primary, but instead they are compelled to come to the borough. Those who complained said that the leaders pick their own man, and then compell everyone to support him. This was the only objection heard in the meeting, otherwise everything passed off in good old G. O. P. fashion.

The men selected as delegates are unquestionably Reed men, as stated in The Daily Press of yesterday, and they will support the Senator to a man.

MISS RUNYON TO WED.

She is the Daughter of the Late Ambassador Runyon, Who Was Well-known Here

The New York Mail and Express of Tuesday has the accompanying paragraphs about the coming wedding of Miss Runyon, of Newark, whose father, Theodore Runyon, lived in Plainfield when a boy. Miss Runyon's grandfather, Abraham Runyon, lived in a pretty home opposite the First Baptist church, where L. L. Manning & Son's marble yard now stands: "A wedding of much interest is scheduled for October 19th, in Newark, N. J., when Miss Helen Louise Runyon, daughter of Mrs. Theodore Runyon, will be married to Elias Alvah Wilkinson. This wedding is of interest, owing to the fact that Miss Runyon is very well known, not only in society in this vicinity, but also abroad. Her father was the late Ambassador to Germany, and while he was stationed at Berlin his daughter accompanied him and assisted in entertaining at the embasy. All of the Runyon girls are very handsome, and the bride of the present month is a stunning looking young woman. While abroad she was a favorite in official circles in Berlin, and we are told that Emperor William, on more than one occasion, paid her much attention. The wedding, which is sure to be a very pretty one, is to take place at 7 o'clock in St. Stephen's church, corner of Clinton and Elizabeth avenues, in Newark."

Mrs. Harlow to Conduct Conference.

The Plainfield Sunday-school Teachers' Union will hold its annual institute in the Sabbath-school room of the Seventh-Day Baptist church Monday. At the afternoon session, beginning at 3 o'clock, Miss Annie S. Harlow, of the Bethany Sunday-school, Philadelphip, will conduct a conference, and brief reports from the "Summer School" will be given. The evening session will begin at 7:45. Miss Harlow will teach the lesson, "Ezra's Journey to Jerusalem."

Were Not the Men Wanted

Patrolman Saffron arrested two men last Thursday for quarreling on West Front street, near Music Hall. They were locked up. It proved that they were not the principals and were allowed to go after City Judge Runyon had been sent for and looked into the case

Elizabeth Rector to Preach.

Rev. Mr. Atkinson, of Trinity church, Elizabeth, will preach in Grace church Sunday evening on the work of the Y. M. C. A.

AS OLD AS TWICE FOUR.

EIGHTH ANNIVERSARY OF THE EPWORTH LEAGUE CELEBRATED.

Made an Occasion for a Joint Gathering of Members From the Three Methodist Societies — Those Who Took Part.

The eighth anniversary of the Epworth League was celebrated at the Monroe Avenue Methodist church last evening. The auditorium was comfortably filled with the members of the League from the Grace M. E. church and the First M. E. church, besides the regular members. The red and white streamers that were festooned from the front to the sides of the church and around the pillars gave the body of the sacred edifice a handsome appearance. These were the League colors.

The exercises began by a brief address of welcome from Edwin Beekman, the president of the society, and the assistant superintendent of the Sunday school. The pastor, Rev. W. C. O'Donnell, then invoked the divine blessing. George F. Lewis, the soloist of the Crescent Avenue church, then rendered in good voice "The Ninety and Nine."

Then President Beekman introduced Dr. Fred Clarke Baldwin, pastor of the Methodist church of Newark, who delivered an address on "Heresy" in which he portrayed in an entertaining style the various stages of life through which we pass to reach christianity.

Mr. Lewis sang "A Mother's Love," which was so heartily applauded that in response to the encore he gave "Annie Laurie" to the delight of the audience.

After the exercises refreshments were served in the basement of the church and a social time enjoyed by the members of the League and their friends.

The uehers for the occasion were Samuel Beekman, Frank Batson and Fred Smith.

DECLARE FOR PEACE.

DALY-ATKINSON FACTION NOT TO FIGHT CHAIRMAN GOURLEY.

Congressman Daly Tells "Farmer Orator" Martine That the Project of a New State Committee is Abandoned

When Congressman William D Daly, of Hoboken, visited Plainfield Thursday and had a conference with James E. Martine, one of the Democratic leaders in Union county, the latter emphasized his displeasure with the address of the "True Democrats," of which Congressman Daly is chairman, in which a new State committee was advocated for the success of the party. The result of the talk with Mr. Martine was that Congressman Daly finally stated that the project of supplanting the present State committee, or building up a new party organization more devoted to Bryan and the Chicago platform than the "True Democrats" regarded the present one to be, would be abandoned.

Congessman Daly realized that the address issued by the committee of which he is chairman, and which violently attecked the Democracy of State Chairman Gourley, had not met with the reception that the members of the committee expected.

He does think, however, that Bryan's nomination is a certainty and that New Jersey Democrats will be in line for the Nabraska man, and that therefore it may be well to avoid faction strife.

WOMEN WERE HOSTS.

First Series of Sociables to be Given in the Congregational Church

There was a large turnout for the first of the sociables of the Women's Association of the Congregational church, held in the church parlors. It was a successful affair. It was expected that Rev. M E. Dwight would be present and give an address on his recent trip to Palestine. Illness prevented his attendance however.

The sides of the room were hung with the names of well known characters in fiction. The first part of the evening was devoted to guessing the particular volume in which the names appeared. Mr. Duncan and Miss Adams were the most succesful, each guessing twenty-four out of thirty-two.

Then followed an interesting programme which included readings by B. F. Newell, solos by Clifford Braider, and a few remarks by Rev. C L. Goodrich. Refreshments were afterwards served. Miss E E. Chase was chairman of the committee in charge.

Primary Teachers' Institute.

The regular institute under the auspices of the Primary Teachers' Union will be held in the Seventh-Day Baptist church Monday afternoon and evening. There will be several interesting features preeented.

Mrs. Wier, of Orange, who has been visiting Mrs. Adams, of Netherwood, has returned home.

GOVERNOR DECIDED TO GET UNDER COVER

Found Star Chamber Proceedings Not Popular.

NEW TRUSTEES ANNOUNCED

MR. VOORHEES COULD NOT FACE CRITICISM THAT RESULTED.

When He Went to Trenton Yesterday He Decided to Give Out the Names of the New Trustees of the Girls' Industrial School—Testimony of Recent Investigation Turned Over to Board.

Gov. Voorhees has felt keenly the criticisms passed upon him for refusing to make public the names of the new trustees of the New Jersey State Industrial School for Girls until an investigation had been made by them into the charges of cruelty brought against Mrs. Myrtle B. Eyler, the matron of the institution. The action of the press of the State friendly to him did not spare the lash, feeling that by his course in this matter the Governor was making unnecessary trouble for his party as well as himself and that in arranging for a secret investigation of the school management he was doing violence to precedent and paving the way for more and greater dissatisfaction on the part of the people, whatever the verdict of the trustees might be.

When Gov. Voorhees went to Trenton yesterday it was with his mind made up to announce the names of the new trustees. He gave them as A. D. Carnagy, of Trenton, and W. H. McCullough, of Swedesboro. These, with John D. Rue and Howell C. Stull, both of Trenton, who were named some time ago, constitute a quorum of the Board. There are still two more trustees still to be appointed. The Governor had two more men selected, but they declined to serve, and he is now casting about for others to fill the vacancies.

The four new trustees held a meeting at the school and the Governor was with them. They elected Mr. McCullough, who is a lumber dealer, president, Mr. Carnagy secretary and Spafford W. Davison, of Trenton, an outsider, treasurer. The new Board inspected the school from top to bottom, and the Governor made a speech in vindication of his attitude respecting the recent management of the institution. He said he had selected the new trustees carefully, giving consideration to their fitness. He exacted no pledge from them. They were to make a thorough and impartial investigation and take whatever action they saw fit. The Governor turned over all the testimony taken before him in the recent investigation, and ended by saying that he had no favorites in the school. He had no one to shield, as he had none to persecute or condemn without evidence to warrant such a course.

The Governor alluded to the question of the abolition of the office of managing trustee. This question he said, was entirely in the hands of the Board. They could do as they wished about it, but the place was one, he thought, that should be done away. Governor Voorhees made no mention of Mrs. Eyler's name, and the trustees fixed no time for the beginning of the investigation.

An Excellent Band.

There is no doubt but what the music furnished last Thursday by Wm. Bartow's band was as fine as any ever heard in this city. There were in the band four musicians from Sousa's Band, and the entire band was made up of men who know how to give the best music. The Exempt Firemen's Association are to be congratulated on the selection of music.

Students Violate Ordinances.

A number of the young men who attend John Leal's School on West Front street, persist in riding their wheels on the sidewalk from the corner of New and Front streets to the school, and oftentimes pedestrians are obliged to get off the walk to let the riders pass. There is some work for the police here.

Still Very Weak.

Walter Bennett, of the borough, who was terribly burned yesterday by taking hold of live electric light wires, is now on the way to recovery. He is still in a very weak condition, and it will be some time before he can again go to work.

Where Women Rule.

A number of Plainfield women members of the Federation of Women's Clubs, will go to Atlantic City Thursday, October 26th, to attend the fifth annual meeting of the association. The convention will continue for two days.

SUNDAY-SCHOOL WORK.

EAST NEW JERSEY CONVENTION TO MEET IN THIS CITY.

The Session Will be Held Next Tuesday in the Park Avenue Baptist Church — An Interesting Programme.

The East New Jersey Baptist Sunday school convention will be held in the Park Avenue Baptist church next week Tuesday, with sessions morning, afternoon and evening. The committee of arrangements consisting of William J. Corbet, of Elizabeth; Rev. Frank Fletcher, of New Market; Rev. J. W. Richardson, of this city; George E. Hall, of Scotch Plains; George Vaughan, of Roselle, and S. D. Turton, of Newark, has arranged a highly interesting programme, as will be seen from the following, which is official:

10 a. m.—Prayer and praise service, led by Seely Edsall.
10:20—Singing and roll call.
10:30—Address, "Sunday-school at Church." Rev. B. Otto, North Baptist church, Jersey City.
10:50—Announcement of committees by president, and reading of letters by secretary.
11:15—Address, "The Teacher's Responsibility." Rev. J. M. Stiffler, Jr., Roselle.
11:35—Three-minute talks by delegates and representatives of Sunday-schools.
12:00—Recess for dinner.
2 p. m.—Praise service, led by Rev. Alexander Macgeorge, North church, Newark. Treasurer's report.
2:20—Address, "What Did You Do With Last Quarter's Review." Rev. Frank Fletcher, New Market. Discussion.
2:45—Address, "The Sunday-school Teacher, His Personality, Preparation and Work," by Rev. J. L. Campbell, D. D., Lexington Avenue church, New York.
3:30—Primary Department. Address, "Graded Primary," by Mrs. Alonzo Pettit, Elizabeth
4:00—Reports of committees and election of officers.
4:20—Home Department, Rev. Arthur E. Main, D. D., Plainfield.
7:15 p. m.—Song service, reading of Scriptures and prayer.
7:40—Secretary's report.
8:10—Address, "The Sunday-school for the Times," by Rev. Jesse L. Hurlbut, of New York city.

Following are the present officers of the association: President, William J. Corbet, Elizabeth; vice-president, George Vaughan, Roselle; secretary and treasurer, S. D. Turton, Newark.

Sunday-school workers in Plainfield are extended a cordial welcome to attend the sessions and take part in the discussions.

MEET HERE NEXT YEAR.

UNION COUNTY SUNDAY-SCHOOL ASSOCIATION PLANS.

Trinity Reformed Church Will be the Meeting Place—Dr. Richardson Elected a Vice President for a Year.

The nineteenth annual convention of the Union County Sunday-school Association, which was held in the First Presbyterian church in Roselle, Thursday, proved to be the most successful and largest attended convention ever held by the association.

At the afternoon session officers of the association were elected as follows: President, Rev. George Buckle, of Elizabeth; first vice-president, Rev. C. S. Converse, of Union; second vice-president, Rev. J. W. Richardson, of Plainfield; corresponding secretary and treasurer, George H Krouse, of Cranford; recording secretary, Rev. W. B. Hamilton, of Elizabeth, member of State executive committee, George E. Hall, of Fanwood; executive committee, E. N Brown, of Westfield; W. M. Irving, of Cranford; Elias D. Smith, Elizabeth; W. D. Porter, Summit; George G. Teller, Cranford; Mrs. Alonzo Pettit, Elizabeth, and Frederick Mershon, Rahway.

The evening session was addressed by Rev. George C. Wilding, of Elizabeth, and Philip Howard, editor of the Philadelphia Sunday-school Times. Committee reports were received and adjournment followed. It was unanimously decided to hold the convention next year at the Trinity Reformed church of Plainfield.

Better Postal Facilities.

The United States postal service has another advantage to offer Plainfielders in the shape of the through fast mail for Boston and the east. The new mail will go into effect Monday. The mail will close at the Plainfield postoffice at 7:30 o'clock at night. Letters mailed here in time to catch the mail will reach Boston at 6 o'clock next morning.

An Organ Recital.

William H. Miller, organist of the First Presbyterian church, will give a public organ recital, assisted by well-known artists, Thursday night, October 19th, at 8 o'clock.

District Deputy to Pay a Visit.

Next Tuesday evening District Deputy C. C. Howard, will pay an official visit to Jerusalem Lodge, No. 26, F. and A. M., and a collation will be served.

MIANTONOMO TRIBE IS TEN YEARS OLD.

Anniversary Exercises Were Held Last Night.

TRIBE HAS 250 MEMBERS.

IT HAS DISTRIBUTED $18,000 IN SICK AND DEATH BENEFITS.

The Affair Attended by a Large Number of Red Men and Daughters of Pocohontas—Address of the Welcome by Former Councilman Westphal—Great Senior Sagamore Newcorn Told Growth and Benefits.

The tenth anniversary of Maintonomo Tribe, No. 118, I. O. R. M., was colebrated last evening in the wigwam, West Front street, in a fitting manner. There was a large attendance of members of the Tribe and of Iona Council, Degree of Pocohontas, and friends. Wm. Westphal made a speech of welcome, in which he said a few pleasant things about the Tribe and its growth. He paid a compliment to The Daily Press for its kindness in giving the news of the Tribe. Mr. Westphal then resigned his position in favor of David C. Allen, chairman of the committee in charge of the celebration.

After a few words by the latter, Mr. Patterson was introduced and he gave two fine piano selections. This was followed with a speech by Great Sachem Arthur Stiles, of Atlantic City, who complimented the Tribe on the completion of its ten years. He spoke of the increase in membership throughout the state, saying that during the past six moons five hundred new members had been received.

The next number on the programme was a vocal solo by Mrs. William A. Westphal, accompanied by Mrs. Canfield, of Somerville, on the piano. She was obliged to respond to an encore.

Great Senior Sagamore William A. Newcorn was called upon for a few remarks. He dwelt at some length on the benefits of the Tribe and how much good had been accomplished since its organization. He said the Tribe has a membership of 250, and has installed many Tribes in this section. During the past ten years there has been expended for sick and death benefits $18,000. He said without hesitation that Miantonomo Tribe is the most aggressive order in the town, and is steadily marching onward.

Mr. Newcorn was followed with a mandolin solo by Wm. Bowden, after which Great Keeper of Records Daniel Stevens, of Camden, made an excellent speech. The programme closed with a vocal solo by Wm. J. O'Connor, of this city, accompanied by Mrs. Canfield.

After the entertainment there was dancing and at midnight supper was served. A feature of the affair was the presentation of a large cake representing the Indian in the forest.

During the evening Chas. L. Holstein, Jr., a little fellow, occupied a seat of honor on the platform, attired in Indian costume. The committee in charge consisted of David C. Allen, chairman; C. L. Holstein, secretary; M. A. Leah, F. M. Johnson and Geo. Housman.

MARRIED AN EVEN SCORE.

Twentieth Wedding Anniversary of Mr. and Mrs. VanNest Celebrated.

The twentieth wedding anniversary of Mr. and Mrs. Lewis C. VanNest, of 144 Duer street, was celebrated Thursday evening at the home of the bride and groom. The home was decorated for the affair with seasonable flowers and potted plants. Mr. and Mrs. VanNest received their guests in the parlor, where congratulations were extended, after which supper was served.

Among the guests was a delegation of visiting firemen from Bayonne, who were well acquainted with the bride and groom, and had been invited to the celebration. After supper was enjoyed the guests enjoyed themselves for a time in dancing the light fantastic toe.

Mr. and Mrs. VanNest were the recipients of a large collection of presents of great variety, and they extended to each donor their hearty thanks. It was a late hour when the affair terminated, but all agreed that they had enjoyed themselves.

Getting Ready to Form Cadet Company.

A meeting of a number of the young men interested in the proposed cadet company for Plainfield met at the home of Hervey Doane, of West Fifth street, Thursday evening, and discussed the situation. A committee, consisting of Hervey Doane and Harry Rogers, was appointed to call on Captain George F. Edwards and see if he was willing to drill the proposed company. Another meeting will be held in a few days.

—Press want ads bring results.

AN OLD RESIDENT GONE

ELLIS A. CAMPBELL DIED EARLY THIS MORNING.

His Career Has Been an Active One and He Leaves Many Friends Behind—He Passed Away at Avon Park.

The community was shocked this morning to learn of the death of Ellis A. Campbell, of Avon Park, which occurred this morning at an early hour. He had been seriously ill for sometime, but only those closely associated with him knew of his critical condition. Mr. Campbell was one of the best known citizens in this vicinity.

Mr. Campbell was sixty-nine years of age, and was born near Oak Tree. He was the son of John Henry Campbell, who was one of the best known drovers in New Jersey. The son was raised on a farm and remained home until he was about twenty-two years old. He them came to Plainfield and engaged in the butcher business with the late George Pound.

After leaving that establishment he continued the business in another part of the city. Several years later he gave up that business and engaged in a patent roofing business. In following this business he went west where he remained for sometime.

Upon his return he took up his residence here and finally engaged in the hotel business, where he died. During his latter years he lived quietly, although he was always a busy man. He loved horses and always enjoyed a good race, and whenever there was any racing on the track near his home he was a prominent figure.

He leaves a widow, a brother, William, who lives in the west, two sons, J. H., a local produce dealer; Edward, who lived at home, and daughter, Mrs. S. P. T. Wilbur, of East Front street.

The funeral services will be held Monday afternoon from the house at Avon Park, Park avenue, at 3 o'clock.

FIGHT MADE BY RAHWAY

NO CHANGE IN BASIS OF REPRESENTATION IN COMMITTEE.

Republican County Committee Decided Not to Adopt Barr Amendment Until After Election At Any Rate.

There will be no change in the basis of representation on the Republican county executive committee in Union county this year. The amendment proposed by John E. Barr, of Elizabethport, came up for consideration before the committee at a meeting held last evening. It was laid on the table until after election. As a result the members of the county committee will be elected at the coming primary as heretofore.

The county committee met last evening at Elizabeth. It was preceded by a short meeting of the sub-committee on the constitution. At the committee meeting it was decided to defer action on the constitution until after election. Then the Barr amendment came up. The Rahway committeemen fought strong against it as it reduced their representation by five.

There was a half dozen amendments added to the Barr amendment by different committeeman, which provoked a lengthy discussion. It was finally decided to lay the whole matter on the table and settle it after election. A meeting of the county committee will be held the first Tuesday after the election.

AN AUTOMOBILE HERE.

Travelling Salesman From Newark Uses One as Means of Conveyance.

The appearance of another automobile on the Plainfield streets attracted considerable attention yesterday afternoon and this morning. The automobile was the property of J. H. Yale, of Newark, who was putting up at the Hotel Kensington over night on his way home.

Mr. Yale was returning from Easton, Pa., where he was last but he has been travelling about this part of the country since the first of August. The power for his vehicle was furnished by a small steam engine, heated by petroleum. Mr. Yale found no difficulty in climbing the steepest hills in the mountains of Pennsylvania.

Mr. Yale is the travelling agent of Trice & Co., Newark wholesale painters, and he has been using this rather novel method of travelling over the country as his business dictates.

Owing to the breaking of a valve, a little column of steam puffed out in the rear occasionally. Ordinarily, the vehicle is very noiseless.

Our Army in Porto Rico.

Frank L. Smith, who was with the army of occupation in Porto Rico, will speak at Trinity Reformed church tomorrow evening at 7:30. Mr. Smith's varied experiences in Tampa, Cuba and Porto Rico furnish him with material which his ability as a speaker enables him to use in a most interesting manner.

UNINSTRUCTED, BUT WILL BE FOR FRENCH.

Result of Democratic Primaries In The Borough.

TWO PRIMARIES WERE HELD.

A SLIGHT DISPUTE OVER CHOOSING A CHAIRMAN.

First District Voters Met in the Somerset Hotel and Second District in the Basement of the Saengerbund Hall—Members of the County Committee Also Chosen at the Primaries — The Delegates.

The Democrats of North Plainfield borough chose their delegates to the county convention at Somerville, October 19, at the primaries held last evening. The four delegates were sent uninstructed but they are all known to favor Assessor Elston M. French for the Senatorial nomination and will support him if his chances are at all good.

The primary in the first district was held in the parlors of the Somerset Hotel on Somerset street. There was a big turnout. The meeting was called to order by David Carney. In an attempt to chose a chairman there was trouble. Someone mentioned the name of William H. Pangborn and the chirman refused to recognize it, claiming that Pangborn was no longer a Democrat. That precipitated a lively discussion in which Pangborn took a hand. The Democrats present were inclined to side with Pangborn but to quell the excitement his name was withdrawn.

W. J. Conroy was then made chairman and Levi Clark secretary. B. H. McCollough and Charles Dresselt were chosen delegates to the county convention without opposition. Dennis E. Gavin was elected to membership in the county executive committee. There were no instructions for the delegates but they are known to advocate French's candidacy.

The second district primary held in the basement of Saengerbund Hall, was a harmonious affair. It only took a few minutes to transact the necessary business and then the crowd went over to watch the progress at the other primary.

David Bodine was made chairman and Lewis Bird secretary. Lewis Bird and Walter C. Linbarger were elected delegates to the county convention. Bert Bodine and David D. Smalley were made tellers of the election. Walter C. Linbarger was elected to the county committee in place of Elston M. French, who called the meeting to order.

These delegates also went uninstructed but are known supporters of French.

DIDN'T FIND SMALLEY'S RIG.

Fruitless Search As Result of Unsigned Letter.

A few days ago David C. Smalley received a letter from Long Island, unsigned, which he had every reason to believe came from the man who went off with his rig. This letter stated where Mr. Smalley could find his horse and wagon, and mentioned the exact places where they were supposed to be located.

Acting on the advice given in the letter, Wm. A. Coddington, Edward White and Sergeant Kiely, made a trip to Long Island and made the necessary investigation. There were unsuccessful in finding the rig, but they saw a man who claimed he had seen the horse and wagon pass through his place. The Plainfielders were not inclined to believe this man, however, and they have returned after a fruitless search. The search will be continued for Mr. Smalley believes that he will yet find his stolen property.

The Salvation Army.

The meeting tonight at the Salvation Army will be led by Brigadier Scott assisted by Staff Captain McDouall. All are welcome. Sunday night the meeting will be conducted by Adjutant March who some years ago had charge of the Army work in this city. She is known to a great many of the residents of this city and her presence at the meeting will draw a number of friends to the meeting. All are welcome.

To Meet in Park Avenue Church.

Next week Thursday the East New Jersey Baptist Sunday-school convention will be held in the Baptist church. There will be sessions morning, afternoon and evening, and dinner will be served in the parlors at noon.

A Fireman's Severe Loss.

At the fire Friday morning Caliman Daniel Force left his coat on a hose wagon and did duty in a rubber coat. When he reached home he found that his pocketbook, containing $22, was gone.

CELEBRATION WAS NOISY

Steamboats Whistle and People Cheer When President Reaches Duluth.

GREAT DEMONSTRATION.

School Children Present the Presidential Party With Handsome Souvenirs.

Thousands of People Turn Out to Welcome the Distinguished Visitors—The President Pays a Visit to Duluth's High School and is Enthusiastically Received.

West Superior, Wis., Oct. 14.—After the fatiguing experiences at Minneapolis and St. Paul, President McKinley and those travelling with him reached West Superior where thousands of people were eagerly awaiting their arrival.

West Superior was gayly decorated as for a great festival occasion. A sort of court of honor, consisting of towering poles draped in the national colors which made an arch over a long boardwalk, extended from the railroad track where the train stopped to a large speaker's stand 100 yards away. President McKinley and the Cabinet officials were escorted to this stand by a committee of citizens that had gone on board the train at the last stopping place. The party did not remain at West Superior more than fifteen minutes, but the President made one of his short, pithy speeches, which was received with cheers from 5,000 spectators.

A committee of children presented the President and party with a neatly printed souvenir purchased with penny contributions by the school children. Caroline Kennedy, a six-year-old girl, presented the souvenir and the President received it and thanked the children very graciously.

The train then moved on to Duluth, the twin city of West Superior. As it passed over the bridge which spans the narrow bay between the two places, there was a noisy celebration. Several steamboats and ten or fifteen tugs, were in the harbor near the bridge, and the screeching of whistles that greeted the train exceeded anything of the kind that has been observed on the present trip. Five minutes later the train was under the big train shed at Duluth. A grand demonstration of the people was made at this town. The President wore his overcoat when he left his private car and was escorted to the place, some distance from the station, from which he was to address the people. The address was made from the steps of the High School building.

There are 14,000 school children in this thriving town of 65,000 inhabitants. One of the Cabinet party remarked to a local committeeman that this was a very large number of school children for the size of the town, and he was informed seriously that Duluth was so cool in summer that children thrived and did not suffer from the ills so fatally common in cities further south or in a less healthful climate. The crowd that President McKinley addressed numbered not less than 16,000 persons.

Naturally, the greatest demonstration was at the High School building, where the speeches of the President and Cabinet officers were made. No one would have suspected that Duluth was a Democratic city, for the outburst of enthusiasm that greeted nearly every sentence in the President's patriotic speech was quite spontaneous and general in character.

Fargo, N. D., Oct. 14.—More than 10,000 people greeted President McKinley and his party when they arrived here. Entering carriages, the party was driven to a reviewing stand through lines of the First North Dakota volunteers, who recently returned from the Philippines. The President was received with wild demonstrations. In his address he referred repeatedly to the situation in the Philippines.

Wealthy Farmer Suicides.

Dallas, Tex., Oct. 14.—Adolphus M. Jones, a wealthy farmer of Hill county, invited a party of friends to "come into the barn to show them something sensational." When they were all inside the building he cut his throat with a razor and died almost instantly. Up to the moment of committing suicide he was in jovial spirits and joked with his friends. He left no statement explaining his act.

Fight for Fair's Millions.

San Francisco, Oct. 14.—Charles L. Fair has filed an amended answer to the petition of Mrs. Nettie R. Craven, who asked for an allowance of $5,000 a month out of the late Senator James G. Fair's estate. The answer declares that the alleged marriage contract on which Mrs. Craven bases her claim is a forgery and in the main reiterates statements formerly made by the defense.

Heredity Couldn't Save Him.

Columbus, Ohio, Oct. 14.—Heredity was urged in defense of Alex. Lindsay, who was up in the Criminal Court on a charge of horse stealing. It was shown that he belonged to a criminal family, most of whom had served terms in the penitentiary. The plea did not save him from a three years' term in the penitentiary.

Reception to Mrs. Logan.

Chicago, Oct. 14.—A reception was tendered Mrs. John A. Logan at Memorial Hall by U. S. Grant Post, G. A. R., of which Gen. Logan was a member. Addresses were delivered by Col. J. H. Davidson, Chaplain A. B. Connolly, Gen. John C. McNulta and Rev. C. O. Brown, formerly of San Francisco.

Morgan C. Reece Dead.

Busyrus, Ohio, Oct. 14.—Morgan C. Reece, the propagator of the Early Ohio potato, known the world over, is dead, aged 68.

SHOT AT IN HIS PULPIT.

An Attempt Made to Assassinate Rev. John Snyder.

Gloucester City, N. J., Oct. 14.—A Search is being made by the police for an unknown man who attempted to kill the Rev. John Snyder while he was preaching in the First Congregational Church of this place. The Rev. Mr. Snyder, who is pastor of the church, was conducting special services at the time and there was a large congregation present.

The would-be assassin went through an alley to a back window of the parsonage, which overlooks the pulpit, and fired into the church. Fortunately the bullet went wide of its mark and it struck near the head of the Rev. Edwin F. Burrows, the assistant pastor of the church, imbedding itself in the wall on the opposite side of the building.

Instantly the congregation became panic stricken and several women fainted. Mr. Snyder quickly ran outside and saw a form which he supposed was that of the miscreant disappear in the darkness. Returning to the church he ascended the pulpit and offered a reward of $50 for the arrest and conviction of the person who fired the shot.

When seen here, Mr. Snyder said he was at loss to see why an attempt should be made to take his life in such a cold-blooded manner, and he had no suspicion as to who fired the shot.

Destructive Fire Conduit Works.

Tarrytown, N. Y., Oct. 14.—Fire broke out in the works of the National Conduit Company at Hastings, and destroyed one of its buildings, 100 feet square. The loss is $165,000, fully insured. The building was worth $12,000. The fire was caused by an accident. One of the men dropped a knife which cut through the lead pipe which supplies the gasoline and caused an explosion. The flames spread rapidly. The men tried to extinguish them but in vain. An alarm was sent out to the neighboring villages and the departments from Hastings, Dobbs Ferry and Uniontown responded. In the buildings that were saved was $500,000 worth of machinery. In the burned building was $50,000 worth of conduit for the American Traction Company for foreign shipment. About eighty men are thrown out of work.

More Coal Lands Sold.

Pittsburg, Oct. 14.—The Monongahela River Consolidated Coal and Coke Company has arranged for the purchase of the immense tract of coal land belonging to the New York and Cleveland Gas Coal Company at Clarlerol, for $1,000,000 cash. The money has been paid into the Union Trust Company, and the river company is now in possession of the land. The tract contains about 4,000 acres and is one of the largest and finest bodies of coal on the Monongahela River. It has been under option for some time to the Monongahela Company and also to the Pittsburg Coal Company. It is probable that the tract is to be opened up on a large scale next spring by the river company.

Bryan to Speak in Nebraska.

Omaha, Neb., Oct. 14.—The political situation has reached rather an acute stage in Nebraska. Both sides to the controversy have eminent speakers out in the state and everything is being done that can make the campaign hot. Gen. Grosvenor, of Ohio, is at present delivering nightly speeches in Nebraska. Senator Hanna will be here next week and Gov. Rosevelt the week following. The Democrats and Populists have arranged that Bryan will leave all previous dates and devote the last ten days of the campaign to Nebraska. Not in many years have things been so warm politically in the state.

Daylight Burglary in Rock Island.

Rock Island, Ill., Oct. 14.—While Secretary T. J. Medill was at luncheon cracksmen entered the office of the Black Hawk Building and Loan Association, blew open the safe with nitroglycerine and carried off the strong box, with its contents, consisting of jewelry valued at $5,000 and $500 in money. The box and $29 of the money were found later on the shore of the Mississippi River. The robbers made good their escape.

Dropped for Alleged Heresy.

Denver, Col., Oct. 14.—The Rev. H. W. Pinkham, pastor of Bethany Baptist Church and one of the most prominent young clergymen in the city, has been dropped from the Rocky Mountain Baptist Association for alleged heretical views. The charge is that Mr. Pinkham does not believe in the literal resurrection of Christ, in the supernatural birth of Christ nor in vicarious atonement.

Will Not Visit England.

Berlin, Oct. 14.—The Rhenish Westphalian Gazette hears on reliable authority in Berlin that the Emperor does not contemplate a visit to England. Such a visit at this time might cause inferences to be drawn regarding Germany's attitude toward South Africa, which would not be in accord with the Kaiser's private views of the situation.

Married Ex-Postmistress.

Marysville, Ohio, Oct. 14.—Philander Graves, ex-Postmaster at Croton, Licking County, and formerly of Raymond, and Miss Mary M. Lockwood, ex-Postmistress of Raymond, drove to Delaware and were quietly married. The bride is 61 years of age and the groom is 65.

Illinois Mine Strike Settled.

Pontiac, Ill., Oct. 14.—Through the efforts of W. H. Smith, of the State Executive Board of the United Mine Workers of America, the strike of the miners at Pontiac has been settled, and the men will return to work.

Raised the Price on Deserters.

Halifax, N. S., Oct. 14.—The military authorities here announce an increase from one pound sterling to two pounds for the capture of a deserter from the British army.

Forty Persons Drowned.

St. Louis, Senegal, Oct. 14.—A native craft, while attempting to cross the bar at the mouth of the River Senegal, was wrecked, and forty persons were lost.

Germs Of Disease

Radam's Microbe Killer will stay the ravages of Consumption, stop the pains of Rheumatism, allay the itchings of Eczema, prevent the wasting in Bright's Disease, neutralize the gnawnings of Dyspepsia, sweeten the foulest stomach and bring back a normal appetite to the suffering patient. The above are only a few of the many germ diseases: this remedy surely conquers these, and health is again restored.

RADAM'S MICROBE KILLER

Perfectly harmless to human life, but certain destruction to the Germs and Bacteria of all disease.

If you are sick, this remedy should be taken immediately. Don't defer the trial until there is no hope. Write us for free book and advice at once.

A Specific for Cancer.

"THE MISSISQUOI SPRING WATER has in some cases seemed to be of great benefit in arresting the progress of the disease. In a few instances, one of cancer of the breast and four of uterine cancer, the apparent effect *has been more striking than any results I have seen from any other agent.*"

Fordyce Barker, M. D.

'I can fully endorse all that my friend Dr. Barker has said about the MISSISQUOI SPRING WATER. I have prescribed it with benefit in a few cases of cancer. I also consider it a great remedy in all scrofulous diseases, and in syphilitic affections. In these diseases its true value has not yet been fully recognized by the profession. It is also an admirable remedy in affections of the digestive organs, and in some diseases of the kidneys."

J Marion Sims, M. D., LL D.

CRITICISED BY MERRITT.

Major-General Says Coast Artillery is in Inefficient Condition.

OFFICERS NOT BLAMED.

In His Annual Report He Takes Occasion to Tell Where Improvements Can Be Made.

No Specific Recommendations Made Concerning Any Particular Place. Some of the Inefficiencies Can Only Be Remedied Through an Act of Congress.

Washington, Oct. 14.—The annual report of Major-General Wesley Merritt, commanding the Department of the East, was made public by the Secretary of War. Gen. Merritt calls attention to the inefficiency of the coast artillery and criticises the work of the supply departments upon which the artillery is dependent, and refers to the severe criticism of the Quartermaster and Ordnance Departments. Of the report of Major Story, which he transmits, he says: "I have no specific recommendations to make regarding any one place. I know the officers to be intelligent, industrious and zealous in their efforts to improve the efficiency of their commands. That the coast artillery is not to-day in an efficient condition is due to causes over which artillery officers have no control, nor can these impediments be reached by the department commander. Some require action of the Secretary of War and others can be remedied only by Congress.

"The needs of the artillery are most ably presented in the report of the department artillery in September. I don't feel myself called upon to recommend the specific remedies which he proposes, but I certainly coincide with the opinion he expresses that the artillery is in need of remedial legislation. I deem it my duty to call attention to the defects and then leave the question of how they shall be removed to the law-making authorities and their advisers.

"Our cavalry and infantry to-day are organized on a modern basis, are splendidly officered and equipped and, with regular supplies of food, clothing and ammunition, contain within themselves the elements of complete efficiency. This is not true of the artillery; the officers are well educated and zealous, but their efforts are cramped by an imperfect organization and responsibility for the efficiency or inefficiency of their arm rests not, as it should, with themselves but very largely in other quarters. Whether through defects of law or their own inefficiency, the supply departments upon the artillery is wholly dependent, have frequently failed to loyally and energetically serve its interests. The fact that the engineer department working under the same laws, has, under its present chief, given the artillery no cause for complaint, would seem to indicate that something is wrong beside the law.

"This condition gives rise to the often expressed desire of the artillery for a chief of that arm who would see that it is supplied with what it needs to be effective, but I personally have very grave doubts as to this being the most suitable remedy, as it may result only in adding another bureau to the War Department, which it may be as difficult to make efficient as some of those already in existence.

"Major Story, the Artillery Inspector of the Department of the East, quotes from the report of Capt. Crozier on his inspection of the fortifications of the Atlantic Coast as follows:

" 'It cannot be said that the artillery defence is, or has been, recently, in any but an inefficient state.' "

He then remarks upon the almost utter absence of inspection of the coast fortifications and recommends that the artillery inspections be conducted by artillery officers. Referring to the question of range and position-finders about which Col. Frank made complaint, Major Story says:

"It may be said that not one of the 12-inch mortar batteries is properly equipped with position-finders for war service. Some mortar batteries even have no equipment for position-finding, yet 12-inch mortars form one-half of our armament of guns of heavy calibre."

He calls attention to an order of the Secretary of War dividing the responsibility for the installation of the range and position finders between War Department bureaus. Three bureaus are to furnish certain materials. He says, "The correspondence in this office shows that the chief of engineers has not only been willing to do all that devolves upon him in this connection, but time and again has made suggestions and recommendations to expedite the work. The chief Signal officer and the Chief of Ordnance always express a willingness to do all that is required, yet the work lags, and lags to such an extent that not a single artillery fire command in the United States is properly equipped. The lack of sufficient force, properly trained, to care for the modern armament and to man our new forts, is a serious menace to artillery efficiency."

Church Congress Greetings.

London, Oct. 14.—The church congress, now in session at the Royal Albert Hall, London, received a message of fraternal greeting from the American Church Congress, at St. Paul, Minn., and returned a grateful acknowledgment.

Merchants Complain of Taxes.

Madrid, Oct. 14.—The merchants threaten to close their shops as a protest against excessive taxation. If the threat is carried out, martial law is to Minn., and returned a grateful acknowledgement.

Purchase More Rolling Stock.

New Haven, Conn., Oct. 14.—The New York, New Haven and Hartford road has placed contracts for the purchase of forty engines and 500 coal cars.

BOSTON WELCOMES DEWEY

Thousands Greet the Admiral Upon His Arrival.

Boston, Oct. 14.—Admiral Dewey arrived here in a special car to attend the big celebration in his honor. He was escorted from his home in Vermont by the local Reception Committee.

There was a great popular demonstration at the railroad depot on the arrival of the party. This was continued along the streets and at the quarters selected for the Admiral during his stay here. The city is crowded with persons from all sections of New England who will remain for the reception ceremonies.

The cruiser Olympia, which is now here, is being visited by a great number of people.

The city is a mass of bunting and flags. Throughout the city proper, even in streets where the parade did not go, decorations are profuse.

A portion of the festivities consisted of singing by 2,500 school children on Boston Common and following this pleasing feature Admiral Dewey was presented with a magnificent gold watch suitably engraved. The presentation speech was made by Mayor Quincy.

It is estimated that there are nearly 1,000,000 visitors in the city.

Electric Companies Combine.

Chicago, Oct. 14.—The details of the sale of the Chicago, Edison and the Commonwealth Electric companies to the Whitney-Widener-Elkins syndicate have been completed and stockholders will in a day or two receive the plans. The new company, which is to consolidate the two concerns named, is to issue $25,000,000 in 4 per cent. gold bonds and a corresponding amount of stock. Edison stockholders will get two for one in the new bonds for their shares and a bonus of 50 per cent. in the new stock. That is to exhaust $10,000,000 of the bonds. The balance is to be retained in the treasury of the company to retire the Edison and Commonwealth bonds and other obligations and for the improvement of the property.

Jones' Vote Estimated.

Cleveland, O., Oct. 14.—Republican campaign managers believe that Mayor Jones, of Toledo, will not poll more than 50,000 votes, but none of them place his vote at less than 25,000. They place their estimates at anywhere between this maximum and minimum guess, and then assert that at least two-thirds of these votes will be drawn from the Democratic party. The Republican poll of the state is not yet complete and therefore Jones's actual strength is not known, but reports based on the canvas that has been made of the men who signed the Jones nomination petitions show that that percentage of them were Democrats before they became "non-partisans."

Prince's Jubilee Placed.

London, Oct. 14.—The race for the Middle Park plate of 500 sovereigns added to a sweep stakes of thirty sovereigns each, was run at Newmarket, and was won by Lord William Beresford's Democrat, ridden by Sloan. The Prince of Wales's Diamond Jubilee was second and the Duke of Westminster's Goblet, third. Six horses ran. The betting was even money against Democrat, 100 to 75 against Diamond Jubilee and 10 to 1 against Goblet.

Hindoo Said to Be a Swindler.

San Francisco, Oct. 14.—Anond A. Advani, a Hindoo, is under arrest here charged with presenting a worthless Chicago check to the California Bank, together with a draft on London for $15.000. He was arrested in Chicago on Sept. 23, the police say, on charges of forgery. A message from the Chief of Police of Hamburg, Germany, says that Advani is an international swindler.

Gas Explosions in Cleveland.

Cleveland, Oct. 14.—A series of explosions of gas here completely wrecked the plant of the Recovery Oil Company at the foot of Hunter street. The Recovery Company is one of the branches of the Standard Oil Company and the works are where zenzoil is manufactured. The fire department prevented the flames extending to an immense tank of hydro-carbon.

Cigarette Victim Missing.

Holly, N. J., Oct. 14.—Winthrop W. Shreve, a machinist, is missing and has sent an extraordinary letter from Bristol, Pa., to his wife who lives here. He advises his wife to sell their property, as he will never return. Shreve is said to have been a cigarette fiend. He smoked constantly. It is thought by his wife and friends that his mind has become temporarily deranged.

Will Oppose Jamaica Treaty.

Los Angeles, Cal., Oct. 14.—The California citrus growers' tariff committee has adopted a resolution calling on all the citrus growers and associations of southern California to contribute one-fifth of a cent a box on their crop of the coming season for the purpose of creating a fund to carry on a campaign against the ratification of the Jamaica treaty.

Made Her Word Good.

Tucson, Ariz., Oct. 14.—Pearl Hart, the woman stage robber awaiting trial here, broke jail by cutting a fifteen-inch opening through the wall ten feet above the level of her cell floor. She declared a few days ago that she would never submit to be tried under laws that her sex had no voice in making.

General McClerand Stricken.

Springfield, Ill., Oct. 14.—General John A. McClernand suffered a stroke of paralysis and his condition is said to be critical.

Suddenly Stricken Blind.

Connersville, Ind., Oct. 14.—Mrs. George M. Higgs was suddenly stricken blind without warning. Her condition is critical.

Choked on a Piece of Meat.

Steubenville, Ohio, Oct. 14.—Richard Pierce, of Portland Station, this county, while at breakfast choked to death on a piece of meat.

New York Announcement.

Horner's Furniture.

The BEST IN THE MARKET because representing the productions of the best makers only. Other advantages are the unequalled assortments in all lines, whether wanted for city or country houses, and the very moderate prices at which the goods are marked.

The completeness of our assortments can best be understood from the fact that we carry in stock, and exhibit, more than *two hundred and fifty distinctively different Bedroom Sets* in every variety of material, as well as endless lines of Parlor, Drawing Room, Library and Dining Room Furniture, ranging from the modest and inexpensive to the most elaborately carved and inlaid.

In a word, every article required for use, comfort and adornment in the household can be had with its plainly marked moderate price at the Great Furniture Emporium of

to anyone wishing to investigate the celebrated Virgil System of piano study.
The Practice Clavier, an essential feature in the Technical Work

TEETH.

If you have any to be extracted remember you will not be hurt in the slightest. My local anaesthetic is the best that can be obtained and is not known to the other dentists in this city. Gas strictly fresh administered by an expert if you want that. If you need artificial teeth you may rest assured that the greatest care will be exercised in selecting shape and color to harmonize with the face, also to restore the features to their natural expression and fullness. This is most important.

Full Set (guaranteed)	$8

SOLD AT MODERATE PRICES—CASH OR EASY PAYMENTS.
33 UNION SQUARE—WEST, NEW YORK,
Between 16th and 17th Sts.
Catalogue, Terms, etc., mailed free on application.

Druggists, as a general rule, do not make a practice of recommending proprietary medicines. Sometimes, however, when they have a particularly bad case of dyspepsia to deal with, they have been known to ask the sufferer to try Ripans Tabules. A St. Louis lady who was afflicted with chronic dyspepsia told a friend that she had tried more than a dozen different kinds of medicine without much relief; but one day, when she went to her druggist to have a bottle refilled, he asked her why she did not try Ripans Tabules. She bought some and took them regularly at meal time according to directions, and now she says she has never seen their equal for complaints of the stomach and liver such as she has so long suffered from.

A new style packet containing TEN RIPANS TABULES in a paper carton (without glass) is now for sale at some drug stores—FOR FIVE CENTS. This low-priced sort is intended for the poor and the economical. One dozen of the five-cent cartons (120 tabules) can be had by mail by sending forty-eight cents to the RIPANS CHEMICAL COMPANY, No. 10 Spruce Street, New York—or a single carton (TEN TABULES) will be sent for five cents.

THREE AMERICANS KILLED.

Major Cheatham's Party Have Hot Fight With Filipinos.

Manila, Oct. 14.—Major Cheatham's scouting party, while proceeding along the west shore of the lake, encountered a force of Filipinos strongly intrenched at Muntinlupa. Major Cheatham reports that he drove the rebels from their position and that three Americans were killed and two slightly wounded. Rumors are in circulation that Major Cheatham discovered three American prisoners who had been bound, gagged and shot by the natives. These rumors are not confirmed.

Sandago, a lieutenant of the native police force, has been arrested and lodged in jail, his subordinates having reported that he was endevoring to enlist them in a plot to turn the police against the Americans in the event of an uprising.

Reports having reached the provost marshal that arms were concealed at the headquarters of the Dominican friars, a large building adjoining the palace, a detachment of soldiers made a search of the building. They found a small stock of Mausers, revolvers and ammunition, which was confiscated.

General Schwan's infantry has reached Bacoor. The troops are exhausted, having had one of the hardest marches of the campaign. From Malabon to Perez das Marinas they marched over roadless rice fields. The Fourth infantry, from Imus, joined Schwan at Perez das Marinas. The Filipinos had deserted the town upon learning of the approach of the Americans, leaving only the women and children behind.

Two strong shocks of earthquake, lasting several seconds, were felt in Manila.

The Sixth Yacht Race Failure.

New York, Oct. 14.—The dead calm and thick fog caused another postponement of the yacht race. This is the sixth failure since the contest was attempted. Yachtsmen, professional and amateur, not to speak of those who have caught the infection of the sport since Columbia and Shamrock have been performing in this vicinity, threw up their hands in surrender when they took the measure of the weather. At the hour when the racing crowd usually leaves tow for the race course there was not one chance in a hundred that there would be a race, and those whose interest in racing is alive only at such times as the present were not long in deciding to stay at home rather than to make another fruitless trip through fog and over flat waters to the Lightship only to see the signal that by this time is getting threadbare from use, "No race," run up on the committee boat.

Thomas B. Reed Presided.

Philadelphia, Pa., Oct. 14.—Former Speaker Thomas B. Reed made his first appearance in public since his retirement from official life at the second session of the International Commercial Congress, at which he presided. Mr. Reed was greeted enthusiastically and appeared to be in splendid health. The proceedings were opened by Director General Wilson, who appeared upon the stage accompanied by Mr. Reed, Assistant Secretary of State Hill, General Laurie of London and Dr. Vosburg Rekow of Berlin. About twenty-five of the most conspicuous members of the convention, including the Corean, English, Chinese, Argentine and other South American representatives, occupied seats on the platform.

Winter Quarters for Artillery.

Washington, Oct. 14.—Gen. Merritt, commanding the Department of the East, has ordered Battery M, 4th Artillery, now stationed at Fort Strong, Long Island Head, to remove to Fort Warren, Massachusetts, for quarters during the winter. The armament installed at Fort Strong will be left in charge of a detachment of fifteen men of the battery under a sergeant.

Venezuela's Armistice Extended.

Caracas, Venezuela, Oct. 14.—The armistice between the government troops and the insurgents has been extended. It is asserted on reliable authority that President Andrade will meet the insurgent commander, General Cipriano Castro.

Earthquake Kills Thousands.

The Hague, Oct. 14.—The Government has received official confirmation of the earthquake in the island of Ceram on Sept. 29, by which thousands of persons lost their lives. The Government officers and the garrison at that place were not injured.

THE MARKETS.

New York, Oct. 14.—There was a very heavy tone to the Wall street stock market with declines in most of the usually active issues. Advancing prices in London were entirely disregarded here, the sentiment being that the gains on the other side were manipulated by operators in New York. The principal influence in the market was the fear of gold exports. Sugar and St. Paul were the notably active securities. In each of these the bears were working industriously to bring about a reaction. The measure of success met with was not startling.

Chicago, Oct. 14.—Closing prices for spot: Wheat 70⅝, corn 32, oats 23, pork 8.10, lard 5.35, ribs 4.90.

WILL ASSIST THE BOERS.

Orange Free State Declares in Favor or Co-operating With Kruger.

TO HELP FIGHT BRITISH.

President Steyn's Proclamation Tells Historically the Wrongs Done the Transvaal.

Declares That Solemn Obligations Have Not Protected That Country Against Annexation Conspiracy. British Armored Train Blown Up By the Boers.

London, Oct. 14.—An Edinburg paper, the Scotsman, asserts that a battle has occurred between General Sir George Stewart White's forces in Natal and the Boers, who entered Natal by way of Van Reenan's Pass. General White, the Scotsman says, is sanguine of the success of the British movement.

A dispatch to the Daily Telegraph from its correspondent at Ladysmith, says:

"A strong mobile column under General Sir George Stewart White, accompanied by General Sir Archibald Hunter, proceeded toward Acton Home for the purpose of reconnoitering. General White's object was to observe what was going on and also to test the mobility and efficiency of his forces. All the men are well and the weather is now fine."

Wrecked an Armored Train.

Cape Town, Oct. 14.—The Boers wrecked a British armored train near Vryburg and fifteen soldiers were killed and many injured.

The Boer attack was short, sharp and decisive and after shelling the wreck until the guard was routed, the Boers made a rush that drove the few unwounded men into retreat. They then completed the demolition of the locomotive and every car, dynamite being freely used to complete the destruction.

Part of the roadbed was blown up, and after their work had effectually blocked the road, preventing the sending of reinforcements to Mafeking, the Boers withdrew. The train was running from Mafeking when it was destroyed. The Boers now control the Cape Government Railroad above Kimberly.

What telegraphic communication can be had with Kimberly will probably be cut off at once.

The Orange Free State forces at Jacobsdale, thirty miles south of Kimberly, are reported moving on the railroad at the Modder River and will probably blow up the railroad bridge and cut the wires.

Will Assist Transvaal.

Bloemfontein, Orange Free State, Oct. 14.—A proclamation of President Steyn of the Orange Free State declares in favor of the most cordial co-operation "with our sister republic, which is about to be attacked by an unscrupulous enemy who has long looked for a pretext to annihilate the Afrikanders."

The proclamation then sketches historically the wrongs done the Transvaal. It says: "The original conventions have been twisted and turned by Great Britain into a means of exercising tyranny against the Transvaal, which did not return the injustice done in the past. No gratitude has been shown for the indulgence granted to British subjects who, according to law, forfeited their lives and property. The crafty plans of those whose love of gold is the motive are now being realized."

President Steyn goes on to say that solemn obligations have not protected the Transvaal against the annexation conspiracy. "When its independence ceases," he says, "the existence of the Orange Free State, as an independent State, will be meaningless. The experience of the past shows that no reliance can be placed upon the solemn promises of Great Britain when the Administration now at the helm is prepared to tread treaties under foot."

The proclamation concludes as follows: "Burghers of the Free State: Stand up as one man against the oppressor and violator of right!"

Accuses Salisbury.

Pretoria, Oct. 14.—State Secretary Reitz has issued a manifesto in which he accuses Prime Minister Salisbury, Colonel Secretary Chamberlain and Sir Alfred Milner, the British High Commissioner, of being the cause of the war. He finds fault with Her Majesty for condoning "Chamberlain's criminal policy." He says Great Britain offered two alternatives—the five years franchise or war. He tells the Afrikanders that God will surely defend the right. A million copies of the circular have been printed in Dutch and English.

Arm Must be Amputated.

Plainfield, N. J., Oct. 14.—James Conboy, a member of Relief Hose Company, of Raritan, which participated in the firemen's parade in North Plainfield, was nearly killed while returning home. Conboy got on a late train but found that it did not go beyond Bound Brook. He got off there and jumped on a coal train going towards Raritan. He had ridden but a short distance when he lost his hold and fell between the cars. His arm was caught by the wheels of the car and badly crushed. He was dragged for some distance and his body bruised. He was found by some railroad men lying unconscious at the side of the track and was immediately brought to the Muhlenberg Hospital, in this city, where he lies in a precarious condition. It will be necessary to amputate his arm in the endeavor to save his life.

Broke Her Paddle Wheel.

New Haven, Conn., Oct. 14.—The crack steamer of the New Haven Line, the C. H. Northam, smashed a paddle wheel and damaged her coal bunkers here by jamming into Long Wharf through an error by the pilot. No one was injured, but the boat may be laid up a few days.

COMING EVENTS.

October 15—Capt. George D. Morrison will address the Y. M. C. A. men's rally at 4:15 p. m.

October 20-22—State conference on boys' work of the Y. M. C. A., of New Jersey.

Much in Little.

Writing on the marvelous facilities for concentration afforded by art an accomplished essayist has said: "A massive wood, a great stretch of river or lake and a remote mountainous horizon may all be suggested to the mind by a drawing two inches long and one and a half inches high." Following up this idea, says the Philadelphia Record, it may be remarked that a like facility of condensation is offered by intelligent modern newspaper advertising. A great deal may be said in a little space; the advertiser's establishmsnt and wares may be portrayed in verbal descriptions with a vividness and skill that will strike the reader's fancy and arouse his interest. This is the chief object of an advertisement, since when public attention is attracted to a line of wares the people in general are sure to want to personally inspect them.

Jerry Simpson, one of the anti-expansionists, was invited to the celebration at Topeka with which the citizens are going to welcome the Kansas troops returning from the Philippines, but whether through prudence or consideration he replied as follows: "Desiring above all that the possibility of anything that might mar the pleasure of your grand reunion in Topeka be avoided, I think it better, under the circumstances, that I stay away." Can the celebrated sockless statesman have lost his old-time desire to avail himself of a good chance for an exciting argument, or does he fear that operators of Mausers and Gatling guns will prove a larger proposition for him to tackle than the Congressmen he used to meet in Washington.

When Governor Voorhees appointed the new members of the Board of Trustees of the State Industrial School for Girls and declined to make public their names, he committed a star chamber act that subjected him to severe criticism of newspapers, irrespective of politics, throughout the State. This criticism seems to have hit the Governor in a pregnable part, for yesterday he announced that he had changed his opinion and would let the people know something about the business they pay him $10,000 a year to transact for them. The disclosure of the names of the new trustees followed. As reprehensible as it was for the Governor to at first refuse to give out the names of the trustees, it is gratifying to know by his act of yesterday that he was not inclined to be bull-headed about it when he realized that he had committed an unpopular act.

THE MARLBOROUGH CAMEOS.

Out of the fund willed to it by the late Henry L. Pierce, the Boston Museum of Fine Arts has purchased nineteen gems of the celebrated Marlborough collection. Thirteen of these have recently arrived at the Museum and are now on exhibition in a specially constructed fire and burglar proof safe. The illustration shows selections.

The Baltimore Sun, concerning the Transvaal trouble, says that England enters upon the conflict with little sympathy from other nations, and adds: "Even admitting that the Boers have been arbitrary and tyrannical in the administration of their internal affairs, it is difficult to avoid the suspicion that England is actuated in her attack upon them less by the desire to relieve the victims of oppression than by the desire to make herself mistress of rich adjacent territory."

Mayor Harrison, of Chicago, having declared that the Dewey celebration in New York was cold and apathetic as far as the people of that city were concerned, now says the Chicago Fall Festival during which President McKinley laid the corner stone of the postoffice building, was simply a Republican campaign meeting, but he promises that "If Dewey comes to Chicago" things will be different. What self-assurance the Chicagoans possess.

Rev. Sam Small, the evangelist, will be a partner in a newspaper to be es tablished in Cuba. The enterprise has bright prospects of success, since another partner is Francis Atwater, financial agent in Cuba for the Red Cross Society, and the paper will be an administration organ, while the job department is to publish the first city directory Havana has ever had.

WHAT THE SHEARS FIND

Editorial Comment From Other Papers of Interest in Plainfield.

We are now able to say with authenticity that should the nomination for State Senator on the Democratic ticket be offered to our fellow-townsman, Samuel S. Childs, he will accept. This will undoubtedly please his many friends in all parts of the county. Bernards township will feel highly honored at receiving the nomination for this high office, and the whole Democratic ticket will unquestionably be elected by a rousing majority.—Bernardsville News.

* * * * *

Hon. George A. Squire flatly contradicts the report started by the Plainfield News, to the effect that he had concluded to withdraw from the contest for County Clerk, and that he had consented to accept the nomination for the Assembly. Mr. Squire declares that he is in the contest for the nomination to stay. This disposes of every report to the contrary, and leaves the situation exactly as it was before The News started its unwarranted report.—Elizabeth Journal.

PASSING COMMENT

Things that Are Not Exactly News but Just as Interesting.

Abner D. Frazer, of Cincinnati, is trying to get the clergy interested in a world's revival, to mark the opening of the new century. The time which he suggests for the holding of the revival is from October 1, 1900, to March 31, 1901. The first three months of the century he would devote to the reviving of the work of Christianity, and the last three months to forecasting the Christian work of the future.

* * * * *

The last few days have strongly resembled the so-called "Indian Summer," a period of warm, muggy weather that usually visits this section of the country in November. The summer clothes that were all ready relegated to the closets and trunks, were gotten out once more and the wheelman wiped the perspiration from his brow with that time-worn expression of the summer months, "Warm, isn't it?"

* * * * *

The attention of the street commissioner is called to the filthy condition that exists at the northwest corner of Front and Somerset streets, where is located the drinking fountain. Newsboys and bootblacks make familiar with the drinking cup; the sidewalk is continually in a wet and slimy condition, compelling ladies who have occasion to pass that corner, to lift their skirts or have them soiled from dragging in the filth. Besides these pools of water stand in the street in front of the fountain, caused from the overflow, giving the locality a slovenly and anything but inviting appearance.

* * * * *

There were many visitors at the Plainfield Fire Department headquarters Thursday. The visiting firemen were all anxious to take a look at the Plainfield department and see for themselves the reported excellence of the local companies. Although the fact that the Plainfield department is a paid one debarred its participation in the parade, the Plainfield firemen did all in their power to entertain such of North Plainfield's guests as happend into headquarters during the day. Chief Doane and his assistants kept open house all day and had the active co-operation of all the men in showing the visitors about the building and explaining the methods in vogue in Plainfield. The building was gaily decorated with flags and the Plainfielders worked as hard to give the outsiders a good time as did their friends of the borough.

* * * * *

There isn't after all any season of the year when bicycling is quite as enjoyable as in the fall when the foliage begins to assume its autumnal hues and the air is just cool enough to be brisk and invigorating. Many owners of wheels have a habit of stowing away their bicycles as the fall season arrives. Now that October moon, commonly called the "hunter's moon," is approaching its prime, the nights are fully enjoyable for wheeling as the days. While short rides in the summer season are often very pleasant, the advantages of this season for touring are far above those of any other time of the year. To the owner of a bicycle who cares at all for riding and can cover even thirty or forty miles a day without over exertion, a tour through the smooth roads of Jersey or Long Island at this season is an outing that will long be remembered with pleasure.

That Throbbing Headache.

Would quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and strong nerves and build up your health. Easy to take. Try them. Only 25 cents. Money back if not cured. Sold by L. W. Randolph, Druggist.

DOES COFFEE AGREE WITH YOU?

If not, drink Grain-O—made from pure grains. A lady writes: "The first time I made Grain-O I did not like it but after using it for one week nothing would induce me to go back to coffee." It nourishes and feeds the system. The children can drink it freely with great benefit. It is the strengthening substance of pure grains. Get a package today from your grocer, follow the directions in making it and you will have a delicious and healthful table beverage for old and young. 15 and 25c.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

Extraordinary Sale
of Fine Clothing.

A Sale that gives you an opportunity to buy your fine Fall and Winter Suits and Fall and Winter Overcoats and Trousers

At 1/3 the Manufacturer's Prices.

HERE IS THE STORY:

We closed out the entire stock of a large manufacturer of few days ago securing over $6,000 worth of the finest and most up to-date men's dress suits, business suits and trousers at a mere fraction of their value and we will place them on sale this Saturday morning.

Over 500 styles in suits and overcoats to choose from; this is without a question the greatest offering in men's apparel Plainfield has ever seen, and one that every man and woman intending to buy clothing this season should take advantage and note these extraordinary prices.

MEN'S FALL COVERT TOP COATS—Very stylish in appearance, made of strictly all wool materials, regular $10.00 garments, at this sale $3 75.

MEN'S STRICTLY ALL WOOL TOP COATS—Exceedingly stylish, guaranteed to be worth $12.50, will close out what is left at $5.00.

MEN'S ALL WOOL BUSINESS SUITS—Made of black or blue cheviots and mixed cassimeres. These suits are made up in this season's styles and patterns and would easily command in other stores from $8.00 to $10.00; we will sell them at an unusual low price, $3.50 and $3.90.

MEN'S SACK COAT SUITS in striped worsted and checked cheviots, neat, stylish and well made, easily worth $15.00, your selection at $6.50.

MEN'S BLACK CLAY DIAGONAL COATS and VESTS—Winter weight sack or cutaway, guaranteed to be worth wholesale $9.00, to go at this sale at $4.50

CHILDREN' VESTEE SUITS—Age 3 to 8, and boy's double breasted suits 7 to 16, all-wool in blue and fancy cheviots at $1.00, $1.50 and $1.75, worth $3.00.

YOUTH' SUITS with long trousers, ages 14 to 19, in blue and black serges, single or double breasted, a $10.00 suit, at $5.75.

Men's blue or black welton overcoats, worth $10.00, at $4.50, and hundreds of other fine coats in proportion.

Men's suspenders at 6 cents, worth 25c. All-wool half hose at 9c, worth 25c

AUCTION SALE
—OF—
Desirable Residence,
at Plainfield, N. J.

The sale will take place on the premises,

Thursday, October 19, 1899,

at 2 o'clock in the afternoon.

This property was the residence of the late David M. Demarest, and is located corner Crescent avenue and East Seventh street. The house contains 14 rooms, and all modern improvements, including steam heat and electric lights; is substantially built and in good repair. The lot has a frontage of 200 ft. on Crescent ave., and 119 ft. on Seventh St. The lot may be divided so as to make 2 lots on Crescent Ave., each with a frontage of 100 ft., with the present house standing on the corner lot. The location is one of the choicest of all the choice locations in Plainfield, is within 5 minutes of railway station, and is convenient to churches and markets and all lines of transportation. There is stable room for 4 horses.

Terms of Sale—10 per cent cash, balance on delivery of deed, 30 days after sale.

For full particulars inquire of

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Daily Press.)

Dunellen, October 14.—Now that the borough is supplied with water works, wouldn't it be a good idea for the firemen to stir themselves and secure uniforms? There is plenty of good material for two good companies—one for the hose and another for the hand-pump. But what is wanted first of all is a sufficient amount of hose to use in the event of a fire occurring in the borough. At least 1,000 feet of new hose should be bought at once.

The small boy is happy these days. The quantity of leaves lying in the streets are too tempting to resist the enthusiasm of the hoodlum who is just now enjoying himself by building bon fires, much to the discomfort of the good housewife, who detests the sport from the fact that the smudge fills the house and permeates the clothing.

Many from here witnessed the parade of the North Plainfield firemen and their guests Thursday. It is the general opinion that it was the best parade seen in some years.

The cars of the Brunswick Traction Company were not sufficient in number to carry the immense crowd that went to Plainfield Thursday to witness the firemen's parade.

Complaints continue to be made with reference to the poor condition in which the streets have been left by the Watchung Water Company. They should be smoothed off.

Daniel Sloat, of Brooklyn, has moved into the house recently bought of Mrs. George Ulrich at New Market. He intends to make some needed alterations to it.

The employes along the line of the Central Railroad are looking forward to the coming of the pay car, which is expected on Monday.

Mr. and Mrs. Edward Faulkner, of Westfield, have been visiting the family of Joseph Faulkner, of New Market.

The board of registry of New Market will meet at the Hotel Nelson next Tuesday from 10 a. m. to 9 p. m.

The canvass of the board of registry shows that there are 334 voters in the borough.

A two story frame addition has been built to the residence of George F. Giles.

Two new dwellings are soon to be built on Dunellen avenue.

PLAINS AND FANWOOD

(Special Correspondence of The Press.)

Scotch Plains, October 14—At the close of the prayer meeting in the Baptist church last evening a meeting was held for the purpose of electing delegates to the East Baptist Sunday-school convention to be held in the Park Avenue Baptist church Tuesday next.

The condition of Mrs. Frederick Rose, who has been seriously ill at the home of her parents, Mr. and Mrs. Fred. Gibbs, for several months, remains about the same. Some days signs of improvement are shown but the next it is lost.

Rev. G. M. Shott will preach Sunday morning the third of a series of sermons upon Discipleship. "Disciple and Temperauce" will be the subject. The evening discourse will be on the subject, "Racing."

Walter Hand, son of Mr. and Mrs. Henry Hand, has leased the Murphy property on Park avenue and opened the blacksmith shop formerly conducted by Samuel Taynor.

These cases have been adjourned in Judge Clark's office: Miller against Bondy, in tort, adjourned to October 18th; Hallstrom against Thatcher, on contract, to October 18th.

Mr. and Mrs. Ira G. Walker have gone to Schenectady, N. J., to attend the funeral of Mr. Walker's father, who died Wednesday.

Mrs. John R. Haskard started Friday morning for a visit of several weeks with her sons in Boston, Mass.

The recent canvass of the Board of Registry finds Fanwood township has a voting population of 310.

Twilight Council, Jr. O. U. A. M., held their regular weekly meeting in their rooms last evening.

John Reick is beautifying his property on Forrest avenue by the addition of a coat of paint.

Avoid all drying inhalants and use that which cleanses and heals the membrane. Ely's Cream Balm is such a remedy and cures Catarrh easily and pleasantly. Cold in the head vanishes quickly. Price 50 cents at druggists or by mail.

Catarrh caused difficulty in speaking and to a great extent loss of hearing. By the use of Ely's Cream Balm dropping of mucus has ceased, voice and hearing have greatly improved.—J. W. Davidson, Att'y at Law, Monmouth, Ill.

THE AMUSEMENT WORLD

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local and Metropolitan Performances That Will Please Those Who Delight in the Art of Thespis and Mimic World

A very interesting play, "Knobs O'Tennessee," will be presented at Music Hall tonight. In some of the country—notably Tennessee and Kentucky—are a class of people commonly known as moonshiners. They are a peculiar poetic-near-to-nature's-heart sort-of-people, extremely faithful one to the other, their law being mainly that of a good Winchesrer rifle aimed with a steady hand and a clear eye. Their land as a rule is rocky and bad—as moonshining or plainly the making of corn whiskey is done in the mountains—or knobs. "Knobs" being the foothills of the mountains and about all they can raise is corn. It is a God given right handed down from generation to generation among them this right to manufacture this moonshine whiskey—so called because by fear of the "Gov'menters," their arch enemies. They work in some hidden nook by the light of the moon. When one comes to think of it it is a wonder that some of our playrights have not taken advantage of this class of people the beautiful mountain scenery and the religion of these people, to make a play of before. In "Knobs O'Tennessee," the new and beautiful play by the American author, Hal Reid, and has used this theme—and has made an eleven curtain call hit of it.

* * * * *

One of the richest treats of its kind to be offered here this season will be inaugurated next Tuesday night at Music Hall, when Dolan & Lenharr, and their big company will produce their new farce comedy, "A High Toned Burglar." While this play contains a well defined and most interesting plot, it is arrangned as well to introduce all kinds of amusing specialties, up-to-date incidents, and satires on leading subjects of the day, as well as offering opportunities for the droll wit of George Fuller Golden to sparkle. The company is a most most pretentious one and includes such well known artist as Charles J. Stine, Ollis Evans, Knox Wilson, Edward Sandford, M. E. Hanley, Frank H. White, Aimee Hanley, and a large number of handsome ladies. Dolan & Lenharr have a wide circle of acquaintances among fun-loving people. Having been leading features in the high class vaudeville theatres for seasons past, and the success attained by them there has more than entitled them to be called travestry stars. Their work is bright, quick and most intelligent, and every performance bring them new friends and admirers. The public's demand for something new, has certainly been met by these artists, and they are deserving of the congratulations and success they are receiving for this bright production and the magnificent company that they have surrounded themselves with.

A Frightful Blunder.

Will often cause a horrible Burn, Scald, Cut or Bruise. Bucklen's Arnica Salve, the best in the world, will kill the pain and promptly heal it. Cures Old Sores, Fever Sores, Ulcers, Boils, Felons, Corns, all Skin Eruptions. Best Pile cure on earth. Only 25 cts. a box. Cure guaranteed. Sold by L. W. Randolph, Druggist.

WESTFIELD

(Special Correspondence to The Daily Press.)

Westfield, Oct. 14—George Hague, of Dunellen, an employee at the C. & C. works at Garwood had his left hand badly hurt while working at the emery stone on Wednesday. His hand was caught on the wheel and badly cut and bruised before the machinery could be stopped.

George W. Wrennick, who conducts a store in Plainfield and has for a short time had a shoe store in Westfield, has retired from the Westfield business, and the Piker Shoe Company will hereafter conduct the store. W. F. Brainerd is the proprietor and Henry Piker the manager of the new firm.

John F. Dorvall, of this town, who is hustling for the republican nomination for sheriff, thinks he has a good chance and expects the delegation from Westfield to place his name in nomination.

The members of the S. O. H. held a stag racket at the home of Ernest Alpers, on Kimball avenue last evening, and a most enjoyable time is reported.

A large number of the members of Westfield Lodge, I. O. O. F., will go to Plainfield on Monday evening to assist in electing a deputy for this district.

—The steam roller has been working on East Second street. The street will be ready for traffic in a few days.

—The second rank was conferred on one candidate at the meeting of Perseverence Lodge, Knights of Pythias.

—The monthly meeting of the Board of Trade will be held Monday evening in the Board rooms in the Babcock building.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Among the members of the class that entered the Law School of the University of New York, this fall, are Thomas Quinn, who is studying law in the offices of Robert M. Clark, and Asa Randolph, who is a student in the offices of William M. Stillman.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free.

from the Manufacturer to the Consumer.

For the past three weeks we have been very busy bringing from our factory bundle after bundle of our Fall and Winter stock and arranging them on our tables. We didn't say a word about them because we wanted to display our line in full and then scream.

NOW WE'RE READY TO SCREAM.

We never scream unless we have something to scream about, and we won't scream about anything that we can't substantiate. We are showing as extensive a line of clothing as any store in the vicinity, and the prices are right. The cut and finish is there and all extra profits are off. Besides our staple blacks and blues, we are showing a variety of up-to-date worsteds, with and without double breasted vests in stripes, checks and plaids. Everything that the designers art and fine tailoring can do is in them. We are proud of our stock and want everybody to see it. Come and look at it whether you want clothing or not, you will be treated right.

Below We Quote a Few Prices:

Men's Black and Blue Cheviot suits 2.75, 3.75, 4.25, 7.25, 8.00 and 9.00.
" Fancy Cheviot suits 3.25, 4.25, 5.00, 6.00, 8.50.
" Fancy Worsteds, elegant 7.50, 9.75, 10.50, 11.00
Boy's long pant suits 3.00 to 8.75 Child's knee pant suits 95c to 4.00.

Winter Overcoats are being placed in stock now.

WE DO TAILORING, IT MIGHT INTEREST YOU.

SCHEPFLIN & SCHULTZ,

Manufacturing Clotheriers,

M. J. CASHIN, - Manager.

322 West Front Street.

Open Evenings Until 8:30.

Lokal-Nachrichten aus der alten Heimath.

Provinz Pommern.

Stettin. Einer der ältesten und beliebtesten Lehrer, Professor Dr. Wisotzki am städtischen Friedrich-Wilhelm-Realgymnasium, hat seinem Leben durch Erschießen ein vorschnelles Ende bereitet. Ueber den Anlaß zu dem Selbstmord ist nicht das Geringste bekannt; man kann nur annehmen, daß Dr. Wisotzki, der in letzter Zeit mehrfach ein verstörtes Wesen zeigte, in einem Anfall von Geistesstörung gehandelt hat. Die Frau des Dr. Wisotzki befindet sich in einer Irrenanstalt.

Swinemünde. Hier hat der Kaiser kürzlich 61 Fähnrichen zur See das Zeugniß der Reife zum Seeoffizier ertheilt. Ein Fähnrich Namens Scheibe hat in der Seeoffiziersprüfung derartige vorzügliche Kenntnisse dargelegt, daß der Kaiser ihm eine öffentliche Belobigung zukommen ließ.

Provinz Posen.

Posen. In der Stadtverordnetenversammlung theilte Oberbürgermeister Witting mit, daß der Bezirksausschuß die fehlende Zustimmung der Landgemeinde Jersitz zur Eingemeindung in Posen ertheilt habe. Nachdem die Vororte St. Lazarus und Wilda der Eingemeindung bereits zugestimmt haben, dürfte die Eingemeindung dieser drei Vororte am 1. April 1900 erfolgen.

Stenschewo. Prinz Bernhard von Sachsen-Weimar, der in der Umgebung große Güter besitzt, schenkte 40,000 Mark zum Bau einer evangelischen Kirche dahier.

Provinz Ostpreußen.

Liebstadt. Eine Feuersbrunst äscherte die Scheunen der Fleischermeister Braatz, Thiel, Rosanowski, des Brauereibesitzers Wasserziehr und des Kaufmanns Strazim ein. Es wird Brandstiftung vermuthet.

Memel. Kaufmann A. E. Buttkus sen. feierte sein 50jähriges Jubiläum als Mitglied der Korporation der Kaufmannschaft.

Provinz Westpreußen.

Danzig. Die hiesige Strafkammer verurtheilte den Schutzmann Paul Tucholski, der einen städtischen Arbeiter mit blanker Klinge blutig geschlagen und widerrechtlich festgenommen hatte, wegen Körperverletzung und Freiheitsberaubung zu neun Monaten Gefängniß. Der Staatsanwalt hatte zwei Jahre beantragt.

Stuhm. Hier hat die Gerichtsdienertochter Margarethe Sauter ihre drei kleineren Geschwister, deren Obhut ihr lästig geworden war, in den Brunnen geworfen, „um die Bälge los zu werden." Zwei der Kinder sind ertrunken, eines konnte gerettet werden.

Rheinprovinz.

Aachen. Der verstorbene Generaldirektor Maas hat den hiesigen Armen 10,000 Mark vermacht, ferner dem städtischen Suermondt-Museum fünf Gemälde.

Düsseldorf. Der Minister des Innern hat den Beschluß des Gemeinderaths von Heerdt, die auf der linken Rheinseite belegenen Ortschaften Oberkassel und Niederkassel, die nach Errichtung der neuen Rheinbrücke in riesigem Wachsen begriffen sind, Neu-Düsseldorf zu nennen, abgelehnt.

Erkelenz. Auf das Pensionsgesuch des Bürgermeisters Reinkens, der eine fast 40jährige Dienstzeit hinter sich hat, beschloß die Stadtverordnetenversammlung, den Antragsteller unter Belassung des vollen Gehalts von seinem Amte zu entbinden, und ernannte ihn gleichzeitig zum Ehrenbürger der Stadt Erkelenz.

Eupen. Die Maul- und Klauenseuche, die noch im vorigen Jahre den Kreis Eupen um Hunderttausende geschädigt hat, ist hier von Neuem ausgebrochen.

Krefeld. Die Fabrikausschüsse sämmtlicher Färbereien empfehlen den Arbeitern, in allen Färbereien dieselben Forderungen zu stellen wie die ausländischen Arbeiter der beiden größten Färbereien.

Provinz Sachsen.

Halle. Die städtischen Behörden beschlossen die Eingemeindung der Vororte gemeinden Giebichenstein und Trotha mit 20,000 Einwohnern und genehmigten die mit den Gemeinden vereinbarten Verträge.—Hier beging der Bergassessor Max Vollert aus unbekanntem Grunde Selbstmord.

Suhl. Zum Zweck des Vogelschutzes macht der hiesige Magistrat bekannt, daß 18 Mark Belohnung für jede einzelne Anzeige an die Person gezahlt werden, die ihm Singvogelfänger derart namhaft macht, daß deren gerichtliche Bestrafung herbeigeführt werden kann.

Provinz Schlesien.

Breslau. Die Stadtverordnetenversammlung genehmigte die Aufnahme einer Anleihe von 37,000,000 Mark sowie die Eingemeindung des Vorortes Morgenau. Von den 37,000,000 Mark sollen 6,000,000 für eine Grundwasserleitung, 5,000,000 für die Kanalisation, 5,500,000 für Brückenarbeiten, je 3,500,000 zum Bau eines Handelshafens, der Gasanstalt und höherer Schulen und 2,500,000 für eine elektrische Centrale verwandt werden.

Peiskretscham. Von einem unbekannten Mordbuben wurde hier zur Nachtzeit der Amtsgerichtssekretär Rother erstochen.

COLORED PICTURES.

And Other Interesting Games for Stormy Weather.

"Printing by magic" is great fun. Take a mustard tin and half fill it with boiling water. Add to this six thin slices from a cake of soap and a teaspoonful of turpentine. When cold it will be a jelly.

Now get some papers with pictures; paint a very little of this jelly over the picture, spread a clean sheet of paper over it, and then press it hard Separate the piece of paper from the picture, and you will find that you have two pictures instead of one.

Have you ever tried coloring the pictures in periodicals or papers, or even advertisement pictures, with colored chalk? Ask mother if she will give you a penny to buy a box of chalks, and next wet day try it, and I am sure you will agree with me that it is a most delightful employment.

Then I wonder if you know that it is possible to buy boxes of modeling clay (red and gray are the nicest). With this clay you can build all kinds of nice things—ships, houses, animals, almost anything you like in fact.

The clay can be used again and again, and, as it is only just moist enough to mold, and not moist enough to be messy, there is no need to have a special room in which to use it. The simplest plan is to spread newspapers over an ordinary dining table. The clay can be got from toy shops either by the pound or the box.

Another game is "my house." For this you want some advertisement pages containing illustrations of chairs, tables and any article that would be used in furnishing a house. Vases, clocks and things of that kind all come in.

Cut all these things out and then either arrange them on a table or the floor or stick them into a scrapbook till all the house is furnished—the dining room with its tables and chairs, the kitchen with its pots and pans and so on.

A TRAMP CAT.

How the Neglected Animal Come to Save a Little Girl's Life.

A few months ago a strange cat strolled into the house of a Kentucky farmer, and sat blinking at the kitchen fire, with an air of great assurance, as if to say, "I 've concluded to come and live with you." But the farmer did not take kindly to the newcomer; he tried several times to throw the cat out of the house; but pussy scratched him so viciously that he was glad to leave her in quiet possession. The cat immediately became very fond of Lizzie, the five-year-old daughter of the farmer, and followed her wherever she went. One day Lizzie went into the garden to play among the flowers, and the cat took up her position about six feet away. After awhile the little girl rose to depart, when, to her surprise and dismay, she she saw an ugly, poisonous snake about three feet long behind her, coiled up and ready to strike. But the cat had seen the reptile, too, and with one bound she pounced upon him and bit him on the neck. Then ensued a long and desperate fight, in which the cat was getting the best of it, when the screams of the little girl attracted the farmer's wife to the scene of the catastrophe, and his snakeship was speedily dispatched with a garden tool.

The farmer now says he is glad the tramp cat" stayed; and ever since her brave encounter with the snake pussy gets an extra saucer of milk from the hand of her little friend Lizzie. On such occasions she blinks and looks at the farmer in a way which shows that she fully realizes what a valuable cat she is.

A Queer Insect.

A very curious creature is the surgical ant of Brazil. The native Brazilian, far removed, as he generally is, from doctors and surgeons, depends upon a little ant to sew up his wounds when he is slashed or scratched. Truth to tell, the average surgeon could do the job no better than these little insects.

The ant has two strong nippers on his head. They are his weapons for battle or forage.

When a Brazilian has cut himself, for example, he picks up an ant, presses the nippers against the wound, one on each side, and then gives the bug a squeeze. The indignant insect naturally snaps his nippers together, piercing the flesh and bringing the lacerated parts close together. The Brazilian at that moment gives the ant's body a jerk, and away it flies, leaving the nippers imbedded in the flesh. To be sure, that kills the ant, but, as he has served the most useful purpose in life, it is well. The operation is repeated until the wound is sewed up neatly and thoroughly.

Looking Glasses.

Persia is the ideal place for a looking-glass peddler to live in and move and have his trade, for the Persians are as fond of shiny reflectors as are savages of beads. Every year immense numbers of mirrors of all sorts and kinds are shipped into the country of the Shah. Germany, France and Belgium furnish most of the supply. In addition to having a fondness for seeing themselves as looking-glasses show them, the Persians know no more pleasing parlor decorations than brilliant mirrors in gilt frames. Some of the Persian drawing-rooms are completely hemmed in by great pier glasses and visitors become bewildered and try to walk down the long aisle that seems to stretch in front. So bumped noses, knees and toes are not uncommon in that land of oriental splendor and mystery.

Scotland's Lincoln Statute.

Scotland seems a strange place to find a statue of Abraham Lincoln, and yet there is one there. It adorns a monument erected in old Calton burying ground, Edinburgh, to the memory of the Scottish Americans who fought in the American Civil War.

A Child's Rebuke.

A little four-year-old miss was overheard talking to her favorite doll that had accidentally lost an arm, thereby exposing the sawdust. "Oh, you dear, good, obedient dolly; I know I told you to chew your food fine, but I had no idea you would chew it as fine as that."

There's one really famous range in the world—"The Portland"—over 10,000 of them in use.

WOMEN'S REALM

TO INTEREST CHILDREN.

Let Them Work With You in All the Occupations of Home.

Constant change in occupation is the law of the growing child, because the law of his growth demands it. The work of the home and its environs is admirably adapted to this necessary constant change.

Let the children work with you. Share with them, and they with you, in all the occupations of the home Talk, explain, sing, while at work, and there will be no lack of interest. It is only when the little ones are left to work alone or with other children, on tasks which they do not comprehend that they become listless.

The healthy, happy child is naturally an enthusiast in anything which he undertakes. He likes work. His play is work—business—and he would prefer to spend his energies in some way that will "help," if he only knows how to do it. Of course he must not be kept at one thing until the muscles and faculties employed become wearied.

After he has kept his arms, hands, legs and feet moving in a certain way for a few minutes, he must change. He will change so as to bring other parts into play, unless he is arbitrarily prevented; and when that happens he loses interest and becomes a dull, sullen, uninteresting "bother of a boy," judged by the ordinary onlooker, when in fact, he is only tired out and suffering. Make the work light and pleasant and do not let the children be counted out of the homemaking and housekeeping.

Taxed for Wearing Trousers.

Women using male attire are taxed for the privilege in France. For the privilege of wearing men's trousers the French government charges women a tax of about $10 a year.

This, however, does not give every woman who is willing to pay the tax a right to wear such garments. The government confers the right as a tribute to great merit and makes it, in fact, a sort of decoration given to women, as the ribbon of the Legion of Honor is given to men.

The only women to whom has been granted the right to wear male attire are Georges Sand, Rosa Bonheur, Mme. Dieulafoy, the Persian archaeologist, Mme. Foucalt, the bearded woman, and two feminine sculptors, Mme. Fourreau and La Jeanette.

How jealously the right of wearing male attire by women in France has been guarded may be seen in the recent case of Mme. de Valsayre. This lady is well known for her propensity to fight duels and her efforts to get elected to the French assembly.

Last year she petitioned the government for the right to wear men's clothes, but the French authorities refused her petition. She is a pretty woman, with a profusion of blonde hair.—Tit-Bits.

Why Babies Are Cross.

It seems almost absurd to advise mothers not to pinch babies' feet, and yet physicians say that much of the fretfulness and irritation of babyhood is due to tight shoes and stockings. Not tight, perhaps, from a grown-up standpoint, but sufficiently snug to hurt the tender, soft flesh of baby feet. The shoes that are got for the very little baby are often actual instruments of torture because of some slight roughness or pressure.

If the shoe fits snugly, no matter how soft it is, the sole is sure to press into the sensitive flesh and irritate the temper, if not actually injure the nerves. Baby flesh is so soft that the mothers or nurses often do not notice how badly the little foot is being crowded until impeded circulation tells the story of suffering.

And small stockings are frequently a means of injury as are small shoes. Always buy both shoes and stockings at least one size larger than the so-called "easy fit." This rule should hold good until the foot has ceased to grow. The result would be a generation of healthier, better-tempered and more graceful men and women.—Demorest Magazine.

A Pneumatic Corset.

A corset made of rubber is adapted for the use of women who are learning to swim. This corset is cut on the same general lines as all corsets, and made double, so that the air space between the two thicknesses may be blown up, and serve not only to present a neat appearance to the figure, but also to buoy it up and give confidence to the mind. A lack of confidence is responsible for the slowness with which this accomplishment is learned by woman, and this corset should prove a boon to women who delight in aquatic sports but have no hardihood for them. The very knowledge that they can not sink leaves their brain clear enough to think of the proper strokes for hands and feet, and as soon as they find they can move through the water from one place to another, and become accustomed to these movements, the corset may be discarded. It is much more shapely than the big rubber rings and cork life preservers, and, in fact, does not show at all, as it conforms to the shape of the wearer.

A New Bracelet.

The newest bracelet is exceedingly Oriental in design. It is a heavy gold ring, which slips on and off over the hand, and is studded with three gems, a jade stone, amethyst and coral. Another novelty in the bracelet line is also a heavy gold loop from which is suspended no less than half a dozen bangles in animal designs. Pigs, goats, dogs and horses appear to be the favorites. These animal bangles are also much used as watch charms.

An English newspaper recently offered a prize of £5 for the best reply to the question, "Who makes the best wife?" A ready housewife won the prize, for in the immortal words of the late Oliver Ditson she replied: "Yours truly, Jemima Boggs."

A heavy corded ribbon embellished with brocaded bowknots in a contrasting color, is much in vogue for the stocks finished at the neck with a long bow.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Oct. 15—Comment by Rev. S. H. Doyle.

Topic.—Lost opportunities.—Jer. viii, 20; Math. xxiii, 37-39; Heb. xii, 17.

Several phases of opportunities and their loss are presented to us in the topical references. They should make a serious and lasting impression upon us because of the greatness of our opportunities today.

1. The greater the opportunity the more serious its loss (Jer. viii, 20). "The harvest is passed, the summer is ended, and we are not saved." The Jews had their opportunity to be saved, but they rejected salvation, and the kingdom was lost, and the seriousness of the loss was tremendously magnified because of the priceless value of that which was lost—the life and well being of a nation. To lose an opportunity that involves little is perhaps of small moment, but to lose an opportunity that involves the destiny of a nation or the eternal destiny of an immortal soul, is a matter of the most stupendous importance. Our most valuable opportunity is for salvation in Christ. Let us see to it that the harvest does not pass without our being saved.

2. Opportunity brings responsibility and, if lost, places the blame upon ourselves (Math. xxiii, 37-39). Christ had been willing to gather the people of Jerusalem to Himself, to protect them as a hen doth her brood, but Jerusalem would not. The opportunity to be saved placed the responsibility of salvation upon the people, and when they rejected it and doom came they alone were to blame. The fact that God gives us opportunities relieves Him of the responsibility and places it upon us, and if we fail we can pass no censure upon God, but must bear the brunt of failure ourselves. This serious fact should inspire us to seize and use every opportunity of life for being good and doing good and for making the salvation of our souls absolutely certain.

3. Lost opportunities are irrevocable (Heb. xii, 17). Esau had the opportunity of inheriting the blessing of the firstborn son of Isaac. He lightly esteemed it and rejected it, and "when he would have inherited the blessing he was rejected, for he found no place of repentance, though he sought it carefully with tears." It was too late. He had lost his opportunity. Another possessed the blessing, and it could not be returned to Esau. But undoubtedly the blessings here do not typify the salvation of the soul, but rather opportunities for service. But in the parable of the virgins we have an illustration of an opportunity for salvation which, once lost, never returned. This is the saddest phase of opportunities. Once gone, they never return. The past is irrevocable. We may repent our loss, we may mourn for our opportunities, but no repentance, no mourning, will ever recall them. How important, therefore, that no opportunities should be lost!

Bible Readings.—Ps. xxxii, 6; Eccl. xii, 1; Isa. lv, 6, 7; Math. v, 25; xxv, 1-13; Luke xiii, 24, 25; John vii, 32-34; viii, 21; ix, 4; I Cor. xv, 58; II Cor. vi, 1, 2; Heb. iv, 1-11.

To Love Them.

Every relation to mankind, of hate or scorn or neglect, is full of vexation and torment. There is nothing to do with men but to love them; to contemplate their virtues with admiration, their faults with pity and forgiveness. Task all the ingenuity of your mind to devise some other thing, but you can never find it. To hate your adversary will not help you; to kill him will not help you; nothing within the compass of the universe can help you but to love him. But let that love flow out upon all around you, and what could harm you? How many a knot of mystery and misunderstanding would be untied by one word spoken in simple and confiding truth of heart! How many a solitary place would be made glad if love were there, and how many a dark dwelling would be filled with light!—Orville Dewey.

Think of God.

Just turn from the world a moment and think of God. Do so especially when you are anxious and worn with care. Turn to Him and leave your trouble with Him. Many of them will shrink and look foolishly small when His light falls on them. You will find, like the man in the fairy tale, that the devil has been leading you on by making you believe that withered turnips were gold. Turn to God in your moments of joy and gratitude too. Share them with Him. Apply the social instinct to the best companion of all—to your Father. —Watchman.

Sunshiny People.

When we come to count over the qualities that endear our friends to us, we naturally think of the bright and cheerful talker, who has been foremost in giving us enjoyment. The sunshiny men or women, boys or girls, who bring bright words, who can talk on all sorts of subjects without seeming hopelessly bewildered, because the subject on hand is not a local one, will be always as welcome in society as flowers in May. —Christian Instructor.

Never Alone.

They are never alone that are accompanied with noble thoughts.—Sidney.

The Sabbath.

This is the day of rest.
Our failing strength renew.
On weary brain and troubled breast
Send Thou Thy refreshing dew.

This the day of peace.
Thy peace our spirits fill.
Bid Thou the blast of discord cease,
The waves of strife be still.

This is the day of prayer.
Let earth to heaven draw near.
Lift up our hearts to seek Thee there;
Come down to meet us here.

This is the first of days.
Send forth Thy quickening breath
And wake dead souls to love and praise
O, Vanquisher of death!

—John Ellerton.

EPWORTH LEAGUE.

Topic For the Week Beginning Oct. 15, "Lost Opportunities"—Text, Jer. viii, 20; Math. xxiii, 37-39; Heb. xii, 17.

"The harvest is past, the summer is ended and we are not saved."

We are subject to circumstances often beyond our control, and our safety depends at many times in seizing the favorable opportunity. In a burning building life may depend on instant action, and we must decide to run and leave all valuables lest in stopping we lose life itself.

Only in religious things men seem to fancy they can disregard all dangers, scorn all warnings, run all risks, and at any time turn from the evil and be saved. No error can be greater. All times and surroundings are not equally favorable to establishment in virtue and righteousness. Increased indulgence of wrong makes it more difficult to ever overcome and reduces our power of recovery. Autumn has fine, warm days, but he who neglects to sow in spring and hoe in summer gathers no crop in autumn.

Shakespeare in "Julius Cæsar" makes Brutus truly say:

There is a tide in the affairs of men
Which, taken at the flood, leads on to fortune;
Omitted, all the voyage of their life
Is bound in shallows and in miseries.

If a duty is neglected, the equal chance rarely occurs again for doing it. If another opportunity does come, the impulse to action is less strong because of the first refusal. We get into habits which are hard to break. With our habits we acquire tastes and also lose relish for the opposite. In early life religious truth appeals peculiarly to us. Imagination, ambition, memory and reason all make for the good and pure and are uncorrupted. It is easy to become a follower of Jesus and to grow strong in knowledge and practice of His will.

Every fresh refusal to bring all powers of the person into obedience to the Master takes from the soul some of its power to know God and become like Him. If persisted in too long, the power of the human to become godly may be utterly lost. Spiritual powers may become as atrophied as an arm held aloft may after years become fixed in paralysis and immovable. A man may in such a condition know his loss and regret it without power of any kind to recover from it. Here lies the difference between a Peter and a Judas.

Catching and Keeping.

In watching a baseball game we have often seen a good play spoiled by one who has caught the ball failing to hold it. In fishing we have known the greater part of the catch to spoil by not being cared for or salted down.

Many young people start in the Christian life, but there is failure somewhere, for they soon fall out and become as worldly as before. When once committed to Christ, there should be all the more watchfulness over the young on the part of older Christians. It is not criticism they need nor good advice half as much as sympathetic interest and something to do. There is more in keeping than in catching. It seems almost as if some churches and pastors delight in revival services and conversions less because of the salvation of the services than in the "fun of catching them," as with sportsmen who fish not for the profit of the catch as much as for the enjoyment. But we are more than sportsmen. We are workmen. We must get and then learn to keep what we get.

"Pernicious Altogether."

Is there any locality where cigarettes are not smoked? If so, we have not heard of it. Even Sunday school boys and possible Epworth Leaguers are addicted to their abuse. It cannot be called their use.

Here comes the supreme court of Tennessee and condemns them in language which, if used in the pulpit, would by some be called extreme. The court sustains the law forbidding the sale or giving away of cigarettes in that state as constitutional and says:

"We think cigarettes are not legitimate articles of commerce, because they are wholly noxious and deleterious to health. Their use is always harmful, never beneficial. They possess no virtue, but are inherently bad, and bad only. They find no true commendation or merit or usefulness in any sphere. On the contrary, they are widely condemned as pernicious altogether. Beyond question their every tendency is toward the impairment of physical health and mental vigor."

Consolidation.

Industrial affairs tend rapidly toward concentration in trusts. Properly handled, this tendency may be most valuable.

Religious work is tending toward co-operation if not consolidation. It makes for economy of effort and avoids waste. It need not arouse pride or antagonism. It has been of value in many ways to make the topics for League, Christian Endeavor and Baptist union uniform. The same is true of international Sunday school lessons. Uniformity has aided the publishing houses to give better helps and has stimulated study, interchange of thought and new investigation.

Tempted Again.

Tempted again! Is there no earthly height
The soul may reach above the realms of sin,
Beyond the mists which cloud the heavenly light,
And where temptation cannot enter in?

Tempted again! Alas, how vain the thought
That mortal feet could tread a way so sure,
Where all the cunning arts of evil wrought
Fail in their power to charm with subtle lure.

Think not to tread a secret, chosen path,
And shut out weakness, sorrow, pain and sin;
Go face the tempter till he pales with wrath,
Seeing the victory that he may not win.

Tempted again! But, oh, how sweet the thought,
Beyond Thy strength temptation cannot be!
He who was tempted knows how sin is wrought,
Beyond thy strength He will not suffer thee.

—Leila S. Frost.

Central R. R. of New Jersey

Anthracite Coal Used Exclusively, Insuring Cleanliness and Comfort.

Stations in New York, foot of Liberty, and South Ferry Whitehall Streets.

MILLINERY.

A New Showing of Trimmed Hats.

Beginning Friday, there will be ready for your inspection mor new hats. Many of the "opening" hats found ready purchasers. Our sales have been very gratifying and we lay much of the success to the fact that no one leaves our Millinery Department dissatisfied. Everything can be found here that has the most remote connection with women's headwear.

Everything that is newest finds place here. Our designer has had long experience with the best city trade and is thoroughly capable of constructing a hat to please the most exacting people.

I. LEDERER.

FALL OPENING.

WERNER'S CLOTHING HOUSE.

OUR STOCK COMPLETE

We are now ready to fit either man or boy in Suits, or Overcoats, Hats and Gent's Furnishings.

Boys' Suits from 75c to $5.00.
Men's Suits from $2.00 to $20.00.

Have you tried a pair of our Celebrated Cassimere Pants at 98c the pair, if not do so—they are the talk of the town; sold over 1,000 pairs the past season; never rip and fit to perfection. Give us a call.

WERNER'S CLOTHING HOUSE,
206 West Front Street.

WANTED

25 Mechanics

and others to buy lots. We only ask for 25 people as that is all the lots we have left. Take our advice and buy a lot now and you will make money. The trolley running to Scotch Plains has created a demand and prices are advancing.

Agent on the Grounds
SATURDAY AFTERNOONS.

Property situated on North, Leland and Columbia Avenues. Remember it only cost you $5.00 a month per lot, and no other expenses.

STREET CAR RULERS

THREE MEN WHO CONTROL NEARLY TWO THOUSAND MILES.

That Gigantic Combination Headed by Wm. C. Whitney, P. A. B. Widener and Wm. L. Elkins—Their Rule is an Absolute Monarchy.

Three men in this country control over 1,500 miles of street railways, on which 25,000 men are employed and 10,000 cars are operated.

They may justly be called the street railway kings of America, for they control the transportation facilities of the three largest cities in the country—New York, Chicago and Philadelphia—besides Pittsburg, Baltimore, a half dozen smaller municipalities and hundreds of square miles of suburban territory.

They are William C. Whitney, of New York; Peter A. B. Widener, of Philadelphia, and William L. Elkins, of Philadelphia.

The mileage of the system under their direction would make a trunk line from Boston to Denver, but it is many times as valuable as any trunk line in the country.

The three men mentioned do not own these lines. Their ownership is divided among thousands of stockholders in all parts of the country, but Whitney, Widener and Elkin direct them as absolutely as though they were the sole owners.

(P. A. B. Widener.)

Nor does this represent the extent of their financial power and their industrial enterprises. They control to a large extent the gas supply of Philadelphia, Chicago, New York and Pittsburg. They are the masters of the electric light, power and transportation facilities in these and other cities.

They represent, roughly speaking, half a billion of invested capital possibly the greatest aggregation of corporate wealth this country has ever seen so centralized. They have made vast fortunes for themselves and the men behind them from the control of municipal franchises. They have developed a new occupation, one that provides another avenue to multi-millionairedom—that of the municipal corporationist.

More than this, the union of brains and capital represented by the combination between Messrs. Whitney, Widener and Elkins is a new development of the trust idea in this land of trusts. Heretofore the owners of vast forces of capital have worked together for the carrying out of some single enterprise perhaps, but for the most part they have worked, each for himself or one against another. These men have seen the mutual and individual advantages of working together all the time. They are the pioneers of what will prove to be, perhaps, the last and greatest of all trusts—the trust of millionaires.

This combination of interests is undoubtedly a good thing for the men concerned. Their fortunes, in each case rated by the tens of millions, bear eloquent testimony to that fact. Is it a good thing for the public? Opinions differ on this point, but Mr. Widener, who has been the most active of the three in building up the combination, does not hesitate to say that it is. In his Philadelphia office a few days ago he said to the writer in the course of an interview:

"The extension and improvement of street railway lines made possible by the centralization of management and control has invariably resulted in greater benefit to the public than to the owners of the lines. The combination of the street lines in any city makes it possible to extend the system into outlying districts where a car line is a great convenience to the residents, but where it would hardly be profitable to operate an independent line. It provides in most cases a longer haul for a single fare.

"On the Philadelphia, Chicago and New York lines to-day passengers are carried distances at which there is positively no profit to the companies. But the loss in this particular is counterbalanced by the profits from short hauls. In all the case of street railway consolidation with which I am familiar the combination has resulted in the introduction of improvements and in more rapid transit. In Philadelphia the change from the old system of traction to the trolley, early brought about by the consolidation of separate lines, has been worth hundreds of millions to the city.

"In my opinion all successful combinations of capital are beneficial to the public. Combinations do not raise prices. If they attempt to do so they invite competition and are bound to prove unsuccessful.

"The old order of things is changing. Busines is no longer a matter of competition between individuals. It is a competition between nations. By the combination of capital in business we will master the trade of the world."

Some Truth in This.

Judge George H. Brown told the Grand Jury in the Criminal Court in Raleigh, N. C., that he attributed the increase of crime in the State to the failure of juries to punish when they ought to, and to a too sympathetic public opinion, "even ministers of the Gospel," he said, "hanging around the Court House and dogging the Judge, trying to beg off convicted criminals."

SPORTING.

ON THE GRIDIRON.

The opening football game on Martine Common might have been more satisfactory if the officials had prevented the many arguments that were often caused by a slight hesitancy on the part of the officials in giving their decisions. Both teams were inclined to play off side too much, and a stricter enforcement of the rules would have been better.

The first game of the Alis football team played against the Westfield A.C. Saturday afternoon developed the strong and weak points of the local eleven. The weakest point on the line was the centre trio. Kline and George Smith are both new at the game and consequently cannot be expected to do the work of veterans. Westfield was able to make many of her gains between Kline at guard and Waring at tackle. Smith held his own fairly well but made no attempt to get into other plays. Long tried to assist Smith and so found plenty of trouble awaiting him. Had Westfield shown more organization, they might have hammered the Alis centre for much more than they did. Practice is what is needed, however, and the new men should not be criticised too much when it is considered that this was their first game. Homer Smith made some very clever plays at left end but lacked steadiness. Woolston played a wonderful game at right end and is one of Plainfield's best players of his size. Alis was well represented behind the line. All the backs did excellent work and kept well together in the interference. With a little more practice, they will be up to their old form.

GOLF.

Although there will be no competition for the McCutchen and Buttfield Cups on the links of the Park Golf Club this afternoon, they will not be entirely deserted. Several of the members expect to entertain out-of-town friends at the club that day and enable them to see what an excellent course there is in close proximity to Plainfield.

Most of the golfers of the city and borough will assemble on the course of the Hillside Tennis and Golf Club this afternoon when the Hillside Club entertains the members of the Park Golf Club. There will be competitions for both sexes and the affair will have its social as well as its golf side. There will be a reception and tea and a concert will be held during the afternoon.

AMONG THE STEPPERS.

The last and best race meet of the season will be held next week Wednesday under the auspices of the New Brunswick Driving Association at their driving park. There will be three events, trot or pace, with a free for all, purse $200, a 2:23 class, purse $100 and a 2:30 class, purse $100. There will be a feature in the shape of a running race, open to all, half mile heats, best two in three.

STRIKES AND SPARES.

An individual bowling tournament will be started on the Y. M. C. A. alleys next week. There will be ten competitors and each will roll ten games. The one making the highest average will receive a prize. If this tournament proves a success, others will be held later in the season.

VARIOUS SPORTS.

The ladies' gymnastic class will be started next Wednesday at the Y. M. C. A. gymnasium by C. E. A. Heywood, the physical director. The class will meet two afternoons a week, Wednesdays and Fridays.

ROD AND GUN.

The Cranford Fish and Game Protective Association offer a reward of $10 for the conviction of any person who tears down the notices posted by the association.

A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard street, Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"It soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the Universe." So will everyone who tries Dr. King's New Discovery for any trouble of the Throat, Chest or Lungs. Price 50c. and $1.00. Trial bottles free at L. W. Randolph's Drug store; every bottle guaranteed.

In a Nutshell:

Regular collections; intelligent washing; careful ironing, prompt deliveries. This makes a good laundry. People who have known us as dyers for thirty years back may not realize that we are doing the largest laundry business in New Jersey. Send us your bundle for a trail.

HILLIER & CO.,

Opposite Crosby & Hill's. 'Phone 851.

LEHIGH VALLEY TICKET OFFICE

Will Be Opened in Plainfield First of November.

Arrangements are being perfected for the installation of a ticket office for the Lehigh Valley Railroad at Frank Rowley's drug store. It was expected that the office would be opened several days ago, but owing to the detail work of getting tickets printed and arranging some other matters, it will probably be November 1st, when the office is opened and the omnibusses are ready for service. The railroad company is anxious to complete the details and give Plainfielders good service. Already there have been many applicants for tickets and transportation to South Plainfield.

Changes in Realty.

LaRue & Cuming, real estate brokers, have sold a property on Lincoln place to George Schlerth, and the large Loomis & Rice property on Church street to Wm. Pitts, of Jersey City, and for the Chase estate they have sold a building lot on Jackson avenue to Sophia Schafer. This firm has also rented a house an First place to Miss Gill, and one of A. B. Thorn's flats to Mrs. J. Hillyar. Mrs. Brown's flats on Park avenue, has also been leased to Mrs. Wm. Hapenny.

Chosen as Delegates.

All Souls church, of this city, has chosen as delegates to the National conference of Unitarian churches, to be held next week at Washington, D. C., Rev. A. C. Nickerson and Mrs. Nickerson.

To Cure a Cough in One Day
To Cure a Cold in One Day
To Cure Sore Throat in One Day
To Cure Hoarseness in One Day

Take Cleveland's Lung Healer, 25c. Trial size free. If it fails to cure, your money will be refunded. T. S. Armstrong, the apothecary, corner Park and North avenue.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

Mrs. Fred Rose, of this city, is reported as slightly improved from a serious illness.

Mr. and Mrs. Wm. Stratton, of West End Park, are entertaining company from Elizabeth.

Mrs. Vreeland, of East Millstone, who has been visiting Plainfield friends, has returned home.

Mrs. George Ballentyne, of East Second street, will return home next week from Easton, where she went to attend the funeral of a relative.

Mrs. Charles W. McCutchen, of Washington Park, is spending a few days with her daughter, Miss Margaret McCutchen, who recently entered Smith College.

DRAIN CAUSES A DISPUTE.

Efforts of a Citizen to Protect His Property Nearly Results in a Riot in Roselle.

(Special to The Daily Press.)

Roselle, Oct. 14—Robert Murray and a gang of workmen employed by the Westfield and Elizabeth Street Railway Company, had an encounter Thursday. Water had gathered in the excavation in the road on First avenue. To drain it off a gang of men began to dig a ditch under the sidewalk in such a way that the water would run on Mr. Murray's property.

He objected, but the work went on despite his protest. He then stood on the stone in the walk which would have to be lifted to let the drain run under it. The workmen placed crowbars under the flagstone and heaved it out of the way, with Mr. Murray standing on it.

Murray lifted the stone on edge and then let it drop back in place. A big crowd gathered, and when the workmen showed a disposition to drive Mr. Murray away there was a chance for a battle. An English speaking representative of the contractors then appeared and after some parley called the workmen away.

PROUD OF PRISON RECORD.

New Jersey Association of Union Ex-Prisoners of War Elects Officers at Annual Assemblage.

Three score and more men who have been in prison and are proud of the fact assembled at New Brunswick Thursday to attend the thirteenth annual reunion of the New Jersey Association of Union Ex-Prisoners of War.

These officers were elected:—Commander, J. H. March, New Brunswick; vice commander, M. S. Kirby, South Amboy; adjutant, J. A. Peloubet, Bloomfield; assistant adjutant, D. M. Snell, Montclair; toastmaster, S. M. Long, East Orange; chaplain, E. H. Williams, East Orange. delegates to national convention:—John Lawrence, New Brunswick; M. S. Kirby, South Amboy; E. H. Williams, East Orange; alternates, D. M. Snell, Montclair; J. A. Peloubet, Bloomfield. Executive committee, Commander March, Adjutant Peloubet, Quartermaster Long, Dumont, Garretson and M. V. Cranford.

NEW DEPUTY COLLECTOR.

Republican Succeeds Democrat at Port of Perth Amboy.

(Special to The Daily Press.)

New Brunswick, Oct. 14.—Announcement was made Thursday that Robert Carson, Collector of the Port of Perth Amboy, had appointed George Eggert, a well-known Republican of that place, to succeed Deputy Collector Seaman, a Democrat, who has held the position for several years. There were a great many applications for the office, which pays $1,500 a year. Mr. Eggert will take hold the first of next month.

The Boer Example.

There's no hesitancy about the Boers. Not only is President Kruger at the front, but one half of the Transvaal Legislature is there with him; the same decision should actuate you if there is anything the matter with your eyes; go to Collier's and get free expert advice as to their need and condition. 103 Park avenue.

New Arc Lights.

New arc lights have replaced the old ones at the North Avenue station, and better light is now given. The Plainfield Electric Light Company very wisely made the change, and a better lamp is now used.

—M. F. Marcley will lead the meeting at Reform Hall tomorrow afternoon at 4 o'clock. There will be good speaking and singing. Mrs. John Manley will render vocal solos.

CASTORIA
For Infants and Children.
The Kind You Have Always Bought
Bears the Signature of Chas. H. Fletcher.

LEASED REVERE HOUSE.

MAJOR F. W. COLEMAN WILL RUN THAT HOTEL.

Present Proprietor of the Hotel Hunterston Will Take Charge of Revere House—Will Keep Open All the Year.

An important change in hotel circles took place this morning when Major F. W. Coleman, proprietor of the Hotel Hunterston, signed a lease to take the Revere House, and conduct the same as an all-year round house. The Major has been very successful in his business and his many friends and patrons will be pleased to learn that he is coming closing to the heart of Plainfield.

The hotel will be conducted on the same broad and generous principles that have charterized this house, and everything possible will be done to make it a pleasant place for people to stop for a short or long period. No doubt there will be some changes at the hotel, but if there should be they will be of the sort that tend to make life more pleasant at a public place. The Major signed the lease with A. J. Brunson, the owner of the property.

Just what George B. D. Revere, the present proprietor, intends doing is not known. The change will take effect November 1st next.

STEAMER BURNED.

Eight of the Crew Perished in Trying to Escape—Passengers all Saved.

(Special to The Daily Press.)

New York, Oct. 14—The passenger steamer Nutmeg State, of the Bridgeport line, bound from Bridgeport, Conn., to this city, caught fire while steaming down Long Island Sound this morning.

She was run on Long Island shore at Old Hen Point and burned to the water's edge.

She had fifty-five passengers and fifty crew. Eight of the crew perished. Three leaped overboard and were drowned and five burned to death in the hold of the steamboat.

NO RACE TODAY.

Fog and Lack of Wind Prevented Yachts From Starting This Morning.

(Special to The Daily Press.)

New York, Oct. 14.—Fog and lack of wind again resulted in the abandonment of the trial for the first of the international yacht races. There was a prospect of clearing and the yachts were towed out to the starting point but the fog hung on until 12:15 o'clock when the race was officially declared off.

To Pay an Official Visit.

Deputy Grand Master Workman Nash will pay an official visit to Raritan lodge, No. 6, A. O. U. W., Monday evening. He will also pay an official visit to Success lodge, No. 11, Newark, Tuesday evening.

The Foreigner.

Capt. Wellby, a young cavalry officer, recently spent a furlough in tramping 2,000 miles through Thibet, from Leb to Peking. For fourteen weeks he and his party did not meet a single human being and rarely saw any vegetation higher than a wild onion. They crossed one pass which was 19,000 feet in height and for a long time their food consisted only of yak fat.

In the list of artistic treasures owned by the late Baron Rothschild mention is made of a "Fitzwilliam clock." This is the famous Louis XIV. clock, which for generations was one of the most valued heirlooms at Milton Hall, near Peterborough. It is said to have been sold to Baron Rothschild by Mr. G. C. W. Fitzwilliam, the present squire of Milton, for £40,000 (about $200,0000).

From the middle of September until the 1st of November immense flocks of geese are driven into the famous goose market in the suburbs of Prague. As the geese are driven in from long distances they are "shod," that is to say, walked repeatedly over patches of tar mixed with fine sand. This forms a hard crust on the feet of the geese and they, thus "shod," are able to cover immense distances without fatigue.

The Queen of the Belgians is forming a society for the protection of women workers in the factories of Brussels and other large Belgian towns. The association also aims at developing the lace industries and improving the condition of the unfortunate workers, who in many cases work at their trying occupation from twelve to fourteen hours a day. At the end of a few years an enormous percentage lose the use of their sight.

Robbed the Grave.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongued coated, pain continually in the back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately a friend advised trying 'Electric Bitters;' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50cts., guaranteed, at L. W. Randolph's Drug Store

TROLLEY BLOCKED AGAIN BY ENGINES.

Obstacles Encountered at the B. & O. R. R. Crossing.

MEN WERE WITHDRAWN.

WHAT CAUSES OPPOSITION DOES NOT APPEAR.

Same Kind of a Blockade the Bikers Encountered From the Lehigh Valley at the Aldene Switch a Short Time Ago—Work of Laying the Rails on Second Avenue in Roselle Started.

The Bikers tried to steal a march on the B. and O. Railroad near Cranford Friday night, and had a well-laid plan to capture a grade-crossing and lay trolley tracks across the railroad on South avenue. The B. and O. Railroad have a freight junction at that place, where the line branches off the Central Railroad east of the Cranford depot. This line runs across county and through Elizabethport, crossing a bridge to Staten Island.

A Central Railroad engine ran in on the B. and O. tracks late and stopped near the crossing. When a train on the road came along the engine backed out on the main line of the Central road. When the trolley men found the engine on the scene they decided not to try to get across the railroad tracks.

It was the same kind of a blockade the Bikers had to contend with on First avenue, at Aldene, a few weeks ago.

Col. E. W. Hine, Representative Gaddis and other officials of the road remained at Cranford nearly all night. Late in the afternoon 200 men, under the direction of foreman Knight, were taken from work on the line in the cut back of Westfield, between that place and Scotch Plains, and brought to this place. Several teams and wagons accompanied the men, who were quickly put to work on South avenue at the bridge which crosses the Rahway river.

The trolley company recently strengthened the bridge and laid rails over the structure. There remained about six hundred feet of road to be laid, with the bridge as the centre point. The Cranford Township Committee, when it extended the time of the franchise to the street railway company in which to complete its line, especially provided that the macadamizing work should be completed throughout the township by October 15th.

All the rest of the work, with the exception of this stretch of the road and the Baltimore and Ohio Railroad crossing, has been completed, and South avenue has been macadamized, except at the bridge. The men worked all night laying the rails, and the work was nearing completion when macadamizing the street began.

The bridge on South avenue is located in a woods, and many lanterns were required in order to furnish light for the men to work during the night. It was a wonderful scene of activity, and many Cranford people visited the scene of the work duing the night.

No effort has been made by the trolley men to capture the Baltimore and Ohio grade crossing since that night.

The work of laying rails on Second avenue at Roselle began at 6:30 Saturday morning. Second avenue is to be a boulevard eighty-one feet wide, according to the conditions of the Roselle franchise. The Bikers are allowed to lay one rail, and this is the work they are doing, which, when completed, will place the line in shape for running cars through the borough.

Waiting Room at Trolley Terminus.

Work on the waiting room, which is to be built by Messrs. Woodhull & Martin, the enterprising merchants at the terminus of the trolley lines at Dunellen, will be commenced this week. There will be nothing to sell and no disorderly characters will be allowed about the place. Efforts are to be made to have the street railroad companies join in the expense of supplying the necessary toilet rooms—something very much needed.

Deals of a Real Estate Firm.

LaRue & Cuming, the real estate brokers, have leased a flat on North avenue to J. Sheim, of Wilmington, Del., also a house on Summit avenue to William Victor. They have also sold the house on East Third street, owned by Samuel Wilkins, to Mrs. Margaret Walker, of this city.

Burning Leaves.

Nothing but leaves now adorn the Plainfield streets, and the mischevious little boy is stealing about with a box of matches seeking fun. In the meantime householders are obliged to snuff the obnoxious smoke and say nothing.

ARM CAUGHT IN BELT ACTUALLY TORN OFF.

Horrible Accident at Crescent Embossing Works Today.

PAT HANRIHAN THE VICTIM.

TAKEN TO TO THE HOSPITAL AND MAY NOT SURVIVE.

While Working About the Machinery His Arm Caught in the Belting and was Actually Wrenched Off Just Above the Elbow—Girls Who Witnessed the Accident Fainted Away.

Patrick Hanrihan, aged 23 years, unmarried, living at 536 West Sixth street, and employed at the Crescent Embossing Works, West Second street, met with an accident this morning which may cost him his life. While working about some part of the machinery his arm was caught in the belting, and was torn off at a point just above the elbow. The rest of the arm was horribly mangled and torn. The man screamed with pain and girls employed at the works became hysterical and fainted at the bloody sight.

A fellow-workman stopped the machinery with all possible speed. Aid was summoned at once and the ambulance was called to remove the man to the hospital, where proper treatment was given at once.

Mr. Hanrihan suffered a great deal from loss of blood and from shock. It is not known whether he will have strength enough to survive an operation which will be necessary to remove what is left of the arm.

Hanrihan has been employed at the Crescent Works for sometime and has always been considered a careful workman. Just exactly how his arm happened to be drawn into the belting is not known at present, but the accident occurred so quickly that he was unable to prevent it through his own efforts.

ALIS TEAM DEFEATED.

LOST TO JERSEY CITY CLUB ON A "FLUKE" SATURDAY.

A Run of Ninety Yards by One of the Marion Team Made the Only Touchdown Scored During the Game.

The Alis football team met with defeat Saturday afternoon at the hands of the Marion Athletic Club, at Jersey City, for the first time in two seasons. The Jersey City boys won by a score of 6 to 0 on a "fluke."

The Marion team had the kickoff. Alis took the ball and rushed it down the field. Dumont punted and on a fumble gave the ball to the visitors. The ball was then advanced to within five yards of the Marions goal line to be lost on a fumble. The Jersey City boys fumbled and the ball rolled out into the field, where Taylor, of the Marion team, picked it up and ran 90 yards to the Alis goal line, scoring the only touchdown of the game. The goal was kicked. Score, Marion, 6; Alis, 0.

Alis then worked back into the Marions territory, and was within fifteen yards of the Jersey City team's goal when the first half was ended.

In the second half Alis kept the home team on the defensive, and lost another chance of scoring by a fumble. The teams lined up as follows:

ALIS.		MARION A. C.
Woolston (Badford)	right end	Taylor
Waring	right tackle	Hopkins
Kline	right guard	Corry
Smith	centre	Weidemeyer
Long	left guard	Smith
Taylor	left tackle	Herzor
Smith, H.	left end	Brown
Dumont (Woolston)	quarterback	Chapman
Green	right half back	Stone
Canning	left half back	Towd
Phillips (capt)	fullback	King

Score—Marion, 6; Alis, 0. Touchdown—Taylor. Goal for touchdown—King. Referee—A. Willis West, of Plainfield. Umpire—J. C. Cook, of Jersey City.

Death of Wm. F. James.

William F. James, aged 39 years, a dock builder, and a resident of 206 Grove street, died Saturday after an illness of two weeks. He leaves a widow and five children. He was a member of Franklin Council, No. 41, Jr. O. U. A. M., and the members will attend the funeral tomorrow from the Grace M. E. church at 2:30 o'clock. Interment will be in the Plainfield avenue cemetery.

Drill of Knights' Templar.

At the regular meeting of Trinity Commandery, No. 17, Knights Templars, this evening, there will be a rehearsal and short drill preparatory to receiving the officers of the Grand Commandery of New Jersey who will visit Trinity Commandery in the near future.

Trial of the Fingerhuths.

One week from today at Somerville will commence the trial of Mrs. Fingerhuth, of North Plainfield, charged with the murder of Paul Roehricht. Mr. Fingerhuth and son are also to be tried as accomplices.

SENATOR REED WILL CONTROL DELEGATES

Result of Republican Primaries Held in Somerset.

SPIRITED CONTESTS HELD.

TWENTY-EIGHT OUT OF FORTY-FIVE ARE SURE REED MEN.

Thompson Was Victorious Only in Two Towns—Warren is in on the Fence—Senator Reed Denies the Story of a Compromise Candidate—He Expects to be Renominated for the Office.

Notwithstanding the fact that Chancery Clerk Thompson's friends are claiming that Senator Reed did not win a clean-cut victory in the Republican primaries held throughout Somerset county Saturday afternoon, there is positive assurance that twenty-eight of the forty-five delegates in the county convention will be Reed adherents through thick and thin. The ten delegates from Bridgewater and Branchburg will be for Thompson. The Montgomery township delegation will be divided—three for Reed and two for Thompson. The Warren township delegation will be with the majority, whether it is Reed or Thompson, but as the former will have a majority it is expected that Warren will be for him. This summary of the result of the primaries was received from Senator Reed this morning by a Press reporter and from verification from other sources is proven correct.

Though there were spirited contests in several of the towns, the primary in Bridgewater, which includes Somerville, was the hardest fought of any and 430 votes were cast, and it is alleged that in the rivalry of the two factions many Democrats were allowed to participate in the proceedings. Nominally, the contest was between former Sheriff George Dilts and Joseph A. Frelinghuysen for the control of the delegates to vote for the Senatorial nomination. Dilts is Thompson's choice for the place, and as Frelinghuysen is in the fight for the nomination only in case Senator Reed stood no show of being name, his supporters are really representing the Reed faction. Of the 430 votes cast, Dilts' delegates received 238 and Frelinghuysen 196.

The report sent out from Somerville last night that Senator Reed was willing to retire from the canvass in the interest of harmony and to settle upon a compromise candidate, was all news to Mr. Reed when he was seen this morning by the Press man. Mr. Reed said that he knew of no compromise candidate, and that so far as he knew he would be the candidate to be nominated in the convention. He said that a majority of the delegates elected to the convention were favorable to his candidacy and that he hardly thought they would consent to anyone else being chosen in his place. So far as a conference being held between the Reed and Thompson factions, Mr. Reed said that if he was invited to attend such a meeting he would go, but not for the purpose of settling on a compromise candidate.

Thompson has been particularly anxious to control the convention, not only to be able to name the candidates, but also in order to carry out his plan for changing the basis of representation in the county convention, so that each district in the county would have two delegates, instead of each town electing five, as is now the case. By this change Bridgewater would have fourteen votes, making it about sure that Thompson would then be able to control the party in the county. By Senator Reed's victory in the primaries it is probable that the plan of changing the basis of representation will be defeated.

Assignee Sale.

At VanEmburgh's you can buy zephyr worsted, 2 cents lap; utopia saxony yarn, 5 cents hank; ladies and gents linen collars 5 cents each; silkaline 5 cents yard; satin ribbon all colors No. 4, 2 cents yard; No. 5, 3 cents yard; No. 7, 4 cents yard; No. 9, 5 cents yard; No. 12, 6 cents yard; No. 16, 7 cents yard; No. 22, 8 cents yard; crochet silk 3 cents spool. All Professional Musicians

In justice to Wm. N. Bartow, who resides at Cranford, it should be said that his band, which furnished music for the Exempt Firemen's Association last Thursday, is Barrow's Military Band, of New York, and it has no connection with Cranford or any other band. It is composed of all professional musicians. Mr. Bartow has no association with the band at Cranford.

ONE SCORE YEARS OF MARRIED LIFE.

Mr. and Mrs. C. B. Clifton Celebrated Wedding Anniversary.

WAS HELD AT "ROSELAWN."

RESIDENCE ELABORATELY DECORATED FOR THE OCCASION.

Pink and Green Were the Prevailing Colors—Many Relatives and Friends Were Present—Social Hour and Supper—Then the Young People Danced—Among the Guests who Were Present.

Mr. and Mrs. Charles B. Clifton celebrated their twentieth wedding anniversary Saturday evening at their residence, "Roselawn," on West Seventh street. A delightful evening was spent by the relatives and friends who gathered in honor of the occasion.

The house was artistically decorated for the event with palms and potted plants and cut flowers. Green and pink were the prevailing colors in the drawing and dining rooms. The table was elaborately decorated with pink carnations and streamers of smylax. The large reception hall and the trellis work of the stairway were decorated with autumn foliage.

Mr. and Mrs. Clifton received the congratulations of their friends and a pleasant hour was spent. After supper was served, the young people spent the remainder of the evening in dancing. Mrs. C. D. Whitall and Mrs. Clarence Woodcock presided at the dining room.

Among the guests were: Former Senator and Mrs. Keyes, of Somerville; Mr. and Mrs. William Wagoner and Mr. and Mrs. Charles B. Wagoner, of Newark; Mr. and Mrs. Henry V. Wagoner, of Bensonhurst; Mr. and Mrs. W. M. Jenkins, of Patchogue, L. I.; Miss Fleidie Holm, of Brooklyn; Terry Smith, of New York; Rev. and Mrs. Charles L. Goodrich, Mr. and Mrs. Joseph A. Robinson, Mr. and Mrs. Clarence Woodcock, Miss Marion Woodcock, Mr. and Mrs. Joseph E. Morse, Mr. and Mrs. John French, Mr. and Mrs. G. B. Titsworth, Mr. and Mrs. Charles Rocap, Mr. and Mrs. C. D. Whitall, Mr. and Mrs. W. Moore, Mr. and Mrs. John B. Groendyke, the Misses Chase, Robert A. Suffren, Philip S. Suffren, George E. Fuller, Miss Ella Titsworth, Miss Ella Whitall, Paul Whitall, Clifton Whitall, Lawrence Whitall, Mrs. E. B. Williams, Miss Mabel Maxson, Harry Maxson, Silas Yerkes, Miss Margaret Yerkes, the Misses French, Max Moraller, Miss Catherine Webster, Miss Mamie Terry, Miss Ida Rocap and Barry Maxson.

P. Ludwig Conde furnished the music.

DELEGATES ELECTED.

Primaries of Both Republicans and Democrats in Warren and North Plainfield.

In Warren township both parties held their primaries at Mt. Bethel. At the Republican primary Augustus Schumacher was chairman and Howard Toms, secretary. The following persons were selected as delegates to go to Somerville on Wednesday: Frank Elliott, Peter W. Voorhees, Elmer E. Jennings, Edward A. Copper, William F. Robman. The delegates go to the convention unpledged, but it understood that they will vote with the majority, which will give the votes to Senator Reed. There was no contest at the meeting.

At the Democratic primary Frank'n Way was selected chairman, and George Terrill secretary. There was little trouble at this meeting and the following delegates were elected without opposition: Joel Coddington, Robert Zerkebel, John Gunton, J. D. Borman, Joseph Whitman and Frank Aliette. These men unquestionably will support George C. Childs, of Bernardsville, for State Senator, although they will attend the convention unpledged.

The Democrats of North Plainfield Township also held their primary Saturday afternoon and elected Theodore Luersen and William Demler delegates to the county convention. The position of these men has not been determined, but it is understood that they will support Elston M. French for Senator.

All three primary meetings were harmonious and were very well attended. There was practically nothing to contest, as no opposition was offered to the regular slate made previously.

City Collector a Busy Man Now.

Collector James Martin is a very busy man these days. The tax money is coming in rapidly and the change in time of receiving it seems to be having a good effect.

Reportor M. F. Elderton, of the News, is riding a Wolf-American wheel.

MINISTER ARRAIGNS HIS OWN CHURCH.

Rev. Mr. Shott Strikes Out Straight From the Shoulder.

SCATHING SERMON HEARD.

BLAMES CHURCH MEMBERS FOR SCOTCH PLAINS INIQUITY.

He Says That Their Lust for Money to Pay the Township Expenses Leads Them to Urge Liquor Licenses be Granted That Are a Blight Upon the Community—Intends to Continue Agitating.

(Special to The Daily Press.)

Scotch Plains, Oct. 16—Rev. G. M. Shott, pastor of the Baptist church of this place, who has been enjoying a short vacation, has returned and at yesterday morning's service renewed his crusade against the temperance evil as he believes it exists in this borough. His subject was "Disciple Temperance." As a prelude to his sermon Mr. Shott took occasion to again say that a majority of the sin and lawlessness to be found hereabouts eminates from the saloons, which he says are "thicker in Scotch Plains than they are in the Bowery in New York." He made a sweeping statement that from the beginning of the scriptures to the end that nowhere can anything be found which legalizes the sale of liquor.

"Still you hear people say," he said, "we must grant licenses, for the money derived from it is used by the town in grading the streets and making public improvements. Is it right to make such improvement at the cost of the tears and sorrows of the mothers and fathers of the young men who are drawn to these places, with their public dances, racing, etc?" What an evil, and yet some of you men will go from here and still be in favor of license, all for the sake of the almighty dollar which the granting turns into the treasury of the township.

"You think this reduces your tax-bills, so it is all right. I hung on the fence for nearly fifteen years before I began to fight intemperance. Some of the members of this historic old church do not like it when I smudge its fair escheuteon. But when the time comes that you do not want me to preach temperance give me three months notice and I will vacate. I throw down the gauntlet and say I am asking no favors of the evil I am fighting, neither am I giving any.

"The residents of this town ought to hide their heads for allowing the crowds of men, and even women, who come from neighboring towns in search of something to drink. This is what spoils the fair name of our village and still with all this before you, some are trembling and wondering whether they dare sign an application of license next spring or whether they will take a stand and be a man. How am I to reach you if your persist in being one of the 96 freeholders who sign the eight licenses in the township and borough, and for an excuse say the man will run the place in a respectable way—as if this business could be respectable. I say we are weak on the temperance question and need to brace up. If the Bible was kept open in more homes there would be fewer jugs in the cellar."

DINNER AT GOLF CLUB.

Mr. and Mrs. George A. Chapman Acted as Host—Those Who Were Guests.

Mr. and Mrs. George A. Chapman gave a dinner at the clubhouse of the Hillside Tennis and Golf Club Thursday evening in honor of Mr. and Mrs. Leiters, of New York, who have come to the "Chestnuts" on West Seventh street to spend the winter. Mr. Leiters is Mr. Chapman's partner. Those present were: Mr. and Mrs. Chapman, Mr. and Mrs. Leiters, Former Mayor and Mrs. Alex. Gilbert, Councilman and Mrs. F. H. Andrews, Councilman and Mrs. E. T. Barrows, Former Councilman and Mrs. J. T. Baker, Mr. and Mrs. E. H. Ladd, Mr. and Mrs. Josiah Browne, Mr. and Mrs. W. T. Kaufman and Mr. and Mrs. D. H. Rowland.

Building a Road in the South.

Civil Engineer F.A. Dunham is very busy in Bradley county, Tenn., where he is engineer for about 95 miles of county road. He has a large force of engineers and assistants at work getting in grade stakes, etc., preparatory to the macadamizing being started, which he hopes to get under way about November 1st.

E. M. Vail is in charge of Mr. Dunham's office in this city, and is prepared to execute all orders in a satisfactory manner.

DIED WHILE GOING TO DOCTOR'S OFFICE

August Hoagland Suddenly Overtaken By Grim Reaper.

DIED IN NEW BRUNSWICK.

COMPLAINED AT FIRST OF NUMBNESS IN ARMS.

Was Employed by Glaser, the Dealer in Fat, and Was in New Brunswick on Business for His Employer—Coroner Viewed the Remains and They Will Be Brought Here for Burial.

August Hoagland, of East Second street, dropped dead Saturday afternoon on the streets of New Brunswick. He had complained of a numbness in his arm and was bound for the home of a physician when death overtook him. He was 45 years of age and had resided in Plainfield for the past fifteen years, coming here from a farm in Middlesex county.

Mr. Hoagland was first employed by Clifton & Campbell, the wholesale produce dealers. At the time of his death he was in the employ of Glazer, the dealer in fats on Clinton avenue. He lived on Johnston avenue, near East Second street, and leaves a wife, a grown up son and daughter. He was a brother-in-law of Motorman J. B. Martin. Saturday Mr. Hoagland went to New Brunswick. Early in the afternoon he called at a butcher shop and complained of a numb feeling in his arm. Then he was seized with a severe coughing spell.

His condition not improving Mr. Hoagland went to Eastburn's drug store at the corner of Bayard and Neilson streets. Here a clerk gave him some medicine and advised him to go to the office of Dr. Henry Baldwin, one block up Bayard street. The clerk, Daniel Golden, offered to walk up with the man.

When near Dr. Baldwin's office Golden left Hoagland to return to his store. Shortly after this Hoagland was seized with another coughing spell which seemed to overcome him, for he fell to the ground. He was at once carried to the physician's office, but was dead before he reached it.

Coroner Moke was notified and viewed the body. It was turned over to Undertaker Quackenboss and will probably be brought to this city for burial.

PAST THE ALLOTTED AGE

SEVENTIETH BIRTHDAY ANNIVERSARY OF REV. W. C. NELSON.

Made the Occasion of a Pleasant Gathering of Friends and Relatives of the Old Couple Last Saturday Night.

In pleasant remembrance of the seventieth birthday anniversary of Rev. W. C. Nelson, of 95 Summit avenue, and also as a surprise for the parson's estimable wife, a number of friends arranged an unexpected visit for the couple Saturday. Owing to the many relatives present the affair took on the character of a family reunion.

The guests were chiefly from out of town.

The relatives present were as follows: Chas N. Nelson, the eldest son and wife from Pine Brook, N. J.; Geo. C. Nelson and wife and three children of Somerset place; A. B. Karner and wife and two daughters of Bradford avenue; Wm. B. Coddington and wife of Mount Horeb; Mrs. G. N. Karner and daughter of Albany, N. Y.

Other guests were: Mrs. L. M. Roe and Miss Florence Roe, of Newark; Mrs. Henry Chapin of Tottenville; Mrs. Samuel Ewing and Miss Carrie Ewing of Woodbridge; Mrs. Lizzie L. Cole of Nyack; Miss Essie May Force of Rockaway; Mr. J. W. VanHorn and wife of Duer street. All these was former parishoners of Mr. Nelson.

The rooms were decorated with autumn leaves and flowers. After the dinner there was exercises of song and recitations and reminiscenses of the past. The two little grand-daughters presented words of cheer to Grandpa, and Baby Esther Karner wrote a letter which interpreted was as follows: "May you live long and be happy."

Mr. Nelson is not by any means in his dotage but was the most sprightly and vivacious of any present on the occasion. There was a large number of costly and useful presents left by the guests.

Kate Brown, of Nutley, Essex county, a former parishoner, sent an interesting poem, entitled "Growing Old," which was read at the gathering.

—Horses boarded at Meadow Brook Farm, South Somerville. Best of care. Terms moderate. See ad in today's Press.

GOLFERS GATHERED AT HILLSIDE CLUB.

Members of Park Golf Club Were Elaborately Entertained.

AN IMPORTANT SOCIAL TIME.

THREE COMPETITIONS HELD DURING THE DAY.

Miss Loizeaux Won Ladies Handicap Saturday Morning—H. D. Hibbard and H. Wright Tied With Low Score for Men's Cup—Miss Evans and Geo. VanBoskerck Won Approach and Putting Contest.

The exchange of club courtesies between Plainfield's two golf clubs marked the beginning of a new epoch in local golfing circles. The Hillside Tennis and Golf Club devoted Saturday to the entertainment of the members of the Park Golf Club and arranged the reception on such an elaborate scale as to be one of the chief events of the season. Society evinced its approval by turning out en masse to do honor to the occasion. There were three competitions held during the day and a tea and informal reception at the club house in the afternoon.

But for a slight haze that increased as the sun went down, the day was an ideal one for the sport. The course was in excellent condition and the greens smooth and fast. The interior of the club house was prettily decorated with autumnal foliage in hues of vivid red and yellow. Red shades to the lamps that were lighted as it grew dark lent a cheery warmth to the scene.

The first event of the day was the women's handicap, nine holes, medal play, for a cup offered by Vincent Loeser. This competition was started in the morning with twenty-one of the fair players from both clubs. First honors went to the home club, Miss Loizeaux winning through clever play with a gross score of 61. Miss Loizeaux is comparatively a new player. The scores in this competition were:

	Gross.	Hand.	Net.
Miss Loizeaux, H.	61	16	45
Miss D. Eisberg, P.	75	23	52
Miss C. Reinhart, H.	61	9	52
Miss Marion P. Bowen, H.	73	19	54
Mrs. E. M. VanBuren, H.	68	14	54
Miss Adelaide G. Ball, P.	75	20	55
Miss G. Bushmore, H.	68	12	56
Miss Mary L. Ball, P.	68	10	58
Miss May Holly, Hillside	69	10	59
Miss Edith Hyde, Hillside	75	15	60
Miss Ethel Bowen, H.	78	18	60
Mrs. E. R. Ackerman, H.	85	25	60
Miss M. VanBoskerck, H.	62	2	60
Miss May Evans, Hillside	69	8	61
Miss Z. M. VanBoskerck, H	72	10	62
Miss E. Schoonmaker, H.	73	7	66
Miss S. Mae Bowen, Park	79	12	67
Miss L. VanHeerwerden, H.	68	0	68
Miss Duncan, Hillside	101	30	71
Miss Stuart, Hillside	85	13	72
Mrs. E. T. Barrows, H.	86	13	72
Miss Tomae, Hillside	97	24	73

At 2 o'clock in the afternoon the first pair in the men's competition, handicap, eighteen holes, medal play, for a cup offered by the Hillside Club, started from the clubhouse and the fifty-eight other competitors followed over the links in rapid succession. Then there were a number playing who did not take part in the tournament. It was the largest attendance of the season, nearly two hundred playing on the course during the day.

While the men's competition was being finished, an approach and putting contest for mixed pairs was started on the fourth hole. The approach was made from a point fifty yards from the edge of the green and over a bunker. Each pair was allowed three trials, the lowest aggregate scores winning. Miss May Evans and George VanBoskerck distinguished themselves by holing out twice in two strokes and once in three, making a total two better than the best score made during the women's national championship contest, held at Philadelphia last week.

Those who finished all three rounds, and their scores, were as follows:

Miss May Evans, Hillside. Geo. VanBoskerck, "	2	2	3—7
Miss May Holly, Hillside. T. R. VanBoskerck,	4	3	3-10
Miss M. VanBoskerck, W. de la R. Anderson, Park	4	3	4-11
Miss Edith Hyde, Hillside. R. M. Sheparu,	3	4	4 11
Miss Saidee M. Howell, Park. Fred P. Taylor, Park,	5	4	4-13
Miss E. Schoonmaker, Hillside. Parker Mason,	6	5	3-14
Miss Fannie Cox, Hillside. F. L. Schoonmaker, "	5	5	6-16

The others who competed were Miss Grace Kaufman and J. W. Baker, Hillside; Mrs. N. Pendleton Rogers and N. P. Rogers, Jr., Hillside; Miss Kaufman and W. T. Kaufman, Hillside; Miss Catherine Poinnart and L. H. VanBuren, Hillside; Miss Loizeaux, Hillside, and Aubrey Crowe, Park; Miss Adelaide G. Ball and C. E. Faber, Park; Miss Helen Martin and Owen H. Fleming, Hillside; Miss Lida Van Herwerden and Henry V. Ryder, Hillside.

The visitors from the Park Club were liberally treated in the handicaps. Many of them were considerably handicapped, however, by the

CONTINUED ON PAGE 8.

REPORTS ARE CONFIRMED

Cowardice Caused Loss of Lives on the Steamer Nutmeg State.

ACTS OF FIENDISHNESS.

Stevedores and Members of the Crew Trample Frightened Women and Children Under Foot.

Passengers Inhumanly Treated By Those to Whom They Had a Right to Look for Encouragement and Protection—Men's Actions Strongly Condemned.

New York, Oct. 16.—The latest and what can be termed as the only real official report of the frightful calamity on Long Island Sound in which nine lives were lost through the burning to the water's edge of the steamer Nutmeg State, fully confirms the reported cowardice on beihalf of a portion of the crew and the inhuman treatment of passengers at the hands of those from whom they had every reason to expect protection in time of danger.

Lockwood Hotchkiss, Jr., Louis H. Wyre and James T. Waters, of Ansonia, Conn., who were on their way to see the yacht races, were eyewitnesses of the brutal behavior of many of the men. When the three men prepared to jump from the saloon deck into an overcrowded boat which had been launched on the port side of the steamer these passengers sought to restrain them. But the men, who wore blue jumpers and were, Mr. Hotchkiss thinks, freight handlers, were crazy with fear, and threatened Hotchkiss and his friends if they were interfered with.

Mr. Hotchkiss's story of the thrilling experience of himself and friends, as related by himself is as follows:

"Wyre, Walters and myself occupied stateroom No. 26 on the saloon deck. Our friends, Archie M. Louden and J. F. Webb, were in room 36, some distance away. I do not know how it was we happened to wake when we did, but we all distinctly heard somebody say as he hurried by our room: 'The boat is on fire.' Even then we did not realize the seriousness of the situation, but when on opening the stateroom door we found the saloon full of dense smoke we hustled into our clothes in short order.

"As we left the stateroom we saw the flames bursting through the carpeted stairs of the companionway. We ran aft as fast as we could. The after hurricane deck was crowded with women who were fighting for a clear way to the rail. All were shrieking and crying for help. Nobody paid any attention to them. The two boats on the port side had been gotten over the side by a lot of men in blue jumpers—freight handlers, I think—and a few deck hands. Both boats were swamped before they threw off from the steamer.

"Some women had got into the first boat, which was just pushing off, when three men—one colored man and two white men—rushed to the side. We guessed what they were about to do and tried to hold them back, but it was no use. They jumped from the hurricane deck fully twenty feet upon the heads of those poor people in the boat. The boat was swamped and the people left struggling in the water, for the steamer was forging ahead for the beach all the time.

"The second boat, which was full of men, went down stern first as she was being lowered, and all the men were dumped out. I saw a number of men and women jump overboard before either of the boats were lowered. These were panic stricken, and did not know what they were doing. I saw at least two dozen people struggling in the water before we left the stern. They were far behind us, for we were going full steam ahead.

"The fire was very hot on the after deck. There was a lot of ammunition on board from the Union Metallic Cartridge Company, of Bridgeport, and this kept popping incesantly, increasing the confusion. The screams of the women mingling with this fusillade furnished a combination to try one's nerves. I heard no orders given by anybody. There was nobody to direct the crew, which pushed and hustled the women and trampled them under foot.

"We then dashed through the smoke along the hurricane deck and passed down areund the pilot house to the saloon deck. The captain was in the pilot house rushing the steamer to the beach, and in this part of the boat the heat was not so great, as the wind blew the flames away from us.

"In the bow we found a number of passengers huddled all in partial undress. Among them was a man named Mather with his wife and four children, one of them a baby in arms, probably not more than six months old. Mr. Mather was terribly excited, and seizing the baby from its nurse, attempted to jump overboard with it. His wife, however, whose coolness I cannot sufficiently praise, prevented him and calmed him several times. That woman had great grit. Well, some of the men finally succeeded in lowerinig a life raft and a small boat that stood in the bows, and I, cutting the halliards that held the pennant, lowered the woman and children, who were all very young, the eldest not being more than ten years old, were afraid to go and clung to the anchor chains as I let them over. I had to tear away their hands, but finally we got them all over safely. I took off my life preserver and gave it to a woman who stood weeping on the deck. She said she had lost $25.

"All those on the raft and in the small boat got safely ashore, and after we reached land boats from the City of Lawrence came to us and offered to take us to New York. As we put off in these boats we saw people screaming for help from the portholes in the hold of the Nutmeg State. They were imprisoned and couldn't get out. It was a hair-raising experience and I hope I shall never see its like again."

Other passengers who were rescued from the ill-fated steamer tell a like story of the disaster and of the ill-treatment they received.

Mary Savage, of Bridgeport, who narrowly escaped death, says:

"It was nearly 6 o'clock when I heard some one run past my cabin and yell 'fire.' I hastily arose and put on a wrapper. When I got on deck I saw huge volumes of smoke belching forth from the forward part of the ship. I ran to the railing, but was rudely pushed back by some members of the crew when I attempted to get into a lifeboat. The men, after forcing me to the rear, got into the boat themselves and began lowering it. I looked around and saw that unless I did something quickly I would perish. The boat, which was filled with about eighteen of the crew, had just reached the water when I saw one chance to save my life. I sprang over the railing of the upper deck directly for the lifeboat below. At the same time some passengers on the lower deck also jumped. When we landed the force upset the boat. Everybody was struggling in the water, there being, I think, three women among them. But none of the crew helped us. As we grasped the boat it would roll over and we would again struggle in the water. Finally the boat became stationary and we held fast until picked up by the City of Lawrence. It was a horrible experience."

"If I had had a pistol, I think I would have used it on that crowd of mad stevedors who rushed for the boats, pushing and fighting, and making it every man for himself."

So declared Captain Brooks in the course of his story of the disaster to his steamer.

Following is the revised and official list of those who lost their lives by the burning of the "Nutmeg State:"

Charles Anderson, watchman on the boat, body in wreck; Patrick Coffey, mate, body in wreck; John Connors, member of crew, body in wreck; Bernard Hendry, oiler, body in wreck; Samuel Jayne, Bridgeport, Conn., baggage master, body in New York Morgue; Thomas Murphy, member of crew, body in wreck; Nils Nilson, member of crew, body in wreck; unknown woman, passenger, body not recovered; unknown man, passenger, body not recovered.

Stamford Conn., Oct. 16.—A Boston yacht, on its way from New York, ran through a lot of burned wreckage, undoubtedly from the Nutmeg State, that was destroyed by fire, near the Long Island coast, and near the wreckage the body of a man was found. He was apparently about 60 years of age and had a grayish beard. The body was brought direct to this city and is in the morgue, awaiting possible identification.

Quakers Defeated By Indians.

Philadelphia, Pa., Oct. 16.—The Carlisle Indians gave Pennsylvania an object lesson in football, when, in the presence of 15,000 spectators, they defeated the red and blue to the tune of 16 to 5. From the start the Pennsylvanians were outclassed, and though the first half ended with the score 5 to 0 in favor of the Indians Pennsylvania's spirit was broken at the unexpectedly hard game her opponents were playing, and she played even worse in the latter part of the game than in the first half.

May Try to Release Derrick.

Knoxville, Tenn., Oct. 16.—The mountain city of Sevierville is excited almost to delirium by the report that "whitecap" friends of "Cal" Derrick, the captured and wounded bank robber, would attempt to release him. Telephone wires connecting with Knoxville have been cut. The officers are in waiting and fully prepared to receive any outlaws. "Bill" Derrick, the suicide, was buried in a green plot, near his mountain home.

Crowbar Driven Through His Body.

Winsted, Conn., Oct. 16.—At Boardman's Bridge, in the northern part of this county, Benjamin Moosye was instantly killed by the explosion of a dynamite cartridge. A charge failed to work and Moosye began to pry around it with a crowbar. There was an explosion, which drove the crowbar through his body.

Squadron Sails for New York.

Newport News, Va., Oct. 16.—The entire North Atlantic squadron has sailed for New York to be overhauled in the Navy Yard. The cruiser Brooklyn sailed at the same time direct to Manila by way of suez Canal. Rear Admiral Farquhar took command of the fleet this morning and was honored by a salute of thirteen guns and three cheers from the sailors of the squadron.

Murdered By Mexican Brigands.

Chilpancingo, State of Guerrero, Mexico, Oct. 16.—A band of brigands have murdered two well-known French citizens—Etienne Courmont and Luis I. Dupin, in the mountains north of here. They were on their way to Ometepec, where they proposed to make large investments in lands and mining properties. They carried considerable money, which was secured by the robbers.

Large Barn Burned.

Patchogue, L. I., Oct. 16.—Fire destroyed the barn and carriage house of E. W. Durkee at his country home in East Patchogue. Three men employed on the place who were asleep in the barn narrowly escaped with their lives. Thirteen valuable horses were rescued. It is supposed that the fire was tarted by an electric light wire.

Sloan Rides Another Winner.

London, Oct. 16.—The Cage Selling Nursery Handicap was won by Germanicus, ridden by Reiff. Pomfret was second and Balletto third. "Tod" Sloane rode Tarolinta in the Pheasant Midweight Handicap and finished first.

Soldiers Have Fatal Dispute.

Frankfort, Ind., Oct. 16.—At Colfax, eight miles west of here, Bert Julian shot and killed Milo Houlehan in a saloon. Julian is under arrest. Both men belong to the regular Army and were home on a short furlough.

Schooner Typo Lost.

Toledo, Oct. 16.—The J. P. Nagle Company has received word that the schooner Typo of this city was lost off Middle Island, Lake Huron.

PRAISES LOYAL SOLDIERS

The President Thanks Volunteers of First Regiment of South Dakota.

WERE WILLING TO FIGHT

Returning Soldiers March in the Parade and Are Reviewed by President McKinley.

The Work Done By the Dakota Boys in the Philippines, Complimented Without Stint—Immense Crowds Greet the Presidential Party at Every Stop.

Sioux Falls, S. D., Oct. 16.—When the Presidential special arrived in this city, carriages in waitng at the depot bore the President and party to the speaker's stand at Ninth street and Main avenue. Fully fifteen thousand persons crowded around the speaker's stand. Companies B and D, of the Second South Dakota Volunteers, just returned from the Philippines, participated in the parade and were reviewed by the President. After the speaking the party was driven to the Great Northern Station and left for Yankton.

President McKinley's special train stopped at Wahpeton, and, in spite of the late hour, he spoke to a large and enthusiastic crowd, as follows:

"I have had great pleasure in passing through your state, the first visit which I have ever made to this new Commonwealth. It is one of the newest of the Federal Union. I have been impressed with the patriotism of your people, and also with the prosperity and the good feeling which we found on every hand. Admitted as a state only ten years ago, you have made almost marvellous progress in population. I am sure it has doubled in the last ten years, while the products of your fields in a single year have amounted to as high as sixty millions of dollars.

"We are a great country, and you are one of the great states of this great Union. It is my pleasure to welcome back to your state in behalf of the Union the gallant boys of the First North Dakota, who did such splendid service in Luzon. Your city furnished one of the companies. They have made not only a splendid record for themselves, but, I believe, added a new and glorious page to American history and great honor to the American army. I doubt if there is a man, woman or child in the State of North Dakota who is not proud of that regiment, and prouder still that they remained on the firing line when there were many people who wanted them to come home.

"If there is anything in this world we like it is courage and heroism, and if there is anything an American boy will never do it is to desert his colors when his country is in peril. The truth about it is the boys of the Spanish war are for the most part the sons of the veterans of the civil war, and the patriotism, pluck, vim and vigor shown by your boys in Luzon were only what we found in the Grand Army of the Republic, from 1861 to 1865. I thank you, my fellow citizens, for this warm, cordial greeting."

At Redfield, Madison, Egan and Huron there were immense crowds at the depots and at all of these places President McKinley delivered short speeches which were received with warm enthusiasm.

There was a large crowd present to welcome the Presidential party at Yankton, and the enthusiasm was as great there as at any point the party has visited during the western-northwestern trip.

President Starts East.

Sioux City, Ia., Oct. 16.—The President and party spent a quiet Sunday here and started for the East Sunday evening.

Lower Rates to Standard Oil.

Trenton, N. J., Oct. 16.—The Supreme Court has testimony of Charles A. Sterling president and general manager; James A. Hand, secretary, and C. M. Johnson, treasurer, of the National Storage Company, in a suit brought against the Pennsylvania Railroad Company by Ladenburg, Thalman & Co. The latter company alleges freight discrimination in favor of the Standard Oil Company, to the detriment of Ladenburg, Thalman & Co. The National Storage Company is alleged to be a part of the Pennsylvania Railroad, and the storage company is alleged to have shown favors to the Standard Oil Company, which are equivalent to a freight rebate.

Bryan at Sioux City.

Sioux City, Oct. 16.—William Jennings Bryan arrived in Sioux City from Lemars, held a levee at the Mondamin Hotel here, and left for Ida Grove, Mapleton and Carroll, where he was scheduled for speeches. His reception here was well attended, and only a second was allowed for each handshake as the procession of his admirers passed through the parlors of the hotel. The Colonel appears worn and ill, and is sufferinig from a severe cold.

The Loomis Sanitarium Burned.

Monticello, N. Y., Oct. 16.—The Administration building, a gift of J. P. Morgan to the Loomis Sanitarium in Liberty, Sullivan county, was entirely destroyed by fire. The fire started in the north end of the building and is supposed to have originated from the explosion of an alcohol lamp, and the burning oil caused the fire to spread with great rapidity. Nothing is left of the building except the stone work and chimneys. No one was injured by the fire. The loss is about $75,000.

Chased a Thief Two Miles.

Millerton, N. Y., Oct. 16.—John W. Morris, formerly a convict, walked into the store of Sylvester Tripp, and seeing a gold watch valued at $125 on the counter seized it and ran. Tripp and three other men followed and captured him about two miles out of town, after Tripp had emptied the contents of his revolver without any effect

HUNTING THE ROBBERS.

Outlaws Who Held up Northwestern Train Hotly Pursued.

Chicago, Oct. 16.—Nearly every detective in the employ of the Pinkerton local agency, nine-tenths of the city detective force and scores of country constabulary, assisted by bloodhounds and a large number of armed men, who were pressed into service or volunteered, are scouring the country for miles in a radius from the place where the robbery of the Northwestern Railroad's Fast Mail took place. Four men in true Jesse James style held up the train, dynamited the American Express Company's safe in the express car and escaped with cash variously reported at from $1,000 to $30,000. The robbery occurred at a switch between Maple Park and Elburn stations, forty-seven miles west of Chicago.

Three tramps were arrested at Elmhurst station on suspicion of being connected with the robbery, but they succeeded in proving to the satisfaction of the detectives that they knew nothing of it and were miles away from the scene when it occurred. They were not released from custody, however, and will be held to await further developments.

The Northwestern Railroad and the American Express Company's officials, at a conference in the Northwestern offices, decided to offer jointly a reward of $5,000 for information leading to the arrest and conviction of the robbers.

Will Mobilize at Quebec.

Montreal, Quebec, Oct. 16.—It is officially announced that the Canadian contingent for the Transvaal will mobilize at Quebec and sail from that port for Durban on Oct. 27, a week from next Friday. The volunteers will gather at Quebec on Tuesday, the 24th, and will have quarters in the Citadel. The Governor-General has expressed a desire to review the contingent before its departure and will probably do so on the day of sailing. Lieut.-Col. Otter of Toronto has consented to act as Major in command of the Canadian contingent. The Government has received the offer of a French Canadian company complete for service in South Africa.

Americans Release a Prisoner.

Havana, Oct. 16.—Press despatches from Bayamo, in Santiago province, tell of an attack on the jail there by six American soldiers who were anxious to secure the release of a friend who was held as a prisoner. According to the story, the American soldiers scared the jailers with all sorts of threats and took their friend to the barracks. They even threatened to kill the jailers and afterward refused to give the prisoner up to the police. The despatches say the people are indignant and threaten to attack the Americans.

Gen. Reyes Re-elected.

Monterey, Mex., Oct. 16.—At the election here Gen. Bernardo Reyes was re-elected Governor of the State of Nuevo Leon of which Monterey is the capital. He is one of the most progressive officials in Mexico, and during his two administrations as Governor over $100,000,000 of American capital has been invested in this city, which has become the greatest manufacturing centre in the republic. Reyes is looked upon in Mexico as the most probable successor of Gen. Porfirio Diaz to the Presidency, when that remote vacancy occurs

Ross Declines to Run.

Rochester, N. Y., Oct. 16.—The declination of L. P. Ross, who was chosen as the candidate of the Republican party for Mayor, has been received by the Republican managers. His physician informed him, it is reported, that should he accept the nomination and be elected he would not be responsible for the result. This has placed the Republican managers all at sea once more. It was expected that the Good Government people would endorse the ticket, but when they heard of Mr. Ross's action they adjourned without taking any vote.

Preacher Tires of Saloon Business.

Cincinnati, O., Oct. 16.—The Rev. H. Tessmer, the Lawrenceburg, Ind., minister who made a sensation recently by purchasing and running a saloon at Fifth and Central avenues, Cincinnati, has sold out and quit the saloon business. He is now trying to get back into the ministry on his old footing. To this end he has been circulating among his former Indiana friends a petition recommending that he be reinstated. Tessmer's Lawrenceburg congregation has already selected his successor to the pastorarte.

Fever Epidemic is Closing.

Jacksonville, Fla., Oct. 16.—Key West reports ten new cases of yellow fever for the past twenty-four hours and three deaths. This makes 1166 cases to date with fifty-four deaths, showing a low mortality. Dr. Porter says that the epidemic is over practically. The State Health Board authorities feel proud of their record in keeping the fever confined to Key West.

Henry D. Green Nominated.

Reading, Pa., Oct. 16.—In the Democratic primaries here, former State Senator Henry D. Green of Reading was the successful candidate for Congress to succeed the late Hon. Daniel Ermentrout. Mr Green was a Captain in the United States Volunteers during the Cuban war, a lawyer, graduated at Yale in 1877, and is 42 years old.

Cape May's Democratic Nominations

Cape May, N. J., Oct. 16.—The Democratic County Convention nominated ex-Mayor Joseph Q. Williams of this city for Assemblyman and Leslie S. Ludlam of Dennisville for County Clerk. Ludlam has been Deputy Clerk for ten years.

Change in German Army's Bread.

Berlin, Oct. 16.—The price of rye is now so high in Germany that the military authorities have ordered that the soldier's bread be two-thirds rye and one-third wheat flour instead of all rye.

The Missouri at Gibraltar.

Gibraltar, Oct. 16.—The United States hospital ship Missouri, from New York on September 30, for Manilla, carrying the hospital staff under Major W. H. Arthur, has arrived here.

New York Announcement.

Horner's Furniture

is the subject of this announcement. The term stands for everything that is reliable and fashionable in Furniture, in both the simple and ornate lines, whether wanted for town or country homes. Two other important features are the moderate prices at which the goods are marked, and their unequalled assortments.

Dining-Room Furniture in all finishes of Antique, Belgian, Flemish and Golden, with Tables, Dining Chairs, China Closets and Side Tables to match.

Bedroom Furniture in all the various woods and finishes, including special lines for country homes. Brass Bedsteads in over 70 patterns from $15.00 upward. Enameled Iron Bedsteads from $4.50 up.

Latest designs in Parlor Furniture, Library Furniture, Hall Furniture, Venetian Carved Furniture.

Couches, Settees, Easy Chairs, Rockers, Morris Chairs, Dressing Tables, Cheval Glasses, Writing Desks, etc., etc., all in unequalled assortments, and all prices.

Send for Illustrated Handbook, "Our American Homes and How to Furnish Them."

Notice of Meeting of Commissioners of Appeal.

Notice is hereby given that a meeting of the Commissioners of Appeal in cases of taxation for the city of Plainfield, will be held at the Common Council Chamber, 109 Park avenue, on Tuesday, the twenty-fourth day of October, instant, at 2 o'clock p. m., to hear the complaints of any persons who may feel themselves agrieved by any assessments for taxes for the ensuing year, and for the further discharge of such duties as may be imposed upon them by law.

Dated Oct. 12, 1899.

MISS S. A. PALMER announces that she will give
THREE FREE LESSONS
at her studio,
No. 132 Crescent Avenue,
to anyone wishing to investigate the celebrated Virgil System of piano study.
The Practice Clavier, an essential feature in the Technical Work

TEETH.

If you have any to be extracted remember you will not be hurt in the slightest. My local anaesthetic is the best that can be obtained and is not known to the other dentists in this city. Gas strictly fresh administered by an expert if you want that. If you need artificial teeth you may rest assured that the greatest care will be exercised in selecting shape and color to harmonize with the face also to restore the features to their natural expression and fullness. This is most Important.

Full Set (guaranteed)	$8
Bridgework	$5
Gold Crown, 22-k	$5
Gold Filling	from $1 up
Silver Filling	50c. and 75c
Cement Filling	50c
Cleaning	75c
Extracting	25c
Painless Extracting	50c
Gas, first tooth	$1
Each one after	50c

I am forty-four years of age, a native of New York City, but living now in Texas. Have no occupation, but live with my son, who is a "ranchman." The diet being so different in every way to what I have always been accustomed brought on severe attacks of indigestion. I tried everything prescribed or advertised, with no permanent relief. At last I determined to send for two of the 5-cent cartons of Ripans Tabules After taking the first box I began to feel better—after eating. I continued taking them, two each day. I sent for more, so certain do I feel that they will cure me.

A new style packet containing TEN RIPANS TABULES in a paper carton (without glass) is now for sale at some drug stores FOR FIVE CENTS. This low-priced sort is intended for the poor and the economical. One dozen of the 5-cent cartons (the tabules) can be had by mail by sending forty-eight cents to the RIPANS CHEMICAL COMPANY, No. 10 Spruce Street, New York or a single carton (TEN TABULES) will be sent for five cents. RIPANS TABULES may also be had of grocers, general storekeepers, news agents and at liquor stores and barber shops.

THEY WILL SHARE ALIKE.

Will of Late Cornelius Vanderbilt Shows no Partiality.

Newport, R. I., Oct. 16.—Alfred G. Vanderbilt arrived here and after meeting his mother, greeted his sisters, Mrs. H. P. Whitney and Miss Gladys Vanderbilt, and his brother, Reginald, who arrived from Yale an hour before.

From this gathering of the Vanderbilt faimily here it is inferred that Cornelius Vanderbilt's will is to be read, and that its contents will be made public within a few days.

It is authentically reported here that the will provides for a trust that shall keep intact the bulk of Mr. Vanderbilt's fortune, or $100,000,000, until Gladys, the youngest child now eight years old, attains her majority. The witnesses of the will are said to be personal servants of Mr. Vanderbilt's household, who have no idea of its contents.

Cornelius and Alfred Gwynne Vanderbilt, it is said, will share equally under the will. They will also share in the directorate of the New York Central.

There is also to be a provision for the partition of $30,000,000, to be divided between the five children and Mrs. Vanderbilt.

The Fifth avenue mansion and the Breakers, at Newport, to go to Mrs. Vanderbilt for life.

At her death the houses, it is said, will revert to Mrs. Harry Payne Whitney and Miss Gladys Vanderbilt.

Fatal Race Riot in Illinois.

Springfield, Ill., Oct. 16.—A mining settlement one mile north of Auburn was the scene of a bloody encounter between Slavs and Hungarians. Steve Roskie, leader of the Hungarian clan, was killed, and a half dozen men were wounded. Several hours after the conflict John Kmaterek, a Slav, walked into the office of Dr. J. A. Wheeler, of Auburn to have a knife wound dressed. Kmaterek admitted he was the man who killed Roskie. He was held by the physician until Sheriff Woods of this city arrived and placed him under arrest.

Sees Defeat for Carter.

Cleveland, O., Oct. 16.—The Leader's Washington correspondent says that Judge Lacombe of the United States Court, New York circuit, will dismiss the habeas corpus proceedings instituted in behalf of Oberlin M. Carter, formerly captain in the Engineer Corps, United States Army. Judge Lacombe will take the broad ground, the correspondent says, that a civil court has no jurisdiction over a military court; that it cannot invade the province of such a tribunal nor overturn its findings or decrees.

Bubonic Plague in England.

London, Oct. 16.—The Peninsular and Oriental steamer Peninsular, from Bombay, has arrived at Plymouth, England, and landed a coal trimmer, who is suffering from a mild attack of bubonic plague. The symptoms were developed the day after the steamer left Marseilles. He has been isolated. No other cases are reported. The passengers, who landed in Plymouth, all were in good health.

Coal Company Increases Capital.

Trenton, N. J., Oct. 16.—The Pittsburg Coal Company has increased its capital stock from $2,000 to $64,000,000 and has filed an amended certificate of incorporation in the office of the Secretary of State. One-half the stock is 7 per cent. cumulative preferred and the rest is common. W. W. Ford is president and W. H. Brearley, secretary of the company. The State's fee for filing the new certificate was $12,800.

Sampson Hits Shafter Again.

Boston, Mass., Oct. 16.—Rear Admiral Sampson, now in charge of the local navy yard, has made another attack on Gen. Shafter, amplifying his statement made at Morgantown, West Virginia, that Capt. Chadwick is entitled to the credit for Toral's surrender by saying that Shafter did not understand the situation because of ignorance.

Life Lost in Hotel Fire.

Hudson, N. Y., Oct. 16.—The Windsor Hotel in Chatham, a large four-story brick building, was burned, and Wallace C. Hale, of Brattleboro, Vt., was overcome by smoke while trying to escape and lost his life. The occupants were roused by smoke and all escaped except Hale. His charred remans were found on the first floor.

Trolley Cars in Collision.

Paterson, N. J., Oct. 16.—Two trolley cars on the Totowa line of the Paterson City Railway Company were in collision between West Side Park and Lincoln Bridge. Seiveral persons were injured severely, and all of those on the two cars suffered from shock and from slight cuts resulting from broken glass falling upon them.

Ruled off for Slugging.

Syracuse, N. Y., Oct. 16.—Syracuse University defeated New York, 10, to 5, in a fierce game. Referee Clark ruled off three Syracuse men and one New York man for slugging. Dorr, for Syracuse, kicked goal from the field in the first half.

Dr. Charcot's Widow Dead.

Paris, Oct. 16.—Mme. Charcot, the widow of Dr. Charcot and mother-in-law of Premier Waldeck-Rousseau, is dead.

THE WAR HAS COMMENCED

Boers and British Are Finally Measuring Strength in South Africa.

READY FOR HARD FIGHT.

Resisting Strength of General White in Natal Said to be Upwards of 8,000 Men.

Official Reports Deny the Sensational Rumors That a Battle Had Taken Place in Which 2,000 Boers Were Killed—Fierce Battle Raging at Kimberley.

London, Oct. 16.—The Daily Mail's Cape Town correspondent says:

"Kimberley is besieged and the Boers are massing in force. No details, however, are abtainable.

"The Boers have cut the railway at Belmont, have seized the Spytsfontein railway station and constructed fortified earthworks. There are strong defending forces at Modder bridge and the Orange River bridge.

"The object of these energetic operations, is believed to be the capture of Cecil Rhodes. Kimberley now is isolated, both railway and telegraphic communication being cut."

The Daily Mail's Glencoe correspondent says:

"A force under Commandant Viljoen from Spitzkop occupied Newcastle on Saturday afternoon and, it is reported, planted their flag over the Town Hall.

"It is rumored that the Boers have captured a police patrol of six men at De Jager's Drift on the Buffalo River."

Cape Town, Oct. 16.—The Modder River station master reports that firing has been heard in the direction of Kimberley, and the station master at Belmont telegraphs that a force of Boers is advancing.

There is an unconfirmed rumor that the imperial forces intercepted a body of Transvaal Boers who were attempting to join the Boer forces at Modder River, and that a heavy engagement occurred at Spytsfontein station, south of Kimberley.

Boer tents were discovered eight miles southeast of Kimberley. Great clouds of dust seen to the eastward of Kimberley also seem to indicate the movement of a large body of troops with wagons. Two imperial officers at Mononda discovered a column of 400 Boers going in the direction of Modder River bridge, from Johannesburg.

London, Oct. 16.—Lying in their strongly intrenched position, extending from Dundee to Ladysmith, the forces of General Sir George Stewart White are awaiting the coming of the Boers.

Vague rumors that a battle had been fought between General White and the Orange Free State troops on Saturday, were expanded into reports that the British had won a great victory, killing two thousand Boers with little loss to themselves. These received an official quietus from the War Office, which announced that there had been no fighting near Ladysmith, this despatch having been received from the Natal headquarters:

"General Sir George Stewart White went in the direction of Van Reeneen's Pass (Friday), but failed to draw the Boers to the Pass. He returned to Ladysmith, where he now is. No engagement occurred."

General White is estimated to have fifteen thousand or more men in Natal. He is a man of great resource, and has the valuable assistance of General Sir William Penn Symons, experienced in hill fighting in India, and of General Sir Archibald Hunter, who fought in the Soudan campaign.

Two armored trains are patrolling the line in the vicinity of Ladysmith.

There is no question that the Boers have crossed the frontier at several points. A Pretoria despatch says:

"Advices from Volksrust confirm the report that a Boer commando has occupied Laing's Nek without casualties. The health of the burghers is good."

Another Pretoria despatch says:

"All reports from Volksrust agree that the burghers there are unanimous in the opinion that the settlement this time must be conclusive. They are not anxious to fight, but they prefer fighting to giving their assent to an unsatisfactory solution of the crisis. It is not known definitely what the next move will be."

Apparently trustworthy reports reach Durban that three thousand Boers encamped are on the Ingogo battle field. This is fifteen miles to the north of Newcastle. The last train that left there carried the railway, telegraph and police officials. Mr. Jackson, the Magistrate, and a few residents remain there at their own desire.

Another force of Boers, according to a despatch from Camp Glencoe have occupied Spitzkop, fifteen miles northwest of Newcastle.

Dewey Leaves for Washington.

Boston, Oct. 16.—Amid the cheers of 10,000 persons Admiral Dewey departed from Boston on the Federal Express for Washington. His departure brought to a close two days of enthusiasm on the part of the hero worshiping population, visibly expressed in receptions and parades.

Mayor of Mayaguez Resigns.

San Juan, Oct. 16.—The Mayor and Councilmen of Mayaguez, capital of the province of that name, has resigned, owing to political differences.

The Seventh Failure.

New York, Oct. 16.—The yacht race was again postponed Saturday for lack of wind.

Christmas was first celebrated in the year 98, but it was forty years later before it was officially adopted as a Christian festival; nor was it until about the fifth century that the day of its celebration became permanently fixed on the 25th of December. Up to that time it had been irregularly observed at various times of the year—in December, in April and in May, but most frequently in January.

COMING EVENTS.

October 20-22—State conference on boys' work of the Y. M. C. A., of New Jersey.

Victory for Senator Reed.

Senator Reed has won a clean-cut victory in Somerset county in the preliminary fight for the control of the Somerset County Republican organization. To anyone who understands the political make-up of the various townships in the county there can be no mistake about this. Chancery Clerk Thompson is striving to look as pleasant and as buoyant as possible when he considers the situation, but there can be no doubt but what the Bridgewater man's political star is waning in the county where for many years he was supposed to carry the vote of the Republicans around in his vest pocket.

This morning's New York papers contained a dispatch from Somerville aiming to minimize the victory of Senator Reed. It eminated from the Thompson headquarters, but the general idea it tried to convey was far from the truth. Its purpose was to impress upon the public the fact that the Thompson and Reed factions broke about even in the fight in the primaries, and that the result would be a compromise candidate in place of Senator Reed's renomination.

The fact is, however, Senator Reed has twenty-eight of the forty-five delegates, who will set in the county convention Wednesday, pledged to his interests. Saturday night, immediately after the primaries, Chancery Clerk Thompson conceded this fact himself, but after he had slept over night, and dreamt on the results, he concluded that it would be just as well to make a good-sized bluff until he met his actual Waterloo in the county convention, and thus the newspaper story from Somerville was precipitated upon the public.

There is every indication that Senator Reed will be the Senatorial candidate again at the hands of the Republicans of Somerset, and that unquestionably he will control the party affairs for the next year.

GERMAN SOLDIERS AT DIVING DRILL.

For novelties in military manoeuvres one looks to the German army. This fall one of the spectacular pieces is the diving drill. Soldiers, in heavy marching order, mount a platform and dive into a lake. They swim to the edge of the lake, climb out and dry and oil their guns. The muzzles of the pieces are plugged.

A large vote was cast at the Democratic caucus held in Hunterdon county Saturday. Paul A. Queen, of Flemington, was nominated for Surrogate by over 2,600 majority over former Senator John Carpenter, of Clinton. George M. Frech, of Annandale, was nominated for Sheriff, Assemblyman Oliver Blackwell, of Ringoes, was renominated in the First district, and Warren O. Loudenburger, of Junction, received the nomination in the Second district over Dr. N.B. Boileau, by a small majority.

The Hon. Thomas Lane, editor of the Summit Record, who has been mentioned as a possible Senatorial nominee at the hands of the Union county Democrats, is out with a statement in his paper of last week in which he states that he is not a candidate "for any office within the gift of the people of Union county."

A faction of Democrats in Middlesex county who call themselves the "Jeffersonian Democrats" has nominated an opposition ticket to the regular one named a few days ago. By doing this the "Jeffersonians" become strong allies of the G. O. P., which is rather reprehensible to the true Democratic ticket.

WHAT THE SHEARS FIND

Editorial Comment From Other Papers of Interest in Plainfield.

Dr. Charles Smith, who asserts that he is 122 years old, assigns his long lease of life to the use of the water of Lawrence brook in Middlesex county, for drinking and bathing purposes. Lawrence brook is the source of New Brunswick's public water supply, and the secret of that city's extraordinary collection of fossils is now revealed. —Newark News.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

Last evening between 8 and 8:30 o'clock there was about three hundred people assembled at the North Avenue Station waiting for the New York train due at 8:13. The train was fifteen minutes late and while the passengers were waiting they crowded the platform and tracks to such an extent that it was positively dangerous. Other trains going in both directions were liable to do injury, and several times the officials at the station were obliged to order the people off the tracks. Yet if anyone had been killed no doubt the railroad company would have been seriously blamed.

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

A high-class comedy team in a high-class farcical travesty, supported by a high-class company of specialty artists, is the latest theatrical venture. The team above-mentioned is known well throughout the country as Dolan and Lenharr, and their three-act travesty is quaintly named "A High-Toned Burglar." The early predictions of success for this venture by those posted in theatricals seems to have been more than realized, for a "High-Toned Burglar" has proved one of the season's biggest hits from every standpoint. The success of this style of entertainment depends not alone upon the talents of the male members of the cast, but upon the beauty and vivacity of the female members as well, and in both of these particulars Dolan and Lenharr have been most fortunate in their selections. Nor is this alone all that is required, for the public demands elaborate costuming and finally the skit must prove a merry-go-round of fun and frolic, all of which is promised in "A High-Toned Burglar" which makes its premier tomorrow night at Music Hall. A glance at the cast is sufficient to convince the most skeptical that the entertainment must be an excellent one. As a still greater inducement the management of "A High-Toned Burglar" has secured as a great special feature that "prince of entertainers," George Fuller Golden, who unquestionably has no peer on the American stage as a monologist. He is excruciatingly funny and will be voted a great bit by all who see him. It is promised that this performance will go with a vim and dash that is refreshing and without one dull moment in the entire evening.

* * * * *

"Mr. Plaster of Paris" is the name of a very successful musical comedy that will be at Music Hall Friday night of this week. It was one of last season's biggest hits at the Star Theatre, New York.

* * * * *

The great London novelty, "The French Maid," with the complete and original scenic and costume equipment from the Herald Square Theatre, New York, will be at Music Hall shortly.

* * * * *

Of all the bright, merry, mirth-provoking farces which was ever put upon the boards, George H. Broadhurst's latest, "Why Smith Left Home," which is packing the Madison Square Theatre, New York, nightly, is described as being one of the best. The farces which Mr. Broadhurst has been turning out have risen rapidly in the army of plays. "The Speculator," was a private in the ranks. "The Wrong Mr. Wright," was a captain; "What Happenened to Jones," was a colonel, and "Why Smith Left Home," is a major general. In the selection of the people to present his latest piece, Mr. Broadhurst has shown his usual good judgment. Maclyn Arbuckle, Brandon Douglas, Mrs. Annie Yeamans, and Dorothy Usner, on whom the burden of the piece falls, are people of established reputation, and in the present case appear in roles exactly suited to their various abilities.

Bismark's Iron Nerve

Was the result of his splendid health. Indomitable will and tremendous energy are not found where Stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25 cents at L. W. Randolph's drug store.

CHICKEN THIEF MEYERS.

Convicted After Having Long Career of Crime.

Fred Meyers, the cleverest chicken thief of Somerset county, who is credited with selling over 1,500 chickens in New Brunswick which he stole from the farmers about Franklin Park and Kingston, was convicted in the Somerset Court of robbing the hen roost of John L. Suydam at Franklin Park on the morning of Sept. 1st. The story of his capture and arrest has been told in The Press. Meyers is likely to serve a term in State Prison.

—The Master Mason degree will be conferred tomorrow evening by Jerusalem Lodge, No. 26, F. and A. M.

DRINK GRAIN-O

after you have concluded that you ought not to drink coffee. It is not a medicine but doctors order it, because it is healthful, invigorating and appetizing. It is made from pure grains and has that rich seal brown color and tastes like the finest grades of coffee and costs about 1/4 as much. Children like it and thrive on it because it is a genuine food drink containing nothing but nourishment. Ask your grocer for Grain-O, the new food drink. 15 and 25c.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

AMERICAN STEAM LAUNDRY,
122 East Front Street.

Extraordinary Sale
of Fine Clothing.

A Sale that gives you an opportunity to buy your fine Fall and Winter Suits and Fall and Winter Overcoats and Trousers

At ⅓ the Manufacturer's Prices.

HERE IS THE STORY:

We closed out the entire stock of a large manufacturer of few days ago securing over $6,000 worth of the finest and most up to-date men's dress suits, business suits and trousers at a mere fraction of their value and we will place them on sale this Saturday morning.

Over 500 styles in suits and overcoats to choose from; this is without a question the greatest offering in men's apparel Plainfield has ever seen, and one that every man and woman intending to buy clothing this season should take advantage and note these extraordinary prices.

MEN'S FALL COVERT TOP COATS—Very stylish in appearance, made of strictly all-wool materials, regular $10.00 garments, at this sale $3 75.

MEN'S STRICTLY ALL WOOL TOP COATS—Exceedingly stylish, guaranteed to be worth $12.50, will close out what is left at $5.00.

MEN'S ALL WOOL BUSINESS SUITS—Made of black or blue cheviots and mixed cassimeres. These suits are made up in this season's styles and patterns and would easily command in other stores from $8.00 to $10.00; we will sell them at an unusual low price, $3.50 and $3.90.

MEN'S SACK COAT SUITS in striped worsted and checked cheviots, neat, stylish and well made, easily worth $15.00, your selection at $6.50.

MEN'S BLACK CLAY DIAGONAL COATS and VESTS—Winter weight sack or cutaway, guaranteed to be worth wholesale $9.00, to go at this sale at $4.50

CHILDREN' VESTEE SUITS—Age 3 to 8, and boy's double breasted suits 7 to 16, all-wool in blue and fancy cheviots at $1.00, $1.50 and $1.75, worth $3.00.

YOUTH' SUITS with long trousers, ages 14 to 19, in blue and black serges, single or double breasted, a $10.00 suit, at $5.75.

Men's blue or black welton overcoats, worth $10.00 at $4.50, and hundreds of other fine coats in proportion.

Men's suspenders at 6 cents, worth 25c. All-wool half hose at 9c, worth 25c

AUCTION SALE
—OF—
Desirable Residence,
at Plainfield, N. J.
The sale will take place on the premises,
Thursday, October 19, 1899,
at 2 o'clock in the afternoon.

This property was the residence of the late David M. Demarest, and is located corner Crescent avenue and East Seventh street. The house contains 14 rooms, and all modern improvements, including steam heat and electric lights, is substantially built and in good repair. The lot has a frontage of 200 ft. on Crescent ave., and 319 ft. on Seventh St. The lot may be divided so as to make 2 lots on Crescent Ave., each with a frontage of 100 ft., with the present house standing on the corner lot. The location is one of the choicest of all the choice locations in Plainfield, is within 5 minutes of railway station, and is convenient to churches and markets and all lines of transportation. There is stable room for 4 horses.
Terms of Sale—10 per cent cash, balance on delivery of deed, 30 days after sale.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Daily Press.)

Dunellen, Oct. 16—The citizens of Dunellen should feel gratified at the successful efforts of Charles P. Sebring, the president of the Watchung Water Company, for his successful efforts to supply the borough with a wholesome supply of pure water. When it is remembered that for years the citizens were at the mercy of the flames with scarcely nothing to check a fire, the introduction of the present splendid water system should be appreciated. It is deplorable to know that there is a certain element in town that has opposed the water works since they were projected. It is the "kickers" in the community who are always standing in the light of public improvement. When it is taken into consideration that the new company has expended several thousand dollars to benefit the borough and by doing so has instituted a positive public necessity, some credit should be given instead of kicks. The new water company is certainly a blessing and it will be more appreciated as time goes on. Property today is worth more in Dunellen than it was before the introduction of the water works. It was Charley Sebring who alone had confidence in the success of the undertaking to take the initiative and form a company. Instead of receiving kicks he should be given praise for his enterprise.

A dime social was held at the home of Mrs. F. H. Gise last evening that proved a pleasant affair. The evening was passed with recitations, songs and musical selections of an instrumental nature. Refreshments were also served. The proceeds are to be devoted to the Christmas festival.

Among those who have recently laid stone flagging in front of their places of residence are: Robert Lowry, Peter R. Apgar, Mrs. Emily R. Apgar, Adam Dealaman, A. S. Gaskill and C. A. Coriell. Several others have also arranged to lay flagging.

Teams from the Whittier School lined up Saturday morning on the lot near the Lincoln School and had an exciting game of football. The Stars defeated the Scrubs by a score of 7 to 5.

The Crokinole Club held its first meeting of the season last week. The members met with the Misses Lizzie and Ella Dunham, and a very pleasant evening was passed.

Miss Ruth Williams, of Fairview avenue, is seriously ill. She is attended by Dr. Whitford, who on Saturday called in consultation Dr. Hedges, of Plainfield.

The electric light company is making some changes to the system in the borough and vicinity by stringing a cable and putting all lights on one transformer.

Miss Ella Dunham entertained the ladies of the Literary Club yesterday afternoon. An organization was perfected for work during the winter.

Rev. Martin Sindall, pastor of the Seventh Day Baptist church, is taking a much needed rest by visiting friends at Verona, New York.

Rev. P. G. Ruckman, of Carbondale, Pa., preached at the Methodist church yesterday, owing to the absence of the Rev. Mr. Jamison.

There was another test of the water works Saturday night which was very satisfactory to the borough officials.

Mrs. Alvah Gray, of Washington avenue, has been visiting relatives at Irvington, Essex county.

Mrs. Emily Apgar, of Front street, is visiting her daughter, Mrs. Sherman Cooley, of Flemington.

A. Giles and wife, who have been visiting relatives in New York State, have returned home.

John Fenner has returned from Pluckamin, where he attended the wedding of relatives.

The Board of Registry will sit next Tuesday from 10 a. m. to 9 p. m.

PLAINS AND FANWOOD.

(Special Correspondence of The Press.)

Scotch Plains, Oct. 16—The village streets were kept pretty well lined with "trollyites" Sunday afternoon, some returned to Plainfield with a heavier load than they brought with them.

A delegation of Sunday-school workers from the Baptist church will attend the forty-ninth annual convention of the Baptist Sunday-school Association to be held in the Park Avenue Baptist church, Plainfield, tomorrow.

The football team, which was about to disband, has taken new life and completely reorganized and will begin practicing again this week.

Mr. and Mrs. John B. Stiliger, of Roselle, were the guests Sunday of Mr. Stiliger's parents, Mr. and Mrs. John Stiliger.

Rev. G. M. Shott attended the Bible day exercises held in the First Baptist church in Westfield Sunday afternoon.

Mr. and Mrs. H. S. Phillips, of Roseville, were the guests of friends in the village Saturday and Sunday.

Mrs. Charles G. Frentz, of New York, has been visiting relatives and friends in town for a few days.

John E. Flannery, of Plainfield, spent Sunday with his daughter, Mrs. George Johnstone.

Mrs. George L. Dunn led the young people's meeting in the Baptist church last evening.

TRAINS CRASHED.

A Troublesome Wreck Occurred on the Central Near Whitehouse Saturday Night.

(Special to The Daily Press.)

Flemington, Oct. 16—Another wreck occurred on the Central Railroad at Whitehouse Saturday night. A westbound passenger train due at Whitehouse crashed into the Rockaway Valley train, which was standing upon the main track, about a quarter of a mile from the station. Five cars were derailed, and the engine of the passenger train was badly damaged.

Frank Smith, baggage-master, was seriously injured. The passengers were badly shaken up, but none of them was hurt.

Miss Rudd on the Stage.

Miss Daisy Rudd, of this city, is now a member of the English company "The Sign of the Cross," that is now playing in Boston. This company was shipwrecked a few weeks ago, and was rescued under the greatest difficulty. Miss Rudd was not with the company at the time.

Mrs. Isabella Drain, of 73 Leland avenue, leaves for Burlington, Iowa, tomorrow, where she intends to take up her residence for the winter at least. Her departure from Plainfield is on account of the ill health of her nephew, a young lad, who has been ordered by her family physician to have a complete change of climate.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

-:- DIRECT -:- from the Manufacturer to the Consumer.

For the past three weeks we have been very busy bringing from our factory bundle after bundle of our Fall and Winter stock and arranging them on our tables. We didn't say a word about them because we wanted to display our line in full and then scream.

NOW WE'RE READY TO SCREAM.

We never scream unless we have something to scream about, and we won't scream about anything that we can't substantiate. We are showing as extensive a line of clothing as any store in the vicinity, and the prices are right. The cut and finish is there and all extra profits are off. Besides our staple blacks and blues, we are showing a variety of up-to date worsteds, with and without double breasted vests in stripes, checks and plaids. Everything that the designers art and fine tailoring can do is in them. We are proud of our stock and want everybody to see it. Come and look at it whether you want clothing or not, you will be treated right.

Below We Quote a Few Prices:

Men's Black and Blue Cheviot suits 2.75, 3.75, 4.25, 7.25, 8.00 and 9.00.
" Fancy Cheviot suits 3.25, 4.25, 5.00, 6.00, 8.50.
" Fancy Worsteds, elegant 7.50, 9.75, 10 50, 11.00.
Boy's long pant suits 3.00 to 8.75 Child's knee pant suits 95c to 4.00.

Lokal-Nachrichten aus der alten Heimath.

Provinz Schleswig-Holstein.

Kiel. Strafgefangene, die mit Feldarbeiten beschäftigt waren, überfielen ihren Aufseher und mißhandelten ihn. Fünf Gefangene entflohen.—Trotz oder vielleicht eben wegen des schlechten Wetters und der Stürme in der Ostsee wird in Kiel fleißig mit Torpedos geübt. Bei einer solchen Torpedobootfahrt in der Außenförde ertranken drei Matrosen des Schulschiffes „Carola." Dieselben heißen Fischer, Voege und Meyer.

Amrum. Durch das Rettungsboot „Elberfeld" der Südstation wurden von dem auf Captainsand gestrandeten österreichischen Dreimastschooner „Istro,"

Provinz Westfalen.

Münster. Zum Nachfolger des zum Bischof von Osnabrück gewählten Hubertus Voß als Regens des bischöflichen Priesterseminars ist der Pfarrer und Landdechant Aengenvoort in Emmerich ernannt worden.

Soest. Die Westfälische Kornverkaufsgenossenschaft Soest hat in ihrem ersten Geschäftsjahr bei einem Umsatz von 3,806,407 Mark einen Gewinn von 12,022 Mark erzielt. Die Mitgliederzahl beträgt 228 mit 493 Antheilen. Das Geschäft entwickelte sich in der Weise, daß mehr als Dreiviertel alles angelieferten Getreides von der Genossenschaft gleich zu festen Preisen übernommen wurde, das übrige wurde für Rechnung der Lieferanten zunächst eingeliefert und späterhin durch die Genossenschaft verkauft.

Sachsen.

Dresden. Der durch seinen früheren Schatzmeister, den Kommerzienrath Hopffe, Ritter hoher Orden, so arg hereingelegte „Albertverein" hat jetzt seinen Rechenschaftsbericht erstattet. Nach diesem hat Hopffe insgesammt 207,199 Mark veruntreut, ein Betrag, der nur bis auf 115,411 Mark durch das Vermögen Hopffes gedeckt ist. Diese letztere Summe verliert der Verein.—Hier haben die beiden Eisenbahnbautechniker Zipfel und Rahm gemeinsam Selbstmord begangen, weil sie wegen Bahnfrevels unter Anklage standen.

Döbeln. Dieser Tage beging hier Architekt A. Scheerer, der Direktor der hiesigen Bauschule, sein 25jähriges Lehrerjubiläum. Nachdem derselbe an den Baugewerkschulen zu Holzminden und Idstein als Lehrer thätig war, übernahm er 1882 die Bauschule in Stadtsulza in Thüringen, von wo er mit seinem Institut 1888 nach Roda S.-A. und 1894 nach Döbeln übersiedelte. Eine stattliche Anzahl von Schülern aus allen Gegenden Deutschlands und aus dem Auslande sind es, welche der sowohl als Leiter wie als Lehrer ausgezeichnete Architekt Scheerer in den 25 Jahren unterrichtet und ausgebildet hat.

Leipzig. Oberbürgermeister Dr. Georgi ist vom Könige bei seinem Scheiden aus dem Amte zum Geheimrath ernannt worden.—Der Rath der Stadt Leipzig hat einen jährlichen Zuschuß von 10,000 Mark, vom Jahre 1900 ab zu leisten, zum Bau des Völkerschlacht-Denkmals bewilligt.

Thüringische Staaten.

Gera. Die von Dr. Amthor, dem bekannten Alpinisten, hier gegründete Handelsschule feierte dieser Tage das Fest ihres 50jährigen Bestehens.

Jena. Oberlandes-Gerichtsrath Schulz, Herausgeber der „Blätter für Rechtspflege in Thüringen, ist gestorben.

Kahla. Die Defraudationen bei dem Spar- und Vorschußverein dahier stellen sich als ganz enorme heraus. Sie überschreiten schon nach den bisherigen Ermittelungen die Summe von 1,500,000 Mark; der Zusammenbruch verschiedener Geschäfte ist die Folge gewesen.

Weimar. Der bisherige Handelsagent der Ver. Staaten dahier, Thomas Ewing Moore, ist zum Konsul ernannt worden. Zum Vize- und Deputy-Konsul ist Herr Paul Teichmann ernannt worden.

Freie Städte.

Hamburg. Die Hamburg-Amerika-Linie kaufte von der Bremer Rhederfirma Rickmers vier große Frachtdampfer.—Der Dampfer der Hamburg-Amerika-Linie „Alesia," Kapitän Knuth, rettete auf der Reise von Amoy nach Shanghai zehn Mann von der Besatzung der englischen Bark „Kitty," welche die „Alesia" auf Wrackstücken treibend antraf.

Bergedorf. Das nahegelegene Gut Nettelnburg wurde für den Preis von 450,000 Mark an Herrn Ph. Holzmann in Frankfurt a. M. verkauft. Der neue Besitzer beabsichtigt, auf dem lehmreichen Grundstück eine große Ziegelei anzulegen.

Cuxhaven. Hier brannte das Hansabad ab.

Bremerhaven. Das unlängst vom Norddeutschen Lloyd gegen eine jährliche Pachtsumme von 120,000 Mark auf 25 Jahre übernommene Kaiserdock ist vom Bremer Staat erbaut, jedoch leistete das Reich einen Zuschuß von 2,500,000 Mark, wodurch es das Recht erwarb, die Kriegsschiffe der Kaiserlichen Marine zu docken, und zwar gegen Entrichtung der üblichen Dockgebühren, während es an Dockmiethe nur 50 Prozent des vom Bremer Staat festzusetzenden Tarifs zu entrichten hat.

THE TALK OF BIRDS.

HOW OUR FEATHERED FRIENDS CARRY ON CONVERSATION.

The Calls by Which They Express Delight, Surprise, Anger, Distress and Warning — An Interesting Study for Young Folk.

Although it is getting late in the season for our feathered friends to sing much, it will pay to remember what follows for the spring time.

Not their songs—who would try to repeat in words the songs of the hermit thrush or of the mocking bird?—but the calls by which the bird's express delight, surprise, anger, distress, warning, their characteristic notes, makes what we term Bird Talk, says the Philadelphia Times.

Some of these sounds seem to be common to all birds, as the sweet, twittering mothers talk in the nest; some common to certain families, as the cheeping note of the sparrows, and the similar calls of the orioles, the cardinals, and various other whistling birds.

But on the other hand every bird has a great many different calls of its own. The Virginia quail's talk is no t limited to its name not, Bob White! Bob White! which rings out so cheerily in the long grasses. The mother quail knows her baby talk and she has also a call of three notes, a signal call to her mate when she leaves her nest in the brooding season. The mates use their "scatter call" when they roam the country in flocks, and they signal to let each other know where they are —Are you here? Are you here? besides other notes in time of trouble.

As for the gold-winged woodpeckers, the males make the woods ring like a party of old fox hunters. Yarrup, yarrup! yp! yp! Mr. Chapman, who has especially studied what birds say, describes also a salute, loud and hearty, kee-yer! a meditative cuh-cuh-cuh, and a sound "like the swishing of a willow wand,' weechew, weechew. They also chuckle and complain, and the baby gold wings call incessantly from their high-hole nursery.

The cardinal's call are almost numberless, slow and querulous, quick and lively, full of joy and triumph, or anxious and troubled. The orioles are known by a gay and bold whistle, whit-tu, whit-tu! high among the branches, but they have also a harsh chack, chack, which they use freely when vexed; and they are very easily vexed or frightened, in spite of their brave show and their joyous songs.

Catbirds have two notes of warning: the first is a rather low cluck! cluck! as if in a whisper; the second, in more imminent danger, is loud and shrill and nasal. The cuckoos also cluck-cluck, and in addition has a rattling call, tut-tut-tut, or huk-huk, and cow-cow, not the distinct cuckoo call that the European cuckoo gives, but one slightly resembling it.

The wood thrush also has various calls. Sitting one sunset hour at the edge of a wood I saw and heard a wood thrush in turn gurgle, buzz, make a metallic, brassy note, a quick, clipping call, a chatter, the usual pit, pit, and interspersed all these with its delicious and liquid a-o-li, or come to me, which is its characteristic song. I have heard these sounds before, but could not believe that they came from the thrush's golden throat until I caught him in the act.

Place has its influence over song. The melody of the Western meadowlark is far sweeter and more subtle in suggestion than that of the Eastern, and there is a difference between the notes of the Northern and the Carolina chickadee.

There are a great many individual variations, and these are likely to occur in certain kinds of birds. The meadowlarks may have a nasal call, a rolling twitter, or a whistle, clear as a pipe, sweet as a flute, and subject to any change that the caprice of the singers suggests.

The great Carolina wren has a multitude of calls, all hard to define, all marvelous in their sonorous, ringing quality from such a tiny throat. As for the chats and the mocking birds, endowed with the double gift of mimicry and ventriloquism, one never knows what to expect. Mr. Burroughs compares notes made by a yellow-breasted chat to those of a puppy, a duck, a kingfisher, a crow, a fox and a cat, besides others indescribable.

On the other hand, there are unexpected likenesses as astonishing in widely different birds as the difference in birds of the same family, or the notes of the same birds. The tiny, yellow-throated vireo has more than once deceived me into expecting the flashing orange and black of the Baltimore oriole. The hermit thrush and the whippoorwill, so unlike otherwise, have each a habit of softly chuckling to themselves in the dusk. See your singers, is a counsel not to be neglected by even an experienced ornithologist.

Then, every human listener interprets according to his own mood and after his own fashion. A friend of mine insists that she has heard a ball call "Come here right quick," with a ringing emphasis on the last syllable. The great crested flycatcher says "What?" the red-eyed vireo, "Do you hear it? Do you believe it?" the white-eyed, ' 'Who are you,eh?" the yellow-throated, "I'm here; where are you?" the cardinal calls "Quick, quick, hurry!" the tanager, "Up, up, in the tree top."

All these are bird notes in man's words, but there are also for bird families an untranslatable language. Kingbirds have "a steely clatter;" waxwings lisp; blue jays scream; swallows twitter, hummer birds squeak; woodpeckers rap; ruffled grouse drum or beat a tattoo! owls snap their mandibles queerly, and flycatchers make sounds like a sneeze, and like wings cutting swiftly through the air.

Sorry for Them.

Tommy, aged 4, was very fond of climbing into his mother's lap for the purpose of being petted and caressed. One day his mother found him gazing at some goldfish in a globe, with a sympathetic look on his face. "Why, Tommy," she asked, "what makes you look so solemn?"

" 'Cause I' sorry for them baby fishes," answered the little fellow.

"And why are you sorry for them?" she asked.

"Their mamma hasn't any lap for them to sit in," was the reply.

There's one really famous range in the world—"The Portland"—over 10,000 of them in use.

GREATEST WOMAN FENCER.

Frau Emma Steege's Skill as a Swordswoman.

German women are not given to fads. Whatever they take up really amuses and interests them. They do not go in for a sport simply because the rest of their set do. Frau Emma Steege, whose skill as a swordswoman is world renowned, has succeeded in securing many devotees for this healthful exercise at the German capital. She received her training from her husband, who was fencing master at the Berlin University. She is the cleverest fencer in Europe. In her school of fencing are seen the most fashionable and exclusive women of the city. New York women took up the fad some time ago. One set of young women went in for it quite extensively.

When Pauline Whitney, Gertrude Vanderbilt and Miss Sutton were subdebutantes they attended every morning Professor Jacoby's academy.

FRAU EMMA STEEGE.

The average girl takes a few fencing lessons because the foils add to the decorations of her dress. The gown is her delight. She has her picture taken in it to send to her back number lovers. She scorns the heavy corduroy skirt and plain waist of Frau Steege. Her skirt is accordion plaited silk, her waist a Toreador effect, a tiny dagger (a paper cutter) is thrust through her belt, a gauze scarf floats airily over her shoulder for a buckler. She does not know whether she is studying the French or Italian school, and does not detect the difference between a broadsword and a rapier.

But for the perfect development of every muscle, the rounding of unbecoming angles and for smoothing out niartistic lumps of flesh, there is nothing so successful as scientific fencing.

To Beautify a Storeroom.

"How to beautify the storeroom," may be a popular subject for conversation among housekeepers who have aesthetic tastes. A New York shop keeps a supply of large boxes of heavy pasteboard, covered with beautifully flowered paper, landscape paper, or paper with quaint human figures upon it, for storing purposes. There are two sizes of boxes; the one just large enough to hold a soft cushion, and the other about twice as large. They sell for, respectively, 75 cents and $1.25 each. The smaller boxes are given with sofa cushions bought at the place. The larger boxes would make an aesthetic resting place for a down comforter when not in service.

Gives a Demure Expression.

The present style of drawing the hat well over the forehead gives a more serious and demure expression to the face underneath than does the upturned brim. All the shades of plum, heliotrope and violet are very popular for trimmings, and for the cloth dresses which are now being so much worn. White and black gowns are being ordered for this season. One gown which I saw, and which seemed to catch the popular fancy, was of ivory-colored etamine, the bodice with an empiecement of Maltice guipure. The waistband was incrusted with amethysts. Two shades of violet velvet trimmed the bottom of the skirt.

Chaperons on Trains.

One of the largest railroad corporations in the country employs three women to act as chaperons or guides to tourist parties that travel over their routes. Miss Zerelda Wallace Beaty, Miss Emma C. Bingham and Miss Annie E. Brady to look after the comfort of the people they accompany and explain the points of interest along the way. To people who have travelled but little they are of great assistance. Their services are not forced upon any one, but they are present to be called on when wanted. They usually make themselves known to the women of the party, and are willing to give information at all times.

Clever Women Decorators.

A woman with a clever, original brain and deft fingers can, however small her purse, work wonders in the decoration of her home. One such woman recently rejuvenated one of her apartments and made it a veritable place of beauty. She accomplished the transformation with a pot of paint, several rolls of cheap, coarse burlap, nickel-headed tacks, common sense, quick fingers and good taste. She is going to paper another room soon, and will buy the rough-finish wrapping paper and stencil it herself.

CUBA IS PROSTRATE.

ITS FERTILE FIELDS ARE VACANT AND ITS PEOPLE DESTITUTE.

William Willard Howard's Vivid Description of a Scene of Desolation and Despair—Cuba in All Its Nakedness.

"After a year of peace the island of Cuba shows practically no progress toward its own reconstruction. The desolation that war and Weyler wrought continues almost without abatement. The fertile fields are vacant; the farmhouses in ruins. The destitute and helpless farm folk remain in the towns, waiting for assistance to return to the cultivation of their lands. On the outskirts of the town and on some of the large plantations a little attempt has been made to resume cultivation of the soil, but the country as a whole is tenantless and idle. Thousands of Cuban widows are without homes or any means of support. Many, many thousands of helpless orphans beg their bread from door to door."

This statement of the present condition of Cuba was made to the Executive Committee of the Cuban Industrial Relief Fund by William Willard Howard, general manager of the fund, on his return from Cuba a short time ago. Mr. Howard continues:

"The improved condition in Cuba that one now and then sees reported by casual travelers and others refer almost wholly to the improvements in sanitation and civil administration. In these two things there has been decided improvements. The administration of General Brooke and his officers has been and is a wonderful object lesson in honesty and efficiency. The Cubans cannot yet believe that it can be real, so great is the change from Spanish corruption and incapacity. Some day I hope that General Brooke will receive full credit for what he has done in Cuba. The relief work that I have already done in Cuba shows me how hard is General Brooke's task.

"I stood one day recently on the top of the Pan de Matanzas, the highest mountain in Central Cuba. The view covered a radius if fifty miles. I could see from the neighborhood of Havana to a point some distance beyond Cardenas, nearly a hundred miles east and west I could see from the Straits of Florida on the north side to the Carribean Sea on the south. In all that wide sweep of country there was little to be seen other than wreck and ruin and desolation. It was as though one looked at a desert from which all signs of human life and activity had been withdrawn. But life was there, huddled in the towns along the railways. The fields were overgrown with weeds and tall grass; the ruined walls of farmhouses gleamed through the luxurious vegetation like skeletons which nature was trying to cover with a screen of dense vines. One had to look again and again to find a ploughed field in all that wilderness of ruin. By far the greatest extent of ploughed land that one could see was two red blurs on the landscape at Ceiba Mocha, where the Cuban Industrial Relief Farms are located.

"I have never seen a more pathetic sight. One saw Cuba in all its nakedness. The ruins, the desolation, the destitution, came home to one's mind and heart in one wide, sweeping view. Until I stood on that mountain top I had not really seen Cuba. I had traveled through Santa Clara, Matanzas and Havana provinces on the cars; I had ridden long distances on horseback, and, more than that, I had walked perhaps a hundred miles through the deserted fields and among the ruined homes; I had lived five months in the midst of all the desolation and destitution, but until I stood on the top of Pan de Matanzas I had not known Cuba."

Mr. Howard believes the ordinary traveler is inclined to be so much impressed with the beauty of the secenry that he does not properly appreciate the extent of the destitution. One cannot see Cuba from a hotel piazza, nor yet know Cuba by riding through its desolation on the railway. The beauty of the scenery charms the casual traveler, so that he sees only the noble palm trees, standing like shafts of granite topped with ostrich plumes, and does not realize that the only shelter which the poor reconcentrados have is the wretched huts which they build of the leaves and bark of this same stately tree. They see the beauty of the trees but not the desolation and misery that lies at its foot. It is hard to realize that a country of such great beauty can hide so much misery.

"Why have the plantations not resumed operations?"

"That is easy of answer. We have on our relief farm, working for five cents an hour, men who own large tracts of excellent farming land. I asked one of them, merely to hear what he would say, why he did not resume the cultivation of his land and rebuild his burned sugar mill, instead of working for us for forty-five cents a day. He looked at me a moment, as though questioning the sanity of my inquiry. Then he held out his hands, palms upward, and said: 'That is why.' His hands were empty."

The bulk of Cuba's agricultural existence depends on the cultivation of sugar cane. With raw sugar selling for only 2½ cents a pound on the seacoast in Cuba, there are few capitalists who will lend money to owners of Cuban sugar estates. The interruption in the sugar industry caused by the war gave the manufacturers of beet sugar such an advantage and such a hold on the markets of the world that the grower of sugar cane finds himself crowded pretty close to the wall.

In illustrating this point Mr. Howard said: "Let us assume that the production of Cuban sugar is now one-fifth of what it was before the war. If Cuban sugar, with only one-fifth of the normal production offered for sale, is only 2⅛ cents a pound, delivered on the seacoast, what is likely to be the price of sugar when the production is restored to its normal bulk? The capitalist, who has money to invest, hesitates right there. It is not that the capitalist fears another revolution would destroy his investment, for that contingency is remote; it is that he fears the price of sugar, when the plantations resume operations, will not enable the cane grower and the cane grinder to work at a profit. If the borrower cannot make a profit the lender cannot have a safe investment for his money."

NOT REGIMENTALLY DRUNK.

A Distinction Without a Difference in Military Phraseology.

"We had some very funny experiences during the late war," said an officer wearing the shoulder straps of a major of volunteers. "As you are probably aware, the greatest crime of which an enlisted man can be guilty in the eyes of the military authorities is that of drunkenness, and the majority of punishments inflicted at the camps were for this offense. While we were at Montauk incessant watchfulness had to be exercised in order to prevent the men from smuggling liquor into the camp, but in spite of all precautions, cases of intoxication were frequent. One day, a man of my command was arrested by the guard as he was trying to carry a full-sized jag past the unsympathetic sentry on duty.

"In the morning, after he had had time to sleep off the fumes of his debauch, he was brought before me as the senior officer of the regiment, for investigation. After his arrest he sent for the surgeon of the regiment and the captain of his company, and, after they had inspected him, both declared that they could detect no signs of liquor on the accused man. The case, of course, was a difficult one to decide. On the one hand the non-com. of the guard swore positively that the man was drunk, and on the other hand I had the evidence of two officers, one of whom, the doctor at least, was entitled to respectful consideration as a medical expert. After having heard the evidence of the two officers I called upon the non-com., a typical son of the Emerald Isle, for his evidence.

" 'Sergeant, was this man drunk when he came off pass?'

"True to the traditions of his race, he replied.

" 'Well, sir, he had been drinking.'

" 'That is not the question; I asked you if he was drunk.'

" 'He had taken liquor, sir.'

" 'That won't do; was he drunk? Give me a straight answer.'

"The man hummed and scratched his head as if for inspiration, and finally, finding it, drawled out, while a number of officers listened anxiously for the answer:

" 'Well, sir, he was not to say rigmintally drunk.'

"As soon as I was able to control my countenance and my risible faculties, I asked:

" 'What do you mean by "regimentally drunk?"

" 'If a man can pass the guard without falling down, and only staggers, we would not call him rigmintally drunk, but he ought to be taken in all the same.'

"Amid a roar of laughter, I discharged the man, at the same time warning the over-zealous non-com. to be sure that a man was "rigmintally drunk" before confining him, and ever after that when one of the command had been sacrificing too ardently at the shrine of Bacchus, the question used to be asked, "Was he rigmintally drunk?"

Battlefield Nobility.

It is from Miss Florence Day, who has been untiring in her devotion to the Camp Walworth work, that I have a remarkable story told by a certain Rough Rider, whose name may as well go unmentioned, says a contributor to Leslie's Weekly." This man, it seems, had been deputy marshal of Cripple Creek, and for months before the war he had been hot on the trail of a noted desperado, wanted for horse-stealing and for murder. More than once the marshal and his men had nearly run the outlaw to earth, only to lose him at the last.

Then, suddenly, the war broke out, and things of less moment were forgotten. A captain of the Rough Riders, who knew the marshal's unflinching courage and his skill as a horseman, wrote him an urgent invitation to join his troops, and the invitation was promptly accepted.

So it came, a few weeks later, that this ex-cowboy, ex-miner and ex-hunter of criminals found himself at Tampa in Uncle Sam's uniform. And one of the first men he met was the desperado, so long sought for in vain, only now he was in soldier's clothes, a Rough Rider, too, with the rest of them.

"Well," said the hunted man, coolly, as their eyes met, "you've got me at last."

"How do you mean I've got you?"

"Why, you have. You came for me, didn't you? I lay down."

"I didn't come for you," said the marshal. "I'm here to fight under Roosevelt, same as you are. I don't know you, except as a soldier."

The man stared at him, doubtful.

"You mean you're not my enemy any more?"

"No, sir: I haven't got any enemies now but Spaniards."

"And you ain't goin' to give me up?"

"Not in a hundred years. There's my hand on it, comrade."

And through the hard days that followed there were not two stancher friends in the whole island of Cuba than these two whose hatred for each other had been pitiless. And after the war, when the marshal lay ill at Roosevelt Hospital, it was the ex-outlaw who came to his bedside to cheer him. And later it was the marshal who used his influence with a man of position to get honest work for this strangely found friend, whose gratitude was as deep as his resolve to lead a better life was sincere.

Summons of the Drum.

Hark, I hear the tramp of thousands,
And of armed men the hum;
Lo! a nation's hosts have gathered
Round the quick, alarming drum—
Saying "Come,
Freemen, come!
Ere your heritage be wasted," said the
quick, alarming drum.

"But when won the coming battle,
What of profit springs therefrom?
What if conquest, subjugation,
Even greater ills become?"
But the drum
Answered: "Come!
You must do the sum to prove it," said
the Yankee-answering drum.

Thus they answered—hoping, fearing,
Some in faith and doubting some,
Till a trumpet voice proclaiming
Said: "My chosen people, come!"
Then the drum,
Lo, was dumb!
For the great heart of the Nation throbbing, answered: "Lord, we come."
—Bret Harte.

THE TIME OF DREAMS

THEY OCCUPY BUT A MINUTE FRACTION OF A SECOND.

A Scientist Says There Are Three Classes of Dreams and Tells How They Are Caused—The Effect of An Overloaded Stomach.

Dreams may be divided into three classes. Those caused by internal action, those brought about by external action and those which result from the strong influence of another's will upon the sleeper.

Dreams are generally a repetition of thoughts unguarded by reason. Those caused by internal action, or brought about by action within the body, are due entirely to the action and state of the stomach, and as the food is digested they draw up the nourishment and distribute it throughout the nervous system to replace the waste that has taken place during the day. If the stomach be surcharged with an abundance of heating food too much nourishment is forced upon the brain, causing an abnormal filling of the channels, thereby expanding them, bringing them in touch with others and causing the matter from one to flow into or to mix with the fluid of neighboring channels. Whenever the fluid traverses a channel more or less forcibly the thought which originated that passage is reproduced more or less vividly. Hence ensues the general mixing up of thoughts which originally had no connection with each other.

An overloaded stomach also causes a flow of blood to the brain, sent there by nature to assist in assimilating the extra nourishment, and the overcharged blood-vessels pressing upon the nerve channels near the brain cause even more turbulent disturbances. This accounts for the advance of so many medical men that no considerable quality, especially of animal food, should be taken immediately before bedtime. The crossing, recrossing and the touching of these thought channels brought about in this way produce the absurd mixtures of fancies that often come to us when we sleep.

The stomach, too, is a mill which keeps on forever grinding, the walls acting as the grindstones. When, therefore, there is nothing between them, or, in other words, when the stomach is empty, one wall grinds upon another, causing an irritation of the nerves, which produces that peculiar sensation of falling from some great height.

To understand how external action will effect the dreams of the sleeper, it must be borne in mind that those dreams which seem to take hours and even days in passing really occupy only but a minute fraction of a second. If, therefore, we are awakened by some loud, strident noise, say by the cracking of a whip, then between the time the sound strikes our ears while we are yet asleep, to the time we are fully awake to realize what has caused the sound, a few minutes only have elapsed, but those few moments were sufficient to allow of a dream of apparently several hours' duration.

As an example. A milkman driving up beneath an open bedroom window cracks his whip smartly. Immediately the thought produced by the sound causes a dream. The sleeper imagines himself a soldier, who has fallen into the enemy's hands. He is led out to be shot. He stands blindfolded with hands tied before the platoon of soldiers. He hears the click, click, click, as the rifles are cocked. He hears the word given and the noise of the volley rings out in his ears. Then he awakens with a start to hear the rumble of the milkman's wagon wheels as he cracked his whip and drove over the rough cobblestones.

A blow, a cut, or a sensation of pain will operate in the same way, and awaken certain channels of thought connected with pain just as the noise awoke those connected with sound. For instance, a sleeper dreams that he is closed up in some close traveling carriage, and is being rapidly driven off in some unknown direction by a man who has designs upon his purse and life. He tries to shout, in vain he struggles to get free, and in a tussel drives an arm through the glass window of the carriage. The hand is cut and bleeding. It smarts fearfully, and he awakens to find that he has thrown out his arm and his hand has smashed some fine medicine glass on a stand by the bedside. The whole passed between the time that the hand struck the glass creating the sensation of pain and the moment the sleeper awoke to realize the fact.

Prof. J. O. Neumann, F. R. S., a physchological student of some note, is a firm believer in the third class of dreams, or those brought about by the strong influence of another's will or thought. He claims that the cause is akin to hypnotic suggestion, with the difference that the person bringing about the effect does so unconciously. Mr. Neumann cites an instance of which he had personal knowledge, knowing as he did all the parties to the case.—Cincinnati Commercial Tribune.

Religious Notes.

The Ministerial Union of Richmond and Manchester, Va., has determined to institute a series of Sunday afternoon meetings of all evangelical Christians, at which, in adition to devotional exercises, addresses shall be delivered by men appointed by the ministerial unions of the several denominations on the vital oneness of Christians. The Brotherhood movement in Cincinnati for cincerted Christian work, instituted about a year ago with organizations from the Methodist, Presbyterian, Congregational and Episcopal churches, has been strengthened this year by the accession of branches from the English Lutherans, Baptists and Christians. Of the 34 British districts of the Wesleyan Methodist church 21 show increase, 12 show decrease, and the district of York is in the unique position of having neither advanced nor receded during the year. Of the 836 circuits and stations in British Methodism 580 report an increase this year, 286 a decrease and 42 remain stationary.

A Business Curfew.

A unique curfew arrangement is that in vogue in sime of the Lewis county towns, under which the bell rang at 8:15 every evening as a signal for the merchants to close their stores and quit business for the day.—Kansas City Journal.

Central R. R. of New Jersey

Anthracite Coal Used Exclusively, Insuring Cleanliness and Comfort. Stations in New York, foot of Liberty, and South Ferry Whitehall Streets.

TIME TABLE IN EFFECT OCT. 10th, 1899.

For New York 2 14, 3 37, 5 37, 6 29, 6 59, 7 26, 7 29, 7 55, 8 00, 8 13, 8 30, 8 37, 8 48, 9 16, 9 43, 9 58, 10 37, 11 10 a. m.; 12 09, 12 44, 1 35, 2 12, 2 29, 3 12, 3 46, 4 17, 4 55, 5 37, 5 54, 6 21, 6 30, 6 45, 7 08, 7 30, 9 30, 10 17, 11 25, p. m. Sunday 2 14, 3 37, 5 25, 7 19, 8 01, 8 52, 10 08, 11 10 a. m.; 12 00 m. 12 58, 1 45, 3 17, 3 30, 5 41, 6 52, 8 13, 8 32, 9 15, 10 22 p. m.

For Newark at 5 37, 6 29, 6 59, 7 26, 7 47, 8 13, 8 37, 9 43, 9 58, 10 37, 11 10 a. m.; 12 09, 12 44, 2 12, 2 29, 3 12, 3 46, 4 17, 4 55, 5 37, 6 21, 6 45, 7 30, 9 30, 11 28 p. m. Sunday 7 19, 8 52, 10 08, 11 10 a. m.; 12 58, 1 45, 3 30, 5 41, 6 52, 8 13, 8 32, 10 22 p. m.

For Somerville at 5 18, 7 12, 8 19, 9 40, 9 54, 11 00, 11 59 a. m.; 1 01, 2 08, 2 20, 3 32, 4 35, 5 03, 5 27, 5 34, 6 04, 6 09, 6 19, 6 38, 7 12, 7 34, 8 21, 9 37, 10 26, 11 23 p. m.; 12 44 night. Sunday 5 45, 8 06, 9 55, 10 44 a. m.; 2 03, 3 40, 5 09, 6 35, 8 30, 10 15, 11 14 p. m.

For Easton at 5 18, 8 19, 9 54 a. m.; 1 01, 2 20, 5 27, 6 38, 8 21 p. m. Sunday at 5 45, 8 06 a. m.; 2 03, 6 35 p. m.

For Lake Hopatcong at 9 54 a. m.; 5.27 p. m.

WESTWARD CONNECTIONS.

5 18 a. m.—For Flemington, Easton, Allentown, Reading, Harrisburg, Pottsville, Mauch Chunk, Williamsport, Tamaqua, Upper Lehigh, Wilkesbarre and Scranton.

7 12 a. m.—For stations to High Bridge, connecting for stations on High Bridge Branch except Chester.

8 19 a. m.—For Flemington, D. L. & W. R. R. Easton, Bangor and Mauch Chunk.

9 54 a. m.—For stations on High Bridge Branch, Flemington, D. L. & W. R. R. Easton, Allentown, Reading, Harrisburg, Mauch Chunk, Williamsport, Tamaqua, Pottsville, Shamokin, Nanticoke and Upper Lehigh, Wilkesbarre, Scranton, etc.

1 01 p. m.—Way for Easton, connecting at Junction for stations on D. L. & W. R. R.

2 20 p. m.—For Flemington, Easton, Bethlehem, Allentown, Mauch Chunk, Tamauqua, Sunbury, Williamsport, Wilkesbarre and Scranton.

5 27 p. m.—For Flemington and Easton, Bethlehem, Bangor, Allentown, Mauch Chunk, Reading, Harrisburg, connecting at High Bridge for stations on High Bridge Branch.

6 19 p. m.—For Flemington.

6 38 p. m.—For Easton and at Junction for D. L. & W. R. R.

8 21 p. m.—For Easton.

5 45 a. m. Sundays—For Easton, Bethlehem, Allentown, Mauch Chunk, Tamaqua, Sunbury, Lewisburg, Williamsport, Wilkesbarre and Scranton.

8 06 a. m. Sundays for Flemington and Easton.

2 03 p. m. Sundays—For German Valley, Flanders, Kenvil, Easton, Allentown, Mauch Chunk, Tamaqua, Sunbury, Lewisburg, Williamsport, Reading and Harrisburg.

5 09 p. m. Sundays—For Flemington.

6 35 p. m. Sundays—For Easton, Bethlehem, Allentown, Mauch Chunk, Reading, Harrisburg, etc.

FOR LONG BRANCH, OCEAN GROVE, ETC.

Leave Plainfield at 3 37, 8 13, 10 37 a. m.; 3 46, 4 17, 6 21 p. m.; Sundays, except Ocean Grove, 8 52 a. m.; 3 30 p. m.

For Perth Amboy, 3 37, 5 37, 8 13, 8 37, 9 58, 10 37 a. m.; 1 35, 3 46, 4 17, 5 37, 6 21, 6 30, 11 28 p. m. Sundays 8 52, a. m.; 3 30 p. m.

For Atlantic City, 3 37 a. m.; 1 35 p. m.

For Freehold, 3 37, 8 13, 10 37 a. m.; 1 35, 4 17, 5 37 p. m.

For Lakewood, Toms River and Barnegat, 3 37, 8 13 a. m.; 1 35, 4 17 p. m. Sundays 8 52 a. m.

ROYAL BLUE LINE.

Leave Plainfield for Philadelphia, 5 17, 8 14, 8 44, 9 46, 10 44 a. m.; 2 16, 4 14, 5 09, *5 34, *6 38, 8 21, *9 37 p. m.; 1 17 night. Sundays, 5 17, 5 45, 9 55, 10 44 a. m.; 2 16, 4 55, *5 09, *6 35, 9 47 p. m.; 1 17 night.

For Trenton, 5 17, 7 12, 8 14, 9 46 a. m.; 1 01, 2 16, 4 14, *5 34, *6 38, 8 21, 9 37 p. m.; 1 17 night. Sundays 5 17, 5 45, 9 55, 10 44 a. m.; 2 16, 4 55, *5 09, *6 35, 9 47 p. m.; 1 17 night.

For Baltimore and Washington at 5 17, 8 44, 10 44 a. m.; 2 16, *5 34, *6 38 p. m.; 1 17 night. Sundays, 5 17, 10 44 a. m.; 2 16, *5 09, *6 35 p. m. 1 17 night.

For Buffalo, Chicago and all points West, week-days at 9 54 a. m.; 1 01, 6 38 p. m.

(Plainfield passengers by trains marked *) change cars at Bound Brook.

Through tickets to all points at lowest rates may be had on application in advance to the ticket agent at the station.

J. H. OLHAUSEN,
General Superintendent.

Time Table in Effect May 21, 1899.

LEAVE SOUTH PLAINFIELD, N.J.

WESTWARD.

8 05 a. m. daily, and 7 25 p. m. daily except Sunday. Easton local.

*9 02 a. m. daily, Express for Buffalo, Niagara Falls, Chicago and principal intermediate stations.

*1 52 a. m.; 3 34, 5 22 and 9 35 p. m. daily except Sunday. Local for Bound Brook.

*2 51 a. m. daily except Sunday, "Black Diamond Express" for Rochester, Buffalo and Niagara Falls.

3 04 p. m. daily local for Easton, Wilkesbarre and Scranton.

4 58 p. m. daily except Sunday, express for Wilkesbarre, Scranton, Pottsville, Hazleton, Shamokin, L. & B. Junction and principal intermediate stations.

6 21 p. m. daily except Sunday. 6 25 p. m. Sunday Mauch Chunk local.

*7 22 p. m. daily, solid vestibule express for Buffalo, Niagara Falls, Chicago and principal intermediate stations.

9 02 p. m. daily, express for Buffalo, Niagara Falls and Toronto. Carries sleeping car passengers only except between New York and Mauch Chunk, and no baggage east of Sayre.

*3 22 p. m. daily express for Easton, Bethlehem, Mauch Chunk, Towanda, Sayre, Geneva, Rochester, Buffalo, Niagara Falls, Suspension Bridge and Chicago. Day coaches from New York to Chicago.

EASTWARD.

For New York and Brooklyn, local, 6 49, 7 40, and 9 40 a. m.; 3 04 and 5 19 p. m. daily except Sunday. Sunday 10 31 a. m. and 6 04 p. m. Express 7 05, 8 34, 10 09 a. m.; 12 15, 2 47, 5 09, 7 15 and 9 20 p. m. daily except Sunday. Sunday 7 05 and 8 34 a. m.; 2 47 and 7 11 p. m. 8 06 p. m. daily, local to Parkview.

PERTH AMBOY BRANCH.

For Perth Amboy and intermediate stations 8 05, 10 09 a. m.; 5 22 and 8 10 p. m. daily except Sundays. Sundays 10 31 a. m. and 8 19 p. m.

Trains leave Perth Amboy (State street) 7 13, 8 35 a. m.; 4 30 and 6 30 p. m. daily except Sunday. Sunday 7 13 a. m. and 5 42 p. m.

For further information call on or address the Ticket Agent, South Plainfield, N. J. Through tickets to all important points south or west may be purchased at the South Plainfield office. Telephone 28 F. Call us up without extra charge. The Agent will gladly answer all questions.

NOTES ON PORTO RICO

A GOSSIPY LETTER OF INFORMATION AND INCIDENT.

Brief Description of San Juan—Getting Into Morro Castle—Interviewing a Native—Dancing and Music Popular Amusements.

(Special Correspondence.)

San Juan is worth a brief description, its commercial importance being underestimated in the United States just as that of Ponce is overestimated. The city will always be the metropolis of the island owing both to its natural and acquired advantage. It stands upon an island something over two miles long, about a quarter of a mile wide, and separated from the main land at one end by a narrow arm of the sea, over which is the bridge of San Antonio. The other end is a rugged bluff nearly three-quarters of a mile from the mainland, connection being made by a small ferryboat. It is a walled town, with portculis, gates and battlements, and yet it did not take long for the Spanish commander to cry, "Don't shoot; I'll come down!" when Admiral Sampson started to bombard Morro Castle last summer.

Although built over two hundred and fifty years ago, the town is still in good condition. It has a population of nearly 25,000 and contrary to the usual custom in Porto Rican cities a good many people live on the ground floor. Running water has just been introduced, though the people mostly drink rain water caught in about as filthy cisterns as can be imagined. It is infested by a full supply of vermin, and dogs enough to bay generously at the moon. The streets are narrow, but will usually admit two carriages abreast It has far more and finer public buildings than can be found on the entire balance of the island. There are two good palaces for the officials, a town hall, theatre, barracks, custom house, military hospital, cathedral, Episcopal palace and a seminary.

Gas and electric light works are established, and the stores and shops are better than any others on the island. There is no manufacturing of any consequence. The streets are regular, six running parallel with the island, and seven at right angles. Just at present San Juan is pretty well filled with soldiers and promoters.

Morro Castle shows the marks of the bombarding Admiral Sampson gave it, although the work was considerate and judicious, being more in the nature of a warning than anything else. An intelligent Spaniard tells me that when the bombarding began the commander at the castle thought it was merely a visit from Cervera's fleet, which was giving an unusually effusive salute, but when a shot went clear through the top walls and landed against a private house beyond, the Spaniards realized that something was likely to happen. Then when another shot made a hole as big as a hogshead in the front of a church, passed through the edifice, smashing the rear wall into smithereens, everybody began to flee, and when daylight came not a soul could be seen in the town.

To gain admission to the castle it is necessary to secure a pass from the United States military authorities, but I knew nothing of this at the time of my visit. With me was the captain of an ocean steamship, who had the usual supply of gold lace upon his attire. We had each purchased Spanish swords as relics, which were buckled about our waists as the easiest means of conveyance. Although the one I carried seemed to delight in getting tangled in my legs and in trying to throw me down, the guard evidently took us for military magnates, for he saluted promptly and we returned it with dignity. Once passed the first sentry we got along easily. Merit thus often pays tribute to ignorance.

A mine to the seashore defended by a battery enables troops to enter or leave the fort, or receive succor when needed. Down below are the dungeons where Spain kept her military prisoners. The entrance passage to these are in the form of crescents, and the only light is through diminutive barred windows, the sills of which are worn away by years of use as seats for the unfortunate inmates who clung to them to secure as much as possible the light of day. The castle of San Cristobal, facing the ocean northwest of the city, is likewise a strong fortification, being for the most part cut out of solid rock. It is connected with Morro Castle by a well-constructed wall.

So much for the city. Its people are of a better grade than can be found in the central or southern parts of the island. Indeed, the inhabitants of the entire north shore are more intelligent and enterprising than those of the southern part, simply because they have been in closer touch with civilization. But this is saying very little. Mungo Park found even in the heart of Africa a class of men who told the story of their heroic forefathers, and the Sandwich Islanders have bards who recite the deeds of their illustrious sires. But the Porto Rican has no history, no ideals, no ancestry, no folk lore.

On the road from Caguas to San Juan I stopped at the hut of a native, who seemed to be of more than average intelligence. With the aid of an interpreter—for when you attempt to probe ignorance you need good tools—I tried to find out if there were any distinguished natives on the island. Were there any sages or scientists? Any inventors, or orators, or statesmen? He had never heard of any.

"Poets run wild and rank in almost every land on earth," said I. "Ask him if Porto Rico has any poets."

Our native friend blinked his eyes, and, with a far-away look, said he was sure it had none. But I shall always think that he did not quite understand me, for in the next breath he said:

"But there is a man living near Rio Piedras who has more than a score of roosters, and he is known all over the island as a great cock fighter."

A. A. H.

In a letter to his parents, Lieutenant Colonel Little, of Kansas, tells about meeting an American doctor who had been on the island of Luzon for twenty-two years. According to this doctor, every village had its school houses before the war broke out, and, in a way, all the natives are educated, with the exception of a few wild tribes.

TOM BOWLING AT THE GUN

How Yankee Gunners Fired in the Battle With Montojo's Fleet.

WHY WE WON AT MANILA

Good Marksmanship on a Rolling Vessel Means More Than the Public Appreciate.

The Big Guns Under Perfect Control of the Hydraulic Cylinder—Some of the Difficulties the Manipulator Has to Contend With—The Remarkable Work of the Crews.

Lieut. Bradley A. Fiske, U. S. N., of the Petrel, who took part in the engagement of Cavite bay, contributes an article to the Century on Why We won at Manila. Lieutenant Fiske says of the "man behind the gun:"

Look at him as he stands, lock-string in hand, behind his gun, his legs wide apart as he balances himself on the unsteady deck, his eyes fixed on the sights of his gun and on the enemy, whom he sees through the narrow aperture of the gunport. He knows that his gun is all right, and the powder and the shell and the fuse, and that, years ago, the necessary steps were taken which placed this terrible weapon in his hand to-day, so fashioned that if he fires it right the shot will hit the mark. But the rolling of the ship from side to side throws the line of his gunsights high up against the sky, and then down into the sea; and, as no ship steers exactly straight, the line of sight moves irregularly to the right and left; so that his sights appear to be describing irregular curves, now against the background of the sky, and now against the background of the sea. An average roll may be said to be about seven degrees on each side, or fourteen degrees from one side to the other. The average time of making this roll is about seven seconds, making the line of rolling one degree about half a second.

Suppose now that Tom Bowling is firing at an average ship, say twenty feet high, about twenty-five hundred yards away. If he fires at the middle of the target, as he should do, this gives him a margin on each side of ten feet, which subtends an angle at Tom Bowling's eye of about one-twelfth of a degree; so that Bowling must appreciate the fact that his sights are "on," and do everything required to fire the gun in one-twenty-fourth of a second., or else he will miss the target. Now, no man living can be depended on for such rapid thought and nerve-action, even under the best conditions of quiet and calmness; that is, he cannot be depended on to do it every time.

Much can be done by a good gun-captain, however, by watching for a smooth time, and firing a little before the sights bear. No one knows this better than Tom Bowling. So he braces his feet on the unsteady deck, every nerve stretched to its utmost tension. He sees that the gun is pointing a little to the right of the enemy's ship. "Left!" he orders and the gun-trainers work their training-levers, or if in a turret, start the turning engine so as to turn the gun to the left. Meanwhile, as the line of sight gradually is approaching the target from the right, it is also rising and falling with the rolling of the ship. Tom Bowling sees that, the next time the sights rise to the level of the target, the trainers will have got the gun trained in the proper direction. He braces himself for a quick pull of his lock-string; and then a wave strikes the ship on the starboard bow, or the helm is shifted a little, and away goes the line of sight far off to the left, before the sights get up. "Right!" orders Bowling instantly; and the gun-trainers work the gun back to the right quickly, but cautiously, for much depends upon them now. "Well!" "Right!" "Left!" etc., come the orders in quick succession, as Tom Bowling and his trainers work the gun. Suddenly the line of sight strikes the far get; there is a gleam in Bowling's eys, a quick pull of his arm a tremendous noise, a stifling cloud of smoke, and in comes the gun as if it were a projectile itself, and were going clear across the ship and out at the other side; but it quickly, yet gently, slows, then stops, controlled perfectly by the hydraulic cylinder; and immediately it runs out again, and is ready to be loaded and fired once more.

In an instant the second captain has unlocked and thrown open the breach; quick hands wash off the powder residue from breech-block and bore, and then shove in the shell and powder. The second captain closes and locks the breech with a heavy clang, puts in a new primer, and reports the gun ready. "Left!" cries Tom Bowling; and the same succession of actions is reperformed.

If anybody could have gone from ship to ship of the United States fleet during the eventful hour between five and half-past seven on that beautiful Sunday morning he would have seen about fifty Tom Bowlings, all doing the same things and in the same way. He would have seen fifty guns' crews all eagerly, yet coolly, working their guns, and he would have seen each division of guns, and each turret under the charge of an officer responsible for it.

A Father's Tribute.

At the engagement at Las Guasimas Capt. Allyn K. Capron, of the Rough Riders, son of Capt. Capron, Sr., was killed. His body was left for a time where it fell. His hat was placed to cover his head and a black rubber poncho thrown over the body. Only the rough, mud-clotted shoes protruded from beneath the poncho. Word was sent to Capt. Capron, Sr., and he soon reached the scene of the engagement. White-faced, but upright, he stood for a moment looking down at that black, forbidding outline in a by-path of a thicket—all that remained of the last of three promising sons. Stooping he lifted the hat from the dead boy's face, and gazing at him with moist eyes said:

"Well done, boy!"

Then replacing the hat he turned on his heel and marched stiffly away.

WEATHER IN MANILA

A FALL OF SIX FEET OF RAIN IN ONE MONTH.

Record For the Month of July Was Nearly 47 Inches, Equalled Only Once Since Records Have Been Kept.

It never rains in the United States except at Utica, in the State of New York, and sometimes in the State of Oregon. It has been known to sprinkle in the Borough of Manhattan, and there is on occasion a heavy mist in Brooklyn. But at Manila, when the rainmakers take off their coats and go at it in earnest, there is a precipitation that makes the rain gauges at the observatory get busy with themselves, and stay busy for sometimes a week at a spell. There is no language of hyperbole in speaking of rain there. Not only does it rain to beat the band and the cars and the Dutch and all the rest of the push, but it keeps on raining after it has got them all beaten a block. That is the part that jars.

There were days when it seemed to the casual observer, who had just floated in at headquarters by the banca route or in a casco, that the campaign was being delayed by undue depth of water in the neighborhood of the campaigners. There were supply ships in the bay that no casco went near for almost three weeks. The wind howled, the rain soared, the waves rose, and if Washington did its duty by Manila, there went forth from the national capital the information that the insurrection in the Philippines would not be suppressed until the rainy season was over. The veterans of last year sat around and said: "Oh, you ought to have been at Camp Dewey. There was where it rained a bit on its own hook. Why, I have waked up time and time again just in time to catch my gripsack with everything I had in the world with me floating out under the tent flap. Why, this is only a gentle dew to what we got down there."

In Manila the venders of grass for the ponies delivered it in bancas skilfully navigated along the streams at the sides of the streets. Along the line the men on outpost duty stood their tours in trees or in boats, and sometimes had to swim to their posts.

According to the records at the observatory the month of July was peculiar in several particulars. Its rainfall was almost unprecedented, and nearly all of it occurred in the three weeks between the 2d and 22d. In that period the city was under the influence of various cyclonic centres that traversed either the Pacific or the China seas. There wer three distinct typhoons. The first was on the Pacific side of Luzon, and drifted up around the north end of the island, passing on to Formosa and the westernmost of the Japanese Islands. Curiously it was the influence of this disappearing storm that on the 9th and 10th gave Manila a taste of real ability to rain, the precipitation for those two days being fourteen and a half inches.

The signals were hardly down after this storm than they went up again for a new one that had formed in the China sea to the west of Luzon and marched slap bang into the continent of Asia.

Then came the star of the whole aggregation. Of this the observatory bulletin for July says:

"This storm, perhaps the most remarkable of the month, affected the weather of Manila more especially on the 18th, 19th and 20th. On the 18th the storm was N. E. and far distant from Luzon, and its cyclonic influence reached out at the same time to Japan and the Philippines; the centre seemed to move then with a marked tendency to westward toward the island of Formosa, but on and after the 19th it inclined northward, and on the 21st the centre was off Shanghai, where the storm raged with great intensity, doing considerable damage. The barometer fell to 29 inches."

In the three days thus specified Manila caught a terrific downpour. Nearly two feet of water fell, and the town, that had been traveling in rowboats during the first typhoon began to contemplate the advisability of getting in a few arks of modern design and approved accommodation for a long stay. Then the real joy of life in Manila began to show itself in the blue mold that grew to phenomenal dimensions on one's clothing. If you watched your boots for a little while you could see it start, and over night it would attain a length that would entitle it to enter a waving match with a North Dakota wheat field just ready for the self-binder. With four pounds of pure camphor in every compartment of your wardrobe the mold attacked undaunted. It advanced on both flanks, front and rear at the same time. Nothing could withstand it. Oiled paper was a laughing stock. It pervaded even the sacred precincts of zinc-lined trunks and tin boxes built especially to keep it out. Alcohol lamps, kept burning in the wardrobes at the imminent risk of the total destruction of the contents by fire, made faint impressions on the persistent mold. There was nothing to do but wait for the sun and swear that if you ever got out of this country nothing would induce you to come back.

The observatory has been keeping statistics of rainfall and other things since 1865, and in all that time there has been only one month that was wetter than the one just passed. That was September, 1867, when 1560.3 millimeters or 61.672 inches fell.

February has the smallest average of all the twelve, it being only 11.6 mm. Only six times in the thirty-three years has the February record gone above 20, and just as many times it has been 0.0. Nineteen times the precipitation was less than ten millimetres. Ten times January has been satisfied with less than ten millimetres, seven were less than five, and yet it has several times gone almost to the hundred mark, and once, in 1883, it reached 3072.8 mm., but in 1885 it was only 905.5 mm. In the first four months of 1883 the precipitation was 306.3 mm., but for the corresponding months of the next year it was only 5.9 mm.

This shows why some persons say there is no rainy season in Manila. That probably is true, technically, but almost any American soldier who put in July down there will stand up for the proposition that when the winds prevail from the west there is a likelihood of dampness there or thereabouts.

There is a "comfortable feeling" that comes after a bath with Ivory Soap which is conducive to a good night's rest.

IT FLOATS.

Quick Relief.

Soggy Sampson—Gee! I jest struck dat guy fer a quarter. Told him I was awful dry.

"Wot'd he do?

"He soaked me!"

Seeking Something Appropriate.

Mr. Blykins had been reading his newspaper and was looking thoughtfully at the vacant wall, when his wife said:

"Well, have you decided? You know I said I would leave it entirely to your judgement."

"Have I decided on what?"

"On a name for the dog. You said you would think up something while you were down town today."

"Is that dog still around the house?"

"Why, of course, he is. And I don't see why you should speak of him in that way. I have always wanted a dog."

"Certainly. I'm glad he came. I was afraid he might have strayed away. Name him Hector."

"That's so common."

"Well, call him Carlo."

"But so many dogs are named Carlo."

"Call him Pinkie."

"Thats isn't a bit appropriate. He's a mastiff, I think."

"You want something appropriate and unusual?"

"Yes."

"Well, let's see. That dog came into our possession quite unexpectedly; some of us are in favor of keeping him and some are not, but it seems a great deal easier to take care of him than it does to get rid of him. Let's call him 'Philippines.'"

Story of a Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a godsend to weak, sickly, run down people. Every bottle guaranteed. Only 50 cents. Sold by L. W. Randolph, Druggist.

In a Nutshell:

Regular collections; intelligent washing; careful ironing, prompt deliveries. This makes a good laundry. People who have known us as dyers for thirty years back may not realize that we are doing the largest laundry business in New Jersey. Send us your bundle for a trail.

MANY FAVORITE SONS

UNCERTAIN WHO SOMERSET DEMOCRATS WILL NAME FOR SENATOR.

Candidacy of Samuel S. Childs Looms Up in Formidable Shape—Friends Claim He Will Go Into Convention Strong.

Owing to the numerous favorite sons which the various townships and boroughs in Somerset county are advocating for the Democratic nomination of Senator in that bailiwick, the primaries held Saturday afternoon failed to determine just who will get the nomination.

None of the towns instructed the delegates to the county convention, to be held Thursday, as to who they should support, but when the delegates meet and size up the situation one of the several aspirants will probably be centered on as the most available after the first ballot has allowed the complimentary votes to be cast.

From what can be learned today, however, the candidacy of Samuel S. Childs, the New York restaurant man, who resides in Bernards township, is looming up in a formidable form. Mr. Childs' friends claim that he will go into the convention with more votes than any other aspirant.

MADE A GOOD START.

But Fog and Lack of Wind Threaten to Prevent a Finish Again.

(Special to The Daily Press.)

New York, Oct. 16.—With a twelve knot breeze blowing the Columbia and the Shamrock started this morning in another attempt to run off the first of the international yacht races. The Shamrock crossed the starting line at 11:05 with the Columbia a few seconds behinds.

There was very little fog at the start and the yachts made good progress. The Columbia soon passed the Shamrock and took the lead. At 1:35 the Columbia was two miles from the windward mark and a mile and a half in the lead.

At 2 o'clock the Columbia turned the stake boat. The Shamrock followed 8 minutes later.

As this edition goes to press the fog has grown heavy and the wind has dropped to nine knots, with little appearance of increasing in force. It is doubtful if the race will be finished in time, particularly if the heavy fog continues.

Killed by the Cars.

Mrs. Frank Hollenbeck, of North auenue, near Netherwood, received a telegram this morning from Baltimore, which stated that her brother, James Filmore, who was injured about two weeks ago by the cars, in that city, had died of his injuries. The body will be brought to this city for burial.

—T. M. Ingraham, of this city, cleans cesspools and vaults in a thorough and first-class manner. He can be reached by letter through postoffice Box No. 635.

AT THE HILLSIDE CLUB

CONTINUED FROM PAGE 1.

fact that the course was entirely new to them, and their scores were consequently not as low as they otherwise might have been. Honors were divided, H. D. Hibbard, of the Park Club, and Howard Wright, of the Hillside Club, tieing for first place with 75 net. W. Lester Glenney, who was scratchman, played par golf, 82, but it failed to give him better than sixth place. As a general thing the scores were very good and the handicapping remarkably fair. There were a few who entered after the handicaps were arranged and were therefore compelled to start from scratch. They included S. L. Schoonmaker and C. B. Tyler, and J. T. Scott and Arthur Murphy, from the Park Club. Forty-eight cards were turned in for the event. They were as follows:

	Gross.	Hand.	Net.
H. D. Hibbard, Park	100	25	75
Howard Wright, Hillside	96	21	75
Owen Fletcher, Hillside	92	15	78
George C. Wroth, Park	106	25	81
Dr. B. Van D. Hedges, H.	97	16	81
W. L. Glenney, Hillside	82	0	82
G. W. Cooley, Park	104	21	83
N. P. Rogers, jr., Hillside	100	17	83
R. F. Tilney, Hillside	97	14	83
T. M. Day, Hillside	108	25	83
Morgan T. Townsend, P.	105	21	84
W. T. Kaufman, Hillside	94	10	84
W. L. C. Glenney, Hillside	109	25	84
Dr. F. C. Ald, Hillside	96	11	85
E. M. Shepard, Hillside	100	15	85
Wade la R. Anderson, Park	107	14	86
W. F. Murray, Hillside	106	20	86
E. P. Taylor, Park	101	14	87
F. B. Lounsbury, Hillside	112	25	87
E. T. Barrows, Hillside	110	22	88
D. W. Taylor, Hillside	113	25	88
J. W. Baker, Hillside	95	6	89
Olaf Saugstad, Hillside	105	15	90
H. V. Ryder, Hillside	101	10	91
A. E. Fisk, Hillside	91	0	91
W. R. Faber, Park	117	25	92
L. H. VanBuren, Hillside	114	22	92
A. Henderson, Hillside	112	18	94
Charles A. Reed, Park	120	25	95
E. H. Roland, Hillside	111	16	95
Robert Abbott, Hillside	113	18	95
S. L. Schoonmaker, H.	95	0	95
E. A. Pinto, Hillside	121	25	96
Geo. VanBoskerck, H.	110	14	96
C. C. Burke, Hillside	121	25	96
C. F. Faber, Park	122	24	98
S. W. Corwin, Hillside	124	25	99
Chas. Hyde, Park	124	25	99
C. W. Fisk, Hillside	103	0	103
Chas. B. Morse, Park	128	25	103
D. W. Barrows, Hillside	122	18	104
Howard Tracy, Hillside	130	25	105
J. T. Scott, Park	115	0	115
C. B. Tyler, Hillside	116	0	119
F. L. C. Martin, Hillside	148	25	123
H. Brower, Hillside	153	25	128
Arthur Murphy, Park	128	0	128

Those who completed but did not turn in their scores were Walter L. McGee, Aubrey Crowe, W. J. R Thiers, Dr. G. W. Endicott, Samuel Townsend, of the Park club; and Howard Huntington, H. W. Beebe, Hegeman Foster, H. S. Rogers, J. W. DeGraff, T. R. VanBoskerck, and E. R. Ackerman, of the Hillside club.

The social features of the reception to the Park Club were given special prominence. Invitations to the number of five hundred were sent to the active members of both clubs and to those prominent in local society circles. All the afternoon, the club house was the centre of activity. With the charming decorations and the beautiful gowns of the ladies, the large reception room of the club house presented a pretty scene. Refreshments were served in the dining room which was also tastefully decorated. The ladies who assisted in the dining room were Mrs. George P. Mellick, Mrs. J. W. Reinhart, Mrs. George A. Strong, Mrs. Josiah Browne, Mrs. Rowland Cox, Mrs. Henry P. Talmadge, Mrs. A. H. Atterbury, Mrs. E. H. Roland, Mrs. Alex. Gilbert, Mrs. Walter E. Stewart, Mrs. Mason W. Tyler, Mrs. G. W. VanBoskerck, Mrs. Samuel Huntington, Mrs. J. B. Dumont and others.

Steward Ivamy was in command of the corps of waiters and was very satisfactory in his duties. During the afternoon, there was an informal concert by Dr. Leo Sommer's Neapolitan Troubadors, from New York, who rendered both vocal and instrument selections. They were in costume. The music was excellent.

The house committee was everywhere and there was universal praise for the very successful manner in which every detail of the affair was carried out under the direction of that committee which was composed of Mrs. E. T. Barrows, Miss Maud Van Boskerck, George P. Millick and John Doull Miller.

The golf committee had charge of the arrangements of everything outside of the clubhouse which proved equally successful. The golf committee is composed of Henry Lowe, R. M. Shepard, T. R. Van Boskerck, Olaf Saugstad and Lewis E. Waring.

—Welda, the confectioner and ice cream manufacturer, is prepared to serve customers with the finest quality of both articles. His location is the most central in town, and orders left with him will receive very prompt attention.

Prevented a Tragedy.

Timely information given Mrs. Geo. Long, of New Straitsville, Ohio, prevented a dreadful tragedy and saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery. One bottle wholly cured her, and she writes this marvellous medicine also cured Mr. Long of a severe attack of Pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c and $1 00. Every bottle guaranteed. Trial bottles free at L. W. Randolph's Drug Store.

VOICES OF PROJECTILES.

A Warning Note That Makes Seasoned Veterans Duck Their Heads.

ACTION IS INVOLUNTARY.

Difference in the Character of Sound Which Is Made By the Big Shells.

Scream of the Eight Inch Shell and the Angry Roar of the Thirteen—Sampson's Message to General Toral Which Was the Real Means of Accelerating His Surrender.

One of the naval officers off Santiago was talking about ducking his head when bullets or shells came uncomfortably close, and, as he was never known to flinch before any duty and had heard the song of projectiles innumerable in the Civil as well as in the Spanish war, what he said was listened to.

"I ducked the other day," he said, and ducked hard, when a 13-incher from the Oregon went over our deck, forward, and pretty close, too, during the bombardment. Help it? Of course I couldn't. Neither could anyone else. The pregnant hinges of the knee work involuntarily in reverence to one of those roaring monsters. You duck as you would wink if a fellow made a pass at your face or would sneeze if you stuck a feather up your nose. Will power isn't any good as a preventive; hasn't time to work. Your head bobs down and your legs bend before you can say to yourself: 'Don't be a cowardly ass.' Funny, too, and also involuntary, I think, is the quick look that follows the bobbing to see if you have been observed. Of course, you have been and equally of course nothing is said because everyone knows by experience how it is himself."

"How about rifle bullets—Mausers, for instance?" I asked.

"Oh, they're different. Generally they come too fast for ducking and you quickly get used to their ping or their zip. You know, too, that if the sound is a whine the bullet is a good ways off and if it is the sharp 'pst' it is too late to move, as the missle has passed you. Besides, the rifle bullets are usually expected, while I never knew the close arrival of a big projectile to be anything but surprising. I think, too, the windage must have something to do with the effect on nerves and muscles. I have often heard the question discussed as to how close an 8, 10, 12 or 13 inch shell in full flight could come to a man without knocking him over by atmospheric concussion. There doesn't seem to be any rule; seems to depend on the man, or his position at the time the shell passes. I do not believe, however, any one could keep his feet if a high calibre shell came within five feet of him. I have no ambition to try.

"Did you ever notice the difference in the character of the sound made by an 8, 10 or even a 12-inch shell and that which accompanies a 13-inch, 1100-pound fellow?"

I assured him I had not, as when unkind fate made me an attendant at such diapason orchestral feats I thought of sins, not sounds.

"Well, it's very marked. Now your sub-calibre projectiles, and even the bigger ones, below the biggest, have a petulant sort of wail with them. There is a great deal of the squeal mingled with their shriek. Sometimes I've heard an eight-inch cry as if in agony, and the scream of its flight, as it left you, sunk into a sob almost human. But the thirteen-inch means red war, and says so. Its tone is horror made manifest, but the horror that is inspired, not that which is felt. There are few, or none, of the higher notes heard as the devil makes his twelve-mile leap. An angry, dominating roar, a demoniacal spread of sound, a very cleavage of the frightened waves of air—that's what the thirteen tells to the tympanum. But, bless my soul, what rot Im giving you. Almost poetical, I declare. After all, though, if the greatest poetry is that which most deeply stirs the heart, I imagine the threnody of the big thirteen is not prosaic."

Thinking over this queer differentiation of projectile sound—as if some shells felt regretful over the work they had to do, while the most destructive of all fairly gloat through space on their missions of death—I understood better the full purpose of Sampson's message to Toral, when the Admiral told him: "I have been firing 12-inch shells into Santiago to-day. Unless you surrender, the Oregon, Massachusetts and Indiana will open on you with 13-inch shells to-morrow, commencing about noon."

Toral surrendered, as you will remember, and in his despatch to Blanco mentioned this Sampson ultimatum.

"Oh, My! Oh, My! I Wasn't Scared."

A surgeon relates that before Santiago, he (the surgeon), going to the front, came upon a young officer sitting beside the road, trembling like a leaf, and whiter than the dead men around him. At sight of the surgeon he began to talk, says the San Francisco Argonaut.

"I'm a coward, I'm a coward, I'm a coward," he said; "I knew I'd run, and I did. I'm disgraced forever. I was going along all right, not thinking of anything but getting at the dashed Spaniards, yelling to my men to come on, and running ahead as fast as I could, when all of a sudden I stubbed my toe, or something, and then I can't remember being scared, but I must have been, for I came galloping back here, sick as a dog. I'm a coward, and I wish I were dead! Why don't somebody shoot me? I've got such an awful goneness right here," and he put his hand to his stomach.

The surgeon gave him a quick look and caught him as he plunged forward in a faint. Where the awful goneness was a Mauser bullet had found its billet. They carried the wounded man to the field hospital, and he chuckled all the way. "Oh, my! oh, my!" he said over and over; "I wasn't scared! I wasn't scared!" and then he would laugh delightedly: "I wasn't scared! I was hit—I was just hit. I ain't a coward after all."

Y. M. C. A. ANNIVERSARY

HELD AT VARIOUS CHURCHES IN THIS CITY.

To Commemorate the Organization in Plainfield of the Y. M. C. A.—Able Addresses Delivered by the Pastors.

The thirty-second anniversary of the organization in Plainfield, of the Y. M. C. A. was observed in several of the churches of this city and North Plainfield yesterday. It was on the 28th day of October, 1867, that the local society was formed by a number of prominent citizens interested in religious matters, who realized the needs of such an organization which in the 32 years of its existence has reached out and brought together hundreds of young men, who have been benefitted not only in a spiritual but also in a mental and physical manner. The first officers of the local Y. M. C. A. were: President, Hon. Alexander Gilbert; Vice-president, James W. Jackson; corresponding secretary, H. O. Newman; recording secretary, Nelson Runyon. Later Mr. Newman was elected treasurer of the association and held the office more than 22 years.

For some years the association occupied rooms on East Front street, where the Salvation Army now holds forth. But the growth of the association demanded larger quarters and a handsome building was finally erected at East Front street and Watchung avenue. It was occupied for the first in 1895.

Among the other presidents of the association have been Charles W. McCutchen, James W. Jackson, C. E. Tyler, Henry A. McGee, H. R, Munger, H. O. Newan, F. J. Miller, W. D. Murray and Stephen Cahoone, the present incumbent.

Yesterday morning in the following churches anniversary exercises were held and addresses made by the pastors: First Baptist, First Presbyterian, First Methodist, Crescent Avenue Presbyterian and Holy Cross Episcopal.

In the evening Frank Smith, Army and Navy Secretary of the Y. M. C. A., addressed a large audience in Trinity Reformed church. Appropriate sermons and addresses were also made in the evening by the pastors of the Park Avenue Baptist, Warren chapel and Grace Episcopal churches.

Saturday at the usual service Rev. A. E. Main, pastor of the Seventh-Day Baptist church, preached an interesting sermon on the local work of the Y. M. C. A.

In the afternoon the men's rally meeting at 4:15 was conducted by Capt. George D. Morrison, who delivered an able address on the good work in hand.

Next Sunday morning anniversary exercises will be held at Grace M. E. church, and in the evening at the Monroe Avenue M. E. church. Anniversary exercises will be held in the Congregational church, Sunday, November 12th.

PARTICULAR MENTION.

Mrs. E. E. Anthony sang in Trinity Reformed church choir yesterday morning in the absence of the regular soprano, Miss Krymer, who was out of town.

Hon. Peter Egenoff, a member of the Democratic State committee from Union county, and a prominent citizen of Elizabeth, was in this city yesterday looking over some of Plainfield's beautiful residential sections.

Upon the Invitation of Pastor Schenck.

It was upon the invitation of Rev. Cornelius Schenck, Ph.D., that Frank Smith, the army and navy secretary of the Y. M. C. A., delivered the address in Trinity Reformed church last evening. Dr. Schenck met Mr. Smith while on his vacation last summer, and becoming impressed with his work invited him to speak in his church.

TEACHERS ARE SHOWN HOW TO TEACH BEST.

Annual Institute of Primary Union Held Yesterday.

MANY INSTRUCTIVE TOPICS.

MEMBER OF JOHN WANAMKER'S SUNDAY-SCHOOL WAS HEARD.

Miss Harlow Spoke of the Various Departments of Sunday-School Work and Gave Many Instructive Suggestions, Afterwards Conducting The Lesson for Next Sunday—Others Who Spoke.

The annual institute of the Plainfield Primary Teachers' Sunday-school Union held in the parlors of the Seventh-day Baptist church yesterday afternoon and evening, was one of the most successful as well as interesting ever held. There was a large attendance of members and visiting friends and the various topics and numbers on the programme were very helpful to the workers.

The afternoon session opened with devotional exercises conducted by Mrs. Powlison, after which there were whispering breezes from the summer primary school. This included a review on intermediate work by Miss Nettie Beeching and Miss Carns, of this city. Then followed the primary song led by Miss Beeching, and the roll call by the secretary and treasurer, Miss Spicer.

After the offering and recitation of memory verses under the direction of Miss Beeching, there was a conference hour conducted by Miss Harlow, of John Wanamaker's Sunday-school in Philadelphia. Miss Harlow spoke of the various departments in Sunday-school work and gave many new and original suggestions. Under this topic there were talks by Mrs. Powlison, of this city, Mrs. Baker and Mrs. Hearts, of Westfield, on the cradle roll and supplemental work and grading in the primary room. In this discussion all received much help and the suggestions offered were of much practical benefit.

The singing of a primary song by all present was followed by a kindergarten game followed by a grand march in which all the members took part. This was in charge of Mrs. Powlison, of this city, and Mrs. Baker, of Westfield.

This concluded the afternoon session, after which all adjourned to another room where members of the union provided and served a pleasing supper for all.

The evening session was opened with a song service conducted by David E. Titsworth. Then there was a report of the lessons for the year by Miss Rowley. After a well rendered soprano solo by Miss Blanche Fellows, Miss Harlow was introduced and she taught the Sunday-school lesson for next Sunday. The topic is "Ezra's Journey to Jerusalem," and the able way in which the lesson was taught proved exceedingly helpful to all. Miss Harlow is a worker of unexceptional ability and held the closest attention of all throughout.

While the offering was being received there was an instrumental selection by Messrs. Spicer and Barnes. Then followed the closing number on the programme, a review of last year's work by the secretary and treasurer, Miss Spicer. This report showed a very successful year. There have been added to the roll fifteen members, making a total membership of 46. The total average attendance of members and visitors was 28, and fifty meetings were held. There was raised $57, of which amount $15 was contributed to State and international primary work, and $5 was presented to the Y. M. C. A. as an appreciation of the favors extended in allowing the Union to meet at that place. The balance of the money was used to meet the expenses of the Union. During the year teachers from other Unions have been present and spoke and there were two joint meetings with Junior Christian Endeavor superintendents, which were in charge of Mrs. W. S Lowry, superintendent. Addresses have been given by Rev. Mr. Bennett, of Lyons Farms; C. L. Ladd, of Jersey City; Dr. Main, W. D. Murray, O S. Rogers and Mr. Olmstead, of this city. The latter gave a chalk talk. The Union is now in a very prosperous condition financially and otherwise, and the new year is started with strong hopes of even greater success

Lost the Use of Her Limbs.

The illness which detains Grace Vail, of Elmwood place, at home, has developed into a severe form. It has deprived her of the use of her limbs. The physician in charge does not apprehend any serious results.

MOVE FOR HARMONY NOW.

Daly's Committee Will Meet in Trenton Friday or Saturday of This Week.

Congressman William D. Daly has instructed his secretary, William Aiken, of Jersey City, to call another meeting for this week of the committee of fifteen which issued the recent "Address to the Voters of New Jersey." Mr. Aiken said that the meeting would be held in Trenton probably Friday or Saturday.

There is much speculation as to what the committee will do. In the light of recent pledges of Mr. Daly and some of his followers that they would give up rebellion and fall in line with Gourley and the State organization, also in view of Mr. Gourley's statement that the party was one again, it is expected the meeting is in the interest of harmony.

THE SOCIAL PROBLEM

OUTLINED BY A GRADUATE OF PRINCETON UNIVERSITY.

Interesting Lecture Delivered by Prof. Wyckoff Before the Monday Afternoon Club at All Souls Church.

A cultured audience gathered at All Souls church yesterday afternoon to listen to Walter A. Wyckoff's lecture on the "Social Problem." The lecture was given under the auspices of the Monday Afternoon Club, of which Mrs. J. M. Whiting is president. Mr. Wyckoff, who is a graduate of Princeton University, and the author of "The Workers," a series of able articles recently published in Scribner's Magazine, is a polished speaker and possessed of a versatile vocabulary, which familiarity with his subject makes apparent.

He referred to the geometrical progress of the country and the production of the enormous power that follows population. What the development of the country in the next twenty-five years would result in as regards the development of the social problem time alone could determine. That situation would be as easily faced as have those that have arisen in the past. He then referred to the evils effects of the present sweat shop system as found in the large cities through the country. In Chicago alone he said there were more that 2,000 of these shops and the competition was so great that the employes had often to face the dire necessities of life. As a remedy to eradicate the sweat shops Mr. Wyckoff suggested that the authorities would have to force the manufacturers to have the garments made in the regular factories, where the employes would be better paid and where the sanitary laws could be so enforced as to not be detrimental to health.

In reference to the centralization of capital on the one hand and the centralization of labor on the other he thought that would be regulated by the law of supply and demand. It was absurd to attempt to legislate against capital. History and statistics show that the centralization of capital is of vast benefit to the laboring man. He said he thought that the coming election would have much to do with the social problem. In fact much more so than is apparent at present. Mr. Wyckoff then depicted in a logical manner the weak points of the socialistic theories and closed by reciting in a clear manner how modern development will bring out the possibilities for man by the concrete solution and not by the sentimental—that it was the exceptional man who enters the field and regulates the social problem. It was not true, he said, that the workman of today is worse off than he used to be but on the contrary he is better paid, lives better and his condition is continually improving.

At the close of the lecture, which was one of the most able expositions of the social problem ever heard in this city, a number in the audience asked Mr. Wyckoff questions which he cheerfully answered. The lecture was both interesting and instructive.

A Well-Appearing Prisoner.

William Thompson, a cabinet maker from Oswego, N. Y., was haled before City Judge Runyon this morning. He was arrested yesterday afternoon for vagrancy. In an accident he had lost four fingers on his left hand and had the bones crushed in his right wrist. He was going to Philadelphia to join his brother. He was a well-appearing man and readily promised to leave town at once when the Judge suspended sentence.

An Informal Stag.

There was an informal "stag" gathering at the home of Godwin Beard, of Hillside avenue, last evening, to bid farewell to Albert Finch who leaves for the south today and will be absent from Plainfield all winter. The evening was spent in playing whist.

COLUMBIA WINS AGAIN.

Shamrock Withdraws On Account of Accident.

TOPSAIL BLOWN OUT.

COLUMBIA WILL CONTINUE OVER COURSE ALONE.

Yachts Started On First Leg Of Triangular Course And Were Beating To Windward—Breeze Was Freshening—Proved Too Much For Shamrock'e Big Topsail—Shamrock Returned Back To The Stake Boat.

(Special to The Daily Press.)

New York, October 17.—The American yacht won its second victory in the series of international yacht races this morning. An accident to the Shamrock's top sail put the English craft out of the race early in the day, and the Columbia sailed over the course alone.

The morning was inclined to be hazy, but a good ten knot breeze blew in from the southeast and east.

The course was a triangular one, thirty-miles long. The yachts were ready for a prompt start, and at 11 o'clock the Columbia crossed the line ten seconds ahead of the Shamrock.

The wind showed signs of freshening as the yachts started. The Columbia outpointed her rival on the windward work and increased her lead.

At 11:45 the wind, which was still slowly increasing, proved too much for the big topsail of the Shamrock, which is the largest ever carried on a yacht. The canvas was carried away. The Shamrock put about immediately and started back for the stake boat before the wind under mainsail and foresail.

According to the agreement made before the races, it was understood that if one yacht met with an accident the other yacht should continue over the course alone.

QUITE A COSTLY GOAT.

Daniel Had It in His Arms and Got Damages Because He Was Put Off of the Car.

It may cost the North Jersey Traction Company $90 hereafter to put a goat off any of its trolley cars. At least, a jury so decided last evening in the Union County Court in Elizabeth.

Vincent Daniel, who is the Italian interpreter for the court, on March 7th last started for New York with a goat, which he meant to present to his sister-in-law. He was allowed to ride from Elizabeth to Newark, and the conductor, Harry W. Marbach, collected two fares from him and gave him a transfer to East Newark. When he boarded a car in that city, however, the conductor told him it was not a cattle car and that he must abandon the goat or get off. Daniel refused to do either and was summarily ejected.

He then sued the company for $2,000 damages. The conductor of the Elizabeth car swore he saw no goat and that Daniel must have had it under his overcoat. Mrs. Ellen Keefe, a passenger, testified that Daniel had the goat in his arms. John Stefand testified that Daniel wore no overcoat and that he saw him board the car with the goat.

Judge Vail charged the jury that the company had a legal right to put the man off when it was against its rules to carry animals on the car, but that when his fare was taken and a transfer given him, the company entered into a contract which it was bound to carry out. The jury gave Daniel a verdict for $90 and costs.

To Render a Varied Programme.

W. H. Miller will render a varied programme, illustrating the different schools of music for the organ, at his recital at the First Presbyterian church Thursday evening. The musical public are cordially invited.

To Save Time and Labor.

Weida, the West Front street confectioner, has patented a machine for dipping chocolate cream which will save much time and labor. Mr. Weida is now having one made for his own use.

JERSEY JUNIORS OBJECT

TO FIGHT RULING OF THE NATIONAL COUNCIL.

An Important Conference Held In Somerville Last Night — Committee Was Appointed to Act in the Case.

About fifty members of Franklin and Somerset Councils, Jr. O U. A. M., of this city, went to Somerville last evening by trolley for the purpose of attending a union meeting of councils to discuss the question of reduced representation and increased taxation as imposed by the National Council. A number of the state officers were present and representatives from about twenty-five councils, mostly from Somerset county.

It was the sense of the meeting, as emphatically expressed by all, that the members refuse to pay the increased taxation on the basis of a lower representation, and it was decided to employ counsel to fight the alleged unjust law in this matter. It was stated that the members of the order in Pennsylvania had refused to pay the increase and that immediately the National Council had declared their charter null and void. It was expected that the same action would be taken regarding the action by the New Jersey members, but a feeling of opposition was strongly expressed and the members will fight the legality of the law.

For instance, this State has a membership of 31,000 and the representation in the National Council has been cut in half, in other words it was 12 and it is now six. As an example, Nebraska, which has a total State membership of 125, and is allowed a representation of two at the National convention. The eastern members feel as though the western members are trying to gain control of affairs, and they will not allow it if it can be avoided. The present per capita tax is 27 cents, and this is quite a jump from twelve years ago when it was 8 cents.

It is considered that the evident purpose of the western States is to allow one or more representative to each State, and in this way with the past councilors, who are members of the National body, the control of affairs would be in the hands of the westerners, when in reality their membership is far less than that of the east.

From the councils represented last evening, one repersentative from each was selected, and these members formed a committee for the purpose of drafting suitable resolutions on the subject which were adopted at the meeting and which will be presented at the session of the State Council to be held at Trenton next week Wednesday, when this matter will be taken up for consideration. The members are determined that if they cannot have the representation they will not pay the taxation.

COULDN'T QUALIFY.

Three White Men and One Black Didn't Pass Examination for Letter-Carriers.

(Special to The Daily Press.)

Cranford, Oct. 17—The free delivery system, which was to have been started in connection with the post-office at this place October 1st, has not yet been inaugurated by reason of the candidates for carriers failing to pass the required civil service examinations. E. E. White, H. W. Crane, William Hennessy and Joseph Cox were the candidates, the last named being a colored man. The service will require two regular and one substitute carriers.

Postmaster John L. Derby has received the furniture for the system, which is now being placed in the office. Everything in connection with the system has reached this place to be utilized just as soon as the carriers are secured.

Postmaster Derby received word that new examinations would be necessary, and notices to that effect have been posted in Cranford and vicinity. The examinations will be held November 4th at the township rooms, and many candidates are expected from out of town. The salary of the carriers amounts to about $500 for the first year, and increases thereafter.

Miss Benham to Marry.

Miss Ida Benham, for sometime past an assistant operator at the Western Union Telegraph office at the North Avenue station, has resigned her position, which took effect Saturday. Her place is being filled for the present by Mr. Jones, from Jersey City.

Knights Held a Drill.

Nelson Y. Dungan, of Somerville, was in town last evening attending the regular conclave of Trinity Commandery, No. 17, K. T., who held a drill in preparation for the intended visit of the grand officers at an early date.

SENATOR REED MARKED FOR A RENOMINATION

He Says That There Will Be No Compromise Now.

FRIENDS SAY HE MUST RUN.

FRELINGHUYSEN ANXIOUS TO BE COMPROMISE CANDIDATE.

He Visited Senator Reed Yesterday, But Got No Satisfaction Out of Him—Senator Reed Willing to Retire, But He Says That the Majority of Delegates Will Not Consent to Such an Arrangement.

The situation in the Republican party of Somerset county, which has been one of extreme bitterness between the factions headed by Chancery Clerk Thompson, of Somerville, and President of the Senate Charles A. Reed, of North Plainfield, respectively, remains unchanged today. Senator Reed was seen this morning and he stated that there had been no attempt to settle upon a compromise candidate for Senator, in order to allay the factional bickerings in the party, and that he fully expected to be the nominee of the county convention which will be held tomorrow.

"Personally," said Mr. Reed today, "I would be willing to retire from the canvass and allow some other candidate not attached to either faction nominated, but a majority of the delegates elected at the primaries last Saturday are for my renomination. They say that I must accept the nomination whether I want it or not, and I expect to bow to their decision. So far as the reports set out by Chancery Clerk Thompson's emissaries are concerned," continued Mr. Reed, "to the effect that Thompson will control the delegates, that is all bosh. Mr. Thompson has not got the majority of the delegates and cannot get them."

Joseph A. Frelinghuysen, of Somerville, who has been pushed as an available candidate for a good compromise, was in town yesterday and had an interview with Senator Reed. Mr. Frelinghuysen is working hard to land the nomination for himself, and he sought out Senator Reed in the hope of inducing him to withdraw from the canvass and turn his support to him. The Senator, however, fought clear of such a pledge by saying that he was "in the hands of his friends."

The convention will convene in the Court House in Somerville tomorrow morning, and will undoubtedly be one of the most exciting ever held in the county.

DOG CAUSED A FALL.

Druggist Powers Painfully Hurt While Riding His Wheel On Somerset Street.

John Powers, the Somerset street druggist, met with a painful accident yesterday afternoon while riding his wheel through Somerset street toward Front. His famous bull dog was with him and persisted in getting in front of the wheel. Mr. Powers could have passed through safely if a wagon had not appeared in his path.

In trying to avoid running into the wagon he struck the dog and was thrown with great force from his wheel. His fall was even worse from the fact that his wheel slipped on the trolley car tracks. Mr. Powers' injuries consists of a sprained arm and hand, and today he is detained at home. He received medical attention from Dr. J. Hervey Buchanan, who happened to be near at the time of the accident.

Valuable Property to be Sold at Auction.

On Thursday afternoon next at 2 o'clock there will be an auction sale of one of the most valuable properties in Plainfield or vicinity. This property was the residence of the late David M. Demarest, and is located at the corner of Crescent avenue and West Seventh street. The house contains fourteen rooms all improvements, including steam heat and electric lights, and is in good repair. The lot has a frontage of 200 feet on Crescent avenue and 119 feet on Seventh street. There is also stable for four horses The lot may be divided so as to make two lots each with a frontage of 100 feet. The terms of sale are 10 per cent. cash, balance on delivery of deed thirty days after sale. For full particulars inquire of Reed & Coddington, Babcock building.

To Secure Lower Fares.

Secretary H. C. Runyon is engaged in sending out invitations to the boards of trade in all boroughs between Elizabeth and Somerville to meet with the Plainfield Board of Trade Monday night, November 20th, for the purpose of taking concerted action with reference to an attempt to secure a reduction of fares on the Central Railroad.

FOR LOWER GAS.

The Board of Trade Opinion is Favorable to the People's Gas Company.

There was no business done at the meeting of the Board of Trade last evening owing to the fact that a quorum was lacking. There was a general discussion by those present, however, of the advantages of the new gas company. The general opinion was that the city should grant the franchise and give the company a chance to lower the price.

It was expected that some of the local merchants would be on hand to discuss the advisibility of the Plainfield merchants uniting in some move ment to bring outside trade to this city. Some of those particularly interested were unable to be present.

AIDS IN ENDEAVOR WORK

PRESIDENT SHEPPARD, OF TRINITY, APPOINTS HIS COMMITTEES.

The Committees Will Look After the Various Details of the Work, and Will Serve for the Ensuing Term.

Edgar F. Sheppard, president of the Christian Endeavor Society of Trinity Reformed church, has appointed the following committees to serve for one year from November 1st:

Lookout committee—Miss Ella C. Benedict, chairman; Miss Mable Wilson, Miss Sadie Searing, Hiram Humes and Willard Swick.

Prayer meeting committee—Miss Mable Woodruff, chairman; Miss Lillian Force, Miss Cora Laire, E. E. Anthony and Charles M. Dolliver.

Social committee—Mrs. E. E. Anthony, chairman; Mrs. Bertha Richards, Miss Nellie Fenner, Miss Viola Huff and Miss Bessie Martin.

Sunday-school committee — Miss Lillian Remsen, chairman; Miss Helen Bogart, Miss Jennie Boss, Miss Olive Wyckoff and Henry Seader.

Music committee — Miss Jennie Quick, chairman; Miss Achsah Holmes, Miss Emma Gillem, Miss H. M. Kreitling and Horace Martin, Jr.

Missionary Committee—Miss Minnie Wyman, chairman; Mrs. F. C. Adams, Miss Sara Holmes, Miss Mary L. Pugh and Miss Dollie Bolsterle.

Temperance committee — F. E. Smith, chairman; A. L. Force, W. F. Oliver, George Bolsterle and Harry Crawford.

Flower committee—Miss Mary Berkaw, chairman; Miss Josephine Kissam, Miss Carrie Mehl, Fred Dunavan and Charles Zimmer.

Visiting committee — Miss Anna Searing, chairman; Miss Hattie Powelson, Miss Grace Berg, Miss Edith DuBois and A. T. Runyon.

Reception committee—A. K. Willett, chairman; Chauncey F. Colthar, Julius Williams, William Wyman and Fred T. Ross.

AN IMPOSING CEREMONY.

Confirmation of Samuel Rottberg in the Jewish Synagogue.

An imposing ceremony took place at the Jewish synagogue, 204 West Front street, last Saturday morning and yesterday. It was the confirmation of Samuel Rottberg, of West Third street, at which time he read the Bible in public for the first time and made an address. Sunday afternoon a reception was held in the synagogue, when the young man made a short address thanking his parents and the guests for their kindness. This was followed by a supper, after which Rabbi Borenson gave an impressive address to the young man who was confirmed. Another address was made on his behalf by Rev. Mr. Fine, which was followed by a short talk by Max Goldstein, on his behalf as a friend.

The young man received a number of fine presents from his relatives and friends. As he enters manhood he obligated himself to live the right kind of a life.

Location of Fire Hydrants.

B. Frank Corriell, chairman of the fire and building committee of the Common Council, and Chief Doane, of the Plainfield fire department, made a round of part of the city Saturday afternoon with a view to locating several new hydrants. Mr. Corriell decided in favor of hydrants on East Front street at Netherwood, Leland and Raymond avenues. Two more hydrants will be located on Arlington avenue near Arlington place.

Mary Luke Was Drunk.

Mary Luke came up before City Judge Runyon this morning on the charge of being helplessly drunk yesterday. Mary made a solemn promise to return to the Industrial Home, leave rum alone in the future and behave herself. On those conditions, sentence was suspended.

Looking After His Fences.

Former Assemblyman Robert Houston, of Elizabeth, has been in Plainfield calling on some of his political friends.

CHILDS SENATORIAL BOOM FLOURISHING.

The Restauranter Regarded With High Favor.

FAVORITE SONS IN PLENTY.

FORMER SPEAKER BERGEN'S BOLT IN '96 IS HURTING HIM.

It is Thought That With Senator Reed at the Head of the Republican Ticket Alvah Clark Will Oppose Any Movement to Nominate Elston French Because He Hails From Reed's Home.

From an impartial view of the situation the boom of Samuel S. Childs, the New York restauranter, for the Democratic Senatorial nomination in Somerset county at the hands of the county convention next Thursday, seem to be the most flourishing of any of the candidacies for that honor. Up to the latter part of last week former Speaker James J. Bergen, of Somerville, seemed to be in the lead for the nomination, but as the time nears for the holding of the convention the weak points of Mr. Bergen's candidacy are dwelt on in a threatening manner. The fact that Mr. Bergen bolted Bryan in 1896 in militating against him strongly in his canvass for the Senatorship, and his record in the Legislature during the coal combine legislation is also being pointed as likely to contribute to Democratic defeat if he is put at the head of the ticket.

While Mr. Childs boom is recognized as a formidable one, a good deal of unfavorable gossip is heard about some of those who are pushing it to the front. Among a certain class of Democrats in Somerville there is a very bitter feeling against former Congressman Clark, who is understood to be doing his best to nominate Childs. Personal feelings and antagonism is beginning to be felt in the canvass, and even in North Plainfield it is said that the advocacy of the Childs candidacy by one short-haired politician has had a nugatory effect upon some members of the party who would otherwise fall in line for Childs, but who now decline to line up with the politician in question.

But from the result of the Democratic primaries held throughout the county Saturday it is pretty hard to tell which one of the Senatorial candidates are most likely to land the nomination. None of the townships instructed delegates specifically with reference to the Senatorial nomination, although nearly all are expected to lean towards favorite candidates.

It is expected that Mr. Bergen will get the delegates from Somerville, although Assessor E. M. French, of this city, claims that the Raritan delegates, who come from Bridgewater township the same as Somerville, will be for him. Mr. Bergen also claims the support of Bedminister. Prosecutor Nelson B. Dungan will, it is expected, have the Montgomery delegates favor his nomination, and possibly one or two from Bridgewater. Mr. Childs will have the Bernards and Warren delegations with him. Assessor French claims the support of North Plainfield borough and township delegates.

Since the Republican nomination is conceded to Senator Charles A. Reed, of North Plainfield, it is thought likely that Former Congressman Alvah A. Clark, of Somerville, Senator Reed's father-in law, who wields considerable influence in the Democratic ranks, will use his efforts to prevent the nomination going to Mr. French, who hails from the same town as Mr. Reed. With Reed and French opposing each other, the former's chances of securing a good majority in North Plainfield would be greatly lessened.

Notwithstanding the anticipated opposition of former Congressman Clark, Mr. French is still making an aggressive canvass for the nomination. He has a number of delegates pledged who will stay by him, and whatever the outcome of the convention is Mr. French will be an important factor in the proceedings.

Prosecutor Dungan was in Plainfield last night and was seen by a Press reporter, to whom he talked about the situation in Democratic ranks with reference to the Senatorship. Mr. Dungan said that he was willing to accept a nomination for the office, and was prepared to put up an aggressive campaign. He deprecated the underhand methods that were being resorted to by certain of the leaders, and said that every delegate ought to go into the convention intending to serve the interests of the party as a whole rather than any particular individual.

—B. R. Force, 120 West Front street, is offering boots and shoes at low prices.

THE COLUMBIA IN AHEAD.

She Crosses the Finish Line in Lead of the Shamrock in the First Race.

IT WAS NOT A SURPRISE.

Little Doubt of the Result From Start to Finish of the Interesting Yachting Event.

The American Yacht Well Handled By Her Crew, is Nearly a Mile Ahead of Lipton's Flyer at the Finish—Both Sloops Go Over the Course Without Accident.

Sandy Hook, L. I., Oct. 17.—The American yacht Columbia wins. With all her kites flying, her balloon jib topsail bellying out in front like a great cloud, her spinnaker pulling so hard that it bent the boom nearly double, and her mainsail and clubtopsail as flat as boards, the Herreshoff model crossed the finish line the winner of the first of the series of races for the America's Cup.

From the start, when Columbia, although behind in time, had the position, the race was never in doubt. Beating back and forth, on and off the Long Island coast, there was considerable jockeying indulged in by both boats in which Columbia got the better of it and kept increasing her lead until, at the outer mark, she led the Irish boat by nine minutes and forty-seven seconds.

THE COLUMBIA.

In the run home Columbia for awhile increased her lead. Then she struck a light patch and the wind deserted her. Here the Shamrock made up considerable distance, the Irish boat gaining a quarter of a mile in half an hour. Then she, too, ran into the light air which the Columbia encountered, and for awhile neither boat made much headway.

Columbia finally picked up the breeze again, and from that time on there was no doubt as to which boat would win. It was Columbia all the way.

The management of the two sloops by their respective crews excited the admiration of lovers of yachting sport and it was not the fault of poor handling that the Shamrock was beaten. The Irish flyer was simply outsailed by the American pride on equal terms, and that is about the only way the event from starting point to finish line can be sized up. There was no accident to either of the yachts.

The race was over a course of fifteen miles and return and the Columbia won by 10 minutes and eight seconds.

Laurada's Passengers at Seattle.

Seattle, Oct. 17.—A number of the crew and passengers of the steamship Laurada, which lies a wreck in Zapadine Bay, St. George Island, off Alaska, have been brought to this port by the United States revenue cutter Carwin. The Laurada, Capt. Frank White, left Seattle Sept. 12 for Cape Nome, with a crew of forty-eight men, and twenty passengers. She carried a full cargo of general merchandise, hay, lumber, cattle and sheep. The Laurada encountered rough weather from the start, and on Sept. 27 she sprung a leak. She was run into the shallow waters of Zapadine Bay, where her crew, passengers and cargo were landed and housed in several abandoned cabins. The Corwin, attracted by signals, took aboard the crew and passengers, taking some to Dutch Harbor and bringing the remainder to Seattle.

Wreck Victims Identified.

New York, Oct. 17.—The bodies of the woman and child washed ashore after the wreck of the Nutmeg State have been identified as Mrs. Mary Lagger, 36 years old, and her daughter, Rose, 3 years old. The identification was made by Mrs. Rosaland Young, of No. 432 West Thirty-sixth street. Mrs. Young said that she was an intimate friend of Mrs. Lagger until about a year ago. They both came from Cosron, Switzerland. She added that the husband of Mrs. Lagger was still in Switzerland.

Publication Held for Postage.

Toledo, O., Oct. 17.—The partisans of Mayor Jones in his golden rule campaign for Governor of Ohio, are enraged at what they pronounce the work of Mark Hanna in withholding from the privilege of second class postage The Saturday Night, a weekly paper which boomed the Jones cause. The last edition is held for postage due as circular matter. The paper began publication seven months ago and was not molested until now.

Killed Her Husband's Slayer.

Niles, Ohio, Oct. 17.—Frank Augusta was shot and killed by Mrs. Tauro. Dominick Tauro was fatally stabbed in a fight four months ago, and on his death-bed told his wife that Augusta had stabbed him. The shooting of Augusta is the sequel. Mrs. Tauro has a five-months'-old baby, which she took to jail with her.

Golf Record Broken.

Princeton, N. J., Oct. 17.—The Princeton University golf record has been broken by Prentiss Kellogg, 1900, of New York. He went over the eighteen-hole course in 78 strokes, 37 out and 41 in. The record was previously held by W. D. Van Derpool, '98, with 38 out and 41 in.

MORE SURGEONS NEEDED.

Professional Services in Demand in the Philippines.

Manila, Oct. 17.—General Otis has permitted the medical department here to cable to Washington for twenty additional surgeons and thirty nurses.

A steamer from Jolo brings news of the finding of nine dead Moros lying on the beach near Jolo. They belonged to Dato Jokanine's followers, and the bodies had been terribly mutilated.

It is believed Jokanine will promptly retaliate on the Sultan, ruler of all the Moros, and that it will cause a bitter feud between these two native leaders.

Manila, Oct. 17.—The Filipinos made an attact upon Angeles. One American was killed and seven were wounded. The Filipinos used agtillery, a few shells exploding. The Xinth, Seventeenth and Thirteenth regiments engaged the enemy, who retired three hours later. An American scouting party near Baklinate captured eleven Filipinos. Another, near Maycauyan, captured a Filipino major. All were brought to Manila.

Manila, Oct. 17.—The authorities were informed from reliable sources that an outbreak in the poorer districts of Manila had been carefully planned.

It failed to occur, probably on account of the vigorous measures enforced.

Many natives of the Tonda district left, taking their valuables. All the small shops, which the guards usually force to close at half-past eight o'clock in the evening, were shut at sunset. A general feeling of uneasiness was apparent.

Guards in the city were doubled and a strong force stationed at the slaughter house, the centre of an unruly section. Two guns of the Sixth artillery were stationed near by, at a point commanding the native quarter. Commanders of the reserve troops were ordered to be prepared for a call at daylight.

Three native policemen have been arrested. The fact that their comrades informed the authorities of the treachery, of the trio indicates that the police force is loyal.

Invalid Burned to Death.

Louisville, Ky., Oct. 17.—Mrs. Emma Brownfield, an invalid, of 720 Sixth street, had been able to sit up for the first time in months, and her children left her alone in her room to go to breakfast. The smell of smoke attracted them, and when they rushed upstairs they found the bed clothes on fire and their mother dead. It is believed she was suffocated by smoke before she was able to cry out. How the clothes ignited is a mystery, as there was no fire near.

Oculist Swallows Paris Green.

Evansville, Ind., Oct. 17.—Max Hymason, an oculist, claiming his home at Louisville, took a large dose of paris green with suicidal intent and cannot live. He called on a patient and asked for a glass of water and took the poison. He then rushed from the house and started to run down the street. He became delirious, and it was with difficulty he was overpowered. It is said Hymason was recently divorced from his wife in Louisville.

Fatally Cut in Street Fight.

Passaic, N. J., Oct. 17.—There was a general street fight here, the quarrel starting over some remarks made about a young woman. A number of men were engaged in the dispute, and knives were used freely. During the fight Thomas Arrowitz of Second street received stab wounds from which he died. Two other men were cut, but not dangerously. The man who stabbed Arrowitz has not been captured. The police profess to know who he is.

Captured the Deserter.

Springfield, Ohio, Oct. 17.—Thomas C. Cheek, a deserter from Battery L, Fourth United States Artillery, stationed at Ft. Dupont, Delaware City, Del., was arrested here. When taken in charge he said: "I know I am up against it, but the chance to get away from the life of a regular soldier was worth the effort. I have been in the service of the United States for eight months, and the majority of that time was spent in the guard house."

Wants Uniform Railroad Rates.

Washington, Oct. 17.—President Ingalls of the "Big Four" and Chesapeake and Ohio Railroad was before the industrial commission. He asked the commission to recommend legislation which would protect the railroads and insure uniform rates, and said that if some action of the kind was not taken the railroad condition would become worse in the future than it has been in the past.

Two Victims of Typhoid Fever.

Marysville, O., Oct. 17.—Undertaker W. H. Morey, of this city, was called to bury the remains of William McAdow, a prominent farmer residing six miles north of town, who died of typhoid fever. When the undertaker reached the residence Mrs. McAdow also expired of the same disease within a few minutes after he arrived. Mr. McAdow was 65 and his wife 60 years old.

Bryan in Kentucky.

Bardwell, Ky., Oct. 17.—W. J. Bryan accompanied by Mrs. Bryan arrived here and Mr. Bryan made his first speech in Kentucky for Mr. Goebel, the Democratic candidate for Governor. His speech was listened to attentively by a large crowd.

Deposed By Chinese.

Chicago, Oct. 17.—A despatch from Tacoma to the Record says:

"New rebellions have broken out in Szechuan and Hunan. The Thibetan king at Tachienlu has abdicated. He was practically deposed by Chinese officials."

Brought Big Consignment of Silk.

San Francisco, Cal., Oct. 17.—The steamship Gaelic, from the Orient, has brought 3,000 bales of silk valued at $2,000,000 and $337,000 in specie.

No Labor Party in Boston.

Boston, Oct. 17.—The Central Labor Union of this city has defeated a resolution for the organization of a labor party this year.

Prove All Things.

This Old, Old Command is Easy to Fulfill in Plainfield.

To win a wager, an English Marquis stood on London Bridge and offered for an hour British sovereigns ($5) for five shillings ($1.25.) He could not find a customer. There are several good reasons why the ordinary mortal could not be induced to buy, but no reason can be given why Plainfield people will not accept the following convincing proof about Doan's Kidney Pills. Read this:

Mrs. I. L. Holmes, of 442 West Second street, says: "I used several boxes of Doan's Kidney Pills for backache and derived more benefit from them than from anything else. Before I tried this remedy I was bothered almost constantly with a severe pain across the small of my back, so bad at times that I thought I must give up. If I sat down and got up or was lying down and attempted to rise quickly, or retained one position for any length of time, sharp, acute pain always followed. I saw Doan's Kidney Pills advertised for such trouble and went to L. W. Randolph's drug store and got a box. They helped me from the first and I improved right along under the treatment. I recommend Doan's Kidney Pills to others who suffer from kidney complaint."

Doan's Kidney Pills for sale by all dealers; price 50 cents a box. Mailed on receipt of price by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name—Doan's—and take no substitute.

A Specific for Cancer.

"THE MISSISQUOI SPRING WATER has in some cases seemed to be of great benefit in arresting the progress of the disease. In a few instances, one of cancer of the breast and four of uterine cancer, the apparent effect *has been more striking than any results I have seen from any other agent.*"
Fordyce Barker, M. D.

"I can fully endorse all that my friend Dr. Barker has said about the MISSISQUOI SPRING WATER. I have prescribed it with benefit in a few cases of cancer. I also consider it a great remedy in all scrofulous diseases, and in syphilitic affections. In these diseases its true value has not yet been fully recognized by the profession. It is also an admirable remedy in affections of the digestive organs, and in some diseases of the kidneys."

POLITICAL LEADERS MEET.

Democrats Hold a Conference at the Planters' Hotel in St. Louis.

SENATOR JONES TALKS.

Declares That the Democratic Party Will Not Recede From Its Stand on the Money Question.

The Trust Question to Overshadow All Others in the Campaign Next Year—Republicans in Cleveland Arrive at a Friendly Understanding Among Themselves.

St. Louis, Mo., Oct. 17.—Senator James K. Jones, chairman of the Democratic National Committee, arrived in the city and went at once into conference in the Planters' Hotel with William J. Stone, of Missouri, Vice-Chirman J. G. Johnson, of Kansas, and Urey Woodson, National Committeeman from Kentucky. Mr. Woodson had to take the train for Louisville, where he is to meet William J. Bryan, and he left the Senator and Cabinet in conference behind closed doors. It was some hours later before the conferees separated.

When asked as to the purpose of the meeting Senator Jones said it was held simply that he might be informed as to the work done during his absence, and that no programme had been arranged, no campaign mapped out. As to the political outlook, Chairman Jones said that all his advices were favorable to the success of his party; that the campaign of 1900 would be conducted on lines laid down at Chicago in 1896, with this difference—that as new issues had arisen they would be taken up by the party with boldness. He said that the question of imperialism and trusts were grave ones which had to be met, and that as the Republican party had ever fostered the one and was responsible for the other, these issues, while not overshadowing the financial questions, would be made prominent in the approaching campaign. The Senator was careful to say that this was his individual opinion, and not the view of the National Committee, nor yet of the Democratic party. He stated further that at this time it was impossible to estimate the relative importance of these questions, but that it was his belief that the Democratic party would never recede from its position as to bimetallism until the question has been forever settled by a recognition of both gold and silver.

When asked as to the report that the transfer of Democratic headquarters from Chicago to St. Louis or Washington was contemplated, Senator Jones said that nothing had been done looking to such a transfer. While it was true that several had spoken to him relative to the suggested change there was such a wide diversity of views that he did not think that at this time a transfer would be made.

Secretary Johnson said that the conference was simply for the purpose of laying before Chairman Jones the action of the National Committee, taken at its recent meeting in Chicago, in order that he might be accurately informed as to the work done during his absence in Europe.

Grievances Are Settled.

Cleveland, O., Oct. 17.—The political skies here have been somewhat cleared by the selection of a Republican campaign committee. After months of faction, fights and party discord, the Republicans of Cuyahoga county have got together. For the time being all personal grievances will be put aside, and fancied injuries will be forgotten. The committee was announced on Monday. It is organized after a plan laid down by Senator Hanna. He made an honest endeavor for weeks to get the two warring committees together. When a point was reached where a compromise was almost in sight, it is said Eli West and Charles Gerrish, of Columbus, strong Kurtz men, arrived in this city, and then it was announced that there was no possible chance for compromise. The Kurtz people had not desired one, it was said.

Word was sent to Chairman Dick of the State Committee on Monday of the existence of the new local committee. The State Committee will make direct assignments of speakers to the new committee. Republicans all over the State have been more or less worried by factional troubles here, which it is believed are now practically over by virtue of Senator Hanna's intervention.

Mayor Jones of Toledo, the Independent candidate for Governor, was in town, and confidently predicted his election.

"We have not the least doubt of carrying Hamilton, Cuyahoga, Franklin, Lucas, Montgomery and several other of the large counties, where the manufacturing industries predominate, by large majorities, with the result of carrying the State by a "safe plurality," said Mayor Jones. "The outlook for a magnificent victory of the nonpartisan movement in the State this fall is very encouraging, despite the combined efforts of the old parties to disparage the movement and despite the reports of each, who are telling the people not to vote for Jones but for the Democratic or Republican candidate. This plainly shows that before the battle is half over they are both 'groggy' and almost ready for the knockout blow, which apparently will be administered to them this fall."

The Mayor said that the result of the first day's registration was favorable to him.

Death Caused By Lockjaw.

Valparaiso, Ind., Oct. 17.—Edward E. Larson, of Lake Station, aged 40, stepped on a nail a week ago. Lockjaw set in and he died last evening.

New Cruiser at Halifax.

Halifax, N. S., Oct. 17.—The new British war ship Tribune is here from England, via Bermuda, to relieve H. M. S. Talbot on his station.

TROOPS ATTACK APACHES.

An Incident That is Likely to Cause a Serious Uprising.

Pima, Ariz., Oct. 17.—Colored soldiers, of Company C, Twenty-fifth United States infantry, now stationed on the San Carlos Reservation, disguised themselves as Indians, and, slipping upon the Apaches camped near the post, attacked them with clubs and bayonets, precipitating a pitched battle.

The Indians thus suddenly aroused made a brave resistance, but were beaten with clubs until many were seriously injured, and despatches say four have died from their wounds. The survivors fled to the mountains.

An alarm was sounded at the post, but the majority of the soldiers escaped back without detection. Strenuous efforts are being made by the authorities to find the assailants. The garrison is under arms.

The attack was the outcome of an attempt by negroes to abduct two Apache women. The Indians tried to retaliate by assaulting a soldier.

The situation is grave, as the Indians are very angry, and are gathering in large numbers. A general uprising is threatened and the agents fear trouble. It is feared the burial of the dead may incite the survivors to attack the whites. A detachment of the Twenty-fifth infantry, stationed here, is held ready to be sent to aid the San Carlos garrison if necessary.

No Rain in Maracaibo.

Washington, Oct. 17.—Consul Plumacher writes the State Department from Maracaibo, Venezuela, Aug. 22, that no rain has fallen for months and the situation is becoming serious. The state of Zulia, he add, is not a manufacturing state, but relies entirely upon agriculture and cattle-raising. The price of every article of food has risen 20 per cent. during the last three weeks; meat alone is comparatively cheap, as the people have to kill their cattle. Everything is suffering for water except the cocoanut trees, which are flourishing. This industry, says the Consul, is undoubtedly profitable, as these trees seem to grow best without rain.

Chicago Loses Champion Beggar.

Chicago, Oct. 17.—Louis Joslin, the most noted beggar in Chicago, died in a cell at the Harrison street police station. During the last ten years his income it is estimated, has been not less than $10 a day. In his death the "barrel houses" that abound in Clark street, south of Van Buren have lost their best customer. Joslin was an epicure, and ate only in the best restaurants, his favorite food being porterhouse steaks, two inches thick, at $2.50 an order. He slept in cheap lodging-houses.

Liquid Air For Motive Power.

Cleveland, Ohio, Oct. 17.—Machines for making liquid air have been ordered from German makers by Charles F. Brush of this city, the inventor of the electric arc light, and their arrival is being awaited with interest by the scientific men of Cleveland. One of the machines is to be given to the University of Michigan, and the other Mr. Brush will palce in his laboratory in this city. He will seek to utilize the liquid air as a motive power.

Now She Asks Forgiveness.

Wilkesbarre, Pa., Oct. 17.—Mrs. Alice Jones and George Stevens have been put on trial for representing themselves as Mrs. and Mr. Jones and thus by forgery securing $600 on the husband's property. They fled to London, whence the State Department returned them. The woman is beseeching her husband to forgive her.

Dream Causes Suicide.

Freeport, L. I., Oct. 17.—As the result of a dream that she was to be taken to an asylum Mrs. Amanda Smith who is nearly eighty years old and slightly demented, attempted to end her life by drinking laudanum. Discovery of her act and the prompt arrival of a doctor saved her life.

Harvard Gets Another Gift.

Boston, Mass., Oct. 17.—A gift of $20,000 has been made to the Lawrence Scientific School of Harvard University for the equipment of a mining laboratory. The number of students in the Scientific School this year exceeds that of last year by eighty-one.

Venezuelan Rebels Win.

Paris, Oct. 17.—A despatch from Caraces, Venezuela, says that President Andrade is preparing to leave the city, and that the insurgent commander, Gen. Cipriano Castro, is master of the situation.

Will Visit Plague Districts.

Bombay, Oct. 17.—The viceroy of India, Lord Curzon, and his staff will soon visit the districts stricken by the plague and famine. Before starting they will be inoculated against the plague.

Child Killed By a Derrick.

Lorain, Ohio, Oct. 17.—Little Mary Walush, the three-year-old daughter of State Representative J. Walush, was caught under a falling derrick and crushed to death.

Selected a New Emperor.

Tacoma, Wash., Oct. 17.—Mail advices from Pekin say that the Empress Dowager has selected Pu Tsuan, the nine-year-old son of Tsai Lan, to succeed Kwang Hsu as Chinese emperor.

To Dine With Leopold.

Berlin, Oct. 17.—Gen. Benjamin Harrison and Mrs. Harrison are now visiting Amsterdam, Delft and The Hague. On Oct. 19 they will dine with King Leopold of Belgium at Brussels.

Texas Joins the Squadron.

Norfolk, Va., Oct. 17.—The battleship Texas, Capt. Sigsbee, which has been outside gunning for wrecks, has passed in Cape Henry to join the Squadron off Old Point Comfort.

New Minister to China.

Pekin, Oct. 17.—Yano Fumio, the Japanese minister to China, has been recalled. He will be succeeded by Mr Nishii, former Japanese minister to Russia.

A truth-loving and conscientious gentleman, well known to theatrical managers and others in New York City, relates his experience with Ripans Tabules as follows: "Having been troubled with rheumatism for the past ten years I was advised by one of my associates to try Ripans Tabules. Not at first fully appreciating his great faith in the article I paid no attention to what was said, but after a couple of months I decided to try this medicine, just to see if anything would come of it. The first month I had no marked relief, but after that the rheumatic pains gradually left me until now I am relieved of every one of those disagreeable sensations that come from rheumatism, and I earnestly assert my belief that any one who is troubled with that fearful and distressing scourge, which may have cost them thousands of dollars in doctors' fees and prescriptions, may have relief and cure at an expense so moderate as not to be worth counting. To those who were troubled as I was I say try Ripans for a month and you will be benefited; try them for three months and you will be cured." This man had suffered from rheumatism for ten years. His age is twenty-eight.
WANTED—A case of bad health that R-I-P-A-N-S will not benefit. Send five cents to Ripans Chemical Co., No. 10 Spruce Street, New York, for 10 samples and 1,000 testimonials. R-I-P-A-N-S, 10 for 5 cents, or 12 packages for 60 cents, may be had of all druggists who are willing to sell a standard medicine at a moderate profit. They banish pain and prolong life. One gives relief. Note the word R-I-P-A-N-S on the packet. Accept no substitute.

SHAFTER ON RETIRED LIST

But Will Remain in Charge of Department of Pacific.

San Francisco, Cal., Oct. 17.—General William R. Shafter who for a year has held positions of brigadier general in the regular army and major of volunteers, has been placed on the retired list of the regular army. Monday was General Shafter's sixty-fourth birthday, and he retires by operation of the law which fixes the age limit of officers of the regular army.

He will, however, remain in command of the Department of the Pacific until relieved by order of the President, or is mustered out on July 1, 1901, on which date the enlistment of all Spanish war volunteers will expire. The next volunteer regiment to go to the Philippines after the Thirty-first infantry, which has been in quarantine on Angel's Island, is the Forty-ninth infantry, a colored regiment. The regiment is expected from the South this week.

Tree Was a Record-Breaker.

Charleston, W. Va., Oct. 17.—In operating on Long Pole Creek, the Hamlet & Stroth Lumber Company discovered a poplar tree of unusual size standing in an isolated spot on the side of a small mountain. The tree was sound in every respect and three men were set to work to cut it down. It required an entire half-day's chopping to fell the tree. Its stump measured 83 inches across and the body of the tree was 90 feet in length. It took twenty-two men to turn over one 16-foot section of the log and required eight horses to "skid" it. The other sections followed the first to the sawmill and the veteran lumbermen were surprised when they found that 12,500 feet of merchantable lumber were in the big trunk. The figures look big, but the company says it is prepared to back the record against any emanating from the California lumber camps.

Had Many Blank Checks.

Pelham, N. Y., Oct. 17.—R. A. Mann, a well dressed, middle aged man, is locked up in the North Pelham police station, charged with forgery. In the arrest of Mann, the police believe, they have captured the man who has operated throughout Weschester county of late with great success. Mann was arrested by Detective R. H. Marks. When the prisoner was searched Detective Marks found a full forgery outfit in his possession. There were thirty blank checks upon the Citizens' National Bank of Yonkers, pen and ink, writing paper, revenue stamps, &c. Mann, who claims to have lost a fortune in Wall street, wore a gold watch and chain studded with diamonds, and a diamond stud in his shirt front, when arrested. He is held to await the action of the Grand Jury at White Plains.

Trade With Caledonia.

Washington, Oct. 17.—MacOndray & Co., merchants of San Francisco, have informed Paul Eugene Wolff, commercial agents at Noumea, in the French island of New Caledonia, that they are about to send a sailing vessel of 1,000 tons register every three months direct to Noumea, which they hope to keep employed regularly in the trade. This line of vessels is to supply the colony mainly with food products from California, which are to be consigned to an American commission house at Noumea. Mr. Wolff says that thus the principal obstacle to United States trade with New Caledonia is removed. United States shipping there, Mr. Wolff adds, will be greater than ever this year.

Plot to Murder Jiminez.

Porto Plata, Santo Domingo, Oct. 17.—Several persons have been arrested in the capital on suspicion of being implicated in the recently discovered plot to murder General Jiminez. Four men entered the house of Pedro Pepin, former Governor of Santiago, recently, and fired upon him, but did not hit him. The men escaped. Former Governor Pepin and General Pichardo, Governor of Monte Cristi, were notified by the government that it could not guarantee their safety if they remained in Santiago. Both promptly left the city, and have arrived here to embark for Porto Rico.

Ludlow Will go to Washington.

Washington, Oct. 17.—Major General William Ludlow, Military Governor of Havana, will receive leave of absence to visit Washington, in December, and one of his close friends in this city is authority for the prediction that he will not return to Cuba. Should this prediction prove well founded, General Ludlow's retirement from his present office will be due to events which throw light on the retirement of General Russell A. Alger from the War Department.

Dysentary Epidemic in Japan.

Chicago, Oct. 17.—A despatch to the Record form Tacoma, Wash., says:

"A terrible epidemic of dysentery is sweeping over Japan with fatal results. Official statistics show that out of 50,000 persons attacked to Sept. 14 almost 12,000 have died. The authorities estimate that 100,000 cases are to be recorded by the end of October."

England Getting War Supplies.

New Orleans, Oct. 17.—The British transport Carinthia has just arrived in port. She will load with mules and army supplies and sail for South Africa as soon as possible.

Crushed to Death By Turn Table.

Valparaiso, Ind., Oct. 17.—Reuben S. Peters, aged 6 years, while playing at the turn table at the Grand Trunk Station, was crushed to death.

McCoy and Maher Matched.

New York, Oct. 17.—Kid McCoy and Peter Maher will fight for a purse of $20,000 before the Coney Island Athletic Club on December 14.

THE MARKETS.

New York, Oct. 17.—Prices at the opening of the stock market to-day in most cases were advanced. The trading was slow and hesitating, but it increased in volume later in the day, and in some cases the gains were substantial.

Chicago, Oct. 17.—Closing quotations: December wheat 71½, December corn 31, December oats 22¾.

IN POSSESSION OF BOERS

The Famous Diamond District Infested By an Army of 10,000 Men.

CECIL RHODES SHUT IN

Both Orange Free State Burghers and Boers in Control of important Railroad System.

Town of Kimberley is Cut Off From Communication—It Was Only Last Saturday That Rhodes Said Kimberley Was as Safe as Piccadilly. Now He is in Peril.

London, Oct. 17.—The war news is still in the region of surmise. There are rumors that the Boers have been repulsed at Mafeking and are attacking Vryburg.

A Cape Town paper has a dispatch from the Orange River stating that the telegraph wires have been cut between Vryburg and Kimberley, and it is believed that the Boers are taking advantage of the presence of a large gathering of disloyal farmers at Vryburg to attack the town, hoping that the farmers will assist them against the British.

The same dispatch says that the British force at Kimberley is confident of

CECIL RHODES.

its ability to hold out, but urges the immediate dispatch of a relief force.

The question of a possible rising of the Dutch farmers in the northern portions of Cape Colony is important.

The Daily Mail's correspondent at Colesberg has been inquiring regarding the matter, and, on the whole, thinks the chances are against a rising. He bases his opinion on the prospect of good crops after four lean years, which he believes will predispose the farmers to peace. Nevertheless, there is serious disloyalty and much anti-British agitation in these districts, while the Free State Boers threaten an immediate invasion of Colesberg and Aliwal North.

Cape Town, Oct. 17.—Couriers have pierced the line of the Boers surrounding Kimberley and telegraphed that the famous diamond district was completely infested by an army of 10,000 Boers and Free State burghers. Natives are fleeing from the district. They report heavy firing at Kimberley. Half of the army of invasion is in the main body attacking Kimberley. The others are broken into detachments from 500 to 1,000 men to capture various strategic points.

The Buluwayo Railroad from the Orange river to Kimberley, 80 miles, is in complete possession of the enemy. Bridges have been blown up and miles of track destroyed to prevent the sending of reinforcements from De Aar Junction. Four thousand troops are penned in with Cecil Rhodes at Kimberley. There is now no chance to send troops to their relief. In fact there are not enough soldiers in Cape Colony to match the emergency without stripping all the forts of their garrisons. Fear of an uprising by the thousands of Boers throughout the colony makes it imperative to keep strong forces in the forts, hence the widespread fear of disaster to the garrison in the diamond district.

Strong earthworks and a group of forts surround Kimberley, and the best that is hoped for is that the British will be able to repulse assaults and hold out until troops now on the way from England arrive to send a powerful army to their rescue.

London, Oct. 17.—A semi-official despatch from Cape Town says:

"Cecil Rhodes and 4,000 English are cut off and surrounded at Kimberley. The Boers and Orange Free State forces, numbering about 5,000 men, it is believed here, have attacked. The defense of Cecil Rhodes and $50,000,000 English capital will be as desperate as the attack. Boers of the Orange Free State are in complete possession of the Railway from Orange River to Kimberley. The Dutch Ministry of the Cape Colony has resigned. The imperial authorities requested the resignation upon the Ministry's refusal to call out volunteers for the defense of the colony." The last message received from Kimberley before communication was cut off read: "All well."

President at Milwaukee.

Milwaukee, Oct. 17.—The special train bearing President McKinley and party arrived in this city Monday evening. It was the first visit to Milwaukee of a Chief Executive of the Nation in a decade and the greeting here from many thousands of persons was most enthusiastic. As the train entered the depot a battery fired the President's salute of twenty-one guns. With the battery's salute as a cue every steamboat whistle and everything else that could make a noise joined in the greeting. The President and party were escorted to carriages by the Reception Committee and taken to the Hotel Pfister, preceded by a military escort.

After an hour's rest the President's party re-entered carriages and were taken to the Deutscher Club, where a public reception lasting one hour was held. In that time, it is estimated, the President shook hands with 3,000 persons. Following the reception the party returned to the Hotel Pfister to participate in a banquet.

WATER SUPPLY—Artesian wells; forty-five miles of mains.
TAXABLE VALUATION—City, $8,000,000; borough, $2,250,000.
COUNTY—Plainfield in Union; North Plainfield in Somerset.
POPULATION—City and borough, 20,000; immediate suburbs, 5,000.
FIRE DEPARTMENT—Eight companies; paid drivers; four departments.
ELECTRIC LIGHT—Incandescent and arc in every part of city and borough.
STREET RAILWAY—Nine miles of track; cars run every 12 minutes from 5:30 a. m. to 12 p. m.
RAILROAD—Central Railroad of New Jersey; 24 miles from New York; 65 miles from Philadelphia; 45 minutes from New York; four depots; commutation ticket to New York $80 a year.

COMING EVENTS.

October 20-22—State conference on boys' work of the Y. M. C. A., of New Jersey.
October 17—"A High-toned Burglar at Music Hall.
October 18—Republican county convention at Somerville.
October 19—Common Council meets.
October 19—Somerset Democratic county convention.
October 19—Firemen's parade at Somerville.
October 20—Broom and brush sale at Crescent Avenue Presbyterian church.

Flat Commutation Rates.

After much agitation of the subject and considerable urging on the part of its patrons, the Delaware, Lackawanna and Western Railroad has decided to adopt a flat rate for commutation tickets, which will remove the inconvenient sliding scale that has been in effect for years. This is an especially advantageous concession on the part of the railroad to the commuter element, as all who do business in New York and live in New Jersey will appreciate without argument. Under the old scale if a man missed a month he would have to begin at the first rate again, but now every one will be on the same footing. The sale of yearly tickets will be discontinued, and tickets may now be purchased at the New York stations as well as at the local offices.

The flat rate for commutation tickets is not only a convenience to the commuter of today, but is a feature that will tend to bring more people to reside for temporary periods in the towns along the line of railroad that maintains the plan. The sliding scale of rates, beginning with the first month's price of a ticket considerable above the average for the year, is said to be a deterrent to many who would like to spend from one to three month's in suburban towns. It is to be hoped that the Central will follow the action of the Lackawanna in establishing the flat rate for commutation tickets.

The third ticket foolishness of the Middlesex County Democrats is due to the failure of the New Brunswick Common Council to grant a saloon license to one Howley. It seems that Howley and a few political consorts nominated an independent ticket in the Sixth ward at the last municipal election. They made such a fight that the regular nominees nearly failed of election. In order to punish Howley the Democratic Council refused to renew his license this year. Howley and his friends considered this as an effort on the part of the machine to secure revenge. The nomination of a county ticket is the way they are slapping back, and the movement, though confined to New Brunswick, will take many Democratic votes, thus helping the chances of the Republican ticket.

DR. HERZL, LEADER OF THE ZIONIST MOVEMENT.
Will prophecy be fulfilled and the Jews return to Palestine? The third Zionist congress, recently held at Basle, gave forth a hopeful tone. Dr. Theodore Heral is president of the congress and leader of the movement. The Jewish Colonial Trust Company, with general office in London, reports a large total subscription to the fund which is to be used in purchasing Palestine from the sultan of Turkey.

There is something strikingly peculiar about the preliminary campaign in Union county. It is a fact that not a solitary soul has mentioned "Farmer Orator" Martine for any of the nominations to be dealt out by the Democrats this year. This is a political novelty, and appreciated by none more than the "Farmer Orator" himself, who, though as sturdy an advocate of Democracy, has passed that period that is charitably described as being "in the hands of his friends."

There is an editor not a thousand miles from Plainfield who have more friends by applying the old axiom "it is better not to know enough than to know too much that is no so" when he assumes to speak for some of the Republicans of Union county.

Today is the first day of registration in this city. The Boards of Registry will set at the various polling places from 10 a. m. to 9 p. m. Every voter should see to it personally that he is registered.

Congressman Daly, in deciding to abandon the project of a rump State committee for the Democrats, has displayed a timely appreciation of knowing when he is whipped.

It is going to require some pretty sharp political practices to untangle the snarl that both political parties in Somerset county are in.

If Restauranter Childs is named for Senator by the Somerset Democrats he ought to be able to do the Republicans to a brown.

Those whiskers of Oom Paul must be of the Kilkenney kind—ready for a fight at the drop of the hat.

Now there is going to be some interest in the yacht races—if the wind keeps up.

Registration should not be neglected by any voter.

Election is three weeks from today.

WHAT THE SHEARS FIND

Editorial Comment From Other Papers of Interest in Plainfield.

Senator Reed on Saturday demonstrated his power in Somerset and has in his own hands a renomination for Senator, but he has repeatedly declared that he does not seek another term at Trenton, where he has served with such honor to himself and such satisfaction to his party, and where he has been honored with the highest office in the gift of the Senate. It is therefore quite possible, or indeed probable, that he will throw his weight in favor of Joseph S. Frelinghuysen, at once placing his mantle upon worthy shoulders and taking away from the opposition every possible excuse for disaffection or lukewarmness in the campaign. This would be an excellent political stroke, especially in that it would make for party harmony, which would be a greater honor to Senator Reed than his own election.—New York Tribune.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

A California exile from New Jersey has been living for the last score or more of years on the credit of having been dead. Shortly after his departure from home his relatives at the East were advised of his dissolution and sent money to bury him, forwarding subsequent installments year by year to keep his grave in suitable care and decoration. On this original fund and annuity he has managed to eke out a tolerable living, and to an outward seeming is worth a dozen dead men yet. New Jersey in all likelihood knew what a loss she sustained in the exodus of John R. Sickley, somewhile of Camden, but now that his novel and ingenious scheme to get a living out of the reputation of his death is made public she will become tardily aware of it, perhaps recalling him and turning his financial and business ingenuity to account in other directions. He is much too smart to remain in exile and obscurity, and apparently too smart to die for many an olympiad to come.

* * * * *

Reports from the Isle of Luzon, in the Phillipines, show that Eighth Battery F, 5th U. S. artillery, is being engaged daily, and is losing a large number of men. This is the battery that received notable distinction and much commendation at Washington for its gallant work at Biquara, El Caney and San Juan in Cuba last year. When the intrepid artillery men returned to this country William F. Ford, the well-known newspaper man of this city, was among the survivors. The war department ordered the battery to Fort Hamilton for a well earned rest and it was expected then that they had done enough fighting to be quartered at Fort Hamilton for some years. "Billy" Ford, finding that the chances for more fighting were mighty slim, took his discharge soon after he recovered from his injuries, and went over to New Brunswick where he married the girl he left behind and resumed his newspaper work. A month or so later Eighth Battery F was ordered to Manila, and Ford was heart broken. He had exhausted every effort before leaving the army to see if his battery would be called on and as it did not seem possible he donned civilian clothes. It is rumored Ford walks up and down and swears when he reads of his old battery getting into these fights and realizes the yoke of wedlock is on him hard and fast. Poor Ford, he was a gallant fighter but could not live without love and his soldier career is at an end. He ought to be satisfied though he did his share.

Bismark's Iron Nerve

Was the result of his splendid health. Indomitable will and tremendous energy are not found where Stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25 cents at L. W. Randolph's drug store.

Congratulations in Order.

Congratulations are being offered to Mr. and Mrs. Wm. H. Chamberlain, of Westfield. It is a fine boy. Mrs. Chamberlain was formerly Miss McIntyre, of North avenue.

—Routine business was transacted at the meeting of Queen City Lodge, I. O. O. F., last night.

GRAIN-O BRINGS RELIEF

to the coffee drinker. Coffee drinking is a habit that is universally indulged in and almost as universally injurious. Have you tried Grain-O? It is almost like coffee but the effects are just the opposite. Coffee upsets the stomach, ruins the digestion effects the heart and disturbs the whole nervous system. Grain-O tones up the stomach, aids digestion and strengthens the nerves. There is nothing but nourishment in Grain-O. It can't be otherwise. 15 and 25c. per package.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

AMERICAN STEAM LAUNDRY,

-:- A MOST -:-
Extraordinary Sale
of Fine Clothing.

A Sale that gives you an opportunity to buy your fine Fall and Winter Suits and Fall and Winter Overcoats and Trousers

At ⅓ the Manufacturer's Prices.

HERE IS THE STORY:

We closed out the entire stock of a large manufacturer of few days ago securing over $6,000 worth of the finest and most up to-date men's dress suits, business suits and trousers at a mere fraction of their value and we will place them on sale this Saturday morning.

Over 500 styles in suits and overcoats to choose from; this is without a question the greatest offering in men's apparel Plainfield has ever seen, and one that every man and woman intending to buy clothing this season should take advantage and note these extraordinary prices.

MEN'S FALL COVERT TOP COATS—Very stylish in appearance, made of strictly all wool materials, regular $10.00 garments, at this sale $3.75.

MEN'S STRICTLY ALL WOOL TOP COATS—Exceedingly stylish, guaranteed to be worth $12.50, will close out what is left at $5.00.

MEN'S ALL WOOL BUSINESS SUITS—Made of black or blue cheviots and mixed cassimeres. These suits are made up in this season's styles and patterns and would easily command in other stores from $8.00 to $10.00; we will sell them at an unusual low price, $3 50 and $3.90.

MEN'S SACK COAT SUITS in striped worsted and checked cheviots, neat, stylish and well made, easily worth $15.00, your selection at $6.50.

AUCTION SALE
—OF—
Desirable Residence,
at Plainfield, N. J.

The sale will take place on the premises,
Thursday, October 19, 1899,
at 2 o'clock in the afternoon.

This property was the residence of the late David M. Demarest, and is located corner Crescent avenue and East Seventh street. The house contains 14 rooms, and all modern improvements, including steam heat and electric lights, is substantially built and in good repair. The lot has a frontage of 200 ft. on Crescent ave., and 119 ft. on Seventh St. The lot may be divided so as to make 2 lots on Crescent Ave., each with a frontage of 100 ft., with the present house standing on the corner lot. The location is one of the choicest of all the choice locations in Plainfield, is within 5 minutes of railway station, and is convenient to churches and markets and all lines of transportation. There is stable room for 4 horses. Terms of Sale—10 per cent cash, balance on delivery of deed, 30 days after sale.

For full particulars inquire of

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Daily Press.)

Dunellen, Oct. 17—The residence of J. B. Coriell on Grove street was entered by burglars early Sunday morning. The midnight mechanics effected an entrance by forcing a window. They secured about $30 and a gold watch and Masonic charm. Nothing else was taken. Several suspicious characters were seen about the place Saturday. Early Sunday morning a neighbor of Mr. Coriell heard a horse and wagon driven away from the vicinity. There is no clue to the perpetrators. Mr. Coriell values the charm highly. He says that if the burglars will return the charm they may keep the money and watch.

Miss Ruth Williams, of Fairview avenue, whose serious illness was mentioned in yesterday's Press, died Sunday afternoon of diabetes, aged about 28 years. She will be buried tomorrow. Rev. Dr. Jamison will officiate at the funeral. Burial will be at Westfield. The deceased had been ill but a few weeks and only seriously ill for a few days. She had been under the care of Dr. Whitford. Miss Williams was an exemplary young woman and was popular with may people. She is survived by her mother and two brothers.

The new waiting room at the terminus of the trolley lines is about completed. It was built by Messrs. Woodhull & Martin, and is a credit to their enterprise. It is much appreciated. The structure is a small affair inclosed on the north, east and west sides. The south side is entirely open. Around the sides of the interior is a row of benches. The building will not be heated.

The test of the new water works last Saturday afternoon was not quite as satisfactory as had been at first reported. An attempt to throw a solid stream any distance was an utter failure It is understood, however, that the fault was at the pumping station, one of the pumps being out of order. It is possible that another test may be attempted later.

Wm. G. Holton Council paid a visit to Somerville Council last evening. The Council, accompanied by the New Market members, went by special car. They were given a royal good time.

Prof. Messeroll has moved his family into the house on Church street vacated by Prof. Morris, whose place he took as superintendent of the public schools.

Miss Edna Vail's many friends will be pained to learn that she is confined to the house with an attack of pleurisy.

The Board of Registry has been in session today at the borough hall.

PLAINS AND FANWOOD.

(Special Correspondence of The Press.)

Scotch Plains, Oct. 17—Now that we have an ordinance forbidding the posting of advertisements along the fences, electric light poles in the village, it would be a good thing if there were several bill boards erected through the town.

Excelsior Hook and Ladder Company held their regular monthly meeting in their rooms last night. Routine business only was transacted.

Mr. and Mrs. Edward Emery and daughter, who have been visiting Mr. Emery's parents, have returned to their home is Bayonne.

The residents of the 'Plains would appreciate a Woodhull & Martin waiting room at this end of the trolley.

Miss Nellie Hollingsworth led the Epworth League meeting in the Methodist church Sunday night.

Mr. and Mrs. Charles Grant spent Sunday with Mrs. Grant's parents, Mr. and Mrs. T. M. Paff, Sr.

Mr. and Mrs. George Goodbrough have returned from a week's stay with relatives in New York.

Mr. and Mrs. John Good, who have been visiting relatives in Brooklyn, have returned home.

Mr. and Mrs. Wm. Bacon, of Plainfield, were the guests of Miss Eva Baker, Sunday.

Miss Sadie Reger has returned from a pleasant visit with her brother in Morristown.

WESTFIELD

(Special Correspondence to The Daily Press.)

Westfield, Oct. 17—The Westfield football team went to Bayonne Saturday afternoon and was defeated by the Viking team of that city by a score of 10 to 0. The game broke up in a free fight, the Westfielders claiming that they were not given a fair show by the home team which allowed the spectators to crowd on the field whenever the Westfield team had the ball and interfere with the play.

The Board of Education will hold a meeting at the Prospect Street School building this evening for the purpose of naming a date on which to hold a special school meeting when they will ask the voters of the township for an approporiation of $40,000 with which to build a large school building on the Henry property on Elm street.

Fireside Council, Royal Arcanum, will celebrate its seventeenth birthday anniversary on Thursday evening by given a free entertainment in the Westfield Club hall. An excellent programme, made up of professional talent from New York, will be presented.

We give no rewards. An offer of this kind is the meanest of deceptions. Test the curative powers of Ely's Cream Balm for the cure of catarrh, hay fever and cold in the head and you are sure to continue the treatment. Relief is immediate and a cure follows. It is not drying, does not produce sneezing. It soothes and heals the membrane. Price 50 cents at druggists or by mail. Ely Brothers, 56 Warren street, New York.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders.

Tunis D. Peer, formerly of this city, but now of Boonton, N. J., is very ill at his home with gangrene of the foot and his physicians have given up all hopes of his recovery. He is eighty-six years old. Two months ago he spent some time with friends in Plainfield.

Resumed Teaching.

Miss Anna O. Marsh and Miss Minnina S. Marsh, of 915 Madison avenue, have resumed the teaching of music for the fall and winter months. They make a specialty of the virgil clavier method, and they also teach sight reading and ensemble playing. Classes for elementary work have been formed and for vocal sight reading. Terms will be made known on application.

From Case to Desk.

Owen Smith, of Watchung avenue, is now a reporter on the New York Evening Sun. He commenced work on the Sun as a typesetter.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free.

-:- DIRECT -:-
from the Manufacturer to the Consumer.

For the past three weeks we have been very busy bringing from our factory bundle after bundle of our Fall and Winter stock and arranging them on our tables. We didn't say a word about them because we wanted to display our line in full and then scream.

NOW WE'RE READY TO SCREAM.

We never scream unless we have something to scream about, and we won't scream about anything that we can't substantiate. We are showing as extensive a line of clothing as any store in the vicinity, and the prices are right. The cut and finish is there and all extra profits are off. Besides our staple blacks and blues, we are showing a variety of up-to-date worsteds, with and without double breasted vests in stripes, checks and plaids. Everything that the designers art and fine tailoring can do is in them. We are proud of our stock and want everybody to see it. Come and look at it whether you want clothing or not, you will be treated right.

Below We Quote a Few Prices:

Men's Black and Blue Cheviot suits 2.75, 3.75, 4.25, 7.25, 8.00 and 9.00.
" Fancy Cheviot suits 3.25, 4.25, 5.00, 6.00, 8.50.
" Fancy Worsteds, elegant 7.50, 9.75, 10.50, 11.00.
Boy's long pant suits 3.00 to 8.75 Child's knee pant suits 95c to 4.00.

Lokal-Nachrichten aus der alten Heimath.

Oldenburg.

Wildeshausen. Der 13jährige Sohn des Arbeiters Pagelers hatte beim Spielen seinen Kopf durch eine aus einem Bettquast gebildete Schlinge gesteckt. Als Erwachsene von einem jüngeren Bruder herbeigerufen wurden, fanden sie den Knaben anscheinend leblos vor. Erst den andauernden Bemühungen des Arztes gelang es, wieder die Lungen in Thätigkeit zu bringen.

Braunschweig. Anhalt.

Braunschweig. Die hier stattgehabte Hauptversammlung des Gustav-Adolf-Vereins beschloß, die große Liebesgabe im Betrage von 20,691 Mark der Gemeinde Olmütz zuzuwenden; Troisdorf soll 6700, Leobschütz 6800 Mark erhalten. Als Ort der nächstjährigen Versammlung wurde Königsberg i. Pr. gewählt.

Jesznitz. Hier wurde der sozialistische Stadtverordnete Uhrmacher Klotzsch verhaftet, weil er Markstücke nachgemacht und in Leipzig verausgabt hatte.

Mecklenburg.

Dömitz. Unweit von hier schlug auf der Elbe in Folge eines Sturmes ein mecklenburgisches Fischerboot mit fünf Insassen um. Zwei Personen konnten sich retten, drei ertranken.

Großherzogthum Hessen.

Darmstadt. Dem zum Besuch des hiesigen Hofes gekommenen Zaren ist auf Jagdschloß Wolfsgarten ein kleines Abenteuer zugestoßen. Als er in Civilkleidern im Schloßpark lustwandelte, wurde er von einem Gendarm aufgefordert, sich zu legitimiren. Als der Gendarm von seinem Verlangen nicht abstand, wurde der Zar ärgerlich und rief seinen Schwager, den Großherzog, herbei, dem der Gendarm erklärte, daß er lediglich auf Grund seiner Instruktionen gehandelt habe.

Mainz. Die schon von der ehemaligen hessischen Ludwigsbahn geplante Linie Mainz-Wiesbaden, die seinerzeit an den hohen Kosten für die geforderten fortifikatorischen Werke scheiterte, soll nun doch zur Ausführung kommen, und zwar nach Fertigstellung der Wiesbadener Bahnhofsanlagen. Die Entscheidung des Eisenbahnministeriums wurde wesentlich gefördert durch strategische Gründe, die es sehr wünschenswerth machen, daß diese Linie gebaut wird. Damit erhält Mainz eine dritte feste Brücke über den Rhein.

Offenbach. Die Stadtverordneten beschlossen eine Abänderung in der Ausführung des Hafens. Darnach soll die nördliche Hafenbreite mit 40 Meter tiefen Ausladeplätzen, das linke Ufer mit einer hochwassersicheren Quaimauer versehen und der Hafen in seiner ganzen Länge gleichmäßig ausgebaggert werden.

Bayern.

München. Die Militärverwaltung hat der Stadt angeboten, den Bau der von der Stadt an Stelle der weggerissenen Bogenhausener Brücke zu errichtenden Nothbrücke durch Pioniere—als Uebung für diese, dann um der Stadt entgegenzukommen—ausführen zu lassen. Die Stadtverwaltung hat das Anerbieten angenommen. Die Nothbrücke kostet 90,000 Mark. Die Pioniere erhalten von der Stadt Zuschläge zur Löhnung.—Für den Stadtbezirk München allein stellt sich nach amtlicher Abschätzung die Schadensumme der Hochwasserverheerung auf den außerordentlich hohen Betrag von 4,500,000 Mark.

Augsburg. Anläßlich seines 25jährigen Dienstjubiläums übergab der technische Direktor Herr Franz Hausenblas der Arbeiter-Unterstützungskasse der Maschinen- und Bronzewaarenfabrik L. A. Riedinger hier die Summe von 2000 Mark.

Burgbernheim. Die Bohrungen, welche von der königlichen Bergbehörde seit einigen Wochen in nächster Nähe von hier vorgenommen werden, haben ergeben, daß dort ein Steinsalzlager von beiläufig 20 Meter Stärke ist. Es werden nun die Bohrungen etwas entfernter vorgenommen, um die Ausdehnung des Salzfelsens zu ermitteln.

Kempten. Im hiesigen Schlachthause verunglückte ein Metzgerbursche Namens Karl Bergmüller aus Bamberg auf eigenthümliche Weise. Er war damit beschäftigt, einen Stier zu tödten. Das Thier stürzte nach dem üblichen Betäubungsschlage zusammen und dabei durchbohrte ein Horn den rechten Fuß des Fleischergesellen.

Neustadt a. S. Der Viehhändler S. Rosenbaum wurde bei Heustreu auf dem Rade vom Schlag gerührt und verschied bald darauf. Er war Veteran von 1870—71 und ein allseits sehr geachteter Mann.

Rosenheim. Die Kapeller'sche Bierbrauerei des Herrn Killermann wurde durch Justizrath Heilmaier um den Preis von 76,000 Mark von dem Hopfenhändler Schopflecher ersteigert, der nach vier Stunden das Objekt um den Preis von 125,000 Mark an die Gebrüder Vollnhals in München verkaufte. Der Kauf wurde sofort verbrieft.

Ladie Desiring . . .
KNIFE-PLEATING OR PINKING
done will please leave orders with Mrs. Chas. Brownell, 203 Watchung avenue, and it will receive prompt attention. MRS. FORCE.

SHAMROCK AND COLUMBIA

Contest Between Them Eagerly Matched For on Two Continents.

We have something very exciting to look forward to in the way of sport this summer. We don't mean to be invidious when we say that the public eye will simply glance at polo and baseball and rowing matches and golf "and all like that, you know," and rest on the white sails of the Shamrock and the Columbia.

Every word of description of either craft is eagerly read, and every prophecy about the winner is seriously pondered. Curiosity is on tiptoe, and we are all wondering what will be the result. Sir Thomas is bound to take the cup home with him, and Mr. Islin and his confreres are bound to keep it in this country. Two continents will watch the race, and we may rest assured that the contest will be conducted in the broad and generous spirit of true sportsmanship and that the defeated party will be the first to offer congratulations to the victor. Under such circumstances we can afford to look forward with high anticipations.

The Columbia has been doing some good work. She can outstep the best boat that has yet appeared in these waters. The builders promised that the new yacht should be better than anything that was ever launched from their yard, and, though we can't always take a builder's word, they seem to have fulfilled their contract. On and off the wind the Columbia has done herself credit, and the acounts of her speed which have reached England have caused no small degre of anxiety. She represents about the best that we can do at the present moment, though we have no doubt that should she be beaten we should put on our thinking caps and design a craft that would be able to bring the cup back.

And, by the way, if the Shamrock shows her stern to the Columbia we shall not fall into despair. It is well to be prepared for all possible emergencies, and a victory on the part of the Shamrock—well, it would give us a bad wrench, to be sure, but it would start the clockwork in the American brain, would give us an impulse, an incentive, an ambition to perform a miracle in the way of yacht building. We should be resigned to the loss of the cup, but should regard it as only temporary. However, as we are not astrologists or palmists we will not make prediction.

As to the Shamrock, she has done all that was expected of her, perhaps more, and everybody on the other side is expectant and hopeful. She is a beauty, but whether she will illustrate the motto that "handsome is that handsome does" at the critical moment is an unknown quantity in the problem.

We want favoring breezes and plenty of them, a sea that will test the combatants, and then may the best boat of the two take the prize.

A Novel Tournament.

A novel revolver tournament is about to be started between twenty experts of this country and twenty experts of France. Negotiations have been going on for some time for this match and the terms have practically been agreed upon. The tournament in this city will be shot at Capt. James S. Conlin's gallery, at Broadway and Thirty-first Street. Capt. Conlin and Gustinus Renette of Paris have been corresponding for some time, and it is expected that the conditions and the teams will be announced in a short time. The match will be at ranges varying from 16 to 25 meters; each contestant will be allowed six shots, and after all have shot the targets will be scrutinized by judges appointed for each side, and then compared. The French target will be used. Among those who may be on the American team are Pierre Lorillard, Jr., Dr. R. H. Sayre, J. T. B. Collin, George Bird, Clarence Mackay, Dr. F. C. Adams, Effingham Wilson, Theodore E. Beck, Dr. W. B. Pryor, W. M. Chase, Capt. H. C. Du Val, Col. N. B. Thurston, L. C. Bruce, Sumner Paine, and A. A. Webber.

Ryan May Meet Choynski.

Tommy Ryan may be matched to meet Joe Choynski in the near future. The latter, through the Colorado A. C. has challenged the Syracuse middleweight, and if arrangements are made to suit Ryan articles of agreement will be signed and a date fixed for the fight. Ryan has expressed his willingness to meet the clever Californian heavyweight, and in answer to his challenge has wired the Colorado A. C. asking what purse will be offered, and the amount of money he will be allowed for transportation there. He is now awaiting an answer. A bout between Ryan and Choynski would arouse much interest throughout the country, but there is much difference of opinion as to Ryans chances against a heavyweight. Tommy's friends believe he would experience no more trouble in besting Choynski than he would a man of his own weight. Ryan may be ambitious in the Choynski direction, but there doesn't seem to be any good reason for his going after heavyweights when there are men of his own weight idle and only too anxious to meet him.

Bad Year For Champions.

Superstitious followers of pugilism are pointing to the fact that this is a bad year for champions. They base their opinion on the fact that two champions have been dethroned within the past two months. The first was Bob Fitzsimmons, who fell before Jim Jeffries at Coney Island, June 9; the second was Kid Lavigne, whom Frank Erne won from at Buffalo, N. Y. If any one wishes to attach any significance to these two defeats, it may be interesting to figure just where the champions to fight this year will land. In the most important battle Jeffries is to meet Tom Sharkey. Will the sailor be the winner? Fitz, who still holds the middle weight honors, is to defend them against McCoy. Will he lose again? Pedlar Palmer, the bantam, may fight Terry McGovern. Will the Brooklynite come out on top? There is only one thing that tends to knock the superstitious skyward, and that is that Peter Maher is still champion of Ireland, notwithstanding the fact that he met Mike Morrissey.

"Willie, I hate to whip you. It hurts me worse than it does you."

"Let ma do it, then. She can't pound hard 'nough to hurt me nor her either."

There's one really famous range in the world—"The Portland"—over 10,000 of them in use.

ABOUT WOMEN.

Notes of Interest for and About the Fair Sex.

Amelia Judson, a Cornell graduate, runs a sawmill in Arizona.

Maud Powell, the violinist, began to study when she was eight years old.

Mrs. Oliphant published one hundred novels as well as various miscellaneous works.

Mrs. General Grant and her daughter, Mrs. Nellie Sartoris, both have wealth, derived from the money left by the General and the vast sums realized from the sale of his works. Mrs. Sartoris is extremely fascinating, and has beaux by the score.

Mrs. Roswell P. Flower is considered by many the richest widow of Gotham. Her money is in real estate and in railroads, two remarkably safe havens for wealth. Mrs. Flower keeps house in magnificent style in Fifth avenue, and is only a short distance from Mrs. Calvin S. Brice, whose fortune, though less than was anticipated, is still very large. Mrs. Brice is a noted entertainer and homemaker, and, all through this faculty, carried herself and her daughters into Eastern society.

For the New Baby.

Fashions for the wee babies are now more sensible than ever before. The dreadful bellyband has been done away with, and now baby wears the softest, finest little merino shirts against the tender skin, and there are no wrinkled flannel bands to worry and fret the small morsel of humanity.

There are dainty crocheted worsted sacks and prettily embroidered merino ones, as well as beautiful silk sacks.

Then, in imitation of the foreign baby comes the "en maillot," or pillow, as it is called here, upon which baby makes its first acquaintance with society and upon which it is brought forth to be shown to family friends and to receive the audible adoration of all mother's woman friends. These pillows are covered with sheer lawn cases, with delicate lace ruffles and pretty pink or blue bows, according to baby's sex. Pink must be the prevailing tint for a young man and blue for the girl baby.

Baby trunks are now shown for holding the most needed articles of the infantile wardrobe, and are substituted for the old fashioned basket by many.

In the matter of gowns, slips, wrappers, cloaks and caps there is little change, except that there seems to be a superabundance of lace and sheerest lawn. The little slips and robes are made with an eye to the comfort of baby more than used to be the case. There are no high neck frillings of lace and embroidery, everything is low and soft and pretty, and the baby of to-day is a much luckier person than the baby of a few years ago.

How to Cook Onions.

Onions are not only delicious when properly prepared, but they are said to be almost the best nervine known. Nothing will so quickly relieve nervous prostration. They are less digestible raw, and yet many persons eat them very freely in that state without discomfort. Onions should be boiled from one to two hours. If they are peeled under water tears will be avoided. After the onions are boiled until tender drain and pour them over a white sauce, or melted butter, pepper and salt. If browned onions are desired for garnishing, place them, after they are boiled tender, in a pan; sprinkle with salt, pepper and a little sugar and put them in a hot oven to brown.

Chicken and Beans.

Prepare a chicken as for fricassee, put it into a kettle, with just water enough to cover it, salt and add one small onion. Put into a saucepan one pit of shelled beans with a few pieces of salt pork, cut very small and cook until tender. When the chicken is nearly cooked pour in the beans and cook for two minutes. Remove the meat to a large platter and to the beans and gravy add a teaspoonful of flour, mixed in milk. When mixed pour over the chicken and serve.

Woman and Lady.

Most women do not like to be called lady. So much has been said and written about the use of this word that it has come to sound insipid to say the least, before the broader term woman. It is related that a woman carried her dislike for it to such an extent that she gave as her reason for forsaking an otherwise irreproachable marketman that she could not endure his frequent "Yes, la-ady," and she seemed to feel this an all-sufficient reason.

How to Boil Ham.

When boiling ham put in a cup of black molasses, one onion, a few cloves and pepper-corns, adding a bunch of hay; it seasons finely. Let the ham cool in the water in which it was boiled, skin, rub with brown sugar and brown in a slow oven for an hour, basting every 15 minutes with some of the stock in which it was cooked. Epicures like the last basting of sherry.

Dutch Soup.

Chop an ox-tail in pieces an inch long, place in a saucepan with a tablespoonful of butter, stir until it browns, then turn the fat off, add three pints of water, one carrot, one small turnip, one onion and a few whole cloves. Boil slowly until the meat is well done, then add three tomatoes, peeled and sliced, and salt and pepper to taste. Boil 15 minutes longer.

How to Soften Water.

To soften water for laundry purposes when you have no rain water supply it is a good plan to draw the water three or four days before it is needed for use, and to expose it to the air. This will render it quite soft, and will make soap either entirely unnecessary, or at any rate will make a very small quantity of it sufficient.

When a pipe springs a leak and the plumber is miles away, rub the place over with soap, or with a mixture of soap and whiting, until the more perfect stopping can be done. In case soap and whiting cannot be had easily, use bread slightly moistened with water and cover the spot with it thickly.

TRAITOR'S REWARD.

DEATH AND DISGRACE CAME UPON CORPORAL HAZE OF CALIFORNIA

Disowned His Country's Flag Lured By the Charms of a Philippine Fairy—He Was Shot in Filipino Ranks by His Former Comrades.

This is the true story of a young American soldier who threw away the flag of his country to please a little brown Philippine woman and what happened to him when he had done it.

His name was Haze—Henry Haze, Corporal Henry Haze of the First California.

When the ship went down the blue, blue bay, and past the island, and past the Cliff House, black with people, and out through the Golden Gate into the Pacific, Henry Haze stood on the deck with his comrades.

There were things to see in Manila. Men and women, and customs and manners, not like unto those of any other lands, for a mixture of black and white and brown and yellow in a man's blood makes him do strange and curious deeds.

There are many kinds of women in Manila. There are Spanish women there; they wear mantillas and they flirt with their eyes.

There are Japanese women there; and they flirt with their fans, cunningly moved with a supple twist of a plump brown wrist.

There are English and French women there; they are very pale and quiet and do not leave the house alone.

There are black women there, who wear a linen girdle and a bracelet.

And there is a woman there who is part Spanish and part native and part French, and she is neither yellow nor black nor white—she is brown, like a shining brown leaf in Autumn, and she wears a loose robe and a rose in her hair, and she flirts with the eyes, like the Spaniard, and with the fan, like the Japanese, and she can wheedle a French woman, and she has a cat-like swing of the hips that she got with the strain of black blood.

She is called Chiquita, which, being interpreted, means "little"—and little she is, and supple, and slender and round, and wicked and knowing, and full of all arts and subtleties for the undoing of men. Especially can she dance the fandango.

Corporal Henry Haze met Chiquita the very first day he landed at Manila.

Three days after that Corporal Haze was humming a queer little fandango tune with a jarring note in it like the buzz of an angry rattlesnake. A little Frenchman, who was sitting under a

CORPORAL HAZE.

tree close by, lifted his eyebrows.

"You must take care of your friend, the young man with the eye that laughs," he said to a "First" man, who was with him.

"He is singing the song of Chiquita."

"The song of Chiquita," said the "First" man. "What's that?"

"Do you know the snake that rattles?" he said. "Chiquita—some of us call her by that name—and the song he is singing, your friend there, that is the warning she gives, like the rattle of a snake. I had a friend who killed himself for her, and there is a man burried in the graveyard up there. He was killed with a knife. It is said he heard the song too often. It did not agree with him. The negroes say she is a voodoo."

"I guess Haze can take care of himself."

One day there was news in camp. Great news. There was to be fighting at Iloilo, and Company D, First California Volunteers, was going to Iloilo to help do the fighting.

When Co. D made ready to march to the troopship Corporal Haze was missing. A guard went up to the town to find him. They hunted through every alley in a town of alleys. They went into every house and bade the dwellers therein to search their premises in the name of the United States of America and find the American soldier who was not ready to go to Iloilo with his company. The American soldier could not be found.

The soldiers who stayed at Manila, began to be busy. There were riots and rumors of riots. And one day the Filipinos came out of the swamps and swooped down upon the American lines. The Americans were ready for them. The California first was in the thick of the fight. The regiment went, whooping and cheering into its first charge.

"Hurrah, for God's country, boys!" shouted a beardless boy of a Lieutenant.

"Give 'em a taste of California shooting!" yelled a little pink-faced captain.

The Filipinos scattered like chaff before the wind. But the Californians found them lying dead in rows and huddled heaps. A white man lay in a pool of water. He had led the charge.

He wore a ragged tatterdemalion uniform of a Lieutenant of the Filipinos.

One of the Americans stooped to look at him. The white man opened his eyes and tried to sit up. Something rattled in his throat. He waved his hand in a foolish gesture, like the twist of a woman's hand in the fandango.

"He's trying to sing," said the boy Lieutenant.

"It is the deserter," said a man from Co. D.

The white man laughed a little and then he groaned, and then he lay very still.

"Dead," said the little Lieutenant.

"And good riddance," said the man from Co. D.

And he was dead, riddled with bullets of his own regiment.

RACING IN ARGENTINE.

Methods of Trainers and Jockeys, as Observed by a New Yorker.

The well-known turfman, H. H. Hunn, who has just returned from a trip to the Argentine Republic, gives an interesting account of racing in that country.

"In regard to their stud book," said Mr. Hunn, "they date the ages of their horses from the 1st of August instead of the 1st of January, as in this country and in England. All their breeding stock has been imported from England, and whether it is the climate or the system of handling, the horses generally are more on the rakish, leggy order than is common either here or in England.

"At Paledmo, which is to the City of Buenos Ayres what Morris Park is to our metropolis, there is an extensive and well equipped racing property, the main track being one and three-quarters miles long and 150 feet wide in its narrowest part. The soil is of a clay formation, smooth and elastic, and with but a semblance of loose soil on top. The grand stand at Palermo is capable of accommodating 20,000 people, and from 30,000 to 50,000 is the average attendance, the great days being Sundays.

"The betting, which is on an immense scale (every one bets) is on the Paris mutual system, the racing association which is under the government of the republic, getting 10 per cent. of the gross amount handled.

"The system of training is long, slow gallops twice a day—boys riding exercise barebacked.

"The jockeys, who are mostly Indian half-breeds, ride with very long stirrup leathers, sitting in cowboy fashion, but I rarely saw the riders' feet in the stirrup irons when a race was finishing, the general custom being to throw the stirrup irons across the horse's withers just as the word go was given.

"The jockeys are the worst, I think; to be seen anywhere on the top of the globe, Diaz, a hunchback nigger, being the crack of the lot, and our worst operators could give him points. They all ride with curb bits, something like a Pelhambit, but with no snaffle ring or rein. The scale of weights will average ten pounds higher than with us.

"The starting was the only thing in conection with the actual racing which struck me as being fairly well done. The horses are taught to line up and stand like a troop of cavalry and go on the word of command, but the poor beasts are probably so leg weary that they are glad to stand still, as the custom is to keep the competitors for a race galloping up and down the stretch, also parade at other gaits, for about twenty minutes before going to the post. This is done so the gambling public can come to their own conclusions as to which of the horses to bet on.

"After the race is over the horses are taken to the paddock, where they get a hose pipe bath, which is their cooling out and rubbed down and everything else in the shape of grooming."

Mr. Hunn says that with the temperature 100 in the shade, he never saw a horse sweat freely while he was there.

The recognized grand master of the trainers is Frazier, who came from Australia. Frazier tried hard to introduce Australian methods, but he had to give it up. The crack sire at present is the English bred horse Orbit. And in regard to Osmonda, for which they paid $100,000 in gold, he is reckoned a great failure. Only two out of thirty of his get have won races, and they were of but little account.

The purses and added money is on a more liberal scale than with us, ranging from $1,000 to $1,500 in American money. No purse is less than $1,000. Notwithstanding the crude system of training and the execrable riding, Mr. Hunn tells me that he timed miles in 1:42½.

"In regard to the chances for an outsider to go there with a stable and race successfully," said Mr. Hunn, "it could be done, as with a fair boy their jockeys would not be in it. With such helter-skelter lot of half-breeds, however, I would have some doubts as to an outside jockey getting a fair show after he had beat them a few times; otherwise, with a few useful horses, a lot of money could be made. A feature worth mentioning is that their racing rules bar geldings—no sexless animals being allowed to race."—New York Morning Telegraph.

Jeffries and Mitchell.

Charley Mitchell is to meet Jim Jeffries in England after all, but their bout will be more of an exhibition than a fight. The English boxer declined to meet the champion in a twenty or twenty-five round bout, claiming that he would require several months of preparation. William A. Brady, manager of Jeffries, now in England, anxious to have his man meet Mitchell, has agreed to arrange a match calling for ten rounds of two minutes each, to be contested in London some time between Aug. 25 and 30. The winner, according to present plans is to receive 75 per cent. of the gate money and the loser 25 per cent. Barring possible agreements, Jeffries should have no trouble in beating Mitchell, who is nothing more than a has-been of the oldest variety. He had little chance against Corbett and under the same circumstances should have less against Jeffries. Mitchell is still poular in England, however, and doubtless considers there is a pile of money in his meeting with Jeffries. For this reason it is believed he has consented to meet the boilermaker.

Offers For the Big Fight.

Judging by the way in which the bids for the championship battle between Jim Jeffries and Tom Sharkey are being received at this early time, the prospects are that there will be more bidding done for this fight than for any that has been fought in this country. The bids received so far come from San Francisco and are extremely large, two of them being $50,000 offers, while the third is a $60,000 incentive. The latter offer was made by the Glen Park Athletic Club, of San Francisco, who formerly offered a $50,000 purse for the fight, but, fearing they might lose it, have increased its offer $10,000 more.

"How sad Isabel looks."

"Yes; she's either in love or she's doing the hard work."

Public Notice.

County of Union, City of Plainfield, ss:

Public notice is hereby given that application by petition has been made to the Mayor and Common Council of the City of Plainfield for the consent of said Mayor and Common Council of the City of Plainfield, that the Plainfield Street Railway Company construct, operate and maintain a street railway upon the following streets and avenues in the City of Plainfield:

On Arlington Avenue, from the present line of the Plainfield Street Railway Company in West Fourth Street to Randolph Road; in Randolph Road from Arlington Avenue to Park Avenue; in Park Avenue from Randolph Road to a point 1,652.19 feet Southerly from the center of Randolph Road; thence through a private right-of-way to a point near Woodland Avenue; thence parellel with Woodland Avenue, in a Southerly direction to the City and County line; as particularly indicated on a map dated and filed Oct. 2, 1899, in the City Clerk's office, entitled "Map Showing Location of Tracks, Turnouts and Poles for Proposed Extension of Plainfield Street Railway, No. 4;" that said petition has been presented by the Plainfield Street Railway Company, a corporation organized under the laws of this State; that said petition was filed with the Clerk of the City of Plainfield on the second day of October, eighteen hundred and ninety-nine; that the road intended to be constructed, operated and maintained is a single track street railway placed in the center of said streets or highways, excepting where otherwise indicated on said map, with turnouts located as shown on said map, and the motive power to be used thereon is electricity to be supplied from overhead wires, supported by poles, and the streets through which the same shall extend are as above mentioned, and particularly indicated on said map to which reference is hereby made; that the Common Council of the City of Plainfield has fixed Thursday, the nineteenth day of October, eighteen hundred and ninety-nine, at eight o'clock in the evening as the time, and the Common Council Chamber, No. 109 Park Avenue, in the City of Plainfield, as the place, at which said Common Council will consider said application and will give a public hearing to all persons interested therein.

The Mayor and Common Council of the City of Plainfield.

J. T. MacMURRAY,
City Clerk.

Dated, October 2, 1899.

AT HIS EXPENSE

A Few Little Stories About "Man, Poor Man."

Penelope—It's dreadful! Papa wants me to marry a man I have never seen.

Perdita—That's nothing. My father wants me to marry a man I have seen.—Harlem Life.

Simkins—What makes your nose so red, Timpkins?

Timkins—It glows with pride, sir, at not poking itself into other people's business.—Tit-Bits.

Suitor—Your daughter, sir, is the light of my existence.

Her Father—Oh, that's it, eh? I've often wondered how you could see her with the gas turned so low.—Chicago News.

Patient—You are worried about my case, doctor. I can see it in your face.

Doctor—No-o, not exactly.

Patient—Tell me the truth, doctor. I want to know just what you think.

Doctor—Well, to be candid with you, I was worrying about your bill. You haven't paid me a cent in two years.—Puck.

Links.

To-day the Unconscious Imbecile took the initiative.

"What's the difference between golf links and the missing link?" he asked.

Here the Lay Figure, in behalf of himself and the others, gave it up.

"The latter," exclaimed the Unconscious Imbecile, with heaving bosom, goes to show that men were once monkeys, while the former goes to show they are monkeys still."

All were shocked, of course, although they strove to seem indifferent.—Detroit Journal.

A Story of the Stork.

Once upon a time, the Stork in the fable came to the gates of a beautiful city, where the women are advanced and all that.

"Pray let me enter," said the Stork to the warder.

"Go get a hat trimmed with yourself!" replied the warder, brusquely.

That was to say, there was no particular objection to the Stork, except in his fabulous capacity.—Detroit Journal.

A Series Question.

Deacon Johnson—Do you fink you kood support mah daughter ef you married her?

Jim Jackson—Suttunly.

Deacon Johnson—Hab you eber seen her eat?

Jim Jackson—Suttunly.

Deacon Johnson—Hab you ebber seen her eat when nobody was watching her?—What to Eat.

Wherein He Stands Alone.

Miss Caustique—So you are engaged to that Mr. Atkinson, are you? Now, tell me honestly what can you see in him that distinguishes him from all other men in the world whom you have met?

Miss Passee (with unlooked-for frankness)—He asked me to be his wife.—Tit-Bits.

Had Him by the Neck.

"Horace," she said, chidingly, "why don't you tell me you love me?"

Seizing a scrap of paper, the young man wrote on it:

"How can I, darling, unless you remove the pressure from my windpipe?"—Chicago Tribune.

Something New In Servants.

Real Head of the Family—John, our new girl is a jewel. She's the cheerfulest, most lively creature I've ever had in my kitchen. Always flying around and always singing.

Ostensible Head of the Family—Then she isn't a jewel, Maria. She's a bird.—Chicago Tribune.

A Puzzler.

"I admit that she is a puzzle to me."

"In what way?"

"Well, I can't decide whether she involved herself in a scandal because she wanted to go on the stage or whether she went on the stage because she became involved in a scandal."—Chicago Record.

The Appropriate Place.

"They say that this new goat elixir can be administered in the commonest article of food."

"It strikes me the butter would be the appropriate place for it."—Cleveland Plain Dealer.

Some'at of a Sport.

"My friend, buy this system renovator; do you know that you are galloping to the grave?"

"Don't you worry; as long as I am able to gallop I can keep out of the grave!"—Chicago Record.

Thinking of the Barber.

She—A Philadelphia preacher recently married five couples within an hour.

He (absently)—Yes, but I'll bet he couldn't have done it if any of them had wanted a shampoo.—Chicago Times-Herald.

A Question.

Irate Father—Don't ever dare to cross my threshold again, sir.

Unabashed Suitor—Just as you say, only I don't like the idea of crawling in at the window.

Who She Was.

Sunday School Teacher—Johnny, who was Eve?

Johnny (whose papa is a humorist)—Oh, she was just a side issue.

Those Loving Girls.

Mattie—I want you to know I don't stand on trifles.

Helen (glancing at her feet)—No, dear; I see you don't.—Chicago News.

Poor But Honest.

Bramble—Does Dobson play an honest game of poker?

Thorne—Certainly he does. Did you ever see him win?

Not Enough of It.

Mrs. Gay—Do you think this bathing suit will attract too much attention?

Her Husband—Oh, no. It will hardly be noticed.

"Ordway argues well. He covers so much ground."

"Then you've seen his new white canvas shoes?"

GREW ON SUNDAY

Manner in Which Smith Got Even With the Preacher.

In a country town not far from New York an old-fashioned preacher had exhorted his flock one Sunday not to read the Sunday newspapers. On the following Monday he was strolling through the market place when he spied some unusually fine asparagus, a vegetable of which he was almost gluttonously fond, in the stall of one of his parishioners.

"Mr. Smith," said the parson, "I will buy some of your asparagus, if it is not too dear."

Now, Mr. Smith was a confirmed reader of his Sunday newspaper, and the sermon had not pleased him at all. He decided to play a joke on his pastor. Moreover, he had sold his asparagus already, though he said not a word about that.

"I am sorry, doctor," said the crafty Smith, "but I would not like to have it on my conscience that I sold you such 'grass' as that."

"What is the matter with it?" exclaimed the preacher in surprise. I never saw finer."

"Oh, it's all right that way," said Smith, "but, you see, I picked it only early this morning. It sprang up and grew on Sunday."

Other Side of the Question.

"I firmly believe," she said, "that women should have the right to propose."

"Of course if woman proposes," he replied, "she would give an engagement ring and other presents instead of receiving them."

"On second thought," she answered, "perhaps it would be better not to change the existing conditions."—Chicago Post.

A Remarkable Change.

"It is wonderful," said the newly arrived guest at the mountain resort, "how time makes such havoc."

"Of what were you thinking, sir?" pleasantly inquired the proprietor.

"I was thinking," said the guest, "what a magnificent building this was in the circular I saw before leaving the city six hours ago, and how it has changed since then."—Life.

A Matter of Roars.

It was the morning after their arrival at a seashore resort.

"I have often heard of the roar of the ocean," she said dreamily, but I never knew it sounded like that."

"That's not the roar of the ocean," answered her most experienced husband; "that's the roar of a departing guest who had just been presented with his bill."—Chicago Post.

The Rule.

This is a rule by which to determine
By words of the preacher the length of his sermon;
When he says "firstly" you know he's begun;
When he says "lastly" he's only half done.

—Judge.

The Old Story In New Form.

George (timidly)—Miss Clara, I have—er—that is—

Clara (encouragingly)—Well, George?

George—Do you—er—think your mamma would care to accept the position of mother-in-law to me?—Chicago News.

No Wonder They Quarrelled.

Maude—What is the quarrel between Alice and Kate?

Ethel—Why, you see, Alice asked Kate to tell her just what she thought of her.

Maude—Yes?

Ethel—Kate told her.—Tit Bits.

Refinement of Cruelty.

Fretman—It makes me mad to hear Beldin tell his little boy to do this or not to do that, and then let the imp do just what he wants to do.

Skeezles—Yes, Beldin says he does it, not to coddle the boy, but to make you uncomfortable."—Boston Transcript.

Burdened With Wisdom.

"Let me sell you an encyclopedia," said the book agent to Throckmorton. "It is the best in the market; it contains——"

"I don't need an encyclopedia," replied Throckmorton meekly. "I am married to a Boston woman."—Judge.

Notes.

Some men date their rise in life from they time they fell—in love.

A good business foundation often depends upon a good seller.

To the garden's pulse there is no beet.—Richmond Dispatch.

Clashing Colors.

"Isn't Alice's hat a perfect symphony?"

"I don't know; it really looks to me like an operatic round-up by Wagner."—Detroit Free Press.

Sad, But Profitable.

"Some men have the best luck."

"How so?"

"There's McIntosh, for instance; ice cream gives his girl neuralgia."—Chicago Record.

Not to Be Tempted.

The Parson—Satan always finds some work for idle hands to do.

The Idler—I know he does, but I never yield to the tempatation.

On Board the Yacht.

The Captain—Can you tie a sailor knot?

The Parson—Oh, yes; I have married a great many seafaring men.

Very Properly.

Cholly—What would you say if I waised a mustache?

Dolly—I should be very likely to call it down.

Tactless.

May—Isn't it a perfect duck of a bathing suit?

Clara—Yes; it never seems to get wet.

For His Own Good, Too.

"Winkie grows smaller every day."

"I should think he would. His wife sits on him so often."—Detroit Free Press.

ON THE FIELD OF EL CANEY

Thrilling Account of the Battle By Lieut. Wallace, U. S. Infantry.

A MEMORABLE MARCH.

Bodies of the Dead Soldiers Lined the Road and War Became a Stern Reality.

The Awful Rain of Bullets From a Spanish Stone Fort—Rivers of Lead Flowing in Each Direction—Cannon Found the Range and Structure Was Quickly Demolished.

Lieut. William Wallace of the Seventh United States infantry, a nephew of Gen. Lew Wallace of "Ben Hur" fame, tells of his experience in the trenches of Santiago de Cuba as follows:

"At 4 a. m. June 24 we moved forward and marched about six miles over the worst road imaginable. All the roads here are of the same character, and were originally foot and mule paths, but centuries of rain has made them deep gullies scarcely wide enough for one man and his pack to march in. We reached a beautiful cocoanut grove about 8 in the morning. Everyone was nearly exhausted by that time. There were no horses or mules yet and I saw a general carrying a pack. I believe it was the intention to camp here during the day, but the Spaniards thought differently.

"The rough riders (riders by courtesy only, since all were afoot) were exceedingly anxious to get into Santiago first. They thought they could simply walk over every Spaniard in sight and get into the town that night. The army needed an advance guard, so they, supported by the First and Ninth cavalry, were detailed as such.

"We had not been in camp more than half an hour when furious firing was heard far to the front. The Seventh, which throughout was at the head of the column was hurried forward, followed by the rest of the brigade—the Twelfth and Seventeenth infantry.

"No one who made that march will ever forget it. Exhausted to start with, the men soon began to lighten themselves of their packs. The road was simply lined with packs, blankets and haversacks. You could have walked afterward all the way on government blankets. Hour after hour we kept it up and at 2 o'clock we came to a halt where the morning firing had taken place. The firing, however, had ceased.

"The rough riders with our cavalry had driven the enemy back. The appearance of the infantry caused them to further retire. Why, I do not know, for 300 of our men could have held such a position for a week, perhaps a month. It was here we saw the first evidences of war. Our dead soldiers lined the road, and the wounded were being taken to the hospitals a little in the rear. I can never forget the sight, and from that moment the picnic part of the war ended for us. War became a stern reality at the sight of those dead soldiers.

"An hour's rest here and again we are pushed to a better position. Another rest and again on until finally at 7 o'clock we went into camp for the night. On June 25, 26, 27, 28 and 29 we moved about, but never far. We did ordinary patrol duty and covered the assembly of troops in the rear. June 30, at 4 p. m., the brigade was formed, and in a pouring rain we set out. But where to was a mystery. By 9 that evening we had marched around to the north side of the city, about three miles east of El Caney.

"At daylight, July 1, we were ordered forward without breakfast, toward Caney. At 7 some firing was heard in the front and the march was hastened.

"The worst of it all was, that no one seemed to know where the fire was coming from. There was, as I afterward saw, a stone fort on the left and a blockhouse to the right. The bullets were coming thicker and thicker. Death was all around.

"The order finally came to advance. The company crossed a bullet-showered field in good order. I never expected to get across alive. Very soon the companies were all behind the crest commanding the town. The fun began when all the companies commenced to fire into the town. It was rivers of lead flowing each way. The fusilade was awful, yet to rise so much as to your knees was certain death. Finally, after a whole day of useless firing, the cannon got the range of the stone fort and silenced it. This was the key to the Spanish position, and after its fall the firing grew less heavy. At 4 o'clock the Spanish firing ceased altogether, and a little later we were withdrawn."

The Naval Engineer in Battle.

If you were sealed up in a heated iron tank floating on the sea and hammered at by missiles which now and then let in daylight and splinters, you would get a dim idea of the lot of the engineer's men aboard a battleship in action. But the engineer's men have to work in the hurly-burly, and you would go mad in your tank. The enemy's shot pounds the ship, but the engineer and his men know not where the enemy is or where the ship is heading. And they can't stop to think about it. Keep that bearing cool, smother it in oil, down it in water! Keep it cool, or the game's up! The men on deck can let the splinters lie where they fall, but the men in the engine room have to keep the splinters out of the machinery. Steam pipes are pierced. Mend 'em. Crawl behind the boilers, and stop that steam leak. Impossible to shut off anything? Scalded? Never mind. It's all in the day's work. Don't let the water down. Pass the coal lively. And while you are about it, put out that fire in the bunkers. In the lower engine rooms the thermometer shows 136 degrees in front of the ventilating blowers; in the upper engine rooms, 190 degrees.—Engineering Journal.

802

Why Should I Insure My Life?

BECAUSE:
Prudence suggests it.
Reason approves it.
Uncertainty of life requires it.
Duty demands it.
Economy selects it.
No investment excels it.
Thoughtfulness seeks it.
Intelligence endorses it.
Affection constrains it.
Law supervises it.

SPORTING.

GOLF.

The course of the Park Golf Club was very quiet Saturday afternoon when most of the members were on the Hillside Club links. W. W. Smith and Alex Gilbert, of the Hillside Club, were guests at the club and spent the afternoon there. On account of the great crowd on their home links they decided to accept an invitation to play over the Park Club course.

There was a big force of caddies on the Hillside course Saturday but the great demand for them more than exceeded the supply. Some of the caddies from the Park Golf Club course came over to help out but even then many of the pairs of competitors had to get along with one caddy for the two. It was the largest attendance on the Hillside links of the season.

AMONG THE STEPPERS.

The last race meeting of the season will be held at New Brunswick tomorrow under the auspices of the New Brunswick Driving Association. Three first-class events are offered for good purses, and no doubt there will be a good attendance of Plainfielders who love horse racing run in the best sportsmanlike manner.

NO CHANGE IN PRIMARY RULES.

G. O. P. Primaries Next Week Will Be Under Old Rules.

There will be no changes in the method of conducting the coming Republican primaries at which will be elected the delegates to the county convention. At the meeting of the city Republican executive committee held last night, the sub-committee on rules announced that its report was not yet ready and its recommendations regarding changes in the Roger F. Murray system, now in vogue at the city primaries, would not be ready until after the coming State election. Therefore, the old plan, adopted last year, will continue without change for the present.

Story of a Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a godsend to weak, sickly, run down people. Every bottle guaranteed. Only 50 cents. Sold by L. W. Randolph, Druggist.

In a Nutshell:

Regular collections; intelligent washing; careful ironing, prompt deliveries. This makes a good laundry. People who have known us as dyers for thirty years back may not realize that we are doing the largest laundry business in New Jersey. Send us your bundle for a trail.

HOW TO TEACH THE BIBLE

EAST NEW JERSEY BAPTIST SUNDAY-SCHOOL CONVENTION.

Being Held in the Park Avenue Baptist Church To-day—Addresses Made—Officers to Be Elected This Afternoon.

The East New Jersey Baptist Sundap-School convention convened this morning in the Park Avenue church. There was a good attendance of delegates from this district. The church was prettily decorated, the National colors being used profusely. The session was opened at 10 o'clock by a prayer and praise service led by Seeley Edsell. After singing and the roll call of delegates the audience listened to an able address on "Sunday-school Scholars at Church" by Rev. Benj. Otto, of North Church, Jersey City.

President Corbett then announced the committees. The nominating committee consists of Rev. Benjamin Otto, of North Church, Jersey City; Rev. William Staub, of Elizabeth, and Rev. Frank Fletcher, of Dunellen.

The other committees will be given out at this afternoon's session.

Secretary Turton then read various letters from different churches. "The Teacher's Responsibility" was the subject of the address by Rev. J. M. Stiffler, of Roselle.

Before dinner, which was served the delegates in the church, three-minute talks were given by delegates and representatives of Sunday schools.

One of the features of this afternoon's session was the splendid address of the Rev. Frank Fletcher, of Dunellen, on "What did you do with quarter's Review?" and that of Rev. J. L. Campbell, D. D., of the Lexington avenue church of New York, on "The Sunday-school Teacher, His Personality, Preparation and Work."

Tonight Rev. Jesse L. Huribut, of New York, will deliver an address on the "Sunday-school for the Times."

Fire Did Not Interfere With Transfer.

Regarding the fire last Friday morning which partly destroyed the Denton homestead on Prospect Hill, it should be stated that it has in no way interfered with the transfer of that property to the S. D. Drake Realty Company, as stated by another paper. Owing to the fact that the company desired a guarantee title the transfer was delayed for a few days. This deed was passed over today to the company and all signatures of the interested parties have been affixed.

To Erect a Big Building.

Thomas Callahan, the grocer of Richmond and East Third streets, is about to make another large improvement on Richmond street. He is going to erect a fine building on the east side of the street, 70x42. There will be four stores on the first floor and six apartment flats over head, with all modern improvements.

A Missionary to Speak.

Next Sunday will be Foreign Missionary Sunday at the Congregational church. A missionary from Micronesia will speak in the morning and his wife will address the Endeavor meeting in the evening.

Received $2,000 in Taxes.

Saturday last Collector George F. Brown, of the borough, received over $2,000 in taxes, and he is very much pleased with the way the people are responding.

THE AMUSEMENT WORLD

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local and Metropolitan Performances That Will Please Those Who Delight in the Art of Thespis and Mimic World

For pure unadulterated fun there is nothing like a big farce-comedy organization in a bright, brilliant farcical play. Just such a performance is claimed for "A High-Toned Burglar," which will be seen at Music Hall tonight, and is the latest effort in the farcical line. From all accounts it is proving to be the distinct hit of the season, because of its absolute originality and very funny lines and situations, and which is headed by the well-known team of Dolan & Lenharr, who are well-known in every city in the Union as one of the best features in the vaudeville or continuous performance theatres. While this is their first effort in legitimate farce-comedy, they have simply carried their audiences with them from the start to the finish of the play, and they wear so well with the public that they are recalled time after time, and in many instances their greeting amounts to an ovation. "A High-Toned Burglar" is constructed on original lines and is a travesty upon many of the existing conditions of the day, especially upon the system of police protection and the public is promised a treat in some very clever and very funny caricatures, which will be immediately recognized as types that are true to life. Dolan and Lenharr have engaged a large company and as a special feature they have secured that "prince of entertainers," Geo. Fuller Golden, who will convulse you with some new ideas and clever stories. "A High-Toned Burglar" has been elaborately staged with beautiful scenic effects for each act, while the costuming is extremely rich in texture and make-up.

* * * * *

"Mr. Plaster of Paris" is the euphonious and catchy title given to a farce comedy of unusual merit and popularity which is booked to appear at Music Hall Thursday night. It is announced as a farce comedy with a plot which is indeed a rare avis now-a-days. It tells a story of a Mr. Paris whose creed is that the world owes him a living and he proposes to have it with as little trouble to himself as possible. Taking advantage of the fact that there are twenty-two places in the United States named after the capitol of France he elects to call himself "of Paris" and manages in his career to mix matters up very thoroughly in a good many of the twenty-two places. The story of Mr. Plaster's life is not only interesting but intensely funny. It is shouts and laughter from start to finish. The company selected to present the play here is a most capable one. Magnificent scenic and electrical effects are used and the performance, which is for one night only, promises to be a rare treat.

Minister's Father-in-Law Dead.

Owing to the death of his father-in-law at Philadelphia, Rev. A. F. Shaffer, of St. Peter's Lutheran church, was called away from the city Sunday afternoon and therefore was not able to occupy his pulpit in the evening.

To Talk on Trolley Matters.

Thursday evening the Common Council will hold an adjourned meeting to talk about trolley matters and consider other matters of more or less importance.

To Work Master's Degree.

This evening Jerusalem lodge, No. 26, F. A. M., will work the Master's degree on one candidate. Refreshments will be served after the initiation.

—The Christian Endeavor Society of Trinity Raformed church expect to make about $50 as a result of their entertainment at the Y. M. C. A. Hall last week. The returns are not all in as yet.

To Be Sure.

Carrye—Do you think women should be hanged for murder?

Cynicus—As long as women insist on equal rights with men, I think the sexes should be hanged together.

Prevented a Tragedy.

Timely information given Mrs. Geo. Long, of New Straitsville, Ohio, prevented a dreadful tragedy and saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery. One bottle wholly cured her, and she writes this marvellous medicine also cured Mr. Long of a severe attack of Pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c and $1.00. Every bottle guaranteed. Trial bottles free at L. W. Randolph's Drug Store.

EXPERIENCES IN MANILA.

Matters of Interest About the Quaint Old City of the Philippines.

AMUSING INCIDENTS.

The Peculiar Sleeping Machine That Was Not Calculated for Comfort.

A Land Where Laziness Becomes Second Nature—Cheap Suits of White Sheeting—The Chemist's Shop Where a Great Variety of Things May Be Bought—The Curious "Chit" System.

Everybody is now reading or asking questions about the Philippines, in order to see whether he shall advise the Government to hold the islands or urge his friends to emigrate thither.

If the Philippines are to be held by the United States, of course Americans in the very nature of things will go there to establish themselves in business or as employes of this Government; and the question must often be asked, "Are the Philippines a good place to live in?" Joseph Earle Stevens, in "Yesterdays in the Philippines," published by Charles Scribner's Sons, has done his best to answer the question.

Mr. Stevens, as the representative of a Boston firm of merchants, spent over two years in the Philippines, from 1893 to 1896. He says he spent his first night in Manila at the Spanish Hotel El Oriente, where he first made the acquaintance of a Philippine bed. It was a four-poster; the posts were very high, and the bed frame was strung tightly across, like a cane-bottomed chair; there were heavy folds of mosquito netting hanging down around the bed. After pulling away the netting the traveler found the cane bottom "about as soft as the teakwood floor, and finally," he says, "I cut my way out of the peculiar arrangement, dressed, and spent the decidedly cool night in a long cane chair, preferring not to experiment further with the sleeping machine until I found out how it worked." Mosquitos did not trouble him.

His description of the club, which seems to be quite an istitution in Manila, and which shelters the English and American bachelors, cannot be without interest to a possible emigrant.

The author writes: "After beginning the morning by ordering a dozen suits of white sheeting from a native tailor—price, $2 apiece—I was introduced to the members of the English club and began to feel more at home, stretched out in one of the long chairs in the cool library. It seems that the club affords shelter and refreshment to its four-score members at two widely separated points of the compass—one just on

A STREET SCENE IN MANILA.

the banks of the Pasig River, where its waters slouching down from the big lake at the foot of the mountains, are first introduced to the outlying suburbs of the city, and the other in the heart of the business section. The same set of native servants do for both departments, since no one stays up town during the middle of the day, and no one down town after business hours. As a result, on week days, after the light breakfast of the early morning is over at the up-town building the staff of waiters and assistants hurry down town in the tram cars and make ready for the noon meal at the other structure, returning home to the suburbs in time to officiate at dinner. This is, indeed, a land where laziness becomes second nature. If you want a book or a paper on the table, and they lie more than a yard or two from where you are located it is not policy to reach for them. Oh, no! You ring a bell twice as far off, take a nap while the boy comes from a distance, and wake up to find him handing it to you with a graceful 'Aqui, Senor? In fact, I have even just now met an English fellow who, they tell me, took a barber with him on a recent trip to the southern provinces to look after his scanty beard that was composed of no more than three or four dozen hairs, each of which grew one-eighth of an inch quarterly.

At the Botica Inglesa, or English chemist's shop, one can buy anything from a glass of soda to a full-fledged lawn mower, and it is to this "variety" store—variety in the purest sense of the word—that the American went to replenish his photographic outfit. This brings him to chat about shopping, and he describes the "Chit" system, which has been such a curse in the Far East.

"In making purchase," he writes, "no one pays cash for anything, since the heavy Mexican dollars—which are the only currency of the islands—are too heavy to lug around in the thin suits of white sheeting. One simply signs an 'I. O. U.' for the amount of the bill in any shop that he may choose to patronize, and thinks no more about it till at the end of the month all the 'Chits' which bear his name are sent around for collection. Result: One never feels as if he were spending anything until the first day of the incoming month ushers in a host of these big or little reminders. Counterfeit money is so prevalent that one after the other of your callers bites the silver, or drops it on the ground, to detect lead and to listen to the resulting sound is not to feel complimented by their opinion of your integrity."

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way

Mrs. G. R. Vanderhoof, of West Front street, is visiting friends at Hillsboro.

George Burch, of 1608 Second avenue, New York, visited Plainfield Sunday and was a guest of Mr. and Mrs. W. W. St. John, of West Front street.

NEWARK SYNDICATE BUYS.

Acquires New Brunswick Gas Works at a Cost of Three Hundred and Fifty Thousand Dollars.

The plant of the New Brunswick Gas Works has been acquired by a syndicate of Newark capitalists, and the deal was closed yesterday afternoon at a meeting of the representatives of the old company and the new syndicate held at the office of H. G. Parker, cashier of the National Bank, of New Jersey, at New Brunswick. The price paid for the works is $350,000, and the transaction will be a profitable one for the stockholders of the old corporation, who will receive 70 for stock which was valued at 20 at par.

The Newark syndicate was represented by John C. Eisele, Nathaniel King, Halsey M. Barret and George H. Halsey, who will become directors of the reorganized company. More than eighty-five per cent of the stockholders have surrendered their stock, so that the new syndicate has the controlling interest in the company.

At a meeting today to reorganize the new company it is expected that the present officers will be re-elected. They are: J. B. Kirkpatrick, president; S. V. D. Clark, secretary; Lafferd Totten, treasurer. The plans of the company have not as yet been formulated, but, in view of the extension of the electric light system by the reorganized electric light company, it is expected that a reduction in the price of gas will be made in the near future.

FUNERAL OF LATE ELLIS CAMPBELL.

Held Yesterday Afternoon and Attended by Many Friends.

The funeral services of the late Ellis A. Campbell were held yesterday at 3 o'clock from the house at Avon Park. There was a very large attendance of relatives and friends. Rev. C. E. Herring, pastor of the First Presbyterian church, conducted the services and spoke comforting words to the bereaved ones. There were three vocal selections rendered during the services by a quartette consisting of Miss Fellows, Mr. and Mrs. J. Campbell and B. T. Barnes. There was a very beautiful display of floral offerings from relatives, friends and associates of the departed.

Those who served as pallbearers, relatives of Mr. Campbell, were William Kelly, of Oak Tree; Sanders Kelly, of Metuchen; Lewis Kelly, Woodbridge; John I. Holly, of Avon Park, and William Coulter, of Oak Tree. Interment was at Hillside Cemetery.

NEW BRUNSWICK THEATRE.

Nobody Would Believe It, Except That a Man Paid $400 Down.

(Special to The Daily Press.)

New Brunswick, Oct. 13.—The much talked of scheme of a theatre for this town took a definite shape today when J. R. Hillpot, a Bound Brook contractor and theatre builder, paid $400 deposit on the properties of Jacob Weldy and Adam Luth on the north side of Albany street, near Neilson. The proposed site has 77 feet front and 150 feet depth. The land will cost $10,000 and the theatre $50,000 more. It is believed that the Jacobs brothers will lease it and place it on their circuit.

About $30,000 of local capital will go into the enterprise. The men associated with Mr. Hillpott are not known. This town has had no theatre since the Masonic Hall burned down in 1896.

Nominated as District Deputy.

T. C. Smith, of Queen City Lodge, No. 226, I. O. O. F., was last evening nominated as district deputy to succeed Nimrod Horton. Floyd Fuller was chosen delegate to the Grand Lodge. Representatives were present from six lodges, and the meeting was held in the rooms of Plainfield Lodge, No. 44.

Two Cases of Diphtheria.

Two cases of diphtheria have been quarantined in the borough today by the order of Rev. W. E. Honeyman, secretary of the Board of Health. A child, three years and a half old, is ill at 210 Grove street. Thomas Duffy, three years old, is ill at 194 Grove street.

MURDER TRIAL IN SOMERSET NEXT WEEK.

Mrs Fingerhuth Will Have to Answer for Roehricht's Death.

WILL LAST THREE DAYS.

CASE PRESENTS SENSATIONAL LEGAL FEATURES AND COMPLICATIONS.

Shooting is Practically Admitted—Question is Regarding the Motive and the Circumstances—Will be the First Women in Somerset Held to Answer for a Capital Crime—First in Thirty-five Years in State.

For the first time in thirty-five years a New Jersey judge and jury will be called upon next week to consider the charge of a capital crime against a woman. Beginning Monday the trial of Mrs. Catherine Fingerhuth will open at the Court of Oyer and Terminer of Somerset county held at Somerville. It will be Somerset county's fourth murder case in the last three years, and will be the most sensational of all from a legal point of view. There are some knotty legal questions to unravel, and the case will attract much attention throughout the State.

The story of the shooting is too well known to need elaboration. On the afternoon of Tuesday, September 12th, Mrs. Fingerhuth shot and almost instantly killed her landlord, Paul Roehricht, of 2155 Seventh avenue, New York, near Washingtonville. The fatality was the result of an attempt to evict the Fingerhuths, and Robert M. Clark, Roehcicht's lawyer, escaped a similar fate through the failure of one of the cartridges to explode.

Mrs. Fingerhuth was arrested that afternoon as was her son, Oscar, who arrived at the scene of the shooting shortly after it happened. They were taken to the Somerset county jail at Somerville where they have been confined ever since. Theodore Fingerhuth, the husband, was arrested the same night but released the following day.

The Coroner's Jury, which met at North Plainfield, brought in a verdict that Roebricht was murdered by the woman, and the son, Oscar, was named as an accessory. At the meeting of the Somerset county Grand Jury, in the early part of the month, Mrs. Fingerhuth was indicted of murder and her son and husband named as accessories. Theodore Fingerhuth was then arrested and has since been a prisoner in the jail at Somerville.

Mrs. Fingerhuth and her husband and son will be defended in the trial which starts Monday by Walter L. Hetfield and William G. DeMeza, both of this city. There is no attempt made to claim that Mrs. Fingerhuth did not fire the fatal shot. There are two witnesses who saw her point the revolver, pull the trigger and saw Roehricht stagger after he received the fatal wound.

The defense will try to prove that Roehricht and his party were attempting to invade the house occupied by Mrs. Fingerhuth, the old Aaron Allen homestead on the road from Washingtonville to Scotch Plains, on the borders of Somerset Park, and that the shooting was justifiable as it was merely an attempt on the part of Mrs. Fingerhuth to defend her home and repel invaders.

The defence will further try to prove that Roehricht, though the owner of the property was an invader in the eyes of the law and had no right to trespass on the property and that he made no attempt to invoke the usual process of law to evict the Fingerhuts. There will also be an attempt to prove that the Fingerhuths were justly entitled to live on the Allen farm according to an alleged contract made with Roehricht.

The prosecution will attempt to show that Mrs. Fingerhuth's act was a premeditated one and that she was instructed in that course by husband and son, the latter of whom purchased and gave her the revolver with which she did the shooting. The strength of their case will depend on their ability to show that Roehricht did not have anything personally to do with the attempt to force an entrance into the house and that the circumstances did not give Mrs. Fingerhuth the slightest grounds for the use of firearms in repulsing the attack.

There are some nice legal questions that will have to be decided and which will give both sides plenty of opportunity to present powerful arguments. There will be no conflicting testimony regarding the salient points of the shooting. The act is practically admitted. It is the provocation and the motive on which the prosecution and the defence do not agree.

The trial is expected to last three

CONTINUED ON PAGE 8.

NOW KNOCKING AT ELIZABETH'S DOOR.

Westfield and Elizabeth Company's Application.

LIKELY TO BE GRANTED.

PROMISE CARS TO BE RUNNING BY THANKSGIVING DAY.

Application Filed With the Elizabeth City Council and a Date for a Public Hearing Set—It Seems to be the Opinion That the Council Will Grant the Franchise Without Very Much Delay.

The expected application from the Westfield and Elizabeth Street Railway Company for an entrance to Elizabeth was presented to the Elizabeth City Council Monday night, and a public hearing will be held in the Council chamber on the evening of Nov. 1, at 7:30 o'clock.

Colonel E. W. Hine and Lawyer Richard F Henry represented the company. Col. Hine said if the franchise was granted Nov. 1, the trolley cars would be running to Plainfield by Thanksgiving Day. The right that is asked from Elizabeth is the last connecting link in the route. There are other breaks between Elizabeth and Plainfield, but the right of way has been secured in each instance, and the work of making the connections is being pushed.

The application was formally presented in the Council meeting by Councilman Carlton. It asked for right of way over Jersey avenue to West Jersey street, for connection with the tracks of the North Jersey Street Railroad Company. This route will bring the cars into Broad street through West Jersey street.

Accompanying the application, Mr. Carlton offered a resolution appointing Nov. 1, at 7:30 p. m., the time for a public hearing.

The members of the City Council did not publicly express themselves, but in the talk prior to the meeting the impression was given that there will be no opposition to the immediate grant.

The general belief is that this road, which will connect Elizabeth with most of the cities and towns in the county, will be of great benefit to the city. Elizabeth is the county seat, and the people outside have interests there that this means of communication will show.

LUNCH FOR PUPILS.

High School Now Has an Official Dispenser of All Kinds of Sandwiches.

Principal Ira W. Travell, of the Plainfield High School, has inaugurated a new scheme of providing lunch for the pupils of the High School at a nominal cost. It has been the custom of many of the pupils to purchase all variety of cakes and pastry at recess time for a light lunch, while others carried something from home. It was thought best to have something wholesome and substantial rather than the indigestable pastry and cake. So Mr. Travell has made arrangements with Mrs. E. R. Noe to supply the school with a stock of sandwiches to be sold to the pupils for two cents each. The plan was first tried Monday and fifty sandwiches were easily disposed of at recess. They were made of lamb, ham, beef, chicken, etc. Yesterday eighty sandwiches were sold, and the plan will be continued hereafter.

An Exciting Blaze.

A brief but exciting fire occurred in the law offices of Murphy & Blatz on East Front street yesterday noon. Mr. Murphy, of the firm, started to turn down an oil stove. The wick would not work. The wick was then turned up by mistake and flared up. In attempting to take the top off the stove it was upset and the oil spilled over the floor. Fireman George Feiring happened to be passing at the time and assisted in the extinguishing of the flames.

To Explain Wireless Telegraphy.

Carl Kinsley, who is in the service of the War Department examining the practibility of the Marconi system of wireless telegraphy, has been in Plainfield for a few days as the guest of his old college friend, I. Winthrop Travell, of College place. Mr. Kinsley will speak to the Plainfield High School in a few days on the subject of "Wireless Telegraphy," which he will illustrate with some of Marconi's apparatus.

Booming Plainfield.

There was a meeting of the S. D. Drake Realty Company last evening, when a number of plans and schemes were introduced to further the interests of Plainfield. They will be taken up from time to time with a view to booming Plainfield property.

WORKERS IN THE SUNDAY-SCHOOL

Closing Sessions of East New Jersey Association.

OFFICERS WERE CHOSEN.

FINANCIAL CONDITION OF THE ASSOCIATION REPORTED.

All the New Officers Elected Were From Newark—Next Convention Will be Held in Elizabeth—Rev. A. E. Main Talked on the "Home Department"—Other Addresses Were Made.

The forty-ninth annual meeting of the East New Jersey Baptist Association was continued yesterday afternoon with a much larger attendance than in the morning. President William J. Corbet, of Elizabeth, presided, and after the praise service conducted by Rev. Alex. Maegeorge, of the North church, Newark, S. D. Turton, of Newark, presented the report of the treasurer. It showed that after all the expenses were paid there is still a balance of $532 in the treasury. The amount raised for all purposes was $11,000, and the expenses of the schools was about $7,000. The sum of $110 was contributed to the State work. During the year three schools withdrew from the association and one disbanded, leaving a total number at the present time of thirty-nine schools and a total membership in the schools of about 8,000. All the schools were reported to be in good conditions financially and spiritually.

The next number on the programme was "What Did You Do With Last Quarter's Review?" This was a conference led by Rev. Frank Fletcher, of Dunellen.

The event of the afternoon was the address on "The Sunday-school Teacher, His Personality, Preparation and Work," by Rev. J. L. Campbell, D. D., of the Lexington Avenue church, New York. This address was brimful of bright ideas and suggestions.

Following the above there was the department devoted to primary work, and the 'Graded Primary" was the subject of a talk by Mrs. Alonzo Pettit, of Elizabeth.

The report of committees and election of officers followed. The first committee to report was the one having in charge the arranging of a place of meeting for 1900. It was decided to meet with the members of the First Baptist church in Elizabeth.

The auditing committee reported that the accounts had been examined and found correct, and the committee on enrollment reported the presence of 139 delegates, and the largest representation from New Market which was twenty-one. Representatives were present from Newark, Elizabeth, Bergen, Perth Amboy, South Plainfield, Jersey City, New Market and this city.

The nominating committee then presented its report and recommended the following as officers for the ensuing year: President, George Wakefield, Newark; vice-president, George Lawrence, Newark; secretary and treasurer, S. D. Turton. These officers were unanimously elected.

President Corbet then appointed George E. Hall, of this city, and Mr. Applegate, of Jersey City, as a committee to arrange for the next convention at Elizabeth.

The last number on the programme for the afternoon was an address by Rev. Dr. A. E. Main, of the Seventh-Day Baptist church, on the "Home Department."

During the time of recess the women of the Park Avenue Baptist church served supper in the banquet room, and at 7:30 o'clock the evening session opened with devotional exercises. The chief event of interest at this service was the address by Rev. Jesse L. Hurlbut, formerly pastor of the First M. E. church, but now of New York. He took for his subject "The Sunday-school for the Times," and one of the most practical addresses of the convention was given.

Dr. Hurlbut's address was listened to attentively and it proved to be helpful and inspiring. This brought the convention to a close and after the closing exercises there was an adjournment.

Discharged From the Hospital.

George Pollard, an employe of the Berlin Bridge Company, who was injured recently while working on a bridge on Greenbrook road, was discharged cured from the hospital yesterday.

Hanrihan Will Probably Recover.

Patrick Hanrihan, the young man employed at the Crescent Embossing Works, who had his arm taken off last Monday, is improving, and it is now believed that he will recover.

FOR THE UNRULY GIRLS.

SUMMARY OF INTENDED REFORMS AT INDUSTRIAL SCHOOL.

Annual Meeting of State Charities Aid Association Approves of Recommendations Made by Chairman Hall.

The annual meeting of the managers of the New Jersey State Charities Aid Association was held yesterday in New York. Among the matters discussed were the abuses alleged to exist at the Industrial School for Girls at Trenton. Lawyer David P. Hall, of Plainfield, the chairman of the committee on reformatories, made a report which showed that the committees had sent to Gov. Voorhees two communications in reference to the alleged brutalities and had suggested reforms. Mr. Hall said that he had received two letters from Gov. Voorhees in answer to these communications. The last letter was received yesterday. In it the Governor stated that he had sent the committee's communications to the newly-chosen board of trustees of the Trenton institution, which body would undoubtedly give them careful consideration.

Mr. Hall said that the day was rapidly approaching when the Industrial School at Trenton would be conducted in a manner that would be a credit to the State of New Jersey instead of being a disgrace. He was of the opinion that the Governor of New Jersey would aid the State Charities Association in bringing about the reforms suggested. This would mean the abolishing of corporal punishment, and the doing away with the cells and the straightjacket. It would also mean that girls would not be kept in solitary confinement for more than twenty-four hours, nor would they be compelled to live on bread and water for more than that length of time. Moral suasion would be used, and when that should fail, the refractory girl would be put to bed for a few hours each day. A book would be kept in the institution in which would be kept a memorandum of all punishments, the name of the persons punished and the character of the punishment inflicted. Runaway girls would be punished by depriving them of privileges and taking away their credits for conduct.

Mr. Hall's report was accepted and approved.

PART OF RIG FOUND.

Discovered in a Livery Stable at Comack, L. I.—Horse is Still Missing.

David C. Smalley, of North avenue, has got on track of his stolen rig, all but the horse having been secured. It was found at Comack, L. I., and through the efforts of Fred Conklin, of Huntington, L. I., who was visiting in this city at the time the rig disappeared. Being a close friend of Mr Smalley he took an unusual interest in the matter.

He traced the wagon and harness to Comack and notified Mr. Smalley last Sunday that he was sure the property was his. The owner went to Comack yesterday and identified the harness and wagon, and then received information which made him feel sure he would soon get the horse and man. The search is being continued today by Mr. Smalley, and by night he hopes to have his horse. The property was found at one of the liveries, where it had been left presumably by the man who went away with it.

If the man is caught he will probably be brought back to this city to answer to the charge of horse stealing.

Under-paid Messenger Boys.

T. Marley has resigned his position as telegraph messenger for the Western Union Telegraph Company, and his place has been taken by Henry Angleman. The company cannot expect to secure boys who will give good service for the wages paid by them, out of which they are obliged to buy their uniforms.

Will Visit the Exposition.

A letter received from Isaac Squires, who is now traveling abroad, states that he is doing well and enjoying himself. He is at present at Genoa, Italy. He intends to visit the Paris Exposition next year, and cannot say just when he will be home.

Praise Services Next Sunday.

The regular monthly praise service at the Crescent Avenue Presbyterian church will be held Sunday night next, instead of the last Sunday in the month, as usual.

An Organ Recital.

Tomorrow evening W. H Miller, organist at the First Presbyterian church, will give a free recital at the church. He will be assisted by P. Ludwig Conde.

May Run for the Council.

George J. Tobin, of North avenue, is a possible candidate for Councilmanic honors from the Third ward this fall.

ELECTRICITY CAUGHT HIM IN A MANHOLE.

The Dangerous Plight of a Cable Workman.

SHOCKED BY THE CURRENT.

PULLED OUT OF THE MANHOLE BY FRIGHTENED COMRADES.

Accidentally a Switch Was Turned on a Pole, Which Sent the Electric Current Through a Cable Into the Manhole Where George Galbraith Was Working—Injuries Were Not Serious.

George Galbraith, a lineman employed by the Standard Underground Cable Company, of New York, which has the contract to change the wires of the Plainfield Electric Company, had a narrow escape from instant death about 4 o'clock yesterday afternoon. It seems strange that Galbraith was not killed. As it was, he received a severe shock, that for a few moments rendered him partially unconscious.

Galbraith was in a manhole at the northwest corner of Front street and Somerset street engaged in making the necessary changes to the electric light wires. Another man was on a pole near the Somerset corner running a wire down the tubing used for the purpose of making the connection with the underground conduit.

By some manner this man turned the switch located near the top of one of the electric light poles. This made a connection with the cable being laid for the electric wire. Instantly the electric fluid was sent along the wires and into the manhole where Galbraith was at work. The first thing the public knew of the man's perilous predicament was when they saw a sheet of flame shoot out of the manhole, quickly followed by a puff of smoke, only to be repeated several times.

The other linemen took in the situation at a glance and ran to the manhole expecting to find Galbraith's dead body. Fortunately they were mistaken in their conjecture. Though badly shocked Galbraith was still alive, though partially insensible. As quickly as possible he was helped from the manhole and taken to a nearby drug store, where he was given restoratives. He soon revived.

An examination of Galbraith's injuries showed that one of his hands had also been burned. Although considerably shaken up Galbraith insisted upon returning to work as soon as he had a few moment's rest. The incident created considerable excitement and when the report went out that a man had been shocked to death a large crowd gathered about the vicinity.

Galbraith, who is a man of rugged constitution, tall and of powerful frame, is a resident of New York, his family living on Thirty-fifth street. He is considered one of the most faithful men in the company's employ.

NEW CORPS OF USHERS.

They are of Great Aid to Manager Edwards in Running the House.

Manager Maze Edwards, of the Stillman Music Hall, has at present a very efficient and gentlemanly corps of ushers who greatly add to the success of the management by their excellent work. Through their efforts perfect order is kept and there are no mistakes made in the seating of the patrons. Alex. Muir is head usher. His assistants are Clarence Rittenhouse, George Apgar, Nelson Peterson, Charles Peterson, Walter Sherwin, Frank Cross and John Evans. They have provided themselves with neat metal badges. The programme boys are Charles Suer and John Carty. Walter Higgins is the business-like chief door keeper and uses several of the ushers to assist him in his duties.

The Companion's New Calendar.

Every new subscriber to the 1900 volume of The Youth's Companion will receive a beautiful calendar. The calendars given by The Companion to its friends are famous for their delicacy of design and richness of coloring. That for 1900 will surpass any one of former years. It is the last calendar of the century and the publishers have endeavored to make it the most beautiful one. Those who subscribe now will receive not only the calendar as a gift, but also all this year's November and December issues of the paper from the time of subscription.

No Quorum Present.

The absence of a quorum prevented a meeting of the Plainfield Advancement Association last evening. President Smalley was kept away by an engagement and Secretary Martine was out of the city. The only members present were Elston M. French and J. B. Coward.

DALY SAYS HE DIDN'T; MARTINE SAYS HE DID

Former Says His Bryan Fight is Not Abandoned.

FARMER ORATOR EXPLAINS.

TELLS HOW MR. DALY CAME TO SAY WHAT HE DID.

A Very Caustic Interview from the Congressman Over the Report That He Will Not Father the New State Committee—Mr. Martine Reiterates the Statement That Daly Told Him So

(Special to The Daily Press.)

Hoboken, Oct. 18th—Congressman Daly yesterday characterized as utterly false and without foundation the report that he had abandoned his efforts to oust Chairman Wm. B. Gourley and the present Democratic State committee, and supplant the committee with one more favorable to Bryan and the Chicago platform.

"Do you deny that you had any such conversation with Mr. Martine?" the Congressman was asked.

"I most certainly do," was the reply. "While in Plainfield last week I had a talk with Mr. Martine on the condition of the party in this State, but I never told him that I had decided to abandon my fight against Mr. Gourley, or that the men who are affiliated with me on the committee of fifteen would fall in behind the band wagon of the regular organization. I do not believe that Mr. Martine said so, either. He has undoubtly been misquoted."

Congressman Daly also said that a meeting of the committee of fifteen had been called for next Tuesday in Trenton.

Mr Martine was seen this morning by a Press reporter and shown the interview with Mr. Daly.

"Congressman Daly and I," said Mr. Martine, "are the best of personal friends, and are in a general way in political sympathy with each other as regards to the Democratic party. I have no desire to add to Mr. Daly's political troubles over the management of the party in New Jersey, but I must reiterate that Mr. Daly told me substantially what it was reported that he did concerning the idea of forming a new State committee or holding another State convention in the interests of Bryan. Mr. Daly and I talked over the situation in the State, and I plainly told him that it was a great mistake for him and those associated with him on the committee known as the 'True Democrats,' to advocate another State committee and convention. I pointed out that the consummation of such a move would be the engendering of factional feelings that ought to be allayed instead of aggravated, and that so far as accomplishing anything for Bryan, of whom I am an admirer and advocate, it would be very impolitic. Besides this it would be impossible to oust Chairman Gourley and his committee, even if there might be cause for it. They are the regular representatives of the party organization, and I believe are doing every thing that is possible to further the best interests of the party. However, the outcome of the talk was that Mr. Daly finally said that he would use his influence to have the movement for a new committee and another convention abandoned when the committee met again, as he realized that New Jersey Democrats would be for Bryan in 1900, and that if there had been any cause for a fight sometime ago it had now been wiped out by the general acceptance of the idea that no other name than that of Bryan would we heard for the Presidential nomination in 1900."

The Cadet Corps.

A meeting of the young men who are planning to organize a cadet corps will probably be held tomorrow evening when a report will be heard from the committee that interview Captain George F Edwards and when arrangements will be made to regularly organize the corps.

Fireman Recovering.

L. M. Dunavan, of East Second street, the local fireman who was injured while descending one of the sliding poles at fire department headquarters, is much improved and it is hoped that he will be able to walk a little by the first of next month.

Now a Resident of Plainfield.

Silas D. Drake moved yesterday to Plainfield, where in the future his interests will be identified with affairs that are local. He has now practically centered all of his interests here.

Teacher's Association.

An interesting and instructive meeting of the Somerset County Teachers' Association was held at Somerville Saturday in the High School building.

—Use Press want ads.

REED IS AN EASY WINNER

Renominated For Senator On the First Ballot.

HE RECEIVED 25 VOTES.

THOMPSON FACTION WAS COMPLETELY ROUTED.

A Surprise Sprung by the Supporters of the Senator by Making the Nominations Without Adjournment.

(By a Staff Representative.)

Somerville, Oct. 18—After one of the bitterest factional fights ever recorded in Republican ranks in Somerset county, President of the Senate Charles Arthur Reed, of North Plainfield, was today renominated for the office of State Senator.

When the convention met in the Court House at 11:05 o'clock this morning, it was expected by all except a few on the inside that the temporary organization would be formed and then a recess taken till afternoon for the purpose of allowing the committee to do their work. The Reed men, however, decided to take no chances of combinations being formed during the recess for the purpose of defeating their favorite, and as a result precedent was thrown to the winds and the nomination of Mr. Reed accomplished just as soon after the latter's strength was known as it was possible to do so. This order of things on the part of the Reed leaders was a great surprise to the opposing faction, headed by Chancery Clerk Lewis A. Thompson, of Somerville, and completely routed the opposition to the Senator.

When the convention was called to order in the court house every member of every delegation was present and the room was crowded with Republicans and Democrats anxious to see the outcome of the convention which has attracted such attention. Chancery Clerk Thompson, who has been chairman of the county committee, called the convention to order.

J. Newton Voorhees, of Franklin, an out-an-out Reed man, was named for chairman and was elected without opposition. William Gilhooley, of Bernards, was chosen secretary. The chairman then appointed the committees and the chairmen of each of as follows: Organization, Robert Clark, Jr., of North Plainfield; rules, H. J. Davis, of Bernards; resolutions, B. A. Hegeman, Jr., of North Plainfield; credentials, T. V. D. VanDoren.

A recess of a few minutes was then taken, after which the committees reported. The Committee on Resolutions offered a platform that endorsed the National and State Republican administrations, congratulated the people of Somerset county on the defeat of free silver and the subsequant prosperity of the country, and finished by highly eulogizing the record of Senator Reed and Assemblyman Cooper in the Legislature.

Mayor Smalley, of North Plainfield, then sprung the surprise on the Thompson faction by moving that the nominations be proceeded with before adjournment. Fred Pope, of Somerville, a Thompson delegate, vigorously opposed the motion, but when it was put to a vote the motion was carried with a hurrah.

Mr. Pope then arose and nominated Former Sheriff George Dilts in a speech, the trend of which was that the convention should not only nominate a good man, but one that could be elected. Such a man he considered Dilts to be.

Joseph A. Frelinghuysen's name was placed in nomination for the office by a delegate from Montgomery.

Then Former Mayor Hegeman, of North Plainfield, nominated Senator Reed in a glowing speech, which rehearsed the record of Reed in the Legislature, and ended by saying that Somerset county was Republican beyond question and that if the members of the party were true to Republicanism it would be easy to elect any nominee, and especially such a man as Senator Reed.

Mr. Hegeman was then called to the chair and J. Newton Voorhees, who

CONTINUED ON PAGE 8.

AN ACCIDENT SPOILED IT.

Shamrock's Topmast Broke and the Yacht Withdrew From the Contest.

COLUMBIA THE WINNER.

American Boat Now Has Two Victories to Her Credit in the Race For the Cup.

Columbia Continued Over the Course Alone — The Accident Was Regretted, but the Sail Was Dangerously Large—The Betting Now is Nearly 3 to 1 on Columbia.

Off Sandy Hook Lightship, Oct. 18.—An accident spoiled the second attempt to sail the second of the races for the America's cup. Twenty-five minutes after the start, while Shamrock had her giant club topsail set and was in the lead on the port tack by about 75 yards, a great fluttering began aloft, the topmast was seen to bend and shiver and heard to crack. Then slowly, but disastrously, the great spar with its enormous cloud of canvas tottered to leeward and fell over the starboard side into the sea. Before the topmast started to fall the weather topmast shroud gave away, twanging like fiddlestrings as they snapped in the air and blew about.

The sail was the largest that has ever been seen on a yacht in this country above the mainsail. There had been much talk about the enormous kite and marvelous things were expected of it. It undoubtedly would have aided the Irish boat materially in the race had her topmast held. Immediately after the accident the yacht was brought into the wind, and as much as possible of the wreck was cleared away. The Erin went to the assistance of the disabled racer and passed her a towline, Shamrock giving up the race and starting back home.

The Columbia continued alone on the triangular course. She made the first two legs in less than two hours, and triangle of thirty miles in good time, thus winning the second race.

The next race of the series will be sailed Thursday.

New York, Oct. 18.—The signal defeat of the Shamrock by the Columbia has upset the betting on the cup races.

Fred Brooks, the Wall street broker, who has placed $10,000 on the Columbia at ruling odds, took advantage of the fever that arose on the Exchange when it became known that there was a prospect of a race taking place. Early in the morning he laid $1,000 to $900, and about an hour after the yachts started made another bet of $500 to $450. As soon as the result was known in the city Brooks was on the lookout for more Shamrock money, and increased the offer of odds until a well-known business man was tempted to invest $500 on the Shamrock at 2 to 1.

At the Waldorf-Astoria there were several offers to bet 2 to 1 that the cup would remain in America, but no big wagers were recorded. Evidence that the early bettors of the Shamrock were already running to cover was forthcoming at the Delevan, where an Englishman who had previously taken the odds against the Irish boat came out with an offer of $150 to $70 that the Columbia would win the series.

John Considine, Jim Corbett's partner, made two wagers of $250 to $200 on the American yacht. Considine tried to get more money down, but failed. "Brooklyn" Jimmy Carroll, who is backing the Columbia, found a customer for $400. Carroll gave 10 to 8 on the series. Dick Roache, another Columbia man, was at the Gilsey House, and offered to bet $700, at 10 to 8, on the Columbia, but found no takers. At the Sturtevant House, which has been the rendezvous of Shamrock admirers, several big wagers were recorded. Frank Bangs is holding about $800 in bets. Jim Wakeley, another stanch Columbia supporter, placed $200 against $175 twice with a Western man.

Bryan Talking for Goebel.

Louisville, Ky., Oct. 18.—Goebel stock is now away above par and the enemies of the Democratic candidate for Governor are silent. Bets are freely offered with odds on the regular nominee without takers. Since Mr. Bryan's dramatic entrance into the State one wager of $10,000 has been offered on Goebel, but no one has accepted it. Prominent Republicans throughout the State declare Goebel's election certain.

Mr. Bryan boldly attacked the Brown supporters, pleaded for Democratic unity, denounced the war in the Philippines, touched lightly upon the silver issue and declared the defeat in 1896 had made Democrats more determined to win in 1900. Mr. Goebel spoke at each point, and his reception was as flattering as surprising. Not a disturbance has marked the meetings.

New Slate and Iron Mine.

Chattanooga, Tenn., Oct. 18.—The Tellico Slate and Iron Company, owned by C. S. Swainson and Heden Smith, London capitalists, has just opened ten new slate quarries on its property in Monroe County. The company owns 26,000 acres in that section and is to spend $1,000,000 in developing the same. Fifty slate and several iron mines are to be opened.

He Charges Discrimination.

Springfield, Ohio, Oct. 18.—Judge Miller granted T. J. Creager an injunction against the Springfield Gas Company to prevent them from removing his natural gas meter. He makes some sensational charges against the company, alleging that they do not charge all consumers 25 cents for the gas and do not demand meter rent from all customers.

Scattered the Filipinos.

Manila, Oct. 18.—An American force under Colonel Bell cleared the Filipinos out of Porac, northwest of Bacour. The enemy fell back to the westward, leaving a number dead. The Americans lost one killed. This is the second time recently the Porac natives have been routed.

CORPSE LOST IN TRANSIT.

Cause of the Postponement of a Funeral in Ohio.

Napoleon, Ohio, Oct. 18.—Sorrowing friends and relatives, with a hearse and carriages, waited at the Wabash Depot for the train which was to bring the remains of Matilda Riessen, who died in Gallipolis. Funeral notices had been published and the interment was to take place yesterday afternoon. When the train arrived there was no corpse.

An investigation was then made. Telegrams sent to Gallipolis failed to locate the body and the relatives of the deceased sent the County Coroner in search of the corpse. Later it was learned that the body had been shipped by express and that the remains have been lost in transit.

Police Have a New Clue.

New York, Oct. 18.—The police have a brand-new clew, indicating almost to a certainty that the victim of the mysterious murder was Mrs. Kate Feeley. They found in the cellar of a house in West Seventeenth street, the "murder district," a plush belt and a peculiar button that belonged to and was worn by the Feeley woman. The articles were found by Capt. Schmittenberger and two Central Office detectives. They were taken to Mrs. Sarah Carroll, Kate Feeley's friend, in West Eighteenth street, who identified them at a glance as having belonged to Mrs. Kate Feeley. Mrs. Carroll's mouth has been sealed by the police, so that she refused any information, but other women in the same house told of the interview and its results.

Another Anti-Trust Conference.

Chicago, Oct. 18.—A national anti-trust conference is to be held in Chicago some time in January, under the auspices of the organization formed during the recent trust conference. Headquarters have been established here, and the call for the conference is to be issued early next month. The committee in charge of arrangements consists of the following-named men: M. L. Lockwood of Pennsylvania, president of the American Anti-Trust League, chairman of the committee; Judge William Prentiss of Illinois, vice chairman; Dudley Goodall, Wooten of Texas, A. M. Todd of Michigan, A. P. McGuirk of Iowa, Judge W. B. Fleming of Kentucky, P. E. Dowe of New York.

Creditors Share Fairly Well.

Anderson, Ind., Oct. 18.—The Union Steel Mills receivership has been closed and Receiver T. R. Aiken has turned over to the Court $453,000 and his report and was discharged. He was in charge three years, and closed by selling the plants to Thomsa Wright, of St. Louis, who represented the Commercial National and the Third National Banks of St. Louis, the heaviest creditors. He paid $515,000 for the plant and later sold it to the trust. The unsecured claims were settled by compromise. The receiver was allowed $10,000 extra for his services, which makes him $28,000 for the three years. The preferred creditors will get 75 cents on the dollar.

Women Discuss Roberts Case.

New York, Oct. 18.—Many women attended the meeting of the committee which is agitating the question of unseating Brigham A. Roberts as Representative in Congress from Utah. Mrs. Darwin R. James presided and the session was a long one. It was announced after the meeting that the committee had been advised on high authority that the protests should be made against Roberts before his credentials are accepted by Congress, and that some proof on which the Congressional Committee on Elections could report would then have to be presented.

New York Man Wapted to Die.

Philadelphia, Oct. 18.—Two desperate attempts at suicide were made at the Keystone Hotel by Edwin H. Smith, of No. 313 West One Hundred and Nineteenth street, New York. Smith was found lying on the bed with a rubber tube in his mouth and the other end of the tube attached to a gas pipe. An officer was sent to call a patrol wagon. While the officer was absent Smith again placed the tube in his mouth. Letters addressed to Mrs. Lotta Smith, No. 313 West One Hundred and Nineteenth street, New York, and Fletcher J. Emily, of No. 320 Manhattan avenue, New York, were found.

Presidential Party at Cleveland.

Cleveland, O., Oct. 18.—There was a large crowd present at the depot when President McKinley's special arrived from the West and the Chief Executive and those accompanying him were given a rousing welcome. From here the Presidential party will go to Canton, and from there proceed direct to Washington. The President looks tired and worn from his trip through the West and Northwest, but said he was feeling quite well so far as his general health was concerned.

Spinning Mills Being Enlarged.

Chattanooga, Tenn., Oct. 18.—The Richmond Spinning Company has voted to increase its capital by $50,000 and has sent a telegram north authorizing the purchase of additional carding machinery, so that the plant can be operated night and day. The new machinery is to make an output of 48,000 pounds possible, instead of 24,000 as at present.

Woman Burned; Boy in Jail.

Baltimore, Oct. 18.—John W. Moran threw a lighted match into a tank of gasoline, from which the wife of Bernard Berecuski was drawing, at No. 300 South Exeter street. The woman was badly burned in the explosion that resulted. The boy is in jail.

THE MARKETS.

New York, Oct. 18.—Specialties were the strongest features in the trading to-day in the stock market. While the standard stocks were fractionally higher the specialties scored gains. A number of room traders, who were bullish for a turn, bought and bid up the entire list in their efforts to force the shorts to cover.

Chicago, Oct. 18.—Closing prices: December wheat 70⅝. October corn 30⅜. Oats 22.

RADAM'S Microbe Killer NOT A DRUG

But Pure Water, Heavily Charged With Medicinal Gases, Which Absolutely Destroy All Germs of Disease.

It cures Consumption, Cancer, Chronic Catarrh, Dyspepsia, Stomach and Liver Troubles, Scrofula, Eczema, and all eruptions, Rheumatism, Lameness of the Back or Limbs, all Tumors and Swellings, Diabetes, Bright's Disease, Fistula, Piles, etc. Especially valuable in all Female Complaints.

Why not try a bottle ($1) or gallon jug ($3)? It will certainly cure you.

If interested or any of your friends are sick, send for book containing testimonials from our patients, mailed free.

LACE CURTAIN AND BLANKET
CLEANING : :
Is a delicate piece of work—it requires skill and carefulness to get them daintily white without injuring a thread. Few can do this—but we can, because we have made a specialty of it. We have thought about it and experimented until we have found the only perfect method. Let us send for your curtains. They will be returned to you white—not a design or a thread will be out of place. Price 50c. per pair. Called for and delivered free of charge. Orders received by postal card.

AN ORDINANCE

to provide for the issuing of temporary notes for sewerage expenses pursuant to Chapter 33, P. L., 1899.

WHEREAS, The Common Council has ascertained and determined, and does hereby ascertain and determine that the expense incurred for the sewerage purposes specified in Chapter 33, P. L., 1899, in full to date, amounts to the sum of $7,564.70, and that it is expedient to provide for such expense by issuing temporary notes or obligations of the City, the same to be renewed from time to time in such manner as to make an equal amount thereof, as nearly as practicable, payable each year during five years from the date on which they shall be authorized:

The inhabitants of the City of Plainfield, by their Common Council, do enact as follows:

Section 1.—That to provide for the expense aforesaid, temporary notes or obligations of said City be issued as follows: One note for one-fifth of said amount payable one year from date of issue; one note for one-fifth of said amount drawn for one year from said date, but subject to renewal for one year thereafter; one note for one-fifth of said amount drawn for one year from said date, but subject to renewal for two successive years thereafter; one note for one-fifth of said amount drawn for one year from said date, but subject to renewal for three successive years thereafter, and one note for one-fifth of said amount drawn for one year from said date, but subject to renewal for four successive years thereafter; all of said notes to bear interest at the rate of 4 per centum per annum.

Section 2.—That the Mayor and City Treasurer be, and are hereby authorized to make and execute the said notes, and apply the same for the purpose aforesaid.

Adopted by the Common Council October 9, 1899.
Approved by the Mayor October 10, 1899.
GEO. W. ROCKFELLOW, Mayor.
Attest: JAMES T. MacMURRAY, City Clerk

AN ORDINANCE

to amend an ordinance entitled "An Ordinance Relating to the Street Commissioner of the City of Plainfield," approved Feb. 28, 1882, amended Dec. 31, 1887.

The inhabitants of the City of Plainfield, by their Common Council, do enact as follows:

Section 1.—That no person shall be eligible to the office of Street Commissioner of the City of Plainfield who is not a duly qualified Civil Engineer, and the incumbent of the office of Street Commissioner shall be ex-officio City Surveyor of said City, and shall perform the duties of said last named office without extra compensation, except where by statute special compensation may be authorized. This ordinance shall apply to the present incumbent of the office of Street Commissioner, who from the date on which this ordinance shall take effect, shall be ex-officio City Surveyor as aforesaid.

Adopted by the Common Council, October 9, 1899.
Approved by the Mayor October 10, 1899.
GEO. W. ROCKFELLOW, Mayor.
Attest: JAMES T. MacMURRAY, City Clerk.

THE BOERS WERE REPULSED

More Desperate Fighting Has Taken Place at Mafeking in South Africa.

UNEASINESS IN LONDON.

Reported That the Boers' Loss Was 300 and British Casualties 18 in the Last Battle.

Further Advance of the Boers at Hope Town Checked—British Are Surrounded at Several Points and Outnumbered By Odds of About Ten to One.

London, Oct. 18.—All reports agree that there has been fierce fighting in or near Mafeking, which is held by Colonel Baden-Powell and about 2,000 men, including volunteers. These reports come from various places along the western Transvaal border and are confirmed by dispatches direct from Pretoria.

A special dispatch from Pretoria, by way of Delagoa Bay, says:

"A cyclist dispatch has just been received from Ottoshoep, near Malmani, asserting that heavy fighting has been in progress north of Mafeking. The British troops on board an armored train acted as a covering force to military engineers engaged in repairing the track. A Maxim on the train kept up a continuous fire.

"Conspicuous bravery was displayed on both sides; but it soon became apparent that the rifles of the Burghers were ineffective against an armored train. The latter, however, was once forced to retreat before a particularly strong assault, but it soon returned, accompanied by a British mounted contingent, and the fighting was renewed fiercely.

"Fighting still continues, the Boers holding their positions well. A dozen Boers were killed or wounded, but the British casualties cannot be ascertained."

Cape Town, South Africa, Oct. 18.—Another desperate attack has been made on Mafeking.

A short dispatch filed by a courier from the front has just reached here. It said a stubborn battle was on in earnest.

The Boers attacking on the north of the town were repulsed three times.

They renewed the assault for the fourth time when Cronje came up from the south with artillery.

It is reported the British have blown up the railroad bridge over the Orange River at Hope Town. This would hinder further Boer advance to the south.

A Boer engineer corps, with quantities of dynamite, has gone to the south border of the Transvaal.

London, Oct. 18.—A Central News dispatch reports 300 Boers and 18 British killed in the engagement at Mafeking.

With 4,000 troops hemmed in at Kimberley by a force of 10,000; with 600 more at Mafeking cut off from the world and surrounded by odds of nine or ten to one, and with 15,000 at Ladysmith facing an army of at least 20,000, there are many anxious hearts here.

Cecil Rhodes and his troops in the diamond fields are so strongly intrenched that it is confidently believed they can hold off until a rescuing army can be sent to their relief.

This, however, will take at least a month. It may be even longer. Nearly twenty thousand troops will have been landed at Cape Town within a month.

Pretoria, Oct. 14 (delayed in transmission).—Heavy fighting took place this morning north of Mafeking. An armored train sent to repair the railway line opened fire on the Boer commando. One burgher was killed and two were wounded. A second engagement followed, in which nine British were wounded. Yesterday, while General Cronje's troops were near the broken railway bridge, nine miles north of Mafeking, an approaching train loaded with dynamite was fired on and blown up. There were no casualties on the Transvaal side.

Oct. 15 (delayed in transmission).—Further despatches received by the Government say that fighting continues north of Mafeking. The British, after the second engagment, retired in the direction of the town; but they resumed the attack shortly afterward, two burghers being killed and three wounded.

The Queen's Speech.

London, Oct. 18.—Parliament opened here in extraordinary session to consider the South African situation.

In the speech from the throne, Her Majesty said:

"My Lords and Gentlemen: Within a very brief period after the recent prorogation I am compelled by events deeply affecting the interests of my empire to recur to your advice and aid. The state of affairs in South Africa has made it expedient that my government should be enabled to strengthen the military forces of this country by calling out the Reserves. For this purpose the provisions of the law render it necessary that Parliament should be called together.

"Except for the difficulties that have been caused by the action of the South African Republic, the condition of the world continues to be peaceful.

"Gentlemen of the House of Commons, measures will be laid before you for the purpose of providing the expenditure which has been or may be caused by events in South Africa. Estimates for the ensuing year will be submitted to you in due course.

"My Lords and Gentlemen: There are many subjects of domestic interest to which your attention will be invited at a later period, when the ordinary season for the labors of a Parliamentary session have been reached. For the present I have invited your attention in order to ask you to deal with an exceptional exigency, and I pray that, in performing the duties which guidance and blessing of Almighty guidance eand blessing of Almighty God."

ATE COSTLY SPECIMENS.

Negress Clay Eater Under Arrest at Atlanta, Ga.

Atlanta, Ga., Oct. 18.—One of the negro clay eaters of Georgia has turned up in the person of a scrub woman employed at the Capitol here, who is charged with devouring some of the finest specimens of kaolin on exhibition in the State Geological Department. The geologist discovered that five blocks of clay, which he valued very highly because of their great purity, were missing, and upon examining some of the other specimens he found on them the imprint of teeth.

Detectives were set to work upon the case, with the result that Annie Williams, a negro employed to scrub the marble floors, was accused of taking the specimens. The detectives were led to the end of the hall, where, behind a box, was found some of the clay and a snuff box belonging to the woman. There were traces of clay still upon her lips. She was taken in charge by Adjutant General Byrd.

The woman seems to have a mania for mineral specimens, and there are indications that she has been indulging her strange appetite for some time. The kaolin, for which she has displayed the greatest fondness, is a fine clay, which the State geologist recently compared with the clays of other states and found that it stood the highest fire test. The specimens taken were ninety-seven and a half per cent. pure clay.

The clay is pressed and is of about the same consistency as pencil lead.

Fire at Pocantico Hills.

Tarrytown, N. Y., Oct. 18.—Thomas Doyle, is supposed to have lost his life in a fire which destroyed a number of buildings in Pocantico Hills. The fire broke out in a barn in the rear of Caleb Horton's livery stable, and quickly spread to the stable. This was soon a mass of flames, and although the volunteer firemen fought hard to control the blaze they did not succeed. The fire communicated to Moore's grocery adjoining and burned it, and the church next door had a narrow escape. A team of horses and a number of carriages were burned in the livery stable. Doyle was not seen after the fire, and as it is known that he entered the barn before the blaze broke out it is believed that his body is in the ruins.

Blizzard Raging in Colorado.

Leadville, Col., Oct. 18.—For more than a week a snowstorm of unprecedented severity for this time of the year has been raging in the mountains surrounding Leadville. One flock of 1,400 sheep and their keeper have been lost. The name of the shepherd is not known. Heavy losses in other large flocks have been reported, and no word has been received from many other flocks known to be in the mountain pastures.

Two Tennessee Park prospectors attempted to cross Mount Leon last Tuesday, and one has just arrived in Leadville. He says the blizzard came upon them when they reached the summit. It was only by the greatest exertions that they made their way. They were almost frozen to death when they reached a woodcutter's cabin during the second night. They passed a flock of 2,000 sheep, many of which perished in the storm.

After Mt. Vernon's Inspectors.

Mount Vernon, N. Y., Oct. 18.—Superintendent of Elections McCullagh is after the election officials of this place. He says that the inspectors of the various boards of registry failed to file with the Police Department, according to the provisions of the Election Law, their sworn certificates of appointment, and also their challenge lists. The time for the filing of these certificates expired Tuesday night.

Chief of Police Foley, of this place, said that the inspectors in question were liable to arrest, but that no steps had yet been taken in the matter.

May Be a Filibuster.

San Francisco, Oct. 18.—Gen. Carlos Ezeta, former president of Salvador, who was banished from his home and whose fortune was confiscated because he was a revolutionist, has disappeared from Oakland, where he has resided for three years and is believed to be engaged in a filibustering expedition from New Orleans. It is understood that Ezeta told some of his intimate friends that he would go from New Orleans either to Mexico or Nicaragua.

Both Were Satisfied.

Tipton, Ind., Oct. 18.—Jesse Webb took the "correspondent wanted" method to secure a wife, and Daisy Weaver, a young widow, whose home was at Lafayette, wrote such attractive letters that Webb proposed marriage and was shortly accepted. This week the woman shipped her household goods to Hobbs and then followed them. The parties had never met until she stepped from the train, but both were satisfied and the marriage followed.

Will Aid the Yaquis.

Chicago, Oct. 18.—A special despatch to the Record from Austin, Texas, says that three hundred Mayo Indians have joined the Yaqui rebels at their rendezvous, near Saharipa, Mexico. In the previous wars of the Yaquis against the government the Mayos refused to become their allies, and the present action of the younger Mayo braves is strongly disapproved by the older element of the tribe.

Anti-Imperialists Meet.

Chicago, Oct. 18.—The Anti-Imperialist Conference opened here with a large attendance, and Edwin Burritt Smith welcomed the delegates. All of the speeches delivered were confined in the greater part to discussion of the situation in the Philippines and denouncing the policy of the National Administration in conducting the war against the Filipinos since Admiral Dewey's victory in Manila Bay.

Manila Newspaper Suppressed.

Manila, Oct. 18.—The newspaper Patria has been suppressed and its editor, Senor Utor, a Spaniard, placed under arrest on a charge of printing and publishing seditious documents. For some time the Patria had been hostile to the Americans. Recently pamphlets attacking the Americans and the friendly Filipinos have been circulated, and the police believe that Utor wrote and printed them.

New York Announcement.

Horner's Furniture.

The BEST IN THE MARKET because representing the productions of the best makers only. Other advantages are the unequalled assortments in all lines, whether wanted for city or country houses, and the very moderate prices at which the goods are marked.

The completeness of our assortments can best be understood from the fact that we carry in stock, and exhibit, more than *two hundred and fifty distinctively different Bedroom Sets* in every variety of material, as well as endless lines of Parlor, Drawing Room, Library and Dining Room Furniture, ranging from the modest and inexpensive to the most elaborately carved and inlaid.

In a word, every article required for use, comfort and adornment in the household can be had with its plainly marked moderate price at the Great Furniture Emporium of

I find Ripans Tabules of the greatest value for indigestion or dyspepsia, especially after a long bicycle ride when one naturally gets a ravenous appetite, and that means as a rule, over-indulgence at the dinner table; but with a package of Ripans Tabules in my pocket I find immediate relief from that full feeling by taking one or two Tabules after eating, and when ready to start home I feel light and cheerful, ready to set the pace for the whole return trip.

A number of packages containing TEN RIPANS TABULES in a paper carton (without glass) is now for sale at some ... This low priced sort is intended for the poor and the economical. One dozen ... can be had by mail by sending forty-eight cents to the RIPANS CHEMICAL ... New York, or a single carton (TEN TABULES) will be sent for five cents. MINERS' LIVES IN PERIL.

Explosion in a Mine Causes Excitement at Shenandoah City.

Pottsville, Pa., Oct. 18.—An explosion of mine gas occurred at Shenandoah City colliery, by which twenty-two men were entombed. Ten of them were rescued alive. The fate of the others is unknown. The mine took fire and the Shennandoah Fire Department went to the rescue. Great excitement prevails. The colliery is one of the largest of the Philadelphia and Reading Coal and Iron Company's operations.

All live at Shenandoah. The mine is burning fiercely and firemen are still battling the flames.

Escaped Massacre in the Soudan.

Paris, Oct. 18.—The Colonial Office has received a telegram asserting that Lieutenant Meunier, who escaped massacre with the party of Lieutenant Colonel Klobb by members of the French expedition, under the charge of Captain Voulet and Captain Chanoine, in the French Soudan, is now recovering from his wounds. Lieutenant Meunier was rescued by Lieutenant Pallier, who now commands Voulet's men, and is trying to join the Frureau-Lamy Mission, which has left Air for Damergou. The despatch does not fix the whereabouts of Voulet or Chanoine.

Defended the Trusts.

Washington, D. C., Oct. 18.—Daniel G. Reid testified before the Industrial Commission here on the trust question and among other things said that combines are a benefit to a majority of the people. Mr. Reid is president of the American Tinplate Company—or combine, and he took occasion to make it known that in his opinion the corporation of which he is the official head, pays the highest salaries of any employing industry in the world. There were several other witnesses, all of whom testified along about the same line.

Filipinos Wounded Him.

Columbus, O., Oct. 18.—Lieutenant Ira L. Reeves, of the Seventeenth Regular Infantry, formerly stationed at the barracks here, has arrived from the Philippines to visit his wife's parents, Mr. and Mrs. Captain Smith, of the Ohio Coal Traffic Association. The Lieutenant is back on sick leave of one month, which has been extended to two months longer. He has two bullet wounds in his foot and a bad scar on his cheek from a night attack of two Filipinos. He refuses to discuss the management of the war.

Organized to Fight Trust.

Pittsburg, Pa., Oct. 18.—A counter combination has been organized to oppose the American Wire and Steel Company. There are 27 woven wire fence manufacturing concerns embraced in the warring cabal. They want a steel wire mill of their own. Among the most prominent firms at a meeting in Chicago were the Pittsburg Woven Wire Fence Company; DeKalb Fence Company, DeKalb, Ill.; Lamb Fence Company, Adrian, Mich.; Kitzelman Fence Company, Indianapolis, Ind., and the Keystone Fence Company, of Peoria, Ill.

Member of Parliament Assaulted.

London, Oct. 18.—The Cork Constitution says that a few evenings ago Dr. Charles Tanner, Nationalist, Member of Parliament for the Middle Division of Cork, was abusing the Queen and the British soldiers, whereupon one of the Royal Engineers knocked him down, promising to repeat the operation if Mr. Tanner would rise. Dr. Tanner says the soldier hit him with a stone, thus causing the swelling and discoloration of his face.

Hotel Burned in Jersey.

Hackensack, N. J., Oct. 18.—The Park Hotel in Ridgefield Park was burned to the ground. It was a frame structure three stories in height, and was near the Ridgefield Park railroad station. There were about half a dozen persons in the building when the fire broke out, including the proprietor, John Steffens, and his family. All escaped from the building in safety.

Carter's Final Papers Filed.

New Yrok, Oct. 18.—Abraham J. Rose, counsel for ex-Capt. Oberlin M. Carter, filed his final briefs in the habeas corpus proceedings, in Judge Lacombe's United States Circuit Court this forenoon. The papers were filed in the judge's private chambers, and Judge Lacombe will render his decision soon.

Bonner's Will to be Contested.

New York, Oct. 18.—Robert Bonner's will has been contested, and the name of the man who was not only a successful publisher but also the owner of great trotting horses is to be dragged through the courts in a fight over rich property he left behind him. Undue influence on the part of the sons is alleged.

Brought Mines Into the Union.

Massillon, Ohio, Oct. 18.—William E. Morgan, District President of the United Mineworkers of America, has succeeded in organizing the 100 men employed at the McKinley mine at Elton. All the large mines in the district are now in the union.

Creedon Defeats Ready.

New York, Oct. 18.—Dan Creedon defeated Pat Ready of Washington, D. C., at the Broadway Athletic Club in the eighth round of what was was to have been a twenty-five-round bout. Ready was no match for the Australian.

Hotel Woodfin Burned.

Glens Falls, N. Y., Oct. 18.—The Hotel Woodfin, on the east shore of Lake George, was destroyed by fire. The house had been unoccupied since the close of the summer season, and the fire is supposed to have been the work of an incendiary.

Sampson Takes Command.

Poston, Oct. 18.—Admiral Sampson arrived here unheralded, and was unknown to the station crowd save his wife and coachman. He took command of the navy yard without ceremony.

LOVING CUP FOR SCHLEY.

Captured Spanish Coin Will Furnish the Material For the Proposed Gift.

THE MOVEMENT STARTED

Fund to Be Raised By Popular Subscription to Pay For Coin and Making the Cup.

Naval Battle of Santiago is Suggested to Form a Part of the Cup's Ornamentation—Either Gen. Lawton or Gen. MacArthur Likely to Take Shafter's Place.

Washington, Oct. 18.—Among the articles recovered from the Spanish war ships, sunk during the battle of Santiago, was a money chest containing a large amount of Spanish silver coin, which was found in the Cristobal Colon. The chest was brought to Washington, and sold by the Navy Department to a firm of brokers in this city and has never been opened because it was understood at the time of the sale that the box should not be opened except in the presence of the department officials. In his official report to the Madrid Government, Admiral Cervera stated that all the Spanish gold sent to Santiago for the officers and sailors of the Spanish fleet had been paid to the men, but the silver coin was put in a money chest on the Cristobal Colon and was lost with that vessel. The firm of brokers now owning this chest have conceived a novel method of disposing of the coin. They propose having it melted up and made into a loving cup, to be presented to Rear Admiral Schley. On the cup will be depicted the naval battle of Santiago and the relief expedition finding Gen. Greely, events in which Admiral Schley played a most conspicuous part. It is proposed that a fund be raised by subscription to pay for the coin and making of the cup, and that the subscribers' names be engraved on the gift. The plan has just been conceived, and as yet only a few prominent men have been asked to subscribe, but there is little doubt that the scheme will be successful, and that the Spanish coin will eventually be made into a loving cup.

To Take Shafter's Place.

Washington, Oct. 18.—It may be some time before the vacancy in the rank of brigadier-general, caused by the retirement of Gen. Shafter, will be permanently filled. Promotion by seniority in rank ceases with that of brigadier-General, and therefore it remains with the President to select any officer he may see fit to promote to that grade. It is understood that some of the colonels who are near the time of retirement will be advanced, and will be allowed to retire with increased rank and pay, and thus many gallant officers who saw service in the civil war, and who stand little chance of promotion now in the regular order, may be promoted and then retired, making places for some one else. It is thought that eventually Gen. Lawton or Gen. MacArthur, both of whom are now rendering distinguished service in the Philippines, may be made brigadier-generals and hold the rank until they retire. There is some talk of the President rewarding Gen. Leonard Wood in this way. The latter is now a brigadier-general in the volunteer service, and when this expires will go back to his old place in the medical corps of the regular army.

Thompson's License Revoked.

Washington, Oct. 18.—Supervising Inspector General Dumont has been officially advised by the local United States steamboat inspectors at New York that they revoked the license of Capt. Thompson of the steamboat Glen Island, who was charged by Capt. Robley D. Evans with obstructing the course during the first day of the yacht races at New York. Capt. Thompson refused to deliver up his license, but Gen. Dumont says that that is immaterial, as the Captain is no longer recognized by his office, and should he attempt to practice his profession, not only would he be liable to fine and imprisonment, but those who employed him would be liable also. The matter may come here on appeal, but thus far no notice to that effect has been received.

President Promotes Army Officers.

Washington, Oct. 18.—President McKinley has telegraphed the Secretary of War an order promoting to the grade of Brigadier General the following officers: Colonel A. C. M. Pennington, Second Artillery; Colonel Royal T. Frank, First Artillery; Colonel Louis H. Carpenter, Fifth Cavalry; Colonel Samuel Ovenshine, Twnety-third Infantry; Colonel Daniel W. Burke, Seventeenth Infantry.

Wouldn't Indict Missing Treasurer.

Freehold, N. J., Oct. 18.—Believing that the man was burned up in the Windsor Hotel fire, the Monmouth Grand Jurymen have refused to indict Collector Desch, of Seabright Bureau, in whose accounts there is an apparent shortage of $1,675. Some believe that he absconded.

Located the Typhus Patient.

Binghamton, N. Y., Oct. 18.—One of the persons suspected of having typhus fever, who escaped from a steamship in Philadelphia, and for whom the health officers are looking, has been located here.

Hundreds Fighting Fire.

Bourbon, Ind., Oct. 18.—For the last forty-eight hours a terrible fire has been raging near here in the rich prairie farm lands, which is completely ruining many fine farms. Hundreds are fighting the fire.

Would Germany Abandon Samoa?

Berlin, Oct. 18.—The Neueste Nachrichten says the Colonial Council has adopted a resolution declaring it to be compatible with German colonial interests to abandon Samoa in case a sufficient indemnity is received.

FACTS ABOUT PLAINFIELD.

(The accompanying facts about Plainfield are for the information of the non-resident public and do not recognize the dividing line between the city of Plainfield and the borough of North Plainfield, except when such a distinction is necessary in describing a municipal institution)

CLUBS—Ten.
BANKS—Three.
HOTELS—Seven.
SEWERS—24 miles.
GAS—20 miles of mains.
CHURCHES—Thirty-five.
BONDED DEBT—$120,000.
PUBLIC SCHOOLS—Eleven.
SOCIETIES AND LODGES—Ninety.
POLICE—Nineteen paid members.
POSTOFFICE—Free delivery of mail.
FREE PUBLIC LIBRARY—18,000 volumes.
BUILDING AND LOAN ASSOCIATIONS—Ten.
NEWSPAPERS—Five; two daily; three weekly.
THEATRE—Music Hall; seating capacity, 1,000.
TELEGRAPH—Postal Telegraph and Western Union.
TELEPHONE—Local and long distance; 500 local subscribers.
HOSPITAL—Muhlenberg; ward capacity, 20; emergency, 30.
STREETS—Seventy miles graded; thirty-seven macadamized.
WATER SUPPLY—Artesian wells; forty-five miles of mains.
TAXABLE VALUATION—City, $8,000,000; borough, $2,250,000.
COUNTY—Plainfield in Union; North Plainfield in Somerset.
POPULATION—City and borough, 20,000; immediate suburbs, 5,000.
FIRE DEPARTMENT—Eight companies; paid drivers; four departments.
ELECTRIC LIGHT—Incandescent and arc in every part of city and borough.
STREET RAILWAY—Nine miles of track; cars run every 12 minutes from 5:30 a. m. to 12 p. m.

October 19—Firemen's parade at Somerville.
October 20—Broom and brush sale at Crescent Avenue Presbyterian church.
October 20-22—State conference on boys' work of the Y. M. C. A., of New Jersey.
October 22—State Secretary MacColl at the Y. M. C. A., 4:15 p. m. Subject, "The Wonderful Book." Chas. L. Lewis will sing.
October 22—Boys' rally of Y. M. C. A. at First Methodist church, 4:15 p. m.
October 23—Union Bible class taught by Rev. D. M. Stearns, Y. M. C. A. Hall, 7:45 p. m.
October 30—Y. M. C. A. Star Course.

Passaic Answers Mr. Bergen.

The illogical reasoning of Frank Bergen, the corporation lawyer who has been employed to attempt to hypnotize the members of the Common Council into not granting a franchise to the People's Gas Company, which promises $1 gas in opposition to the present monopoly, has attracted considerable attention from other parts of the State where cheaper gas is also desired. For instance, here is the Passaic News man summarizing Mr. Bergen's argument thuswise:

"What is the use of letting a company come in and cut gas from $1.90 to $1?" Mr. Bergen asked. "You will have all the streets torn up again. The old company will cut the price to 75 cents or, perhaps, 50 cents, and the new company will have to meet the cut. Both will lose money for a while. Then the new company will fail, or the two will consolidate, and up goes the price of gas. Better let the old company reduce the price to $1.25 and let well enough alone."

And then the News editor, adapting his words to the situation in Passaic, comments:

If we were running ex-Mayor Brown's new gas company we should fix the price of gas at $1 and let it stay there. Then let the old company do all the cutting it wanted. We would say to the public: "Gentlemen, the old company used to charge $1.50 for gas. Since we have been selling it for $1 it has cut the price to $75 cents. It wants us to follow suit, lose money and go broke. Just as soon as it puts us out of business up goes the price to $1.50. We can't afford to sell gas at 75 cents. Neither can the old company, and it won't do it long. You can better afford to pay us $1 for your gas than pay it 75 cents for a short time and $1.50 forever after."

We would shout this so loudly and persistently as to set every customer of both companies thinking, and we believe they would take the $1 gas in preference to the 75 cent gas.

Now, the people of Plainfield may be the set of short-sighted simpletons that Frank Bergen imagines, but we don't think so. They will do what the New York business men did—keep the opposition alive.

The number of fools is no greater to the acre in Passaic than it is in New York or Plainfield. If the new gas company sells gas at $1 and the old company offers it at 90 cents the new company will get most of the business unless the old company will make five-year or ten-year contracts at 90 cents.

Mr. Bergen should remember that the average man has horse sense. He can see through a knot hole just as far as a gas company lawyer can. Mr. Bergen knows that, with opposition out of the field, gas would would go up again. The gas consumer knows that, too.

THE CAPTAINS OF THE RIVAL YACHTS.

"Great boats calls for great men," said the Hibernian mate of one of the floating palaces on the lower Mississippi in the days "before the war," and the modesty of the remark made him famous from St. Louis to New Orleans. All yachtdom, and the rest of the world, agree that the Columbia and Shamrock are great boats, and Captains Charles Barr and Archie Hogarth, their respective commanders, are great in their special field. Much depends upon how a yacht is handled in a contest with a rival and the chief responsibility in this regard rests upon the captain

The Newark Sunday Call sounds a note of warning in the following editorial, the subject of which will undoubtedly become of profound interest to New Jersey before long: "A great wrong is threatened New Jersey, and especially the people of Essex, Morris, Sussex and Warren counties, by the proposed law for the abandonment of the Morris canal, giving all the rights of the State and the people to the Lehigh Valley Railroad Company, a corporation which is already notorious for robbing the State. The measure was introduced last year, but it was then only proposed to feel the pulse, and it is now believed that the lobbyists are prepared to buy it through the Legislature, Its passage would be worth the hundred thousand dollars which the Lehigh Valley Company would spend for it, and that company is not restrained by conscientious considerations, if it could get the profit which the outrageous law would yield it. Every citizen is interested in defeating the swindle, and it is necessary to be armed in advance, as the advocates will spare no effort and will use every device known to legislative halls to get their plunder."

The recommendation of the State Charities' Aid Association committee, of which David P. Hall, of Plainfield, is chairman, that unruly girls in the State Industrial School be compelled to remain in bed several hours a day until their tempers have been curbed, has an air of novelty about it. Doubtless it would be very effective in maintaining discipline. The average girl who is sent to the Industrial School for reformation is not lazy; rather her unfortunate tendencies that need corrective influences are due to a superabundance of spirit that parents and guardians have been too passive with until too late. Compulsory occupation of a bed would certainly be a burden and punishment for such girls, though there would be no inhumanity such as has prevailed in some of the methods of discipline that this plan is designed as a substitue for.

The Elizabeth and Westfield Street Railway Company, a corporate outcome of the Plainfield Street Railway Company, is knocking at the municipal door of Elizabeth for entrance into that city. All the other towns between Plainfield and Elizabeth have given the company the right of way, and the trolley tracks are now at the Elizabeth city limits. It seems likely that Elizabeth will allow the company to enter its domain, which means the completion of one of the most important trolley links in New Jersey.

The State Charities Aid Association of New York has received a report from a special committee saying that the number of children placed in institutions at public expense as destitute has risen far beyond the normal ratio, and the evil is thought to be growing rapidly, due to the increasing tendency of people who do not need public charity to avail themselves of it.

The merchants of New Brunswick pulled off their free excursion of bargain seeking women yesterday. It is said to have been a great success and to have amply repaid the New Brunswick merchants for their enterprise.

It is Plainfield's turn next.

The Daily Press has printed more authentic political gossip about Union and Somerset county politicians than any other paper in the two counties since the preliminary campaign was started.

Chairman Jones, of the Democratic National committee, would make Rear Admiral Schley an issue in 1900 by assuring his appointment as secretary of the navy in the event of Democratic success.

The meanest man has been discovered. He is a West Virginian who forcibly took possession of the cork limb of a one-legged man who was his debtor.

Sir Thomas Lipton lost his top-sail, but not his nerve. Sir Thomas is a genuine sport.

A Boss Harmonizer is badly needed in both parties in Somerset county.

WHAT THE SHEARS FIND

Editorial Comment From Other Papers of Interest in Plainfield.

A despatch from Plainfield to the New York Press announces that James E. Martine, the "Farmer Orator," has induced Congressman Daly not to organize a new Democratic State committee and hold a separate State convention this year. Mr. Daly will fall in behind the regular organization, according to Mr. Martine's announcement. If this be true, Mr. Martine is greater as a harmonizer than the Hon. Garret Augustus Hobart, who is quite some pumpkins at that himself. A man who can graft a silver wing on a gold-bug and persuade the insect that it will be able to fly straight, is a wonder.—Passaic News.

Bismark's Iron Nerve

Was the result of his splendid health. Indomitable will and tremendous energy are not found where Stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25 cents at L. W. Randolph's drug store.

EARLY INTELLIGENCE.

—Next week Tuesday Winfield Scott Post, No. 73, G. A. R., will elect officers for the ensuing term.

—The board of governors of the hospital will hold a meeting Monday evening, October 30th, at the Public Library.

—It is likely that at the meeting of the Woman's Relief Corps, to be held next week Friday, the annual inspection will occur.

—The meeting of Franklin Council, No. 41, Jr. O. U. A. M., to be held tomorrow evening, should be attended by every member, as important business will be considered.

—Miss Jenkins, of 306 East Sixth street, has reopened her millinery parlors for the fall season at that address, and has a full line of the latest things in the millinery business.

GIVE THE CHILDREN A DRINK

called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder, and children, as well as adults, can drink it with great benefit. Costs about ¼ as much as coffee 15 and 25c.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

-:- A MOST -:-
Extraordinary Sale
of Fine Clothing.

A Sale that gives you an opportunity to buy your fine Fall and Winter Suits and Fall and Winter Overcoats and Trousers

At ⅓ the Manufacturer's Prices.

HERE IS THE STORY:

We closed out the entire stock of a large manufacturer of few days ago securing over $6,000 worth of the finest and most up to-date men's dress suits, business suits and trousers at a mere fraction of their value and we will place them on sale this Saturday morning.

Over 500 styles in suits and overcoats to choose from; this is without a question the greatest offering in men's apparel Plainfield has ever seen, and one that every man and woman intending to buy clothing this season should take advantage and note these extraordinary prices.

MEN'S FALL COVERT TOP COATS—Very stylish in appearance, made of strictly all-wool materials, regular $10.00 garments, at this sale $3.75.

MEN'S STRICTLY ALL WOOL TOP COATS—Exceedingly stylish, guaranteed to be worth $12.50, will close out what is left at $5.00.

MEN'S ALL WOOL BUSINESS SUITS—Made of black or blue cheviots and mixed cassimeres. These suits are made up in this season's styles and patterns and would easily command in other stores from $8.00 to $10.00; we will sell them at an unusual low price, $3 50 and $3.90.

MEN'S SACK COAT SUITS in striped worsted and checked cheviots, neat, stylish and well made, easily worth $15.00, your selection at $6.50.

MEN'S BLACK CLAY DIAGONAL COATS and VESTS—Winter weight sack or cutaway, guaranteed to be worth wholesale $9.00, to go at this sale at $4.50

CHILDREN' VESTEE SUITS—Age 3 to 8, and boy's double breasted suits 7 to 16, all-wool in blue and fancy cheviots at $1.00, $1.50 and $1.75, worth $3.00.

YOUTH' SUITS with long trousers, ages 14 to 19, in blue and black serges, single or double breasted, a $10.00 suit, at $5.75.

Men's blue or black welton overcoats, worth $10.00, at $4.50, and hundreds of other fine coats in proportion.

Men's suspenders at 6 cents, worth 25c. All-wool half hose at 9c, worth 25c

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Daily Press.)

Dunellen, October 18.—The funeral of Miss Ruth Williams, the young woman whose sudden death was noticed in The Press, was held at the home of the deceased's brother yesterday afternoon. There was a large attendance, many friends of the family from Westfield being in attendance. Rev. Dr. Jamison, pastor of the Methodist church, officiated. The body was taken to Westfield for burial.

Since the robbery at the home of J. B. Coriell last Saturday night it has since been learned that burglars also entered the homes of George Coriell at New Market, and attempted to enter that of Daniel Sampson, of the borough. At the home of George Coriell the thieves secured but 23 cents. Several suspicious persons were seen about New Market Sunday afternoon.

The unsatisfactory test of the water works last Saturday evening is the topic of conversation among the citizens of the borough. The question of accepting the water will come up at the next meeting of the Council. The general opinion is that the water should show a better test than the one made Saturday.

Miss Caroline Fisher, daughter of Mr. and Mrs. Jacob Fisher, will be married this evening to Charles B. Mattis, of Plainfield. The ceremony will be performed at the home of the bride's parents on Front street at about 5 o'clock.

Seven cars loaded with chestnut posts have arrived at this station. They are to be used by the Central Railroad to fence in their property, which is to be done along the entire line from Jersey City to Somerville.

About forty members of William G. Holton Council, who visited Somerville Monday evening, report a good time. The boys made the trip by trolley cars. It was about 1 o'clock when they reached home.

The waiting room which has been built by Messrs. Woodhull & Martin at the trolley terminus, is completed. It will be covered with the business announcements of that firm.

Some improvements are being made to Friendship Hall at New Market. The place is being papered and otherwise made more cheerful and inviting.

The Board of Registry was in session all day yesterday at the borough hall. An increased number of names have been added to the list.

There are letters at the postoffice for Angelio Marino, Miss Alleta McDonald, William Hart and Jennie Hart.

The Dunellen Band will meet this evening for practice.

PLAINS AND FANWOOD.

(Special Correspondence of The Press.)

Scotch Plains, Oct. 18.—Thieves broke into the Robert L. Thomae house, near Washington Valley, sometime during the past week and stripped the building of lead pipe, faucets etc. The place, until a week ago, was occupied by Charles Nichols and family, but since their removal to Fanwood the house has been vacant. Yesterday Mr. Thomae had occasion to go to the house and then the theft was discovered. It is only a few weeks ago, while Mr. Nichols and family were occupying the place, that the hired man upon coming to work in the morning found the back porch ablaze and it was only by the hardest kind of work that he and his employer were able to save the house from distruction. Mr. Thomae has offered a reward of $50 for information that will lead to the arrest and conviction of the thieves.

Quite a large delegation of the members of the Baptist Sunday-school attended the convention held in the Park Avenue Baptist church in Plainfield yesterday.

The Board of Registry met in the town rooms yesterday from 10 a. m. until 9 p. m. to revise the registry list for the coming election.

Mrs. Charles Dout, who has been spending a week with her sister, Mrs. Wm. Gere, has returned to her home in Brooklyn.

Mr. and Mrs. Peter Smith and family, of Lincoln, have been visiting relatives and friends in town.

The quarterly meeting of the Public Library Association was held in the library rooms last evening.

Irving Quereau, of New York city, has been the guest of Mr. and Mrs. George W. Randolph.

Mrs. Thomas M. Paff, Jr., has been entertaining her mother, Mrs. T. A. Gere, of Brooklyn.

The Sacred Literature Club meet in the church parlors this evening.

Miss Bella Mercier spent Tuesday with her sister in Plainfield.

Miss Emily Schiener visited friends in Plainfield yesterday.

THE HOUSE FROM KITCHEN TO PARLOR, POTS TO STATUARY, PAINT TO MIRRORS.

WESTFIELD.

(Special Correspondence to The Daily Press.)

Westfield, Oct. 18—The seventh annual meeting of the Children's Country Home Association was held Monday. The report of Mrs. R. R. Sinclair, the treasurer, showed the home to be in a flourishing condition. During the year collections to the amount of $1,096.21 has been received and only $464.82 has been spent, which leaves a balance in the treasury of $631.39. The nominating committee, consisting of Messrs. Martin Welles, T. B. Green and James S. Ferris, presented the names of the following ladies for members of the board of managers of the home and on motion they were elected: Mrs. J. S. Ferris, Mrs. H. C. Sergeant, Mrs. F. B. Ham, Mrs. W. B. Miller, Mrs. C. F. Conant, Mrs. W. H. Morse, Mrs. H. E. Naething and Miss Steebe. Messrs. Martin Welles, James O. Clark, C. G. Endicot, Harry E. Knight and John Platt were appointed members of the advisory committee:

The attraction at the Social Club bowling alleys the coming season will be a headpin tournament. This game was the invention of E. J. Whitehead, the president of the Social Club, and it is now played all over the country. The first prize in the coming tournament will be a gold watch valued at $35.

The home of Howard Manning on Picton street was the scene of much merriment last evening when a large number of his friends tendered him a surprise party.

Mr. and Mrs. Charles MacDougal, of Ross place, entertained a large number of relatives last evening, it being the tenth anniversary of their marriage.

—If your glasses no longer suit you, we can quickly remedy the trouble. Glasses put in your old frames if you wish. Examination free. Leech, Stiles & Co., at 107 East Front street, every Thursday.

THE AMUSEMENT WORLD

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local and Metropolitan Performances That Will Please Those Who Delight in the Art of Thespis and Mimic World

A thoroughly up-to-date farce comedy which is said to have no superior presented by artists who have a reputation, and interspersed with specialties such as are seen in the best metropolitan vaudeville houses and more is promised on the visit of "Mr. Plaster of Paris" to Music Hall tomorrow night for a limited engagement of one night only. The promise has a very good guarantee of fulfillment as it is made by Mr. Joseph P. Harris so long a manager for Primrose & West and the fact that the long list of artists named are very familiar in the realm of comedy. No play of its class in recent years has achieved the success attained by this popular farce comedy and the sayings of Mr. Plaster who may elect to come from a score of places called Paris has become familiar on the street. The comedy is bright, the music catchy, there are pretty costumes worn by prettier girls and all the elements that go to make up an enjoyable entertainment.

* * * * *

The frisky London novelty, "The French Maid," which had a run of 307 nights at the Hearld Square Theatre, New York, and 512 nights at Terry's Theatre, London, England, will be presented in all its entirety at Music Hall Tuesday night of next week. The complete and original scenic and costume equipment is used in the production. There are over 50 people in the cast, with large chorus and ballet, and among the artists are Hallen Mostyn, Frank Blair, Henri Laurent and Edith Murilla.

PARTICULAR MENTION.

Mrs. Isaac Brokaw, of Somerville, is visiting friends in this city for a time.

Edward F. Randolph, of West Fourth street, went to Philadelphia today on business.

Mr. Hunt, of Washington Park, left this morning for Washington, where he will remain for a short time.

T. R. Crosley, of Duer street, left today for Mt. View, near Paterson, where he will take up his residence with his son-in-law, Rev. Charles E. Scudder.

Volcanic Eruptions

Are grand, but Skin Eruptions rob life of joy. Bucklen's Arnica Salve, cures them, also Old, Running and Fever Sores, Ulcers, Boils, Felons, Corns, Warts, Cuts, Bruises, Burns, Scalds, Chapped Hands, Chilblains. Best Pile cure on earth Drives out Pains and Aches. Only 25 cents a box. Cure guaranteed. Sold by E. W. Randolph, Druggist.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

Frank M. Bacon, of this city, has gone to Fredericksburg, Va., on business.

Miss Emma Dodge, of Bayonne, has been visiting relatives in this city for a few days.

Robert A. Suffern, of Sycamore avenue, has gone to Philadelphia to spend a few days.

Mrs. J. C. VanDyke, of East Front street, has returned from a visit with Dunellen relatives.

Albert Finch, of Belvidere avenue, left yesterday to spend the winter at Birmingham, Ala.

George Dufford, of Second street, is enjoying a visit from his father, from Middle Valley, N. J.

Miss Swackhamer, of Whitehouse, has returned home after a visit with relatives in this city.

Miss Maude VanDyke, of East Front street, is visiting relatives and friends at Somerville.

Miss Alice Miller, of LaGrande avenue, has been entertaining her sister from Northport, L. I.

Frank Linbarger, of Red Bank, has been visiting Plainfield relatives and friends for a short time.

Mrs. S. S. Swackhamer, of the borough, has returned from a visit with relatives in Hunterdon county.

Mr. and Mrs. Ephraim Compton, of this city, are receiving congratulations over the arrival of an heir.

Miss Abbie VanCleef, of Plainfield avenue, who has been spending a few days at East Millstone, has returned.

Miss Ida Demler, of Washingtonville, who has been ill for a long time, seems to be slightly improved

F. L. C. Martin, of Park avenue, leaves today for Buffalo and Niagara Falls, where he will be absent a week.

John Mitchell, of Seton Hall College, has been the guest of Mr. and Mrs. John McIntyre, of North avenue.

Deputy Grand Master Workman Nash paid a fraternal visit to Success Lodge, A. O. U. W., of Newark, last night.

Mrs. G. Q. Packer, of East Sixth street, will not make her home in Newark as heretofore stated. She will remain in Plainfield.

There is no change in the condition of Mrs. Fred Rose, of this city, who has been critically ill for sometime, and her friends are concerned for her recovery.

George Moore, of East Fifth street, who was injured sometime ago while riding his wheel, and who was detained at home in consequence, is now able to go out.

Mr. and Mrs. Charles Johnson, who were married last week, will take up their residence at Cranford, where the groom is employed at the railroad station of the Central Railroad.

Rev. Mr. and Mrs. Fitch, of Caldwell, Essex county, attended the East New Jersey Baptist Sunday-school convention yesterday, and were greeted warmly by many of their Plainfield friends.

City Judge William N. Runyon, of East Ninth street, has gone to New Haven to attend the inauguration of the new president of Yale University, Prof. Hadley. He will return tomorrow morning.

Miss Jessie Munger, daughter of Mr. and Mrs. H. Raymond Munger, of Washington avenue, has sailed for home from Naples in the steamship Verra after a trip abroad of several months' length.

Mr. and Mrs. J. W. Perry and Mrs. M. T. West, all of Crescent avenue, left for Providence Sunday where Mr. Perry spoke at the inauguration of President Faunce, of Brown University, which was held Monday.

Invitations have been sent out by Miss Pierson, daughter of Mr. and Mrs. Israel C. Pierson, of Watchung avenue, for a progressive euchre party to be given Tuesday afternoon, Oct. 24th, in honor of her friend, Miss Corbett.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free.

-:- DIRECT -:-

from the Manufacturer to the Consumer.

For the past three weeks we have been very busy bringing from our factory bundle after bundle of our Fall and Winter stock and arranging them on our tables. We didn't say a word about them because we wanted to display our line in full and then scream.

NOW WE'RE READY TO SCREAM.

We never scream unless we have something to scream about, and we won't scream about anything that we can't substantiate. We are showing as extensive a line of clothing as any store in the vicinity, and the prices are right. The cut and finish is there and all extra profits are off. Besides our staple blacks and blues, we are showing a variety of up-to-date worsteds, with and without double breasted vests in stripes, checks and plaids. Everything that the designers art and fine tailoring can do is in them. We are proud of our stock and want everybody to see it. Come and look at it whether you want clothing or not, you will be treated right.

Below We Quote a Few Prices:

Men's Black and Blue Cheviot suits 2.75, 3.75, 4.25, 7.25, 8.00 and 9.00.
" Fancy Cheviot suits 3.25, 4.25, 5.00, 6.00, 8.50.
" Fancy Worsteds, elegant 7.50, 9.75, 10.50, 11.00.
Boy's long pant suits 3.00 to 8.75 Child's knee pant suits 95c to 4.00.

Winter Overcoats are being placed in stock now.

Lokal-Nachrichten aus der alten Heimath.

Aus der Rheinpfalz.

Landau. In Niederschlettenbach erstach im Streite der Tagelöhner Johann Hoff seinen Schwager Flory. Der Mörder wurde verhaftet.

Ludwigshafen. Der pfälzische Blätterwald erhielt durch eine zweimal täglich erscheinende Zeitung Zuwachs. Das neue Organ erscheint im Verlags der Firma Julius Waldkirch u. Co. dahier und betitelt sich „Pfälzische Rundschau," unparteiische Zeitung für nationale Politik.

Württemberg.

Stuttgart. Hier starb der Ehrenschützenmeister der Stuttgarter Schützengilde, Bankier Adolf v. Vellnagel im Alter von 95 Jahren. Vor 25 Jahren war er Präsident des damals hier abgehaltenen deutschen Bundesschießens. —Seit den Kaisertagen werden auch von den hiesigen Offizieren vielfach die im vorigen Spätjahr im deutschen Heer probeweise eingeführten neuen Mäntel getragen. Dieselben sind von grauer Farbe, weit, mit blauem Kragen, ohne Aermel und reichen bis zur Kniekehle. Sie werden nach Art der Wettermäntel als Ueberwurf getragen. Das Bekleidungsstück erscheint bequem und praktisch.

Aalen. Die Bierbrauerei von Rheinhold Bräuchler „Zum Hecht," jetzigem Direktor der hiesigen Ziegelwaarenfabrik, ging um den Preis von 140,000 Mark in den Besitz von Bierbrauereibesitzer Härer von Feuerbach über.

Altbach. Das städtische Wasserwerk in Stuttgart läßt gegenwärtig verschiedene Probeschächte auf den Güterstücken zwischen hier und Plochingen ausführen, um dadurch den Grundwasserstand der Gegend feststellen zu können. Die Ausführung dieser Arbeit dürfte mit dem Plan, Stuttgart mit Quellwasser zu versorgen, im Zusammenhang stehen.

Pfullendorf. Der hiesige Bürgerausschuß genehmigte einstimmig 160,000 Mark zur Kanalisirung der Stadt und zur Tieferlegung und Verschönerung des Stadtteiches. Die Mittel sollen durch Spital- und Sparkassenüberschüsse, sowie durch außerordentliche Holzschläge aufgebracht werden.

Röthenbach. Im Laufe dieses Sommers wurde hier eine Uhrenfabrik gegründet, die demnächst in Betrieb gesetzt werden soll. An Stelle der früheren Erlenmühle, an deren Umbau zur Zeit gearbeitet wird, soll in Bälde ein industrielles Etablissement erstehen.

Uhingen. Die in den letzten Jahren von hier nach Holzhausen neu gebaute Straße wurde von Oberbaurath Grauer und Baurath Angele übernommen und damit die alte, theilweise sehr steile Straße—Steigung bis 18 Prozent —außer Betrieb gesetzt. Der Kostenaufwand betrug 38,000 Mark, wovon der Staat 11,000 Mark, die Amtskörperschaft Göppingen 9500 Mark und die hiesige Gemeinde 4500 Mark leisteten.

Baden

Karlsruhe. Unter dem Verdacht betrügerischen Bankerotts und begangener Wechselfälschung wurde der Besitzer der Buntweberei Münzesheim, J. Wörle, verhaftet.

Bruchsal. Eine hiesige Viehhandlung sandte dieser Tage einen Transport von 27 Zuchtfarren und Kalbinnen Simmenthaler Rasse, Meßkircher Zucht, nach Nordamerika. Die Sendung ist für eine große Farm in der Nähe von Philadelphia zur Kreuzung mit amerikanischem Vieh bestimmt. Es ist die zweite Sendung, die die Firma in diesem Jahre nach Amerika expedirt.

Mannheim. Bei der Stadtverordnetenwahl der dritten Wählerklasse erhielten die Sozialdemokraten 4095, die Nationalliberalen, welche sich mit den Ultramontanen verbunden hätten, 1185 und die Freisinnigen 355 Stimmen. Bei der letzten Wahl (im Jahre 1896) wurden 3798 sozialistische, 1913 nationalliberale und 418 freisinnige Stimmen abgegeben. Damals stimmte das Centrum für die Freisinnigen.

Walldürn. Dieser Tage wurde die von Baden und Bayern erbaute Verbindungsbahn Walldürn-Amorbach dem Verkehr übergeben. Diese Strecke ist eine Fortsetzung der badischen Nebenbahn Seckach-Walldürn, anschließend an die bayerische Bahn Amorbach-Miltenberg.

Elsaß-Lothringen.

Straßburg. Hier ist der altelsässische Rentner und Schriftsteller Paul Ristelhuber im Alter von 65 Jahren gestorben. Er war ein eifriger Sammler auf dem Gebiete der elsässischen Geschichts- und Alterthumskunde und hat sich früher auf diesem Gebiete vielfach literarisch bethätigt.

Gebweiler. In Bollweiler ist der Stationsassistent Bachmeyer unter Mitnahme von Kassengeldern durchgebrannt.

GOWNS FOR FALL.

Most of Them Are Elaborately Trimmed With Braid—The New Jackets.

So much discrimination is shown in the use of braid that it is one of the most pleasing as well as refined trimmings for almost all woolen dresses and many wraps. Braid is always pretty, no matter how much or little there is of it.

The other day I fell in love with a fawn and brown shepherd check suit. The skirt had three clusters of three rows each of brown castle braid around the bottom. There was a tight basque with three narrow lines all around it. The bust part was cut out and filled in with seal brown velvet, and the high medici collar was faced with it.

Another gown had a tunic cut in points, each outlined with narrow

PRETTY FALL STYLES.

black soutache. The material was dark blue imperial serge. The waist was nearly covered with lines of the braid. Other designs there are in almost endless numbers. One very elegant suit was of stone gray whipcord. There was a tunic overskirt, lapping up high at the left side to display the underskirt. There were three rows of half inch hercules braid in black, laid so close to each other that they almost touched. The skirt had row after row of the braid, reaching fully to the knees, set so closely that scarcely a sign of the material of the dress showed.

The belt was a row of wider braid, with a gilt buckle at the waist. The bodice closed to the right, surplice fashion, and was cut away at the neck to show a vest front, also braided, but in vermicelli design. There was a rolling collar in surplice shape, and on this were three rows of the braid. At 7 cents per yard the braid must have cost quite a penny, let alone the labor.

Still other fancies in braidings show several rows of titan braid, sewed flat and close together, turning into curlycues at the ends, on sleeves, collars and sometimes in the backs. Some very neat and attractive skirts have panels and one side of the front breadths richly braided. This is done by machine, and the patterns are elaborate and handsome.

Braid as a trimming is always pretty and never obtrusive. It is suitable for any woolen material. The silk and metal braids are also often seen on rich silk gowns. Silk soutache and cut jet are used to ornament the velvet garments, of which we shall see so many in a few weeks.

Of a verity the jaunty little jackets of this season are the prettiest ever before made, and the variety is simply astonishing. There are those with square fly fronts, others slashed, scalloped, pointed, sloped and mercy knows what else. Many of these are richly braided with fine soutache, while others gain their style by a broad effect in one row of titan braid brought in a curved line. Some have no visible buttons. Others have 10 and 12. There is something for every one's taste—and purse.

The velvet coats are superb. There are several styles of these. One, and, I think, the richest, is a sort of half fitting princess shape reaching nearly to the knees. It is lined with fine satin or silk and in many cases bordered with fur and elaborately beaded, braided or hand embroidered. The embroidery where it is picked out with fine cut jet beads is the finest. All kinds of wraps and velvet coats may be trimmed with jet and passementerie, some being black and others being in rich dark colors, such as plum, garnet, etc.

There are some queerly shaped wraps where the waist is snug and resembles an Eton around the bottom, but the collar is as high as the law and one's ears will permit, and the sleeves are loose, hanging affairs, more like a cape than anything else.

One of these was made for a bright little lady whose taste is fine. It was of white broadcloth. The waist portion was covered with an arabesque design in gold soutache. There were seven rows of the braid around the sleeves, set very closely. There were six gilt and cut crystal buttons on the front near the neck, three on each side. Needless to say that they were for ornament, not use.

There are numbers of beautiful tailor made velvet suits, mostly black, but they are too costly for everybody and doubly so since velvet will not bear rain or snow, while winter woolen stuffs are expected to stand everything, especially the cravanetted fabrics. There are new ways of trimming woolen dresses which I may mention here.

One is the arrangement of velvet ribbon rosettes. These are enjoying an unexpected popularity.

HENRIETTE ROUSSEAU.

WOMEN'S MOUTHS

A Philosopher Says That Character is Shown in The Lips.

A certain philosopher declares that a woman is known by her mouth. Not by the words that issue therefrom, but by the shape and color of the lips, and the lines and dimples that gather about this important feature. He is supported in his theory by physiognomists, who all endeavor to impress us wtih the fact that no woman with the small, red lipped "Cupidon" mouth, so praised in song and story, was ever intellectual or generous of heart and it is consoling to those whose mouths are not in accordance with the lines of beauty laid down by the poets to be told that a "wide, straight mouth, with strong, white teeth," denotes the woman of superior intelligence, goodness of heart, strength of mind, and a thousand and one other sterling qualities which we all like to think we possess. It is the fashion at present for women to hold their lips very slightly apart. This is supposed to give that innocent, wistful, wondering expression which was the peculiar property of the heroines of old fashioned novels, but which bicycle riding and kindred modern amusements have caused to vanish. It is difficult for the thin-lipped, determined woman to acquire this trick, but perseverance works wonders.—Woman's Life.

House Water and Rain.

Flowers know the difference between a rainstorm and a drenching from the garden hose. You may deluge them with barrels from the hydrant, and they will, as best, simply hold their own. Generally they wither in the long, dry seasons, and that without regard to the artificial wetting they may receive from the gardeners. But let a little shower, however brief, fall upon them, and they brighten visibly. The difference is that the rain brings down with it through the air or collects in the air a chemical quality that the vegetation needs. The rain water may be as like that in the lake as two volumes of water can be. But when it has ridden the upper levels of the atmosphere, when it has traveled through the various stages of vapor and liquid, and has tumbled down through that retort of the air, it has become charged with elements that no man can give it. And the flower knows and recognizes it, as the first field flowers recognized it in the begining. "Uncle John" Thorpe used to understand this at the time of the World's Fair, and whenever he could be would lift the roof sashes of the Horticultural Building in a rainstorm and treat his flowery pets to the drinks they craved.

The Use of Thimbles.

The use of thimbles has only been going on about 200 years. They were invented by John Lofting, who was a metal worker in London. The familiar expression, "a thimblefull" of anything, could not have been used in those days, as the thimble was made with an open top and was worn on the thumb. From this it was called a thumb bell. The first of these was made of iron or brass, and a few specimens are still preserved as heirlooms. Later, more precious metals were manufactured into thimbles, and even ivory and mother-of-pearl were used.

In China high-class women had thimbels carved from real pearls of great size and value. These are covered with chasings rough enough to catch the needle. There is always a thimble case of mother-of-pearl. To go with this case Chinese women have the daintiest of scissors carried in a sheath of pearl and a needle case of the same makes up the "kit" of the Celestial needlewoman.

Too Careful Motherhood.

Children are often worried because their mothers are too attentive, and continually reprove the small ones without reason. A child should be left alone, and be allowed to play or amuse itself in its own way without the constant direction of a nervous mother. A boy, for example, enjoys more a few simple toys and something which his own ingenuity has worked out than the most elaborate plaything which has been bought. In the same way the little girl will lavish her affections on a misshapen doll, probably made at home, while the most artistic production of the toy shop will lie in state, to be taken up on rare occasions. Keep children well, clothe them sensibly, let them understand they are to amuse themselves, and don't "fuss" them.

Cameo Pictures.

The new cameo pictures are most dainty. These are made on heavy rough surfaces, in dark shades or deep colors. The paper upon which the figures are impressed or embossed in bas relief is large enough to be used also as a mat, and only a narrow edge of moulding is necessary to finish the picture. The transparent effect of the cameo is obtained by white enamel applied with a brush to the embossed outlines. Dancing figures or cupids singly or in groups, make a very pretty and effective little picture.

Trying on Shoes.

One would hardly believe there are special times and seasons for trying on new shoes, but so it is. Larger shoes are required in summer than in winter, and it is always best to try them on in the latter part of the day. The feet are then at the maximum size. Activity naturally enlarges them or makes them swell; much standing tends to enlarge the feet. New shoes should be tried on over moderately thick stockings; then you can put on a thinner pair to ease your feet if the shoes seem to be tight.

A Costly Handkerchief.

Queen Margherita of Italy is said to possess the most costly lace handkerchief in the world. It is valued at $30,000, and took three expert laceworkers five years to make. It is so light that you can scarcely feel it when it is laid upon your hand.

Social Chat.

Mrs. Blublood—No, I never talk about servants and their shortcomings.

Mrs. Parvenoo—I didn't, neither, when I was too poor to hire 'em.—Indianapolis Journal.

"Laugh,' says Sinicus, "and the world laughs with you. Smile and you treat the crowd."—Philadelphia North American.

THE MINERALS OF CUBA.

Results Do Not Demonstrate That the Field Is Either Large or Varied,

THE HOLGUIN GOLD MINE

Copper Occurs Frequently and There Are Quantities of Manganese and Iron.

Mines That Had Lain Idle for More Than a Century—Total Lack of Systematic Exploration—Coast Range Rich in Hematite and Specular Iron Ores—Many Claims Located in the Sierra Maestre.

If we listen to the voice of the charmer, or go to books on Cuba for our information, we shall find that the mineral resources of this island include gold, silver, mercury, lead, antimony, copper, chrome, iron, manganese, pitch, bitumen, and even coal; but when we look for practical metallic results commensurate with these varied mineral resources we shall be disappointed.

The gold fiction is the most time-honored, for the original Spanish settlers expected to find gold mines in Cuba. According to their historians, "much gold was taken from this island at the beginning of the conquest," but it seems probable that most of this was taken from the chiefs, or caciques, of the Indians and very little from the ground. "El Viagero Universal," Madrid, 1797, says: "Some of this mefal (gold) is still found at Holguin." Whenever the existence of gold in Cuba is discussed this "mine" at Holguin is invariably brought forward. It is true that some work has been done at this point and a little gold has been extracted, but there has never been any systematic exploration, and there is nothing there which may be dignified with the name of a mine.

In like manner most of these mineral resources fade away in the search light of investigation, until only copper, iron and manganese remain. Of most of the others listed above, it is fair and proper to say that they have been found but not worked. It may fairly be doubted if mercury and coal have ever been found, although "denunciations" of mercury exist.

Copper occurs frequently, in greater or less quantities, in the metamorphic rocks which form a large portion of the island of Cuba. The principal occurence is as chalcopyrite, in quartz veins in the metamorphic rock, at the village of Cobre, in the mountains about twelve miles west of the city of Santiago de Cuba. The mines at this point were discovered some three hundred years ago and were worked to a limited extent, but always as crown possessions or under royalties to the crown. They were abandoned and had been idle for more than a century when, in 1830, an English company reopened them and worked them systematically and actively, employing as many as 2,000 men. A railroad was built from the mines to Santiago Bay. The remains of this road still exist.

JURAGUA MINE.

The railroad was owned by a Spanish corporation, and the mines and railroad became involved in litigation. The railroad company won its suit, "but killed the goose that lay the golden egg," for the excessive freight charged by the railroad, the reduced price of copper, the scarcity of labor, and the breaking out of the ten-years' war combined to close the mines once more.

The extensive plant of the English company—which included what was, in its time, the largest Cornish pump in the world—their crushing and concentrating machinery and buildings, are now nothing but a picturesque heap of ruins.

There is no available record of what these mines have produced, but the deepest shafts were 900 to 1,000 feet deep and the underground workings are said to have been very extensive.

There are a number of manganese mines in the province, mostly to the west of Santiago de Cuba, which have been worked in a desultory way the lack of proper transportation facilities making it impossible to operate on any considerable scale, although the ore is very high grade. The Ponupo Mining Company, an American corporation, has built a branch of the Sabinilla y Moroto railway into its mines and is shipping extensively.

The coast range near Santiago de Cuba, generally known as the Sierra Maestre, is rich in hematite and specular iron ores. Great quantities of ferric oxide have been dissolved out by the action of surface waters, from which they have been re-deposited in concentrated form. In many, probably in most cases the ore bodies are the result of the weathering of isolated bodies of coralline, and their replacement by ferric oxide from the percolating waters. For this reason they are without definite walls or regularity of arrangement. They are scattered along the range of hills for a distance of eighteen or twenty miles, but there is no continuity of formation.

The region where these deposits exist was formerly occupied by the plantations of wealthy Spaniards. Everywhere in these beautiful hills can still be seen the remains of the fine roads shaded by bamboo hedges, over which the proprietors passed in their volan-

HARBOR OF SANTIAGO.

tes. One of these roads passed through the ore body that is now the Magdalena mine, and was known as the "black road" because it was practically pulverized iron ore. These rich old grandees must have known, but apparently did not realize what was at their feet, and it was actually not until the year 1861 that the first claim was "denounced." Since then more than two hundred claims have been located in the Sierra Maestre, both to the east and west of Santiago de Cuba. —Engineering Magazine.

THE GIRLS OF PORTO RICO.

Four of Them in a Smoking Tournament With Americans.

Americans who come down here are both amused and surprised at the vast amount of smoking indulged in by the native women, writes a Porto Rican correspondent of the New York Sun. Those of high standing socially are not addicted to the habit, but among the country women the practice is almost universal. And the fair ones do not confine themselves strictly to cigarettes, either. Big black cigars in the mouths of really very pretty young girls are a common sight in the country districts. Cigarettes are really more of a luxury, because the paper in which they are rolled has to be bought, but the all-tobacco cigars can be raised and rolled by any one taking the trouble.

Not long ago the writer, then recently arrived, rode into the country one fine day and stopped at a native shack on the military road. Four smiling women greeted him at the door. One of them was perhaps thirty years of age and had a baby in her arms. The other three were not more than fifteen, although they had the development of American girls much older. They were all dark of skin, but with that shining straight black hair which is so often seen in the mulatto in whom is combined the Spanish with the negro blood.

Having given him water, the Porto Ricans invited the stranger into their home, and then began the customary linguistic wrestling bout, in which the simplest ideas were exchanged only after the most violent mental, facial and digital effort. During the conversation— so called by courtesy—the woman with the baby became so excited that she lit a cigar which lay on the table and began puffing at it furiously to calm her nerves. The visitor was also smoking, and although somewhat surprised at his hostess' action, he felt it to be his duty to offer cigars to the other members of the party. The three young girls accepted the offer with pretty little waves of the hand and just as though it was the most natural thing in the world. They reached for a box of matches, which, by the way, are the most plentiful things on the island, there being three match factories in successful operation—and lit up with a most nonchalant air. They smoke with much gusto inhaling the smoke like the ordinary American cigarette smoker. And how they did spit! It may not be a thing to boast of, but the Porto Rican woman can spit with all the power and precision of the most inveterate male tobacco chewer that ever lived. It is really amazing. Sad to relate, all their skill is wasted. The spittoon is unknown, and the genius which would enable them to hit it around corners and between the rungs of chairs is exhausted in the futile drawing of fancy figures upon the floor.

So with the Cagnas quartet. They were, of course, unconscious that their conduct might provoke criticism. They had been doing this almost since they were babies, and there was nothing indecorous to them about it. When their visitor left them they gathered in the doorway to see him off, and the last he saw of them they were still smoking and spitting and smiling.

Certainly tobacco does not seem to hurt these people. They are as healthy and as buxom a lot of girls as a man would care to meet. Their spirits are high, though their lot in this country would be considered far from a happy one.

Snakes the Cats of the Philippines.

The snakes are the professional rat catchers in the Philippine archipelago, and every well-regulated household must have its snakes. "Nearly all the older bungalows in Manila," a correspondent writes, "possess what are called house snakes—huge reptiles, twelve or fourteen feet long and as thick as a fire-engine hose, that permanently reside in the roof and live on rats. These big creatures are harmless and rarely, if ever, leave their abodes. Judging from the noise over my cloth ceiling, a pair of these pets find pasturage up above, and I can hear them whacking around about once a week in their chase after rats.

They are good though noisy rat catchers; but since they must needs eat all they catch, their efficiency seems to be limited to their length of stomach. The only way to get rid of the rats seems to be to buy more snakes, and this is simple enough, for you often see the natives hawking them around in towns, the boas curled up around bamboo poles, to which their heads are tied.

SAMOAN PECULIARITIES

The Inhabitants Are Children of Nature But Not Lacking in Shrewdness.

Apia is located on the considerable island of Upolu. It is bounded on one side by the singing sands of the harbor, white as the back of a girl's hand. The dust-scurrying trade winds blow interminably, roaring through the palms. On the landward side a couple of insignificant rivers—the Mulivai and the Vaisingano—form, with the Pacific Ocean, a three-sided fosse around the zone of trouble. For the rest, there are some ravines and a vast mob of childlike, bloody-minded, naive, scandal-mongering, cleancolored natives of engaging manners and unpronounceable names, to whom fighting and gossip and head-getting is the breath of their nostrils. The islands lie to the westing and southard of San Francisco, and can be reached by a fast yacht —presupposing that the owner had no possible business elsewhere in the wide world—in a matter of a dozen or so days. On arriving, the yacht master will find just whom Robert Louis Stevenson found when he turned his dark and kindly face islandward—"contemporaries of our tattoed ancestors, who drove their chariots on the wrong side of the Roman wall." Very likely these contemporaries will, for the most part, be found surf-bathing and fishing.

The inhabitants are Christians, church-goers, singers of hyms, hardy cricketers, but withal (perchance by reason of the acquired veneer of civili-

A SAMOAN GIRL.

zation) children of nature and head-hunters, devoted to fetish worship and biassed politically by legerdemain. One who can juggle a dollar in Apia is esteemed a god. Herrman, had he but known it, missed a chieftainship. Houdin a principality, Robertson, had he performed his watch and fish trick over the side of a war canoe as he performed it over the bulwarks of the Czars' yacht, would have been presented with a kingdom and a surfeit of worship.

The islanders are eager followers after false gods, but they are not lacking in shrewdness; they require the high priests of those gods to be possessed of a fine order of manual dexterity. In ordinary life, when not engaged in the "speak-house" (a sort of Samoan house of representatives) or being to their own huge delight, flayed alive by European copra merchants, the natives while away idle hours retailing gossip and scandal with their neighbors. In times not far back they made holiday parties hunting heads.

The Phonograph in Havana.

Havana is taking on some of the aspects of an American town. The phonograph man has appeared in the Prado, his pockets stuffed with cylinders scratched in the United States, and every evening his sputtering instrument is hedged in five deep by a penniless crowd, watching the capitalists with the rubber tubes in their ears and listening for stray echoes of the jerky tunes. The hardest worked "record" of them all is "There'll Be a Hot Time in the Old Town To-night," which by reason of its popularity with the army bands at Santiago, is counted by Cubans and Spaniards as much one of our national airs as "Hail Columbia" or the "The Star Spangled Banner."

The buttonhole edition of the Stars and Stripes has an immense circulation in Havana. The Cubans themselves wear it more than their own single star. As yet there is no display of the American colors in the shops, though one merchant in Galiano street, whose sign before the war was two crossed American flags painted on his wall, has freshened up his pigments and marked all his wares in American dollars and cents.

There are other and unmistakable signs that the Americanization of the city has begun. In street and shop you meet men by the score who insist on spluttering unintelligible Ollendorff at you by way of delicate attention. Most of them have mastered the theory of American notation, but they make sad work of the individual numerals, and in the end they fall back on their native tongue. This leaven is working, however, and the tourist will find his way made easy for him. Even the beggars have scented prosperity from afar and demand "fi' cents," where before they gave you blessings for a copper. In a minor way the appearance of the street-spanning announcements of bargain sales, the recrudescence of "The Broadway," the "United States Baazar" and a dozen more shops with like prophetic names, the revival of Milwaukee beer and American cocktails and the eagerness of tailor and shirtmakers to get hold of American models are all significant of the coming change.

According to German authority, the fact that the locust tree attains in twenty-five to thirty years the same thickness as the pine in fifty and the oak in one hundred years has led to some valuable investigations as to the industrial value of this variety of wood; the conviction was particularly strong that acacia wood has an important future, especialy as regards its employment for mining purposes. The same timber is also found to excel in the properties of firmness and durability, and is, therefore, well suited for many other mechanical uses, such as wheels, bungs, ladder steps, etc. It is well known, of course, that the tree in question thrives in the poorest soil, even in the rubbish of stone quarries and slatty declivities.

HAVANA'S FAMOUS PRISON

The "Cabanas" Where Many of Cuba's Sons and Daughters Met their Fate.

GREWSOME DUNGEONS.

Cells Whose Secrets Are More Dreadful Than Were Those of Ancient Venice.

Prisoner's Walk Where General Lee Conferred With Competitor Prisoners—The Famous "Fosse de Los Laureles" Where Executions Took Place—Faced Wall With Backs to Firing Squad.

The Morro and the Cabanas, as they rear their drear walls above the harbor and city of Havana, frowning down at the hundreds of American and Cuban flags, seem to cast a still lingering shadow over the dawn of Cuban independence. Although the red and yellow of Castile no longer floats over those battlements, the grim fortresses still represent the shackled menace of Spain's vanished power. Within those walls, deep down in the rock's recesses, many a budding aspiration and thought of liberty has been foully crushed out.

The story of Morro and Cabanas prisons can never be adequately told. It contains such depth of human misery, such refinement of mental torture, such barbarity of physical suffering enforced by inhuman jailers, that the full truth must ever hide its head from the scrutiny of civilization.

The entrance to the Cabanas is reached by a narrow passageway, winding round the face of the cliff from the rickety wharf at the water's edge. Zinc covered and paved, this road has been a way of sorrow for many a prisoner who has wearily tramped up the steep incline. Few have returned along that path. The majority have faced fate more or less bravely, with their backs to the firing squad and a cry of "Cuba libre!"

Forty feet from the summit of the cliff a small grass covered plot is reached. In front are two gnarled and rugged laurel trees, their roots stretching down the slope and showing through the scanty soil like the bones of some partly exhumed mammoth.

To this spot such of Spain's prisoners who had been allowed the privilege of communicating with their friends were led, shackelled and guarded, four soldiers to each man, and for a brief moment permitted to breathe the clear air and enjoy the bright sunshine. For thirty precious minutes they had a glimpse of the world outside, before being thrust back into their dungeons in the inner walls of the Cabanas. It was here that General Lee conferred with the Competitor prisoners, and here where Julio Sanguilly, after many months' confinement, proposed to break loose from his guards and escape down the cliff. Preferring the risk of immediate death by a Mauser bullet to continue longer subject to the insufferable horrors of his prison.

Crossing this grass plot, a narrow gateway to the left gives admittance to the outer works of the fort. To the right, the landside towers a huge wall cut out of the solid rock, forming a posse, or ditch between the land approaches and the outer works. From the top of this massive outer defence the ground slopes inland, the only approach to the castle being a smooth, sloping sward, raked at all points by guns mounted on the walls. This ditch extends round the castle until it ends in the sea. On the Morro side it is crossed by a wooden drawbridge of ancient construction, and raised and lowered by an elaborate system of weights and pulleys.

The southern portion of this moat is the famous Fosse de los Laurele, martyr ground of Cuba's liberty A long, gloomy walk, gravelled on one side, on the other the long rank grass. Right and left are the frowning walls of the

ENTRANCE TO CABANAS FORTRESS.

fortress. At the northern end the walk twists round to the west. Midway are six trees of the class from which the place takes it name. Twisted and distorted, their trunks seem to have lost their natural shape by witnessing many scenes of human agony. They draw their nurture from the blood-drenched ground, and nature abhorrent at such a price for being, has shown her protest in crooked branch and dully tinted leaf.

Two paces from the trees is the execution ground. A mound of stones and a dented wall, cut and scarred by many a bullet, are the only existing memorials on the spot where so many of Cuba's sons have died for freedom. Here, in the cool gray of the morning, were led out those whose crime had been a too great devotion to what they deemed their duty.

The prisoner was placed against the wall, his back to the firing party, who were but a few feet distant. The soldiers idling around passed taunting remarks. Using the language of the bull ring, they asked jocularly what kind of a fight the victim would put up. Occasionally, if the condemned man were some noted character, their feelings carried them so far that they actually assaulted him on his way to execution. The vilest taunts were poured on the head of the islander and his last hours were tortured by the unfeeling bitterness of his persecutors. But at last the farce was ended. The lieutenant in charge of the firing party threw away his cigar, the orders, "Load," "Present," "Fire," were given and the writhing corpse on the ground was all that remained of the follower of free Cuba.

He sells cheap soap; the sale, once made,
Brings larger profits for to-day.
The soap, when used, offends his trade,
Which deals, henceforth, "across the way"—
Both purchaser and seller lose;
But Ivory Soap makes steadfast friends;
'Tis best to sell, and best to use,
And brings best profits in the end.

A WORD OF WARNING.—There are many white soaps, each represented to be "just as good as the 'Ivory'," they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

COPYRIGHT 1898 BY THE PROCTER & GAMBLE CO. CINCINNATI

FOR THE SUNDAY-SCHOOL

NEW BUILDING PLANNED FOR THE FIRST BAPTISTS.

Present Quarters are Considered to be too Damp to Meet In—If Structure is Built it Will Cost Nearly $25,000.

It is reported on good authority that the officers of the First Baptist church have in contemplation the erection of a handsome new Sunday-school building on their property adjoining the church.

For a long time there has been a great deal of dissatisfaction over the present Sunday-school room, and many do not like to attend on account of an apparent dampness about it. There is plenty of room for a handsome building, and if one is erected it will probably cost about $25,000, and will be an ornament to that section of the city. It will be modern in every respect and can be used for holding other meeting as well as Sunday-school.

ONE ACCEPTANCE.

Elizabeth Board of Trade to Join in Effort for Lower Fares.

H. C. Runyon, secretary of the Board of Trade, has received a letter from James MacMaster, secretary of the Board of Trade, of Elizabeth, in answer to an invitation extended to the Board of Trade of the latter city to meet with the Board in this city November 20th, for the purpose of taking some action with reference to an attempt to secure a reduction of fares on the Central Railroad. Mr. MacMaster writes that the Elizabeth Board of Trade will be pleased to accept the invitation and will be present on the evening in question.

Case Appealed.

The civil suit of Milliken vs. Coriell, tried at Dunellen several weeks ago before Justice Warden and a jury, has been appealed and will be tried in the Middlesex County Court November 3. H. C. Runyon represents the plaintiff and S. S. Swackhamer the defendant.

Story of a Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a godsend to weak, sickly, run down people. Every bottle guaranteed. Only 50 cents. Sold by L. W. Randolph, Druggist.

In a Nutshell:

Regular collections; intelligent washing; careful ironing, prompt deliveries. This makes a good laundry. People who have known us as dyers for thirty years back may not realize that we are doing the largest laundry business in New Jersey. Send us your bundle for a trail.

HILLIER & CO.,
129 West Front Street,
Opposite Crosby & Hill's. 'Phone 851.

SPORTING.

GOLF.

The competition for the McCutchen and Buttfield Cups will be resumed on the course of the Park Golf club Saturday. Owing to the fact that the contest last week was called off by orders of the greens committee so as not to interfere with the reception tendered to the Park Club by the Hillside club, the contest for the cups will not end this month but will be continued so as to include Saturday, November 4. After that the Park club course will remain open a month longer for individual play and will then close for the season.

ON THE GRIDIRON.

After a two years' absence from the gridiron, Volney F. Green played football once more Saturday on the Alis team in Jersey City. Green was one of the best ends on the Plainfield A. A. team, although very light in comparison with the rest of the team. Saturday, he played at half for the Alis team and did some great work. His running and line plunging was far superior to that of any of the rest of the team. He tackled quick and hard and proved that he had by no means forgotten the game. He has added much strength to the Alis team and undoubtedly win fresh laurels as the season progresses.

OPERATORS WED.

Bride and Groom Both Know Their Dots and Dashes—Ceremony in St. Mary's Church.

The marriage of Miss Ida Benham, of White Haven, Pa., and Michael H. Meaney, of this city, was celebrated in a very quiet manner yesterday afternoon at 5:30 o'clock at St. Mary's church, Rev. Father Smyth, pastor, officiating. The maid of honor was Miss Meaney, sister of the groom, and the best man was John Connoly, a very intimate friend of the bride and groom.

The bride was for a long time assistant telegraph operator at the Western Union Telegraph office, North Avenue station, where she made many friends by her efficient and obliging manner. The groom is in the employ of the Western Union Telegraph Company and holds a position at Bergen Point. He is one of the most popular operators along the Jersey Central, and many friends will join in wishing both bride and groom a successful and happy married life.

Bowling Contest for Medal.

The bowling contest at the Y. M. C. A. for the silver medal will start Friday evening. The medal will be awarded to the side making the best average in ten games.

A Church Fair.

The members of St. Peter's German Lutheran church will hold a fair Nov. 16th and 17th in the store on Somerset street formerly occupied by Mr. Trewin.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders.

—Charles Palmer, of East Second street, has accepted a position in New York.

—Justice Nash has had a substantial greenhouse constructed in the rear of his house on Prospect avenue.

—"Elite," the best shoe made for the money for men. See cut and price of same in Doane & Edsall's ad.

—Unity Lodge, Knights of Pythias, will hold a regular meeting this evening and confer the third rank on a candidate.

—There will be an adjourned meet- of the Firemen's Relief Association this evening. All members are requested to be present.

—Rev. G. Campbell Morgan, of London will lecture on the Bible, at the Fifth Avenue church, New York, next Monday and Tuesday.

—The first session of the ladies' class will meet this afternoon at the Y. M. C. A. It will be conducted by Physical Instructor C. E. A. Heywood.

—During the past two nights the electric lights on West Front street, between Central avenue and Liberty street, have been out, leaving that section very dark.

THE COURTS

JUSTICE NASH.

Judgement—Connet against Scheelin $60.04 and costs.

JUSTICE MOFFETT.

Judgement against Crowley, possession of premises.

Not Dead as Reported.

The statement recently published that James Filmore, formerly of this city, who recently met with an accident at Baltimore, had died as a result of his injuries proves not to be true. Mrs. Frank Hollenbeck, of North avenue, near Netherwood, yesterday received a despatch that Mr. Filmore, who is her brother, is alive and recovering from his injuries. It is not known who sent information of the young man's death. It is certainly good news to his relatives and friends to learn that the young man is still alive.

Justice Dispossessed.

Justice Miles, of Somerset street who has been occupying rooms over H. J. Martin's blacksmith shop for sometime past, was dispossessed yesterday by the owner of the building. The case was tried before Justice Mattison and he decided in favor, of the plaintiff. The action was brought against the justice for non-payment of rent. Chief Marshal Campbell figured in the case by removing the goods from the rooms.

Registry in the Borough.

In the first district of the borough the registration shows that there are 634 voters in that section, which is thirteen less than last year. The total registry for last year was 665 in that district, and it is hardly expected that this year's registry will reach that number. The registry list for the second district is being carried around in someone's hat, and a reporter was unable to get the registry for that district this morning.

A Very Quite Wedding.

Announcement is made of the marriage of Miss Anna Hardenberg, formerly of the Crescent Avenue church quartette, and Frederick W. Walz, of LaGrande avenue. The happy event took place yesterday at noon at the home of the bride, Little Falls, N. Y., and was very quiet owing to the recent death of the groom's mother. Mr. and Mrs. Walz will reside in this city.

Delegates to State Council.

The State Council, Daughters of America, will convene at Newark tomorrow, and those who will represent Martha Washington Council, of this city, are Mrs. Eliza Radin, F. W. Walsh and Mrs. Riker, who is State conductor.

Arrested for Being Drunk.

A man named Dean, a resident of Prideville, was arrested last night on Grove street by Marshal Frank Wisn for being drunk and disorderly. The man will be given a hearing at 7 o'clock this evening.

Prevented a Tragedy.

Timely information given Mrs. Geo. Long, of New Straitsville, Ohio, prevented a dreadful tragedy and saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery. One bottle wholly cured her, and she writes this marvellous medicine also cured Mr. Long of a severe attack of Pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c and $1.00. Every bottle guaranteed. Trial bottles free at L. W. Randolph's Drug Store.

REED AN EASY WINNER

CONTINUED FROM PAGE 1.

opposed Reed for the Assembly nomination three years ago, and then again for his nomination as Senator two years ago, delivered a speech in favor of Reed, saying that his brilliant record in the Legislature and his services to the party had completely won him over to his side.

The vote was then taken. Senator Reed received the full support of the delegations from North Plainfield, Bedminster, Bernards, Hillsboro and Franklin, giving him twenty five votes—three more than necessary to nominate. Dilts received the full vote of Bridgewater, Branchbug and Warren, fifteen in all, and two from Montgomery. Frelinghuysen received two votes from Montgomery.

Senator Reed's nomination was then made unanimous.

Assemblyman E. E. Cooper, of Warren, was renominated by acclamation.

The convention then adjourned for dinner, and convened again at 2:30 o'clock when Senator Reed was escorted before the convention and greeted with great applause. He delivered a speech thanking the delegates for the honor they had conferred on him, and assuring them that he would do his best to be elected, and if elected to serve the county faithfully and with credit. He urged that harmony prevail for the best interests of the party.

A number of routine organization affairs were then taken up and disposed of, after which the convention adjourned sine die.

By the result of the convention Senator Reed not only becomes a candidate for re-election, but also becomes the recognized leader of the party in Somerset county. The county committee will be made up of a majority of members favorable to him, and he will be held responsible for the policy of the party in the county.

BEFORE THE CONVENTION

Scenes of Great Political Activity Made by the Contending Faction.

(By a Staff Representative.)

Somerville, Oct. 18—The air was so laden with politics of the G. O. P. persuasion this morning that it fairly floated around in chunks. By 8 o'clock this morning Main street began to see familiar political faces, and an hour later the preliminary convention work was in full swing.

Delegates from the various townships commenced to arrive early. Former Sheriff George Dilts, who is the Thompson candidate for Sheriff, and whose candidacy is to be used as the testing quality of the Chancery Clerk's influence, was in Somerville over night, and established headquarters at the County House, directly opposite the Courthouse park.

Senator Reed was on hand early in the morning, too, coming up from Plainfield on one of the first trains. The Senator did not think it necessary for him to have regular headquarters. His stamping ground was along the Courthouse park, where there were many little confabs between the different politicians, and a wealth of handshaking at every turn.

The Plainfield delegates were active emissaries for Senator Reed. There is no doubt where they stand, and so they kept a weather eye out to see to it that none of the Reed men were inveigled into the Thompson camp and lined up with the Bridgewater man. The North Plainfield delegates were Robert M. Clark, Jr., Dr. J. F. Cooley, B. A. Hegeman, Jr., Mayor Newton B. Smalley and F. W. Wohlfert.

A cursory view of the situation showed that there was no change from yesterday so far as a compromise being effected between the two warring factions. Senator Reed has five delegations who are sure to stand with him. This gives him a working majority of three votes. The Thompson men claim the delegations from Bridgewater, Branchburg and Montgomery, though the latter town was in doubt until this morning. Warren township delegates are "on the fence." They said that they would wait and see what the convention developed. They are last on the roll call and are expected to go with the faction that has a majority.

To Witness a Special Initiation.

Loyal Council, Sr. O. U. A. M., of this city, will go to Elizabeth Friday evening to witness a special initiation by the team from Americus Council of that city. This team has the reputation of being the finest in the State.

Able to Go Out Now.

Walter Bennett, of the borough, who received injuries last week by coming in contact with electric light wires, was able to go out today for the first.

CASTORIA
For Infants and Children.
The Kind You Have Always Bought
Bears the Signature of Chas. H. Fletcher.

MURDER TRIAL IN SOMERSET NEXT WEEK

CONTINUED FROM PAGE 1.

days. The first two will probably be devoted to hearing the testimony of the witnesses who will number about thirty. Then will come the summing up which will probably occupy another day. No sensational features are expected to develop in the testimony. The circumstances of the shooting are pretty well known and have been covered.

The general sentiment is that Mrs. Fingerhuth will be convicted, but not of murder of the first degree. There are comparatively few who believe that she will be hung.

Mrs. Fingerhuth is the first woman in New Jersey to answer to the charge of murder since Bridget Durgan was tried, convicted and hung at New Brunswick thirty-five years ago for the murder of the wife of Dr. Coriell, of New Market. She is the first woman in Somerset county to ever be brought up on that charge.

HARD FIGHT OF FACTIONS.

The Reed Men Ruled The County Convention.

BITTER WORDS HEARD.

THOMPSON RESIGNED FROM COUNTY COMMITTEE.

The Fight Brought to a Head During the Attempt to Name The Committeemen From Bridgewater—Soothing Speech of Senator Reed Followed.

(By a Staff Correspondent.)

Somerville, October 19.—Those who thought the contest between the two Republican warring factions would subside at the afternoon session of the county convention yesterday were vastly mistaken. Instead, the bitterness was decidedly apparent and the excitement rose to such a pitch that some of the delegates were inclined to indulge in personalities.

The convention met in the afternoon at 2:18 o'clock and proceeded immediately to nominate a coroner. Dr. J. T. Robinson, of South Bound Brook, Dr. Howard Cooper, of Middlebush, and Dr. Irwin Fisher, of Harlingen, were named. The latter was referred to as Dr. Fisher and it was generally supposed that Dr. C. R. P. Fisher, of Bound Brook, was the one meant. Many did not understand until after the election was announced.

Dr. Fisher was nominated receiving 25 votes, and Dr. Robinson 20. Dr. Cooper received none. Fisher received the vote of the Thompson delegates and that of the Bedminister delegation.

The choice of those to fill places of members on the county executive committee, whose terms had expired, followed. P. V. D. VanDoren acted as spokesman for the Reed faction and nominated the various members as they had been suggested to him. This brought out a storm of indignation from some of the delegates who couldn't seem to understand that VanDoren was merely nominating the names given him by others, but kept harping on the supposed terrible unfairness of allowing the "gentleman from Hillsboro" to name all their committeemen.

The first vacancy filled was from Bedminister. Edmund C. Fields was elected to the committee without opposition. Harry J. Davis was elected and William M. Conklin was re-elected as the members from Bernards.

There were four members from Bridgewater whose terms expired. Then there was a simple resignation from membership in the county committee from Lewis A. Thompson. The resignation was accepted without comment. It was a practical withdrawal on the part of Mr. Thompson from any active participation in the control of county affairs, and an acknowledgement of Reed's victory. Mr. VanDoren immediately announced George W. Cooper, David Hastings, James L. Griggs, J. A. Campbell and Jos. Fitzger as his nominees for committeemen from the five districts of Bridgewater now vacant.

Pope was on his feet in an instant and wildly protested against what he term such an unfair proceeding. It was outrageous, he declared, to allow any faction to try to walk over Bridgewater and name their committeemen for them. The men Bridgewater wanted for the places were, he explained, W. H. Thompson, Thomas F. Laing, James A. Mets, Jr., J. A. Campbell and W. S. Stryker.

VanDoren declared that the Bridgewater delegation did not by any means represent the Republicans of Bridgewater and that his nominations had been made at the request of good citizens of the township who had been given no opportunity to have the names presented by their delegates. He denounced Pope's nominees as unrepresentative and particularly mentioned Laing as a man who worked directly against the Republican ticket at the last election.

Mr. Hegeman, of North Plainfield, told of a petition from a majority of the Republican voters of Bound Brook asking that Hastings and not Laing be made committeeman from their district. There were hot words passed between Pope and VanDorn and refer-

ACCUSES THE CONDUCTOR

"BILLY" LEE ALLEGES THAT HE WAS ASSAULTED.

Says That Conductor Haynes Had No Provocation for Ejecting Him From a Central Train at Westfield Recently.

(Special to The Daily Press.)

Scotch Plains, October 19.—A warrant has been issued in Judge Clark's court in the assault case of William Lee against William Haynes. Lee got on Haynes' train at Elizabeth, having been attending the State Fair at Waverly. Lee's ticket called for Fanwood. Haynes, the conductor, told him he would have to get out at Westfield and take the next train, as his train did not stop at Fanwood. This didn't suit Lee and a war of words was indulged in.

When the train pulled in at Westfield Lee changed his mind and started to get off, but rather slowly. It is said that the conductor proceeded to assist him. Lee, it is also said, resented the aid tendered, so the brakeman was called in to assist. The task was finally accomplished, but not until the train had been delayed fifteen minutes. Lee was left in the care of the Westfield officers, charged with being drunk and disorderly. He paid his fine and is now having Haynes brought before Judge Clark on the charge of assault and battery, as he claims the assault was unprovocated, and that he was in thd act of following the conductor's instructions when he was pounced upon.

BOYS' WORK AT Y. M. C. A.

STATE CONFERENCE TO BE HELD IN THIS CITY TOMORROW.

Interesting Exercises at Trinity Reformed Church and at the Association Hall—The Names of Some of the Speakers.

The State conference on boys' work, which is to be held in this city, beginning tomorrow morning, promises to be interesting and instructive to those engaged in this important branch of the Y. M. C. A. It will be seen at a glance of the exhaustive programme given below that the time will be fully occupied.

The delegates will assemble at the association building between 5 and 6 o'clock and after partaking of a supper provided by the ladies' committee, will repair to the Trinity Reformed church, where at 7:45 devotional exercises will be held followed by addresses. D. F. R. Runyon, of New Brunswick, will preside. Edward C. Suffern will deliver the speech of welcome on behalf of the Plainfield boys and Gustave C. Wuerth, of Orange, will speak for the delegates. Donald MacColl, State secretary, will address the delegates on "Boy's Work—What is it?" and Rev. Dr. John F. Patterson, of Orange, will speak on "Boys' Work—Its claims to fuller recognition." A symposium will follow by the delegates, who will tell what they think of the work.

At the association hall at 9 o'clock Saturday morning Rev. J. C. Killian, of Trenton, will preside. Edgar M. Robinson, State secretary of boy's work in Massachusetts, will address the delegates on "The Critical Period in a Boy's Life." Papers will also be read by many of the delegates. The delegates will then give an illustration of the work in the physical department under the direction of Physical Director Heywood.

At the afternoon session David Carlisle, of Passaic, will preside. Papers are also to be read at this session and the work in general outlined and explained.

Edward P. Holden, of Madison, will preside at the Saturday evening session. An interesting feature at this session will be the illustrated stereopticon views of the boys' camp by Charles T. Kilborne, of Orange.

Besides the boys' rally, conducted at 4:15 on Sunday by Edgar M. Robinson, there will be a special service at the First Presbyterian church at 7:30 o'clock, at which there will be an address by Mr. Robinson, who is assistant State secretary of Massachusetts.

Fell From a Tree.

John Herlitz, of East Front street, went after chestnuts last Tuesday afternoon and while climbing a tall tree he slipped and fell a long distance. In falling he sprained his leg and severely injured his back. He was accompanied by some boy friends and they assisted him home, where he was given the proper treatment. No serious results are expected from the accident.

Seeking Cheaper Fares.

Monday evening, Nov. 20th, the Board of Trade will hold a meeting for the express purpose of taking some action whereby cheaper fares may be secured on the Central Railroad. A delegation from the Elizabeth Board of Trade will attend the meeting and join in the discussion.

THEIR NUPTIALS WERE HERALDED ON A TRUNK

Dunellen Couple's Baggage Will Attract Attention.

FUNNY SAYINGS PROMINENT

BUT FOR ALL THE FUN THE WEDDING WAS A PRETTY ONE.

Miss Caroline Fisher and Charles B. Mattis the Contracting Couple—Ceremony Performed at the Home of the Bride's Parents — Their Trunk Was Well Placarded With The News.

One of the prettiest weddings that has taken place in Dunellen in many months was the marriage yesterday, of Miss Caroline Fisher, and Charles B. Mattis, of Plainfield. It was celebrated at 5 o'clock, at the home of the bride's parents, Mr. and Mrs. Jacob Fisher, No. 262 West Front street. Rev. Dr. Jamison, pastor of the Methodist church, officiated.

The happy couple plighted their troth with a ring while standing in the bow-window of the front parlor, which had been transformed into a bower of loveliness. The decorations were of green and white, with palms and potted plants, while ferns and ivy were artistically twined about the rooms.

The bridal party entered the parlor from an upper chamber and passed to their places beneath an arch in the bow-window at the west end of the room. Separating the guests from the bridal party were white satin ribbons.

As the party entered the room Miss Irene Day, of New Market, rendered Lohengrin's wedding march. There were no bridemaids, Miss Carlotta Williams, of Portchester, N. Y., filling the pleasant post of maid-of-honor. The best man was J. S. Fisher, a cousin of the bride, of Plainfield. Messrs. Charles English and Albert Apgar, of Dunellen, were the ushers. The bride was gowned in white satin with pearl trimmings, and she carried a boquet of bridal roses. Miss Williams, the maid-of-honor, wore a dress of white organdie over light green.

The ceremony was witnessed by about 125 guests from New York, Plainfield, Easton, Pa., New Market and Dunellen.

After the refreshments Mr. and Mrs. Mattis were driven to the railroad station where they took a train for a short wedding tour, which will include Old Point Comfort and other southern points.

The bride is the eldest daughter of Mr. and Mrs. Jacob Fisher. For several years she was one of the efficient teachers in the Dunellen public schools, being attached to the Whittier building. She is an estimable young woman, and has many friends who will wish her many of life's choicest blessings.

Mr. Mattis is a well-known resident of Plainfield and has a lucrative position with the New York Belting and Packing Company, of New York city.

It is poseible that when Mr. and Mrs. Mattis have occasion to use the small steamer trunk which they took with them they will be as much surprised at its transformation as the promoters of the fun were amused in preparing it for their inspection.

Upon the top of the trunk in large latters was printed this inscription: "This trunk belongs to Charles and Caroline Mattis. Just married. Now, dear friends, they are young. If you can help or direct them in any way, please do so, by request of the citizens of Dunellen, New Jersey."

Upon the side was posted:

"The past is gone; the future is before us."

"Happy the bride whom the sun shines on—so is Bill. We call him Bill for short, but his name is Charley."

Conspicuous also upon the trunk was: "Two hearts that beat as one." This was in the form of a clever design showing two hearts woven together and pierced by an arrow, while above the design was the figure 2 and below it the figure 1.

Another was "I am searching for a newly-wedded couple."

Will of Late Manning Freeman.

The will of the late Judge Manning Freeman, of Metuchen, has been read. To his son, Dr. Charles Freeman, he leaves his coal and lumber business at Metuchen. The balance of his property, real and personal, is to be held in trust for his widow, and at her death is to be given to his four daughters.

Ore of All Kinds in Jersey.

A writer in the last issue of the Bernardsville News claims that there is good ore in the vicinity of Peapack, iron ore and coal in Hub Hollow, copper ore near Bernardsville, and a large coal vein in the gorge leading from VanDoren's Mill to Mendham.

—Use Press want ads.

VERY LITTLE WIND TODAY

Little Prospect Of a Finish This Afternoon.

THE COLUMBIA LEADS.

YACHTS STARTED AT 11:01 UNDER FAIR CONDITIONS

But the Wind Did Not Hold and Diminished Rapidly Until the Yachts Were Almost Becalmed—Columbia Was in the Lead as Last Known—A Finish in Time is Very Doubtful.

(Special to The Daily Press.)

New York, October 19.—The Columbia and the Shamrock started again this morning for the third of the international yacht races under auspicious conditions. The wind was blowing eleven knots.

At 11:01 the Columbia crossed the line a boats length ahead of the Shamrock and they started on the 15 mile sail before the wind.

At 11:08 the yachts had covered the first two miles of the course and the Columbia had managed to increase her lead.

At 11:30 the Columbia's lead amounted to an eighth of a mile, the the yachts having covered nearly five miles.

The force of the wind began to deminish and at 2 o'clock was noticeably less. The Columbia was still in the lead and apparently increasing it.

The wind died away to 5 knots by 12:25, with the Columbia still leading.

As this edition goes to press the yachts are making little progress on account of the lack of wind. The Columbia still leads, but there is not much prospect of a race.

BATTLED WITH ROCKS.

Mayor Agreed to Overlook the Offence if Damages Were Settled.

Patrolman Saffron arrested two small boys, Thomas Caufield and Edward Brittin, for throwing stones and fighting on Somerset street last evening. One of the stones thrown by Caufield went through the window of Worth's harness shop. The boys were brought before Mayor Rockfellow this morning, and sentence was suspended when they agreed to settle for the damage done.

Now With Express Company.

William A. Wilson, formerly chief of police in the borough, has secured a position with the U. S. Express Company in this city, and he will have charge of the "picking up" wagon in the business part of the city. This will give business men better service which they will appreciate. Mr. Wilson is a good man for the position, having served the company before.

Garwood Machine Works Change.

E. E. Hart, of Westfield, and H. G. Beekly, of Garwood, have purchased the interest of James F. Powers in the Powers & Robertson Machine Works, at Garwood. The works for some time have been closed, but are now to reopen, and there is a prosperous outlook for the concern. Mr. Powers is of Elkton, Md.

Hearing for Dissatisfied Taxpayers.

The Commissioners of Appeal will meet in the Council rooms on Park avenue next week Tuesday from 2 to 5 o'clock p. m., or longer if found necessary, to dispose of all cases of taxation that dissatisfied taxpayers may submit to them for consideration.

A Remarkable Case.

Wm. Cosgrove, the Californian, who has been confined at the hospital for a long time with a broken back, seems to be about the same. At times he seems to fail a trifle, but the change is so slight that it can scarcely be recognized.

North Plainfield Firemen's Parade.

The detailed story of the firemen's parade last week has been reprinted in the Constitutionalist and persons unable to procure a copy of The Daily Press containing the story, can now secure it by calling at The Press office.

—Two candidates will be initiated tomorrow evening in Columbia Lodge, A. O. U. W. The usual games of quoits will also be indulged in.

DOUBLE INTEREST IN THIS NUPTIAL EVENT

Also Celebration of the Bride's Parents' Silver Wedding.

WEDDED BY SAME MINISTER.

MISS MATIE T. VANHORN AND CHAS. H. GREER THE COUPLE.

After the Ceremony and Reception Was Over the Young Couple Went Forth to Find Their Carriage Gaily Decorated—Given Rousing Send-off at Station—Guests Who Were Present.

An event of double interest last evening was the marriage of Miss Matie T. VanHorn, daughter of Mr. and Mrs. John W. VanHorn, of 171 Duer street, to Charles H. Greer, also of the borough, and the celebration of the silver wedding anniversary of the bride's parents, which took place at the above address at 8 o'clock. The latter event fell on Sunday last, but it was so arranged that the two celebrations were held at the same time. It was twenty-five years ago that Rev. Dr. W. C. Nelson, now of Summit avenue, married Mr. and Mrs. VanHorn, and last evening he officiated and united in marriage their daughter.

Dr. Nelson, in performing the marriage ceremony, remembered the parents and they came in for a share of the blessing. The ceremony was that of the Episcopal church. The couple was married with a ring, the bride being given away in marriage by her father. The bridge was gowned in a very becoming costume of steel grey, and carried a bouquet of bride roses. She was unattended, as was also the groom. As the party entered the parlor where the marriage took place the wedding march was played on the piano by Miss Edna Schooley, of Elizabeth, cousin of the bride.

The home was prettily decorated for the occasion with autumn foliage, potted plants and flowers.

After congratulations were offered a wedding supper was served. About 9 o'clock the guests began to arrange for the departure of the bride and groom.

Soon afterward the coach that conveyed them to the North Avenue station arrived, and the guests, together with a number of the clerks from Woodhull & Martin's store, where the groom is an employee, began to decorate it. White streamers were tied on and beneath the coach in the centre was suspended a large dinner bell, while from the back could be seen a sign "The Knot Has Just Been Tied." When the couple appeared they were showered with rice, while the blast of tin horns, the ringing of dinner bells, all assisted in giving them a good sendoff. As the coach went rolling down the street the large bell announced the event.

At the station the couple tried to elude the crowd, and walked through Park avenue to Fourth street and then was obliged to run for the train which was coming into the station. There again the tin horns and bells were heard, and the couple found a jolly crowd in the train waiting to receive them. The passengers caught on quickly and applauded them as they entered and took seats and they had no time to feel lonesome.

They will be absent from the city until Saturday when they will return and take up their residence in the house at 114 Grove street, which the groom has completely furnished and is ready for occupancy.

Mr. and Mrs. Greer were handsomely remembered with tokens of esteem from their many relatives and friends, who join in wishing them a long life and a successful and happy one.

Those present at the wedding included Mrs. Angle, Mrs. Heller, of Stroudsburg, Pa.; E. B. Schooley, wife and daughters, Mrs. J. Madison Drake, Jr., of Elizabeth; Mr. and Mrs. Walter Roll, of Linden; Mr. and Mrs. Smack, of Morristown; Mrs. Goeble, of New York; Mrs. Greer, mother of the groom, and Miss Smack, of Madison; Mrs. Sweitzer, of Somerville; Mr. and Mrs. J. W. VanHorn, parents of the bride, Miss VanHorn, sister of the bride; Dr. and Mrs. W. C. Nelson and Mr. and Mrs. Williams, of the borough.

Small Registry in Elizabeth.

(Special to The Daily Press.)

Elizabeth, Oct. 19.—The outlook in this city is not good for a large vote at the election next month, as there is much apathy on the part of voters. In the banner Republican ward of this city, the Eleventh, the registry is five hundred short of last year, and the same may be said of the Democratic stronghold, the First ward.

RICHARDSON WILL CASE.

ATTEMPT TO PRESENT TWO EXECUTORS FROM SERVING.

Craig A. Marsh Prepared to Prove Charges of Misconduct Are Not Well Founded—Case Laid Over for a Week.

At Court of Special Sessions and Orphans' Court yesterday, presided over by Judge B. A. Vail, the Richardson will case was brought up by Craig A. Marsh of this city.

Some time ago Amelia Richardson, one of three executors of the will, made application to Judge Vail and succeeded in securing from the court a ruling whereby the two other executors, Joseph M. Richardson and Margaret M. VanTassel, are obliged to show cause why they should not be restrained from serving further in the capacity to which they were appointed.

Mr. Marsh informed the court that the charges entered against the two executors thus restrained had been carefully investigated, and the charge, especially of misconduct, he was prepared to prove absolutely false.

Owing to the absence of Mrs. VanTassel, who would not be able to reach Elizabeth before today, he asked that the matter be laid over for one week, which was agreed to by Mr. Gilhooly, and his associate counsel for the complaining executor. The request was granted.

FOUND STOLEN HORSE.

D. C. SMALLEY DISCOVERED HIS PACER NEAR JAMAICA, L. I.

Thief Traded Animal For a Worthless One and $3 With Some Italians—Will Be Brought Back Sunday.

After a faithful and persistent search David C. Smalley, of North avenue, has recovered his stolen horse, wagon and harness, which was taken by a man in his employ. The wagon was found at Comack, L. I., as stated yesterday, and the harness was found in the upper part of New York city.

Yesterday morning at 4 o'clock Mr. Smalley, in company with a detective from Long Island and one or two friends, found the horse in possession of some Italians near Jamaica, L. I., and they identified the horse beyond a doubt. The Italians secured the horse on a trade with the man who went away with it and they gave a worthless horse and about $3 to boot in exchange.

The man who is supposed to have taken the rig took the horse he secured from the Italians and after driving him a few blocks tied him to a post and since then has not been seen. It has since been learned that the man resorted to trading ever since he left Plainfield. It was said that he offered a pair of horse boots for a drink, and had little trouble trading harness and blankets.

Mr. Smalley is now certain that the rig was driven at least ninety five miles from Friday night until Saturday noon, and the horse was found in an exhausted condition, showing that he had been abused. He is not injured, however, and a good rest will bring him about all right. When Mr. Smalley went to him yesterday morning the horse recognized his old owner and wanted to follow him.

The rig has been taken to the stables of John Powers in Brooklyn, where it will be kept until Saturday or Sunday. Then Mr. Smalley will go to Brooklyn and bring it home. The wagon was found to be damaged somewhat. One wheel was twisted and several spokes were missing.

Caught Lawyers Napping.

In the Union County Court Monday Justice VanSyckel made short work of a number of cases which were on the calendar for trial. He took the list, called case after case, and when the lawyers said they were unprepared to go to trial, the cases were declared off for the term. By the time the Justice finished there was little left of the calendar, and so far as Justice VanSyckel is concerned, the term is practically ended. He will sit again October 30th to hear one case.

Warmth for Unfortunates.

By the time cold weather appears the City Industrial Home will be provided with a modern system of heating so that no trouble will be experienced by the inmates in keeping warm. The alms committee have other conveniences under consideration and the institution is fast becoming a modern one.

To Finish Before Cold Weather.

It is the intention of the street committee to complete the work of macadamizing of South avenue before cold weather sets in for good. The work is now being pushed rapidly and a good job is done.

Wm. Olmsted, of Bank place, has received the sad news that his mother, who lives at Newark, is very ill, with slight chances of her recovery.

BERGEN WAS NOMINATED

Choice Of Somerset County Democratic Convention.

FOR THE STATE SENATE,

E. M. FRENCH WITHDRAWN FROM THE RACE.

Part of North Plainfield Delegates Went Back on Him—Bergen Nominated on First Ballot—DuFour Chosen for Assembly Nomination Only After Much Trouble.

(By a Staff Correspondent.)

Somerville, October 19.—The Democrats of Somerset county today choose Hon. James J. Bergen, of Somerville, to head their ticket as candidate for State Senator in the coming campaign. His nomination was assured early this morning but the rival candidates put up a lively fight to the last.

The county Democratic convention and the firemen's parade combined to attract a large crowd to this place today. The politicians were on hand at an early hour and there were numerous button-holings and private little interviews. Hon. James J. Bergen established himself in the park facing the county courthouse and there met the delegates and his friends. Last night it was persistently rumored that Bergen had secured the support of a majority of the delegates, and early this morning the rumor became a recognized fact. His nomination was practically conceded early in the day, but the various opposition candidates still continued firm.

A whole bunch of North Plainfield Democrats were on hand together with a little delegation from Plainfield, headed by "Farmer Orator" James E. Martine. Former Mayor Wilson, of North Plainfield, was strong in his support of Mr. Bergen.

The members of the North Plainfield delegation were all on hand at an early hour. They were R. H. McCollough and Charles Dresselt, of the first district, Lewis Bird and Walter C. Linbarger, of second district, William M. Delmer and Theo. Luersen, of third district. At 10 o'clock, the North Plainfield delegates held a conference at the Surrogate's office. Walter C. Linbarger was chosen chairman of the delegation.

The question of the candidate whom the delegates should support was discussed and it came to light that all but three had gone back on Elston M. French and refused to support him for the nomination. This was a general surprise for it was believed that French would have the delegates of his own township behind him.

As soon as Mr. French learned that he did not have the support of his home delegation, he immediately withdrew from the race "in the interests of harmony and the advancement of party interests.

While the North Plainfield delegation was busy at its caucus, the convention was called to order in the court house at 10:20 by William J. Logan, chairman of the county executive committee. Dr. S. O. B. Taylor, of Hillsboro, was made temporary chairman and Calvin J. McMurtry, of Somerville, temporary secretary. Word was received from the North Plainfield delegation asking the convention to delay further matters for five minutes so that they might be present. The request was granted and the North Plainfielders filed in shortly and took their seats.

In the appointment of committees that followed, North Plainfield was represented as follows: Organization, Louis Bird; resolutions, William M. Demler; credentials, Theo. Luersen; rules, R. H. McCollough.

After an adjournment of twenty-five minutes, the committees has their reports ready. The temporary organization was made permanent. Charles H. Lyman, of North Plainfield, who had been admitted as an alternate, rose and read a letter from Samuel S. Childs in which the latter declared that he would under no circumstances accept a nomination to the Assembly. David Carney, of North Plainfield, who was

ARE UNWILLING TO ATTACK

Boers Anxious For the British Forces to Make Aggressive Movements.

FOUR DAYS OF FIGHTING.

Report Reaches London That the Basutos Have Risen Against the Orange Free State.

A Proclamation Issued Proclaiming Martial Law in Mafeking, Vryburg, Taungs, and Other Places. Four Hundred Boers Are Repored Killed in an Engagement.

London, Oct. 19.—The Times's Lobatsi correspondent, says:

"The Boers were around us all day yesterday and broke up the line several times between Pitsani and Mafeking. They were attacked and defeated by a party of our men from Mafeking. Thirty Boers were killed during the night. Another lot broke up the line a mile north of Lobatsi, cutting the wires. The stationmaster and all of us here set to work and have just restored communication.

"A runner has arrived bringing news of Colonel Baden-Powells success in keeping the enemy at bay.

A special dispatch from Pretoria says:

"The Boer Krupp batteries are now covering the town. Military engineers can be observed laying a temporary railroad, which will probably be used in armored-train defense by the garrison."

A dispatch from Durban, Natal, says that refugees who arrived there Tuesday from Pretoria declare that the Boers at the Transvaal capital admitted a Boer repulse at Mafeking, eight Burghers being killed and a number wounded.

London, Oct. 19.—Col. Baden-Powell has repulsed an attack on Mafeking, the Boers retiring with a loss of 400 killed.

News of the battle was cabled here from Pretoria via Lorenzo Marquez, Portuguese South Africa.

Advices from the Transvaal capital were that a white flag was hoisted by Colonel Baden-Powell. A Boer envoy was sent in to see if it meant surrender.

The envoy was detained six hours by the British and then sent back.

Several Krupp guns have been placed in position to shell the town.

Colonel Baden-Powell is laying a temporary track from the town so that he can utilize an armored train in the defense.

Cape Town, Oct. 19.—A dispatch rider telegraphed from Orange River that Cecil Rhodes, at the head of a regiment of rough riders, made a dash on the Boer forces investing Kimberly.

The attack was unexpected, and so impetuous that the Boers broke and scattered in confusion.

Before they could rally Rhodes and his troopers dismantled the camp.

Cape Town, South Africa, Oct. 19.—Cronje is still shelling Mafeking is the news that comes from the front. All the encouragement that could be derived from the brief bulletin was that the garrison was still holding out. This is the fourth day of continuous fighting, however, and the utmost anxiety is expressed, even in official circles, lest the defenders, worn out by unnecessary battle, should be forced to succumb to a rush from all sides.

London, Oct. 19.—The situation in South Africa appears to be this: The Boers seem unwilling to attack as yet, and the British are strengthening their position and rapidly getting ready to assume the aggresive. The most interesting news is contained in a dispatch to the Morning Post from Ladysmith to the effect that the Basutos have risen against the Orange Free State. The Daily Telegraph publishes the following from its correspondent at Cape Town:

The Transvaal sympathizer who was mobbed at the railway station on Saturday, turned out to be no less a person than Mr. Hofmeyr who was recently the envoy of the Afrikander party to Mr. Kruger. He and two prominent Cape Town Bundmen were hooted and hustled and forced to take refuge at a hotel. At a late hour they were escorted home by the police. A proclamation has just been issued establishing martial law in the districts of Mafeking, Vryburg, Taungs, Barkly West, Kimberley and Herbert. Public attention is called to the penalty incurred by communicating with the republics by giving maintenance, succor and support to the enemy.

Nearly £3,000 has been collected on behalf of the refugee relief fund. There is certain to be a relief strain upon the resources of the committee. At present most of them possess little means, and a month hence even that little will be gone. The crowd includes notorious characters from the Rand, and the police are preparing to deal with an epidemic of crime when the money is exhausted.

Ladysmith, Natal, Oct. 19—The Boers are quiet around Glencoe. The main body of Gen. Joubert's column was reported last night to be near Dannhauser and moving south slowly. The Boers must have secured considerable quantities of private stores of grain and forage by the occupation of Newcastle. No definite intelligence has reached here from Kimberley or Mafeking, but in official circles great confidence exists as to the British forces gallantly holding their own.

Lad of Seven Years Suicides.

Danbury, Conn., Oct. 19.—Inquiry into the death of Samuel Gigliotti, seven years old, develops an odd case of infantile suicide. Sammy, with a crowd of lads, was playing "bandits" in the freight yards. A train was backing down a switch track. "I'll show you how some people get killed!" shouted Sammy. Before his companions could prevent him the boy threw himself across the tracks and the next instant the wheels had cut his body in twain.

CAUGHT BY DECOY LETTER.

Postmaster's Son is Charged With Robbing the Mails.

Paterson, N. J., Oct. 19.—Charles H. Kinnie, of Lakeview, son of the Postmaster at that place, has been arrested by Post Office Inspector Snow on a charge of robbing the mails. For some time the residents of Lakeview have sent the Department complaints of not receiving their mail, and an inspector was ordered to investigate the matter. A decoy letter was sent through the mails by the inspector and in it were two one-dollar bills. The inspector waited on the outside for some time, until he knew that his decoy had been received. He then entered the Lakeview office. The unbroken letter and the money were found on the young man. He was brought before United States Commissioner Van Hovenberg, who held him to bail in the sum of $1,000.

President Attends a Wedding.

Youngstown, Ohio, Oct. 19.—President McKinley's special train arrived here, and the Chief Executive delivered the last speech of his tour. The train was backed onto a sidetrack, and the President and his Cabinet went on foot to a platform near by. Apparently everybody in town had crowded into the two streets facing the platform, and it was with great difficulty that the President could make himself heard. It was estimated that 20,000 persons were packed into the narrow space surrounding the speaker's stand. As the President proceeded they cheered enthusiastically every point in his address.

Having taken dinner aboard the train, the President, Mrs. McKinley and Miss Mary Barber were driven to the home of Dr. Deetrick, in North Phelps street, to attend the wedding of Miss Anna Viola Deetrick to Dr. William McKinley Duncan, son of Andrew K. Duncan, and nephew of President McKinley.

May Have Perished in Chicago Fire.

Chicago, Oct. 19.—There is no trace yet of either Superintendent McMasters or Laura Thrill, who are believed to have lost their lives in the burning of the W. C. Ritchie Paper Box Company's factory, 203 Green street. Two others, both young girls, are also missing and may have perished. They are Nora Koske and Annie Sands, and were last seen together on the fifth floor of the building. Two girls answering their description were rescued from a window by the firemen, however, and their friends hope the missing girls will be found to be the ones.

Forest Fires do Great Damage.

English, Ind., Oct. 19.—Forest fires have been raging in this vicinity since Monday, burning over the 350-acre farm of A. L. Temple, destroying 15 hay stacks, dwelling house and about 50 acres of corn. It also burned over the farms of Frank Lambdin, Milson Sloan and Andrew Levell, destroying valuable timber and crops of all kinds. The fire is still raging, with but little chance of stopping it. There has been no rain in this section for the past two months, and everything is very dry.

Armour Suit is On.

Albany, N. Y., Oct. 19.—There seems good ground for the belief that the suit of the State against the Armour Company, of Chicago, will soon be placed on the calendar at Watertown. A hearing before trial is now on in Chicago. The action was started several years ago and is based on the charge that the company illegally brought oleomargarine into this State. Many hearings have been called only to be postponed. Both sides appear anxious now for a decision.

Cyrus Wakefield Not Overdue.

San Francisco, Cal., Oct. 19.—From information received here, the American ship Cyrus Wakefield, upon which reinsurance has been offered at 5 per cent., is not due at this port from New York for forty or fifty days. Instead of coming around the Horn, as was generally supposed, she is sailing around the Cape of Good Hope.

Says it is Insolvent.

Akron, Ohio, Oct. 19.—A. B. Taylor has filed an action in the Common Pleas Court to enforce the liability of the stockholders of the Selberling Milling Company. He alleges that the corporation is insolvent. John F. Selberling is the largest stockholder. The company was capitalized at $150,000.

President Hadley Installed.

New Haven, Oct. 19.—With all the pomp and ceremony to be expected in an affair of its kind, Arthur Twining Hadley was inaugurated the thirteenth president of Yale University, succeeding the venerable Timothy Dwight. The impressive ceremony took place in Battell Chappel, the college church.

Redmond and Tallon Arrive.

New York, Oct. 19.—Two of Ireland's leading public men—John E. Redmond, M. P., and Daniel Tallon, Lord Mayor of Dublin—arrived here on the Majestic and were greeted at Quarantine by a delegation from the New York committee organized to collect funds for the Parnell monument in Dublin.

Price of Meats Decline.

Chicago, Ill., Oct. 19.—Meats of all kinds have taken a drop in prices. Dressed beef has fallen 25 cents per hundred. It is thought the Beef Trust is somewhat frightened by the determined opposition it has encountered in New York and other localities, and is tryng to stave off competition.

Large Crowds Hear Bryan.

Louisville, Ky., Oct. 19.—Reports from the districts where William J. Bryan is delivering campaign speeches in the interest of Mr. Goebel, the Democratic candidate for Governor, are to the effect that the Nebraska orator is being greeted by large and enthuastic crowds everywhere.

Tom Johnson's Taxes.

Cleveland, O., Oct 19.—The County Auditor has announced that ex-Congressman Tom L. Johnson owed back taxes to the county aggregating $433.-38%. The amount has been placed upon the duplicate.

Prove All Things.

This Old, Old Command is Easy to Fulfill in Plainfield.

To win a wager, an English Marquis stood on London Bridge and offered for an hour British sovereigns ($5) for five shillings ($1.25.) He could not find a customer. There are several good reasons why the ordinary mortal could not be induced to buy, but no reason can be given why Plainfield people will not accept the following convincing proof about Doan's Kidney Pills. Read this:

Mrs. I. L. Holmes, of 442 West Second street, says: "I used several boxes of Doan's Kidney Pills for backache and derived more benefit from them than from anything else. Before I tried this remedy I was bothered almost constantly with a severe pain across the small of my back, so bad at times that I thought I must give up. If I sat down and got up or was lying down and attempted to rise quickly, or retained one position for any length of time, sharp, acute pain always followed. I saw Doan's Kidney Pills advertised for such trouble and went to L. W. Randolph's drug store and got a box. They helped me from the first and I improved right along under the treatment. I recommend Doan's Kidney Pills to others who suffer from kidney complaint."

Doan's Kidney Pills for sale by all dealers; price 50 cents a box. Mailed on receipt of price by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name—Doan's—and take no substitute.

HUSTLING THE FILIPINOS.

The American Forces Begin an Active Campaign in the Philippines.

SCATTERING THE ENEMY.

Supply Stations For Our Troops Are Being Established at Different Points of Vantage.

Latest Military Movements in the Islands Considered Necessary to Guarantee Success of American Troops—Will Be a Complete Advance Into the North.

Washington, Oct. 19.—War Department officers are greatly amused at the fault-finding over Gen. Otis's recent operations in the Philippines. The Secretary of War has been fully advised of the purpose of the active movements south of Manila and westward along the line of the Dagupan Railway. The final move in this preliminary game was made, when Gen. Lawton advanced toward San Isidro.

From official sources it is learned that these operations have been very necessary to a proper opening of the general campaign. Gen. Otis's plans for the fall operations contemplate a complete advance into the north country with the object of penetrating the Filipinos' stronghold at Tarlac. This is called by the natives their capital, and Aguinaldo has made Tarlac his headquarters.

To operate properly against Tarlac, Gen. Otis believed it necessary to have a base of supplies as far north as possible. San Isidro, on the Rio Grande, was selected as the particular objective point for this purpose. Its situation on the river made it accessible by water, and supplies could be forwarded on cascoes as well as by land. For weeks past preparations have been made to equip San Isidro as a base, and supplies by the ton have been gathered at Manila for shipment north. It was necessary to move cautiously, however, and to deceive the insurgents with the belief that the operations were only temporary, and at the same time clear the country as much as possible for an advance toward San Isidro.

First the move was made against Porac by troops under Gen. MacArthur and General Wheaton. The Filipinos were compelled to fall back, and Gen. Lawton was sent up the Dagupan Railroad to establish a line from Guagua to Mexico toward the northeast. This line crossed the railroad and pointed directly toward San Isidro. It formed a good support to MacArthur and also gave Lawton a slight advance northward. Meanwhile, as a further diversion, Gen. Schwan swept the country south of Manila.

Simultaneously with his advance on Perez Dasmarinas, Gen. Young moved up the Rio Grande to Arayat. Gen. Young's column and Gen. Lawton's column formed a flying wedge with the apex at Arayat. At this time cascoes began to move up the river with supplies. Arayat became a provisional base until the country was sufficiently cleared for Gen. Lawton to advance from Calumpit, where he had made his headquarters.

The general advance began Tuesday night and a report from Gen. Otis indicates that San Isidro will soon be occupied.

This is Gen. Otis's latest despatch on the subject, received by the Adjutant-General:

"Lawton, with carefully selected strong column, reached Cabiao, ten miles south of San Isidro, this morning. Thirty days' supplies and more at Calumpit to be forwarded; 3d and 4th Cavalry with him under Young. Bell, 36th Infantry, scouting northwest Santa Rita with part of regiment, struck Filipinos, killing and wounding several, capturing thirteen prisoners, fifteen rifles."

Sets Price on Aguinaldo.

Manila, Oct. 19.—Gen. Otis has received messages purporting to come from the insurgent General Pio del Pilar, offering to sell his army and to deliver Aguinaldo into the hands of the Americans. Although he is not satisfied that this offer is authentic, it is not intrinsically improbable. The policy of Gen. Otis is firmly set against buying any surrenders.

Pio del Pilar offers for the sum of $50,000 to refrain from attacking Manila with his army for the sum of $250,000 he offers to surrender his army after a sham battle, both sides firing into the air; and for the sum of $500,000 he says he will procure the overthrow of the insurrection and the capture of Aguinaldo, Paterno and other leaders.

Scouts Drive Filipinos Back.

Manila, Oct. 19.—Batson's Macabeebe scouts encountered the enemy at San Mateo, near Arayat, and attacked them on the front and flank, driving them out of the trenches and dispersing them completely. Several Filipinos, including a captain and a lieutenant, were killed. A quantity of arms was captured. The Macabeebes had one man killed.

Lawton Bivouacks Near Cabalo.

Manila, Oct. 19.—General Lawton has bivouacked near Cabiao. The American troops met with little resistence. Captain Batson's two companies of Macabeebes, however, had the liveliest kind of an engagement with the natives who were entrenched at San Mateo.

To Aid Goebel and McLean.

Chicago, Oct. 19.—Two hundred and fifty members of the Cook County Democracy have left Chicago on a campaign tour. The trip is to be through Kentucky in the interests of Goebel for governor, and through Ohio for McLean for governor. The party will also spend several days in Indiana.

Kansas Dry Goods Store Burned.

Wichita, Kan., Oct. 19.—The dry goods store of George Innes & Co. was completely destroyed by fire. The loss is estimated at $75,000.

TAKES ON MORE BALLAST.

The Shamrock Sailing To-Day With a Heavier Load.

New York, Oct. 19.—Shamrock went back to her anchorage inside Sandy Hook with nearly two tons of additional ballast and a new topmast to replace the one that broke in yesterday's race. Exactly 3,383 pounds of lead was put in Shamrock. It is hoped by Sir Thomas and Designer Fife that this generous amount of ballast will stiffen Shamrock. This increases the waterline length of Shamrock, so that she will probably have to give Columbia time allowance instead of receiving as heretofore 6.3 seconds. It is exactly one-half the amount of lead ballast which arrived with Shamrock.

Considerable comment has been caused by a statement made in a morning paper by Capt. H. C. Haff. The statement was as follows:

"In each of the three times that the yachts have started the Shamrock has pointed as high and footed as fast and sometimes faster than the Columbia. The fact that she did not do it yesterday leads me to believe that Columbia's sails have been greatly improved and that she has been relieved of many pounds of ballast, for she appeared lighter on the water and seemed to start quicker in the moderate breezes that were blowing than she ever did before."

This statement was variously understood by different persons to whom it would be of interest. Lord Charles Beresford declared it nonsense, and said that the gentlemen on the Columbia if they had changed their ballast would have said so, and would have had the yachts remeasured. The sails, he said, could be altered and trimmed at pleasure. Sir Thomas Lipton said that he did not believe a word of the statement.

In regard to his first statement Capt. Haff in another statement said that he had been misunderstood, and that he had made no charges against the Columbia, Capt. Haff's explanatory statement was in part as follows:

"I have made no charges against the Columbia. She has been handled fairly and squarely by the fair and square men aboard of her. She has the right to part with some of her ballast if she wants to, just as she has the right to take off sail. The taking of lead from Columbia without a remeasurement would handicap her, as she would be sailing on a shorter water line. I have known Mr. Iselin and the men associated with him for many years, and I know that none of them would be guilty of sharp practice or violating the real racing rules."

Disfigured for Life.

Danbury, Conn., Oct. 19.—Grace Murray, nineteen years old, lies in her home here disfigured, perhaps, for life, by carbolic acid. Mrs. John Main, the wife of a hatmaker, declared by Miss Murray to be the cause of her disfigurement, will probably appear in court later. Miss Murray declares that Mrs. Main attempted to destroy her beauty because she was jealous of her. Mrs. Main denies the girl's story entirely. Miss Murray says that she left her home in Mallory street at noon, and passed Mrs. Main's house. A few minutes after she became conscious, she asserts, that Mrs. Main was hurrying after her, and when she reached a bridge in White street the woman was almost abreast of her. Suddenly, she says, something was dashed into her face, and, blinded with pain, she ran toward the home of a relative a short distance away. Two doctors, who were called to attend her, found her face splashed with carbolic acid. Miss Murray says she received a letter a few days ago, in which she was warned to cease to receive the attentions of Mr. Main. The letter threatened her with violence if she dared disobey the command. She says she knows Mr. Main but slightly. She has asked Prosecuting Attorney Booth to give a warrant for the arrest of Mrs. Main. The latter asserts that she will have no difficulty in proving her innocence.

A Wonderful Ride.

New York, Oct. 19.—Mrs. Jane Lindsay has finished her self-imposed task of riding eight consecutive centuries on a bicycle. She was in splendid physical shape, the only noticable change in her usual condition being a slightly accelerated pulse. On the first lap of twenty-seven miles she even beat out her pace-makers. Mrs. Lindsey rode altogether but ninety-one hours and forty-eight minutes in her 800-mile journey beating her set schedule of ninety-six hours by four hours and twenty minutes.

Fever Situation in Mexico.

City of Mexico, Oct. 19.—It is reported here that the yellow fever is decreasing at Vera Cruz on account of the cooler weather and the better sanitary precautions. One yellow fever patient who had tried treatment with Sanarelli's serum has died at Cordoba. Several new cases have appeared at Orizaba and a number of death from the disease have occurred. Vera Cruz continues healthier than Orizaba.

Captain Upham Killed.

Washington, Oct. 19.—The War Department received a telegraphic announcement of the accidental death of Captain Frank K. Upham, U. S. A., retired, at the Soldier's Home, Santa Monica, Cal.

THE MARKETS.

New York, Oct. 19.—Trading in the stock market to-day was dull, with great irregularity in the prices. A rumor that a bid had been received from abroad for gold to be exported had a depressing influence on the standard stocks. No confirmation of the rumor could be obtained from houses usually active in foreign exchanges. Specialties forged to the front after the opening quotations, advancing through manipulation, while the usual active shares were quiet and in most cases showed fractional declines.

Chicago, Oct. 19.—Closing quotations for spot: Wheat 69¼, corn 30¾, oats 22, lard 5.22, pork 7.90.

TEETH.

If you have any to be extracted remember you will not be hurt in the slightest. My local anesthetic is the best that can be obtained and is not known to the other dentists in this city. Gas strictly fresh administered by an expert if you want that. If you need artificial teeth you may rest assured that the greatest care will be exercised in selecting shape and color to harmonize with the face, also to restore the features to their natural expression and fullness. This is most important.

from the Manufacturer to the Consumer.

For the past three weeks we have been very busy bringing from our factory bundle after bundle of our Fall and Winter stock and arranging them on our tables. We didn't say a word about them because we wanted to display our line in full and then scream.

NOW WE'RE READY TO SCREAM.

We never scream unless we have something to scream about, and we won't scream about anything that we can't substantiate. We are showing as extensive a line of clothing as any store in the vicinity, and the prices are right. The cut and finish is there and all extra profits are off. Besides our staple blacks and blues, we are showing a variety of up-to-date worsteds, with and without double breasted vests in stripes, checks and plaids. Everything that the designers art and fine tailoring can do is in them. We are proud of our stock and want everybody to see it. Come and look at it whether you want clothing or not, you will be treated right.

Below We Quote a Few Prices:

Men's Black and Blue Cheviot suits 2.75, 3.75, 4.25, 7.25, 8.00 and 9.00.
" Fancy Cheviot suits 3.25, 4.25, 5.00, 6.00, 8.50.
" Fancy Worsteds, elegant 7.50, 9.75, 10.50, 11.00.
Boy's long pant suits 3.00 to 8.75 Child's knee pant suits 95c to 4.00.

Winter Overcoats are being placed in stock now.

WE DO TAILORING, IT MIGHT INTEREST YOU.

Restaurant in our "Blue Room," Broad Street Store. m th

An elderly seaman, living on Parkman Street, in Dorchester, Mass., has struck his due share of "shallows and miseries." "I am an old man-of-war's man," he says, "sixty-three years old, and with a very bad stomach. I have tried Ripans Tabules and found great relief therefrom, but can not afford to buy those put up in bottles; so please send me two dozen cartons in paper packages, for which I inclose ninety-six cents. They do me more good than anything I have struck."

A new style packet containing TEN RIPANS TABULES in a paper carton (without glass) is now for sale at some drug stores FOR FIVE CENTS. This low-priced sort is intended for the poor and the economical. One dozen of the five-cent cartons (120 tabules) can be had by mail by sending forty-eight cents to the RIPANS CHEMICAL COMPANY, No. 10 Spruce Street, New York—or a single carton (TEN TABULES) will be sent for five cents.

WANTED TO SAVE EXPENSE

A Bradford, Pa., Man Goes to New York to Die.

Bradford, Pa., Oct. 19.—Isaac Jacobs, an aged tailor, living at 111 Washington street, this city, was taken ill about a week ago, and a physician was called, who pronounced the disease pneumonia. Two days later he arose from his bed and dressed himself, despite the protests of his wife and friends, and announced that he was going to New York to die. He has a large number of relatives there and he argued that it would cost them more to come here to attend his funeral than for him to go to New York. He walked to the station and boarded the afternoon Erie train for New York. A telegram has been received here announcing his death at the home of his daughter, Mrs. Wolf Good. Mr. Jacobs resided here many years and was a highly respected citizen.

Murder Mystery May be Cleared Up

Princeton, Ind., Oct. 19.—Fifteen years ago Mrs. Elizlena Skelton was found in her residence, a few miles west of Owensville, murdered and her body in a state of decomposition. She had probably been dead 10 or 15 days. Attention was attracted to the house by the barking of a dog who had been faithful to its mistress. Thomas Skelton, her husband, had all this time been working in the immediate neighborhood. A bloody ax was found on the premises. The matter was never thoroughly investigated for some reason until now. It is alleged that circumstantial evidence has been discovered pointing to the guilty party, and he may be arrested in a few days. The victim was a beautiful woman and bore a good reputation.

Ultimatum From Insurgents.

Caracas, Venezuela, Oct. 19.—Senor Matos, the peace envoy, bringing an ultimatum from the insurgent commander, Gen. Cipriano Castro, returned to Caracas from Valencia, to meet President Andrade, who is expected to give an answer in the course of the day. President Andrade cannot do otherwise than accept the conditions imposed by General Castro, as he is virtually abandoned by all his supporters. Notwithstanding this, he still maintains that it may be possible to transfer the seat of government to Maracaibo and to continue the fight. The situation here is extremely critical. A French warship is expected at any moment.

Three Killed at a Fire.

Knightstown, Ind., Oct. 19.—Three lives were lost and property estimated at $100,000 was destroyed in a fire here. The dead were members of the volunteer fire department. Their names were Truman Rhodes, Charles Schutter and Fon Davey. They were fighting the fire when a front wall of a three-story building fell outward and crushed them. It is believed that two others met with the same fate. The fire is supposed to have started from an explosion of natural gas.

Boy Dragged to Death.

North Manchester, Ind., Oct. 19.—The fourteen-year-old son of William Bell, 12 miles west of here, climbed on a horse, which did not move as briskly as the lad's father imagined it should, and he began beating it. The animal threw the boy off. His feet caught in the harness and he was dragged fully a mile before the horse could be stopped. He was a mass of bumps, bruises and broken bones from head to foot. Life was extinct when picked up.

Wreck on the West Shore.

Amsterdam, N. Y., Oct. 19.—Two Wagner sleeping cars attached to the Atlantic express on the West Shore Railroad were derailed and thrown into a ditch at Indian Castle by the breaking of a coupling pin, which fell under the wheels of the train. One car tumbled down the embankment, and the other was turned across the tracks. None of the seven passengers aboard were injured.

Two Killed by Trolley Cars.

Lorain, Ohio, Oct. 19.—Albert Conrady, aged 16, coming home from seeing his sweetherat at midnight, laid his head on the street car tracks and was run over and killed. He went to sleep while waiting for the last car.

John Smith, ice dealer, was killed east of here by a motor while coming home from seeing his bethrothed. The body was discovered in the ditch.

Will Engage in Naval Practice.

Vancouver, B. C., Oct. 19.—Advices from Japan say that about April next naval manoeuvres are to be held on the largest scale attempted in Japan. About 160 ships are to participate. The emperor will assume command and manoeuvres are to be carried out as though the vessels were actually engaged in conflict with a foreign power.

Cubans Fear the Census.

Havana, Oct. 19.—The taking of the census of Havana is progressing favorably. Many ignorant persons look upon the enumerators with suspicion, as, under the Spanish regime, a census invariably meant an increase in taxes. The Chinese are causing some difficulty to the enumerators, as many of them are unable to speak either Spanish or English.

Steamships in Collision.

Liverpool, Oct. 19.—The Dominion Line steamship Vancouver, Captain Jones, from Montreal Oct. 6, for this port, was in collision on the Mersey with the British steamship Ottoman, Captain McDonald, which arrived from Montreal. Both vessels are damaged and have been docked.

Boy Fatally Stabs His Father.

Warsaw, Ind., Oct. 19.—John Helfrich, of Larwill, died from stabs received from an angry son. The father had inflicted some punishment upon the son, and the boy drew an ordinary pocket knife and stabbed the father five times. He cannot be found.

Burned to Death in Hotel Fire.

Green Lake, Wis., Oct. 19.—The Terrace Beach Casino, a large hotel owned by W. A. Meyer, burned to the ground. Mr. and Mrs. Jenks, parents of Mrs. Meyer, who occupied a room in the building, were burned to death.

REACHED AN AGREEMENT.

The Alaskan Boundary Line Has Been Temporarily Settled at Last.

SOME CHANGES MADE.

Secretary Hay and Mr. Tower of the British Embassy Arrive at an Understanding.

Possibilities of Any Future Controversy Arising Carefully Guarded Against—The Latest Proposition Will Be Submitted to the British Government.

Washington, Oct. 19.—Secretary Hay and Mr. Tower, Charge d'Affairs of the British Embassy have reached an agreement as to the temporary Alaskan boundary line. There was no formal signing of a protocol or a paper agreeing to the modus vivendi, as was the case in the Bering Sea agreement, but the settlement was brought about by exchange of notes between the representatives of the two governments. To make sure that no misunderstanding could occur, Secretary Hay made some changes in the provisions submitted by the United States, but these did not affect the general condition and were simply to do away with any ambiguity.

It is probable that Mr. Tower will ask for a short time to transmit the latest proposition of the Secretary to his home government and it will be allowed, and the formal agreement as to the modus vivendi will not be announced for a day or so yet.

Convinced of Croker's Good Faith.

Washington, Oct. 19.—Echoes from the St. Louis meeting of the Democratic leaders come to Washington in the shape of the announcement that Chairman Jones is fully convinced of Croker's good faith in supporting Mr. Bryan. In addition to the interview Croker gave out on his return from Europe and his recent fight against Hill to pass resolutions indorsing Mr. Bryan, he has given formal assurances of his loyalty to the Nebraska man and promised the leaders on the National Committee a Bryan delegation from New York to the next Democratic National Convention. It is said that by his formal, positive and apparently frank declaration of his position he has secured the confidence of the Bryan leaders, especially Chairman Jones, who has been rather shy of him up to this time.

Killed One of the Eagles.

Washington, Oct. 19.—For some years past the Smithsonian Institution has been watching and guarding with great care two large American eagles that have been making their nests in the swamps near Mount Vernon. A colored boy employed in Washington was out gunning yesterday in a boat near the swamp, when he heard what he thought was the cry of a child in distress, and, rowing toward the sound, he saw two great eagles fighting over a young pig which they had captured. The boy pushed his boat near the birds and joined in the fight. Finding themselves attacked, the eagles turned on the lad, and he had a terrific struggle with them, and finally killed one of the birds and drove the other off. He then brought the dead bird to the city, and, taking it to the Smithsonian Institution, it was at once recognized as one of the pets which for years had been watched and guarded by the officials. The record of the Smithsonian Institution shows that they were perhaps the finest specimens of the pure American eagle in this vicinity. They had nested for some time near Mount Vernon in the marsh, and their nest was quite a curiosity. The birds had gathered and put in it a number of articles, including a brightly painted decoy duck, a big red ear of corn and several other objects distinguished for their bright coloring. The Smithsonian officials fear that, now one of the eagles has been killed, the other will take its departure.

Killed By Their Own Men.

Paris, Oct. 19.—The Minister of the Colonies, M. Decrais, has received an official despatch announcing that Captain Voulet and Captain Chanoine, of the outlawed French expedition in the Soudan, whose members recently massacred most of the members of the expedition under Lieutenant Colonel Klobb, sent to arrest those officers on charges of cruelty and insubordination, have been shot by their own men.

Mrs. Cleveland at Princeton.

Princeton, N. J., Oct. 19.—Mrs. Grover Cleveland and her four children, Ruth, Esther, Marion and Richard, accompanied by two maids, arrived here on a special car from New York. Several Princeton friends of the Clevelands were at the station and gave Mrs. Cleveland a cordial welcome on her return to the university town.

An American Bark Burned.

Tacoma, Wash., Oct. 19.—The American bark Wilna, Capt. John Slater, caught fire in her hold and will be a total loss. She was loading at the St. Paul and Tacoma Lumber Company's mill for Australia, and had 400,000 feet of lumber below her decks at the time of the fire. The loss is estimated at $340,000.

Canada's Premier Retires.

Toronto, Ont., Oct. 19.—A. S. Hardy, premier and attorney general of Ontario, has retired from office and from the provincial parliament. His resignation has been accepted by the lieutenant governor. G. W. Ross, minister of education, has been sworn in as premier, and has assumed the duties of office.

Jeffries is Satisfied.

Asbury Park, Oct. 19.—James J. Jeffries is much pleased over the fact that Sharkey has agreed to a postponement of their fight, which is to take place on Nov. 3 instead of Oct. 27. Jeffries now says he will enter the ring on that date no matter what happens.

October 23—Union Bible class taught by Rev. D. M. Stearns, Y. M. C. A. Hall, 7:45 p. m.
October 30—Y. M. C. A. Star Course.

The Reed Victory.

There was nothing really surprising in the victory of Senator Charles A. Reed at the Somerset county convention yesterday. It was known that Reed captured a majority of the delegates at the primaries held through the county last week. The only question was whether Chancery Clerk Lewis A. Thompson could bring sufficient influence to bear upon the Reed delegates to force the selection of a compromise candidate or possibly to secure the nomination of Thompson's man, Former Sheriff George A. Dilts, of Raritan.

The workers of the Thompson faction counted on the recess for dinner as the time when they might break up some of the delegations that arrived on the scene solid for Reed. It was there that they were outgeneraled by the followers of the Senator.

The convention was altogether the most exciting that the Republicans of Somerset county have held for years. When it was demonstrated that Senator Reed's friends were in the majority, the Thompson faction refused to give up the fight but bitterly contested every suggestion of the rival leaders. The convention demonstrated that the "Tall Sycamore of Somerset" is the prevailing factor in county affairs but it left the party with its unity considerably shattered and bitterness existing on both sides.

Whether the followers of Mr. Thompson are willing to abide by the decision of the convention and work the hardest for the nominee remains to be seen.

Former Mayor B. A. Hegeman, Jr., of North Plainfield, made the nominating speech for Senator Reed and fairly outdid himself. He grew very eloquent and made a rousing speech in behalf of his candidate. This is the third time he has nominated Reed at a Somerset county convention, first for the Assembly and then for his first term in the State Senate.

RAINMAKING IN ITALY.

The summer just passed was exceedingly dry in southern Austria and northern Italy, and a rainmaking company has proved a godsend to the farmers. The machines illustrated are immense guns, which are loaded only with powder. At every shot they emit a big mass of smoke. They produce steady, light rainfall, and not thunder showers, as is the case with some machines.

Democratic State Chairman Gourley is still at work trying to organize the party in the various counties in which the organization needs strengthening. He is specially anxious to introduce all over the State the plan of having precinct or district captains, whose duty it shall be to pay special attention to the registry and see that the names of all Democrats are properly on the voting lists on the last registry day. The captain system was introduced into Passaic county when Mr. Gourley was chairman of the local county committee, and it worked with such success that he is now advocating it in districts all through the State. This fall's election will be the first trial of the innovation in the country towns, and the leaders are anxious for the result of the experiment, which the State Chairman is sure will prove a success.

The associated Justices of the Peace of Hudson county announce that their object is not only to secure legislation that will restore to them former powers of which they have been deprived, but also to oust from office all Justices who bring discredit upon the position by unlawful and unwise acts. The Newark News truthfully comments that "if they shall accomplish the latter aim first they will find less difficulty in persuading the Legislature that their jurisdiction should be extended."

WHAT THE SHEARS FIND

Editorial Comment From Other Papers of Interest in Plainfield.

Congressman Daly, of Hoboken, has conferred with James E. Martine, of Plainfield. Therein Congressman Daly showed good sense. As a result of the conference, Mr. Daly has abandoned his plan of organizing a new Democratic State committee with all the anti-Bryan "traitors" turned out. He has also abandoned the idea of holding a separate State convention, for the purpose of making sure that all the delegates elected shall be in the Bryan interests. Mr. Martine is a Bryan man—more's the pity, since the "Farmer Orator" is almost good enough to be a Republican—and he has counseled Daly to go slowly. It may be that even yet the Democrats of the State will heal their differences and unite on Bryan. If so Mr. Martine will be entitled to greater distinction than ever in his party. Daly meanwhile threatens to keep up his war on Gourley, but this may be merely letting himself down easy.—Elizabeth Journal.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

There is on exhibition at Brown & Hill's tonsorial parlors a man of small stature, and the firm explains his presence in this way. They say that the man is a native of Phillipsburg and that he came to Plainfield the day of the firemen's parade. After witnessing the parade he imbibed too much of that which is intoxicating, and as a result became petrified. He was found in the gutter in front of the barber shop the morning after the parade and is now on exhibition. The man is, as stated, small, but the features are perfect.

* * * * *

As each year rolls around Plainfield is no farther advanced in the matter of owning a city hall and a great many people have cause to wonder what delays this important building which is one of the city's great needs. It has been surmized that those in charge of the city's affairs are waiting until the people become so indignant that they will be forced to erect such a building, and then the responsibility will be placed on the people and not on her representatives. This is said to be true regarding a city jail for the city. There is possibly no greater need in Plainfield today than a decent, respectable-looking jail, yet the city fathers refuse to erect one until they can erect a city hall and combine it with that. The city is constantly violating the Board of Health ordinance, and is liable to be called into court at any time to defend its rights. Then who will have to pay for legal talent, suits, etc.? A prominent Plainfielder remarked a few days ago that if the city fathers would erect a suitable city hall, and arrange the payment for the same so that the coming generation would help pay for it, there is not a person in the city who would object.

TO CALIFORNIA.

Via The Midland Route.

Every Friday night, at 10.35 p. m., a through Tourist Car for San Francisco, carrying first and second-class passengers, leaves the Chicago, Milwaukee & St. Paul Railway Union Passenger Station, Chicago, via Omaha, Colorado Springs and Salt Lake City (with stopover privileges at Salt Lake City), for all points in Colorado, Utah, Nevada and California.

Bismark's Iron Nerve

Was the result of his splendid health. Indomitable will and tremendous energy are not found where Stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25 cents at L. W. Randolph's drug store.

Jury Award Favors P. R. R.

The Pennsylvania Railroad Company took possession of a strip of land on Irving street, Rahway, for its fourth track, and D. B. Dunham, a carriage manufacturer, who claimed to own the land, brought an ejectment suit in the Union County Court and won his case. Then the court appointed a commission to appraise the land and it awarded Dunham $2,600. The railroad company appealed and the issue was tried before Judge Van-Syckel and a struck jury. The award was reduced to $1,400. Several Plainfielders served on the jury in this case.

GRAIN-O BRINGS RELIEF

to the coffee drinker. Coffee drinking is a habit that is universally indulged in and almost as universally injurious. Have you tried Grain-O? It is almost like coffee but the effects are just the opposite. Coffee upsets the stomach, ruins the digestion effects the heart and disturbs the whole nervous system. Grain-O tones up the stomach, aids digestion and strengthens the nerves. There is nothing but nourishment in Grain-O. It can't be otherwise: 15 and 25c. per package.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

THE NEW LINING "ORIENTAL" SILK

A MOST Extraordinary Sale of Fine Clothing.

A Sale that gives you an opportunity to buy your fine Fall and Winter Suits and Fall and Winter Overcoats and Trousers

At ⅓ the Manufacturer's Prices.

HERE IS THE STORY:

We closed out the entire stock of a large manufacturer of few days ago securing over $6,000 worth of the finest and most up-to-date men's dress suits, business suits and trousers at a mere fraction of their value and we will place them on sale this Saturday morning.

Over 500 styles in suits and overcoats to choose from; this is without a question the greatest offering in men's apparel Plainfield has ever seen, and one that every man and woman intending to buy clothing this season should take advantage and note these extraordinary prices.

MEN'S FALL COVERT TOP COATS—Very stylish in appearance, made of strictly all-wool materials, regular $10.00 garments, at this sale $3.75.

MEN'S STRICTLY ALL WOOL TOP COATS—Exceedingly stylish, guaranteed to be worth $12.50, will close out what is left at $5.00.

MEN'S ALL WOOL BUSINESS SUITS—Made of black or blue cheviots and mixed cassimeres. These suits are made up in this season's styles and patterns and would easily command in other stores from $8.00 to $10.00; we will sell them at an unusual low price, $3 50 and $3.90.

MEN'S SACK COAT SUITS in striped worsted and checked cheviots, neat, stylish and well made, easily worth $15.00, your selection at $6.50.

MEN'S BLACK CLAY DIAGONAL COATS and VESTS—Winter weight sack or cutaway, guaranteed to be worth wholesale $9.00, to go at this sale at $4.50

CHILDREN' VESTEE SUITS—Age 3 to 8, and boy's double breasted suits 7 to 16, all-wool in blue and fancy cheviots at $1.00, $1.50 and $1.75, worth $3.00.

YOUTH' SUITS with long trousers, ages 14 to 19, in blue and black serges, single or double breasted, a $10.00 suit, at $5.75.

Men's blue or black welton overcoats, worth $10.00, at $4.50, and hundreds of other fine coats in proportion.

Men's suspenders at 6 cents, worth 25c. All-wool half hose at 9c, worth 25c

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Daily Press.)

Dunellen, Oct. 19.—By the explosion of a kerosene lamp Tuesday night the residence of George VanNess on Front street had a narrow escape from destruction. The lamp hung in the hall and began to blaze up when discovered by a member of the family. Mr. VanNess was summoned by the frightened inmates. He took in the situation at a glance and proceeded to hurl the lamp from the house. He secured a broom and opening one of the hall doors hit the lamp, with the intention of knocking it into the street. Instead of doing so, however, the blazing lamp was thrown against the closed door and instantly the oil was scattered about the hall. It was with much difficulty that Mr. VanNess was able to extinguish the flames. The carpet was burned and the ceiling and walls badly scorched. The hall door was also considerably burned. The damage will amount to about $25 covered by insurance.

Ernest Peters, a brother of John Peters, of the borough, who has been taking a European trip, is expected home in a few days. He lives at Nyack, N. Y.

The registry books are at the post-office, where they may be inspected. There are 333 names registered, a slight increase over last year.

The Dunellen football team will play the Somerville boys Saturday afternoon.

John Peters, Jr., has returned from a visit with friends at Montclair.

W. H. Thompson, of Westchester, Pa., is visiting at Mrs. Vars.

PLAINS AND FANWOOD.

(Special Correspondence of The Press.)

Scotch Plains, October 19.—The summer season at Glenside Park closed Tuesday. Mr. Molloy, who has the cottages at this select retreat for a colony of Newark's 400, reports a very prosperous season.

The Sacred Literature Club connected with the Baptist Young People's Society met in the church parlors last evening. The society has taken up the Book of Genesis for study and find it very interesting.

Some miscreant shot a valuable setter dog belonging to Richard Hart Tuesday. Mr. Hart promises to make it warm for the party if they are found out.

Three new names were added to the registry at the meeting of the Board of Registration Tuesday. This makes the total registry for the township 312.

Miss Stilliger, who has been visiting her aunt and uncle, Mr. and Mrs. George Stilliger, has returned to her home in Chicago, Ill.

Miss Stella Rogers, of Brooklyn, is visiting her grandparents, Mr. and Mrs. Ryno, of Front street.

David Clark has purchased a confectionery business in Orange and will take possession at once.

E. L. Hand, of the Central Hotel, has purchased a new pool table for his pool room.

Mrs. Malom and daughter are visiting relatives and friends in Brooklyn.

WESTFIELD.

(Special Correspondence to The Daily Press.)

Westfield, Oct. 19—At a meeting of the Fire Department it was decided that hereafter the foreman of the different companies would be allowed to hire horses to haul their machines to fires when thought necessary. Heretofore Empire Engine Company and Bucket & Engine Company have been allowed horses but the Hook and Ladder Company were compelled to pull their heavy truck to the scene of the fire no matter how far away it happened to be.

The High school football team will go to South Orange Saturday afternoon to play a return game with the team from the Prospect A. C. of that place. Frank Howe has been elected captain of the team in place of Octavios Knight, who has resigned.

Who Has Been Doing This?

Boys, if you must go to Plainfield to see the girls—although for pretty ones even that place can't beat Bound Brook—why do try and start in time to catch a ride home, for it's to far to walk all the way, yet, on the other hand, it's a just penalty to pay for leaving your own town.—Bound Brook State Centre.

We give no rewards. An offer of this kind is the meanest of deceptions. Test the curative powers of Ely's Cream Balm for the cure of catarrh, hay fever and cold in the head and you are sure to continue the treatment. Relief is immediate and a cure follows. It is not drying, does not produce sneezing. It soothes and heals the membrane. Price 50 cents at druggists or by mail. Ely Brothers, 56 Warren street, New York.

THE AMUSEMENT WORLD

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local and Metropolitan Performances That Will Please Those Who Delight in the Art of Thespis and Mimic World

The author of "Mr. Plaster of Paris" has been singularly successful in producing a farce comedy of a high order of merit and entirely different from anything of the kind ever seen before. Not only does the story of the play command great interest, but the plot is intricate and full of surprises and the humor is of an intensely funny nature. Some of the situations in the piece are the most comical ever seen on any stage, and there is not a dull moment in the play. All this and more is claimed for the famous attraction which will be seen at Music Hall tonight. Where the author left off Joseph P. Harris, the well-known theatrical manager begins. He has secured the most perfect scenic environment possible for his farce and chosen his artists with the utmost care. It is indeed an all star cast as every member of the company is well known in the world of fun makers. The performance to be given here will be sure to create great interest, for everyone loves comedy and "Mr. Plaster of Paris" is acknowledged to be the prince of the lot.

* * * * * *

"The French Maid," which comes to Music Hall next Tuesday night, is an English musical comedy that had its first American production at the Herald Square Theatre in New York, and scored so heavily that it remained there during almost an entire season. It will be presented here by a company numbering about fifty people and including a trained corps de ballet and a complete chorus, in addition to an imposing array of prominent actors and actresses. The production to be shown is identically the same that was on view during the run at the Hearld Square Theatre. The entire scenic equipment is carried on tour and all the costumes and other accessories are of the most brilliant character. The action of the piece gives occasion for the introduction of several beautiful ballets and many special features. The story involves a variety of character and is based wholly on comedy lines. Music of a tuneful nature and witty lyrics are factors in the entertainment which is described as one of the brightest and best of its class ever shown. Reserved seat tickets for the performance are now on sale at box office.

* * * * * *

Always a capital programme of completely enjoyable vaudeville features of the highest class will be found at the Proctor continuous performance theatres in New York city. The entertainment is maintained a steady pinnacle of rare merit, and none but the best features and novelties are presented weekly. At the Proctor houses, now, is the newest of the many motion photograph machines. It is the invention of Wm. Paley, who was the chief artist for Thomas A. Edison in the Cuban War. His views include all the animated pictures of Dewey in the naval and land parades and exhibit the Admiral in a dozen different poses. Other prominent figures in the series of pictures are Rear Admirals Schley and Sampson, Governor Roosevelt Mayor VanWyck, etc. The yacht races are also splendidly displayed.

Volcanic Eruptions

Are grand, but Skin Eruptions rob life of joy. Bucklen's Arnica Salve, cures them, also Old, Running and Fever Sores, Ulcers, Boils, Felons, Corns, Warts, Cuts, Bruises, Burns, Scalds, Chapped Hands, Chilblains. Best Pile cure on earth Drives out Pains and Aches. Only 25 cents a box. Cure guaranteed. Sold by L. W. Randolph, Druggist.

SIXTY-EIGHTH TIME IN JAIL

Ann Ford Breaks in a New Patrol Wagon at Elizabeth.

(Special to The Daily Press.)

Elizabeth, Oct. 19—Ann Ford, for the sixty eighth time in her life, was committed Monday to the county jail. During the past fifteen years she has spent twelve years in jail for drunkenness and disorderly conduct while intoxicated, but aside from her liquor no other offence has ever been charged against her. She is now sixty-three years old, and Monday was the first prisoner to take a ride to the jail in the new patrol wagon, as she was also the first to take a ride in the old vehicle.

Ann heaped maledictions on Justice Hetfield when he sentenced her for ninety days, which is her usual limit. She was released from the county jail Saturday.

Telephones in Cranford.

(Special to The Daily Press.)

Cranford, Oct. 19—The New York and New Jersey Telephone Company has established a local exchange at this place, which is being greatly appreciated by the business men and residents. Local and long distance communication is afforded to fifty subscribers. The central office is located in Marien's drug store near the depot.

—A meeting of the committee on boys' work of the Y. M. C. A. will meet this evening at 8:30 o'clock.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

Miss Emma Nelson, of New Market, has been visiting Plainfield friends.

Mrs. Riker, of Central avenue, has been detained at her home by illness.

Mr. and Mrs. Henry Piker, of Westfield, are visiting in Plainfield for a few days.

Miss Jessie Saxton, of East Fourth street, is visiting New Brunswick friends for a time.

Miss Etta Raybert, of North avenue, has returned from a visit with friends in New Brunswick.

Edward Campbell has taken charge of the hotel recently conducted by his father, who died last week.

John Burke, an employe of the Buffalo Bill Wild West show, is visiting friends in this vicinity.

Mrs. W. O. Chapman, of Albert street, has returned from a pleasant visit in Philadelphia with her brother.

Mrs. Edward F. Randolph, of West Fourth street, has returned from a visit with her parents at Newburg, N. Y.

Mr. and Mrs. J. A. Martin, of Altoona, Pa., have been visiting at the home of Mr. and Mrs. C. E. Buell, Craig place.

Rowland Smith and family, of Brooklyn, who have been spending sometime at the home of Mr. Smith's, father on Park avenue, have returned home.

The last letter from George Serrell, who is in the U. S. Hospital, Havana, suffering from a fracture of the leg, states that he is doing as well as can be expected.

Mr. and Mrs. A. Arthur Cannon have returned from their honeymoon, and have taken up their residence at the home of the bride's parents on Somerset street.

EARLY INTELLIGENCE.

—B. W. Hand, 205 West Front street, the stationer, headquarters for New York daily and weekly papers and magazines.

—Next Tuesday the Great Council, Degree of Pocohontas, of New Jersey, will meet in Trenton, and a number of local members will attend.

—S. D. Drake, of North avenue, has just completed some improvements in his office which make it one of the most desirable places in the city.

—It was unintentionally omitted in yesterday's account of the Baptist convention that delegates were present from Westfield, Scotch Plains and Somerville.

—Under the direction of the street commissioner the streets about the city are being cleared of leaves, especially where they clogged the gutters and catch basins.

—City taxes remaining unpaid Nov. 20th next will be returned according to law, and interest at the rate of 10 per cent. per annum, with legal costs, added in collection.

—C. L. Stanley, florist, 142 North avenue, has on sale an extra choice variety of chrysanthemums. All good size, color and substance, foliage and stems good. Prices right.

—Now that the North Avenue station has been provided with modern arc lights, why wouldn't it be a good idea to put one of them on Front street opposite Park avenue, to replace the one which is out of date.

—J. W. VanHorn, of Duer street, is greatly troubled with an affection of the throat which does not permit him to speak above a whisper. The trouble is very distressing and in spite of the best of treatment it does not get any better.

—One of the up-to-date laundries in New Jersey is the one conducted by H. W. Marshall, on East Front street. At this place every possible care is taken of goods received and they are returned in a thoroughly satisfactory manner. The laundry has recently been equipped with entirely new machinery, thus making it possible to turn out first-class work only. The wagon will call and deliver goods.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free.

L. Bamberger & Co., Newark, N. J.

Lokal-Nachrichten aus der alten Heimath.

Oesterreich.

Wien. In der Ohrenklinik des Allgemeinen Krankenhauses wurde kürzlich der 100,000. ambulatorische Patient seit der im Jahre 1873 stattgefundenen Errichtung der Ohrenklinik in Behandlung genommen.—Hier erschoß sich Friedrich Hetschningk. Inhaber der Putzereifirma Counde, die in zahlreichen Straßen Wiens Filialen besitzt, wegen schlechten Geschäftsganges.—Der Geschichtschreiber der Medizin, Universitätsprofessor Dr. Theodor Puschmann, geb. 1844 zu Löwenberg, ist aus dem Leben geschieden.—Der verarmte Architekt und frühere Gemeinderath Philipp Kaiser hat wegen Nahrungssorgen Selbstmord begangen.

Budapest. Die Ueberschwemmung der Insel Schütt durch die obere Donau hat zu einer förmlichen Katastrophe geführt; 20 Gemeinden standen unter Wasser, viele Häuser sind eingestürzt, wobei mehrere Menschenleben zu beklagen sind. In Folge der Verheerungen ist großer Mangel an Nahrungsmitteln eingetreten.

Brünn. Die Errichtung einer tschechischen technischen Hochschule dahier ist von dem Kaiser genehmigt worden. Die Ingenieurabtheilung wird sofort eröffnet werden.

Brunnkirchen. Verlassen und vergessen starb der frühere vielgenannte niederösterreichische Bauernführer Steininger aus Gobelsburg, damals auch Herausgeber der auf radikaler Tendenz fußenden „Mittelstraße," im hiesigen Armenhause.

Innsbruck. Man berechnet die Anzahl der bei dem großen Schneefall vom 9. bis 13. September auf den Alpen zu Grunde gegangenen Schafe auf mehr als 2000. Die große Lawine, die von der Arler Scharte herunterging, tödtete allein 68 Schafe, die theils neben der Lawine gefunden, theils aus dieser ausgegraben wurden. An Großvieh sind mindestens 200 Stück umgekommen.

Lustenau. Der nahezu vollendete Rheinkanal hat eine Länge von fünf Kilometer und von Damm zu Damm eine Breite von 255 Meter. Die Dämme schließen die sogenannten Vorländer in der Breite von je 68 Meter ein. Durch diese Vorländer, die als Reservebett für eintretendes Hochwasser angelegt wurden, ziehen mächtige Steintraversen, damit reißende Fluthen das Terrain nicht anfressen können. Die sechs Meter breiten Dämme werden bei Hochwasser noch 1.2 bis 1.3 Meter über den Hochwasserspiegel hinausragen. Das Gefälle in der Nähe des Ausflusses beträgt 0.8 Meter, weiter oben 0.7 Meter pro 100 Meter. Zwei über den Strom führende Brücken werden gegenwärtig in Eisenkonstruktion erstellt und erhalten eine Länge von je 255 Meter. Die in Verwendung stehenden Maschinen repräsentiren 700 Pferdekräfte, neun große und fünf kleine Lokomotiven und verschiedene kleine Dampfmaschinen. Das Rollgeleise umfaßt eine Länge von 50 Kilometer.

Pilsen. Hier zogen kürzlich 2000 halbwüchsige Burschen unter Abbrüllung tschechischer Lieder und unter antisemitischen Schimpfworten nach der deutschen Turnhalle, wo sie die Fenster einwarfen. Der Radau wurde so groß, daß Militär aufgeboten werden mußte, das die Tumultuanten auseinander trieb.

Schweiz.

Bern. Der Bundesrath hat an Stelle des zurückgetretenen Scherb zum Bundesanwalt Obergerichtspräsident Kronauer (Zürich) gewählt. — Das Kriegsgericht der Ersten Division hat den Trainsoldaten Corbez, der sich während der Manöver der Bedrohung und Beleidigung von Offizieren schuldig gemacht hatte, zu einem Jahr Gefängniß und zur Einstellung im Aktivbürgerrecht auf die Dauer von vier Jahren verurtheilt.

Zürich. Der Kantonsrath bewilligte mehreren Seegemeinden einen Staatsbeitrag von 6000 Francs zu dem Zwecke, die Schifffahrt auf dem Zürichsee aufrecht zu erhalten.

Uri. Die Leiche des Professors der Medizin Ludwig Kirn aus Freiburg im Breisgau, der kürzlich im Schoellenen-Thal verunglückte, ist jetzt in der Nähe der Teufelsbrücke gefunden worden.

Basel. Nach dem dieser Tage erschienenen Bericht des schweizerischen Alpenklubs haben im Jahre 1898 39 Unglücksfälle in den Alpen einen tödtlichen Ausgang gehabt; die Zahl der Opfer beträgt 45, wobei nicht gerechnet sind Unfälle, die sich blos beim Edelweißpflücken ereigneten; 17 Fälle beziehen sich auf Personen, die führerlos die oberen Gebiete zu besuchen wagten. Es ist hier nicht blos von den speziell schweizerischen, sondern auch von den angrenzenden Alpengebieten die Rede.

Aargau. Auf dem Bahnhofe in Aarburg verunglückte der englische Reisende Daniel Finley aus London. Er gerieth auf bis jetzt unaufgeklärte Weise unter einen abfahrenden Zug und es wurden ihm beide Beine abgequetscht. Der Verunglückte starb nach Verlauf von zwei Stunden.

Genf. Verschiedene Experten sprachen sich für die Errichtung eines dritten Wasserwerkes an der Rhone in Genf aus, das im Minimum 16,000 und bei höchstem Wasserstande 52,000 Pferdekräfte liefern könnte. Das Werk soll den bisherigen Werken einverleibt werden.

A first-class storage warehouse—locked rooms, safe and cleanly—the very place you want to keep your goods! Low rates and our own moving vans.

CORNHUSK HATS.

Unique Millinery Which Has Made Famous a Kansas Woman.

Several world famous women recently received unique samples of millinery. The women were Queen Victoria, Helen Gould and Mrs. McKinley. Each received a hat made entirely of cornhusks.

The hats were manufactured by Mrs. M. J. Cusack of Atchison and were sent as souvenirs of Atchison's recent corn festival, which, as you know, was held to celebrate the great Kansas corn crop of 300,000,000 bushels.

Mrs. Cusack is not only a pioneer in this novel industry, but she has brought her work to an artistic perfection far beyond all other similar attempts. She is a retired milliner and has been experimenting with cornhusk millinery for several years. She has discovered a method of softening the husks and of dyeing them. This method she keeps secret and has persistently refused to reveal it.

With nothing but cornhusks Mrs. Cusack can turn out bonnets and hats which might readily be mistaken for imported Parisian "confections." Some of the effects she secures with the yellow maize wrappings can hardly be excelled by skilled workers in the finest Italian straw.

Mrs. Cusack was born in Ireland, but has lived in Atchison for many years. The hat which she has sent to Queen Victoria is of a Marie Stuart shape and is trimmed with passion flowers made of cornhusks. The flowers have a wonderfully natural and silky appearance. The frame is of royal purple braid, and knots of cream colored husks are fastened among the flowers. The strings of this exquisite chapeau are really marvelous, having been knitted out of softened and dyed husks. The bonnet was handsomely boxed and accompanied by the following note:

To Her Most Gracious Majesty the Queen:

I am sending you today a bonnet I have made of cornhusks as a souvenir of the corn carnival, a festival held at Atchison, Kan., U. S. A., to celebrate the largest corn crop ever raised in an American state.

I beg you will accept it as my simple tribute to the greatest of sovereigns and greatest of women. It is a little thing to you, but I have worked at it with loving hands, and if you will "try it on" I am sure it will become you, as a compliment to the millions of humble women who love your name, your good deeds and the example of your life.

I was born in your dominions, and, though I have lived in the United States many years, I have yet to find an American who would not cheerfully join me in the finest sentiment in the English language:

God save the queen!

Though now a citizen of Kansas and of the great republic, I am still the loyal subject of the queen of women, Victoria. With great respect,

MRS. M. J. CUSACK.

CORNHUSK HAT FOR MISS HELEN GOULD.

The hat for Miss Gould, for whom Mrs. Cusack has a great admiration, is made after a pattern sent from Paris. The husks are woven in imitation of Tuscan braid and are dyed in two shades of lavender. It is almost covered with violets made from husks, and beneath the brim is a bunch of tea roses.

In making this hat Miss Gould's brunette type has been kept in mind by her milliner, and the high crowned hat, with its graceful, rolling brim, trimmed with violets, shaded from the palest lavender to the deepest purple, will, it is thought, be particularly becoming.

Mrs. McKinley's bonnet is a little toque for evening wear. It is composed of cream colored cornhusks, trimmed with roses and graceful rosettes of black. Roses, frame and all are made entirely of cornhusks.

It is just possible that in thus introducing to the world the product of her nimble fingers Mrs. Cusack has founded a new industry which will make the American corn crop more valuable than ever. If Mrs. Cusack can make artistic and beautiful bonnets from cornhusks, why cannot other women do so too? Why should we send to the yellow fields of Lombardy for the straw which we use in hats when so many acres of material just as suitable are to be found in our western states?

It has taken us more than a century to find out that corn had so many uses. Today we not only use it for making johnnycake and other edibles, but we use the corn pith to make our warships unsinkable.

In a few years many of us may be wearing cornhusk hats. If we do, I shouldn't be surprised if we had to pay as liberally for them as we do now for those of straw. LUCY LAWN.

Club For Women Lawyers.

A women lawyers' club has recently been organized in New York city. It is formed for mutual helpfulness, and 40 women lawyers are comprised in its membership. At 220 Broadway there are an extensive law library for the use of tenants and a cozy reading room, with large table for the use of students. Regular monthly meetings are to be held, whose object will be to further acquaintance and comradeship among the members.

Among the many noted newspaper correspondents sent to Rennes to report the Dreyfus case was Mrs. Emily Crawford, an English woman journalist.

WOMEN'S REALM

ANOTHER NEW FAD

The New York Girl Now Comes Forth With a Snuff Box.

"One solemn duty imposed on the metropolitan girl is the production of an eccentric fad every idling season," asserted a prominent New York jeweller.

"What has she brought forth this year?" I asked.

"Snuff and extravagant display of the ornate accessories to snuffing," was his reply. "Since the beginning of the hot season we have had unlimited calls for handsome snuff boxes, some patterned after the rich and elegant old-time receptacles, but the majority entirely up to date and exemplifying the finest of American enamel work.

"A few of the boxes cost as much as $200, and a very ordinary affair indeed fetches anywhere from $5 to $25. On the cheaper articles the popular designs are typical of boating, bowling, golfing, hunting, etc., and the boxes are attached to chatelaine chains or permitted to peep slyly forth from the belt which clasps the shapely waist of the summer girl.

"She takes snuff openly, does the summer girl, and not with any mischievous design of shocking one's sense of propriety, as in the case of the cigarette fad, which snuffing supersedes, for she has the moral support and encouragement of her physician, many of the medical profession having declared there is absolutely no harm in snuffing so long as such an innocuous substance as pure tobacco is used.

"The snuff she uses is generally a compound prepared by those tobacconists who cater to the feminine trade. A certain proportion of superfine unscented snuff is blended with a non-irritating vehicle and a combination of odorous substances added. It is then placed in earthenware jars, sealed hermetically, and baked in an oven for a certain period and allowed to cool for several days. It is then reopened and repowdered. A delicious perfume is thus produced, which, while hardly a snuff as usually construed, affords a gentle and agreeable titillation in the nostrils.

"Some girls who subscribe to advanced notions call for the Simon Pure article and regale their olfactory nerves with the 'straight' American snuff, which may be had at $1 a pound for the best. If they are ultra-faddists they go in for imported snuffs ranging as high as $50 a pound, which is not so expensive, after all, when compared with the productions of some snuff manufacturers in Portugal, which cost from $150 to $200 a pound.

"Most of the very expensive snuff, I am told, goes to China, where it is used by wealthy mandarins. Some of it is more than one hundred years old. The fine American snuffs are two years old before they reach the dainty nostrils of the fair girl."—New York Herald.

Amalia Kussner.

AMALIA KUSSNER.

The New York girl whose skill in miniature portrait painting has won for her commissions from royalty. Recently she has received a special order from the Czar of Russia.

Household Hints.

To clean iron sinks, rub them well with a cloth wet with kerosene oil, or clean the sink with potash and hot water.

In packing away clothing it is desirable also, to lay bits of charcoal here and there among the folds. This will prevent the unpleasant odor which is often noticed about clothing from which the air has been excluded for some time.

A sure preventative for bedbugs is to thoroughly whisk and dust the beds in every crevice; then take 25 cents' worth of quicksilver and the white of one egg and mix thoroughly. Take a small sized brush and paint every crevice and all along the sides of the bed. If this recipe is followed you will never see a bug.

Settling an Old Score.

Young wife—I am going to make a nice steak and kidney pudding for your supper to-night.

Young Husband (with recollections of the last one)—Ahem. I did intend to bring a friend home to-night.

Young Wife—Well, so much the better. The more the merrier.

Young Husband—All right. I will fetch him along. He served me a mean trick himself once.—Tit-Bits.

What Troubles Her.

When a woman finds that she has been cheated the financial loss troubles her comparatively little. She seldom allows herself to think of what she could have done with the money that she has literally thrown away. The thing that does trouble her is the idea that any one should think she could be so easily imposed upon; in other words she never likes to be considered unsophisticated and easy.

Treatment of Servants.

Be kind to servants when they are ill, and thoughtful of them always. Try and arrange the housework so that each servant may have one afternoon off per week and a few hours to herself on Sundays. When servants do well encourage them by a few words of praise.

MERCY TO SUFFERERS.

Views of a Prominent Physician Upon Relief From Agony.

Dr. Nehemiah Nickerson, of Meridan, Conn., one of the most distinguished physicians in New England, ex-President of the Meriden Medical Society and ex-Superintendent of the Meriden Hospital, commenting upon the right a person has to end his life when he wishes, and the view that a physician is justified in hastening the death of a patient afflicted with an incurable disease, has dictated his views on the subject as follows:

My position has not been changed by the criticisms of the clergy and some brother physicians. I still think, and always shall, that if a patient is suffering from an incurable disease, and

(Dr. Nehemiah Nickerson.)

he wants relief from his misery, that a physician is doing a deed of mercy if he helps him to end his life.

That is a proposition that I am prepared to defend. I have equally strong convictions on another proposition, which has brought upon me a storm of disapproval. That is, that if a man has no obligations to hold him to this world he has a right to leave it whenever he wishes. I claim that a man has a right to commit suicide without being called a fool or insane.

A physician should never yield to a patient's pleading for death unless he knows that the disease is incurable. My critics raise the question of the infallibility of a physician's judgment. There are some cases in which the physician cannot make a mistake. For instance, he cannot be deceived by the intolerable agonies of the final stages of external cancer.

He knows the hopeless last stages of phthisis. He knows when the death throes of heart disease are approaching. In other cases, when there is the slightest doubt, he should call in a consulting physician.

I have relieved the suffering of a good many cases in the course of my 35 years' practice. I shall not say a dozen, nor more, nor less, and thus bring down a further rain of criticism.

A patient who was near the end with consumption sent for me. She begged that I would not let her suffer the last terrible pangs of the disease. Her husband begged the same favor as piteously as she. I saw that she could not live for more than a day or two. I administered chloroform. I kept her under the influence from 1 o'clock at night until the end. She died at 4 the next morning—died peacefully and without pain, and her husband thanked me when it was all over

I have always used chloroform in such cases. It dulls the sensitive nerves and the spinal cord and arrests the heart action in systole. Its action is gentle.

Such cases are beyond and above the law. They are not contemplated by it. They are to be settled at the bar of the physician's own judgment.—New York Journal.

SLOT FIENDS.

Acquire a New Disease Called the "Slot Machine Hand."

"Talk about your telegrapher's palsy and glass arm and bicycle face," said a New Orleans sport, 'did y' ever hear of the slot machine hand?"

"What do you mean—jacks or better?" asked an interested friend.

"Naw! I don't mean a hand in cards; I mean a disease of the hand. I've got it now, but don't be scared—it ain't catching. Look at my right palm. Do you see that callous spot half way between the little finger and the wrist? Well, that's made by pressing down the lever on slot machines, and, what's more, it's effected all the nerves of the hands, and I can hardy hold a pencil or use a knife and fork. You see, when a fellow plays $10 against the box, and that's nothing uncommon, he's got to jab the spring exactly 200 times. Most of them work pretty hard, and before he gets through he is going to have shooting pains clear up to his shoulder. The handiest way to get at the lever is to turn your right hand so the little finger is on a line with the box, and then bear down with the palm. That always brings the pressure on the same spot—just where you see this callous place, and it stands to reason that a steady pounding, day in and day out, is going to cause trouble. At least, that's what my doctor says, and he plays the thing himself, so he ought to know. Why, I saw one chap—he's a boss barber and a great sport—feed over 600 chips into a machine at one play. When he finished he was so lame he couldn't hold a razor for a week. All the regular slot fiends are beginning to carry understudies nowadays—fellows to work the lever while they dump in the coin."—New Orleans Times-Democrat.

A Stowaway's Romance

Olivette Nelson, a Swedish girl, who arrived in this country a day or two ago as a "stowawzy" on an ocean steamer to meet her fiance, was married in the barge office to that fortunate individual. He is called Andrew Guttormansen, and he is a longshoreman employed in South Brooklyn. He paid his sweetheart's fine of $10 for coming into the country in illegal fashion, and the Captain of the vessel congratulated her on the happy termination of her adventure.

WANTED

The Wit.

Narow waists and narrow minds often go together.

Football makes demons of some men and angels of others.

A little masculine remorse often goes a long way with a woman.

Man glories in his strength and woman glories in her new bonnet.

A drop of ink will make even a dude the bad ones are all self-made.

Clubs drive some men to matrimony and matrimony drives others to clubs.

A drop of ink will make even a dude think—if he finds it on his trousers.

We seldom criticise the extravagance of others when we are invited to partake thereof.

There may be something in a name after all. "Mashers" and "bruisers" are similar—yet so different.

A woman may drive her husband to drink and be unable to drive a nail for the same reason—both heads being soft.

A man follows precedent as long as it benefits him.

SOME COLONIAL DISHES

We Have Annexed Many Queer Luxuries—How to Prepare Them.

America's territorial gain through the war with Spain has brought up the subject of Spanish cookery, and many soldiers and sailors returning from our newly acquired countries bring home tales of deliciously cooked dishes that have fired the hearts of the American housekeepers with ambition to emulate them at home.

Cooking, as a rule, in Porto Rico and in Havana is not apt to strike the American palate as especially good. The Spaniard runs largely to ragouts, and fries his fish in rich oil of cheap quality. The salads are delicious, and the guava jelly, served on a green leaf with a bit of fresh cheese as an accompaniment, is a morsel fit for an epicure. The coffee does not seem equal to the good old American brew made by a Southern "mammy."

Spanish cookery is found in its perfection in New Orleans, where it is refined by a mixture of French art. From a restaurant in the Spanish quarter of that city come these favorite Spanish dishes, which are easily prepared and very good:—

Spanish steak is prepared from two pounds of steak, the round preferred; two cloves, half a dozen red chilis, one tablespoonful flour, some garlic, thyme and drippings.

Seed the chilis and cover with boiling water; soak until tender, then scrape the pulp into the water. Cut the steak in small pieces, fry brown in hot butter, add flour and brown it, cover with the chili water, add the garlic and the thyme, simmer until the meat is tender and the gravy rich and brown.

Tamales are a favorite dish with Americans. Take two quarts yellow dried corn and boil it in water mixed with one-half teacup of lime. Let it boil until well cooked. Wash thoroughly and grind until it is very fine. Boil a piece of beef in salted water until it is very tender; let it cool and cut it in small pieces. Mix the ground corn with enough of the broth in which the beef was boiled to make it soft, and add two cups of butter or beef dripping; season with salt and knead thoroughly.

Take three dozen red chilis, remove the seed and roast in a moderate oven for a few seconds, then place in tepid water and grind until fine, together with a head of garlic; strain thoroughly. In a stewpan place some drippings, and when hot, drop in one onion cut fine and a spoonful of flour; let it cook a while and then drop in the chili, let it come to a boil; add the cut meat, a cup of raisins, a cup of olives, a teaspoonful of sugar, a little salt and pepper, and let it boil again. Then remove from the fire.

Soak dry corn leaves in corn water, and when well soaked shake them and apply a thin layer of the corn dough on the half of each leaf; put a spoonful of the stew on the prepared leaves, cover with the prepared leaves and tie with a string also made from leaf. When the tamales are finished place them in a large pot with a little boiling water and boil them one hour. Any other meat may be used. A "metate," or grinder can be purchased from any Mexican dealer.

Chili con carne is a toothsome dish. It is made from beefsteak, a tablespoonful of drippings, two tablespoonfuls of rice, one quart boiling water, two large red peppers, onions, salt and flour. Cut the steak into small pieces and put in a frying pan with the hot drippings and rice and a cup of hot water; cover closely and cook until tender; remove seeds and part of veins from peppers; cover with a half pint boiling water and let them stand until cool. Then squeeze them in the hand until the water is thick and red. If not thick enough add a little flour. Season with salt and onion, if desired. Pour over the meat and serve very hot.

Spanish fried rice is excellent. Wash the rice and brown it in hot butter. Add onions, tomatoes and garlic. Cover the whole with hot water. Season with salt and pepper. Let the rice cook thoroughly, but do not stir it.

Jimbalaya is a Spanish Creole dish and is made from one pound of rice, one pound of ham, cut up; two large tomatoes, a small piece of red pepper and a sprig of parsley.

Fry these in a heaping spoonful of butter; add one pint of boiling water; stir in the rice slowly, cover the pot and set it where it will cook slowly. Salt to taste and serve while hot. Jimbalaya may also be made with oysters shrimps or chicken substituted for the sausage.

Tortillas are made from a quart of flour, a cup of milk, two tablespoons of butter and salt. Make a thoroughly kneaded dough; take a piece and pat between the hand until it makes a large round thin cake; bake on a griddle until brown.

Frijoles con queso are prepared by boiling one quart of red beans until soft; then drain and turn into a frying pan with drippings or butter; salt to taste. Add a little Cayenne pepper and one pound of good cheese grated. Stir until the cheese dissolves and thoroughly blends. Serve very hot.

To prepare stuffed green chilis remove stems and seeds from six chilis; boil two pounds of beef or mutton until tender and chop fine; add one large ripe tomato, two onions, two slices of bread chopped fine; then add some olives and raisins, vinegar and salt, sugar and pepper to taste. Fry all together in hot butter; remove from fire and stuff the chilis; then dip them in batter and fry in butter.

Photographing in the Dark.

Tests have been made by Dr. Russell, the London physicist and photographer, in exhibiting the ability of certain substances to photograph themselves in the dark. Experiments by him with sundry metals, woods, especially if charred, oils and substances containing them, have only confirmed their power to impress an image of their form and lines upon a photographic plate, if left in contact with it or at a little distance in front of it, in a dark room, for a longer or shorter time. Various salts of uranium, that have been kept under such conditions for two years, have proved as active in their effect at the end of that time as at the beginning. Experiments also at different temperatures with various substances have shown that the higher the temperature the more rapid is the action upon the plate.

ALONE IN MID-OCEAN

CAPTAIN SLOCUM'S SINGLE HANDED TRIP AROUND THE WORLD.

His Attempts to Overcome the Loneliness That Crept Over Him on the Way from Boston to Gibraltar—When the Gale Was High.

In his first instalment of his narrative of his solitary voyage around the world in the sloop Spray, Captain Joshua Slocum describes in the September Century his attempts to overcome the sense of loneliness that beset him on the way from Boston to Gibraltar.

On the evening of July 5 the Spray, after having steered all day over a lumpy sea, took it into her head to go without the helmsman's aid. I had been steering southeast by south, but the wind hauling forward a bit she dropped into a smooth lane, heading southeast, and making about eight knots, her very best work. I crowded on sail to cross the tracks of the liners without loss of time, and to reach as soon as possible the friendly Gulf Stream. The fog lifting before night, I was afforded a look at the sun just as it was touching the sea. I watched it go down and out of sight. Then I turned my face eastward, and there, apparently at the very end of the bowsprit, was the smiling full moon rising out of the sea. Neptune himself coming over the bows could not have startled me more. "Good evening, sir," I cried; "I am glad to see you." Many a long talk since then I have had with the man in the moon, who had my confidence on the voyage.

About midnight the fog shut down again denser than before. One could almost "stand on it." It continued so for a number of days, the wind increasing to a gale. The waves rose high, but I had a good ship. Still, in the dismal fog, I felt myself drifting into loneliness, an insect on a straw in the midst of the elements. I lashed the helm and my vessel held her course, and while she sailed I slept.

During these days a feeling of awe crept over me. My memory worked with startling power. The ominous, the insignificant, the great, the small, the wonderful, the commonplace—all appeared before my mental vision in magical succession. Pages of my history were recalled which had been so long forgoten that they seemed to belong to a previous existence. I heard all the voices of the past laughing, crying, telling what I heard them tell in many corners of the earth.

The loneliness of my state wore off when the gale was high and I found much work to do. When the fine weather returned, then came the sense of solitude, which I could not shake off. I used my voice often at first, giving some orders about the affairs of the ship, for I had been told that otherwise I would lose my speech. At the meridian altitude of the sun I called aloud "Eight bells," after the custom on a ship at sea. Again from my cabin I called to an imaginary man at the helm, "How does she head, there?" and again, "Is she on her course?" But, getting no reply, I was reminded the more palpably of my condition. My voice sounded hollow on the empty air and I dropped the practice.

However, it was not long before the thought came to me that when I was a lad I used to sing; why not try that now, where it would disturb no one? My musical talent had never bred envy in others, but out on the Atlantic, to realize what it meant, you should have heard me sing. You should have seen the porpoises leap when I pitched my voice for the waves and the sea and all that was in it. Old turtles, with large eyes, poked their heads up out of the sea as I sang "Johnny Boker," and "We'll Pay Darby Doyl for His Boots," and the like. But the porpoises were, on the whole, vastly more appreciative than the turtles; they jumped a deal higher. One day when I was humming a favorite chant, I think it was "Babylon's a-Fallin'," a porpoise jumped higher than the bowsprit. Had the Spray been going a little faster she would have scooped him in. The sea-birds sailed around rather shy.

Stacked in the Air.

The American farmer is driven to some curious shifts in order to circumvent the various pests that threaten to destroy the results of his labor, but what would he say to having to stack his hay in trees? And yet this is what the Indian agriculturist has to do every day in order to save his hay from wandering cattle and from the all-devouring white ants. The accompanying

(Hay in a Tree.)

photo give a very good idea of one of these haystacks in the air, and you will see that it is comfortably located in the forks of a large tree well out of the longing cattle.

Cure for Insomnia.

If the cause is merely mental overwork it may be removed by relieving the brain of the excess of blood. Physical exercise is a panacea for about every ailment which human flesh is heir to. Therefore, stand erect, and rise slowly from the heel; descend slowly. Do this from forty to fifty times until you feel the congestion in the muscles of the leg. Almost instant relief follows, and a sleep is soon induced.

For those who are averse to a little work, I would recommend, instead, a bowl of very hot milk (without so much as a wafer) immediately before retiring. The hotter the milk the better for the purpose. This will prove a better sleep producer than all the opiates known to medical science. The hot milk is also quite strengthening to the stomach.—Ladies' Home Journal.

HARD FIGHT OF FACTIONS

CONTINUED FROM PAGE 1.

ences were made to past sources of trouble. At last the election of the Bridgewater members was put to vote. The secretary first made a mistake and then before he had a chance to correct it the Bedminster delegates explained that their vote had been misunderstood. The change would have resulted in the election of four of the five Reed men. The secretary refused to accept the change and announced that Thompson, Hastings, Griggs, Campbell and Stryker were elected.

Afterwards P. V. D. VanDoren was elected as the member from Millstone borough, and John H. Schomp from the Montgomery borough. N. B. Smalley was chosen to succeed B. A. Hegeman, Jr., from the First district of North Plainfield, and W. F. Wolfert to succeed Charles P. Sebring, of the Third district.

Augustus Schumacker was nominated by VanDoren for the member from Warren, and Assemblyman E. E. Cooper by the chairman of the Warren delegation. Cooper was elected by a vote of 23 to 22. Louis H. Schenck was elected from Branchburg.

After the business was over there was a round of ringing applause for the arrival of Senator Reed, who addressed the convention.

It was the proudest moment of his life, the Senator declared. He regarded it so because the people of Somerset had seen fit, after giving him a trial, to renominate him. It told him that his honest efforts to serve the people faithfully had not been misunderstood. The nomination, he continued, came when he had not tried for it and had offered to withdraw in favor of any other man whom the people should desire. Coming as it did unsolicited, it seemed all the greater honor.

He understood that there had been factional differences in the party, but he believed that the interests of the party are of more weight and consequence than any factional differences or feeling. He said that he did not consider himself entirely to blame for the factional differences. Many things had been laid at his door for which he was not in the slightest to blame. Hereafter, as far as he was concerned, it was to be as if no factions existed and he would treat every Republican alike after election, no matter who had been favored before the convention.

The people of New Jersey are patriots before they are partisans, he explained in conclusion, and ended with expressing his belief that the Republican ticket would surely win.

Assemblyman Edward E. Cooper, of Warren, was introduced and pledged himself to follow out the principles of the Republican party and incidentally not to forget Somerset.

There were calls for Frelinghuysen and when that young man entered the door he received the greatest ovation of the afternoon. He explained that he could not sincerely say that he was not sorry but he could say that he was glad that it was his old friend, Charles A. Reed, who had been nominated.

"I find myself," he declared, "In the unique position of placing flowers on my own grave. I know no Reed faction, I know no Thompson faction. The only faction that I know is satisfaction. It is now our duty to close our ranks and go shoulder to shoulder to the polls and send Charles A. Reed to the State Senate and Edward W. Cooper to the Assembly. All my feeble efforts will hereafter be directed toward that end." His speech was received with wild cheer.

After brief remarks from Fred A. Pope and P. V. D. VanDoren the convention adjourned sine die and there was a general rush for Senator Reed to shake hands and congratulate him on the nomination.

Mr. and Mrs. H. C. Compton, of West Front street, have been entertaining their daughter and her husband, of New York.

CASTORIA

For Infants and Children.

The Kind You Have Always Bought

Bears the Signature of Chas. H. Fletcher.

In a Nutshell:

Regular collections; intelligent washing; careful ironing, prompt deliveries. This makes a good laundry. People who have known us as dyers for thirty years back may not realize that we are doing the largest laundry business in New Jersey. Send us your bundle for a trail.

Opposite Crosby & Hill's. 'Phone 851.

WEDDED WITH A RING.

PRETTY AUTUMNAL WEDDING AT HOME OF MICHAEL UHDAL.

Miss Carrie Uhdal Maried to Charles Farley, of Elizabeth—Ceremony Witnessed by the Immediate Families.

A pretty autumnal wedding was that of last evening when Miss Carrie Uhdal, daughter of Mr. and Mrs. Michael Uhdal, of South avenue, became the wife of Charles Farley, of Elizabeth. The affair was a quiet one, only the immediate families being present to witness the ceremony which was performed at 8 o'clock by Rev. John Howell, pastor of the Presbyterian church, Elizabeth.

Autumnal foliage, palms, chrysanthemums and smilax were used in the decorations, and all were arranged in an artistic manner by Stanley, the florist. The bridal party stood beneath a pleasing arrangement of foliage in the parlor, where the marriage took place. The ceremony was performed with a ring.

The bride was gowned in a blue traveling costume, trimmed with white satin and steel passementrie, and she carried bride roses. She was attended by her sister, Miss Gertrude Uhdal, who wore a gown of brown cloth, trimmed with turquoise blue and white lace. She carried a bouquet of carnation pinks. The best man was John Farley, of Elizabeth, brother of the groom.

After the ceremony congratulations were offered and supper served. Soon afterward the bride and groom prepared to leave town to enjoy a honeymoon. The guests also arranged to give them a lively send-off. The coach that conveyed them to the North Avenue station was gorgeously decorated and upon its departure there was a shower of rice.

The bride is a very popular young woman of this city, and the groom is a valued employe at the Singer Sewing Machine Works, Elizabeth, where he holds a responsible position. They both were handsomely remembered by their friends and a large collection of beautiful presents were received. After they return from their wedding trip they will reside in Elizabeth.

SOMERVILLE'S BIG TIME

Will Hold Road Race, Firemen's Parade and Bicycle Carnival.

(Special to The Daily Press.)

Somerville, October 19—The firemen of Somerville have their turn today. This afternoon they hold a parade that will be one of the events of the year for Somerville. The town is bright with decorations, every house and store wearing the National colors arranged in some new and novel design. This morning a road race was held. In the afternoon the firemen's parade will take place, starting at 3 o'clock. A bicycle parade has been arranged for the evening. A big crowd of visitors are in town to attend the celebration. Ten visiting fire companies will be in line.

SWAN HARTWELL INJURED.

Well-known Somerville Young Man Thrown Against a Pole by Horse.

(Special to The Daily Press.)

Somerville, October 19.—Swan Hartwell, a well-known young man, of this town, who formerly attended Mr. Leal's School in Plainfield, narrowly escaped death in a runaway accident Tuesday morning. The horse became frightened at the station where Hartwell had gone to take the train, and in attempting to stop the animal, he was thrown out and dashed into a telegraph pole, badly cutting his face and nearly ruining one eye.

Story of a Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a godsend to weak, sickly, run down people. Every bottle guaranteed. Only 50 cents. Sold by L. W. Randolph, Druggist.

Drunk on City Streets.

Charles Cashin was arrested on Somerset street yesterday afternoon for being drunk. The arrest was made by Patrolman McCue. Mayor Rockfellow suspended sentence on the prisoner this morning.

'Twas Called a Yacht Race.

A large crowd was attracted to the store of B. W. Hand on West Front street last evening by a novel kind of a race shown in the window. The exhibition will be repeated this evening.

To Cure a Cough in One Day
To Cure a Cold in One Day
To Cure Sore Throat in One Day
To Cure Hoarseness in One Day

Take Cleveland's Lung Healer, 25c. Trial size free. If it fails to cure, your money will be refunded. T. S. Armstrong, the apothecary, corner Park and North avenue.

BERGEN WAS NOMINATED

CONTINUED FROM PAGE 1.

in the audience, shouted that Lyman was not a delegate and had no right to be there but no attention was paid to him.

M. A. Scully, of Somerville, presented the report of the committee on resolutions. The resolutions indorsed the Chicago platform and the candidacy of Bryan, condemned the present National administration and opposed imperialism. The trust laws of New Jersey were condemned together with the State administration.

Nominations for State Senator were then called for. A Bedminister delegate named Hon. James J. Bergen, of Somerville. Samuel S. Childs was presented by Bernards. M. A. Scully declared that Bergen was Bridgewater's candidate and spoke very highly of him.

P. B. Hall, of Hillsboro, presented the name of Dr. S. O. B. Taylor, of his township.

Montgomery nominated Nelson Y. Dungan. The vote was then taken as follows:

	Bergen.	Childs.	Taylor.	Dungan
Bedminister	6			
Bernards	3	3		
Branchburg	1	2	3	
Bridgewater	13			1
Franklin	5			1
Hillsboro			6	
Montgomery				6
N. Plainfield		6		
Warren	6			
	34	11	9	8

Dr. Taylor moved that the nomination be made unanimous. Then came the nomination of a candidate for the Assembly. M. A. Scully nominated S. S. Childs, whereat Mr. Lyman was on his feet insisting that Childs would not take the nomination. A committee was sent to interview Childs and learn his decision. Mr. Childs told the committee that he would not accept under any circumstances.

Montgomery then suggested Nelson Y. Dungan, and a committee was sent out to wait on him. While the committee was gone, Mr. Bergen was brought into the room and made a short address. He accepted the nomination, he said, although it was a great personal sacrifice. It had come utterly unsolicited and he felt greatly honored.

Whatever mistakes he had made in the past, and he didn't claim to be infallible, he regretted and he now thoroughly indorsed every portion of the platform adopted by the convention. If elected, he declared that he would make an earnest effort to represent the Democrats of Somerset county as enunciated in their platform.

The committee came back to say that Mr. Dungan would not accept the nomination. Monte Corle, of Neshanic, was next named, but he was present and refused the nomination absolutely. A delegate from Franklin suggested the name of L. S. DuFour, of South Bound Brook. As Mr. DuFour did not object, the nomination was made.

The convention then considered routine party matters.

SAYS HE IS NOT A CANDIDATE.

George J. Tobin Declares That Barrows Will be the Man.

To the Editor of The Daily Press:—I noticed in your paper of yesterday an article wherein you stated I was an aspirant for councilmanic honors in the Third ward.

This statement I deny in every particular in as much as the present incumbent is justly entitled to a renomination on account of his good work as present chairman of the street committee and former chairman of the Police Board. I have no aspirations as far as the office is concerned and have authorized no one to use my name in connection with it.

The nomination should go to Mr. Barrows unanimously.

Respectfully yours,
Geo. J. Tobin.

Grand Officers Expected.

There will be an important meeting of Plainfield Council, 711, Royal Arcanum, next Monday evening, when the grand officers are expected to be present. An informal entertainment will be provided and the entertainment committee has arranged to have a collation and general good time.

Growing Stronger.

There is now strong chances in favor of the recovery of Patrick Hanrihan, the young man employed at the Crescent Embossing Works, who had his arm taken off a few days ago. He recovered from the shock in good condition, and appears to be growing stronger.

Prevented a Tragedy.

Timely information given Mrs. Geo. Long, of New Straitsville, Ohio, prevented a dreadful tragedy and saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery. One bottle wholly cured her, and she writes this marvellous medicine also cured Mr. Long of a severe attack of Pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c and $1.00. Every bottle guaranteed. Trial bottles free at L. W. Randolph's Drug Store.

SPORTING.

ON THE GRIDIRON.

The Rutgers College football eleven went to Easton last Saturday to meet the Lafayette team. Lafayette won by the remarkable score of 57 to 0, despite the fact that the Easton team was largely composed of substitutes.

GOLF.

Among the sixty odd entries that have been made for the women's open tournament to be held at Baltusrol today are Mrs. N. P. Rogers and Miss L. VanHerwerden, of Hillside Tennis and Golf Club.

CELEBRATED SEVENTIETH BIRTHDAY

Mrs. Sarah R. Linbarger Entertained Thirty of Her Friends at Dinner.

About thirty of the friends of Mrs. Sarah R. Linbarger yesterday gathered at her home, 296 Somerset street, to celebrate her seventieth birthday. At 3 o'clock a splendid dinner was served at which toasts were made by A. L. Mundy and H. R. Linbarger. Mrs. Linbarger received a large number of presents. Among those from out of town were: Mr. and Mrs. A. L. Mundy, New Brunswick; J. C. Mundy, Somerville; Mr. and Mrs. Cornelius Waldron, Mr. and Mrs. James Beekman and Mr. and Mrs. Samuel Richardson, Martinville.

HIS SANITY QUESTIONED.

Stranger From Bucks County, Pa., is Now Confined in City Jail.

A young man was brought to the police station at one o'clock this morning. His actions were so queer that a man passing by took him to the jail. The stranger gave his name as Mahlon Free, of Bucks county, Pennsylvania. He said he was nineteen years old and had a nephew, Willie Daly, living at 78 Morris avenue, Jersey City. The police believe he is insane and he will be examined by some of the local physicians while the police try to communicate with some of his relatives.

Quietly Married.

The marriage of Miss Elia Wilmenia Gardner and Arthur Eugene Alma Heath took place last evening at the home of the bride's parents, Mr. and Mrs. William Estil Gardner, at West End Park. The ceremony was performed by Rev. Cornelius Schenck, Ph. D., pastor of the Trinity Reformed church, in the presence of the relatives and a few friends. Mr. and Mrs. Heath left immediately for New York. They are to make their home in Brooklyn.

To Build a House.

Through the agency of E. C. Mulford & Son, real estate brokers, of North avenue, Col. H. H. Abernethy has purchased the lot adjoining the one recently purchased by his son-in-law, Frederic K. Fish, Jr., and will probably erect a house thereon the coming year. E. T. Newkirk, of Philadelphia, has also taken Charles H. Hand's new house on Belvidere avenue, and will take possession November 1st.

Frucht Charges an Assault.

A young man named San Jose, who is an orderly at Muhlenberg Hospital, was arrested last night by Patrolman Mattox on complaint of Sigmund Frucht, bicycle dealer. Frucht claimed that San Jose went into Frucht's store and caused a disturbance and then attacked Frucht when the latter ordered him out. The case was laid over until tomorrow morning for trial.

Park Club Officers Elected.

A meeting of the Board of Governors of the Park Club was held last evening. George D. Hallock was elected a governor to fill the unexpired term of George P. Dupee, resigned. The officers were then elected as follows: President, George D. Hallock; vice-president, E. T. Wilson; secretary, F. O. Ball; treasurer, J. H. Howell.

Dewey Expected at Paterson.

(Special to The Daily Press.)

Paterson, Oct. 19.—Arrangements have been completed for the dinner to Rear Admiral Entwistle, of this city, at the Hamilton Club, one week from tonight. The Admiral was fleet engineer at the battle of Manila Bay and Gen. Joseph W. Congdon, who is in charge of the dinner, is quite certain now that Admiral Dewey will attend.

Must Keep Off Sidewalk.

Sentence was suspended by Mayor Rockfellow this morning on Albert Pearson. He was ordered to appear in court yesterday afternoon by Roundsman Frederickson for riding his wheel on the sidewalk out South avenue.

Brunswick's Last Meet.

The last meet of the season of the New Brunswick Driving Association was held yesterday afternoon. Plainfield had only one representative. T. Brantingham's "Myrtle Twig" finished fourth in the 2:23 class.

Miss Lydia Ackerman, of West Seventh street, who has been traveling in Europe for the past four months, has sailed for home from Naples in the steamship Verra, due in New York next week.

REPUBLICAN SLATE IN UNION COUNTY.

Plainfield's Share Will Be an Assemblyman.

WHO WILL BE CHOSEN?

GEORGE SQUIRE'S BOOM HAS ENTIRELY COLLAPSED.

Doubtful if Squier is Going to Be Nominated for Assembly—Howard's Chief Rival is Halsey—Halsey's Friends Want Coriell for Sheriff—Plainfield Does Not See it That Way—The Ticket.

With the Union county Republican convention just a week away it is possible to outline the probable ticket that will be chosen. Of course, there is always a possibility of some new candidate bobbing up at the last moment and winning the nomination to break the deadlock between two others. The present situation does not point, however, to any such close contest as would necessitate a compromise candidate to satisfy any two factions.

It will take a combination stronger than the remainder of the county can form to win out from the present slate that is understood to have the support of Plainfield, Elizabethport, part of Elizabeth and Rahway. Then Summit can be looked upon a probable ally. The slate, as now appearing, is as follows:

For senator, Joseph Cross, of Elizabeth.

For county clerk, William Howard, of Rahway.

For sheriff, Robert Houston, of Elizabethport.

For assemblymen, Corra Williams, of Summit.

A Plainfield candidate.

An Elizabeth candidate.

Despite the statements made by George Squier that his boom for the County Clerkship was still in the land of the living, Mr. Suqier will not be nominated for that office. Squier's popularity in the county has waned and later developments show that his chances for the Assembly nomination are weakening. J. Addison Swift, Elizabeth's city attorney, wants to go to the Assembly, and is considered a likely candidate.

As far as Squier's County Clerkship boom is concerned Charles Halsey, of Elizabeth, has a far better chance of getting the nomination. The Halsey movement has gradually grown in strength until now Halsey is Howard's principal rival. Halsey's chief support is in the city of Elizabeth. His followers have been particularly anxious to unite with the friends of B Frank Coriell, of this city, and have the latter make a try for the Shrievalty. This has given Coriell's candidacy a prominence that it would not have otherwise obtained, for Coriell has made no effort to push it. There is little likelihood of this ever coming to pass, for while all Plainfield has not been distinctly pledged to support Houston, his action three years ago in withdrawing in favor of Kirk has not been forgotten, and it is hard to find a Plainfield Republican of any importance who does not concede that Houston is deserving of the nomination.

The little tale that Senator Cross would not run for renomination was never verified and died a natural death. There seems no doubt of his renomination.

The combination in Elizabeth and the Port and Rahway is very anxious that Plainfield should be represented in the Assembly. It is easy to see that if Plainfield agrees to take the Assembly nomination, it is practically an acknowledgement that this city will not interfere with the other proposed nominations. There is three courses proposed and each has its following in the city. First, if there is the acceptance of the offer, then Plainfield might give up everything this year with the hope of making a big demand at some future convention, and lastly, Plainfield might go down with a complimentary vote for one of her own sons and then turn her strength with which ever crowd happened to be uppermost.

The probabilities are, however, that Plainfield will take the Assemblyman. The principal men named for the place are William Newcorn, of the Fourth ward, and Sheriff William T. Kirk. Newcorn has worked hard and so far has received nothing in the distribution of the "good things" in city or county. He is a lawyer and an able speaker. These things, and the fact that Kirk has just had three years in one of the most lucrative of the county offices, make Newcorn's chances the better of the two.

George Ball, of Scotch Plains, had a little boom, but it never became formidable. It is possible that the Fanwood township delegates may give him a complimentary vote, but it is doubtful.

Another petty boom is that of William Dorval, of Westfield, for the Shrievalty nomination. Dorval is certain in his own mind regarding his own nomination, but it is likely that he is the only one to believe it. The slate is too formidable for Dorval and his friends to ever succeed in shattering. Westfield will have to be content this time with watching other folks' happiness.

MUSIC FROM AN ORGAN.

TALENTED RECITAL GIVEN AT THE FIRST PRESBYTERIAN CHURCH.

Arranged By Organist William B. Miller, Who Was Assisted by Prof. P. Ludwig Conde on the Violin.

A delightful entertainment was provided those interested in music last evening at the First Presbyterian church. For nearly an hour and a half Prof. William Henry Miller, the organist of that church, and Prof. P. Ludwig Conde gave classical selections on the organ and violin that proved pleasing to a large and cultured audience.

The entertainment, strictly speaking, was an organ recital, Prof. Conde simply acting as an asistant to Prof. Miller, though the performance of the former gentleman was equally appreciated with the talented organist.

There were thirteen numbers on the programme and the efforts of the performers were highly satisfactory to those who had the pleasure of listening to them. Prof. Miller certainly gave evidence that he is a master hand in the manipulation of a pipe organ. Prof. Conde shows a delicate touch of the violin, whose sweet strains he brought forth in perfect harmony with the rich, full notes of the organ The recital was as gratifying to those who had the pleasure of listening to it as must have been the flattering and complimentary reception accorded the performers.

FIREMEN ON PARADE.

Somerville Had a Gala Day Yesterday —5,000 Strangers Were in Town.

(Special to The Daily Press.)

Somerville, October 20.—The most successful affair of its kind in the remembrance of Somerville's oldest inhabitant, was the firemen's parade held here yesterday. The townfolks decorated the houses and stores in a very elaborate fashion. It is estimated that there were over 5,000 strangers in town.

The parade itself was a wonderful success. Prosecutor Nelson Y. Dungan was marshal. Ten fire companies were in line, each with their apparatus. There were ten bands and drum corps. Thirty elaborete floats were also in line, representing the various business houses.

At the close of the parade a dinner was served in the Ballentine building. The bicycle parade in the evening was not the success anticipated. It was too dark to see the decorations, while the bicycles became entangled in the crowd and had some difficulty in finishing.

MISS WANN A BRIDE.

Former Borough Girl Becomes the Wife of Rev. Ira D. Sankey's Son.

The following account of the marriage of Miss Frances Wann, published in the New York Tribune, will be of interest to Plainfielders, as the bride is a daughter of Charles Wann, formerly a resident of Washington Park in North Plainfield:

The marriage of Miss Frances Wann, daughter of Mr. and Mrs. Charles Wann, to Ira Allen Sankey, son of Rev. Ira D. Sankey, took place at 8 o'clock last evening at the home of the bride's parents, No. 432 West Twentieth street. Rev. Dr. George R. Van De Water, rector of St. Andrew's Protestant Episcopal church, Fifth avenue and One Hundred and Twenty-seventh st eet, officiated at the ceremony. The bride, whose gown of white satin was ornamented with rare old lace, was given away by her father. Miss Louise Wann, her sister, was the maid of honor. The bridemaids were Miss Fannie P. Simpson and Miss Jean Kenyon. They were attired alike in pretty gowns of yellow silk and mousseline de scie. Frank Cohen, of Brooklyn, was Mr. Sankey's best man. The ushers were Thomas C. Wiswall, Edward G. Kent, of East Orange, Frederick Worth and F. Otto Affeld, Jr., of Brooklyn. A reception followed the ceremony. Mr. and Mrs. Sankey's future home will be in Brooklyn

Coming Home From Abroad.

Ex-Mayor W. L. Saunders and wife will sail for home October 28th. During their stay in Europe they have visited many of the leading places of interest in England, Ireland, France and other continental countries.

RAILROAD WANTS TO CLOSE UP A STREET.

Would Like to Abandon Church Street Grade Crossing.

PETITION TO THE COUNCIL.

APPLICATION OF PEOPLE'S GAS COMPANY FOR FRANCHISE.

Councilman Barrows Hopes That There Will Be a Large Turnout of Citizens at the Hearing Next Week—A Special Telegraph Line Wanted for Use of Superintendent of the Central.

Aside from the trolley discussion that took place last evening at the adjourned meeting of the Common Council, there was other business to be transacted, and the regular order was taken up after the hearing. A communication was received from the New Jersey Central Railroad officials, which stated that the company would like to abolish the grade crossing at Church street. They said that an investigation showed that to all purposes the street was closed twenty years ago, and they would like to have the Council take official action in the matter. The matter was referred to the street and sewer committee.

Superintendent of Telegraph F. L. Morse, of the New Jersey Central Railroad, who lives at the corner of West Front street and Grant avenue, petioned the Council for the privilege of having telegraph wires run from the railroad at Grant avenue to his home, so he can have communication with various points along the road. The matter was referred with power.

E. E Brown and others petioned for an electric light on Clinton avenue, and it was referred to the proper committee.

At this time Mr. Barrows spoke concerning the application of the People's Gas Company for a franchise. He said that a committee meeting with the officers of the new company and a representative of the old had been held, and it was the desire of the Council to give a public hearing on the subject, and the Council would like to have a large attendance of citizens at the meeting to be held one week from last evening, when action is to be taken on the application.

Mr. Coriell, chairman of the fire committee, reported on the placing of three new hydrants as follows: One on Arlington place; one at Randolph road and Arlington avenue, and one between Arlington place and Randolph road on Arlington avenue.

This concluded the business and the meeting adjourned.

AUTHOR TO READ OWN WORK.

John Kendrick Bangs to Appear for the Benefit of Wellesley College.

John Kendrick Bangs, the well-known author and humorist, will read selections from his own works at Y. M. C. A. Hall Tuesday evening for the benefit of the Wellesley College Endowment Fund. The patronesses are: Mrs. Marion Ackerman, Mrs. Albert B. Beers, Mrs. Josiah Brown, Miss Cock, Mrs. R Henry Depew, Mrs. George W. Ferry, Mrs. George Goddard, Mrs. William T. Kaufman, Mrs. Henry Maxson, Mrs. William T. Pelletier, Mrs. Frank Raymond, Mrs. Louis G. Timpson, Mrs. Mason W. Tyler, Mrs. Daniel VanBuren, Miss Bass, Mrs. Charles B. Brooks, Mrs. John Bushnell, Mrs. Martin I. Cooley, Mrs J. B. Dumont, Mrs. Alexander Gilbert, Mrs. Ellis W. Hedges, Mrs. A. W. Kleinecke, Mrs. Thomas Minford, Mrs. L. V. F. Randolph, Mrs. James T. Scott, Miss Tweedy, Mrs. Geo. VanBoskerck and Mrs. Orville T. Waring.

HELD ON COUNTER CHARGE.

Conductor Haynes Prefers a Charge of Assault and Battery Against Lee.

(Special to The Daily Press.)

Westfield, October 20. — Williiam Lee, a hotel proprietor at Scotch Plains, who has preferred a charge of assault and battery against William F. Haynes, a Central Railroad conductor, before Justice Clark, at Scotch Plains, was himself arrested this morning and brought before Justice Collins, of this place, on a counter charge preferred by Haynes. The trouble between the two grew out of a fracas at the railroad station here recently, when Lee was ejected from a train Justice Collins held Lee for the Grand Jury under $200 bail which was furnished by William Grogan, of Westfield.

Articles for Needle Work.

The impression has gone abroad that there are no articles at the Relief rooms suitable for purchase for the Needlework Guild. This is entirely erroneous, and it is hoped that members will examine the stoek at the rooms before the first of November.

CUP WILL REMAIN.

Columbia Won Third and Last of the International Yacht Races Today.

(Special to The Daily Press.)

New York, October 20—With a brisk gale blowing from the northwest the Columbia and the Shamrock started this morning for the third of the international yacht races.

At 11:01 the start was made, the Shamrock crossing the line 20 seconds ahead of her rival. The course was 15 miles to leeward, and the beat back. The wind was blowing twenty knots an hour.

The run before the wind was made in fine time, the Shamrock increasing her lead to three quarters of a mile by 11:35.

Then the Columbia began to pull up rapidly as the wind increased and passed the Shamrock just before reaching the stakeboat.

The Columbia turned the stake boat at 12:18, and the Shamrock 43 seconds later.

At 12:40 the Columbia's lead was increased to a mile and a quarter. The wind was blowing 25 knots and hour.

At 1 o'clock the Columbia still maintained the lead which had been somewhat increased.

At 2:17 the Columbia was still leading.

At 2:40 the Columbia crossed the finish line first, winning by over a mile.

The Columbia won by 5 minutes and 13 seconds.

This is the third successive victory for the Columbia, and the America Cup will remain on this side of the Atlantic for another year.

A NEW FACTORY.

Manufacturers of Handkerchiefs May Locate Here and Employ 700 Hands.

There is a probability that the industries of Plainfield will soon be increased by the addition of a factory for the manufacture of handkerchiefs of all grades.

Through the efforts of R. L Pierce, of New Market, negotiations have been entered into with parties living in one of the New England States, to establish a plant in this city. It is understood that those interested in the enterprise have made Charles H. Hand an offer for the rink building on Watchung avenue in which to establish the factory

The new firm expects to employ about 700 hands, 600 of whom will be women and girls.

Success is Assured.

There is no doubt whatever about the success of the rendition of "The Messiah" which is to be given in the First Baptist church during the Christmas holidays. The chorus, which is composed of local talent, has been doing excellent work under the direction of E. J. Fitzhugh. The music is not new to many but those to whom it is have taken up the work with vigor and Mr. Fitzhugh is very much pleased with the progress made.

Cemetery Improvements to be Made.

The application of the trustees of First M. E. church made some time ago to the Union County Court for permission to transfer lots in the cemetery for which owners could not be found, was granted by the court Wednesday. The trustees can now make the desired improvements in the cemetery on Plainfield avenue while the court will look after the interests of the missing lot owners.

Harvest Home to Aid Hospital.

The Woman's Auxiliary Board of Muhlenberg Hospital have arranged to give a harvest home at the hospital the week before Thanksgiving, and they earnestly hope that the people will be generous in their donations The lost donations received proved to be a great blessing and the direct personal benefits were not to be estimated. It is hoped that there will be a liberal response this year.

Inspected Sewer System.

Street Commissioner Gavett has just finished the annual inspection of the city sewer system. The flush tanks have been looked after and the sewer pipes are now entirely free from foreign substances that are liable to interfere with their executing proper service.

City Mills May Be Sold.

Negotiations are now pending for the sale of the City Mills owned by P. M. French. It is understood that a Mr. Snyder, a western feed dealer, is the intending purchaser, and the deal is likely to be made in a short time.

—Use Press want ads.

TROLLEY WILL RUN ALONG PARK AVENUE.

Council Decides to Grant the Proposed Ordinance.

NOT TO TOUCH MACADAM.

TRACKS TO BE LAID AT THE SIDE OF PRESENT ROADBED.

Strong Objection Made to the Plan at the Common Council Hearing, But the Council Seemed to Think That it Was the Proper Thing—Ordinance Progressed Towards Being Passed.

There was an adjourned meeting of the Common Council last evening, and the principal topic of conversation was trolley, especially the proposed extension through Arlington avenue to Randolph road and Park avenue, and thence to Woodland avenue, the cemetery and golf grounds. There were present at the meeting Councilmen Barrows, Homan, Coriell, VanHerwerden, Buckle, Smith and Liefke. Mr. Smith was made president pro tem in the absence of President Andrews.

Mr. Barrows then moved that the regular order of business be suspended and an opportunity be given anyone who desired to speak concerning the trolley through Arlington avenue. Before anyone spoke on the subject communicattons were received from Rachel Randolph, E. F. Randolph, Lucretia Smith, Charles Randolph, N. H. Randolph, Eliza A. Wooden and other residents of Park avenue, in the vicinity of Randolph road, in which they gave their consents to have the trolley run by their property for a distance of 1,600 feet, according to the proposed map and plans of the trolley company. This was accompanied by an affadavit from Street Commissioner Gavett, testifying to the number of feet of consents, which were found to be correct and true.

The hearing then began, and Charles Opdyke, a former councilman, was given the opportunity to speak. He argued against using Park avenue for the trolley. He said that he was a large taxpayer, and while he did not own land on Park avenue he favored keeping the trolley off the avenue and thus preserving it as an outlet to the nearby towns, and a place where a person with a good horse could take a pleasure drive. He said that he also spoke for J. Wesley Johnson, James Clark and Marion S. Ackerman, who could not be present. He said that Park avenue was laid out and macadamized at a great expense, and it is a question as to whether the city wants the trolley on it and not a few people living in that section. He argued that the street from curb to curb is forty feet wide, and of this the trolley company would use one-third. He did not think it would be safe to drive along there with a horse, and then it would practically close all important outlets from the city. He hoped the Council would at least give the people more time to think over the matter of using Park avenue, and would not rush the thing through.

Charles W. Runyon, manager for the New York and New Jersey Telephone Company, talked in favor of the trolley. He said that the people living along that avenue had petitioned for it. They were the ones to be considered, for they had paid the largest amount of money to macadamize that avenue at that point. They had never been able to get good prices for their property and they should be given a chance to realize some benefits from improvements.

Councilman Barrows informed those present that the Council had been considering this trolley extension for three months. He felt sure the people wanted it, and as the trolley will not touch the macadam, and the people in that vicinity had agreed to donate a sufficient amount of land to widen the avenue, he was in favor of it. Previous to the remarks by Mr. Barrows, Charles Randolph, one of the petioners, argued that the residents along Park avenue were troubled more with fast driving than they could hope to be with the trolley, as there is no sidewalk for some distance and people are obliged to take the road. He urged the adoption of the ordinance. Mr. Barrows used Mr. Randolph's argument, and said that the Police Board had received a number of complaints from people on account of fast driving, and he thought the trolley would have a quieting effect on the horses.

Col. Dietrich was present and added a few words in favor of the trolley. He said that the people were getting tired waiting for the trolley and he hoped the Council would give it to them.

Mr. Buckle believed in the greatest good to the greatest number and favored the trolley. Harry C. Runyon also spoke in favor of the trolley. He said that it was an obligation imposed by the Council on the trolley company that if a franchise was given to go to Scotch Plains they should build on Arlington avenue

The ordinance was then adopted on its first and second readings and ordered engrossed and advertised. It provides that the line be completed and running by July 1st, 1900, that bonds in the sum of $20,000 be deposited for the faithful performance of the work, that cars run not more than 30 minutes apart, and that on days when school is in session the cars shall not run over four miles an hour on Arlington avenue, between Fourth and Fifth streets, between the hours of 8 o'clock in the morning and 5 o'clock in the afternoon.

After the adoption of the ordinance Mr. Barrows moved that further public hearing be extended to Monday night, November 6th, at 8 o'clock. The trolley discussion then closed for the evening. There were several people in the lobby interested in the subject, but they had nothing to say one way or the other.

MR DALY NOW EXPLAINS.

HE SAYS THAT MR. MARTINE M'S-UNDERSTOOD HIM.

Convention Will Not be Held This Year, but the Fight Against State Committee Will Not be Abandoned.

Congressman William D. Daly, when seen in Hoboken yesterday in regard to the statement published yesterday in which James E. Martine reiterates that in his conference with Mr. Daly Thursday of last week the latter agreed to use his influence to have the movement for a new committee and another convention abandoned, said:

"The statement is substantially correct. Mr. Martine, I am convinced, would not be responsible for any statement he did not believe to be absolutely true. He misunderstood me on one point, that is all.

"What I did say was that the convention, November 14th, would not be held—neither will it—and that the committee would meet again before any further action was taken. I did not say that I would abandon the fight against the State committee or raise a finger in its defense.

"Of course I know that we cannot oust the reputed party representatives, but we can oppose them. The fall elections will show their strength with the party.

"The committee of fifteen will hold a meeting at Trenton Tuesday, if we can get a quorum," concluded the Congressman, "and we will see what can be done toward bringing the entire Democratic party into line for Bryan."

BIGGER PRICE RECEIVED.

Demarest House Resold by Order of the Chancellor for $10,300—A New York Purchaser.

Yesterday afternoon at 2 o'clock took place the sale of the property at the corner of Crescent avenue and East Seventh street, formerly occupied by the late David M. Demarest. The sale was in charge of Reed & Coddington who represent the estate. Some time ago the property was put up for sale and was sold for $6,000, a sum which in the opinion of Reed & Coddington was far too little for such a valuable piece of property. They then applied to the Chancellor to have the sale set aside. The petition was granted, and arrangements were then made for the other sale which took place yesterday.

There were about a dozen people present interested in the sale, and the property was sold to a Mr. Nichols, of New York, for $10,350. Mr. Nichols was one of the creditors of the late firm of Demarest & Jeroloman, of New York. Just what he will do with the property is not known. The money realized from the sale will go to the estate which will eventually be settled up.

Fire in Rear of Engine House.

A fire broke out yesteday afternoon in the rear of Warren Engine Company house and it was discovered just in time to prevent a serious conflagration. A young lad, Lewis McGannn, of Lincoln place, discovered the fire and an alarm was sent in from Box 142 This summoned the firemen and inside of five minutes the fire was put out. No one knows how the fire started, but it was discovered in a bunch of straw in the stables back of the engine. The damage will amount to about $25.

Opening of Boys' Conference.

The opening session of the Y. M. C. A. State conference on boys' work will be held in the Trinity Reformed church this evening at 7:45 o'clock. State Secretary MacColl and Rev. Dr. Patterson, of Orange, will speak. The boys will have a prominent part in the exercises.

SHOT HIS WIFE AND MOTHER-IN-LAW.

Then Herman Voegel Took His Own Life.

WOMEN WILL RECOVER.

VOEGEL PURSUED THEM THROUGH STREETS OF NEW BRUNSWICK.

They Quarrelled Over Another Women—Mrs. Voegel Left "Old Homestead" in Bound Brook, of Which Voegel Was Proprietor—Voegel Followed Her to New Brunswick—Met Her on Albany Street.

(Special to The Daily Press.)

New Brunswick, October 20.—After madly pursuing his wife and mother-in-law through the main streets of New Brunswick and attempting to murder them, Herman Voegel, proprietor of "The Old Homestead," better known as the Middlebrook Hotel, in Bound Brook, ended his own life with a bullet from his revolver this morning. The shooting caused a great sensation here as it occured at the corner of Albany and George streets between 8 and 9 o'clock this morning. The injuries received by the two women were not fatal and both will recover. Voegel died instantly.

Vogeel went to Bound Brook six months ago and took charge of the Middlebrook hotel, for many years owned and run by the Fisher family. Voegel formerly lived in Greenwich, Conn. A year ago he married Helen Caldwell, daughter of Mrs. Mary A. Caldwell, of New York, and she accompanied him to Bound Brook. She is a very beautiful woman of 27 years. Voegel was 33 years old. Mrs. Caldwell spent part of her time in Bound Brook.

Mrs Voegel says that she discovered that Voegel had another wife. He claimed he had secured a divorce, but she says that he had not. At any rate, there was a quarrel Monday night. Tuesday Voegel went away for the day and Mrs. Voegel left the house. Voegel afterwards told his friends that she converted everything possible into cash and carried it away with her.

Voegel learned from some of his friends that his wife and her mother were stopping in New Brunswick. Yesterday afternoon he came over on the trolley and put up at the Albany Hotel. He drank heavily all the evening.

This morning he met his wife and mother-in-law on lower Albany street. Voegel tried to persuade her to return home, but she refused to have anything to do with him. He insisted and she walked away. Then he drew a revolver. Mrs. Voegel and her mother fled down the street with Voegel in pursuit. He fired and the bullet passed through Mrs. Voegel's left arm. The next shot went wild.

Catching up with Mrs. Caldwell, Voegel placed the revolver at the back of her neck. The bullet missed the spinal cord and the main artery, thereby saving her life. Leaving the elderly woman where she fell, he continued to chase his wife. She ran into the side entrance of the Albany Cafe and out of the front door with Voegel following. On Albany street, near the corner, Voegel was seized by Detective William Housell, who was attracted by the shooting. Shaking himself loose from the detective's grasp, Voegel turned the revolver on himself and fired two shots. The first lodged in his neck and the second in his brain. He fell dead on the sidewalk.

Mrs. Voegel's injuries were slight. Those of her mother were more serious. She will recover, however. The Coroner's inquest will be held tonight.

Didn't Get Out Quick Enough.

Orderly San Jose, of the Muhlenberg Hospital, was arraigned before City Judge Runyon this morning for trial on the charge of assaulting Sigmund Frucht in the latter's store. San Jose claimed that Frucht attempted to put him out of the store without cause and that he resisted. The Judge suspend sentence.

A Quiet Marriage.

Announcement is made of the marriage of Silas Yerkes, of East Sixth street, and Miss Rebecca Meredith, of Langhorne, Pa., which event took place quietly Wednesday last at the home of the bride. After a short absence from the city Mr. and Mrs. Yerkes will take up their residence on East Sixth street.

A Change of Position.

Miss Elizabeth A. Carpenter, who has for several months been teaching shorthand and bookkeeping in the Gregg Business College, has resigned her position and is engaged to teach the Gregg system of shorthand and assist in other departments of the Plainfield Business College, City Bank building.

MR STETSON TESTIFIES.

He Tells the Industrial Commission About Federal Steel Company.

$100,000,000 OF CAPITAL.

Declares That He is Familiar With All of the Affairs of the Big Corporation.

Doesn't Know Anything About the Standard Oil Company — Believes That Directors of Extensive Corporations Should Have More Power To Conduct Business.

Washington, Oct. 20.—F. Lynde Stetson, one of the firm of J. P. Morgan & Co., of New York, appeared before the Industrial Commission and testified concerning the organization of the Federal Steel Company, the operation of the New Jersey Corporation laws, and the general relation between railroads and the Interstate Commerce Commission. He urged particularly that directors of great corporations should have power to act more independently of the stockholders; that the New Jersey laws did not increase the stockholder's risks in increasing his benefits; that the Interstate Commerce Commission should have power to change agreements made between railroads so as to prevent discriminations against particular communities or particular classes of patrons.

"The Federal Steel Company was organized in 1898," said Mr. Stetson, "and I have been familiar with its affairs from the first. It sustains a closer relation between its capital stock and the actual value of its holdings than almost any other large corporation in the country. It is capitalized for $100,000,000, that stock representing the amalgamation of the Minneapolis Iron Company, the Illinois Steel Company, and the Elgin Railroad Company. The Morgan company acts as agent for the combination, but holds none of its certificates."

The witness refused to compare the Federal company with the Standard Oil Company, observing that he knows nothing about the latter corporation.

"New Jersey law was better suited for the incorporation of the Federal Steel Company than the law of any other state. Much of our property, for instance, is held in other states, and the New Jersey law is the only legislation which does not restrict such holdings beyond all reason. An additional advantage is that the stockholders of New Jersey corporations may examine the books only as the law provides. In other states corporation books are an uncertain quantity because of the continuous meddling of others than corporation officials.

"The truth of the matter is that the greater the degree of freedom permitted the directors of a corporation the greater is the benefit to the stockholders. If stockholders ever require protection against the directors of a company the various State Legislatures will be quick to grant it. But the directors make risks, not the stockholders, and they assume the responsibility. I would give the board of directors of every corporation the right to increase its own number at will.

"New York has lost corporation business steadily because of her unstable and inequitable taxes on corporation capital. The individual stockholders are liable, moreover, in various degrees for the debts of the corporation in which they hold stock. In New Jersey, on the contrary, there is no individual liability for corporation debts and the tax-rate established is fair and unchanging."

Questions asked by various members of the Commission elicited the following general comment:

"Capitalization has as a rule almost nothing to do with fixed values. If a company is organized with a capitalization of $100,000,000 and sells $100 stock at $10 per share no one considers it to be worth $100,000,000. Not over-capitalization but ruinous freight and passenger rates have caused the greater portion of the railroad foreclosures of the past twenty-five years. Had the rates been a fraction higher most of the failures would never have occurred. The railroads of to-day are better directed than ever before. The officers represent the best business men in the country. As such they court publicity in managing their affairs.

Mr. E. H. Gary, President of the Federal Steel Company, testified in practically the same line as Mr. Stetson.

Helms Got Fourteen Years.

Ft. Wayne, Ind., Oct. 20.—Jacob E. Helms, of Garrett, Ind., was sentenced to the penitentiary for 14 years for criminal assault on two children, aged 8 and 10. A mob was arranging to lynch him, but he was spirited away.

Poisoned by Eating Beef.

Charleston, W. Va., Oct. 20.—Four members of the family of Mrs. Gideon Gresham, of this city, are in a serious condition from ptomaine poisoning. They ate refrigerated beef and all are likely to die.

Poison Cheese Will Kill Four.

Warsaw, Ind., Oct. 20.—The family of J. F. Russ were poisoned by eating cheese. Eight of the family are seriously ill, three cannot live and Mrs. Russ died soon after eating the cheese.

FOR A NEW STEEL PLANT.

Company Projected in Cleveland with a Capital of $5,000,000.

Cleveland, Oct. 20.—Cleveland capitalists, at the head of whom is Chas. L. Pack, are promoting a $5,000,000 steel concern. It will be known as the Holley Steel Company. A prospectus just issued indicates that its plant will be as large as the Johnson plant at Lorain.

The site proposed is at Fairport. A tract of 1,000 acres of land on the west side of the river there is under option. The plans include a blast furnace of 600 tons capacity, for the manufacture of basic iron; ten 50-ton basic open-hearth furnaces, a modern bar mill and a plate mill. The products will be billets, slabs, bar and plates. Grand River at Fairport is dredged to a depth admitting the largest lake vessels, and Government work done at this harbor in recent years makes the building of docks for the proposed plant a matter involving comparatively little labor.

Fears for Transport's Safety.

Victoria, B. C., Oct. 20.—The Empress of Japan was badly damaged in a big typhoon, which she encountered one day out from Yokohama, which port she left on October 7. Two of her steel lifeboats were stove in, and every cabin on the upper and the hurricane deck was flooded. Officers say it was the worst storm they ever encountered.

The United States transport Senator left the Japanese port eight hours before the Empress. The transport was crowded with men of the Fifty-first Iowa, en route to San Francisco from the Philippines, via Honolulu. Grave anxiety is felt by many of the officers of the Empress for the safety of the transport.

Have Found the Mail Pouch.

New York, Oct. 20.—The Post-Office authorities have received word that the mystery of the disappearance of a mail pouch from this city for New England, containing 600 to 700 valuable business letters, has been cleared up at Westerly, R. I. Joseph and Julia Scott and A. H. Wills, all notorious characters of Westerly, are under arrest for taking the pouch off a truck. Wills, immediately after his arrest, made a confession which resulted in the finding of the pouch and most of the rifled letters. It is not known how much money was secured. Wills was recently liberated from jail.

Wants "Ready-Made" Houses.

Cincinnati, O., Oct. 20.—The publisher of a local trade paper has just received an inquiry from Smyrna, Turkey, for ready-made frame houses or cottages of two stories, with veranda on the first floor, shingle roof, either painted or in the white, complete in every detail, excepting the window panes. They must have from three to five rooms, not counting the servants' quarters, and range in price from $200 to $1,000. They must be shipped "knocked down." From 1,000 to 2,000 houses a year will be ordered if the arrangements are completed.

Ohio Man Brings Suit.

Los Angeles, Cal., Oct. 20.—Charles R. Mayers, President of the First National Bank, Columbus, Ohio, has brought suit aganist Theodore P. Gordon to recover $4,287 and interest, alleging that he was defrauded out of that sum in purchasing a bank through misrepresentations made regarding the value of notes and other papers which have since turned out to be worthless.

Hilton's Will to Be Contested.

New York, Oct. 20.—Henry G. Hilton has begun a contest to the probating of the will left by his father, the late Judge Henry Hilton. Notice of the contest has been filed with Chief Clerk Washburn in the Surrogate's office. Henry G. Hilton was cut off with only $25,000 and this is the cause of the contest.

Trouble Causes Suicide.

Wilmington, Del., Oct. 20.—Because of family trouble, George Ainsworth, aged 77, committed suicide. He was arrested for drunkenness, and died later at the station house. A post-mortem examination disclosed opium in the man's stomach. He had made threats of self-destruction on several occasions.

Transport Thomas to be Painted.

Philadelphia, Pa., Oct. 20.—The United States transport Thomas, said to be the finest troopship afloat, sailed from Cramp's shipyard for New York, where she will go into drydock to be painted.

Governor Bradley Speaks.

Louisville, Ky., Oct. 20.—Governor Bradley has delivered his first speech of the campaign, and comes out in support of the whole Republican ticket. He will stump the state from now until the close of the campaign.

McKinley Reaches Washington.

Washington, D. C., Oct. 20.—President McKinley and party reached Washington nearly an hour behind schedule, owing to delay on the grade in the Baltimore Tunnel.

THE MARKETS.

New York, Oct. 20.—Pullman Palace Car stock was the only prominent issue to show material change in price at the stock market to-day. It opened at 199, a drop of 4 points. The next few quotations landed the price at 196, a drop of 7 points in less than four minutes. All the stocks hardened later, and at the close practical advances were general.

Chicago, Oct. 20.—Closing prices; Wheat, 69⅝; Corn, 30⅝; Oats (Dec.) 22½; Pork (Dec.) 7.97; Lard, 5.22.

LACE CURTAIN AND BLANKET CLEANING : :

Is a delicate piece of work—it requires skill and carefulness to get them daintily white without injuring a thread. Few can do this—but we can, because we have made a specialty of it. We have thought about it and experimented until we have found the only perfect method. Let us send for your curtains. They will be returned to you white—not a design or a thread will be out of place. Price 50c. per pair. Called for and delivered free of charge. Orders received by postal card.

THAT'S THE IDEA!

You ought to see what we can do for you before doing anything for yourself. Painting depends upon the paint and the painter. Better preparations than ours were never put on by a brush. Wherever paint is put, it should be put there to stay long enough to make it worth while to do the job. The warring elements have no effect on our durable mixtures.

LAWTON AT SAN ISIDRO

His Forces Take the Place With Comparatively Little Opposition.

SUPPLIES WILL FOLLOW.

Young and Lawton in Command of a Force of Three Thousand American Soldiers.

San Isidro to be Held as a Base of Operations to the North—Heavy Rains in the Philippines—The Third Cavalry Equipping at San Fernando—The Sick at Manila.

Manila, Oct. 20.—Gen. Lawton has reached San Isidro. This information was contained in a communication just received from him from that point.

Gen. Lawton and Gen. Young had a force of nearly three thousand men. Extensive preparations have been in progress for several days, and the expedition, whose objective point is Tarlac, started yesterday. The supplies will be taken on cascos.

The gunboats Florida and Oeste are preparing to move along the river to San Isidro, which will be held as a base of operations to the north.

Gen. Lawton's force consists of eight companies of the Twenty-fourth Infantry under Col. Keller; eight companies of the Twenty-second Infantry under Major Baldwin; nine troops of the Fourth Cavarly, mounted, under Col. Hayes; and a mixed regiment, consisting of one company of the Thirty-seventh Infantry, six guns, commanded by Capt. Scott, one company of cavalry and Capt. Batson's Macabebee scouts.

The Third Cavarly is equipping at San Fernando to join the expedition.

Heavy rains, the first in weeks, began Wednesday night and have continued steadily since.

It is reported that Gen. Lawton's forces met very feeble opposition from the Filipinos in entering San Isidro, and that few shots were fired on either side. The greater portion of the natives had left before Lawton arrived.

The Sick Are Provided For.

Washington, Oct. 20.—In view of despatches from Hong Kong criticizing the medical service in the Philippines, the Secretary of War has called for reports as to the real condition of affairs. The surgeon general informs him that there are sixty-one regular army surgeons in Manila and seventy-seven contract surgeons, in addition to the medical officers with each regiment, making a total of 231 medical officers either under orders to the Philippines or already there, to care for 60,000 men. There are now in the Philippines 175 doctors for 31,334 enlisted men. These medical officers are assisted by 989 enlisted hospital stewards and nurses and seventy women nurses. Of hospital tents there are 1,232 on the spot, and 240 are on the way to Manila. As each of these tents will accommodate six men without crowding, 8,832 sick soldiers can be cared for at one time. The largest number of sick reported by the medical officers in charge has been 1,847.

There are four permanent hospitals in Manila with 2,000 beds. These permanent hospitals have never been filled, and the army has accommodations in the hospital tents for more than four times as many sick as have been reported. The army with Otis has double the number of medical officers usually supplied to an army of its size, besides a full regiment of hospital stewards and nurses of whom have had medical training. It has been the policy of the department whenever requisitions have been made to send double the number of officers asked for as a precaution against suffering and neglect. For instance, on Oct. 10, Dr. Woodhull, the chief surgeon with Otis, cabled to the surgeon general that he needed twenty more medical officers.

The surgeon general responded at once with thirty regular commissioned medical officers and forty assistant surgeons, who were speedily on their way to Manila. He also sent thirty more women nurses to supplement the seventy now in Manila. He has sent the hospital ships Missouri and Relief, which have accommodations for 600 sick, with medical officers and nurses and everything necessary to make them complete hospitals. The Secretary of War thus finds that there are accommodations for more than 10,000 sick, although not 2,000 have been reported in the hospitals at any one time.

Stole $50,000 From Safe.

Vancouver, B. C., Oct. 20.—A report from Ashcroft, B. C., says that there was a robbery at the Cariboo Mine, near Quesnell Forks. The big safe in the Cariboo Hydraulic Company's office was blown open and emalgam worth $50,000 was stolen.

Henry Goes to Omaha.

Washington, Oct. 20.—By direction of the President, Major-Gen. Guy V. Henry, now on waiting orders in New York City, has been assigned to command the Department of the Missouri, with headquarters at Omaha.

Two Killed in a Wreck.

Dallas, Tex., Oct. 20.—In a collision on the Houston, East & West Texas Railway near Angelina, James Luster and Edward Austin were killed and Conductor J. E. Matthews seriously injured.

SENATOR PRICHARD TALKS.

His Views on Amendment to North Carolina's Constitution.

Statesville, N. C., Oct. 20.—Senator Prichard spoke here in regard to the proposition to amend the provision of the state's constitution prescribing the qualification for electors. That amendment constituted, he said, the most important question presented to the people since the war. The constitution of 1868, framed by the Republican party, guaranteed free suffrage to the rich, the poor and the educated alike. There had never been a moment since its adoption, declared the senator, when it had not been the intention of the Democratic party to do all in its power, should the opportunity present itself, to amend the constitution so as to restrict the right of suffrage and, if possible, prevent the poor and illiterate white people from exercising that right. The people were confronted with a proposition to amend the constitution, which would, in his judgement, disfranchise the poor and illiterate classes of both races.

"It is," he said, "a carefully prepared and well-devised scheme, by which it is thought forever to prevent the common people of North Carolina from participating in the management and control of her affairs."

Counterfeited Railroad Tickets.

Denver, Col., Oct. 20.—The officials of the Colorado Midland Railway Company have discovered a case of ticket counterfeiting. The counterfeited ticket is what is known as a skeleton round trip form. It is so made, that with the coupon attached it can be made out to any point in the country and return. The tickets discovered have been all on eastern points, and they were so well copied that not only conductors but employes in the general office passed them without question. The officials have no idea of the number of tickets out, but believe it to be large.

The Bridge Combination Formed.

Pittsburg, Oct. 20.—It is announced that the bridge building combination under the name of the American Bridge Company has been completed, and will be in operation by the first of next month. The combination includes thirty-five of the thirty-seven plants in the country, and is capitalized at $67,500,000, of which $33,000,000 is preferred and $34,500,000 common stock. The company is to control about 98 per cent. of the output of the country. The headquarters are to be in New York.

Whipping Caused His Death.

Chicago, Oct. 20.—Arthur Whitney, 14 years old, died here, as a result, it is alleged, of a whipping administered three weeks ago by W. H. Riechers, principal of the Hammond, Ind., public schools. The boy's ante-mortem statement was that Riechers beat him with the heavy end of a whip and dragged him backward over two desks. A post-mortem examination showed that the spinal cord had been injured. Riechers is under bonds on a charge of assault.

Fighting Forest Fires.

Parsons Wa. Va., Oct. 20.—Immense forest fires, miles in extent, are raging in the mountains near here. Millions of feet of lumber are being burned up, and other property is in imminent danger. Residents had to fight to keep the fire out of Hendricks, three miles from here, and it looks as if the same would have to be done here. Smoke like a dense fog hangs over the town at night. The many miles stretch of blaze is a grand scene.

Jersey Soldiers to Get Medals.

Trenton, N. J., Oct. 20.—The medals which the State of New Jersey has secured to present to the New Jersey Volunteers in the Spanish-American war, and which have not yet been distributed, have been shipped by the quartermaster general to the captains of the several companies for distribution to their men.

Britain Agrees to Change.

London, Oct. 20.—The British Foreign Office asserts that the verbal changes in the terms of the Alaskan modus vivendi are of no partial importance and have been readily agreed to, and that it is assumed that Secretary Hay and the British Charge d'Affairs in Washington, Mr. Tower, will sign at once.

Gave His Body Away.

Ft. Wayne, Ind., Oct. 20.—Simon E. Vandevere, a veteran of the Civil War, was found dead at his home here. Some time ago he made an agreement with a New Haven doctor whereby the latter was to get his body after death, but the Coroner will refuse to execute the contract.

Volunteers At Yokohama.

Yokohama, Oct. 6, via Vancouver, Oct. 20.—The Fifty-first Iowa Regiment, the last of the volunteer regiments to touch this port on their homeward way, reached here on the 3d and left for San Francisco.

Want The Empire Divided.

Vancouver, B. C., Oct 20.—Reports from Corea say that demands are being made by representatives of various foreign powers for a practical division of the empire among themselves, as far as mining interests are concerned

Grain Elevator Burned.

Chicago, Oct. 20.—The New England Transfer Elevator Company's building at Forty-eighth street and Homan avenue was burned to the ground. The loss is estimated at $100,000.

WAS DECLARED NO RACE.

The Columbia and Shamrock Again Fail to Finish.

Off Sandy Hook Lightship, Oct. 20.—For the eighth time in the history of the present series of international cup races, the signal "R"—the race is off—was hoisted on the flagship Corsair.

It was an interesting struggle for the first hour of the contest, in which both yachts did considerable jockeying, Shamrock in the endeavor to obtain a commanding weather berth, Columbia to prevent it.

The wind died away about two hours after the start, and from then to the end the "race" was little better than a drifting match.

Columbia lazily sailed round the outer mark five minutes ahead of the Shamrock.

It was a grand race by Columbia to finish within the time limit. The wind shifted further to the westward and she set her balloon jib topsail in an attempt to reach the line. She was then over six miles away and a mile and a quarter ahead of Shamrock. But the effort was futile.

The next race will be sailed over a leeward and windward course, from the Sandy Hook Lightship.

Killed Wife With a Chair.

Chattanooga, Tenn., Oct. 20.—D. C. Crawford, a glazier in the employ of the Chattanooga Lumber Company, killed his wife when she interfered with him while he was trying to punish his nineteen-year-old sister, Mattie Crawford. The young woman had gone to church with a man to whom whom Crawford objected. When she returned home he scolded her and insisted that she promise never to go with him again. When she refused to do this he slapped her in the face several times. His wife, Clara Crawford, attempted to stop the slapping, and he picked up a chair, striking her on the head and knocking her senseless to the floor. The blow broke her skull, and she died soon after. Crawford escaped, and all efforts to capture him have been unsuccessful.

Purchased The Village.

Worcester, Mass., Oct. 20.—A company of capitalists has purchased the entire village of Smithville, a part of Barre, in this state, including a three-story brick factory, a machine shop, storehouses, a country store, thirteen dwellings and other buildings. The village was built up by the late J. Edwin Smith, of this city, and the sale took place in the settlement of his estate. It is understood that the new owners will enlarge the manufacturing plant and increase the business of manufacturing fancy cambrics and other goods in that line.

Railroad Officers Elected.

New York, Oct. 20.—At the annual meeting of the stockholders of the Northern Pacific Railroad Company the following directors were elected: Robert Bacon, Temple Bowdoin, William Nelson Cromwell, William J. E. Curtis, John H. Emanuel Jr., Albert H. Gillard, William Pierson Hamilton, Walter B. Horn, Samuel E. Hilner, Charles W. King, Charles MacVeagh, Hall P. McCullough, Francis Lynde Stetson, all of New York.

Will Be Entertained by McLean.

Columbus, Ohio, Oct. 20.—The arrangements for the tour of Hon. William Jennings Bryan through Ohio were completed yesterday afternoon. In recognition of the demands of representatives of the press, which have been numerous, McLean's private car, Ohio, will be attached to the Bryan special and placed at their disposal. They will be the guests of the gubernatorial candidate on the trip.

Negro Song Writer Dead.

Whitestone, L. I., Oct. 20.—Gussie L. Davis, a well-known negro song writer and musician, died at his home here of heart failure. He was born in Cincinnati on Dec. 3, 1863, and was a graduate of Gaines College. He composed many songs, including "The Fatal Wedding," "Light House by the Sea," and "In the Baggage Coach Ahead." He also composed the opera "King Herod."

Chicago Democrats at Lexington.

Lexington, Ky., Oct. 20.—The cook County Democratic Marching Club, of Chicago, arrived here on its Southern tour. After luncheon in the city the Club marched to Woodland Park, where members of the club spoke. There is little interest taken by the people here in the presence of the Chicago club.

Would Start a Revolution.

Mexico, Oct. 20.—General Ezota, former president of San Salvador, now an exile, is here trying to get President Diaz to sustain him in starting a revolution in his country. Ezota three years and left his home there has lived at Oakland, Cal., for the past last week.

Found Floating in River.

Dover, N. H., Oct. 20.—The body of Edward J. Gould, of Manchester, N. H., travelling salesman for the United States Tea Company, of New York City, was found floating in the lower Cocheco River here. It is thought he committed suicide.

The Jury Failed to Agree.

Philadelphia, Oct. 20.—The jury in the Ingham and Newitt trial announced that its members were unable to agree. Judge McPherson sent them back, refusing to discharge them.

Stole a Zinc Roof.

Bellefontaine, Ohio, Oct. 20.—An unknown man stole the zinc roof from the house of Mrs. Mary E. Smith, removing the same in wagons.

BOERS' SUPPLIES SEIZED.

The British Troops Capture a Large Quantity of Stores at Kimberly.

FREE STATE IN DANGER:

Boers Are Advancing on Dundee But Their General Movement is Greatly Retarded.

President Kruger Reports That Captain Nesbitt and Seven of His Men Were Badly Wounded—Rumored That 1,500 Boers Were Killed in An Engagement With the British.

London, Oct. 20.—The Daily Mail's Cape Town correspondent says that a refugee who has reached Grahamstown from the Rand states that a train arrived at Johannesburg from Klerksdorp with 300 wounded burghers. Every available conveyance, the refugee says, was called into requisition to take the wounded men to the hospital.

The Daily Mail suggests that these wounded were from Mafeking. Klerksdorp is the nearest railway station to Mafeking.

The Daily News Cape Town correspondent says:

"It is rumored here that news has reached De Aar Junction that the Boers attacked Mafeking in force, but were repulsed. The defenders, seeing the enemy retreating, pursued them for some distance

"Then a feint was made and they commenced to retire on the town, allowing themselves to be driven in by the Boers, who, eager to retrieve their position, again advanced to the attack and were drawn over lyddite mines laid for the defense of the town. It is reported that 1,500 Boers were killed by the explosions.

Captured the Gold.

Cape Town, Oct. 20.—The Boers were repulsed at Mafeking with moderate losses. There were no casualties on the British side. The Boers were also repulsed at Kimberley with slight losses.

Large quantities of stores intended for the Boers have been seized at Kimberley.

Nearly $1,000,000 in gold, which was landed here from England for the Transvaal was seized by the British authorities.

A very strong native tribe of Basutos armed with modern guns is threatening to make an attack on the Orange Free State.

The Boers are advancing on Dundee, but their forward movement is retarded at all points. They are also suffering from poor management on the part of the commissary department.

Col. Plumer is reported to be marching from Fort Tuli, Rhodesia, to the relief of Mafeking.

President Kruger telegraphs to Bloemfontein, Orange Free State, that Capt. Nesbitt, who was in charge of the armored train seized by the Boers, and seven of his men were seriously wounded. They are held as prisoners by the Boers. No members of the British party was killed

Observing Enemy's Movements.

London, Oct. 20.—The War Office announces that no news of importance has been received. In Natal the cavalry at Ladysmith is observing the enemy's movements. Steps have been taken to protect Pietmaritzburg and Durban against raids.

No reliable news has been received from Kimberley or Mafeking. It is believed there were some skirmishes six miles south of Kimberley, and that the Boers were beaten off by an armored train. There was some hard fighting at Mafeking and the Boers were repulsed.

The Boers in great numbers are opposite Aliwal North, in Cape Colony, and Bethulje, in the Orange Free State, opposite Norval's Point.

Bankers Meet at Syracuse.

Syracuse, Oct. 20.—The bankers of central and northern New York, members of Group IV. of the State Association, are in session in this city. There is a large attendance. The leading address was delivered by William C. Cornwell, president of the City Bank of Buffalo, on "The Currency." He made a strong argument for the gold standard by-law.

Approved President's Policy.

New York, Oct. 20.—Jacob Gould Schurman, president of Cornell University, was the guest at dinner of the Aldine Association in the club rooms, Fifth avenue and Eighteenth street. Dr. Schurman is president of the Philippine Commission. He made an address in which he tersely summed up the troubles in the archipelago. What he said was in approbation of the President's policy.

Declared Against Divorce.

Troy, N. Y., Oct. 20.—At the session of the New York Presbyterian Synod Bishop Potter's idea on the divorce question was followed by the adoption of a resolution enjoining all ministers of the Presbyterian faith not to marry divorced persons.

Lincoln Chosen President.

Chicago, Oct. 20.—Robert T. Lincoln has been elected president of the Pullman Palace Car Company. He had been chairman of the Executive Committee, the company having had no president since the death of Mr Pullman.

October 23—Union Bible class taught by Rev. D. M. Stearns, Y. M. C. A. Hall, 7:45 p. m.
October 30—Y. M. C. A. Star Course.

Campaign Will be Close Again.

It has been several years since the two great political parties of Somerset county have nominated for the highest office in the county standard bearers whose records in the public life of New Jersey are so evenly balanced.

Both have had brilliant and influential careers in the State Capitol, where, as representatives of the county in the Legislative branch of the government, they are now aspiring for the same place. Personally, each candidate is clean, amiable and smart; politically, perhaps, one may gain strength among the voters where the other will find his forces weakened, and vice versa. Such a situation of affairs means a campaign that will be hard fought, the outcome as to choice uncertain.

Politicians and partisans who talk for effect will naturally insist that their respective favorite for the office of Senator in Somerset is a "sure winner," but an independent view of the campaign as it starts out emphasizes the point that the Senatorial contest will be a bitterly and closely fought one.

The Reliability of Advertisements.

It is unquestionably true that up to a decade ago a great deal of advertising was characterized by bluster and exaggeration, says the Philadelphia Record, and then adding: "The two essential features—reliability and instructiveness—which have rendered the present day plan of advertising in a popular newspaper so successful were in a great degree lacking. The merchant seemed to simply want to yell to the public through the speaking trumpet of his advertisements, and his yell was not an improvement

MARCONI AND HIS WIRELESS TELEGRAPHY.
The Marconi system of wireless telegraphy, with Signor Marconi in charge, was used for reporting the yacht races for the New York Herald. From a mast on the steamer Ponce to a station mast at Navesink messages were transmitted on electric waves. The messages were then translated into the Morse alphabet and forwarded to New York.

over the cries of the old London store 'touts' when they bawled to passersby: 'Come in, and buy!' On the other hand, modern trade announcements engender in the public mind and confidence in the advertiser which is always certain to have a profitable effect upon his business."

The newspaper correspondents who are trying to follow the movements of the combatants in South Africa, are having a rather hard time of it. The English generals have, in several cases, refused to allow them to go to the front while a strict censorship has been established over all messages that go forth. The result is that most of the accounts of the progress of the war between the English and the Boers are indefinite and lack the detail that so characterized the reports of the recent war between this country and Spain. It is possible that the English officers learned something from the troubles of their American brothers.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

One of the characters of Somerset county is old "Tune" Mellick, the so-called mayor of Pluckamin. If there is anything of importance happening in the county, "Tune" is always on hand with that great smile and uproarious laugh of his. He came down to the North Plainfield firemen's parade, and although he wasn't part of the official arrangement, he furnished the spectators with no end of amusement. Wednesday he attended the Republican county convention at Somerville, and once nearly broke up the convention by laughing so hard. Yesterday he was in Somerville and took part in the firemen's parade there.

* * * * *

Collisions at railroad crossings are prevented by the trolley conductors going forward and signaling if there is no railroad train approaching. The North Jersey Traction Company has a novel arrangement for prevention of accidents on its tracks on Bloomfield avenue, where they cross the Lackawanna Railroad just this side of Montclair. The safeguard consists of two derailing switches placed on the trolley tracks, one on either side of the crossing. When the trolley car reaches the switch it is set automatically, to derail the car. The conductor has to leave the car, go to the curb, and from there, by means of lever, turn the switch so that his car may pass. If a railroad train is approaching from either direction and is within a certain distance of the crossing, the lever cannot be moved. If the approaching train is still a good way off then the turning of the lever sets a signal to pass which is against the orders given to the engineer. By these precautions it is hoped to prevent accidents at the crossing.

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

The popular and successful English comedy, "The French Maid," from the Herald Square Theatre, New York, will be presented at Music Hall next Tuesday night on a scale of magnitude and magnificence seldom seen on the local stage. This lively piece of stage fun and jollity achieved a run of 512 performances at Terry's Theatre in London and occupied the Herald Square Theatre stage for nearly an entire season. It is said to be brilliant and tuneful as to its musical score and the book supplies an unusual fund of humor and comedy. The plot arises from a series of complications in which the chief figures of the story become entangled, and in straightening out these mixtures the participants in them are brought together at a bal masque, where occasion is taken to introduce some striking ballet and ensemble work. The production to be shown here is the original Herald Square one and the company is an exceedingly large one of some fifty people, composed mainly of members of the original American cast. The action of the play lends itself to the display of gorgeous scenic and costume equipment.

Story of a Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a godsend to weak, sickly, run down people. Every bottle guaranteed. Only 50 cents. Sold by L. W. Randolph, Druggist.

EARLY INTELLIGENCE.

—Use Press want ads.

—Wieda today announces his specials for tomorrow. It would pay you to look up his advertisement.

—Woodhull & Martin expect another big time tomorrow. They advertise in addition to double stamps a most interesting list of special items. Their sale of last Saturday resulted in a crush and taxed their energies severely. Additional salespeople will be on hand, however, for tomorrow, and everybody will be made happy.

Bismark's Iron Nerve

Was the result of his splendid health. Indomitable will and tremendous energy are not found where Stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25 cents at L. W. Randolph's drug store.

PARTICULAR MENTION.

John S. Hobbs, of Pearl street, has been on a business trip.

A baby girl was born to Mr. and Mrs. Charles Schantz, of Park avenue, yesterday.

The condition of Rev. Dr. Robert Lowry, of Madison avenue, is not much improved and specialists have been called in consultation.

Plainfield's New Directory.

The closing days of canvass for the new directory for Plainfield is now on, and Mr. Wand, the publisher, is very anxious to have the best directory ever published in Plainfield, particularly in regard to the New York address of Plainfield residents. If this notice meets the eye of any one who has not given his address to Mr. Wand or any of his cavassers, will such person leave his name and Plainfield and New York city addresses at the office of this paper and thus insure its publication in the new directory.

DRINK GRAIN-O

after you have concluded that you ought not to drink coffee. It is not a medicine but doctors order it, because it is healthful, invigorating and appetizing. It is made from pure grains and has that rich seal brown color and tastes like the finest grades of coffee and costs about ¼ as much. Children like it and thrive on it because it is a genuine food drink containing nothing but nourishment. Ask your grocer for Grain-O, the new food drink. 15 and 25c.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

For the past three weeks we have been very busy bringing from our factory bundle after bundle of our Fall and Winter stock and arranging them on our tables. We didn't say a word about them because we wanted to display our line in full and then scream.

NOW WE'RE READY TO SCREAM.

We never scream unless we have something to scream about, and we won't scream about anything that we can't substantiate. We are showing as extensive a line of clothing as any store in the vicinity, and the prices are right. The cut and finish is there and all extra profits are off. Besides our staple blacks and blues, we are showing a variety of up-to-date worsteds, with and without double breasted vests in stripes, checks and plaids. Everything that the designers art and fine tailoring can do is in them. We are proud of our stock and want everybody to see it. Come and look at it whether you want clothing or not, you will be treated right.

Below We Quote a Few Prices:

Men's Black and Blue Cheviot suits 2.75, 3.75, 4.25, 7.25, 8.00 and 9.00.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Daily Press.)

Dunellen, Oct. 20.—Rev. and Mrs. Joshua Mead, formerly of the borough, but now of Hoboken, have been visiting in town. Mr. Mead was at one time pastor of the Methodist church in this place.

The new waiting station at the terminus of the trolley lines, which was built by Messrs. Woodhull & Martin, of Plainfield, the enterprising merchants, is being given a coat of paint. The structure will also be covered with the business announcements of the firm.

A two story brick addition is soon to be constructed at Naylor's paint works. The new building will be about 150 feet long and will extend toward West Front street. Work upon the new building will be commenced at once.

The attention of the street commissioner is called to the large quantity of leaves that cover the streets and sidewalks. They should be raked up and burned.

The young folks are preparing to have a delightful time at Apgar's hall this evening. A social dance is to be given by Willard Apgar and some of his friends.

J. B. Lane spent Sunday at Bound Brook, where he delivered an address on the work of the Christian Endeavor Society.

Miss Ella Boice has returned from a pleasant visit with friends in Brooklyn.

PLAINS AND FANWOOD.

(Special Correspondence of The Press.)

Scotch Plains, Oct. 20.—The case of Miller against Bonday, in tort, which has been on the calender in Judge Clark's court for some time, has again been adjourned to Nov. 10th. Frank Blatz is attorney for plaintiff and John Freck, of Somerville, is the attorney for the plaintiff.

George Shick, the tonsorial artist, has made a new rule in his Sunday business. Beginning Sunday the shop will open at 7 a. m., and close promptly at 10 a. m. This is a good move on Mr. Shicks part and will meet with the hearty approval of all.

The literary society connected with the Methodist church held their regular weekly reading in the class room of the church last evening. The society has taken up the Chautauqua Works and they are proving very interesting reading.

Rev. G. M. Shott will lead the weekly prayer meeting in the Baptist church this evening. The evening will be devoted to reviewing the regular Sunday-school lesson for the coming Sunday.

The case of Halstrom against Thatcher, on contract, in Judge Clark's court, the plaintiff was nonsuited. Summons was again issued and is returnable Oct. 25th.

Mr. and Mrs. Ira G. Walker have returned from Schenectady, N. Y., where they have been attending the funeral of Mr. Walker's father.

Mr. and Mrs. A. D. Beekon, of Fanwood, have been entertaining Mrs. Beekon's mother, Mrs. Lazell, of Brooklyn.

Township Committee meet in the town rooms this evening.

Goodwill Lodge, K. of P., met in their rooms last evening.

WESTFIELD

(Special Correspondence to The Daily Press.)

Westfield, Oct. 20.—A meeting of the Board of Trade and Improvement Association will be held in the town rooms this evening at which time it is expected that it will be decided to join the Board of Trade of Plainfield, and that of Elizabeth in their efforts to get cheaper fares on the Central Railroad.

The Westfield Republicans are entitled to ten delegates to the county convention at Elizabeth next Thursday and will hold their primary to elect the same at the town rooms Monday evening at 8 o'clock.

The Epworth League of the Methodist church has been successful in getting Thomas Bowman, D. D., L. L. D., second bishop of the Methodist church, to deliver a lecture here Wednesday evening of next week.

Charles Embleton, Westfield's fast wheelman, has joined the I. O. S and next year will ride under the club's colors in all his races.

Bon Ami

The Finest Cleaner

MADE, IS A METAL POLISH, A WINDOW POLISH, AND DOES THE WORK OF ANY SCOURING SOAP.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders.

—The City Mills is being treated to a coat of paint and is otherwise being improved.

—A festival will be held during the latter half of next week for the benefit of St. Mary's church.

—The next regular meeting of the Borough Council will be held Friday evening, November 3d.

—The offering at the Crescent Avenue church Sunday morning will be for the Children's Home.

—The private telephone line between the two borough schools is almost completed and will soon be ready for use.

—The new building at Hope Chapel is now about completed and the dedication ceremonies will probably be held next month.

—The Ladies' Aid Society of the First M. E. church is planning for a two days' fair to be held in Vincent chapel next month.

—Iona Council, Degree of Pocohontas, held a meeting Wednesday evening and received seven applications for membership.

—The third rank will be conferred on one candidate at the meeting of Perseverance Lodge, Knights of Pythias, this evening.

—Next Thursday Greenbrook Council, No. 1725, Royal Arcanum, will give a musical and literary entertainment at the Y. M. C. A. hall.

—The Woman's Home Missionary Society of the Crescent Avenue church will hold a sewing meeting in the church parlors this afternoon.

—Fred Dean, of Prideville, who was arrested Wednesday for being drunk and disorderly, was arraigned yesterday and fined $2 for his indiscretion.

—A fair for the benefit of St. Peter's Evangelical Lutheran church will be held at 79 Somerset street Thursday and Friday afternoons and evenings, November 16th and 17th.

—This evening the Christian Endeavor Society of the First Baptist church will meet and there will be special features A cordial invitation is extended to all young people.

—The local ice dealers had about concluded that the rush was over for the season, but during the past week there has been a great demand for the frozen water, and the wagons have been very busy.

—The Junior Endeavor Society of the Congregational church will hold its first meeting of the fall season this afternoon in the church parlors. The annual election of officers will take place at that time.

—Only the best stock and best material are used in the fall and winter shoes sold by Flynn Brothers, 222 West Front street, near Music Hall. These shoes give good satisfaction and the greatest wear.

—Every thing depends on health and health depends on strong nutritious food. Tender juicy meat eaten regularly enriches the blood strengthens the body. Fred Endress says this is the kind of meat he sells.

—The goods belonging to Justice J. Q. Miles, which were removed from his rooms to H. J. Martin's blacksmith shop, have not been taken away and Mr. Miles, who is still away, has made no arrangements for taking them in charge.

Volcanic Eruptions

Are grand, but Skin Eruptions rob life of joy. Bucklen's Arnica Salve, cures them, also Old, Running and Fever Sores, Ulcers, Boils, Felons, Corns, Warts, Cuts, Bruises, Burns, Scalds, Chapped Hands, Chilblains. Best Pile cure on earth Drives out Pains and Aches. Only 25 cents a box. Cure guaranteed. Sold by L. W. Randolph, Druggist.

PARTICULAR MENTION.

Mrs. Henry Angleman, of East Fourth street, is visiting her daughter, Mrs. Apgar, of Brooklyn.

Mrs. Greer, of Madison, who came to the borough to attend the marriage of her son, Charles H. Greer, to Miss VanHorn, has returned home.

City Judge William N. Runyon, of East Ninth street, has returned after attending the inauguration of President Hadley, of Yale University.

Dr. H. K. Carroll, of Westervelt avenue, made an address yesterday at the Twentieth Century Conference of the M. E. church held in Newark.

F. A. Dunham, C. E., has just completed preliminary plans and estimates for constructing a system of sewers in the Borough of Merchantville, N. J.

B. S. Braider, of Manning avenue, who met with a severe accident some time ago whereby he fractured his leg, is slowly but steadily improving. He is still confined to the house.

Miss Johnson, of Hillside avenue, who has been abroad for sometime, has returned. While away she visited her home in Sweden. She had a delightful time both going and coming.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

Samuel Wallace, of Grove street, is visiting at Baltimore for a short time.

Mrs. Lindsey Woolley, of this city, has been visiting out of town friends.

Andrew Cox, of Liberty street, is visiting at Watsessing, Essex county.

Miss Gertrude Uhdal, of Crosby & Hill's store, is enjoying her annual vacation.

Miss Justina Smith, of Crosby & Hill's store, is detained at her home by illness.

Mrs. Heller, of Stroudsburg, Pa., has been visiting borough relatives for a short time.

Miss Marguerite Schuck, of Vine street, has returned from a visit with Brooklyn friends.

Mrs. Rushmore, of Cranford, has been visiting relatives in Washington Park for a short time.

Morris C. VanArsdale, the shoe dealer, was a visitor at the Philadelphia Exposition yesterday.

Miss Mabel Wilson, cashier at Crosby & Hill's store, returned to her position yesterday after a short illness.

Miss Edna Schooley, of Elizabeth, is visiting her uncle and aunt, Mr. and Mrs. J. W. VanHorn, of Duer street.

Miss Mary Lance, of Flemington, Hunterdon county, has returned home after a pleasant visit with borough friends.

Miss Estella Hoffman, of White Haven, has been visiting Mr. and Mrs. Andrew G. Carpenter, of Manning avenue.

Mr. and Mrs. L. A. Hummer, of the borough, were among those who witnessed the firemen's parade at Somerville, yesterday.

Mrs. Garret Eick and her daughter, Miss Georgie Eick, of East Third street, will spend Sunday with relatives at East Millstone.

Former Mayor B. A. Hegeman, Jr., and family, of Washington Park, are residing for the present on Seventh street, corner Park avenue.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free.

F. J. CHENEY & CO., Props., Toledo, O.

THE **CROSBY & HILL** UNITED STORES.

Plainfield, N. J.
Wilmington, Del.
Morristown, N. J.
Perth Amboy, N. J.

Two Important Features. Dress Goods. Outer Garments.

We said "important features," that is hardly emphatic enough, for as a matter of fact these two sections are the most important features of the store just at this time. Your thought is on these matters. To guide that thought and finally fix it on this handsome equipment of gown stuffs and ready-to-wear garments is the mission of this message.

This store is prepared to demonstrate to your entire satisfaction that for style, for beauty, for worth of material and price modesty these items are worthy of all the emphasis that we can give them.

The New Autumn Plaids.

Touched with warm, rich brightness, woven in every popular color combination; many new and novel effects. As to prices—kindly read on:

79c Silk and wool effects, 40 inches wide.

1.50 Golf plaids, 54 in. wide.

Cloths for Tailored Suits.

Broadcloths, cheviots, tweeds, rough effects; they're all much in demand for tailor-made suits this season. Newest and best here, all shorn of fancy profits.

75c All-wool venetian suiting, 54 inches wide.

90c French broadcloth, 54 inches wide.

1.00 All-wool cheviots, 54 in. wide.

The New Black Crepons.

To say a thing is popular does not make it so. Popularity is measured by demand. The demand for black crepons is such that makers and importers are at their wits end to supply it. Happy the merchant who was farsighted enough to buy early. Need we add our crepons were bought early.

1.00 Silk and wool crepons, 40-in. wide.

1.50 Silk and mohair crepons.

1.75 Silk and mohair crepons.

The New Winter Jackets.

If you knew the time and care which has been spent in gathering this big assemblage of stylish coats together you would fully appreciate the enthusiasm which we feel at the result. It was labor and money well spent. You'll say so when you see what a showing is here.

3.98 Kersey jackets, ½ lined.

7.98 Melton jack'ts full lined.

12.50 15.00 16.50

Fine Kersey and Melton jackets, all satin lined.

Golf Capes.

No more serviceable garment ever made a bid for popularity; no garment ever won its way more completely. We are equipped to supply your golf cape needs for the present, and there's more coming but—first pick always at the beginning of the season.

Tailor-made Suits.

You wouldn't buy a jobby, ill-made suit at any price. That's why we insist on having every suit in this collection perfect. Perfect in fit, perfect in style and perfect in price, for a perfect price is a just price.

7.98 Venetian cloth suits.

10.98 Camel's hair cheviot suits.

12.50 Camel's hair and heavy twilled cheviot effects.

The Millinery Store.

Bonn's 140 WEST FRONT ST

Waists Skirts Petticoats

This Store is Famous

because we have the largest and finest assortment of Millinery. The largest and finest assortment of Shirt Waists, the most up-to-date methods, the most moderate priced and the best of merchandise. Undoubtedly the values we offer are directly responsible for our marvellous prosperity. This store differed from the other stores—differed to your advantage—you quickly found it out.

A New Walking Hat $1.69.

Of soft felt, roll brim bound, high full soft crown, with satin folds around, bow and two quills. Colors navy, cardinal, brown, castor, pearl and black, 1.69.

Trimmed Velvet Hats 2.98, 3.98 and 4.98.

Some especially good values for tomorrow, all prettily trimmed, with fancy wings, silks, birds and ornaments. If you wish a stylish hat, come expecting more for your money than anywhere else.

Untrimmed Hats 39c, 69c and 98c.

In black and all colors, every desirable shape, trimmings of every description at saving prices.

Taffeta Silk Waists.

Fourteen new distinct styles in black, sizes 32 to 44. A rich lustrous silk, beautifully made at 5.98. Another of a dependable quality with nine cords down the back, 20 down the front, dressy enough for any occasion, only 4 89. Another pretty style at 3.79, you would expect to pay other stores $5.

French Flannel Waists 2.49.

Various colors, French backs, four brass buttons down front, our price 2 49. Pretty Flannel Waists 1 39, 1.79 and 1.98. Stylish Brilliantine Waists 1 98 and 2 69. Flannelette Waists, checks and plaids 63, 79 and 89c.

Newest Dress Skirts.

All desirable material, made by men tailors, habit or saddle backs, lapped seams, percaline lined, velvet bound, marked to sell much under prevailing prices.

Homespuns, mostly new grays 2 98 and 3.98. Heavy Serges, black and navy 2.59 and 3 98. Heavy Serge, 5 rows stitching down side 4 98. Heavy Cheviots 3.98 and 4 98. Rich Brilliantines 3.39 and 4.98. Beauti-Camels Hair Plaid 5.69.

Lokal-Nachrichten aus der alten Heimath.

Preußen.

Provinz Brandenburg.

Berlin. Die hier stattgehabte internationale Motorwagen-Ausstellung wurde von insgesammt 99,086 Personen einschließlich der mit Dauerkarten versehenen besucht, also im Durchschnitt der 26 Tage, während welcher die Ausstellung geöffnet war, von 3811 Personen. Die Zahl der Aussteller betrug insgesammt 117.—Der im Juli d. J. mit 12,000 Mark durchgegangene Buchhalter einer hiesigen Ledergroßhandlung, Hugo Spielvogel, ist in Brüssel verhaftet worden. Ein großer Theil des geraubten Geldes wurde bei dem Defraudanten noch vorgefunden.—Die Wittwe Hedwig Jooß, eine Mäntelmacherin, wurde von dem Arbeiter Richard Troger ermordet und ihrer geringen Ersparnisse beraubt. Der Mörder ergriff die Flucht, beging jedoch bald darauf Selbstmord.—In dem Vorort Rummelsburg fand in einer Anilinfabrik eine Kesselexplosion statt, bei welcher die Arbeiter Freitag, Kretschmann, Koehn, Matzinsky und Tubartuch mehr oder weniger schwer verletzt wurden.—Die Stadtverordneten ersuchten den Magistrat, dafür zu sorgen, daß die Neuwahlen zu den städtischen Aemtern auf einen Sonntag verlegt würden, damit den Armen Arbeitsverlust erspart werde.

Seddin. Seit acht Jahren existirt in unserem Orte kein Schulhaus, trotzdem hier 130 Kinder unterrichtet werden müssen. Der Unterricht wird während des Sommers in der Kirche und im Winter in einer Tischlerwerkstatt abgehalten. Die Kinder, welche zu Ostern konfirmirt werden, haben während ihrer ganzen Schulzeit keinen Unterricht in einem Schulhause erhalten. Dem Lehrer ist eine Altentheilerwohnung als Dienstwohnung angewiesen.

Provinz Hannover.

Hannover. Hier fand die Einweihung der neuen thierärztlichen Hochschule statt.

Osnabrück. Der Bau der Teutoburger Waldeisenbahn schreitet rüstig vorwärts. Außer italienischen Arbeitern sind nun auch Holländer hinzugezogen worden.

Papenburg. Nach einer hier eingetroffenen Nachricht ist der hier heimathete Schooner „Gerhard" an der schwedischen Küste unweit Varberg gekentert. Das 1859 aus Holz erbaute Schiff war mit einer Holzladung nach Papenburg bestimmt. Die an Bord befindliche Besatzung, darunter der Kapitän Lüken und dessen Sohn, ein junger Matrose Namens Schmidt, ebenfalls von hier, und zwei Brüder aus Westrhauderfehn, sind dabei ertrunken.

Provinz Hessen-Nassau.

Kassel. Hier verschied der Provinzial-Steuer-Direktor a. D., Wirklicher Geheimer Oberfinanzrath Albert Schmidt, im Alter von 63 Jahren.

Cronberg. Die Villa Paul zu Schönberg ist in den Besitz der Kaiserin Friedrich übergegangen.

Eltville. Als neulich der Dachdeckermeister Christof Raschi auf dem Dache eines Hauses beschäftigt war, riß einer der Leiterhaken. Raschi stürzte herab und trug einen doppelten Schädelbruch davon, der seinen sofortigen Tod herbeiführte.

Fulda. Hier fand ein Aufsehen erregender Mord statt, indem ein 18jähriger Mensch, Namens Burkard, einen 19jährigen jungen Mann, Namens Levi, auf offener Straße ohne jede Veranlassung erstach.

Groß-Auheim. Dieser Tage wurde dem Streckenarbeiter Heine aus Hörstein bei Aschaffenburg im hiesigen Bahnhof ein Bein abgefahren. Heine wollte im Bahnhof während der Fahrt von einem Güterzug abspringen.

Hanau. Hier ist eine Typhusepidemie ausgebrochen. Zwei Häuser am Heumarkt mußten auf sanitätspolizeiliche Anordnung von den Bewohnern geräumt werden.

Provinz Pommern.

Stettin. Nachdem vor mehreren Monaten der ehemalige Direktor Thym von der National-Hypothekenkredit-Gesellschaft verhaftet worden ist, wurde jetzt auf Requisition der Staatsanwaltschaft der ehemalige zweite Direktor Uhsadel sowie der frühere Vorsitzende des Aufsichtsraths, Graf Arnim Schlagenthin, auf seinem Gute Nassenheide bei Stettin verhaftet.

Swinemünde. Als Dank und Anerkennung für das Abschleppen des vor einiger Zeit auf der Fahrt von Swinemünde nach Bremerhaven gestrandeten Lloyddampfers „Maria Theresia" durch das deutsche Panzerschiff „Aegir" hat die Gesellschaft Norddeutscher Lloyd für die Offiziersmesse des genannten Kriegsschiffes eine herrlich in Silber getriebene Bowle gestiftet. Das soeben fertiggestellte werthvolle Geschenk stellt sich als Kunstwerk ersten Ranges dar.

Provinz Posen.

Posen. Der Fiskus beansprucht das Besitzrecht an dem inländischen Nachlasse des vor einigen Monaten verstorbenen Majoratsherrn Grafen Racynski-Oberfitzko. Der Nachlaß beträgt mehrere Millionen Mark. Da sich ein angeblicher entfernter Verwandter um die Erbschaft bemüht, ist ein Prozeß zu erwarten. Geheimer Justizrath Orgler wurde zum Verwalter des Nachlasses bestellt.

A first-class storage warehouse—locked rooms, safe and cleanly—the very place you want to keep your goods! Low rates and our own moving vans.

SILK PETTICOATS.

The Latest Developments With Regard to Them.

The brightest and lightest shades of glace silk are employed for petticoats, and for trimming there are flounces and applications of costly lace and choux composed of innumerable loops of baby ribbon in silk, satin or velvet. The petticoat is, however, losing a great deal of its importance now that gowns are so clinging, for it is becoming more and more the custom to dispense with the petticoat altogether. Its place is taken by a deep flounce of silk which is sewed against the inside of the dress skirt at about the height of the knee. This sustains the flare of the foot of the gown, while it does not add to the bulk of the figure.

Boas consisting of large ruches of spangled tulle are a novelty. Scarfs of crape, gauze, net or liberty silk are, however, newer than boas and are worn by many elegant women. They give a charming finish to a light costume.

AUTUMN GOWN.

The cut shows a costume having a skirt of almond green satin cloth, finished around the foot by a puff of mousseline de soie of the same shade. The top of the skirt is fitted by means of fine stitched plaits. The bolero is of dark green velvet, covered with guipure de venise, the sleeves being of cloth like the skirt. The collar and revers are of white plaited silk. The chemisette of pink silk is plaited horizontally, and the belt of dark green velvet is fastened by an ornamental buckle. The accompanying hat of green felt is trimmed with black plumes and a jeweled ornament.

JUDIC CHOLLET.

PLAID CAPES.

Wraps of Golf Cloth For General Use.

Capes of plaid wool are seen in great variety, not merely of color, but of style. They almost all have a hood of one kind or another, a hood which is really practicable and may be drawn over the head in case of necessity. As for the decoration, that takes all sorts of odd forms, and, while the shape of capes is, generally speaking, the same—that is, they all cling about the shoulders and flare more or less toward the edge—the finish differs greatly in different garments. One will have a circular flounce around the curved edge, another will have revers

CLOTH JACKET.

with fringe and large buttons, while a third, newer than the others, will be cut so that it slopes to a shawl point at the back, while around the shoulders are other fringed points sewed on. The plaids employed are often very bright and are unlined, the reverse, which is plain, serving for trimming.

The illustration given today shows a coat of gray satin cloth. It has a plain basque of medium length, with rounded fronts, and is bordered by a band of cream satin, above which is a line of black embroidery. The wide collar and the high, flaring collar are of dark gray velvet, bordered with cream satin. The sleeves have fine embroidery at the wrists and a ruche of white satin. The chemisette and cravat are of plaited white mousseline de soie.

JUDIC CHOLLET.

Fixing Up the Room.

In small rooms it is a mistake to have cupboards in the little recesses so often found on each side of the fireplace. If shelves are really wanted there, have them by all means, but cover them with a pretty curtain. This should be hung from a pole inside the recess, so as to take as little space as possible from the room. The effect of a pretty piece of drapery will be decidedly pleasant to the eye, and on cleaning days the contents of the shelves may be protected by having a cotton dusting sheet fastened over them, so that even them the cupboard doors will not be missed. Of course on these special occasions the curtain should be taken down and thoroughly shaken.—Home Notes.

STRAWBERRY BEAR.

JACK GILPATRICK NOW FLAVORING A BEAR WITH VANILLA, ALSO.

A Maine Man Who Makes a Modest Fortune Each Year (In His Mind) by Preparing Bears for the Metropolitan Markets.

As soon as a Maine man finds out that he can produce something which city people want and are willing to pay for, he becomes so devoted to his specialty that he overdoes the business. For two years the New York Sun has made a casual mention of Jack Gilpatrick's efforts to add checkerberry and strawberry flavoring to bear meat by feeding the live bears on an exclusive diet of berries. In 1897 he sold a checkerberry bear for $65, which elated him so that he resolved to form a checkerberry bear trust to control the world's markets. Last year, checkerberry flavoring not being in demand, he modified his plan, selling one pure strawberry bear for $40 and another that was about half-and-half, for $25. This year he has made a specialty of plain strawberry bears, and is now raising them under contract for delivery in Boston.

As few strawberries get ripe in Maine before June 20, Gilpatrick fretted because the season was cold and backward, giving him only a short time to put on the finishing touches. One day when he was standing outside his log cabin feeding his bears on strawberry jam and wondering if he could afford such luxuries George Coleman, who drives a soft drinks cart from Bangor to supply the country soda fountains, hauled up in his yard and asked for dinner. Gilpatrick doesn't run a hotel, but when he looked at the long, flat cart and saw the iridescent array of tin-capped bottles he resolved to lay himself out and provide a dinner that would compel Coleman to call again. He was nearly an hour in cooking and dishing up the courses. While Coleman was eating and praising the food Gilpatrick slipped out the back way and calling his pet bears to the rear end of the cart gave them all the strawberry flavoring they could drink. On his way back the next day Coleman stopped again for dinner and complained about the boys of Amherst and Aurora, who, he said, had been stealing his soft drinks.

"If they'd take ginger ale or birch beer," said he, "I wouldn't have felt so bad, but they had to go and guzzle down my best strawberry extract, which is worth 30 cents a bottle."

While Coleman was telling of his losses the three bears came from the woods lolling out their tongues and making frantic efforts to get at the cart. As soon as the two men went into the camp the bears helped themselves to whatever they liked on the cart, uncapping the bottles with their teeth and drinking a dozen bottles of strawberry and vanilla flavoring. They opened several bottles of beer and ginger ale, but did not seem to relish either.

The cart made one or two trips two days later, when the bears levied on it for toll both ways. Coleman continued to complain about the bad boys, threatening to bring a detective from Bangor. Gilpatrick was so sorry over Coleman's losses that he furnished two dinners without charge, whereupon Coleman, not to be outdone in generosity, presented to the hunter six bottles of flavoring extracts, all of which went to the bears as soon as the cart was out of sight.

Gilpatrick quit walking on the side of the hill to see how the green strawberries were getting along. Whatever time he had to spare from his bears he devoted to writing postal cards to his patrons. One card which he had lately mailed reads as follows:

Dear Sir: One b'ar is ripe enuf to pick and smells jest like a strawberry shortcake, being seasoned clean thro.

P. S.—Do you want ennything of a vernilla b'ar? I hev one that has got more vernilla inter him than a soda fountain. You can hev him this week for 45 dolls. The price is going up rite erlong. Ans. JACK.

Curious Features in Life.

Bishop Moret and four French priests were passengers on a recent steamship from the Orient. Passing through the thousand perils of a missionary's life in the wild hill lands of the interior of China, they were destined to spend the most thrilling moments of their existence near the little hamlet of Banff, on the line of the Canadian Pacific railway.

Towering over the town is a huge glacier, the wonder and admiration of world-trotters. Recently the railway company has imported Alpine guides for the safety of venturesome tourists who insist upon scaling the slippery ascent. It is courting death to make the trip unaccompanied by guides, but Bishop Moret and his companions determined to go and go alone. They started in the early morning, refusing the offices of the Alpine experts.

Not taking their seats at the dining table, the manager of the Banff Hotel became alarmed, and at 8 o'clock the Alpine guides were sent to search for them. All night they searched the hundreds of crevices by the light of torches and returned next morning for food, continuing the search all the following day. At nightfall shouting and cries were heard, mingled with strange chants. As they drew nearer the guides could hear the prayers of the priests and their Bishop exhorting them to place their trust in God.

Not until the guides got directly over the half-crazed Frenchmen could they make their voices reach them, but they were found at last huddled together in a crevice some thirty feet deep with perpendicular walls and glare ice on both sides.

The Unlucky Opal.

"We are so happy!" she whispered.

"Yes, my darling!" he answers.

A sigh flutters her gentle bosom.

"Do you know," she falters, "our great happiness frightens me? It almost makes me think the opal in my engagement ring is paste!"

In the clearest, brightest day, the air holds the material of clouds, which at the first chill breath gather and overcast the sun.—Detroit Journal.

"Long before I met you I had heard of your family," said the Count.

"Yes," replied the beautiful girl coldly, "I believe papa is quoted in Bradstreet's."—Chicago Post.

THE NEW GAS LIGHT

USES OF ACETYLENE AND HOW IT WAS DISCOVERED.

Insurance Underwriters Will Not Permit Its Use Under Pressure. Its Cost and How It is Made—How It May be Used.

It was discovered by a German chemist in 1861, that if a mixture of lime and carbon were heated to an enormous temperature the two fused together and produced what is now known as calcium carbide. Nothing further of note was accomplished with this new substance until 1894, when Moissan invented an electric furnace and found that by placing carbon and lime directly in the electric arc an enormously high temperature was available at comparatively little expense, and the resulting calcium carbide possessed the property of generating a new gas very rapidly when brought into contact with water. Moissan did not pursue his experiments much further because the proper and economical construction of electric furnaces was then very little known.

As usual in such cases, the invention of Moissan was perfected in America. Thomas L. Wilson, of St. Catherine's, Ont., was a poor boy, assisting his mother in the management of a boarding house. When twenty-nine years old he crossed the border to the United States, where his talent was soon recognized, and soon afterward he built a very large electric furnace for the purpose of experimenting in the production of alloys of different metals.

While doing so he found that the spattering of the molten metal in the furnace frequently produced a conducting path between the carbon of his arc lamp, so much so as to seriously interfere with and sometimes extinguish the arc. To overcome this he placed in the furnace a mixture of coke and lime, which he found to his astonishment immediately combined under the great heat and produced beautiful, clear calcium carbide at a comparatively low cost.

Capital was at once interested in Mr. Wilson's discovery, and it was not long before companies were organized in every State to control the Wilson patents, but it was also only a short time when it was discovered that acetylene gas, under certain circumstances, was of a highly explosive nature.

Contrary to the advice of Mr. Wilson, many of the companies undertook to place the gas upon the market in a liquid form. In order to do this it was compressed until it became liquid, almost in the same manner as liquid air is produced. It was found, however, that during compression the explosive qualities of the gas increased rapidly until when, in a liquid state, it was extremely dangerous.

In using the gas in this manner many disastrous explosions occurred, and the public quickly denounced the gas, but further experiments soon proved that if the pure gas were used without being compressed there was only one way of causing an explosion, and that was by exploding in the gas tank a small quantity of fulminate of mercury or some other violent explosive. It was also found quite possible to burn the electric arc within a tank of pure gas with perfect safety.

It was decided that the gas would have to be used without being compressed, and this action was quickly indorsed by insurance underwriters, who will not now permit the use of acetylene gas under pressure.

Calcium carbide was first sold at a very high price on account of the fact that it required the use of about five hundred horse power for twenty-four hours to produce a single ton, but there are now works at Niagara Falls where great quantities are turned out daily by the use of the inexpensive water power there. The use of the carbide, however, has become so general that these works will soon be doubled, and even then it is expected that it will be almost impossible to supply the rapidly growing demand.

The flame of acetylene is entirely different from ordinary gas, and is much brighter and richer than the incandescent lamp. It is a solid flame of twenty-five candle power, about one inch in height and one inch in width, and is controlled by a specially designed burner, which only consumes about one-quarter foot of gas an hour.

At first glance it would seem from this that the new light is very much less expensive than the old, but while the acetylene burner consumes such a very small quantity of gas the cost of the carbide is still so high that it is found that acetylene is very little cheaper than ordinary gas.

In order to light one's home with acetylene it is only necessary to replace the old burners with the new style, disconnect the house pipes from the meter and connect them to a small gas generator. This generator is very much like an ordinary city gas holder, and consists of a tank of water, in which is inverted another tank, the gas as it is being generated being led into the holder between the water and the inverted tank, so that this tank will rise as the gas is generated until a sufficient amount is admitted to fill the holder.

The rising of the tank then automatically cuts off the supply of water from the carbide, and thus prevents the gas from generating until such time as more is needed, when the tank will descend. In doing so it opens a valve which allows the water to again come in contact with the carbide and again generate gas.

Vacation Schools.

The vacation schools are likely to become a permanent feature of the system of city educational effort. In New York last summer over 8,000 children were in daily attendance. The girls were taught cooking, nursing, housekeeping and sewing the boys toymaking, carving, carpentry and other light mechanical work. Sketching classes were formed, and out of town trips made, to the great delight and instruction of the youngsters. In Chicago the schools were equally successful, $6,000 having been spent in their maintenance.

Bicycle Music Box.

A musical box for bicycles is manufactured by a firm in Hamburg. It is a neat round box, and is fixed just under the handle bar and connected with the front wheel in such a way that the revolution of that wheel plays the music.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Oct. 22—Comment by Rev. S. H. Doyle.

Topic.—An old time missionary.—Jonah iii, 1-10. (A missionary meeting.)

Jonah was the son of Amittai and a native of Gath-hepher. He prophesied in the reign of Jereboam II. God sent him on a special mission to Nineveh. Jonah disliked the mission and tried to escape to Tarshish, but God, by His providence, brought him to a realization of his mistake. He commanded him a second time to go on the mission to Nineveh, and that time he obeyed. The story of his going is found in the topical reference.

Jonah preaching in Nineveh was a typical foreign missionary.

1. Jonah was sent from God. The Lord said unto him, "Arise, go to Nineveh, that great city, and preach unto it." Missionaries must be sent of God. When Paul says in Rom. x, 15, "How shall they preach except they be sent?" he refers not to man sending forth missionaries, but to God's sending forth missionaries. One who aspires to mission work should feel called of God to the work, and all who are interested in missions should earnestly pray to God to send forth laborers into His vineyards.

2. Jonah had a message from God and proclaimed it to the people. The Lord said, "Preach unto it the preaching that I bid thee." And Jonah delivered the message of God. Fearlessly, earnestly, he announced to the people the threatened destruction of the city, crying upon the streets, "Yet 40 days and Nineveh shall be overthrown." The missionary, whether at home or abroad, must get his message from God, and boldly must he proclaim the truth, and the whole truth, not only holding out overtures of mercy to all who will believe and repent, but warning men of their sure destruction if they refuse to repent and to accept the mercy of God.

3. God blessed his messenger and his message faithfully delivered, and success crowned his efforts. The people of Nineveh believed God, repented of their sins, and God staid off the threatened destruction of the city. But Jonah, for political reasons, was displeased at his own success, an anomaly in this respect. God will still bless the faithful efforts of His servants to win the world for Him. The task seems tremendously difficult, the work impossible of completion, and yet nothing is impossible with God. With one missionary God could bring the great, wicked Nineveh to its knees, and God is just as powerful and just as willing to bless His word today as in the days of Jonah.

Jonah's fidelity and success should encourage all who are interested in mission work. It shows that it is not impossible to win the world for God in Jesus Christ.

Bible Readings.—Ex. iii, 1-10; Isa. vi, 1-10; lii, 7; Nah. i, 15; Math. ix, 35-38; xxviii, 18-20; Mark iii, 14-19; Luke x, 1-12; John i, 38-51; iv, 25-30; Acts vi, 1-7; viii, 26-40; xiii, 1-3; xvi, 8-12; Rom. x, 14, 15.

The Children In Church.

"Here am I and the children thou hast given me." That is well. That is as it should be—the children at church and in the family pew. They understand more than you suppose, and they are solemnly impressed by the occasion, even if they cannot understand the sermon. "But they will get so tired going to school and then to Sunday school." Not so very tired as you suppose. They rise up and change posture during singing. The service is only about an hour and a quarter long. Then comes a recess to go into Sunday school, then only about an hour there, and no such hard study as in school. Really, do you see? Any half day at school is more severe than a whole service at church, including the Sunday school. Besides, if they cannot attend both, the Sunday school can be omitted. Our very best Sunday school workers will tell you that the church is worth more to the children than the school. If he can have but the one, give him the church. But do not be whimsical. He can have both. It will not hurt him. Bring the children.—Central Church.

Fearless Speech.

It is pleasant to say smooth things in this easy going, time serving age, but it may not be the wisest. A tendency to point out the good things in the characters and lives of wicked men and worldly Christians and pass over their sins and defects is one cause of the failure of the church to keep its hold on the masses. The Bible hides no sin or fault of the servants of God. It is admired because of its candor and fidelity to the truth. Those ministers of the gospel and religious teachers who talk out straight to their people, hewing to the line, speaking the truth in love, have the largest hearing and the most vigorous membership. God pity a ministry that cries "Peace, peace!" when there is no peace. A loving, fearless, direct appeal to sinful men, laying open their sins and showing them a better way, is the kind of preaching and teaching the times demand.—Religious Telescope.

Over Present Work.

Enthusiasm over present work, not over future accomplishments, means the largest practical results day by day in the Lord's service. Earnestness is not a quality for special performances, but for daily use. It covers life as it is and as it comes according to divine appointment.—Presbyterian.

A Light Attracting Others.

If I in my own person and daily walk quietly resist heaviness of custom, coldness of hope, timidity of faith, then without wishing, contriving or even knowing it I am a light silently drawing as many as have vision and are fit to walk in the same path.—John Morley in "Essay on Emerson."

The Day of Settlement.

You can, of course, do as you please, but you will have to settle the matter with your God some day.—Lutheran.

EPWORTH LEAGUE.

Topic For the Week Beginning Oct. 22, "An Old Time Missionary." Text, Jonah iii, 1-10.

"Let them turn every one from their evil way. Who can tell if God will turn and repent, and turn away from His fierce anger, that we perish not?"

A populous and wicked city, an impassioned preacher and a righteous God are three factors which have more than once in history been found in close association. The relations of each to the other two may be varied with great changes in the results.

The unwavering note of all Hebrew prophecy from the earliest time has been the rulership of a righteous God in the affairs of men and the disastrous effects of wickedness. Clearer and yet more clear has it sounded from Noah to Moses, from Samuel to Malachi.

Not Israel alone, but all nations, all individuals, are bound by the eternal law of right. Whoever disobeys must suffer. The incorrigible must perish.

In the midst of the most luxurious and licentious city of the times there suddenly appears a strange man of rude speech and with a most startling cry. He offers no goods for sale, he seeks no friendships, but walks the street with solemn tread, robed as a prophet of the Hebrews, and cries continually, "Forty days and Nineveh shall be destroyed." To its profoundest depths the whole population is stirred. Whence he came no one knows. On what side the danger impends none can learn. He offers no explanation. He answers no inquiries. Is it from the clouds above, from the earth or the river? Who can tell? What armed enemy has arisen, and what force can he muster? The very uncertainty adds to the terror of the message. What is the escape? From the king to the slave, every one seeks to avert the disaster. Evil and luxury are laid aside. Acts of devotion and piety are practiced. Vice is replaced by virtue. All cry to God to avert the blow.

The people have found the clew of safety. God, who was angry with the people for their evil and determined to punish their wrongdoing, has reached the end He desires when they turn from their wickedness and violence and do right. The lesson is for all people and all ages. Whoever does the evil shall suffer for it. Whoever turns and seeks God and righteousness shall be prospered and blessed.

Constancy Better Than Curiosity.

Peter asked Jesus about John, "Lord, what shall this man do?" The reply gave no satisfaction to Peter's inquisitiveness. It was as if Jesus had said: "That is none of your business. Enough for each man to attend to his own affairs."

The need for every one is constancy in doing his own appointed work rather than curious prying into God's dealings with others.

Many complain of the hardness of their own lots, not so much because the load laid on them is excessive as because they see others whose burdens they fancy are lighter and tasks more agreeable. No amount of envy ever was able to make an interchange of lot with others. Fretting only increases the irritation. After all, suppose things are not all evened up; make the best of things as you find them.

Meditation.

This is one of the most difficult of Christian duties, but one of the most important. We can more easily read a dozen books than think properly and meditate upon the contents of one. But our inner thought is the matter of moment and not the recreation which came in reading. We may become intellectually dissipated and incapable of proper mental digestion unless we exercise great care. Read less and that of the best and think carefully of what is read is a good rule. Mental dyspepsia is one of the most prevalent complaints of the time. We devour much and digest little and lose power of enjoying the really good by pains of indigestion, loss of appetite and vitiated taste.

Not the number of chapters of Bible read, but the nourishment of soul derived, is the important question. Read some. Think much.

With Cords.

It is the strength of the weakest lines of the net that is the measure of its worth. If a few are old and worn, there is danger of a break and loss. Fix up the lines of your private devotions. Read the Bible, think about it, pray and worship God in quiet.

Fix up the cords of family prayer, the lines of church attendance. How is the string to the purse adjusted? Fix that all right for God. How about personal testimony? Are you talking for Christ wherever you can? What are your habits? Any little vices, common things you think are not very bad, but a little bad? Got any secret corners with a little rubbish, a little darkness? Better fix all up. Mend the old nets, clear the dark corners of the soul. It is easier to live a whole souled Christian life than a half hearted one. It pays better too.

Not Worthy, but Willing.

Not worthy, O Lord, of Thy pardon,
Not fit to partake of Thy grace;
Not worthy, my Saviour, but longing
To live in the light of Thy face.
Not worthy to cling to the promise
Of cleansing and healing divine,
But eager to come at Thy bidding
And claim all Thou givest as mine.

It is not because I have asked Thee,
Though Thou hast encouraged my prayer,
But Thou, who dost love me, hast offered
My sins and my sorrows to bear.
God offered, and I have accepted
The cleansing, the joy and the light,
And into my life there is flowing
A wonderful beauty and might.

Still higher, as onward I journey,
My will rises toward Thine own,
For God has accepted a sinner,
And I have accepted a throne.
There never was soul more unworthy
To meet with compassion like Thine;
That I should be heir to a kingdom,
And God, the eternal, be mine.

—Jessie McGregor.

Central R. R. of New Jersey

Anthracite Coal Used Exclusively, Insuring Cleanliness and Comfort.

Stations in New York, foot of Liberty, and South Ferry Whitehall streets.

TIME TABLE IN EFFECT OCT. 10th, 1899.

For New York 2 14, 3 37, 5 37, 6 29, 6 59, 7 26, 7 29, 7 55, 8 00, 8 13, 8 30, 8 37, 8 48, 9 16, 9 43, 9 58, 10 37, 11 10 a. m.; 12 09, 12 44, 1 35, 2 12, 2 29, 3 12, 3 46, 4 17, 4 55, 5 37, 5 54, 6 21, 6 30, 6 45, 7 06, 7 39, 9 30, 10 17, 11 28, p. m. Sunday 2 14, 3 37, 5 25, 7 19, 8 01, 8 52, 10 08, 11 10 a. m.; 12 00 m, 12 58, 1 45, 3 17, 3 30, 5 41, 6 52, 8 13, 9 32, 9 15, 10 22 p. m.

For Newark at 5 37, 6 29, 6 59, 7 26, 7 47, 8 12, 8 27, 9 43, 9 58, 10 37, 11 10 a. m.; 12 09, 12 44, 2 12, 2 29, 3 12, 3 46, 4 17, 4 55, 5 37, 6 21, 6 45, 7 39, 9 30, 11 28 p. m. Sunday 7 19, 8 52, 10 08, 11 10 a. m.; 12 58, 1 45, 3 30, 5 41, 6 52, 8 13, 8 32, 10 22 p. m.

For Somerville at 5 18, 7 12, 8 19, 9 40, 9 54, 11 00, 11 59 a. m.; 1 01, 2 08, 2 20, 3 32, 4 35, 5 03, 5 27, 5 34, 6 04, 6 09, 6 19, 6 38, 7 12, 7 34, 8 21, 9 37, 10 26, 11 29 p. m.; 12 44 night. Sundays 5 45, 8 06, 9 55, 10 44 a. m.; 2 03, 3 40, 5 00, 6 35, 8 30, 10 15, 11 14 p. m.

For Easton at 5 18, 8 19, 9 54 a. m.; 1 01, 2 20, 5 27, 6 38, 8 21 p. m. Sunday at 5 45, 8 06 a. m.; 2 03, 6 35 p. m.

For Lake Hopatcong at 9 54 a. m.; 5.27 p. m.

WESTWARD CONNECTIONS.

5 18 a. m.—For Flemington, Easton, Allentown, Reading, Harrisburg, Pottsville, Mauch Chunk, Williamsport, Tamaqua, Upper Lehigh, Wilkesbarre and Scranton.

7 12 a. m.—For stations to High Bridge, connecting for stations on High Bridge Branch except Chester.

8 19 a. m.—For Flemington, D. L. & W. R. R. Easton, Bangor and Mauch Chunk.

9 54 a. m.—For stations on High Bridge Branch, Flemington, D. L. & W. R. R. Easton, Allentown, Reading, Harrisburg, Mauch Chunk, Williamsport, Tamaqua, Pottsville, Shamokin, Nanticoke and Upper Lehigh, Wilkesbarre, Scranton, etc.

1 01 p. m.—Way for Easton, connecting at Junction for stations on D. L. & W. R. R.

2 20 p. m.—For Flemington, Easton, Bethlehem, Allentown, Mauch Chunk, Tamauqua, Sunbury, Williamsport, Wilkesbarre and Scranton.

5 27 p. m.—For Flemington and Easton, Bethlehem, Bangor, Allentown, Mauch Chunk, Reading, Harrisburg, connecting at High Bridge for stations on High Bridge Branch.

6 19 p. m.—For Flemington.

6 38 p. m.—For Easton and at Junction for D. L. & W. R. R.

8 21 p. m.—For Easton.

5 45 a. m. Sundays—For Easton, Bethlehem, Allentown, Mauch Chunk, Tamaqua, Sunbury, Lewisburg, Williamsport, Wilkesbarre and Scranton.

8 06 a. m. Sundays for Flemington and Easton.

2 03 p. m. Sundays—For German Valley, Flanders, Kenvil, Easton, Allentown, Mauch Chunk, Tamaqua, Sunbury, Lewisburg, Williamsport, Reading and Harrisburg.

5 09 p. m. Sundays—For Flemington.

6 35 p. m. Sundays—For Easton, Bethlehem, Allentown, Mauch Chunk, Reading, Harrisburg, etc.

FOR LONG BRANCH, OCEAN GROVE, ETC.

Leave Plainfield at 3 37, 8 13, 10 37 a. m.; 3 46, 4 17, 6 21 p. m.; Sundays, except Ocean Grove, 8 52 a. m.; 3 30 p. m.

For Perth Amboy, 3 37, 5 37, 8 13, 8 37, 9 58, 10 37 a. m.; 1 35, 3 46, 4 17, 5 37, 6 21, 6 30, 11 28 p. m. Sundays 8 52, a. m.; 3 30 p. m.

For Atlantic City, 3 37 a. m.; 1 35 p. m.

For Freehold, 3 37, 8 13, 10 37 a. m.; 1 35, 4 17, 5 37 p. m.

For Lakewood, Toms River and Barnegat, 3 37, 8 13 a. m.; 1 35, 4 17 p. m. Sundays 8 52 a. m.

ROYAL BLUE LINE.

Leave Plainfield for Philadelphia, 5 17, 8 14, 8 44, 9 46, 10 44 a. m.; 2 16, 4 14, 5 09, *5 34, *6 38, 8 21 *9 37 p. m.; 1 17 night. Sundays, 5 17, 5 45, 9 55, 10 44 a. m.; 2 16, 4 55, *5 09, *6 35, 9 47 p. m.; 1 17 night.

For Trenton, 5 17, 7 12, 8 14, 9 46 a. m.; 1 01, 2 16, 4 14, *5 34, *6 38, 8 21, *9 37 p. m.; 1 17 night. Sundays, 5 17, 5 45, 9 55, 10 44 a. m.; 2 16, 4 55, *5 09, *6 35, 9 47 p. m.; 1 17 night.

For Baltimore and Washington at 5 17, 8 44, 10 44 a. m.; 2 16, *5 34, *6 38 p. m.; 1 17 night. Sundays, 5 17, 10 44 a. m.; 2 16, *5 09, *6 35 p. m. 1 17 night.

For Buffalo, Chicago and all points West, week-days at 9 54 a. m.; 1 01, 6 38 p. m.

(Plainfield passengers by trains marked * change cars at Bound Brook.

Through tickets to all points at lowest rates may be had on application in advance to the ticket agent at the station.

HOW SHE MET KIPLING

A Chicago Girl Tells How She Did Some Work For Him in London.

LUNCHEON AT HIS HOME

Employed as a Stenographer She Is Treated as a Guest and Tells All About It.

Miss Alice R. Beardsley Describes Her Visit to the Kipling Cottage at Rottendean — She Also Tells What Left a Bad Taste in Her Mouth.

Miss Alice R. Beardsley, of Kankakee, Ill., has established a typewriting office in London—an establishment like the one Harold Frederic describes in "Glora Mundi." The enterprise has been a success from the start, and Miss Beardsley now employs ten girls. In a recent letter to some friends she tells how she did some work for Rudyard Kipling, as follows:

"I executed a literary trick last week, acquired through association with novelists, when I wrote that I was going to Kipling and then left you in suspense as to whether or no I had recovered from the honor. Suffice is to say I have had a week so full of work and pleasure that I have scarcely had time to breath a natural breath. I got up at 6:30 o'clock one morning and took the 7:30 o'clock train to Brighton. It was an hour and a half ride through a lovely country, and when I reached Brighton there was the sea. The city itself is quite high above the sea, and the drive from there out to Rottendean lies all along the cliffs, with the sea always at your right, and to the left rolling poppies. The driver of the carriage I had engaged began to talk the minute we left the station—said he knew I was an American, and inquired where I came from. When I told him I had lived in Chicago he said he used to drive horses in Chicago for a real estate man, and became quite chummy. Presently he remarked with some pride that Rudyard Kipling lived at Rottendean. I replied that I knew it, and that was where I was going, and immediately he addressed me with more reverence.

"It is more than four miles from Brighton to Rottendean, and when we reached the sleepy little village by the sea it was about 11 o'clock. The Kipling place, 'The Elms,' is very modest—an old place rejuvenated, I imagine, although not rejuvenated enough to hurt it, and a yard full of great elms with a most beauteous rose garden in the back. The gate in the wall which surrounds the yard has a peep hole in it and the man servant told me later on that curious tourists often glued their eyes to that hole in the hopes of seeing Mr. Kipling. The drawing-room I was shown into was a pleasant apartment. The floor was of boards painted a light tan, with good rugs, several beautiful pieces of old furniture and a tiny writing desk.

"Mrs. Kipling soon came in, a pleasant, smart-appearing woman, with a delightfully low voice. She dictated letters for almost an hour. Then Mr. Kipling came down. He seemed a trifle embarrassed, because, I suppose, in mortal terror of reporters. He dictated like lightning for about fifteen minutes, then stretched his legs, leaned back with a sigh of comfort and said to his wife, 'I say, Carrie, isn't this fine?' Then resumed his dictation.

"Mr. Kipling does not as a rule dictate his work, and I imagine that Mrs. Kipling attends to most of his correspondence, but as he had such a mass of correspondence he had to have some one to help him out. After he had finished he went out, and I thought that I had seen the last of him, but Mrs. Kipling said I had better stay to dinner, and then I should not have to hurry to catch the 1:30 o'clock train. This I did, and while waiting I wandered about the garden, quite forgetting that right across the road was the old church, with its graveyard, where Burne Jones and William Black are buried, or I should have gone over there instead. While I was among the roses Kipling came out, took out his knife, cut off three immense roses and handed them to me, with, 'Would you care for these?' When I took them he returned to the house.

"Then we had luncheon, Mr. and Mrs. Doubleday, of the Doubleday and McClure Company, Mr. Kipling's publishers in America were there, and such nice, really American people as they were. It was a very jolly lunch. Messrs. Kipling and Doubleday were as funny as could be, and said so many bright things which I hoped to remember, but which have gone from me. Anyway, it was all so pleasant that I felt I really ought not to charge anything for my services. After lunch the nursery governess, the two little Kiplings and the maid drove me to Brighton. Even the driver and the maid were nicer than common, and the children were perfect dears, so healthy and happy. It was a dreadful thing, their losing their oldest little girl, Josephine, as I have heard she was the brightest of the three.

"One morning a funny little German woman came in and asked if I would go to her sister for dictation. She was a delegate from Germany to the International Congress of Women, and wanted to dictate her speech for that night. I went over to St. Ermyn's mansions, where she was stopping, and found a short-haired, tea-gowned little woman whose English was somewhat peculiar. She was very nervous and fidgety, and took four hours for work that should have been accomplished in half an hour. When lunch time came she had lunch sent up to the sitting room and left me working in the bedroom while she refreshed herself. After she was through she called me in, and there was such a nice lunch but of course stone cold, and she had even poured my tea when she had poured her own, and there it was, rank and cold. I did think it was such a horrid way for a woman who was supposed to be interested in women to treat another. Yet I think she meant to be kind; her only trouble was she couldn't forget I was her servant for the time being.

It amused me in spite of my mad, for I thought it rather a joke on myself. As the next day was my Kipling day, when I was treated as if I were an honored guest, the bad taste soon left my mouth.

"I have since done other work for Frau Sedenke, and she always wastes my time, but everything is grist that comes to my mill, so I don't mind. Then she asked my advice as to what she should wear at the meeting, and that salved my injured vanity."

THE BIG BASS.

And Tom Fitz's Story to the Kentucky Campaigners.

There is a legend to the effect that Hon. Thomas Y. Fitzpatrick, known particularly to all the "pennyrile" as "Tom Fitz," made his first canvass for election to the Congress of the United States on foot. Tom has never denied it. On the other hand, he has never affirmed it. The closest he ever came to either affirming or denying it was when he said that a fellow could stop and go fishing a good deal more conveniently when he was afoot than when he was in a wagon or even horseback This, of course, is merely an argument in favor of traveling afoot; it does not bear directly upon the point of making a congressional canvass afoot. However, if it is true that Congressman Fitzpatrick made his first canvass afoot, it is certain that is the only way to make a canvass in the Kentucky mountains. If ever there was a Congressman who had a cinch on his constituency, Tom Fitz is that Congressman. His name is an open sesame from the head of Beaver to the mouth of Sandy.

It was Tom Fitz who escorted the Goebel party through the principal parts of their mountain tour. He insisted that he had driven all over the road before, and he proceeded to prove it by driving over them again in advance of the party. Most of the upgrades were like the front steps of the Capital Hotel at Frankfort, and most of the down grades were like the tail-end of straw rick, but that did'nt matter to Tom Fitz. As all the members of the party are all alive and unhurt there

("He ketched sight o' me.")

is nothing more to say of the matter, except that most of them don't believe the story of the big bass which Tom Fitz told at the mouth of Salt Lick while the party were waiting until the wrecked wagon could be put into condition to be wrecked once more.

"This is a true fish story," said Tom Fitz. 'The man who told it to me wouldn't deviate a hair's breadth from the truth if his life depended on it, and this is the way he told it to me: 'He was th' fitinest fish I ever seen,' said he. Then he went on and told me how he played him and fought with him for three-quarters of an hour. After this incident of the struggle he said, 'He was th' fitinest fish I ever seen!' He said that the big bass finally got so mad that he jumped clear of the water at least six feet. 'He shook hisself a-trying to shake that hook out o' his mouth,' said he 'until his scales rattled like a trace chain. Then he ketched sight o' me, and he swore at me three times loud enough fur you to hear it 100 yards. I was so flustered that I dropped the pole an' he got away. He was the fitinest fish I ever seen.'"

LEFT BY FRANKLIN.

Bequest Which Boston Will Spend in Building a Public Hall.

The Franklin fund, which now amounts to about $400,000, and which represents, with interest, the result of a bequest of £1,000 which was left to the city of Boston by Benjamin Franklin in 1791, is to be expended. The full vote of the Aldermen is needed as yet, but a plan has been broached and accepted by the subcommittee to use one half of the sum for the erection of a public building which shall have a hall to be used as a public forum. The other half of the fund is to be spent for the extension of Mayor Quincy's bath and gymnasium schemes.

The public building is to be known as the Franklin Building, and it will be built in the south end. It is planned to have various meeting rooms in it, and to carry on courses of lectures on trade subjects. The original idea of the fund as left by Dr. Franklin was for the erection of a trade school. When this proposition was advanced by the committee two years ago all the labor bodies protested, and the Aldermen were forced to retreat, having gone so far as to secure a plot of land for the building. The trades union men objected to boys receiving instruction at trades unless under their direct tuition, as apprentices.—Exchange.

Used His Brains.

The Baltimore and Ohio Railroad Company a few days ago sent a brakeman, as a gift, a check for $50, "for using his brains," as one of the officials expressed it. A freight train while coming down the grade between Cranberry Summit and Rowlesburg stopped very suddenly, making a horrible racket. The brakeman, who was on the front of the train, knew something was wrong, and, realizing that the westbound Chicago express No. 7 was about to pass, without investigating the trouble he rushed ahead and flagged No. 7. Had he gone back to investigate it would have been too late and No. 7 would have dashed into four or five derailed cars and tumbled over into the river. For his good judgment the company made him a present of $50, and has posted a bulletin so that those "who run may read."

Soldiers by experience taught
Learn the art of packing,
Luxuries receive no thought;
But, whate'er is lacking,
Soap is there. The veteran shows
Care in its selection.
Ivory Soap is best for clothes;
For the bath — perfection.
Then — it floats; and so he chooses
Ivory, as the soap he uses.

CLEARED $140 PROFIT.

Successful Birthday Tea at Mrs. VanBuren's in Aid of the Woman's Exchange.

A delightful affair of yesterday afternoon was a birthday tea given at the home of Mrs. D. T. VanBuren, 810 Central avenue, under the auspices of the board of managers of the Plainfield Exchange for Woman's Work. The affair was given for the benefit of the exchange. The house was prettily decorated with autumn leaves, palms and potted plants.

The attendance was very large and those in charge are sure that $140 will be realized for the exchange. Those who presided in the dining room were members of the auxiliary board. Mrs. Edward VanBuren was in charge, assisted by Mrs. Daniel Ginna, Mr. J.E. Erickson, Mrs. J. W. Bartindale, Mrs. Alfred Streuli, Mrs. Wm. Stillman and Mrs. Wm. Albertson. The above were assisted by a number of young men, who acted as waitresses.

Dewey's Visit to Princeton.

(Special to The Daily Press.)

Princeton, Oct. 20—President Patton has announced that Whitelaw Reid, the eminent New York editor, will make the principal address on Commemoration Day, the 153d anniversary of the University, October 21st. Many other eminent men will be present, but Admiral Dewey cannot come because he has an engagement for that day. The Admiral will come later, however, and receive publicly the degree of Doctor of Laws, which was conferred upon him while he was at Manila.

—Fred. H. Firstbrook, grocer, 312 Liberty street, near Fourth street, has a special sale for today and tomorrow. He just received a carload of potatoes. See his special price in his advertisement in today's paper.

Corporation Notice.

Notice is hereby given that the following Ordinance has been introduced before the Common Council, read the second time and ordered engrossed preparatory to its third reading, and that it is the intention of the Council to adopt the same.

J. T. MacMURRAY, City Clerk.

Plainfield, N. J., Oct. 19, 1899.

AN ORDINANCE

locating the tracks of the Southeasterly extension of the Plainfield Street Railway Company, and authorizing and empowering the construction and operation and maintenance of the same, and granting permission for said Company to use electricity as the propelling power of its cars, and prescribing the terms and conditions upon which the said location of the tracks and permission are granted.

WHEREAS, The Plainfield Street Railway Company, a street railway corporation organized under the provisions of the laws of the State of New Jersey, and operating a street railway in the City of Plainfield, did present their petition or application to the Mayor and Common Council of the City of Plainfield, New Jersey, praying the said Mayor and Common Council of the City of Plainfield for their consent to the construction, operation and maintenance of an extension of its street railway in the City of Plainfield, in Arlington avenue, from the present line of the Plainfield Street Railway Company in West Fourth street to Randolph road; in Randolph road from Arlington avenue to Park avenue; in Park avenue from Randolph road to a point 1652.19 feet southerly from the center of Randolph road; thence through a private right-of-way to a point near Woodland avenue; thence parallel with Woodland avenue in a southerly direction to the City and County line; as particularly indicated on a map dated and filed October 2, 1899, in the City Clerk's office, entitled "Map Showing Location of Tracks, Turnouts and Poles for Proposed Extension of Plainfield Street Railway, No. 4;" and

WHEREAS, Public notice has been duly given of such application and of the intention of the Common Council of the City of Plainfield to consider the same, by publication, and also by posting a copy of the said notice in five or more of the most public places in the said City of Plainfield, at least fourteen days prior to the date fixed for the meeting of the said Common Council of the City of Plainfield to consider said application; and

WHEREAS, Upon the date fixed by said notice for said hearing, and upon the days to which the said hearing was regularly adjourned, public hearing was given to all persons desiring to be heard, in favor of or opposed to or in anywise interested in the said application for the location of the said tracks of the said Street Railway Company, and the said matter having been duly considered by the Common Council of the City of Plainfield, and the said Common Council having determined to grant permission for the construction, maintenance and operation of such street railway upon the streets, highways or public places designated in such petition, and the said Company having filed with the Clerk of the City of Plainfield, the consent in writing of the owners, or their duly authorized legal representatives, of at least one-half in amount of the lineal feet of property on said Arlington avenue from West Fourth street to Randolph road, on Randolph road from Arlington avenue to Park avenue, on Park avenue from Randolph road to a point 1652.19 feet southerly from the center of Randolph road, and on the private right-of-way hereinafter particularly described.

The Inhabitants of the City of Plainfield, by their Common Council, do enact as follows:

Section 1. That the tracks of the southeasterly extension of the Plainfield Street Railway Company's railway be and are hereby located in the following streets, roads and alleys of the City of Plainfield:

Beginning at the intersection of the centre lines of Arlington avenue and West Fourth street as the same are now laid out and opened and running thence along said centre line of Arlington avenue, as follows: South forty-three degrees and nine minutes east (S. 43 deg, 9 min E) a distance of three hundred and seventy and sixty-nine one-hundredths (370.69) feet to the centre of West Fifth street; thence south forty-three degrees and three minutes east (S 43 deg, 3 min E) a distance of three hundred and forty-eight and nine-tenths (348.9) feet to the centre of West Sixth street; thence south forty-two degrees and twenty-one minutes east (S 42 deg, 21 E) a distance of one hundred and seventy-two and fifty-six one-hundredths (172.56) feet to a point; thence south forty degrees and twenty-one minutes east (S 40 deg, 21 min E) a distance of two hundred and fifty-two and three-tenths (252.3) feet to the centre of West Seventh street; thence south forty degrees and seventeen minutes east (S 40 deg, 17 min E) a distance of thirteen hundred and seventy-nine and twenty-one one hundredths (1379.21) feet to a point of curve; thence curving to the left with a radius of one hundred and and thirty-two and five-tenths (132.5) feet a distance of ninety-eight and ninety-seven one hundredths (98.97) feet to a tangent point; thence south eighty-three degrees and five minutes east (S 83 deg 5 min E) a distance of fifty and three tenths (50.3) feet to a point of curve; thence curving to the right with a radius of two hundred and seven and thirty-three one-hundredths (207.33) feet a distance of one hundred and forty-one and twelve one hundredths (141.12) feet to a tangent point; thence south forty-four degrees and five minutes east (S 44 deg, 5 min E) a distance of twelve hundred and fifty-two and twenty-one one hundredths (1252.21) feet to a point of curve; thence curving to the right with a radius of three hundred and twenty-five and fifty-one one hundredths (325.51) feet to a distance of two hundred and thirty-eight and seven-tenths 238.7) feet to a tangent point; thence south two degrees and four minutes east (S 2 deg, 4 min E) a distance of five hundred and eighty-one and ninety-eight one hundredths (581.98) feet to the centre of Randolph road; thence along said centre of Randolph road south eighty-eight degrees and thirteen minutes east (S 88 deg, 13 min E) a distance of ten hundred and sixty-four and two-tenths (1064.2) feet to a point distant eleven and five-tenths (11.5) feet easterly at right angles from the centre of Park avenue; thence along Park avenue and eleven and five-tenths (11.5) feet east of the centre line of the same south eleven degrees and seventeen minutes east (S 11 deg. 17 min E) a distance of sixteen hundred and fifty-two and nineteen one hundredths (1652.19) feet to a point distant forty-one (41) feet south of the division line between properties of J. L. Brewster and Nathan H. Randolph; thence through private right-of-way parallel with said division line and distant forty-one (41) feet at right angles therefrom, north eighty degrees and seven minutes east (N 80 deg. 7 min E) a distance of two hundred and fifty-four (254) feet to a point of curve; thence curving to the left with a radius of five hundred (500) feet a distance of one hundred and forty-three and seven-tenths (143.7) feet to a point of reverse curve; thence curving to the right with a radius of five hundred (500) feet a distance of one hundred and forty-one and ninety-five one hundredths (141.95) feet to a tangent point distant forty (40) feet in a southerly direction at right angles from the northerly line of property of the Hillside Cemetery Association aforesaid; thence parallel with said line north seventy-nine degrees and fifty-eight minutes east (N 79 deg, 58 min E) a distance of five hundred and thirty (530) feet, more or less, to a point of curve; thence curving to the right with a radius of one hundred (100) feet a distance of two hundred and forty (240) feet, more or less, to a tangent point distant forty (40) feet west at right angles from the easterly side of Woodland avenue; thence parallel with the easterly side of Woodland avenue and distant forty (40) feet westerly at right angles therefrom as follows: South four degrees and twenty-eight minutes west (S 40 deg, 28 min W) a distance of thirty (30) feet, more or less; south nine degrees and thirty minutes west (S 9 deg. 30 min W) five hundred and thirty-seven and five-tenths (537.5) feet, more or less; south eight degrees and nineteen minutes west (S 8 deg, 19 min W) a distance of one hundred and forty-nine and five-tenths (149.5) feet, more or less; south one degree and fifty-eight minutes east (S 1 deg, 58 min E) a distance of three hundred and twenty-two (322) feet, more or less; south ten degrees and twenty-one minutes east (S 10 deg, 21 min E) three hundred and fifty-five and five-tenths (355.5) feet, more or less, to the City line, and in those portions of said streets, roads, and alleys marked out and shown on map filed in the office of the City Clerk of said city, entitled "Map Showing Location of Tracks, Turnouts and Poles for Proposed Extension of the Plainfield Street Railway, No. 4," and dated October 2, 1899, to which reference is made and the same is hereby made a part of this ordinance, and the said company is hereby given the right to construct, maintain and operate its extension to its street railway in said portions of said streets, roads and alleys, under and subject to certain restrictions and regulations hereinafter specified or referred to, and the same being such restrictions and regulations as the Common Council hereby deem requisite for the public interests, as well as subject to such further reasonable regulations as may be hereinafter enacted by said Council. All rights and privileges under this ordinance conferred upon said company shall cease and expire on the first day of January, A. D. 1900, and thereupon, on demand, said company will forthwith remove all of its said tracks from the streets, lanes and alleys of said city. A detailed plan of construction shall be filed with the City Clerk by said company and be approved by said Common Council before any work is done under the permission herein granted.

Section 2. That said Company shall construct, maintain and operate a single track railway for said extension, to be laid in the center of said streets or highways, except in Park avenue, where the center line of the track shall be eleven and one-half feet east of the center line of Park avenue, and in Arlington avenue, from a point one hundred twenty-five feet southeast of the center of West Fourth street to a point fifty feet northwest of the center of West Fifth street, where the center line of the track shall be two and one-half feet northeast of the center line of Arlington avenue, said portion of the track to be connected with the present track in West Fourth street and with the proposed track in Arlington avenue by reverse curves, and as shown on map, and shall construct the rack, switches, turnouts and poles in the manner and at the points and places indicated for the same on said map; the poles shall be constructed and set and the wires strung thereon in the same manner as the poles are constructed and set in the ground and wires strung on poles on the line of street railway now operated in the City of Plainfield by the said Plainfield Street Railway Company.

Sec. 3. That the rights and privileges intended to be given by this ordinance to said Company are subject to all limitations, provisions, terms and conditions set forth and contained in sections 5, 6, 7, 8, 9, 10, 13, 14, 17 and 18 of the ordinance of the city entitled, "An Ordinance locating the tracks of the Plainfield Street Railway Company and regulating the construction and operation of the same and granting permission to said company to use electric motors as the propelling power of its cars," approved April 27, 1891; also in sections 3, 4, 6, 7, 9, 10, 11 and 12 of the ordinance of the city entitled, "An Ordinance locating the tracks of the extension of the Plainfield Street Railway Company in Richmond street and East Second street and over a private right-of-way to the line of the City of Plainfield in Terrill road, and authorizing and empowering the construction and operation and maintenance of the same, and granting permission for said company to use electricity as the propelling power of its cars, and prescribing the terms and conditions upon which the said location of the tracks and permission are granted," approved December 29, 1898, to the same extent and with the same effect as if said sections were re-enacted in full as part of this ordinance, excepting that in section 10 of the latter ordinance the period of fifty years referred to shall as to the present ordinance begin on January 1, 1900, instead of on January 1, 1899.

Sec. 4. The said company shall build or construct the extension hereby authorized, with turnouts and switches, in the manner aforesaid, and put the same into complete operation for the transportation of passengers on or before July 1, 1900, and upon failure so to do or upon failure or neglect to operate the same as aforesaid, all the rights, powers and privileges, and every one of them of the said company, their successors and assigns, under and by virtue of this supplemental ordinance, shall thereupon cease and determine, and this ordinance shall be null and void so far as the grant of any such rights, power and privilege to said company is concerned, and in either of such cases the Common Council expressly reserve the right to cause the said railroad, or any part or parts thereof, so constructed, to be removed from said street or streets or any of them, and to sell and dispose of the material thereof by public auction, and, after paying all the expenses of such removal and sale, and of repairing the said street or streets, and of restoring the same, as nearly as possible, to its or their original condition, to pay the balance of the proceeds of such sale to the said company, or its successors or assigns, provided, that no notice of such sale shall be required to be given, other than an advertisement, signed by the City Clerk, and published in any one or more newspapers printed and published in said city.

The time during which the said company shall be delayed in the prosecution of its work, or in the operation of its road, or in any section thereof, by injunction or other legal proceedings in the courts of New Jersey, or the Federal courts, shall not be included within the period within which the said extension is to be constructed and put into complete operation.

Sec. 5. That the said company upon the final adoption of this ordinance, and before exercising any of the rights and privileges granted hereby, shall, as a condition precedent, execute on its part, and file with the City Clerk of the City of Plainfield, a bond to the city in the sum of twenty thousand dollars, to be approved as to form by the Common Council and Corporation Counsel of said city, conditioned for the full and faithful keeping, observance and performance of the terms and conditions of this ordinance contained. And in case the condition or terms upon which said company is granted permission to locate its tracks and maintain and operate its road are violated, the city reserves the right to revoke the permission herein granted, to remove the tracks of the said company and all the constructions made in the streets of the city by said company, its successors or assigns.

Sec. 6. That the cars of said company shall be run on a headway of not more than thirty minutes in each direction over the extension herein authorized, from the time in the morning when the cars begin running on the other lines of said company in the City of Plainfield until eleven o'clock p. m.

When the gross earnings upon the extension herein authorized shall amount to fifteen dollars per car per day, the cars shall be run upon the same schedule as that in operation upon the other lines in this city.

Sec. 7. The said company shall within thirty days next after the passage of this ordinance, file with the City Clerk its acceptance of said ordinance, including all the agreements, terms, provisions, restrictions, and regulations and every one thereof in said ordinance contained, which said acceptance shall be under the corporate seal of said company, and shall be signed by the President of said company; and in default of filing of such acceptance within the time limited aforesaid it shall be understood and held that said company declines to accept the same, and thereupon all rights, powers and privileges to them granted thereby shall forever cease and be at at end in the same manner and with the same effect as if this ordinance had never been passed.

Sec. 8. That the said company shall not run its cars at a greater speed than four miles per hour, during the hours between 8 o'clock a. m. and 5 o'clock p. m., on days in which school is in session on Arlington avenue between West Fourth and West Fifth streets.

DRESSED CHICKENS.

There is nothing quite so good for dinner as chicken. This week we have an extra nice lot of fancy roasting chickens, broilers, also fowls of the highest grade. We pride ourselves on dressed chickens. Prices very low, considering the goods. We would like to have your meat trade and we think a plump dressed chicken would be a good introduction.

A Large Purchase And A GREAT SALE.

We will start a great sale this Saturday with some of the finest high-grade fall and winter suits, overcoats and trousers, which was purchased by us from the well-known firm of Henry Mann & Son's, of Baltimore, Md., having closed out the entire balance of their heavy winter overcoats and suits.

The Overcoats consist of the finest Meltons, Black or Blue Kerseys and plaid backed whipcords and covert cloths, cut in the latest style full backs, box shape, the suits are mostly with double breasted vests, made of blue or black heavy weight Serges and winter weight worsted stripes.

We ask you one and all to come sure to this sale as we have purchased this entire stock at not more than 33c on the dollar, and we are able to offer you the handsomest clothing ever shown in Plainfield at prices that you will buy enough clothing to last you this fall and winter. Here is the price list for our bargain Saturday.

250 Men's all-wool cassimere, cheviot and homespun suits that were made by Henry Mann & Son, to be sold at from 8.00 to 10.00, will be sold this bargain Saturday at 2.75 and 3.75.

50 Men's genuine Washington Mills, black and blue worsted cheviots, heavy weights, considered a good bargain at 10.00, to go this Saturday at 4.25 to 4.75.

Men's black clay diagonal dress suits, in frock and sack, at 6.75, worth 14.00.

Men's wide wale double breasted black suits at 6.75, worth $16.

Men's box overcoats with plaid backs at 4.50, 5.50 and 6.50 worth from 10.00 to 14.00.

Men's fall top coats 2.75 to 6.50, worth from 8.00 to 15.00.

Men's black melton or kersey overcoats at 4.25 worth 10.00.

We received over 2,000 pairs of men's trousers that will be sold at prices that you can never equal. Extra heavy weight trousers at 95c., worth 2.50. Men's dress trousers at 1.25, 1.50 and 1.75, that are worth in other stores from 2.50 to 3.50.

CHILDREN'S SUITS, we positively guarantee to have the largest assortment in Plainfield, prices begin at 75c, 1.25 and 1.50 that we would consider bargains at three times these prices.

Boy's knee pants 19c. Men's all-wool half hose at 9c. Men's derby hats at 50c. Heavy black and white stripe working shirts at 21c., and hundreds of other bargains that you will get this Saturday.

Be sure to call as this sale will be the greatest bargain Saturday of the season. Every man and woman within 25 miles of Plainfield should be sure to attend this sale.

We caution people to see that they are at the

ACTIVE SEASON FOR PARK CLUB BOWLERS

Bowling Committee Announces The Winter Schedule.

MATCHES FOR MEMBERS.

BENEDICT-BACHELOR CONTESTS TO BE HELD DURING HOLIDAYS.

The Park Club Has Not Yet Entered Into Any Tournament So Far—Matches For Members Arranged for Saturday Nights—Tuesday and Saturday Evenings to Be Devoted to the Sport.

The time has come for a resumption of activity among the bowlers of the Park Club. The alleys are now in fine condition, having been repaired and restored to their original condition during the summer. So far, there have been no active steps taken for a team to represent the club in any tournament but the bowling committee has arranged a pleasing programme of events for the winter season. The bowling committee this year consists of F. O. Ball and H. D. Hibbard.

Every evening sees some of the bowling enthusiasts on hand for a little practice. The usual Tuesday and Saturday evenings bowling will continue on these evenings, interesting inprompu matches may be expected.

The first series of matches among the club members scheduled for the fall is that between the "Longies" and the "Shorties." The names tell for themselves of the composition of the teams. All the members who turn out on the nights of the matches will be divided between the two teams. The number on the teams will be unlimited.

Then there will be one match between the "Kids" and the "Patriarchs" which will also be open to all comers. The youthful contingent of the club believe that the older generation are "easy things" and will make an attempt to demonstrate that fact.

The annual contest between the Benedicts and the Bachelors, ten men on a side, will be held during the Christmas holidays. There will be three games. Later in the season five men teams representing Plainfield and North Plainfield will meet for a series of three games.

The bowling committee has now announced the following schedule for the fall and winter:

Saturday, Oct. 28.....Longies vs. Shorties (All Comers.)
Saturday, Nov. 11.....Longies vs. Shorties (All Comers.)
Saturday, Nov. 25.. .....Longies vs. Shorties (All Comers.)
Saturday, Dec. 9.....Kids vs. Patriarchs (All Comers.)
Saturday, Dec. 23.....Bachelors vs. Benedicts (Ten Men Teams.)
Saturday, Dec. 30 .....Bachelors vs. Benedicts (Ten Men Teams.)
Saturday, Jan. 6.....Bachelors vs. Benedicts (Ten Men Teams.)
Saturday, Jan. 20...Plainfield vs. N. Plainfield (Five Men Teams.)
Saturday, Feb. 3....Plainfield vs. N. Plainfield (Five Men Teams.)
Saturday, Feb. 17...Plainfield vs. N. Plainfield (Five Men Teams.)

SURPRISED MISS AGNES MORSE.

Friends From Plainfield, Westfield and Elizabeth Gathered at Her Home.

An enjoyable surprse party was given to Miss Agnes Morse, of Jackson avenue, Thursday evening by a number of friends from this city, Westfield and Elizabeth. It was arranged by the Misses Porter and Miss Mabel Firstbrook. The evening was very pleasantly spent in dancing and playing games. Supper was served late in the evening.

Those present were the Misses Frances Cose, Marion Porter, Mabelle Firsbrook, Ida Ferman, Lizzie Gutick, Nellie Coalman, and Margaret Porter, Mr. and Mrs. Caspar Waglow, Mr. and Mrs. Walter Walker, Mr. and Mrs. E C. Morse, Harry Northrop, Edward Holder, Arthur McVoy, Randolph Marsh, of this city; Peter Randolph, Charles Kimbie, Louis Hardingham, George Young, Frank Randolph and S. Smith, of Westfield, and many others.

A Social Entertainment

Extensive preparations are being made by Star of Plainfield Lodge, Shepherds of Bethlehem, for a social entertainment to be held Wednesday evening next. A large number of invitations have been sent out. The committee of arrangements consists of Robert Larmour, A. H. Leivers, V. W. Nash, Edward Devine, Wm. Fairbanks and Mesdames M. Leivers, A. Cox, W. J. Ford, E. Devine and M. J. Nash.

Little Higher Than Last Year.

The registry in the second district of the borough this year is 547, which is a little higher than last year.

—Auction sale of household and kitchen furniture, Tuesday, Oct. 24th. See advertisement in today's Press.

WILL DRILL IN DEBATE.

NEW SCHEME OF INSTRUCTION IN PARLIAMENTARY LAW.

Successfully Tried at Plainfield High School Yesterday Morning — Was Planned By Principal I. W. Travell.

A new scheme of parliamentary drill, which has just been inaugurated in the Plainfield High School, was tried with much success yesterday morning. It was arranged by Principal Ira W. Travell to give the pupils in the three highest classes of the High School some of the fundimental principles of parliamentary law.

It is the intention of Principal Travell to devote one period on Fridays every other week to the subject. The previous periods have been devoted to an explanation of the principles under which a meeting is conducted and the principal notions considered. Yesterday, a practical drill was held in which the pupils were given an opportunity to take part.

The drill had been outlined by Mr. Travell, and the various steps described on numbered cards which were distributed. The pupils then went through the form of organizing, choosing officers and holding a short debate on some question.

Mr Travell was chosen as the first chairman. A secretary and illustrator, to preside over the blackboard, were also elected. Then the advantages of the present one-session system as compared with the old two-session method was discussed.

Edward James was elected as chairman at the second organization. This time the discussion was on the advisability of the curfew law. Miss Ruth Maxson was made chairman, when the drill was repeated for the third time. The desirability of girls playing basket ball was the topic of the discussion.

On each trial a different set of pupils took part so that all might have a chance. The plan found much favor with the pupils, and will undoubtedly be found a very satisfactory method of teaching the principles of parliamentary law.

WOMEN SOON TO MEET.

Plans for the Annual Convention of the Federation of Clubs in Atlantic City.

The New Jersey State Federation of Women's Clubs will meet Thursday and Friday, October 26th and 27th, in Atlantic City. The executive committee met Monday and arranged the programme The convention is divided into four sessions. The programme is:

Thursday morning—Invocation by Rev Antoinette Brown Blackwell; welcome, Mrs. Allen Endicott; response, Mrs. Emily E Williamson, president; minutes of the last two meetings, Mrs. C. W. Butler; reports of secretary-treasuer and committees; response by Mrs. Wingart Yardley; report on the Legal Aid Society, Mrs. Mary McKeen.

Thursday afternoon—Harp solo, by Miss Helen Reid; president's address, Mrs. Williamson; vocal solo, Mrs. J. Bacharack; report on forestry, Mrs. Elizabeth Vermilye; recitation, Mrs. Dora Skillman Frazee; report on department libraries, Mrs. Kate Brownlee Horton; tenement houses and tenement house work, Mrs. Lillian W. Betts.

Friday morning—Invocation by Rev. rectors; report on general federation by Mrs. Jessie L. Crear; literature, Mrs. F. W. Kitchel; reports from the Irvington Club, Women's Club, of Flemington, and College Women's Club, of Jersey City; town improvement, Mrs. A. J. Newbury; consumers' league, Mrs. A. C. Walmough.

Friday afternoon—Solo by John S. Ingram; "Women and Newspapers," Mrs. Cynthia Instom Alden; response by Mrs. Cecilia Gaines-Holland; "Property Interests of Married Women in New Jersey," David P. Hall; reading by Mrs. Janet Broomell; a poem by Mrs. A O. Field.

Chiefs of Police to Contest.

Commencing Monday, November 6th, and continuing for a week the Reform Club will hold a fair at their hall. Among the features will be a contest between Chief Grant, of this city, and Chief Marshal Campbell, of the borough, for a gold watch.

FOUND HIS FATHER HANGING IN SHED

Aged Henry Ludovice Committed Suicide Last Night.

DISCOVERED THIS MORNING.

GREW DESPONDENT OVER FAMILY TROUBLES AND ILL HEALTH.

Retired at An Early Hour and Then Stole Out Quietly—Fastened Rope to Nail in Rafter and Jumped Off Box With Noose Around His Neck—Was Dead When Found This Morning.

(Special to The Daily Press.)

Dunellen, October 21.—A horrible sight awaited Henry Ludovice, Jr., when he went to the woodshed early this morning. There was the rapidly stiffening corpse of his father dangling by a rope from one of the rafters of the shed. A fit of melancholia had caused the aged man to end his own life.

Henry Ludovice, Sr., was a well known farmer of Middlesex county. His farm is located in West Dunellen where he has lived for many years. He was over seventy years old. Old age and ill health had compelled him to lead a comparatively inactive life of late. This fact, combined with family troubles, caused him to take a pessimistic view of life and he grew very melancholy at time.

Last night he retired early but the family did not notice anything out of the way with him. After the rest of the family retired, he stole silently out to the wood shed and, in the dark, made preparations to end his own life. He fastened a short length of rope to a nail on one of the beams and slipped the noose over his head. Then he stepped off a box and hung there, his feet just clearing the floor.

Thus his son found him at 5 o'clock this morning when he went out to the wood shed to perform the early morning chores. He hastily aroused the rest of the family and Ludovice was cut down. Dr. Whitford, of New Market was hurriedly summoned but found that life had been extinct for some time.

County Physician Carroll, of New Brunswick, was notified and will be in Dunellen early this morning to examine the body. There will probably be no inquest as there seems no doubt as to his death being due to his own act.

KIRK'S BOOM ON THE RISE.

Reported Combination of Kirk and Houston That May Be Powerful Factor in Convention.

There have been changes in the local political situation during the past twenty-four hours. The boom of Sheriff Wm. T Kirk for county clerk has assumed new importance and there is a fair chance that the Plainfied delegation will go to Elizabeth solid for Kirk for county clerk. That would mean a combination with Elizabethport on Houston for sheriff and Kirk for county clerk. If Kirk's strength increases during the coming week in the same proportion that it has in the last twenty-four hours, there will be a strong likelihood of his being an important factor at the convention.

A Surprise Party

There was a pleasant surprise party given to Miss Jophia Saums at her residence on Clinton avenue. There were guests present from Clinton, Plainfield and Washington. Among some of those present were: Misses. Fulton, Acker, Dolfinger, Wenzel, Robinson, Squires, Kenyon, Smith, and Messer, DeMeza, Robinson, Roseberry. Whitlock, Textur, Gordin, Wenzel, Squires and Thures and others.

Candle Burned Too Low.

A candle was left in the basement of P. M. Demarest & Son's grocery on Park avenue Thursday evening. It burned down so low that it set fire to the box on which it stood. One of the clerks noticed the blaze and extinguished it before the flames had a chance to spread.

—An important meeting of the Primary Teachers' Union will be held next Monday afternoon at the Y. M. C A., and a full attendance of members is desired.

DROPPED BRICK ON COP

Stage Hands Took Him For Boy Trying To Peep In Dressing Rooms.

Manager Maze Edwards, of Music Hall, has long been troubled by boys who have persisted in trying to peep in the windows to the dressing rooms in the rear of the hall. Thursday evening some of the employes were looking out of an upper window and saw what they supposed was a boy peeping in the window below. Wilbur T. Sherwood dropped a half a brick on the figure. It proved to be Patrolman Saffron and the brick dented his hemlet sadly. He said he was driving away the boys who had been trying to peep in.

This morning Sherwood was arraigned before City Judge Runyon on the complaint of Saffron. Sherwood admitted that he dropped the brick but supposed that it was some boy below. Saffron told the Judge that he had seen some small boys scraping the paint off the windows and that he had gone up to see how much damage they had done. Here Sherwood volunteered the fact that the windows were painted on the inside.

Chief Grant explained that the officers had been directed to keep an eye on the place and drive away the boys who hung around there. The Judge did not consider the offense a very serious one and suspended sentence.

SPECIAL MUSICAL SERVICES.

Programme to Be Rendered at Crescent Avenue Presbyterian Church.

The special monthly praise and musical service at the Crescent Avenue church will be held tomorrow evening. It is customary to hold the service on the last Sunday evening in the month. The musical programme will be rendered by the regular church quartette, which will be assisted by Mrs. J. K. Myers and Miss Julia Ketcham. It will consist of selections from Gaul's "Holy City." The programme will be as follows:

Chorus—"No Shadows Yonder."
Tenor solo—"My Soul is Athirst for God."
Trio for ladies' voices—"At Even Tide It Shall be Light."
Contralto solo—"Ere Hath Not Seen."
Quartette—"God So Loved the World."
Soprano solo—"These are Ther."
Bass solo and quartette for ladies' voices—"List the Cherubic Host."

A MYSTERIOUS MARRIAGE.

Justice Nash Declines to Tell Names of Contracting Parties.

A handsome young woman, accompanied by a well dressed man, applied to Justice Nash late last night and asked to be married. The couple first called at the Justice's house, but were told that he was at a lodge meeting. Although it was nearly 11 o'clock the magistrate married the couple at his office. Today Justice Nash refused to divulge the names of parties. The couple is said to have come from Westfield.

Something New.

Plainfield Business College—which is always trying to improve its methods—has introduced the Gregg system of shorthand, and engaged Miss Elizabeth A. Carpenter, who recently resigned her position as teacher of the same in Gregg Business College. This college now has two good systems of shorthand—the Gregg and the Dement-Pitman—with a good teacher for each. Students can take their choice. A third teacher has charge of the commercial department. Sadler's bookkeping has no superior. Commercial law, arithmetic, grammar, algebra, geography, reading, spelling and penmanship are also taught, five days four nights a week. A fourth teacher conducts the art studio. Now is a good time to enter. Remember the place—City Bank Building.

A. A. Phelps, A. M., President.

Anxious for the Trolley.

There has been an impression about that most of the members of the Hillside Tennis and Golf Club either own horses and carriages or bicycles, and that they do not favor the trolley from the city to the course. This impression is wrong. An official of the club informed a Press reporter today that scarcely one-quarter of the members possessed horses and carriages, and that the club is very anxious to have the trolley.

A CONFERENCE FOR BOYS Y. M. C A. WORK

The Young Fellows Come in For Important Consideration.

COMMENCED LAST NIGHT.

MANY MANLY LITTLE MEN PRESENT AS DELEGATES.

Delegates Present From Several New Jersey Towns That Have Y. M. C. A. Branches—Opening Session Held in the Trinity Reformed Church—The Programme Was Carried Out Entire.

The State conference on boys' work, which is being held in this city under the auspices of the Y. M. C. A., is proving both interesting to those who attend the sessions as well as instructive to the boys who have been associated in the laudable Christian work Delegates are present from Summit, Montclair, Madison, Paterson, Orange, Newark and Passaic. The visiting delegates were met at the station last evening by the reception committee appointed for the purpose by the local Y M. C. A. Between 6 and 7 o'clock the ladies' committee supplied the boys with a substantial supper and arrangements made to furnish them accommodations for the night.

At 7:45 o'clock the delegates and their friends met at Trinity Reformed church, where interesting exercises were held. D. F. R. Runyon, of New Brunswick, presided. Edward C. Suffern delivered the address of welcome, which was responded to on behalf of the delegates by Gustav C. Wuerth, of Orange. Miss Etta Krymer then sang a solo in her usual excellent voice. Brief addresses were also made by Donald MacColl, State secretary, who spoke on "Boys' Work—What It Is." and Rev. Dr. John F. Patterson, of Orange, on "Boys' Work—Its claims to Fuller Recognition."

The delegaths then held a symposium and each boy related briefly his opinions of the work.

This morning at Association Hall Rev. J. C. Killiam presided. After devotional exercises Edgar M. Robinson, Boys' Work secretary of Massachusetts, delivered an entertaining address which was more in the nature of a talk on "The Critical Period in a Boys' Life."

Papers were read on why a boy should take care of his body by W. Harold Burger, Newark; Roger T. Holloway, Montclair; Ernest S. Everingham, Trenton; Frank Strerghtoff, Montclair. Those who read papers on "How He Can Best Do It" were Willis F. Cronkhite, Orange; Charles Warren, Trenton and F. H Syrett, Jr., Montclair.

The delegates then repaired to the gymnasium where, under the direction of Physical Director Heywood, they were given full swing in gymnastics.

David Carlisle, of Passaic, presided at this afternoon's session in Association Hall. Papers were read on "Bible Study" by James Philipson, of Newark; E. Deane Farnsworth, Jr., of Orange, and Geo. Lentz, of Orange.

This evening at Association Hall Edward P. Halden, of Madison, will preside. There will be a song service led by members of the Newark Y. M. C. A. Boys' Orchestra. Harry S. Park, of Paterson, will conduct the question box. Some stereopticon views will also be shown from the boys' camp.

Traction's Way Into Princeton.
(Special to The Daily Press.)

Princeton, Oct. 20.—M. Tyler Pyne has apparently won his fight with the Trenton Traction Company. Mr. Pyne said his opposition to the trolley company was merely to prevent it from getting into Princeton through any public thoroughfares. The trolley people have marked out routes through Stockton's Springdale Farm and will enter the town below the Pennsylvania station, terminating the line at Canal street. The road will probably be finished within three months.

—There will be business of importance at the meeting of Stone Square Lodge, No. 38, F. and A. M., Monday night.

NEITHER SIDE SCORED.

EXCITING FOOTBALL GAME ON THE WESTERVELT AVENUE GROUNDS.

Elevens from North Plainfield and Fanwood Lined Up—Game Ended With Ball in North Plainfield Territory.

One of the most hotly-contested football games of the season was that played on the Westervelt avenue grounds yesterday afternoon between the North Plainfield and Fanwood elevens. The result was a tie, 0 to 0. There was little advantage for either side, although the game ended with the ball in the neighborhood of North Plainfield goal.

Chapin and Alberts did some brilliant playing for the visitors. MacLaughlin and Hamilton were the best ground gainers for North Plainfield, while Cooley, although the smallest boy on the team, did some remarkably clever tackling, stopping runner after runner, for a loss.

The teams lined up as follows:

FANWOOD.		NORTH PLAINFIELD.
Albert	right end	Pope
Douglass, Herb.	right tackle	Emmons, W.
Collins	right guard	Schuck
Johnson	centre	Stevens
Boolmson	left guard	Fritz
McAnney, H.	left tackle	Parlee
Chapin	left end	Cooley
Douglass, Harry	quarterback	Hamilton
Brown	right halfback	McCollough
Hall	left halfback	MacLaughlin
McAnney, L.	fullback	Jacot

Referee—Harold Davis. Linesmen—Raymond M. Carroll and Wm. Real.

DEMOCRATIC PRIMARIES.

Called for Next Wednesday Evening When Important Business Will be Transacted.

The Democratic primaries to be held in the various wards of this city have been called for next Wednesday evening at 8 o'clock. The business to be brought before the primaries will be important, the most prominent of which is the election of delegates to the county convention and the choice of a member of the county committee from each of the wards. Other matters of direct interest to the Plainfield Democrats will also be brought up.

The primaries will be held at the following places: First ward, four delegates, vacant store in the Voehl building, 220 East Front street; Second ward, three delegates, Bryant School house, West Sixth street; Third ward, three delegates, basement of Revere House; Fourth ward, eight delegates, T. A. B. Hall, West Fourth street.

It is expected that the primaries will be the most representative and largest held in several years.

A SUCCESSFUL SALE.

Boys' Mission Band Made Money at a Church Affair.

A very successful broom and brush sale was held in the parlors of the Crescent Avenue church yesterday afternoon by the members of the Boys' Mission Band. There was quite an assortment of brooms and brushes of all kinds which the ladies of the congregation purchased at reasonable prices. The boys presided over the sales assisted by some of their friends. The stock was entirely disposed of and from which a neat sum was raised which will be turned into the treasury of the band to go for mission work.

In a Trolley Collision.

Wm. J. Messler, of Woodbridge, is visiting Walter Higgins, of West Front street. Mr. Messler is a motorman on a trolley road, and a few days ago another car ran into the car he was running and he had three ribs broken and an arm dislocated. The physician in charge says that it will be six months before he will be able to return to work.

Grand Regent Coming.

The regular meeting of Plainfield Council, No. 711, Royal Arcanum, will be held next Monday evening at 8 o'clock and will be the occasion of the annual visitation of the Grand Regent and staff. The entertainment committee has arranged to make things pleasant for all and a full attendance of members is desired.

Two Were Initiated.

Two candidates were initiated into Columbia Lodge, A. O. U. W., last night. Master Workman Mosher and Pastmaster Workman Spicer, of Central Lodge, were present and assisted in the work. After the lodge ceremonies some of the members indulged in the usual game of quoits.

MAY BE CLUBHOUSE FOR THE DEMOCRATS.

Reorganization Plans For The Party to be Undertaken.

YOUNG MEN INTERESTED.

THEY INTEND TO PUSH THE IDEA TO COMPLETE SUCCESS.

The Failure That Was Encountered a Year Ago Has Not Discouraged All—It is Proposed to Establish Permanent Headquarters Where Democrats May Meet Socially and Politically At All Times.

Though a fair start was made a year ago for the reorganization of the Democratic party in Plainfield and it failed, a number of younger members of the are now agitating the subject again with excellent chances of meeting with success. The plan is not only to maintain an organization the year around, but to secure headquarters that will also be open and maintained every day in the year. During the campaign it is an easy matter, if a little energy is infused into the subject by a few, to start the organization when political interest is intense, as it will be this year, but the great trouble is to get an organization that will be active for party interests at all times.

Probably if the reorganized Democratic Association had not been stampeded for the so-called citizens' ticket last December, it would be a much more potent factor today, but the sorry experience of Democrats affiliating themselves with dissatisfied Republicans in the last municipal campaign makes it almost certain that no more such impolitic combinations will prevail in Plainfield again for awhile. In this respect those who are talking reorganization now feel certain that no such stumbling blocks will be encountered, and that if a good organization is promised every Democrat will rally to the support of the party as partisans.

The principal idea in the proposed reorganization plans is to secure a permanent club-house, which can be made a common meeting place for Democrats throughout the year not alone for political purposes but as well for social advantages. The matter has been quietly canvassed during the last few days and it is found that the project stands in high favor among the members of the party.

With an institution of this kind in conjunction with an active and aggressive party organization which is promised, there would not be so many Democrats going astray. A club-house where the younger and older members may gather at leisure moments, in which social features would be prominent the year round, would be the most popular factor that could be engaged for the betterment of the party in Plainfield.

Although the idea is in embryo form as yet, those who have started the agitation are in earnest about it, and it is not at all unlikely that the project will be consummated during the present campaign, and that the club-house will be opened with a reception to the candidates who will be named at the county convention in Elizabeth next Friday.

The active membership will be confined to Plainfield, but the North Plainfield Democrats will be given all the social and clubhouse privileges for a slight fee, and will, in fact, be made members with every advantage except that of having a voice in the direct control of the club.

Officers Elected.

At the meeting of the Young Ladies Missionary Society of the First Baptist church held yesterday afternoon, the following officers were elected to fill vacancies: President, Miss Harriet R. Shreve; vice-presidents, Misses Sue Woodland and May Serrell.

Foreign Missionary Sunday.

Tomorrow will be foreign missionary Sunday at the Congregational church. In the morning there will be an address by a returned missionary from the east. In the evening his wife will address the Christian Endeavor Society.

Plans and Route of the Proposed Woodland Boulevard in Plainfield—Published by Courtesy of the Real Estate News.

AMERICA KEEPS THE CUP.

Shamrock Again Defeated By Columbia in the Last of Series of Races.

IT WAS A PRETTY RACE.

The American Yacht Crosses the Line in the Fastest Time Ever Sailed For the Cup.

Both Sloops Aided in The Race on The Home Stretch By a Twenty-Mile Breeze—Shamrock Led at The Start—The American Boat Demonstrates Her Superiority.

Off Sandy Hook, Oct. 21.—For the tenth time in the history of contests for the America Cup, American seamanship and superiority in designing sea craft have defeated the British, and the piece of silver, remains safely stowed away in the New York Yacht Club's lockers for another year, at least.

The wind was exactly what Sir Thomas Lipton and the Shamrock enthusiastis had been sighing for, and when the green boat went over the starting line first and kept her lead for miles down the first leg there were some misgivings in American breasts.

But Columbia had some trouble with her spinnaker and working topsail. As these were put in proper working order the white craft crept up and nearly the outer mark reached and passed the green yacht and turned the buoy a full minute in the lead.

From the outer mark home it was a battle royal. The wind blew with a speed of at least twenty miles an hour, so heavy that the racers were unable to carry any other canvas than

(America's Cup.)

their mainsails, jibs and staysails. Shamrock held on to her working topsail for a few minutes after rounding the turn, but had to take it in.

The further they went, however, the more certain did Columbia's superiority appear. Toward the finish Shamrock took a desperate chance, but held to what sail she had. The increased sail did Shamrock no good, except to slightly decrease the distance between the racers, and Columbia crossed the line a winner in the afstest race ever sailed for the Cup over a windward and leeward course.

The Shamrock was fully half a mile in the rear of the Columbia when the American racer crossed the finish line, and the usual burst of joy broke loose from the steam whistles and the throats of those who were fortunate enough to see the finish of one of the greatest events that has ever taken place over a yachting course.

The Columbia's time was four hours, thirty-nine minutes and forty-four seconds.

After the race was finished Sir Thomas Lipton said:

"I came over here to lift the cup. I have not done it. I never said I would. But I would like to come over and try it again. I am convinced Columbia is the better boat. I proved what I said to the British public when I left home—that an English gentleman could come over here and be accorded absolutely sportsmanlike treatment and fair play. My opponents have treated me not only fairly but generously. It is a pleasure to lose to such rivals."

Jockey Fatally Injured.

Cincinati, Oct. 21.—Jockey Southard was fatally injured at the Latonia track. His mount, Young Bell, fell, and Illivian, ridden by Lowe, fell over them. Southard may die at any moment. Great Pride was so badly injured that he had to be killed.

Welcomed Dewey's Officer.

Waterbury, Conn., Oct. 21.—A grand welcome was extended here to Lieutenant Kellogg, who fought at Manila on the Baltimore. The Lieutenant is a native of this city. The Governor and his staff were here and participated in the ceremonies.

High Wind Does Much Damage.

Yaquaina, Ore., Oct. 21.—Heavy gales have prevailed here for the last twenty-four hours, resulting in a tremendous sea, which has carried away about 700 feet of the government's north jetty works.

The Wagner Company Absorbed.

Chicago, Oct. 21.—After a two-days' session of the directory of the Pullman Palace Car Company it was announced that the Pullman Company had absorbed the Wagner Company.

STUDYING OUR INDUSTRIES.

Commercial Congress Delegates Touring The United States.

Chicago, Oct. 21.—A party of Germans who were delegates to the Commercial Congress at Philadelphia are in this city. In the party are E. Arnhold, counselor of commerce at Berlin and president of the Berlin Street Railway Company; I. Loewe, president of the Loewe General Electric Company; E. Arnthal, a landowner of western Germany; A. Kuchenthaler, a director of the Loewe General Electric Company; G. Willinger, general manager of a large coal and iron works in Upper Silesia; F. Hamspohn, general manager of the Union General Electric Company of Berlin, and G. Junghann, manager of the Laura Steel Rail and Coal Company of Silesia.

The party is making a tour of this country for the purpose of investigating American methods of manufacture and agriculture. They have visited the Brill and Carnegie works, and while in Chicago will visit the plants of Pullman's Palace Car Company, the Illinois Steel Company, and the Western Electric Company. They will also visit some of the big farms of the country.

Mastodon's Bones Found.

Rahway, N. J., Oct. 21.—While digging a trench for the laying of a gas main in Jaques avenue Michael Connors uneathed the skeleton of a mastodon. Connors had dug to the depth of six feet, when his pick struck a large stone. With the assistance of his fellow-laborers the stone was removed and the bones discovered beneath. The find was reported to Franklin P. Marsh, a naturalist, and after a careful examination, he pronounced the bones those of a mastodon. The skeleton is in a fair state of preservation, especially the skull and shoulder bones.

Centenarian Dying of Gangrene.

Indianapolis, Ind., Oct. 21.—Monroe Hedges, 105 years old, is dying of gangrene. He is a native of Kentucky, a soldier of two wars and quite recently he came into particular prominence by knocking out one of his sons, 70 years old, who came home intoxicated and attempted to whip his wife. It was the old man's boast that he had "never been licked and never expected to be." His wife died six months ago. She was 87 years old.

Many Delegates Present.

Dayton, O., Oct. 21.—The fifty-first Ekklesia of the Phi Gamma Delta fraternity has opened in this city. More than 200 delegates from all parts of the United States are present. The convention is to conclude Sunday, Oct. 22, with a convocation sermon by the Rev. J. O. Wilson of New York City, who presides in the absence of the president, Gen. Lew Wallace.

Girls Took Boys' Places.

Muncie, Ind., Oct. 21.—At the Nive Bottle Glass Factory at Elwood the boys employed carrying bottles to the ovens prepared to strike for more wages. It was checked by 15 of the lads being discharged and as many girls being put in their places. This is the first time female help has been engaged in this kind of work among a great number of men.

Confessed to Rifling Letters.

Chicago, Oct. 21.—After an honorable service in the army during the Civil War and in the Chicago Post Office since 1876, Robert O. Crawford, a letter-carrier, was arrested on the charge of rifling letters. When convinced that the inspectors had evidence of his theft the veteran carrier broke down and confessed. Crawford was one of the oldest employes in the Post Office.

New Officers Elected.

Louisville, Ky., Oct. 21.—The following-named officers were elected by the National Liquor Dealers' Association: President, John F. Weiss, O.; vice-presidents, Andrew D. Newman, Brooklyn; Anthony Hauber, Delaware; H. S. McNutt, Louisville; secretary, R. J. Halle, Chicago; treasurer, Charles Schweickhart, St. Louis.

Shattered by Strong Explosion.

Pittsburg, Pa., Oct. 21.—The magnificent residence of Dr. I. D. Chandler in the aristocratic suburb of Sewickley was shattered by a mysterious explosion in an unoccupied room. Immediately the collapsed structure caught fire. The doctor and his family were rescued with difficulty, but were uninjured.

Child Killed While at Play.

Brooklyn, N. Y., Oct. 21.—Horace E. Zeeman, the two-hundred-and-seventieth victim of the Brooklyn trolley roads, was killed while playing near his home, at No. 92 Washington street. He was struck by a Prospect Park and Coney Island car, and his body was mangled almost beyond recognition.

Has Reached No Decision.

London, Oct. 21.—In the House of Commons A. J. Balfour, first lord of the treasury, replying to a question as to Samoa, said that no decision had been reached with reference to the future administration of the islands, and that the matter was still under consideration.

Died On His Wife's Grave.

Jacksonville, Fla., Oct. 21.—J. N. Beard, one of Florida's most prominent educators, committed suicide in Evergreen Cemetery, near Gainsville, Fla., by shooting himself through the head. When found his head was resting on the grave of his wife.

More Ore For Carnegie.

Chicago, Oct. 21.—It is reported that the Carnegie Steel Company has obtained an option on the extensive deposits of high grade iron ore known as Iron Mountain, in Leano County, Texas. The price fixed is said to be $750,000.

Money Matters Cause Tragedy.

Charleston, S. C., Oct. 21.—A. J. Pittman shot and killed his brother, N. T. Pittman, of Gourdin, S. C., in the lobby of the Calhoun Hotel. Difficulties over money matters and domestic differences caused the tragedy.

A Specific for Cancer.

"THE MISSISQUOI SPRING WATER has in some cases seemed to be of great benefit in arresting the progress of the disease. In a few instances, one of cancer of the breast and four of uterine cancer, the apparent effect *has been more striking than any results I have seen from any other agent.*"

Fordyce Barker, M. D.

'I can ful'y endorse all that my friend Dr. Barker has said about the MISSISQUOI SPRING WATER. I have prescribed it with benefit in a few cases of cancer. I also consider it a great remedy in all scrofulous diseases, and in syphilitic affections. In these diseases its true value has not yet been fully recognized by the profession. It is also an admirable remedy in affections of the digestive organs, and in some diseases of the kidneys."

CONSTIPATION
"I have gone 14 days at a time without a movement of the bowels, not being able to move them except by using hot water injections. Chronic constipation for seven years placed me in this terrible condition; during that time I did everything I heard of but never found any relief; such was my case until I began using CASCARETS. I now have from one to three passages a day, and if I was rich I would give $100.00 for each movement; is is such a relief." AYLMER L. HUNT, 1039 Russell St., Detroit, Mich.

To the Sick.
Indisputable Facts.
Disease, fermentation and decay are caused by microbes and germ life; when these organic pests are destroyed there can be no sickness.
Antiseptics are so called because they destroy microbes; surgeons always use antiseptics in performing dangerous operations.
Carbolic acid is a common antiseptic, but is poisonous if taken into the system strong enough to destroy the germs of disease.
Radam's Microbe Killer, composed of GASES, is an antiseptic, perfectly harmless to the human body, but doubly powerful in destroying disease if faithfully applied. Physicians frequently use Microbe Killer in treating Cancers, and recommend it for Catarrh, Tuberculosis, etc.; others know it to be invaluable in Bright's Disease and Bladder Troubles.
Fermentation of food in the stomach causes Dyspepsia, Sourness, etc.; Radam's Microbe Killer destroys the CAUSE and sweetens the stomach.
Impoverished blood is the home of germ life; when pure it is the fountain of life, the source of all health and vigor.
Radam's Microbe Killer is the only rational remedy for all diseases; its antiseptic power eradicates every disease from the human body.
These facts are incontrovertible, and we invite the fullest investigation by all interested people, professional or otherwise.
We would like to mail you, absolutely free, a book containing testimonials and advice.

THAT'S THE IDEA!
You ought to see what we can do for you before doing anything for yourself. Painting depends upon the paint and the painter. Better preparations than ours were never put on by a brush. Wherever paint is put, it should be put there to stay long enough to make it worth while to do the job. The warring elements have no effect on our durable mixtures.

MAY PROMOTE LAWTON.

War Department Officials Believe He is Slated to Fill Shafter's Place.

THE PRESIDENT TO ACT.

Modus Vivendi for Alaskan Boundary Signed By Secretary Hay and Reginald Tower.

No Matters of Special Importance Discussed at Cabinet Meeting—The New Orleans Sails for Manila—Admiral Schley's Flagship Not Yet Ready for Sea-Service.

Washington, Oct. 21.—Rear Admiral Schley had an interview with Assistant Secretary of the Navy Allen and learned that his flagship, the cruiser Chicago, would not be ready for sea-service until about Nov. 20. It was thought that the Chicago's repairs would be completed this month and the vessel ready to sail with Admiral Schley on board Oct. 25. Her overhauling was more extensive than estimated, however.

Admiral Schley renewed his application for the services of Lieut.-Commander Sears and Lieut. Wells as his Flag Lieutenant and Flag Secretary respectively, and was promised that they would be assigned to his staff.

Modus Vivendi is Signed.

Washington, Oct. 21.—Reginald E. Tower, British Charge d'Affairs, called on Secretary of State Hay, and the modus vivendi for the Alaskan boundary was signed. Under the modus the line of the Chilkat River is 22½ square miles from the head of navigation on Chilkat Inlet of Lynn canal, and on the Klehini River 12 statute miles further inland, and the whole valley of Porcupine Creek is included within the American line.

Regular Cabinet Meeting.

Washington, Oct. 21.—The regular meeting of the Cabinet was held Friday. The session lasted a little more than two hours and the time was almost entirely occupied in the consideration of routine Administration matters that had accumulated during the fifteen days' absence of the President on his western trip. It was said after the meeting that no matter of great importance was under discussion.

New Orleans to Sail For Manila.

Washington, Oct. 21.—The Navy Department has received word that the cruiser New Orleans, which was expected to sail from the Brooklyn Navy Yard Thursday for Manila, will leave there this evening. The delay has been due to the failure of the vessel to secure her full crew.

To Promote General Lawton.

Washington, Oct. 21.—The President is confidently expected by War Department officials to promote General Lawton to be a Brigadier General in the regular army to fill permanently the vacancy caused by the retirement of General Shafter.

Extended The Copyright.

Washington, Oct. 21.—The President has issued a proclamation extending the benefits of the International Copyright law to Costa Rican publications.

Race War Ends Fatally.

Decatur, Ala., Oct. 21.—There are two dead negroes, three or four badly wounded and two in jail as a result of a race war at East Decatur. The riot was caused by a negro woman, the wife of Alex Orr, abusing the wife of Charles James, white, a steamboat engineer, for which James severely beat the woman and was waylaid by a negro mob and fired upon. The whites retaliated. Alex Orr, the leader of the negroes has been arrested.

Death in Railroad Wreck.

Hopewell Junction, N. Y., Oct. 21.—In a head-on collision between trains on the Highland division of the New Heven and Hartford Railroad, at this place, one man was killed, several were slightly hurt and about thirty freight cars were piled in a battered heap on the tracks. William Filbert, a freight handler, was pinned in the wreck for two hours and he expired within thirty minutes after being extricated.

Voorhees Names New Trustees.

Trenton, N. J., Oct. 21.—Governor Voorhees has named two new trustees for the State Industrial School for Girls. They are Patrick O'Mara, of Bayonne, and Noble C. Bristol, of Newark. This completes the Board and the six members have begun an examination into the evidence deduced at the recent investigation into the conduct of the institution.

Would Like Lindsay's Place.

Lexington, Ky., Oct. 21.—Judge W. H. Holt, former Chief Justice of the Court of Appeals, of Frankfort, in an interview said: "If the next General Assembly shows a Republican majority I shall be a candidate for the Senatorship to succeed Lindsay."

Hanged Himself to Doorknob.

Dayton, O., Oct. 21.—Henry Mamig, aged 41, hanged himself from a doorknob in his room. He was a brother-in-law of Bruno Kirves, who was electrocuted recently for the murder of his daughter, Emma. Hamig had been drinking heavily.

Reed Can Practice Now.

Albany, Oct. 21.—The affidavit of Thomas B. Reed, former speaker of the House of Representatives; which entitles him to practice as an attorney in this state, has been filed with the Court of Appeals.

Increases Chicago's Population.

Chicago, Oct. 21.—Chicago's population has been increased by 15,000 by the decision of the Illinois Supreme Court, which has ratified the election of last spring annexing part of Austin to the city.

BOTH ARE FOUND GUILTY.

Jury Seals the Fate of Ingham And Newitt.

Philadelphia, Pa., Oct. 21.—After having been out over forty-eight hours, and reporting that they could not come to an agreement, the jury in the Ingham-Newitt case has finally returned a verdict of guilty.

This ends one of the most sensational trials in the history of the United States. Ellery P. Ingham was United States District Attorney in Philadelphia, preceding Mr. Beck, and Harvey K. Newitt was Ingham's law partner.

They were accused of complicity with Jacobs and Kendig, counterfeiters, who had long cheated the government by making counterfeit revenue stamps for cigar boxes. They were engaged in the much larger enterprise of counterfeiting United States greenbacks. Learning that the Secret Service detectives were on their track, they sought to buy the latter off until they had finished their plates and issued enough counterfeit notes to make them wealthy.

The government accused Newitt and Ingham of conspiring with Jacobs and Kendig to bribe the detectives. The defence was that they acted simply as counsel in a business transaction and had no knowledge of the counterfeiting.

A singular feature of the trial was that District Attorney Beck was for years a warm friend of his predecessor, Mr. Ingham.

DO THEY WANT TO SURRENDER?

Filipinos Seek a Conference With General Otis.

Manila, Oct. 21.—Three Filipino officers entered Angeles yesterday and applied to General MacArthur for permission for a Filipino commission, headed by a Filipino major general, to visit General Otis in order to discuss peace terms and to arrange for the delivery of more American prisoners, as well as to discuss methods for the release of the Spanish prisoners.

The request was referred to General Otis. The insurgent officers are expected to return at any moment to receive his answer.

Dynamite Kills Four.

Nyack, N. Y., Oct. 21.—An explosion of dynamite in a shanty at the quarry of Foss & Conklin's stone crushing works, at Rockland Lake, caused the death of four men and the injury of four more. The shanty was used to afford protection to the men while blasting was going on. The shanty was blown to pieces while the men were in it. There was not known to be any dynamite in the building. Two men, Frank Supliski and John Harikol, both Austrians, were killed instantly. Hugh McHugh, an American, having a wife and family, and Joseph Kuderbee, an Austrian, unmarried, died shortly after the explosion. Six men escaped from the building uninjured.

Renders An Important Ruling.

San Francisco, Oct. 21.—The local custom house has been advised by private telegram from Washington of an important decision of the attorney general of the United States construing the provisions of the latest Chinese exclusion act. It affirms a recent ruling of Collector Jackson, subsequently sustained by the secretary of the treasury, which was bitterly opposed by the Chinese minister and members of the Chinese embassy. It is held that under section six of the exclusion act it is necessary to show not only that the applicants are merchants but also the character of their business and the time and place where such business has been followed.

Charged With Robbing Dewey.

New York, Oct. 21.—Francis J. McKelvey, who said he was a laborer and lived at No. 80 Ray street, Philadelphia, was arrested by Thomas A. Meade, a detective of the harbor police, and arraigned in the Centre Street Police Court on a charge of grand larceny. He is charged with stealing twelve pieces of baggage from the cruiser Olympia, which are said to be the property of Admiral Dewey, and which contained curios, mementoes and costly presents valued at between $3,000 and $4,000. McKelvey was held in $1,000 bail to enable the police to locate the stolen baggage.

Bite Will Cause Her Death.

Evansville, Ind., Oct. 21.—A week ago Mary Adwell, a colored woman, was bitten on the right hand by Kate Hopkins, another colored woman. She did not notice the wound until Friday, when she was compelled to go to a hospital and undergo an operation. The physician says she has developed lockjaw and it will be impossible to save her life.

Young Oxley Goes Free.

Bridgeport, Conn., Oct. 21.—It has been announced by State's Attorney Fessenden that a nolle had been entered in the case of Albert H. Oxley, who was charged with murder in the second degree in connection with the death of Emma Gill. This ends the Gill tragedy as far as the criminal courts are concerned.

Choynski Defeats Ryan.

New York, Oct. 21.—Joe Choynski defeated Jim Ryan of Australia, at the Broadway Athletic Club in the seventh round of what was scheduled to be a twenty-five round contest. Ryan was outclassed from the start.

Dr. Pietak Defeats Prade.

Vienna, Oct. 21.—In the lower house of the Austrian reichsrath, Dr. Pietak, a Pole, was elected first vice-president, defeating Herr Prade, the German candidate, by a vote of 197 against 165.

Johnston May Succeed Morgan.

Birmingham, Ala., Oct. 21.—Governor Johnston's plan for nominating legislators has been carried in the largest county, giving him first blood in the race for Senator Morgan's seat.

Bubonic Plague Raging in Spain.

Toledo, Spain, Oct. 21.—There has been a serious outbreak of a disease suspected to be the bubonic plague in Quero, near Toledo. More than 200 persons have been attacked.

New York Announcement.

Horner's Furniture

is the subject of this announcement. The term stands for everything that is reliable and fashionable in Furniture, in both the simple and ornate lines, whether wanted for town or country homes. Two other important features are the moderate prices at which the goods are marked, and their unequalled assortments.

Dining-Room Furniture in all finishes of Antique, Belgian, Flemish and Golden, with Tables, Dining Chairs, China Closets and Side Tables to match.

Bedroom Furniture in all the various woods and finishes, including special lines for country homes. Brass Bedsteads in over 70 patterns from $15.00 upward. Enameled Iron Bedsteads from $4.50 up.

Latest designs in Parlor Furniture, Library Furniture, Hall Furniture, Venetian Carved Furniture.

Couches, Settees, Easy Chairs, Rockers, Morris Chairs, Dressing Tables, Cheval Glasses, Writing Desks, etc., etc., all in unequalled assortments, and all prices.

Send for Illustrated Handbook, "Our American Homes and How to Furnish Them."

TEETH.

If you have any to be extracted remembe you will not be hurt in the slightest. My local anæsthetic is the best that can be obtained and is not known to the other dentists in this city. Gas strictly fresh administered by an expert if you want that. If you need artificial teeth you may rest assured that the greatest care will be exercised in selecting shape and color to harmonize with the face, also to restore the features to their natural expression and fullness. This is most important.

Burned Negro at The Stake.

St. Louis, Oct. 21.—A special to the "Post Despatch" says: "A posse near St. Annes, Miss., captured Joe Lefiore, a negro, who confessed that he and Bob Anderson went to the house of J. H. Gambrill, at St. Annes, tied Mrs. Gambrill and four children together, piled a feather mattress on them, poured oil on the pile, cremated the family and robbed the house. Lefiore was burned at the stake. Bob Anderson was caught and partly burned, but the fire was extinguished before he was dead because information which may clear him was received."

Jacob Terhune Dead.

Hackensack, N. J., Oct. 21.—Jacob Terhune, a wealthy Hackensack farmer, who had not spoken to his wife for fifteen years till a few days ago, is dead. A year ago Mrs. Terhune left her husband. He sent for her on Sunday when he was told that his end was near. Both were individually wealthy, and the reason for their long silence was a dispute about the management of the farm. P. C. Terhune, secretary of the Gentleman's Driving Association, was a son of the deceased, but he was always on the side of his mother.

Soldiers Lose Their Votes.

Albany, N. Y., Oct. 21.—The soldiers in the Philippines will not have the opportunity of voting at the coming election. Registry books were sent to their commanding officers by the Secretary of State, but no returns have been received. As the official ballots and list of nominations will not be ready until next week, no attempt will be made to forward them to Manila, on account of the short time intervening before election. The ballots and nominations will be sent, however, to the soldiers in Cuba and Porto Rico.

Shot Them For Turkeys.

Altoona, Pa., Oct. 21.—The Rev. L. D. Ott, the Methodist minister at McVeytown, and his two sons, about 9 and 12 years old respectively, while out hunting were shot by Gasper Gro, who mistook them for turkeys. Mr. Ott was shot on the forehead, one son was shot on the forehead, and rib and the other son was shot on the wrist. The shots that struck them on the head glanced off, or they would have proved fatal, as the minister and his sons were only about twenty yards from the gun.

She Had Money to Burn.

New Albany, Ind., Oct. 21.—Julia A. Wilson, of Thackeray, Ill., spent all day Thursday in the County Jail here as a pauper, but had $110.000 in certified checks and mortgages in an old hand bag. She was in rags, and she claimed to be penniless and without a home. It was found she had been ejected from a train at Entfield, Ill., for nonpayment of fare and had been given charity passes at Evansville, Ind., and at Huntingsburg, Ind. She once resided at Lafayette, Ind.

Industrial Convention in Texas.

Dallas, Tex., Oct. 21.—The State Industrial Convention assembled here with fully 1,000 delegates present. The address of welcome was delivered by Judge George N. Aldredge. At its conclusion the Hon. R. B. Hubbard, former United States Minister to Japan, began an address on Oriental commercial affairs and the interest Texas and the United States have in them. The Hon. John Barrett, former United States Minister to Siam, will speak to-day on a similar subject.

Schneider Dies of His Wounds.

Vienna, Oct. 21.—Col. Schneider, the former Austrian military attache at Paris, whose name has been prominently connected with the alleged treason of former Capt. Alfred Dreyfus of the French army, and who, it is generally understood, fought a duel about Oct. 13 with Capt. Cuignet of the French army, as a result of statements made by the captain at the Rennes court-martial, is dead.

THE MARKETS.

New York, Oct. 21.—Stocks were quiet and steady. Changes in prices were small, but prominent issues showed gains.

Chicago, Oct. 21.—Closing prices: Wheat 69⅝, corn 30¾, oats (Dec.) 22⅝, pork 7.87½ lard 5.17½.

A Gigantic Enterprise.

During the last three months what is pronounced by experts the most remarkable piece of electrical engineering in the country has been accomplished, after three years of labor and six hundred thousand dollars expended in the enterprise: that is, the Santa Ana River, which comes out of the San Bernardino Mountains, has been bridled, and its power is now transmitted to Los Angeles, some eighty-two miles distant. In a word, 9,000 horse power is made to propel machinery, move street cars and illuminate and even heat buildings in Los Angeles, besides furnishing illumination and power for several villages—as Redlands, Riverside, Colton and Ontario—beween the mountains, and the engineers seem to agree that the most remarkable feature in this development of the power on the Santa Ana River is the transmission of electricity of a high voltage over eighty miles of wire with so little loss of energy, the company finding, in fact, that it can send electricity of 30,000 volts, having a working efficiency of 4,000 horse power a distance of eight-three miles with a loss of but ten per cent.. After doing its work in the production of electrical energy, the mountain stream is gathered into a conduit and led down the mountain side to irrigate the orchards and groves in San Bernardino valley.

Aged One Hundred and Six.

Nathan Tinker Draper, of Grand Rapids, Mich., is 106 years old. He was born in New London, Conn., has been married twice, but both wives are dead. The old man draws a pension of $12 a month because of the killing of one of his sons in the War of the Rebellion, but never saw any service himself. He has been a gardener nearly all his life, and is still able to do a little "fussing" about the yard, but not for any length of time. He says he remembers Thomas Jefferson very well, but never saw Washington. He has been a smoker all his life, but never to excess. He also drank liquor in his younger days, but never to an intemperate degree.

BOERS RETREAT IN PANIC.

Could Not Withstand Hand-to-Hand Battle With the British Forces.

THE BATTERIES SILENCED

Boers Return After First Repulse and Give the Britains a Stubborn and Determined Fight.

Five Boer Guns Captured By The Englishmen At Ladysmith—The British Fire True and Deadly—Five Transports Leave Southampton for South Africa.

London, Oct. 21.—The War Office has received this official despatch from Ladysmith.

"This from Glencoe:—'We were attacked by a Boer force roughly estimated at four thousand. They had placed four or five guns in position on a hill 5,400 yards east of our camp, and they fired plugged shells. Their artillery did no damage.'

"'Our infantry formed for attack, and we got our guns into position. After the position of the enemy had been shelled, our infantry advanced to the attack, and, after a hard fight of seven hours, an almost inaccessible position was taken, the enemy retiring eastward. All the Boer guns have been captured. We can see our soldiers at the top of the hill. Our cavalry and artillery are still out.

"General Symons is severely wounded in the stomach. Our losses are heavy. They will be telegraphed as soon as possible. General Gates has assumed command."

The British Were Successful.

Glencoe Camp, Oct. 21.—The battle fought on Friday was a brilliant success. The Boers got a reverse which possibly may, for a time at any rate, check all aggressive action.

The British artillery practice in the early part of the day decided the battle. The seizure of Dundee Hill by the Boers was a surprise, for, although the pickets had been exchanging shots all night, it was not until a shell boomed over the town into the camp that their presence was discovered. Then the shells came fast. The hill positively was alive with the swaming Boers, still the British artillery got to work with magnificent energy and precision.

The Boers who threatened the British rear have retired.

The fight almost was an exact counterpart of that at Majuba Hill, except that the positions of the Boer and British forces were reversed.

A rough estimate places the British loss at 250, killed and wounded, and that of the Boers at 800.

In Fierce Battle.

Ladysmith, Natal, Oct. 21.—Four thousand Boers, with twelve guns, made an attack on the British camp at Glencoe, but were repulsed with heavy loss. At dawn, after a day of fierce fighting, the artillery fire became furious. The Boer guns were badly served, while the British fire was true and deadly. The Boer batteries were silenced and the British troops charged the Boer intrenchments.

Over the banks they went with a rush, and after desperate hand-to-hand fighting the Boers retreated in panic.

The British captured five guns. This battle began in a flank attack by a column of Boers that had crept around in the rear of the camp. They were manoeuvring to force a wedge between the British troops here and at Glencoe to cut off the camp there from support to General White's main body. General Symons, commanding at Glencoe, was wounded. The Boers returned after their repulse, and the British were hard pressed. Part of the Boer artillery was posted on a hill that commanded every part of the camp. The English guns were trained on this battery and a rapid fire was concentrated on it. As soon as the Boers' guns were silenced the King's Rifles and the Dublin Fusiliers were ordered to charge the enemy's position. They advanced under cover of the British guns 2,000 yards distant. The telegraph operator at Glencoe telegraphed Ladysmith: The Dublin Fusileers silenced the first Boer battery, the Britishers going clean over the hill. Five of the Boers' guns were taken. The fighting was heavy.

5,000 Off for Natal.

London, Oct. 21.—Everything has been bustle and hurry at Southampton over the departure of five transports, each carrying a thousand men, for South Africa. They are bound for Port Elizabeth, Port Alfred and East London, from which points railroads converge directly upon the Free State border, where concentration will be effected somewhere in the neighborhood of Norval's Point on the northern frontier of Cape Colony.

Cannot Help Carter.

New York, Oct. 21.—Judge Lacombe, in the United States Circuit Court, has handed down a decision dismissing the writ of habeaus corpus in the case of former Captain Oberlin M. Carter, who was dismissed from the army and sentenced by court martial to five years imprisonment for defrauding the government in harbor contracts. The decision, which upholds the finding of the court martial, was accompanied by a lengthy opinion. Counsel for the former army officer may take an appeal from Judge Lacombe's decision, and it is expected that the final move for the prisoner will be made on Monday.

October 23—Union Bible class taught by Rev. D. M. Stearns, Y. M. C. A. Hall, 7:45 p. m.
October 30—Y. M. C. A. Star Course.

Dennis B. Ryan, a resident of Jersey City, has testified before the industrial commission, now sitting in Washington, in a way to throw some light on the trust-making industry as carried on in New Jersey. "I have helped organize during the last year several hundred trusts and corporations in New Jersey," said Mr. Ryan. "I have two friends in New York city authorized to insert my name as resident director and agent in the articles of incorporation. For this they have given me a fee of $5 each time. As soon as the charter was granted I resigned from each corporation."

One of Senator Proctor's lieutenants in the plan to nominate Dewey for President is credited in the New York Work with saying that of the fifty-one members of the national committee sixteen are set down as being positively unfriendly to the present administration and hoping to see the President defeated for re-election; seven are suspected of entertaining the same opinions, but are likely to keep their views to themselves until the movement assumes a more definite shape, and five are for the winner, whoever he may be.

Chancery Clerk Thompson is reported to have appeared in Trenton last Monday morning with a broad smile on his face and now and then laughing out right at what he claimed was Senator Reed's defeat in the Republican primaries in Somerset county. Mr. Thompson is in a position now to appreciate the aptness of the axiom "he who laughs last laughs best."

According to a table issued by the Post-office Department showing the expenses and net profits of the post-

CHICAGO'S NEW FEDERAL BUILDING

On October 9, the twenty-eighth anniversary of the great Chicago fire, President McKinley laid the cornerstone of Chicago's new federal building, which is to cost $7,000,000. The building will occupy the block bounded by Adams, Dearborn and Clark streets and Jackson boulevard. When completed the structure will be used by the postoffice and treasury departments.

offices in the various towns and cities in New Jersey, Plainfield texpends $19,162.48 in maintaining the local service, but notwithstanding this big sum it is able to show a net profit of $16,988.94 for Uncle Sam last year.

The remains of what are supposed to be a mastodon have been found buried six feet under earth near Rahway. Fudge! Mastodon nothing. The remains are undoubtedly those of some of the "busted" booms of the Republicans of Rahway.

The Republican primaries will be held next Monday night, and the Democratic primaries the following Wednesday. It is quite as much the duty of the members of each party to attend their respective primaries as to vote on election day.

The Philadelphia Inquirer, the stalwart Republican organ in Philadelphia, refers to New Jersey's Governor as "Mysterious Voorhees."

The Rahway Advocate appears this week in enlarged and uptodate form—seven column, eight page paper—a sign of deserved prosperity.

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

Considered as a production, that lively musical comedy "The French Maid," which comes to Music Hall next Tuesday night, will be found to be one of the most pretentious and complete ever shown here. The entire equipment used in the long runs at the Herald Square Theatre, New York, and at the Park Theatre, Boston, will be used, and the scenic and costume accessories are of the most brilliant kind. The company that will be seen here is in the main the original American one, and includes some of the brightest lights in comedy, burlesque, opera and ballet. The chorus is large and effective and has the charms of youth and beauty. Fully fifty people engage in the performance, the development of the story requiring some twenty principals whose work is aided by a large ballet and complete chorus. The piece is classified as an English musical comedy, and is in a general sense similar to "The Runaway Girl," "The Circus Girl," "The Ballet Girl" and "The Girl from Paris." In the company which will he seen here are many well-known and popular people including Frank B. Blair, Hallen Mostyn, Edd Redway, Howard Truesdell, Cortland Auburn, Henri Laurent, Clinton Elder, Edith Murilla, Anna Barclay, Madeleine Lowrie, Lillian DeGross, Susie Rockamore and Marie DeBeau.

* * * * *

At Music Hall Saturday of next week Charles Hoyt's most phenomenal success "A Contented Woman," a satire on the women in politics, will be presented. So much has been written and said concerning the pronounced success of this, the funniest of all the Hoyt comedies, it is not unnatural that theatre-goers look forward to the coming engagement with much pleasure and anticipation. The piece comes endorsed by the entire New York press, where it enjoyed a most prosperous run. The cast is announced as the strongest and most talented Mr. Hoyt has ever organized, including as it does, many favorites who have been frequently seen in other Hoyt successes. Miss Belle Archer, formerly leading lady with Nat. C. Goodwin, and whose wonderous beauty has been the subject of song and story, will be seen in the title role.

* * * * *

That amusement seekers may be informed of forthcoming attractions at Music Hall, Manager Maze Edwards has furnished a complete list of his bookings and offerings for the coming three weeks, as follows: Tuesday, Oct. 24th, "The French Maid," the English musical comedy which had such great success at the Herald Square Theatre, New York; Saturday, Oct. 28th, Hoyt's best work "A Contented Woman," with Belle Archer and strong supporting cast; Tuesday, Oct. 31st, "A Patriot Spy," a dramatization of Fennimore Cooper's work "The Spy" by Miss Levenia Dempsey, queen of Holland Dames; Friday, Nov. 3d, the famous play "Blue Jeans;" Monday, Nov. 6th, Go-Wory-Go-Mohawk, the Indian actress in a new drama of frontier life; Thursday, Nov. 9th, "The Gunner's Mate," a new nautical drama by Augustus Pitou, manager of the Grand Opera House, New York. All of these offerings and engagements will be interpreted by first-class people, with the addition of original scenery and accessories. In the selection of attractions, Manager Edwards has used his best endeavorers to present clean and wholesome entertainments at all times, and the forthcoming offerings are worthy of liberal patronage. Many other notable engagements have been effected and will be announced in due time.

Bismark's Iron Nerve

Was the result of his splendid health. Indomitable will and tremendous energy are not found where Stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25 cents at L. W. Randolph's drug store.

See Here Tonight.

Little gents, youths, boys and girls shoes, 98 cents, $1.25, $1.50 up. Pencil case and contents or a 100 sheet 7x10 school pad, free with each pair. The best men's and women's $1.50, $2 and $3 shoes we ever sold for the price. Doane & Edsall.

—VanArsdale is showing up a good selection of shoes for everybody for the fall and winter trade in medium and fine goods.

DOES COFFEE AGREE WITH YOU?

If not, drink Grain-O—made from pure grains. A lady writes: "The first time I made Grain-O I did not like it but after using it for one week nothing would induce me to go back to coffee." It nourishes and feeds the system. The children can drink it freely with great benefit. It is the strengthening substance of pure grains. Get a package today from your grocer, follow the directions in making it and you will have a delicious and healthful table beverage for old and young. 15 and 25c.

Democratic Primaries.

Notice is hereby given to the Democrats of the city of Plainfield that the primaries for the election of delegates to the Democratic county convention, to be held in Turn Hall, Elizabeth, Friday, October 27th, will be held in the various wards of this city

WEDNESDAY, OCT. 25th.

The business to be transacted at these primaries will also include the election of members of the Democratic County Executive Committee, as well as propositions for the thorough reorganization of the party in Plainfield.

The places of holding the primaries in each of the wards, as well as the number of delegates each is entitled to, are as follows:

FIRST WARD, four delegates, vacant store in Voehl building, 320 East Front street.

SECOND WARD, three delegates, Bryant Schoolhouse, East Sixth street entrance.

THIRD WARD, three delegates, basement Revere House, Park avenue.

FOURTH WARD, eight delegates, T. A. B. Hall, West Fourth street.

It is the duty that every Democrat owes to his party to attend the primary in the ward in which he votes.

JOHN H. HILLMAN,
Pres. Democratic Asso'n.
W. W. ST. JOHN, Secretary.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it: no break. Call and see us use it. Always welcome.

to the
Consumer.

For the past three weeks we have been very busy bringing from our factory bundle after bundle of our Fall and Winter stock and arranging them on our tables. We didn't say a word about them because we wanted to display our line in full and then scream.

NOW WE'RE READY TO SCREAM.

We never scream unless we have something to scream about, and we won't scream about anything that we can't substantiate. We are showing as extensive a line of clothing as any store in the vicinity, and the prices are right. The cut and finish is there and all extra profits are off. Besides our staple blacks and blues, we are showing a variety of up-to-date worsteds, with and without double breasted vests in stripes, checks and plaids. Everything that the designers art and fine tailoring can do is in them. We are proud of our stock and want everybody to see it. Come and look at it whether you want clothing or not, you will be treated right.

Below We Quote a Few Prices:

Men's Black and Blue Cheviot suits 2.75, 3.75, 4.25, 7.25, 8.00 and 9.00.
" Fancy Cheviot suits 3.25, 4.25, 5 00, 6.00, 8.50.
" Fancy Worsteds, elegant 7.50, 9.75, 10.50, 11.00.
Boy's long pant suits 3.00 to 8.75 Child's knee pant suits 95c to 4.00.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN

(Special Correspondence of The Daily Press.)

Dunellen, Oct. 21—Dunellen is having a slight building boom at present. In fact more new buildings are being built this fall than in some years before. Among those who are putting up new houses are: Dr. W. J. Nelson on Prospect avenue, Dr. M. J. Whitford on Center street, Lawrence Reidy near the water tanks, Thomas Costello on Lincoln avenue, Eugene Runyon and John Lloyd on Dunellen avenue, Mrs. H. L. Terry on Main street, Chas. C. Dunham on Walnut street and Willard N. Apgar on Front street.

The Dunellen foot ball team will line up against the Somerville boys this afternoon. This game is expected to be very exciting and closely contested. The Summit Y. M. C. A. and the Orange Y. M. C. A. will also contest for supremacy at 3:30 on the Lincoln grounds.

Rev. A. I. Martine, pastor of the Presbyterian church, accompanied by Mrs. Martine, attended a family gathering of the Wyckoff family at Flemington a few days ago.

Rev. Dr. Jamison will preach tomorrow on "The Veil of Leaves," at the morning service in the Methodist church and in the evening on "Moth Eaten Men."

Friends of Miss Imogene Smith, a teacher in the public school at Lincoln, will be pleased to hear that she has been given an increase in salary.

Mr. and Mrs. W. W. Thompson, of West Chester, Pa., have returned to their home after a pleasant visit with Mrs. Elizabeth Vars.

Rev. Dr. Fletcher, pastor of the Baptist church, will preach on the prodigal son at the evening service tomorrow.

Mr. and Mrs. Lewis Coryell have returned to their home in Jersey City after a pleasant visit at Cedar Cottage.

George F. Giles has been driving wells for the new house being built by Messrs. Lloyd and Runyon.

A missionary meeting will be held tomorrow evening in the Presbyterian church at 6:45 o'clock.

Mr. and Mrs. W. L. Tinsman have returned from an extended visit with friends at Port Chester.

Mrs. A. D. Smalley will have as her guest over Sunday George B. Evans, of Perth Amboy.

Mrs. Benjamin is entertaining her mother, Mrs. Morris, of Brooklyn.

PLAINS AND FANWOOD.

(Special Correspondence of The Press.)

Scotch Plains, Oct. 21.—Twilight Council, Jr. O. U. A. M., held their regular weekly meeting in their rooms last night. Important business relating to the Grand Council meeting to be held in Trenton next week was transacted. E. L. Hand will attend the meeting as a delegate from Twilight.

No clue has yet been found to the thieves who looted the Thomae house of a quantity of lead pipe. Mr. Thomae has had circulars printed and distributed among the junk dealers throughout this section, and it is hoped in this way to capture the thieves if the stuff is offered for sale.

The Republican primary for the electing of delegates to the party convention to be held in Elizabeth Thursday of next week will be held in Excelsior Hall Monday.

The trolley people are trimming up the Park avenue crossing and Westfield avenue, prepartory to opening the extension to Westfield shortly.

The subject of Rev. G. M. Shott's sermon for Sunday morning will be "The Disciples and His Task." In the evening "A Little Barley Loaf."

Mrs. Carmon Parse, of Plainfield, was the guest of her sister-in-law, Miss Susie Parse, yesterday.

Horace Hand, of Plainfield, was the guest of friends in the village last evening.

Miss Kittie Buckley visited friends in Plainfield Friday.

WASHINGTONVILLE.

(Special Correspondence of The Daily Press.)

Washingtonville, Oct. 21.—There was a merry time up at Washingtonville Thursday night. All the boys and girls were out in their best bib and tucker and they gathered at the new barn of Silas Winans, which had been handsomely decorated with the national colors and the fruits of the harvest. The boys came provided with Prof. Blume's orchestra. There were about forty couples, gathered from the nearby farms and the young folks waltzed, polked and schottisched to their full satisfaction until toward daylight.

We give no rewards. An offer of this kind is the meanest of deceptions. Test the curative powers of Ely's Cream Balm for the cure of catarrh, hay fever and cold in the head and you are sure to continue the treatment. Relief is immediate and a cure follows. It is not drying, does not produce sneezing. It soothes and heals the membrane. Price 50 cents at druggists or by mail. Ely Brothers, 56 Warren street, New York.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders.

—Next Tuesday night Winfield Scott Post, No. 73, G. A. R., will elect officers.

—A meeting of the Literary Society of the Y. M. C. A. will be held Monday evening.

—A fair will be held in Reform Hall Nov. 6-11, under the auspices of the Reform Club.

—There is now one case of contagious disease in the borough and that is in light form.

—The gutters and streets of the borough are being cleaned out preparatory to the arrival of winter.

—The display of furs, golf capes and dress goods at Woodhull & Martin's store, attracts considerable attention.

—One week from Monday night there will be an important meeting of the board of governors of the hospital.

—Rev. D. M. Stearns will meet the Union Bible class and others interested at the Y. M. C. A., Monday evening.

—West Front street has been recently cleaned under the direction of the street commissioner and it presents a better appearance.

—The "Circle of Earnest Workers" will hold a grand fair and entertainment at Bethel chapel, November 15th, 16th and 17th.

—Randolph, the prescription druggist, is making a specialty of licorice, which is a valuable thing this time of year. See the window display.

—Greenbrook Council, Royal Arcanum, held a regular meeting on Thursday evening and enjoyed a visit from members from an out-of-town Council.

—John VanMiddlesworth, brakeman on the 8:30 o'clock "club car" train, is now filling the position of baggagemaster temporarily on the same train.

—Of late some excellent improvements have been made in the parish house of the Church of the Holy Cross, and several other changes are being planned.

—A dime sociable under the auspices of Martha Washington Council, No. 23, Daughters of America, will be held at the residence of Mr. and Mrs. George Allen, of Linden avenue, Tuesday evening.

—Star of Plainfield lodge, Shepherd's of Bethlehem, will give a social entertainment at Grand Army Hall, East Front street, Wednesday evening, October 25th. Admission, including supper, $1.

—The management of the Hotel Kensington expects to have the improvements, now being made, completed in about three weeks. The new addition is enclosed and the work of plastering almost completed.

—Next week the State Council, Jr. O. U. A. M., will meet in Trenton in annual session. It is expected to be the most important session ever held as there will be a discussion of the increased assessment and reduced representation.

—There will be a Dewey concert in Washington Hall, Thursday evening, November 9th, under the auspices of the Rainbow Circle of Fillmore Baptist church. Madame Harper, the prima donna, will appear. Proceeds for the benefit of the pastor's fund.

Volcanic Eruptions

Are grand, but Skin Eruptions rob life of joy. Bucklen's Arnica Salve, cures them, also Old, Running and Fever Sores, Ulcers, Boils, Felons, Corns, Warts, Cuts, Bruises, Burns, Scalds, Chapped Hands, Chilblains. Best Pile cure on earth. Drives out Pains and Aches. Only 25 cents a box. Cure guaranteed. Sold by L. W. Randolph, Druggist.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

Custom often outlives the necessity that called it into being. An example of this is the ringing of the 8 o'clock bell each Sunday morning at St. Andrew's Episcopal church, Mt. Holly in Burlington county. Many years ago, for St. Andrews has had an existence of 150 years, services were not held regularly in the church, and it was the custom to ring the bell at this early hour, whenever services would be held, to give time for preparation for church going. For an indefinite number of years the bell has been rung every Sunday, as the services became regular. Some years ago, a new rector advocated the abandonment of the old custom as the bell called to no service, but the townspeople protested against the abolition of the old time honored custom of the 8 o'clock church bell, and the chimes of St. Andrews still ring out in the morning air.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

Mulford Estil, of Grove street, has been attending the exposition at Philadelphia.

The home of Letter-carrier Pearson has been brightened by the arrival of a baby girl.

Miss Susie Woodland, of Craig place, has gone to Boston, Mass., to visit friends.

Mr. and Mrs. Weida, of West Front street, have been entertaining relatives from Elizabeth.

Mrs. Harry Brokaw, of Somerville, has returned home after a visit with Plainfield friends.

Mrs. John H. VanWinkle, of Duer street, has gone to Atlantic Highlands to visit her parents.

Elijah Dufford, of Middle Valley, is visiting his son, George Dufford, of West Second street.

Frank Frost, of New York, formerly of Plainfield, is spending a few days with friends in town.

Mrs. Segar, of Hope Valley, R. I., is visiting her daughter, Mrs. Albert Demarest, of Craig place.

Miss Pittinger, of the borough, has returned from North Branch, where she has been visiting relatives.

Samuel Tucker, formerly of this city, but now of Newark, is seriously ill at his home with appendicitis.

Miss Maude VanDyke, of East Front street, has returned from a visit with Somerville relatives and friends.

Miss Minnie Wilson, of "Tunlaw," has returned from a visit with Judge and Mrs. Arnold, of Philadelphia.

Mrs. Joseph Lowenstein, of New York, has returned after a visit with Mrs. S. V. Bonn, of Sandford avenue.

Fred M. Dunn, the grocer, is spending sometime at Southern Pines, N.C., where his wife is stopping for her health.

Andrew Cox, of Liberty street, has secured work at Montclair which will keep him away from home for over a month.

Mrs. P. M. Demarest, of Craig place, has gone to Chicago to visit relatives, where she will be joined by her husband shortly.

Mrs. Charles Westphal, of Brooklyn, who has been visiting her daughter, Mrs. Fred Schomp, of South Second street, has returned home.

Mr. Perrin has moved into the house on Rockview avenue recently vacated by Mr. McCutchen, an exchange having been made.

Walter Bennett, of the borough, has about recovered from the effects of the accident he had a week ago when he received a shock of electricity.

Mrs. T. W. Powell's Sunday-school class was entertained at the home of Mr. and Mrs. Corra Ryno, Codington avenue, last Thursday evening.

John Powers, the Somerset street druggist, is once more able to attend to business, after suffering a painful injury by falling from his wheel.

Miss J. T. Wyckoff, who for the past four years has been superintendent of the Plainfield Women's Exchange, resigned her position October 1st.

Arthur Serrell, of Washington Park, has entirely recovered from the effects of an attack of typhoid fever, and will soon resume his position in New York.

Samuel St. John McCutchen, who has resided on Rockview avenue for a number of years, has moved into the house on Rockview avenue recently occupied by Mr. Perrin.

Sure to Get It.

Periodically our British brethren send their very best yachting model over here to get satisfaction, and they are sure to get it; and that's what you are certain to get at Collier's for all goods purchased or repaired, with this difference, that its the kind of satisfaction that pleases both sides.

Elected a Vice-Councilor.

At the sessions of the State Council, Daughters of America, held in Newark Thursday and yesterday, Mrs. Tillie S. Biker, of Central avenue, was elected associate vice-councilor.

Catarrh Cannot be Cured with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free.

BAMBERGER'S

"THE ALWAYS BUSY STORE"

MARKET & HALSEY STS.

SATURDAY GARMENT SALE AT HEADQUARTERS.

THE greatest department, carrying the largest, most varied and handsomest stock in the State invites you with thousands of unapproached and unapproachable bargains. In spite of every contention to the contrary our regular markings throughout are far and away below prices quoted in so-called "special sales." Inspect our assortment of Ladies', Misses and Children's Garments, make impartial comparisons, and we have no fear of the verdict. We not only say so, but DO undersell all others, and so confident are we that no real rivalry exists that we challege anybody in this city, New York or elsewhere to match these few offerings taken at random from the many for the money. Satisfied customers are the only kind found here, for a guarantee of satisfaction or money refunded is a part of every sale. Do not miss the unusual opportunities for repetition in many instances will be impossible.

Ladies' and Misses' SUITS. Strictly tailor-made of all-wool cloths, including black and navy cheviots or grays, blue and brown thibet spuns, silk lined jackets in fly front and double-breasted styles, habit, saddle and plait back skirts, bargains at 13.50, special at 9.50

Saturday Only Wrappers. We control the sale in Newark for the world's best house dress and wrapper maker, and we offer a lot of light and dark fleece lined flannelette and percale wrappers, with fancy yokes and figured front and back, with strap across, some with epaulettes over shoulders, braid trimmed, separate fitted waists linings, skirt 4 yards wide, sizes 32 to 46, worth 1.25 to 1.49, special at 89c

Ladies' and Misses' JACKETS. A choice line of samples picked up Thursday in New York, including black, tan, castor, brown and blue Kerseys, handsomely lined with taffeta silks or heavy satins, not one from beginning to end of the lot worth less than 15.00, special at... 9.98

Child's Separate Skirts Made in the very latest style of all-wool serge, and mohair in beautiful plaid effects, navy, red and royal, extra wide, gored and with deep hems, sizes 8 to 14 years, good value at 4.50 each, special at..... 2.98

Child's Long Cloaks of strictly all-wool Boucle and ladies' cloth, some with large military capes, also fancy shaped collars trimmed with fur, braid and ribbon, lined throughout with sateen, interlined, sizes 2 to 6 years, worth 4.50 to 7.00 each, at..... 3.98

Child's Military Capes Made of hand some all-wool two-toned cloths in blue, with red lining and hoods to match, large storm collars, sizes 6 to 14 years, splendidly tailored, instead of 8.98 each, special at..... 4.98

Children's Dresses Made of all-wool and flannel cloth, some yoke effects, epaulettes over shoulders and down to waist, trimmed with braid and buttons, lined throughout, navy, red, brown and green, sizes 6 to 14 years, worth 3.00 to 4.50, at..... 1.98

WE HAVE MORE FINE FURS than are shown by any two houses in Newark combined, and an inspection is all convincing to posted people that there is but one right place to buy and that place here. Every popular or elegant fur in latest style jackets, capes, collarettes, neck pieces, full sets and muffs. Estimates furnished on repairing, remodeling and redying, and our prices are easily one-third under those asked anywhere. See those electric seal jackets that we bought to sell at 40.00, but decided to make a leader of at, all sizes from 32 to 46 - - - 32.50

THE CROSBY & HILL UNITED STORES.

Plainfield, N. J.
Wilmington, Del.
Morristown, N. J.
Perth Amboy, N. J.

Two Important Features. Dress Goods. Outer Garments.

We said "important features," that is hardly emphatic enough, for as a matter of fact these two sections are the most important features of the store just at this time. Your thought is on these matters. To guide that thought and finally fix it on this handsome equipment of gown stuffs and ready-to-wear garments is the mission of this message.

This store is prepared to demonstrate to your entire satisfaction that for style, for beauty, for worth of material and price modesty these items are worthy of all the emphasis that we can give them.

The New Autumn Plaids.

Touched with warm, rich brightness, woven in every popular color combination; many new and novel effects. As to prices—kindly read on:

79c Silk and wool effects, 40 inches wide.

1.50 Golf plaids, 54 in. wide.

Cloths for Tailored Suits.

Broadcloths, cheviots, tweeds, rough effects; they're all much in demand for tailor-made suits this season. Newest and best here, all shorn of fancy profits.

75c All-wool venetian suiting, 54 inches wide.

90c French broadcloth, 54 inches wide.

1.00 All-wool cheviots, 54 in. wide.

The New Black Crepons.

To say a thing is popular does not make it so. Popularity is measured by demand. The demand for black crepons is such that makers and importers are at their wits end to supply it. Happy the merchant who was farsighted enough to buy early. Need we add our crepons were bought early.

1.00 Silk and wool crepons, 40 in. wide.

1.50 Silk and mohair crepons.

1.75 Silk and mohair crepons.

The New Winter Jackets.

If you knew the time and care which has been spent in gathering this big assemblage of stylish coats together you would fully appreciate the enthusiasm which we feel at the result. It was labor and money well spent. You'll say so when you see what a showing is here.

3.98 Kersey jackets, ½ lined.

7.98 Melton jack'ts full lined.

12.50 15.00 16.50

Fine Kersey and Melton jackets, all satin lined.

Golf Capes.

No more serviceable garment ever made a bid for popularity; no garment ever won its way more completely. We are equipped to supply your golf cape needs for the present, and there's more coming but—first pick always at the beginning of the season.

Tailor-made Suits.

You wouldn't buy a jobby, ill-made suit at any price. That's why we insist on having every suit in this collection perfect. Perfect in fit, perfect in style and perfect in price, for a perfect price is a just price.

7.98 Venetian cloth suits.

10.98 Camel's hair cheviot suits.

12.50 Camel's hair and heavy twilled cheviot effects.

Wieda's

Lokal-Nachrichten aus der alten Heimath.

Provinz Ostpreußen.

Memel. Eine hochbedeutsame Polizeiverordnung hat zum Zwecke der Bekämpfung des Aethertrinkens im Kreise Memel der Landrath Cranz erlassen. Darnach ist der Verkauf von reinem oder mit anderen Substanzen vermischtem Schwefeläther zu Genußzwecken verboten. Der Verkauf und Vertrieb von Schwefeläther überhaupt ist nur gegen eine schriftliche Bescheinigung der Polizeibehörde gestattet, daß der anzukaufende Schwefeläther zu anderen als Genußzwecken Verwendung findet. Zuwiderhandlungen werden mit Geldstrafe eventuell Haft bestraft.

Frauenburg. Der Bischof von Ermland, Dr. Thiel, feierte unter allgemeiner Betheiligung sein 50jähriges Priesterjubiläum.

Provinz Westpreußen.

Danzig. Neulich früh brach in dem Etablissement der Danziger Oelmühle Großfeuer aus. Sechs Dampfspritzen waren thätig; auch die kaiserliche Werft leistete wirksame Hilfe. Mittags war das Feuer gedämpft. Die Oelmühle selbst und ein Oelschuppen wurden mit großer Anstrengung gerettet. Die Getreidemühle, die Stärkefabrik und ein Magazingebäude sind verbrannt. Der Schaden beträgt 1,500,000 Mark.

Elbing. In Tolkemit griff unlängst anläßlich einer Verhaftung ein aus mehreren Hundert Personen bestehender Volkshaufe die Polizeibeamten und den Bürgermeister thätlich an, so daß die beabsichtigte Verhaftung unterbleiben mußte. Nunmehr sind in Folge jenes Vorganges 20 Personen verhaftet worden. Weitere Verhaftungen stehen noch bevor.

Rheinprovinz.

Köln. Der verstorbene Ehrenbürger der Stadt Köln, Geheimrath Dr. von Mevissen, hat der Stadt Köln zur Fundirung der Handelsakademie außer einem beträchtlichen Kapital das große Rubenshaus in der Sternengasse und die hinter demselben gelegenen an die Blindgasse anstoßenden Gebäude letztwillig vermacht.

Aachen. Der verstorbene Kommerzienrath Talbot vermachte 100,000 Mark der Arbeiterpensionskasse seiner Fabrik und 200,000 Mark für wohlthätige Stiftungen.

Barmen. Da die rothe Ruhr hier bedenklich auftritt, wurden elf Volksschulen geschlossen.

Elberfeld. Der verstorbene Rentner August Feisel hat dem Rettungshause der lutherischen Gemeinde 31,500 Mark vermacht.

Viersen. In der Seidenweberei C. Kesselburg, wo ein Ausstand drohte, wurde eine Einigung erzielt, nachdem die Firma drei entlassene Arbeiter wieder eingestellt und 10½stündige Arbeitszeit bewilligt hatte.

Provinz Sachsen.

Magdeburg. In einer Versammlung von Vertrauensmännern des 7. Magdeburger Wahlkreises (Calbe, Aschersleben) wurde der bisherige Reichstagsabgeordnete Sozialdemokrat Albert Schmidt für den Reichstag wiedernominirt. Schmidt wurde kürzlich wegen Majestätsbeleidigung zu drei Jahren Gefängniß verurtheilt. Gleichzeitig wurde auf Verlust der bekleideten öffentlichen Aemter sowie der aus öffentlichen Wahlen hervorgegangenen Rechte erkannt, so daß er sein Reichstagsmandat verlor.

Naumburg. Die hiesige Strafkammer verurtheilte den Maurer Otto Zimmermann aus Lützen, der bei einer Lohnbewegung im Frühjahr anderen Maurern, die sich an der Bewegung nicht betheiligen wollten, gedroht und vor ihnen ausgespien hatte, zu einem Monat Gefängniß.

Provinz Schlesien.

Breslau. Die hiesige Kriminalpolizei verhaftete den seit 1896 gesuchten, in Prerau geborenen internationalen Einbrecher und Hochstapler Franz Skiba, der auch in Wien, Prag, Brünn und Olmütz Verbrechen begangen hat. Gleichzeitig wurden zwei Frauenspersonen festgenommen, die Skiba bei Veräußerung gestohlener Werthsachen behilflich waren.

Neisse. Gutsbesitzer Titze in Schmolitz verletzte im Wahnsinn seine Gattin durch zwei Schrotschüsse lebensgefährlich, worauf er sich durch einen Schuß in den Mund selbst tödtete.

Notice of Meeting of Commissioners of Appeal.

Notice is hereby given that a meeting of the Commissioners of Appeal in cases of taxation for the city of Plainfield, will be held at the Common Council Chamber, 109 Park avenue, on Tuesday, the twenty-fourth day of October, instant, at 2 o'clock p. m., to hear the complaints of any persons who may feel themselves agrieved by any assessments for taxes for the ensuing year, and for the further discharge of such duties as may be imposed upon them by law.

Dated Oct. 12, 1899.

FASHION'S FANCIES.

Floral Decorations For the Table. Costume Accessories.

Flowers are used in great profusion as table decorations. The arrangement is always low, as tall bouquets interfere with social feeling by obscuring the view of guests. Flat baskets and bowls are used, and trails of foliage are carried upon the cloth, but not so as to be an inconvenience to the service.

Muslin and nainsook, plain or embroidered, are used to trim silk gowns. This

FAILLE COAT.

is another variation of the curious fancy for combining wash goods with wool or silk materials, which has been already exemplified by the use of pique and duck applications and stitched straps on cloth costumes.

Large, old fashioned brooches of tinted gold, enamel or inlaying are now turned into belt buckles by the fortunate possessors, who thus obtain an ornament entirely original and individual.

A picture is given of a coat of gray faille. It is short in front and has rounded coattails. The body and sleeves are encircled by applied bands and motifs of blue velvet, and the coat is cut away at the neck and wrists to show a plastron of gray silk plaited horizontally. The collar and cuffs are of blue velvet. This coat may be worn with a blue or gray skirt.

JUDIC CHOLLET.

LINGERIE.

It Is as Thin, Soft and Delicate as Possible.

Underwear is as much subject to the changes of fashion as those articles of apparel which occupy a more public position. Any radical alteration in the style of gowns involves a corresponding alteration in the garments underneath.

The clinging nature of the present mode necessitates the avoidance of all bulky underwear. The thinnest and finest of materials are used and are shaped closely to the figure. Embroidery, insertion and fine lace, all applied in flat ways, are the favorite decorations, although very slender women may use ruffles if they

FALL SACK.

wish. As far as possible, all garments covering the hips are fitted by darts and have neither gathers nor plaits, even the waistband being omitted when it can be done.

Corset covers are made in the form of a short bolero, when they are worn at all, and are tied across the bosom. Fine nainsook or cambric is used, or the covers are entirely composed of bands of lace and embroidery.

The picture shows a long, straight sack of plain cloth. It has a capuchon of the same material, and the fronts are much rounded away. The edge of the capuchon is bordered with a scalloped application of velvet, and a similar application adorns the circular ruffle which finishes the sack. There are velvet cuffs on the plain sleeves. The high, flaring cloth collar is bordered with stitching. Buttons and cords serve for the fastening.

JUDIC CHOLLET.

Champion Speller of His State.

Judge Henry S. Kelly of St. Joseph, who is the author of three law books, is also the champion speller of the state. He can spell any word in the English language with which he is at all familiar. His law books used to be printed in St. Joseph by the old St. Joseph Steam Printing company, and the printers used to watch his copy day after day for mistakes in orthography. There was a belief among them that the judge would pay $10 for any mistake of that kind that the printers would find. The old printers are mostly scattered, but a few of them are here yet. They met the other day and talked about old times, and about Judge Kelly's books. They kept a dictionary close at hand to watch for mistakes, but they never found any. Mike Lawlor was one of the printers, and he was something of a speller himself, but he looked in vain for a misspelled word in the copy furnished by Judge Kelly.—St. Joseph (Mo.) News.

MANILA IMPRESSIONS.

Price of Cigars, the Climate, Ants, Chinese, and Self-Government.

The general appearance of Manila is not imposing, the buildings being usually not over two stories in height, through fear of earthquakes. The streets are paved and rather wider than those in Cuban cities, and are lighted by electricity. The street cars are drawn by the diminutive ponies. The shops are very interesting, both in the Chinese quarters and on the Escolta. The latter is the principal business street. There are new and curious garments in beautiful light and soft silk at prices that are extremely tempting. Men's silk pajamas, for example, at $3.50, would cost at least five times as much in the United States. Khaki uniforms, made to order, cost $4.50, just about half the American price. Anything involving labor is usually cheap. Laundry work is done well, the usual prices being from 3 to 5 cents apiece, while work is done at the penitentiary for 3 cents each piece.

The enterprise of American brewers is everywhere in evidence. Every blank fence and dead wall announces the merits of respective brands, giving quite a home feeling until one discovers that beer costs 50 cents a bottle. The tempting sign of ice cream proved on investigation to be a delusion.

At the great tobacco factory "La Insular" some 3,000 are employed, and we were courteously shown through all the departments. Cigars are the only cheap luxury in Luzon. Cuban cigars are not to be had, though, to suit the preference of some English and Americans, Luzon cigars have Havana labels on the boxes. The filling of the cigar is known as tripa (tripe), the wrapper being called capa (a cape or overcoat). Everyone smokes everywhere except in the churches. The women smoke cigarillos. The cultivation of tobacco was a Government monopoly until 1891. Fines, imprisonment and bodily punishment were inflicted remorselessly upon illicit growers of tobacco.

Good cigars can be bought for $2.40 a hundred, and the very best, each cigar "con anillo y papel plata o oro," wrapped in silver or gold foil, only cost $6 a hundred. The cigar lacks the fine Havana flavor, but those at $2.40 a hundred are quite good enough for ordinary smoking, far better than the usual ten or twelve-cent cigar in the United States, and without any rank odor or taste. The best tobacco, the Escalante leaf, is raised in the northern part of Luzon. A very fine leaf is also grown in Degros, Cebu and Minanao; that from Cagayan is probably richest in flavor. Cigars are the only manufactured articles exported. The warehouses of La Insular factory were piled up with tobacco leaf two and three years old.

As to the climate of Manila, after one is acclimated, it is all a question of "the point of view." Some say, "lovely," "healthful;" others, "deadly." The latter are putting the case too strongly. The climate is enervating, and the many restrictions on diet cause digestive disorders. No one can exert the same energy in this hot climate as in cooler latitudes.

And yet this is a beautiful country to look upon—fertile, with well-cultivated sugar and rice plantations, beautiful drives along fairly good roads, shaded by bamboo and palm and banana trees. The absence of oranges and lemons cannot be understood, with far greater heat; nor are there any other fruits—bananas and pineapples excepted—to which we are accustomed.

The country houses or huts are built on poles about four feet above the ground, the better class of houses being on foundation pillars of stone and masonry. There are no windows, the openings being partially closed with sliding panels. The floors and inside walls are of split bamboo, the roofs generally of nipa, sometimes of tin or galvanized iron. Banana and palm tres embower even the most lowly.

The Chinese and the ants are the only busy objects in the country; the ants are omnipresent. A bit of sugar left on my table attracted within ten minutes thousands of them. The anthills in the cultivated fields are mounds four feet high and as large around. It is said one species will burrow through a wooden chest and destroy all clothing therein in a day.

The great mass of the people in Luzon, and presumably to an even greater extent in the other provinces, cannot, after the years of oppression under Spanish and Church rule, be capable of self-government for some years to come. The result of turning it over to the Filipino leaders would be an unstable government, with greater oppression of the lower and ignorant classes than even existed in the past. As they realize the just treatment accorded to them by the United States, a happier era will dawn upon these poor natives and their work, morals, and physical conditions will be improved. Once they know they will get money for their work, instead of the old rewards of blows, fines, and imprisonment, permanent peace will be assured.

Filipino Fans.

A novel fan made in Manila is made to fold. The handle and separating parts are made of frail ivory, daintily carved. Inserted into the end of each is the feather of a swan, at the end of which is the gorgeous tip of a peacock feather, altogether forming an attractively beautiful blending of natural and quite artistic colors. Perhaps the most beautiful piece of work in the construction of the fan lies in the swan feathers. Woven into these slender feathers are variegated threads, forming fantastic figuring of flowers, personages and leaves. In the centre of the right side of the fan is woven among the feathers a picture representing a man and a woman picking fruit. Into this one picture alone is introduced an amazing woof of colors, varied as those of the rainbow, causing one to marvel how such a variety of threads could be woven so intricately and with such perfect precision upon the slender swan feathers. About these figures are clustered vari-colored flowers and leaves, the latter being of a pure white silk, while the former are made of silks of many hues. Upon the reverse side of the feathers are also innumerable woven flowers and leaves. The work is evidently that of some past master in the art.

MADE A FORTUNE.

In Speculation on a Small Sum Saved From Business Failure.

Less than a year ago John K. Bucker was conducting a hardware store. He was considered a fairly prosperous country storekeeper, and his holdings, his acquaintances say, probably footed up $9,000. Last winter, however, he became involved, and about the first of January the Bank of Ephrata, which held judgment against him, closed him out at Sheriff's sale. His downfall, neighbors said, was due to his having tried his luck on the grain market. Be that as it may, his liabilities included bills in favor of firms in Philadelphia, Lebanon, Lancaster and Reading. Some of the concerns made efforts to realize when the Sheriffs sale took place, but the judgments of the bank were barely covered, and the firms believed that their loss was absolute.

When the crash came Mr. Bucker disappeared from his home. His creditors knew nothing of his whereabouts, and if his wife and family did they said nothing. He had decided to act, it was afterward learned, and when he saw the inevitable he collected about $500 and went to Philadelphia and was lost sight off.

That $500 was Bucker's salvation. He started to deal in stocks, and when American Tobacco made its first big jump he was fortunate in having almost all his little fortune placed on that stock, and when the jump came he sold out at a nice, fat profit. He continued to place small amounts, and again fortune smiled upon him, for when the great Sugar rise came it found Bucker's money backing it. He bought, placing his all on Sugar at 135, and held on until it reached 179½, when he closed out. Shortly after he made his lucky strike a member of a large Market street firm was surprised to deceive a call from him. He stated that he wished to pay his old bill and told of his fortunate deals on the market. In similar manner he paid all his creditors in Philadelphia, Reading, Lebanon and Lancaster. Just what his fortune may be cannot be learned, but his Market street friend avers that he has shown a certified check for $25,000 on one occasion and $15,000 on another, and that the amount realized is over $100,000.

Mr. Bucker is not the kind of a man who would be looked upon as a plunger, but is said to be very careful and reticent.—Rheinhold (Penn.) Spe. New York Journal.

WILL FIGHT ROBERTS.

Women Will Continue Fighting His Admission to Congress.

Members of the American Female Guardian Society and Home for the Friendless, among whom are prominent women of New York, are disturbed over the prospects of Bringham H. Roberts being seated in Congress at the next session of that body, and they have held a meeting to declare against his admission to the national Legislature.

Several womens societies throughout the country have taken a stand against Utah's Representative on account of his polygamous ideas, and they are denouncing polygamy and urging all voters to bring influence to bear on their Representatives in Congress to prevent the seating of the man from Utah.

Helen Gould says: "I feel the principle of polygamy for which he stands strikes at the root of what is sacred and beautiful in our home life, and I am glad to lend what little influence I may have to oppose it."

Mrs. George Watts, president of the Guardian Society, says: "We intend to atttack the evil, not from the religious side, which seems unnecessary in the present case, but from the legal. We believe this is the best way to reach the voters and prevail on Congress not to seat Mr. Roberts. We hold that Mr. Roberts is a law-breaker, and he has failed to keep his word, which he gave when he went to Washington as a member of the commission which sought the admission of Utah into the Union as a State. According to the

(Brigham Roberts.)

constitution," adds Mrs. Watts, "no man can be a voter or hold public office who has more than one wife. We think it is easy enough to prove that Mr. Roberts has two or more. Hence he has no right to sit in Congress. Furthermore, when he went to Washington as commissioner he gave his word, I am informed, that he would do his best to abolish polygamy in Utah, and would not take a second wife while his first was living. We think it can easily be proved that he has broken his word by taking another wife. Now the question is whether the army of voters and the members of Congress want such a person in Congress. We shall ask all of our husbands, brothers and sons to use their influence with members of Congress to prevent the seating of Mr. Roberts, and we believe that if public opinion is sufficiently aroused our purpose will be accomplished."

"How do you make your paper pay? I never see it anywhere."

"We print pictures of prominent men and they buy it."

"To distribute?"

"Oh, no; to destroy."

"Politics is getting to be men's religion."

"I hadn't noticed it. Seems to me men are as much interested in politics as they ever were."—Detroit Journal.

Proceedings of the Union County Board of Chosen Freeholders.

[OFFICIAL.]

Regular meeting of the Board of Chosen Freeholders of the county of Union, N. J., held Thursday, Oct. 5th, 1899, at 2:30 o'clock p. m.

All members were present except Freeholder Hulskamper—1.

The minutes of the previous meeting, reading of bills being omitted, were on motion approved as read.

PETITIONS, COMMUNICATIONS, ETC.

From Central R. R of N. J., by J. H. Ohlhausen, General Superintendent:

To the Honorable the Board of Chosen Freeholders of the County of Union:

The petition of the Central Railroad Company of New Jersey respectfully represents:

That the Central New Jersey Land Improvement Company is the owner of a tract of land lying south of the county road and west of Martine avenue, in Fanwood, New Jersey, which it has or proposes to lease or sell for the purpose of coal and lumber yards, the purchasers to receive coal, lumber and building materials in car-load lots, and the said land company have requested your petitioner to construct, maintain and operate a siding or turnout from the tracks north of said county road, over and across said county road into and over said tract of land lying south of said county road; that your petitioner is desirous of granting such application, providing it can secure the consent of your Honorable Board to construct, maintain and operate said siding or turnout across said county road into and over said tract of land, and to that end it hereby prays of your Honorable Board to permit such construction, maintenance and operation of said siding or turnout, and to be under such conditions as it may deem just.

And your petitioner as in duty bound will ever pray, etc.

Dated Oct. 5th, 1899 Signed,
Central Railroad Co. of N. J.,
By J. H. Ohlhausen,
Gen. Supt.

After a few remarks by Freeholder Robison in favor of granting the petition, it was ordered, on motion of Freeholder Farrell, that the same be referred to the county road committee and county attorney with power.

NEW BUSINESS.

By Freeholder Scudder:

Resolved, That a committee of five (5) be appointed to examine into the advisability of constructing a new bridge in Middlesex street, about 250 feet east of Kimball avenue, Westfield, N. J., the committee to have power to order same built at a cost not to exceed $1,200.

Freeholder King moved the adoption of the resolution, and on roll call it was unanimously adopted.

The director appointed as the said committee Freeholders Scudder, King, Brucklacher, Adams and Robison.

By Freeholder Swain:

Resolved, That the bill of Seaman Wright for the sum of $1,485 for Park avenue bridge, in Summit, be paid when properly audited by the proper committee.

Freeholder Brucklacher moved the adoption of the resolution, and on roll call it was unanimously adopted.

County Collector E. M. Wood reported that he had received from John Kean, president of Elizabeth City Horse R. R. Co. a check for $1,346 05, as payment in full for expenses incurred by the county on the widening of Westfield or North avenue, as per demand by county road committee.

Freeholder Roll tendered his resignation as chairman of the special committee on county asylum, stating that he was too busy to give the position the attention it ought to receive.

On motion of Freeholder King the resignation was accepted, and the director appointed Freeholder King to the chairmanship of said committee.

The following bills, properly audited and approved, were read, and on roll call unanimously ordered paid, viz:

Salary Account—E. M. Wood $125, S. Rusling Ryno $25, F. W. Westcott, M. D., $125.

Freeholder Miller moved to adjourn, which was carried.

The director declared the board adjourned until Thursday, November 2 1, 1899, at 2 30 p. m.

S. Rusling Ryno, Clerk.

The Scissors Fiend.

There are 240,000 varieties of insects.

Secretary Hay owns a copy of the famous Gettysburg speech, written in Lincoln's own hand.

The Canton Aargau in Switzerland accepted the cattle insurance law by a vote of 19,300 against 12,052.

The largest landed proprietor in Europe is the Prince of Schwartzenberg, who owns 207,371 hectares of land.

Sir Robert Rawlinson, K. C. B., is the only man who was ever knocked out of the saddle without being killed.

The telephoto attachment is a marvelous recent addition to the use of the camera. It is designed to enable the photographer to obtain magnified pictures of scenery and buildings at a considerable distance.

People in the Arctic regions can converse when more than a mile apart, because there the air, being cold and dense, is a very good conductor, and the smooth surface of the ice also favors the transmission of sound.

The horse has a smaller stomach proportionately than any other animal, because the horse was created for speed. Had he the ruminating stomach of the ox he would be quite unfitted for the labor which he now so admirably performs.

A London bookseller has just been sentenced to nine months' imprisonment for selling indecent French books, in spite of his counsel's plea that a book in a foreign tongue would not corrupt the morals of her majesty's subjects. Though this was the first successful prosecution on record where the book was not in English, the court would not allow an appeal.

France in war has 1,000 soldiers to 15,407 inhabitants; Germany in war has 1,000 soldiers to 17,424 inhabitants; Great Britain in war has 1,000 soldiers to 72,427 inhabitants; while under the House bill, during the late war, the United States has 1,000 soldiers to about 791,000 inhabitants.

In the course of a day a person breathes about 2,000 gallons of air, weighing 34 pounds, about six times the average amount of food and drink consumed. It therefore seems rather foolish to be constantly on guard against adulterated food and impure water, and allow your neighbor to pollute the atmosphere because it is cheaper for him in business.

The spider has a tremendous appetite, and his gormandizing defies all human competition. A scientist who carefully noted a spider's consumption of food in twenty-four hours concluded that if the spider was built proportionately to the human scale he would eat at breakfast (approximately) a small allegator, at 7 a. m. a lamb, by 9 a. m. a young camelopard, by 1 o'clock a sheep, and would finish up with a lark pie in which there were 10 birds.

A curiosity at least is this combination of the deepest wells in the world: In Europe, one at Passy, France, depth 2,000 feet; at La Chapelle, Paris, depth 2,950 feet; at Grenelle, Paris, depth 1,798 feet; at Neusalwerk, near Minden, depth 2,288 feet; at Kissingen, Bavaria, depth 1,787 feet; at Sperenberg, near Berlin, depth, 4,190 feet, which is said to be the deepest well in the world; at Pesth, Hungary, depth 3,182 feet. In the United States there are wells located at St. Louis, depth 3,843 feet; at Louisville, depth 2,086 feet; at Columbus, Ohio, depth 2,775½ feet; at Charleston, S. C., depth 1,250 feet.

DRESSED CHICKENS.
There is nothing quite so good for dinner as chicken. This week we have an extra nice lot of fancy roasting chickens, broilers, also fowls of the highest grade. We pride ourselves on dressed chickens. Prices very low, considering the goods. We would like to have your meat trade and we think a plump dressed chicken would be a good introduction.

CIGAR LABELS.

They Do Not Indicate the Quality of the Goods.

There is much difference between a "brand" of cigars and a "label." "A good brand" is very often taken to mean "a good quality." Very likely that was the original intention of cigar brands, as it still is of whiskey brands. But by the actual present custom of the trade the name which is burned or branded on the wood of the cigar box—the "brand" properly so called—has no necessary connection with the quality of the cigar, but only accidentally, so far as some particular make, peculiar to one factory, may be for the time exclusively applied to the manufacture of good tobacco. The "brand" tells the cigar seller something about the size and shape of the cigar. As years go on the application of these brands becomes more and more loose and irregular. Until recent years there used to be a regular gradation of size in about this order, beginning with the largest: (1) Perfecto, (2) Puritano, (3) Concha, and (4) Conchita. Even this arrangement was not by any means the earliest. "Regalia" was known to the trade as a designation of large size long before anybody ever heard of "Perfecto." "Henry Clay" was once a brand indicative of both size and quality, a brand and a label in one, when the cigar was made in only one Havana factory. And later results of competition, as well as of Cuban disturbances, are seen in the actually prevailing scale of brands. As brand differs from brand in shape as well as in length, it would take much complicated mathematical research to place the brands in the exact order of the volume of tobacco indicated by each.

Roughly speaking, however, they run, beginning with the largest, as follows: (1) Perfecto Elegante, (2) Perfecto Fino, (3) Puritano Fino—a thick cigar; (4) Puritano Extra, (5) Breva—thick and blunt; (6) Breva Chica, (7) Concha Regalia, (8) Concha Especial, (9) Conchita, (10) Reina Fina, (11) Petit Duc, (12) Opera, and (13) Chiquita.

About all this matter of brands nothing is so certain as that the whole business is in a shifting and revolutionary condition. Thus, the Panetela, not mentioned above, would be placed by some after the Perfecto, because it is about as long, and by others after the Concha, because it is thinner. It was much easier to maintain a hard and fast rule when the whole cigar making industry was ostensibly confined to Havana, and all cigars, even if made elsewhere, had to pretend to Havana origin and conform to Havana customs in order to maintain the illusion.

It is curious to note, however, that factories all over the world still stick to Spanish words and traditions in branding and labelling their output. If a Rhode Island cigarmaker wishes to say that this box is something really uncommonly fine he marks it "Deliciosos." The colors of Spain still rule in the ribbons that tie the bundles of cigars—yellow and red, the latter very rare. When Cuba has become Americanized red, white and blue ribbons may make their appearance in cigar boxes, but that sign of the times has not yet been observed.—N. Y. Tribune.

Canada's Greatest Glory.

The greatest glory of Canada is not its modern progress, but its vast and ancient wilderness. If you weary of the sameness and unprofitableness of everything you know, go where I went last year, to the upper waters of the Ottawa, where the beaver is the master architect and the moose is king of the woods. See for yourself, as I saw, that the Ottawa and the Gatineau, appearing to come from widely distant regions, have their origin close together and are twins. Behold these two children of the lakes, nourished from the same generous breast. Trace their courses and see that, though journeying far, in widely different directions, they finally arrive at a common destination.

Nobody knows all about that headwater country around the sources of the Ottawa. It is a prolific game region, where sportsmen rarely go, for the simple reason that they can get all the hunting they want nearer to the railroad. There are plenty of deer close to almost any Canadian Pacific station west of Pembroke, and it is not much trouble to get a chance at a moose in two days from Deux Rivieres, Rockcliffe, or Mattawa. Not many hunting parties start from there either, and I suppose the reason is that for thousands of miles to the west the woods, prairies, and mountains lie close to the railroad and afford almost limitless opportunities.

The territory inclosed by the Ottawa and the Gatineau has been from immemorial times the home of the Algonquin Indians, and they still remain there, in such primitive innocence that they receive no annuity from the Dominion Government. In this they are unlike the Indians of the United States or their brother tribes of Canada.—Scribner's.

Decision Against Tugboat Marriages.

Judge Dougherty, of Santa Rosa, Cal., has rendered a decision in the case of Bonham vs. Bonham, recently brought to annul a marriage contracted on board a pleasure schooner outside San Francisco Heads. The Court declares that weddings taking place at sea in contravention of the statutes or by contract, or under any circumstances without a proper license and, some form of public solemnization are clearly illegal.

The Court further holds that children resulting from such unions, where contracted since March 26, 1895, when the statutes governing such cases were revised by the Legislature, are without doubt illegitimate. Plaintiff and defendant in the case at bar were married by a sea captain on Aug. 11, 1896, but Bonham having acknowledged the paternity of a child born to him the Court holds that it becomes the plaintiff's legitimate and adopted son.

Sound Under Water.

A scientist recently made some experiments on Lake Geneva to demonstrate the power of sound to travel a long way in water. A clock was made to strike under the water, and was heard a distance of 12 miles. In a second experiment the striking of a clock was heard to a distance of 27 miles.

Color Due to Bacteria.

A scientist of Rio de Janeiro states, as a result of protracted and patient investigation, that the color and scent of flowers are due to bacteria, and that these germs are often of a kind that must be harmful to human beings.

Cor. E. Front St. and Park Ave. Plainfield, N. J

SPORTING.

ON THE GRIDIRON.

Rutgers College is going to send its "scrub" team to Plainfield this afternoon to meet the Alis football team on Martine Common. The last time the Rutgers boys played in Plainfield was on election day three years ago. They came expecting to find an easy thing. Despite the fact that several of the 'varsity men were playing with them, the Plainfield A. A. eleven had no difficulty in defeating them 24 to 0. All the scoring was done in the first half. After the that the Rutgers boys took a brace, while Plainfield gave the substitutes a chance to play.

Somerville is to be represeted on the gridiron this fall. Last week a number of young men met at the home of C. F. Robinson for the purpose of organizing a football team. E. D. Robinson was elected captain and Louis A. Mack manager. The members will average 165 pounds, and have already commenced practicing. The team will be in shape in two or three weeks, and will play teams from out of town as soon as they can secure grounds. The line will be made up as follows: Fatstery, Mets, D. K. and George Hoffman, Bergen, Maxwell, Robinson, Chambers, Major, Totten, Mehlenbeck, and "Tom" Smith, of Plainfield.

There was a noticeable improvement in the individual play of the members of the Alis football team during last Saturday's game at Jersey City. The one game before gave Smith at centre more courage and he put up a much better game. He had a man weighing over 200 pounds to play against but no big gains were made through him. Kline, the other new man of the Alis team, quite distinguished himself by his excellent work. He held his man well and managed to get into the other plays occasionally. Taylor, the other tackle, made many gains for the Alis team. There was some fumbling done by the Alis boys and it all happened to come at important points in the game when it was particularly disastrous. Twice the Plainfield eleven had an opportunity to score but failed through a fumble.

Prevented a Tragedy.

Timely information given Mrs. Geo. Long, of New Straitsville, Ohio, prevented a dreadful tragedy and saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery. One bottle wholly cured her, and she writes this marvellous medicine also cured Mr. Long of a severe attack of Pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c and $1 00. Every bottle guaranteed. Trial bottles free at L. W. Randolph's Drug Store.

In a Nutshell:

Regular collections; intelligent washing; careful ironing, prompt deliveries. This makes a good laundry. People who have known us as dyers for thirty years back may not realize that we are doing the largest laundry business in New Jersey. Send us your bundle for a trail.

HILLIER & CO.,

129 West Front Street,

Opposite Crosby & Hill's. 'Phone 851.

BASKET BALL.

The Plainfield Y. M. C. A. will have a basket ball team this year, but it is a question whether the old players will come back. It is the intention of the physical work committee and Physical Director C. E. A. Heywood not to allow the basket ball to eclipse the regular gymnastic work of the classes. Basket ball will only be an adjunct to the rest of the work. In choosing the team, Mr. Heywood will take those who are regular in attendance at class work in preference to those who do not attend, regardless of their ability as players. The basket ball team is to be for the members of the evening class, and will be kept directly related to it in that way. If the old members come back they are sufficiently expert to stand at the head of the evening class, and therefore can make the team. Otherwise those faithful in class work will get the basket ball honors.

AMONG THE STEPPERS.

Several Plainfielders went to New Brunswick Wednesday afternoon and attended the last trotting meet of the season. It was one of the most successful ever held.

ROD AND GUN.

J. A. Smith, the grocer, left yesterday for Virginia on a hunting trip.

Story of a Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a godsend to weak, sickly, run down people. Every bottle guaranteed. Only 50 cents. Sold by L. W. Randolph, Druggist.

A Distinguished Guest.

Charles C. Burnet, of Madison avenue, former foreman of the Alert Hose Company, was a guest of the Somerville fire department Thursday and made a few remarks in his usual entertaining fashion at the banquet that followed the parade.

An Approaching Marriage.

The marriage of Miss Corinna, daughter of Mr. and Mrs. Peter W. Young, to Henry G. Auten, will take place Wednesday, November 8th, at 6:30 p. m., at the home of the bride's parents, 136 Central avenue.

A New Operator.

Miss Leavy, of Roselle, an accomplished telegraph operator, has secured the position of assistant to Manager Charles H. Schermerhorn, at the North Avenue station, and entered upon her duties this morning.

Missionary to Speak.

The morning service at the First Baptist church tomorrow will be devoted to the Temple Builders Society. Rev. J. H Heinrichs, a missionary in India, will be present and address the meeting.

On Monday night, October 30th, Mr. and Mrs. G. H. VanNest, of the borough, will celebrate their wedding anniversary.

To Cure a Cough in One Day
To Cure a Cold in One Day.
To Cure Sore Throat in One Day
To Cure Hoarseness in One Day

Take Cleveland's Lung Healer, 25c. Trial size free. If it fails to cure, your money will be refunded. T. S. Armstrong, the apothecary, corner Park and North avenue.

THE PULPIT SUBJECTS.

SERVICES IN THE LOCAL CHURCHES TOMORROW.

What Plainfield Ministers Will Talk About for the Elevation of the Minds and Morals of Their Congregations.

St. Mary's (R. C.) church, Rev. P. E. Smyth, pastor.—Masses at 7:30, 8:30, 9:30, 10:30 a. m.; Sunday school at 2:30; evening devotions at 8.

Calvary Baptist church, Rev. Scott Wallace, pastor—11, preaching service; 3, Sunday-school; 7:30, Young People's meeting; 8, sermon, subject, "Bring in the Sheaves."

Death of a Popular Boy.

The many friends of Archibald J. Douglass, aged fifteen years, will be deeply shocked and grieved to learn of his sudden death which occurred this morning of heart disease. He was the son of Mr. and Mrs. John E. Douglass, of 676 West Eighth street, and was very popular with all who knew him. His illness was of a short duration and his death entirely unexpected. The funeral services will be held Monday afternoon next at 2:45 o'clock at the home of the parents.

An Attack of Rheumatism.

Rev. Father Brennan, curate at St. Joseph R. C. church, is suffering slightly with an attack of rheumatism in his left hand. A few days ago he was riding his wheel and sprained the hand to such an extent that it will be several days before he will again have the use of it.

CASTORIA

For Infants and Children.

The Kind You Have Always Bought

Bears the Signature of Chas. H. Fletcher.

TRIO OF SURPRISES.

Several Pleasing Social Events Held at Plainfield Homes Last Evening

Last night was quite a night for surprises. Three very enjoyable affairs were held at homes in various parts of city and borough at which a jolly party of friends came down unawares on the host or hostess as the case was.

There was a gathering of some forty at the home of Miss Sophia Saums, of Clinton avenue. It was arranged by Miss Wenzel. The evening was very pleasantly spent.

William Baldwin, of West Front street, was pleasantly surprised by two score friends. Miss Hartfelder arranged the affair.

Some twenty-five friends dropped in to see Walter Baker, of Watchung avenue and Chatham street, and spent a delighted evening. Those present were from this city and Rahway. William Root was one of those who took a principal part in getting up the affair.

GOING TO MANILA.

Van Rensselaer Schuyler Has Enlisted in Third United States Calvary and Leaves Today to Join.

Van Rensselaer Schuyler, of La-Grande avenue, left today for San-Francisco from where he will sail with the Third United States Calvary for Manila. Mr. Schuyler is well-known in local society circles and is a nephew of Councilman George P. Mellick. Until recently he has been connected with the business office of the New York Central Railroad in New York but has now decided to give up business for a time and try a military career. He goes as a private in the famous Third Calvary. He expects to go into business in Manila after his three years term of service is completed.

PARTICULAR MENTION.

Miss Grace Brownell, of Hartwick, N. Y., is visiting her aunt, Mrs. Seymour G. Smith, of Putnam avenue.

Charles H. Greer and bride have returned from their honeymoon, and have taken up their residence at 114 Grove street.

Money in Tomatoes.

The Hopewell Valley Canning Co. have put up 224,000 cans of tomatoes and if frost had not come so soon 300,000 cans could easily have been obtained, as the crop was very fine this year. About 260,000 cans are already sold and there will be no trouble about disposing of the balance, as there reputation is so well established for good, clean goods. There was only a loss of scant five tons of tomatoes (which is considered comparatively nothing) that had to be dumped on account of ripening too fast. They could not be put up as fast as they were brought in from day to day, although the force worked nights.

An Authority on Bunyan.

Arrangements are being made to have Dr. John Brown, of Bedford, England, give his lecture on John Bunyan in Plainfield Oct. 31st. Dr. Brown is giving the lectures on preaching at Yale University. He is the greatest living authority on Bunyan and on Puritanism as well. It is proposed to make the lecture a subscription affair, putting the subscription price at $1 for four tickets.

Rev. Mr. Leggett to Have Charge.

The regular Sunday afternoon meeting of the W. C. T. U. will be held at 4 o'clock, and Rev. Mr. Leggett, of Washington avenue, will have charge. He is an interesting speaker and a cordial invitation is extended to all.

—On Tuesday evening next Anchor Lodge, No. 149, F. and A. M., will hold an important communication.

ALIS OUTPLAYED RUTGERS ELEVEN.

Local Football Players Won By Score Of 22 to 0.

DEFEATED RUTGERS SCRUBS

PLAINFIELD SCORED IN FIRST THREE MINUTES OF PLAY.

Superior Team Work and Interference Gave Alis Boys an Easy Victory—Rutgers Team Were on the Defensive all the Time—Last Ball on Fumbles as Soon as They Gained It—Green's Longest Run of Forty Yards.

While the Rutgers College 'varsity eleven was being snowed under by the Haverford College boys Saturday afternoon, the scrub team from the little college over at New Brunswick met with a similiar fate on Martine Common at the hands of the Alis eleven, of this city. The Alis boys played all around their collegiate opponents, winning by a score of 22 to 0. The game was witnessed by a large crowd numbering several hundred people.

The Alis team played good, snappy football from the start. The team work was noticeably sharp and the boys did not fumble at critical times as they did a week ago. The Rutgers scrubs lacked organization which they accounted for by the fact that several of their best men were with the 'varsity team at Haverford.

Plainfield had a kick-off and Dumont sent the ball well down the field. Rutgers' attempts to bring it back were unavailing and Plainfield captured the ball on downs. Dumont took the ball on a trick at Rutgers' twenty-yard line and crossed the goal line for the first touchdown in three minutes of play. Dumont failed to kick the goal. Score—Alis, 5; Rutgers, 0.

The ball again traveled right back into Rutgers' territory. End runs and line plays, aided by good interference, carried the ball to Rutgers' thirty-yard line. Then Cuming circled right end for another touchdown. Phillips punted out to Woolston and Dumont failed to secure the goal. Score, Alis, 10; Rutgers, 0.

The Alis boys started to repeat the performance, but after getting well down the field Rutgers held them for three downs, and Phillips punted for twenty-five yards. Stewart caught the ball and was downed in his tracks by Woolston. On the second play Rutgers lost the ball on a fumble. Alis made several gains and then lost the ball on downs at Rutgers' twenty-yard line when time was called.

Stewart kicked off for Rutgers on the second half. Phillips recovered twenty yards before he was downed Then followed good end runs by Cuming, H. Smith and Green while Phillips and Taylor bucked the line advantageously. A run of six yards by Cuming landed the ball within half a yard of the goal, and Cuming carried it over for a touchdown after eight minutes of play. Phillips kicked the goal. Score, Alis, 16; Rutgers, 0.

The ball was returned into the visitor's territory without delay. Rutgers braced up and Phillips was forced to kick After two gains, Stewart fumbled and Green picked up the ball, running forty yards for a touch-down. Phillips kicked the goal. Score—Allis, 22; Rutgers, 0

Phillips caught the kick-off and recovered ten yards before he was downed. The advance was continued. Cuming passed all the Rutgers' backs but Stewart on an end play and was downed by Stewart after running fifteen yards. Time was finally called with the ball in the possession of the home team on Rutgers' twenty yard line.

The teams lined up as follows:

RUTGERS SCRUB.		ALIS.
Smith	right end	Woolston
Randel-Horay	right tackle	Radford-Beard
Sangermend	right guard	Kline
Vyoerburg	centre	G. P. Smith
Itchner	left guard	Long
Brunk, captain	left tackle	Taylor
Morris	left end	H. Smith
Voelker	quarter back	Dumont
Herbert	right half back	Green
Herer	left half back	Cuming
Stewart	full back	Phillips, captain

Scores—Alis, 22; Rutgers Scrub, 0. Touchdowns—Dumont, Cumming, (2), Green. Goals on touchdowns—Phillips (2.) Time—Halves of 20 and 15 minutes. Referee—John Brooks, of Rutgers. Umpire—A. Willis West, of Plainfield. Timekeeper—Harold Davis, of Plainfield

Stony Brook Being Cleaned.

At the instigation of the Borough Board of Health Stony brook is now being cleaned out and a channel is being made. Heretofore great trouble has been experienced in heavy rains because there was no channel, and in dry weather there were also many disadvantages The attention of the Board of Health was called to the matter and it is being promptly attended to.

—Oil heaters are one of the specialities being offered at Laire's hardware store. They have a large assortment and the prices are right.

A TALLY-HO TRIP.

Opening of City Ticket Office of the Lehigh to be Inaugurated With Considerable Eclat.

The Lehigh Valley Railroad will institute their ticket office in this city Wednesday or Thursday and the same day a tally-ho service for the transportation of passengers between this city and South Plainfield will be inaugurated with considerable eclat. The first trip of the tally-ho, which will have a capacity for sixteen passengers, eight outside and eight inside, will be made with several city officials, newspapermen and prominent citizens as guests. After a drive to the South Plainfield station, a short spin through the surrounding country will be enjoyed and then the guests will be brought to the Hotel Kensington in this city where they will be given an elaborate dinner by the Railroad company. General Passenger Agent Lee, who lives in this city, will be in charge of the affair.

SCHOONMAKER CUP WON

MISS MAUDE VANBOSKERCK MADE THE BEST SCORE.

Result of the Play on the Hillside Club Links Saturday—Final Play in Joint Club Contest Which Was Tied.

The cool bracing weather of Saturday brought out a large number of players on the course of the Hillside Tennis and Golf Club and throughout the day some very good scores were made. In the morning play for the Schoonmaker cup was the event for women. This was the second play for the cup and the contest was exciting, although there were eight players to enter. After a close contest Miss Maude VanBoskerck and Mrs. Charles Freeman tied with a net score of 115 for first honors. The former had a handicap of 10 while Mrs. Freeman's handicap was 26. In the afternoon the tie was played off, when Miss Van Boskerck won handily by 2 up. The next best score for the contest was 120 made from scratch by Mrs. N. Pendleton Rogers.

The event of the afternoon was the play off of the tie between H. D. Hibbard, of the Park's, and Howard Wright, of the home club, for the silver cup offered by the latter club one week ago in joint competion. Both are fine players, and the contest was watched with considerable interest. The result was that Mr. Wright won the cup with a net score of 72. His gross score was 93, and his handicap 21. Mr. Hibbard made a gross score of 105, and his handicap was 25, making his net score 80.

The social features at the club were enjoyed thoroughly and during the afteroon tea was served. In the evening a large dinner party was given by some of the members of the club. The clubhouse was prettily decorated in harmony with the autumn season.

A MISSIONARY SERMON.

Rev. Mr. Heinrich in the Pulpit at the First Baptist Church.

Rev. Mr. Heinrich, of India, preached an eloquent sermon in the First Baptist church yesterday morning in which he described India as the most idolatrous of all nations, the number of gods being more than the number of people. In her degraded condition, robbed by sin and satan, he compared India to the man who went down from Jerusalem to Jericho and fell among thieves. In her wounded and helpless condition, she appeals to the Christian church to act the part of the good Samaritan and restore her to a healthy, moral and physical condition. Mr. Heinrich, with his wife, will return to India in two weeks, and he made a strong appeal for interest in the churches that should amount to sacrifice, if necessary, that the workers on a foreign field should be upheld and sustained without dreading the demand for retrenchment that so often came from the missionary board.

A CHURCH FOUNDER.

Portrait of St Lutheran's Patron in the Borough Unveiled

Special services were held yesterday at St. Peters Lutheran church, on the return of Rev. Mr. Shaffer. At the close of morning worship a large crayon portrait of the founder and first worker in the parish, venerable Dr. E. F. Moldehuke, of New York, was unveiled. Though a surprise to the congregation the assembled members were quick to accept the appropriateness of the act. Resolutions of respect and thanks were unanimously adopted. The picture will in the future grace the walls of the sacristy anteroom.

Favorable to Coriell.

City Clerk J. T. MacMurray announces in a card in today's Press that the delegates he is supporting for the county convention of the Republicans are favorable to the nomination of B. Frank Coriell for Sheriff.

CHRISTIAN BOYS' WORK OUTLINED

State Conference of Young Men's Christian Association.

CLOSING DAYS OF SESSION.

INTERESTING AND ENTERTAINING SERVICES HELD YESTERDAY.

Timely Talks With the Boys by Prominent Delegates Who Referred to the Splendid Work Being Done by the Association in the Interest of the Youth—Views and Description of Camp.

The State conference on boys' work of the Y. M. C. A. was continued at Association Hall Saturday evening at 7:45. Edward P. Homen, of Madison, presided. A feature of this conference was the song service led by the members of the Newark Y. M. C. A. Boys' Orchestra. J. B. Carpenter, of Brooklyn, had charge of the quiet moments, and Harry S. Park, of Paterson, looked after the question box. The most interesting portion of the evening's entertainment, however, was the stereopticon views of the boys' camp at Westfield, on Lake Champlain. The boys enlivened the occasion by singing several verses of a parody "On the Banks of the Wabash," which was composed especially for the camp. The views were nicely explained by Charles T. Kilborne, of Orange.

The preparatory service at the First Methodist church yesterday afternoon was conducted by G. Albert Hall, of Montclair. At this service the boys' orchestra, of Newark, assisted. Their playing was much appreciated. After two or three hymns had been sung and a few moments of silent prayer, Edgar M. Robinson, Boys' Work secretary of Massachusetts and Rhode Island, delivered a brief address, that proved as instructive as it was interesting. Mr. Robinson divided his address into three heads. Under the first he called attention to the necessity for a man burdened with sin to be born again. Every boy must have in him the spirit of Jesus Christ and he will thereby grow up to be a God-fearing man. Under the second head Mr. Robinson referred to the necessity of a boy being lifted up to Jesus Christ if he hoped for eternal life. The only fitness necessary for cleanliness, he said, was for a boy to seek Christ at the earliest opportunity in his life.

The third portion of Mr. Robinson's address had to do with the importance of not delaying in seeking salvation. Jesus Christ stands knocking at your door and all He asks is that you bid Him welcome to enter. By opening your heart to God every boy is born again. The speaker referred to a question that had been asked at Saturday's meeting which was: "What keeps a boy away from Christ?" He said that he believed the principal reason was because boys were afraid that other boys would laugh at them. That was a poor excuse. God never made a coward. If a boy will open his heart Jesus will come in and when he once gets control of that heart no boy need have any fear of shame because one of his companions laugh at him. It will give you strength to withstand the scoffs because you will have been born again.

At the close of the address several of the boys gave interesting testimony. The exercises were closely listened to by a fairly good congregation of adults.

The closing services of the convention were held lest evening at 7:30 o'clock in the First Presbyterian church. That edifice was crowded to the doors. L. H. Biglow, Jr., of this city, was in charge, and there was a song service led by the members of the Newark Y. M. C. A. Boys' Orchestra, which was a feature.

Donald MacColl, State Secretary, was introduced and he made a few remarks.

Edgar M. Robinson, assistant State Secretary, of Massachusetts, spoke especially of work for boys and its importance.

Then followed an exercise "Kept for the Master's Use," conducted by Charles R. Scott, assisted by members of the Newark Boys' Department. There was testimony by several of the boys and vocal and instrumental music. The hymn "Kept for the Master's Use," was sung by the boys and at the end of each verse a boy was asked to make a few remarks. Selections by the orchestra and vocal solos and duets by the boys made the service one of a great interest.

Before the meeting adjourned resolutions were adopted thanking Plainfielders, the Y. M. C. A., the churches, co-laborers from other states, for their

TICKETS AT PRIMARIES

NAMES TO BE VOTED ON BY CITY REPUBLICANS TONIGHT.

First and Third Wards Have Two Tickets In the Field—Only One Ticket Nominated in Second and Fouth Wards.

Two tickets have been nominated for the Republican primaries in the First ward this evening. One is supported by the McDonald faction and is as follows: For delegates to county convention, R. F. R. Huntsman, John Rowland, William J. Campbell, Jed. M. Smalley, H. M. Case, L. L. McVoy, and William Jones. Members of county committee, Joseph B. Coward and Charles S. Swinck. The MacMurray faction will support the other ticket:—For delegates to the county convention, Charles W. Runyon, Walter Longman, Jr., Dr. L. S. Pocock, L. L. Cromm, Joseph Neill, John King and William Jukes. For county committee, J. F. Buckle and D. C. Smalley.

Only one ticket has been nominated in the Second ward.

Two tickets have been nominated in the Third ward. One supports the candidacy of B. Frank Coriell and is composed of the following: Delegates to the county convention, Alex. Gilbert, C. F. Abbott, Albert I. Littell, Roger F. Murray, Robert Rushmore, N. R. Titsworth, F. E. Marsh, W. A. Pinto, and F. H. Andrews. For county committee, William T. Kirk, Roger F. Murray. The other ticket will have the backing of the friends of William T. Kirk.

There is only one ticket nominated in the Fourth ward, It is as follows: For delegates to the county convention, Neal Head, Daniel Galbraith, A. Leivers, G. Greenleaf, Jacob Kriney, Howard Woolston, George Fielding, James Morrison, William Abbott, James Saunders, B. Harvey and W. Jenkins.

CITY MILLS LEASED.

An Ohio Man Will Succeed P. M. French—Has Rented the Mills for Five Years.

After being in the milling business for over half a century in Plainfield, P. M. French has decided to retire from active business. He has leased the City Mills, of which he is the owner, to Jacob Snyder, of Ohio, for a term of five years, commencing next Monday. During this week the business incident to the operation of the mills will be adjusted, and a week from today Mr. Snyder will assume the entire control and management of the industry. The new proprietor is a practical miller of many years' experience and comes here with the highest references. He will undoubtedly conduct the business in the same reliable way in which it has been run for years.

Mr. Snyder will move his family here at once and take up his residence in one of Mr. French's houses at the corner of Craig place and Duer street.

Gregg College Notes.

There has been no change of teachers in the Shorthand Department of the Gregg College of Business. The same experienced teacher has charge, and should any students desire to learn one of the antiquated Pitmanic methods, we are well qualified to to teach it; but after five years experience with the Gregg we believe it to be far superior in every particular. Experience makes the teacher, and we have had twelve years of it as stenographer, teacher, editor, reporter and publisher. The only certified teacher of Gregg's Shorthand in Plainfield is teaching at the Gregg College of Business, Babcock building.

W. E. VanWert, President.

We have more typewriters than all other shorthand departments in the city, and are teaching the latest "touch" method. Over five hundred graduates filling positions.

Junior Delegates

Tomorrow at Trenton the annual meeting of the Funeral Benefit Association of the Jr. O. U. A. M., will be held in Masonic Hall. Ephraim Compton, of Franklin Council, No. 41, Junior O. U. A. M., will attend as a representative. On the following day and Thursday, he will attend the 31st annual convention of the State Council to be held at the same place. Walter Walker will represent Somerset Council, No. 104, of this city. Firman A. Long, as one of the State officers, will also be in attendance.

Returned Missionary to Speak.

Rev. Francis M. Price, a returned missionary from the Caroline Islands, made an intereeting address at the Congregational church yesterday morning The annual collection for foreign missions was taken. It was expected that Mrs. Price would address the Christian Endeavor Society in the evening but illness prevented her from being present.

—Use Press want ads.

TWO WEEKS MORE FOR M'CUTCHEN CUP.

W. J. R. Thiers Was Low Man for Trophy Saturday.

NO CHANGE IN THE LEADERS

THE FABERS DIVIDED SECOND AND THIRD HONORS.

The Competition for McCutchen and Buttfield Cups Will Only Last Two Weeks More—Result of Buttfield Cup Contest is Foregone Conclusion—The Other is Yet an Open Question.

The end of the competitions for the McCutchen and Buttfield Cups on the links of the Park Golf Club is now only two weeks off. The results of the play Saturday made no difference in the position of the leaders for either of the two cups. The result of the competition for the McCutchen trophy is still an open question, but it is a foregone conclusion that Miss Daisy Elsberg will win the other cup.

The sharp, brisk weather of Saturday saw a fair turnout on the links. Nearly a score entered for the McCutchen Cup, but only ten cards were turned in during the afternoon. The high wind of the early afternoon was somewhat of a handicap, while the leaves that covered the turf in places made it difficult to locate the balls

W. de la R. Anderson was out on the course and appeared a likely candidate. He fell up against some hard luck on the last hole, which he made in ten, running his gross score up to 102. W. J. R. Thiers was playing in great form. His driving and brassie shots were particularly accurate and he played carefully on the green. As a result his gross score was 106, while his handicap was 12, which brought his net score down to 94, which was lowest for the day. The Fabers divided second and third honors with a net score of 99.

The greatest match of the day was between Edwin T. Douglass and Gifford W. Cooley. It was expected that Cooley would win first place but somehow the didn't. Mr. Douglas was modest and did not record his score. George C. Worth played his usual steady game. Morgan T. Townsend was way off his old form.

The scores handed in were as follows:

	Gross.	Handicap.	Net.
W. J. R. Thiers	106	12	94
W. R. Faber	125	26	99
Charles E. Faber	123	24	99
George C. Worth	129	29	100
Samuel Townsend	125	24	101
W. de la R. Anderson	102	0	102
G fford W. Cooley	118	9	109
J. H. Howell	127	18	109
M. T. Townsend	118	5	113
George T. Rogers	138	21	117

The official standing of the candidates for the cup follows:

W. de la R. Anderson	13
Gifford W. Cooley	11
Meredith Dryden	10
Charles E. Faber	8½
W. J. R. Thiers	8
Charles A. Reed	7
George C. Worth	6½
G. W. Faber	6
Geo. T. Rogers	7
Samuel Townsend	4½
W. R. Faber	4
Morgan T. Townsend	4
Wm. A. Townsend	3½
E. T. Douglass	3½
H. D. Hibbard	3½
J. H. Howell	3
Arthur Peck	3
Fred P. Taylor	2½
S. S. Squires	2½
A. B. Laine	2
Volney F. Green	2
Fred S. Overton	1½
Clarence S. Roome	1½
Augustus Van Deventer	1
C. W. McCutchen	1

Thiers jumped from ninth to fifth place as a result of the day's play, and has a chance of winning the cup if he scores three points in the two succeeding Saturdays that the competition continues. C. E. Faber remains fourth but crawled up a little on the leaders. W. R. Faber advanced from seventeenth to tenth place where he is tie with Samuel Townsend.

Miss Adelaide G. Ball was the only competitor entered for the Buttfield Cup. Her score was 91, which with a handicap of 13, gave her 78 net.

There has been no official announcement of the number of points yet scored for the Buttfield Cup, but an inspection of the past scores shows the following competitors and the points scored by them:

Miss Daisy Elsberg	30
Miss Saidee Mae Howell	18
Miss Adelaide G. Ball	9

Discharged From Bankruptcy.

The friends of Arthur A. Stryker, the well known carpenter and builder, will be pleased to learn that through the efforts of Codington & Swackhamer he has been discharged from bankruptcy. The decree was received Saturday. About ten years ago Mr. Stryker while in business in Orange, made an assignment, turning his few assets over for the benefit of his creditors.

New Members of the Choir.

The following young gentlemen have recently joined the choir of Holy Cross Episcopal church: Robert Jeffry, Albert Clark, Willard Martin, Charles O. Dunlap, William B. Henry, H. R. Linbarger. There are now about thirty members in the choir.

WEDDED WITHOUT ADO.

Jacob Proposed to Annie in the Moonlight and They Hurried to Plainfield to be Married.

The names of the young people from Westfield who were married by Justtice Nash late Friday night proves to be Jacob Serr and Miss Annie Erbeck. It appears that Jacob and Miss Annie went for a walk Friday evening and while enjoying the beauties of the moonlight Jacob proposed that they cease living in single blessedness and get married. Annie was agreeable and to Plainfield they came, when Justice Nash made them happy. Mr. Serr is a barber and is in the employ of William Erbeck, father of the young woman he married. He was also a member of Company C, Third Regiment during the Spanish American war.

When Annie, the blushing bride, "broke the news to mother," she expected a scene, but the parents gave them a welcome and said "bless you, my children, bless you!"

MURDER CASE LAID OVER

MRS. FINGERHUTH'S LAWYERS WERE NOT READY TO GO AHEAD.

Harry Ryan and Another Material Witness are Out of the State—Case to be Called Again on December 18 h

(Special to The Daily Press.)

Somerville, October 23.—The trial of Mrs. Catherine Fingerhuth, for the murder of Paul Roehricht, did not begin this morning as was expected. It has been adjourned until December 18th.

Lawyers Walter L Hetfield and William G. DeMeza, of Plainfield, counsel for the defendent, appeared before Chief Justice Bartine, in the Court of Oyer and Terminer, of Somerset county, this morning, and asked for an adjournment. They presented an affidavit to the effect that Harry Ryan and another material witness in the case were out of the State.

County Prosecutor N. Y. Dungan was present in behalf of the State. As it was the first request for an adjournment, Judge Bartine laid the case over to the December term of court. The case will then come to trial December 18th.

WIRELESS TELEGRAPHY.

An Address Made Before the High School Pupils This Noon by Carl Kinsley.

Carl Kinsley, who is in the employ of the War Department to investigate the Marconi system of wireless telegraphy, addressed the pupils of the Plainfield High School this afternoon at 12:15 o'clock in the Assembly Hall of the Franklin building. He brought a set of the Marconi apparatus with him but owing to lack of time to adjust the receiving instrument, he was unable to receive the current in the Morse code. With the aid of a volt-ammeter, he was able to show that a current could be sent across the room without the aid of wires and then explained the manner in which messages were sent by that system.

Hurt His Knee Cap.

Jacob Gutmeir, aged 40 years, a farmer residing on McDowell street, was taken to the hospital yesterday afternoon suffering with a fractured knee cap. The accident occurred Saturday evening when Mr. Gutmeir fell at his home. The injury is not a serious one, but will detain him at the hospital for sometime.

Bicycle Stolen.

Last Friday Charles Hummer, of Stone street, had his valuable racing bicycle stolen and thus far has not been able to find it. The wheel was stolen from in front of a house where Mr. Hummer was working. Every effort is being made to trace the wheel and to find the person who took it.

To Be Married Tomorrow.

The marriage of Miss Sarah Elizabeth Todd, formerly of the borough, but now of Bernardsville, and Benjamin R. Force, of East Front street, will take place tomorrow evening at the home of Miss Todd's brother at Bernardsville.

Candidate Bergen in Town.

James J. Bergen, of Somerville, nominee for State Senator on the Democratic ticket, was in Plainfield Saturday afternoon, and to a personal friend remarked that this year his ticket would win.

New Meat Market.

Adam Fritz has leased the store on West Front street, formerly occupied by Willis, the grocer, and is having it fitted up for a meat market to be conducted by his son.

A Catholic Fair.

A fair is to be held by St. Mary's church society Wednesday, Thursday, Friday and Saturday evenings at the Catholic clubhouse, West Sixth and Liberty streets.

—Use Press want ads.

G. O. P PRIMARIES HELD THIS EVENING.

Contest Expected In First And Third Wards.

FACTIONAL FIGHTS THERE.

DELEGATES WILL BE SENT TO COMING COUNTY CONVENTION.

They Will Probably Support Kirk For County Clerk and Unite With Port Delegation For Kirk and Houston—Howard and Coriell Have Combined and Will Make Strong Fight At the Primaries.

Every good Republican in Plainfield will this evening betake himself to the proper ward primary and assist in the election of delegates to the county convention which is to be held at Elizabeth Thursday afternoon. The polls at the primaries, which will be conducted under the Roger F. Murray system, will be open from 5 to 9 o'clock, while the business meeting of the primary will be held at 8 o'clock.

The First ward will hold its primary at 120 East Front street, and will elect seven delegates to the county convention and two members of the county executive committee. The primary in the Second ward will be held at the Bryant School at which nine delegates and two committeemen will be chosen. The Republicans of the Third ward will gather in the Casino to choose nine delegates and two committeemen. The Fourth ward primary will be held in the reading rooms of Reform Hall when eleven delegates and two committeemen will be chosen.

The First ward has a factional fight to settle. For several years there have existed two factions among the Republicans of that ward who have battled fiercely for supremacy in ward politics. A hot fight is therefore to be expected.

In the Third ward the question to be settled is whether the delegation will support Sheriff W. T. Kirk for the county clerk nomination or Councilman B. Frank Coriell for sheriff. In case the Kirk ticket is elected the delegates will unite with the 'Port and support the Kirk-Houston combination. The Coriell ticket, if elected, will support Coriell for the shrievalty and Howard for the county clerkship.

The Second and Fourth wards do not expect any contest although there is a possibility that both the advocates of Kirk and Coriell will try to put a ticket up so as to assure themselves of support. At present it is not understood that the "machine" tickets in the Second and Fourth wards are pledged to anybody. They will do their best to see that Plainfield gets something and will be willing to agree to almost any candidate. Their support will naturally be for Kirk and Houston owing to the promises made to Houston three years ago when Kirk was nominated.

If Kirk wins and has the support of the Plainfield delegation of thirty-six it is expected that the Port with its thirty-two delegates will unite with Plainfield to support Kirk for county clerk and Robert Houston for sheriff. With sixty-eight delegates as a starter, it will not take many more to give this combination a majority of the convention and while that may not result on the first ballot, the confident backers of the combination believe that such will be the ultimate result.

If the Coriell forces win in Plainfield, then the local delegates will go down for Coriell for sheriff and William Howard for county clerk, uniting with Rahway, part of Elizabeth and a sprinkling of the townships. Howard claims most of the townships and so does Kirk.

If Plainfield is to get the clerkship or shrievalty, it is likely that the nomination for the Assembly will be traded off to Westfield for her support for either local ticket. Then Plainfield will have one of her sons nominated for the Board of Freeholders. W. A. Westphal is mentioned prominently for the place.

Of course, this proposed union of the Plainfield and 'Port forces may not come to pass. The Kirk boom, while one of the first to be heard of, assumed no prominence until the latter part of last week. Now it is quite formidable. It remains to be seen whether it can gather sufficient force in this brief time to down the efforts of County Clerk William Howard. Geo. Squire's boom for the nomination is dead and Charles Halsey of Elizabeth cannot gather the backing that Howard has. Howard or Kirk will be the man for county clerk.

Now that the supporters of B. Frank Coriell have united with Howard, it will mean that Coriell stands substantially the same showing to be nomi-

CONTINUED ON PAGE 8

OHIO POLITICS BOOMING.

Democrats and Republicans Working Hard to Carry the State This Fall.

PROMINENT MEN SPEAK.

Roosevelt and Bryan Are Greeted With Enthusiasm By Their Admiring Friends.

Mr. Bryan's Tour of The Buckeye State Makes Politicians Talk—An Immense Crowd Turns Out To Hear Governor Roosevelt and Senator Foraker at Cincinnati.

Columbus, Ohio, Oct. 23.—The most talked of event in the Ohio Gubernatorial campaign is the three days' tour through the Democratic counties of the northwest of William J. Bryan, which closed in Sandusky City.

No tour of the State by a public orator in the interests of any party or candidate has ever been made which has been discussed among politicians as has been Mr. Bryan's trip. Although the platform adopted by the Democratic convention indorses Bryan and free silver, both have been kept so effectually in the background in the campaign that this attempt to hold in line the silver Democrats in the northwestern counties, which have shown a tendency to slump for Jones, the independent "Golden Rule" candidate, is regarded as one of Mr. McLean's most brilliant moves.

The effect of the tour cannot be estimated, though the Democratic managers say they expect to net 28,000 majority in the counties Mr. Bryan passed through. This and the cities of Cincinnati, Cleveland, Toledo and Columbus, which Mr. McLean's managers say they will spare no effort to carry, are the grounds upon which they hope for success.

Reciprocity in Silver.

A brief meeting was held in Clyde. From the rear platform of the car Mr. Bryan briefly addressed the large and enthusiastic crowd present, among whom was Thomas Seilley, eighty-one years old, who presented Mr. Bryan with a silver dollar bearing the date of 1800. Another man returned to Mr. Bryan a penknife which he said the Presidential candidate lost when passing through on his tour in 1896. Mr. Bryan said he believed in reciprocity, and gave Mr. Seilley another silver dollar.

What was said to be the largest gathering in the history of Marion was present to greet Messrs. Bryan and McLean in that town. Fully seven thousand persons crowded the streets. Special trains brought large delegations from Mansfield, Galion, Delaware and intermediate points. A procession, headed by six hundred horsemen, marched throught the several streets.

All of the large manufacturing establishments in the city closed down in honor of the occasion, and long before the hour set for the speech the speakers' stand was surrounded by a great mass of humanity, not more than half of whom could get close enough to hear. On the platform five hundred old time Democrats were conspicuous.

Enthusiasm at Cincinnati.

Cincinnati, O., Oct. 23.—Music Hall could not contain all wanting to hear Governor Roosevelt and Senator Foraker at the Republican mass meeting here. Governor Roosevelt was entertained at a series of dinners by Judge Taft, the Picadilly Club and others, and was escorted from the St. Nicholas Hotel to Music Hall by one of the largest processions ever seen in this city, including the Americus Club of Pittsburg, the Blaine Club, Stamina League, Ford Stith League and other organizations, and a battalion of 100 Rough Riders, all veterans of the late war. In addition to the torches and blazing illuminations along the line of march, there was a great display of fireworks.

The hall was filled before the parade reached it. Governor Bushnell and staff were in the city for the annual police inspection and drill, but not at Music Hall. County Chairman Kushman opened the meeting and presented Senator Foraker as the presiding officer. Senator Foraker made a stirring address in support of Judge Nash for Governor and the indorsement of President McKinley.

Foraker on Election.

Senator Foraker emphasized the importance of an overwhelming Republican victory in Ohio preceding the Presidential contest. This never was more needed than now as an emphatic endorsement of President McKinley's Administration—an Administration in which the President has kept faithfully every pledge that he made before his election. Moreover, he had done some things that he had not promised; he had enlarged the domain of the United States. The great duty of the party to-day was to indorse the Administration, and the way to do so was to elect Judge Nash. The Senator dwelt upon the benefits of the Protective tariff, the annexation of the West India islands and Hawaii, and of the acquisition of the Philippines, and said that these facts involved great responsibilities. In introducing Governor Roosevelt he lauded his services in civil life and his bravery in the field. He said that these services never would be forgotten while the Republic lasted; that the people of New York had recognized his services and had made him Governor, and that the people of the United States would also recognize his greatness and make him President.

Senator Foraker was cheered tremendously throughout, and this reference to Governor Roosevelt set the audience to applauding. When Mr. Roosevelt took the floor the cheering was so vehement and protracted that it was some minutes before he could begin speaking. In the first sentence of his speech he named William McKinley as the next President amid prolonged applause.

A Sepoy outbreak is reported from British Burmah.

CALLS IT PURE MOONSHINE.

London Review Comments on The Alaskan Boundary Question.

London, Oct. 23.—The Review, commenting upon the Alaska modus vivendi, says:

"The talk of Anglo-American good will, which has been indulged in even more freely than usual during the past week, is mere moonshine so long as the Alaskan boundary question remains unsettled. American obstinacy has resulted in a temporary arrangement, which Sir Louis Davies, the Canadian Minister of Fisheries and Marine, says cannot be dignified by the name of modus vivendi. Such an arrangement in itself is a menace. It may break down at any moment, and what would happen then? So far as diplomacy is concerned we are at an absolute deadlock."

Despite the foregoing, there is no doubt that the Anglo-American entente has received much impetus by the action of the United States government in undertaking to look out for British interests in the Transvaal, and, although America's refusal to perform that function would have raised a howl, it does not deter the general feeling from being one of satisfaction and gratefulness to the United States.

THE BIG FIGHTERS.

Jeffries Works Hard—Sharkey at the Weight.

Asbury Park, Oct. 23.—Jim Jeffries is inclined to work harder than usual these days in preparation for his fight with Sharkey at Coney Island a week from next Friday. He now takes long runs on the road at a fast gait, wrestles with Roeber, jumps the rope, punches the bag and plays handball. Dr. Frauenthal, who is in attendance at Jeffries quarters to treat his sprained arm, had to advise the champion to be cautious. "Jeff" wanted to toss the medicine ball, but the doctor wouldn't allow it, fearing his injured left arm would receive a setback.

Tom Sharkey is now at his fighting weight, 185 pounds, and has decided to let up a trifle for a few days in his preparations for his championship battle with Jeffries. The sailor is now in great trim and ready to enter the ring at short notice. He fears he might go stale if he continues his hard work.

Must Pay Policy of Suicide.

St. Louis, Oct. 23.—The United States Court of Appeals has decided that suicide cannot be urged by an insurance company as its reason for refusing to pay a policy unless it can be shown that the individual contemplated suicide at the time of taking out the policy. The case under consideration was that of Rosa B. Jarman against the Knights Templar and Mason's Life Indemnity Company. The woman's husband, John P. Jarman, committed suicide in this city one year ago while insane, and the insurance company refused to pay the $5,000 to his widow on the ground that her husband, having killed himself, his heirs had forfeited all right to it.

The Gould's Are Well Pleased.

Kansas City, Mo., Oct. 23.—The special train bearing Miss Helen M. Gould, Frank J. Gould and other officials of the Missouri Pacific system arrived from Ossawattomie, Kan. "I have within mind many improvements for the Missouri Pacific system," said Mr. Gould to a reporter. "We are well pleased with what we have seen." The party remained in Kansas City only between trains, and will return in a few days to St. Louis by way of Omaha.

Fruit Scheme Fails in Jamaica.

Kingston, N. Y., Oct. 23.—The Archbishop of Jamaica, who has returned here from London, brings positive information of the complete failure of the projected fruit company designed to open the direct English trade with this island. On this project was based Jamaica's indifference to the campaigns of the American growers against the ratification of the West Indian Reciprocity Treaty.

Decorated by Japan's Emperor.

New Haven, Conn., Oct. 23.—Prof. George Trumbull Ladd, head of the department of mental philosophy at Yale, has notified the Yale University authorities that the Emperor of Japan has conferred upon him the decoration of the Rising Sun. He has been invited to address National Japanese University students. He has been in Japan four months on his mission to the Japanese universities.

Death of Robert Porter.

Bridgeton, N. J., Oct. 23.—Robert Porter, of West Commerce street was taken ill with congestion of the lungs, and in less than half an hour was dead. He was prominent for years in the publishing world, and was highly successful, being for years the senior member of the firm of Porter, Coates & Co., book publishers, of Philadelphia. Four years ago Mr. Porter retired from business.

Two More Victims of Explosion.

Nyack, N. Y., Oct. 23.—John Somolone, leaving a widow and three children, and John Scronick, leaving a widow and five children, have died at Rockland Lake as the result of the powder explosion at the stone crushing works of Foss & Conklin. This makes eight victims in all, and one or two more may die.

New Hampshire Monument Unveiled.

Portsmouth, N. H., Oct. 23.—The monument erected by the New Hampshire Society of Colonial Dames of America to mark the first settlement of whites in New Hampshire and the second in New England, was unveiled at Odiorne's Point, in the town of Rye, sixty miles from this city. The stone is of granite, and bears the date "1623 and 1899."

M'ARTHUR TO MEET THEM

Filipino Commissioners Will Not Be Allowed to Visit Manila Again.

ONLY AS INDIVIDUALS.

They Are Not to Be Treated With as Representatives of the So-called Republic.

A Boat's Crew From the Gunboat Mariveles Captured And Shot by The Filipinos—An Unsuccessful Attempt to Rescue Them—Two Transports Arrive at Manila.

Washington, D. C., Oct. 23.—The Secretary of the Navy has received the following cable message from Rear Admiral Watson, dated at Manila:

"The insurgents surprised a boat's crew of four men from the gunboat Mariveles, who, under a white flag, were landing the non-combatants from a captured proa at Sicogon Island. William Juraschka, boatswain's mate, first class, was captured. An armed crew of ten attempted a rescue unsuccessfully. Sidney N. Hoar, landsman, was fatally wounded; Frederick Anderson, apprentice, first class, severely wounded in the groin; Nicholas Farre, coxswain, wounded in the left leg, slight. The concord and Mariveles will punish if possible."

General Otis has informed the War Department of the arrival at Manila of the transports Sherman and Elder. The Sherman carried the Thirtieth volunteers and some recruits, and the Elder had on board nineteen officers and 488 enlisted men. There were no casualties on either ship.

Colonel Bird, in charge of the transport service of the army, is back from New York, where he made a careful inspection of the three crack transports, Thomas, Meade and Logan, which are nearing completion.

The Thomas will be ready to sail for the Philippines on November 5, carrying the Forty-seventh volunteer infantry. The Meade will follow on November 15 with the Forty-third Volunteer infantry. The Logan will sail on the 20th of November with the Forty-first Volunteer infantry.

No Picnic For Peace Men.

Manila, Oct. 23.—It is believed that when the Filipino Commissioners, on whose behalf permission has been asked to visit General Otis to discuss peace terms and other matters, are admitted to the American lines, they will not be brought to Manila. It is expected that General MacArthur will be empowered to meet them. If he is authorized to receive them, he will do so in the status of individuals coming from Aguinaldo, and will decline to receive any official communication from the so-called republic.

It is reported that the Filipinos propose to ask for an exchange of sick Spaniards in their hands for Filipino prisoners.

General Lawton's column is establishing a base at San Isidro. Steam Launches and cascos navigate the shallow Rio Grande with much difficulty, but supplies have been landed in the vicinity and will be transported overland.

Transport Senator Arrives.

San Francisco, Cal., Oct. 23.—The Fifty-first Regiment of Iowa Volunteers, numbering 764 men and 46 officers, under the command of Col. J. C. Loper, has arrived here from Manila on the transport Senator. There was no sickness aboard. Edward W. Kissick, Company F, of Oskaloosa, Iowa, died at Nagasaki of dysentery. Three days out from Nagasaki Edwin Statler, Company M, and Homer A. Read, Company A, were injured by the breaking of the after sail which fell on them. Statler's leg was broken and Read sustained a fracture of the skull. Both men are doing well.

The Senator was caught in the tail of the typhoon encountered by the steamer Empress of Japan. She was tossed in a lively manner for several hours, but suffered no severe damage. So serious did the situation seem to the officers of the steamer at one time that all the passengers were ordered below, and the hatches were battered down.

Adjt. Gen. Byers and 300 citizens of Iowa met the Senator at the Golden Gate in a number of tugs. They received a royal reception from the volunteers. The regiment will be taken of the transport at once.

Gunboat Sails From Shanghai.

Washington, Oct. 23.—The old light-draft iron gunboat Monocacy has sailed from Shanghai for Chin Kiang, China. She is one of the vessels suggested by Admiral Dewey as available for service in the Philippines. There are doubts at the Navy Department as to the Monocacy's seaworthiness, and she will be docked at Hong Kong to ascertain her condition.

Raised Over $10,000.

New York, Oct. 23.—Far above the ordinary and commonplace was the method adopted in the Academy of Music to swell the fund for a monument to the great Irish leader, Charles Stewart Parnell, and to save his home, in the Vale of Avoca, from being sold and his brother, sister and other relatives from being evicted. Over $10,000 was raised at the meeting.

Ingalls Had to Resign.

Leavenworth, Kan., Oct. 23.—Lieutenant Ralph Ingalls of Company C, Forty-fourth volunteers, has resigned his commission on account of defective hearing. Ingalls is a son of former Senator John J. Ingalls, and was an officer in a Missouri regiment in the Spanish War.

Will Ask to Have Lawton Promoted.

Laporte, Ind., Oct. 23.—Petitions will be put in circulation in every county throughout the state appealing to President McKinley to appoint Gen. H. W. Lawton to fill the vacancy occasioned by the retirement of Gen. Shafter.

USED BABY FOR A SHIELD.

Georgia Murderer Tries Novel Means Of Jail Breaking.

Atlanta, Ga., Oct. 23.—Edward C. Flanagan, the De Kalb County murderer, broke from his cell in the jail here. As he dashed throught the door and past the guard, who had the murderer's breakfast in his hand, he snatched up the baby of Sheriff Talley. Drawing a long knife from his sleeve, and clasping the child to his breast, the prisoner fled down the jail stairway toward the street and prison library.

Down one flight of steps and then through a corridor leading to the Sheriff's house, the only avenue of escape from the prison, Flanagan sped, holding the screaming child in his left arm and brandishing his knife in his right hand.

Sheriff Talley happened to be in the room into which Flanagan dashed. Mrs. Talley, the child's mother, also was there. The father and mother simultaneously sprang upon the prisoner, Mrs. Talley wielding a broom and the Sheriff clutching Flanagan by the neck. The guard came up at this instant and the three overpowered Flanagan and took the child from him. The Sheriff then drove him back up the steps and into the cell at the point of his pistol.

Flanagan has been confined in the jail here since last February, awaiting a new trial on the charge of murdering Miss Ruth Slack and Mrs. Dixon Hall, attempting to murder Mrs. George Allen and inflicting injuries on her father, Dixon Allen, from which he afterward died. He has been sentenced to be hanged, but on a plea of lunacy he has been allowed several trials.

Captain Dreyfus Gaining in Health.

Paris, Oct. 23.—Ex-Capt. Dreyfus is steadily improving in health at his resting place in Carpentras. He is anxious that future efforts for his complete rehabilitation shall be made with the utmost reserve. He is opposed ot anything in the nature of a fresh campaign, but his leading supporters may decide that it is necessary in his own interests to resume an agitation, without which, they argue, he is still the same Devil's Isle Dreyfus, however greatly he may prefer quiet and peaceful methods.

Grand Jury Indicts Bishop.

Buffalo N. Y., Oct. 23.—The Grand Jury at Belmont indicted Gabriel M. Bishop of Cuba on the charge of manslaughter in the second degree. He is charged with exploding a dynamite cartridge in the vicinity of a cottager's camp, on Cuba Lake, on July 8. An inmate of the cottage, Everett Austin of Belmont, was so badly mangled by the explosion that he died the same day.

American Consul Married.

Fort Wayne, Ind., Oct. 23.—Relatives here received notice of the marriage on Oct. 8, at Bournabar, of United States Consul Rufus Walt Lane of Smyrna to Miss Marie, a Greek girl, a daughter of Mrs. John Psachi. The Consul is a graduate of Earlham College and was the Cincinnati member of the Ohio Legislature who cast the vote which elected Mark Hanna to the Senate.

May Have Gone Over Niagara Falls.

Jamestown, N. Y., Oct. 23.—J. C. Richardson, a prominent citizen of North East, is missing. A few days ago he went to Niagara Falls, and while there wrote to friends in this city that he intended to commit suicide by going over the Falls. As he has not been seen since, it is thought he has carried out his threat. Mr. Richardson had been in ill-health for some time.

Rochester's Big Registration.

Rochester, N. Y., Oct. 23.—The total registration for three days this year, 25,158, is the largest on record for a municipal campaign. It is 3,364 more than for the first three days last year, 336 more than for the same period in the municipal campaign of 1897, and is only a little over two thousand behind the first three days for the Presidential campaign of 1896.

Horseman Young For Senator.

Lexington, Ky., Oct. 23.—Milton Young, proprietor of the McGrathiana farm, was made a candidate for the State Senate by the Republicans in convention here. Col. Young has a strong following, and is almost certain to defeat the Goebel Democratic candidate. He has wagered $5,000 that Taylor will defeat Goebel.

Children Found Father Dead.

Jamestown, N. Y., Oct. 23.—Howard Hobson, a widower, aged 44 years, living near Mayville, committed suicide. Hobson kept house for his two children and sent them to school. On their return home they found their father hanging in the woodshed. He had been despondent since his wife died about a year ago.

Peanut Whistle Lands Him in Jail.

Topeka, Kan., Oct. 23.—Lewis W. Charotchas, a Greek, has caused nervous people of Topeka no end of worry by allowing a steam peanut whistle to sing away from morning till night in front of his place of business. He went to jail for the third time because of this nuisance, but he insisted on leaving his steam kettle running at full speed.

Horace L. Hastings Dead.

Goshen, Mass., Oct. 23.—Horace L. Hastings, editor and publisher of the Christian for more than thirty years, died at his home here of typhoid fever. Mr. Hastings was born Nov. 26, 1831, in Watertown, Mass. He was the author of many books, tracts and pamphlets known as the Anti-Infidel Library.

Say it Was Not Bubonic Plague.

Rio Janeiro, Oct. 23.—In the last ten days nine cases of suspicious illness, three of which resulted fatally, have been reported at Samoa. It is the opinion, however, of most of the doctors that the patients were not victims of the bubonic plague.

Collapse of Hospital Kills Four.

Havana, Oct. 23.—The hospital in Sagua la Grande collapsed, having been undermined by floods from the recent heavy rains. Of the forty-two inmates four were killed and twenty-seven injured.

New York Announcement.

Horner's Furniture.

The BEST IN THE MARKET because representing the productions of the best makers only. Other advantages are the unequalled assortments in all lines, whether wanted for city or country houses, and the very moderate prices at which the goods are marked.

The completeness of our assortments can best be understood from the fact that we carry in stock, and exhibit, more than *two hundred and fifty distinctively different Bedroom Sets* in every variety of material, as well as endless lines of Parlor, Drawing Room, Library and Dining Room Furniture, ranging from the modest and inexpensive to the most elaborately carved and inlaid.

In a word, every article required for use, comfort and adornment in the household can be had with its plainly marked moderate price at the Great Furniture Emporium of

TEETH.

If you have any to be extracted remember you will not be hurt in the slightest. My local anæsthetic is the best that can be obtained and is not known to the other dentists in this city. Gas strictly fresh administered by an expert if you want that. If you need artificial teeth you may rest assured that the greatest care will be exercised in selecting shape and color to harmonize with the face, also to restore the features to their natural expression and fullness. This is most important.

When one feels lackadaisical it is found that a Ripans Tabule taken at night or after eating will tone one up and make life seem worth living.

A new style package containing TEN RIPANS TABULES in a paper carton (without glass) is now for sale at some drug stores FOR FIVE CENTS. This low priced sort is intended for the poor and the economical. One dozen of the 6-cent cartons (120 tabules) can be had by mail by sending forty eight cents to the RIPANS CHEMICAL COMPANY, No. 10 Spruce Street, New York. (A single carton, TEN TABULES) will be sent for five cents.) RIPANS TABULES may also be had of grocers, general storekeepers, news dealers and at corner store and barber shops.

TRIED TO END HER LIFE.

Insanity Over Molineux Case Causes Attempt At Suicide.

Newark, N. J., Oct. 23.—Because of the hallucination that she was to be tried and electrocuted for the murder of Mrs. Katherine J. Adams of New York, Mrs. Emma Carter of No. 484 Market street leaped into the Morris Canal in the attempt, as she said, "to cheat the electric chair." She was dragged out and resuscitated, and on certificates signed by County Physician Washington and Police Surgeon Clark, was removed to the Essex County Hospital for the Insane.

Mrs. Carter is the mother of four children. She lives right across the canal from the Morris Hermann Dry Color Works, of which Roland B. Molineux was superintendent. She saw him every day as he went and came, and took an all absorbing interest in the case.

A few days ago her husband, who is a steel worker, noticed she was acting queerly. She read in the papers allegations that some of the witnesses in the Adams case had been tampered with. This seemed to throw her into great alarm, and she confided to her neighbors that she was the real murderer of Mrs. Adams.

"They intend," she said, "to try me and then kill me, but they will not do it." Then she hurried out and plunged into the canal.

Funston Will Return to Philippines.

Kansas City, Oct. 23.—A special from San Francisco says:

Gen. Frederick Funston received a telegram from the War Department

GENERAL FREDERICK FUNSTON.

offering him a brigadier's command if he would return to the Philippines after his former regiment, the Twentieth Kansas, is mustered out. Gen. Funston accepted the offer.

The Brooklyn "L" Accident.

Brooklyn, N. Y., Oct. 23.—The accident on the Brooklyn elevated road which resulted in five persons being thrown to the ground, 40 feet below, is said to be a case of criminal carelessness; but whether the man who was hanging to the steps and knocked the others off the foot walk at the side of the track, or the railroad guard who allowed him to hang there is guilty, may have to be settled in the courts. Gustave Schneider, died at the hospital soon after the accident and it is thought that two others who were injured cannot recover.

To Finish The Missoula Cut-off.

Missoula, Mont., Oct. 23.—It is said on what is considered to be credible authority that the Northern Pacific will build at once the remainder of the Missoula cut-off whose construction has occasioned so much discussion in railroad circles during the past few months. This is regarded as the outcome of the failure of the Northern Pacific and Union Pacific to reach an agreement over the division of the Snake River territory.

Story of Vanderbilt Will Denied.

New York, Oct. 23.—Senator Depew absolutely denied the report that the share of Cornelius Vanderbilt in his father's estate is $10,000,000. When seen here, Mr. Depew not only said that the story was untrue, but added that there was nothing new in regard to the filing of the will for probate, which would be done in proper time.

New Honor For McKinley.

Washington, D. C., Oct. 23.—President McKinley has been informed of his election as a trustee of the Peabody Educational Fund. The notice was brought to the White House by Dr. J. L. M. Curry, agent of the fund. President McKinley succeeds former President Cleveland as a member of the board.

Inventor Delong Suicides.

Philadelphia, Pa., Oct. 23.—Charles F. Delong, aged 38 years, well known throughout the country as one of the inventors of a hook and eye, shot and killed himself at his factory, 429 North Twelfth street. Delong had been suffering from neuraligia for several months and was greatly worried over the illness of his wife.

Spaniards Killed And Mutilated.

Havana, Oct. 23.—Two Spaniards named Campillo and Perez, who kept a store in Lagunitas, Pinar del Rio province, were found murdered in their place of business. Their bodies had been cut up with machetes. The murderers have not been discovered.

Shot Widow and Himself.

Lawrenceburg, Ky., Oct. 23.—Buckner McKee, a farmer of this county, shot and killed Mrs. John M. Wilson, a widow of this place, and then committed suicide. The man, although married, had been paying attention to Mrs. Wilson for a year.

Maine's Victims to Rest in Arlington.

Washington, Oct. 23.—The bodies of the sailors and marines who perished in the blowing up of the Maine, and which were afterward buried in Havana, will be brought to this country and interred in the National Cemetery at Arlington.

Publisher Neely Fails.

New York, Oct. 23.—F. Tennyson Neely, the publisher, has failed for more than $350,000. His failure is the largest in the publishing business since that of the United States Book Company, several years ago.

CARRIED BOER POSITION.

British Forces Win Another Hard Fought Battle in South Africa.

GUNS AGAIN SILENCED.

Generals White and French Distinguish Themselves in Action at Elandslaagte.

War Office in London Posts a Bulletin from Gen. Archibald Hunter—White and His Forces Remain to Defend Ladysmith—The Camp and Equipment Captured.

Cape Town, Oct. 23.—A dispatch has just arrived announcing that the Boers are shelling Dundee, east of Glencoe, at long range, but that their fire is ineffective.

Another report from Glencoe says that the Boer force under Commandant General Joubert has attacked, or is about to attack, the British intrenched positions at Glencoe.

London, Oct. 23.—According to a special dispatch from Glencoe Camp, the British cavalry, while pursuing the defeated Boers, were engaged by a strong force of the enemy on the main north road. Firing now is in progress.

It is believed that the railway between Laydsmith and Glencoe has been repaired.

The latest despatch from Cape Town says:

"It is now known definitely that Glencoe was attacked by the Boer main northern column. Our forces are intrenched in a good position."

Cape Town, Oct. 23.—Generals White and French have carried the Boer position at Elandslaagte.

This town is about half way between Ladysmith and Glencoe, the scene of Friday's battle.

London, Oct. 23.—The War Office posted the following from General Sir Archibald Hunter:

Ladysmith, Oct. 22.

"General White and his forces left here for Elandslaagte and two hours later the force under command of General French started for Modder's Bridge by road and rail. By 2 o'clock in the afternoon General White's command was strengthened to the following total: Fifth Lancers, a squadron of the Fifth Dragoon Guards, two field batteries, the Natal Field Battery, the Devonshire regiment, half the Manchester regiment, half the Gordon Highlanders, the Imperial Light Horse and two squadrons of Natal volunteers.

"I remain here in defense of Ladysmith with the Gloucester regiment, half the Manchester, half the Gordon Highlanders, a mountain battery and 500 Natal volunteers.

"I learn by telephone from an armored train a mile this side of Elandslaagte that at 5 p. m. the enemy's three guns were silenced and that our infantry were about to charge. The enemy's number this morning was estimated at 1,000, and another 1,000 is expected to arrive during the afternoon."

General Jan H. M. Kock, the second in command in the Transvaal army, was wounded and captured and afterward died. Piet Joubert, a nephew of Commandant General Joubert, was also wounded and captured.

The British losses were about 150 in killed and wounded.

A Surprise To The English.

London, Oct. 23.—The inevitable is happening in South Africa more speedily than the English themselves expected. The details arriving of Saturday's dearly bought victory show that the Boer defeat was crushing, and for ordinary troops, would be almost decisive. It is impossible, however, to estimate intelligently the effect of the severe reverse upon the Boers, for it is a new experience for them. The simultaneous checks at Mafeking and Glencoe by forces much smaller than their own, cannot fail to modify seriously their plan of campaign. It is fully expected in this country that the Boers will now concentrate all their efforts against Kimberley, with the possible capture of Cecil Rhodes as the chief incentive. There is no doubt that every Boer in the two republics will do and dare more to accomplish this than all other objects combined, and if, perchance, they should succeed it is safe to say that the life of the famous prisoner would speedily be forfeited.

There is no longer much mystery about the British plans. In general the instructions to the forces in Natal and at Kimberley and Mafeking are to hold their own defensively until the arrival of Gen. Sir Redvers Buller's army corps. Gen. Sir George Stewart White in Natal will probably receive wide discretion as to what extent to follow up Saturday's victory. At last accounts his cavalry was still pursuing the Boers, but it would appear foolhardy for him to risk a dash into the Transvaal with his present force. The bold commander might try to rush into Pretoria itself on the heels of the panic-striken enemy, but the whole British policy in this campaign is slow and sure, and the failure of a brilliant attempt would be a disgrace.

It should be remembered also that only our version of Saturday's battle has been received and it is meagre. There is no reason to doubt the fact of the Boer defeat, but the intimation that the Boers lacked courage and marksmanship should be received with great reserve. A striking feature of the battle, which above all else impresses the English public, is the high proportion of casualties among British officers. This is explained not only by the intelligent and skilful shooting by the Boer riflemen, but also by the recklesss courage of the victims. It has been freely prophesied that when hostilities began the casualties among the British officers would be appalling. The keenness to win distinction and promotion, particularly among the young officers, is so great, that it outruns discretion.

COMING EVENTS.

October 23—Union Bible class taught by Rev. D. M. Stearns, Y. M. C. A. Hall, 7:45 p. m.
October 30—Y. M. C. A. Star Course.

The Democratic Outlook.

Though the Democratic leaders of Union county announce themselves as intending to make an aggressive campaign for the election of county ticket that they will name next Friday, at the present time there is much uncertainty as to how that ticket will be made up, although there is no factional strife to keep the Democratic politicians on the edge as is the case with the Republicans.

Up to the present time the leaders wholly at sea as to who will stand the office of Senator. Former Senator Fred Marsh, of Elizabeth, has been talked of, but Mr. Marsh himself and some of his closest personal friends are opposed to his selection. What would be more natural in the face of a dearth of available material for this office than that the Democrats of Union county should turn to that old war horse of Democracy, "Farmer Orator" James E. Martine, of Plainfield. Mr. Martine, however, believes that he has done his share of party duty by running for office, and as he has passed the period described as "being in the hands of his friends" he has set his foot down good and hard on the talk of his becoming a Senatorial candidate again, and declares that under no circumstances will he accept a nomination. Mr. Martine is an old campaigner who would make a hustling canvass, and tend the enthuse many lagging Democratic spirits, but he has firmly decided that he will not run for the office. Mulford Scudder, of Westfield, is also mentioned as a possible Senatorial candidate, and it may be that he will be nominated after all.

As the Democratic stronghold of the county Elizabeth is looked upon as being able to furnish candidates aplenty, and in this respect Major Dennis F. Collins, chairman of the Democratic city executive committee, and a jolly good fellow all around, is suggested as a strong card to associate with the Senatorial canvass. Mr. Collins is a bright, self-made man, and would array a personal following in his own city on the side of the Democrats that would at once cause the G. O. P. some misgivings as to their votes in that city. If Major Collins cannot be prevailed upon to accept the Senatorial honor, it is probable that he will be nominated for the Assembly again. His run of last year showed him to be a strong man.

Jacob Glaser, of Union township, who is in the meat business in Elizabeth, is really the only Democrat who has been making an active canvass for any of the county nominations. Mr. Glaser wants to be Sheriff, and from present prospects it looks as though he would land the nomination. He believes he can be elected against any candidate the Republicans may name. Glaser expects to poll the German vote. Former Sheriff George Hicks, and Jacob Sayre, of Elizabeth, are also mentioned in connection with the office.

For the county clerkship nomination former County Clerk Wm. Oliver and Jacob W. Sheppard, of Elizabeth, both have friends working for their candidacies for the place. Mr. Oliver is personally popular and his friends say would stand an excellent chance of election. On the other hand Mr. Sheppard's great run against Sheriff Wm. T. Kirk three years ago, is pointed out as indicating how popular a candidate he would be on the county ticket again. In Elizabeth Sheppard ran 1,200 votes ahead of Kirk three years ago.

It is probable that two of the Assembly nominations will come from Elizabeth and the third from another section of the county—possibly Plainfield. Not since Mr. Martine ran against Gov. Voorhees for Senator six years ago has Plainfield had a Democratic nomination. This year Plainfield will ask for one of the nominations. Those who are anxious to have the party reorganized in Plainfield feel that a local candidate would tend to stir up interest and thus arouse more support for the reorganization plan.

With respect to George Squier's political intentions Editor Runyon pretended to know more than was so, but in regard to his Republican record he seems to know too much that is true. And what makes it the worse for the Hon. Mr. Squier is that he tells it all in cold print.

The campaign in Somerset county is now on with all the energy that the respective candidates for Senator can command.

The Republican primaries will be held to night. They promise to be interesting in at least two wards.

WHAT THE SHEARS FIND

Editorial Comment From Other Papers of Interest in Plainfield.

What Somerville needs now is a trolley line running from here through Pluckamin and Bedminster to Peapack. Many of the residents of that section of the country now take the Morris and Essex to Newark and do their trading at that place. A trolley running from Somerville through this section would bring all the trade here, and would enhance the business of our merchants thousands of dollars every year. It would pay the business men of Somerville to build this road themselves, and they will have to do it to offset the trade that is now drawn from here to New York, Newark, New Brunswick and Plainfield.—Somerville Democrat.

—The Plainfield Electric Light Company is gradually completing the underground arrangement for this wires in the business part of the city, and before long the old poles will be removed and the light will be furnished through the underground conduits.

Rev. A. F. Shaffer, pastor of the German Lutheran church, has returned from Philadelphia, where he was suddenly called last week, and occupied his pulpit yesterday.

A BOER GENERAL INSPECTING VOLUNTEERS.

Every male citizen of the Boer Republic who has reached the age of 15 knows how to handle a rifle, and the boys are as ready as the adults to fight for their country. When volunteers are called for the responses are greatly out of the usual proportion of a country's citizenship. Scenes like the above have been of frequent occurrence recently in Oom Paul's republic.

The Moralist.

Physical nerve is common; the valor of the heart is rare.

Self is the integer. God the fraction—if deeds speak louder than words.

Creation is ransacked for man's brain and nerve, yet what return is on his conscience to make?

The do-nothing is the worst man in the universe.

Consumption of the soul is the malady most common to man.

Back-suffering and suffering-beforehand is the greater part of human misery.

It is a nice point to determine beforehand what is inevitable.

Pride being an aristocratic vice, the poor are fascinated with it.

Timidity, irresolution, procrastination are all defects of love.

There is no covering like manliness; it is the robe that is left when a true man is stripped to the bone.

Sheep are sheared, rabbits are popped over—but we stand aside and let the lion pass unmolested.

Wisdom is only to will and to do—yet no one is wise.

The Bachelor.

Men who get along best with the women are born to be graceful liars.

Every woman laughs too much before she's 20 and too little afterward.

Love at first sight is the only kind worth having, only there's no such thing as love at first sight.

At a wedding the girl always tries to act ashamed, and really looks triumphant. The man tries to act triumphant and really looks ashamed.

There are two ways of doing everything: one is to do it the way you think it is best to do it, and the other is to do it the way some woman tells you it ought to be done.

A Frightful Blunder

Will often cause a horrible Burn, Scald, Cut or Bruise. Bucklen's Arnica Salve, the best in the world, will kill the pain and promptly heal it. Cures Old Sores, Fever Sores, Ulcers, Boils, Felons, Corns, all Skin Eruptions. Best Pile cure on earth. Only 25 cts. a box. Cure guaranteed. Sold by L. W. Randolph, Druggist.

GIVE THE CHILDREN A DRINK

called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder, and children, as well as adults, can drink it with great benefit. Costs about ¼ as much as coffee 15 and 25c.

Democratic Primaries.

Notice is hereby given to the Democrats of the city of Plainfield that the primaries for the election of delegates to the Democratic county convention, to be held in Turn Hall, Elizabeth, Friday, October 27th, will be held in the various wards of this city

WEDNESDAY, OCT. 25th.

The business to be transacted at these primaries will also include the election of members of the Democratic County Executive Committee, as well as propositions for the thorough reorganization of the party in Plainfield.

The places of holding the primaries in each of the wards, as well as the number of delegates each is entitled to, are as follows:

FIRST WARD, four delegates, vacant store in Voehl building, 320 East Front street.

SECOND WARD, three delegates, Bryant Schoolhouse, East Sixth street entrance.

THIRD WARD, three delegates, basement Revere House, Park avenue.

FOURTH WARD, eight delegates, T. A. B. Hall, West Fourth street.

It is the duty that every Democrat owes to his party to attend the primary in the ward in which he votes.

JOHN H. HILLMAN,
Pres. Democratic Asso'n.
W. W. ST. JOHN, Secretary.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

AMERICAN STEAM LAUNDRY,
122 East Front Street.

For Your Comfort.

As choice a line of fine Wool Blankets as the most fastidious housekeeper could ask for. These goods are made and guaranteed by the "Muncy" Woollen Mills and are superior in quality and finish. The short wool is thoroughly combed out, making the blankets stronger and preventing, in large measure, their shrinking. We care not where you have been accustomed to buying your blankets—we are sure of being able to sell you these goods a little cheaper than any other concern in the business. We shall esteem it a pleasure to show you these goods. And then our Comfortables are worthy of your attention. As we have stated before they are far above the average. Filled with pure, clean white cotton, and covered with choice selected covering, they need but to be seen to be appreciated. Down Comfortables for those who prefer them (and who does not) and can afford them. Prices 3.98, 4.98 and 6.75.

YOUR ATTENTION

Is called to our new Beaded-all-over Dress Nets in black. They are beautiful and not over extravagant. We are also displaying some dainty embroidered chiffons and fancy corded and tucked Silks for Dress Fronts.

FOR THE LITTLE FOLKS.

Some exquisite Silk Caps and Bonnets. Inconceivably pretty, tastefully trimmed, well calculated to please all fond mothers. Bring in your little folks and fit them out while the assortment is greatest. The line includes some cunning little Silk Caps for small infants.

Something New Under The Sun.

"Silk Floss" Pillows. They are nicely covered, very soft and seem to take the place of Down at about ½ the price. We sell them as follows:
16x16, 19c. 18x18, 25c. 20x20, 39c. 22x22, 50c. 24x24, 59c.

AT 98c Per Suit.

Ladies' Combination Suits of Underwear (full bleached) You would pay 1.25 for same without complaining.

Trunks, Hand Bags and Suit Cases

An entire new line opened this week. Well finished and thoroughly honest in wearing qualities.

DOWN STAIRS.

CARPETS fit for a Queen to tread. Savonneries, Axminsters; Moquettes, Velvets in rich, warm colorings, and the latest Fall patterns. A full line Stinson's 10-wire Tapestries, the kind that lasts until you are ready for a new one. All our carpets are new and the most to be desired that the mills produce. We believe we have the largest line of Oil Cloths and Linoleums in this State, and have skilled workmen to cut and lay them.

-:- LACE CURTAINS -:-

All new up-to-date, beautiful, cheap. They may be found in the arpet Department.

THE NEW LINING "ORIENTAL" SILK

-:- DIRECT -:-
from the Manufacturer to the Consumer.

For the past three weeks we have been very busy bringing from our factory bundle after bundle of our Fall and Winter stock and arranging them on our tables. We didn't say a word about them because we wanted to display our line in full and then scream.

NOW WE'RE READY TO SCREAM.

We never scream unless we have something to scream about, and we won't scream about anything that we can't substantiate. We are showing as extensive a line of clothing as any store in the vicinity, and the prices are right. The cut and finish is there and all extra profits are off. Besides our staple blacks and blues, we are showing a variety of up-to-date worsteds, with and without double breasted vests in stripes, checks and plaids. Everything that the designers art and fine tailoring can do is in them. We are proud of our stock and want everybody to see it. Come and look at it whether you want clothing or not, you will be treated right.

Below We Quote a Few Prices:

Men's Black and Blue Cheviot suits 2.75, 3.75, 4.25, 7.25, 8.00 and 9.00.
" Fancy Cheviot suits 3.25, 4.25, 5 00, 6.00, 8.50.
" Fancy Worsteds, elegant 7.50, 9.75, 10.50, 11.00.
Boy's long pant suits 3.00 to 8.75 Child's knee pant suits 95c to 4.00.

Winter Overcoats are being placed in stock now.

WE DO TAILORING, IT MIGHT INTEREST YOU.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Daily Press.)

Dunellen, Oct. 23.—"Capt." Liable, a brother of William Liable of the borough, accompanied by his wife, is visiting his old home and friends here. The "Captain" is quite small of stature, being but four feet in height and weighing about seventy pounds. He is thirty-nine years of age and has seen considerable of the world. For some months he travelled in Europe with a Lilliputian company. He says he was considered the giant of that company. Has but recently returned from London, where he was engaged in theatrical business. The "Captain's" wife is even smaller than he is and will scarcely tip the scales at seventy pounds. She is but three feet and nine inches in height but quite well de veloped for a person of her size. Mrs. Liable is a native of Kentucky, having been born near Knoxville. The "Captain" boasts of the fact that he is a Jerseyite, having first saw the light of day in Newark. The couple are said to be very clever in their specialty act, "Captain" Liable is a pleasant gentlemen to meet and is well versed in the affairs of the country. He thinks there is no place quite so dear to his heart as an America and his native State. The "Captain" and Mrs. Liable will remain in Dunellen for several weeks before again engaging in their profession, which has taken them all over the country and in many cities abroad.

The anniversary exercises of the Junior and Senior branches of the Christian Endeavor Society of the Presbyterian church were held at Dunellen last evening. There was a good attendance and the church was decorated with the fruits of the autumnal season. Mrs. Sutton, president of the Seniors, presided. Interesting reports were read from the secretaries and treasuries of the local societies. Miss Florence G. Hawkins, of Plainfield, read an interesting paper on the work of the recent convention in Camden and J. B. Lane, a delegate to the convention from Dunellen, made a brief address. Before the exercises closed new officers were elected.

At the last meeting of the Order of the Golden Cross, Mrs. S. O. Sutton and Mrs. Dr. Whitford were made members. Another initiation is expected at the meeting next Thursday evening.

Next Tuesday evening the Ladies' Aid Society of the Methodist church will hold an oyster supper in the lecture room of the church.

John Sirisky, a brother of Bernard Sirisky, the barber, who is with the army in Manila, has written an interesting letter home.

About three car loads of sand are shipped daily from this station to Sayerville to be used for brick making at that place.

The Central Railroad company is having the leaves raked up in and about the park. They will be burned.

Peter E. Dunn, of Battle Creek, Mich., a former resident, has been visiting friends in New Market.

Lakeside Council of New Market is arranging for a pumpkin social to be given Tuesday November 14th.

Some improvements are being made about the approach to the New Market bridge, such as curbing, etc.

An addition has recently been made to the steel works at Lincoln. It will be about seventy feet long.

A new stove which was bought of A. S. Giles has been placed in the Whittier School building.

Miss Irene Day will entertain the G. E. club next Tuesday evening at her home.

Some improvements are contemplated to the waterproof factory at Lincoln.

PLAINS AND FA[illegible]OOD.

(Special Correspondence of The Press.)

Scotch Plains, Oct. 23.—The Baptist Sunday-school have began practicing special music for Bible day exercises which will be held in the church some Sunday in the near future.

The recently organized Fanwood Club was opened to the members last week. A number of improvements have been made in the old club house building and the members are looking forward to some very pleasant event there during the coming season.

The Republican primary, for the purpose of electing delegates to the county convention to be held at Elizabeth Thursday, will be held in Excelsior Hall this evening.

The Democratic voters will meet in the Bucket and Engine rooms Wednesday evening to elect delegates to the county convention.

Miss Stella Rogers, who has been visiting her grandparents, Mr. and Mrs. Ryno has returned to her home in Brooklyn.

Mr. and Mrs. George Schick entertained their friend, Mr. Woodrow, of Plainfield, Sunday.

Miss Hattie Wilcox, of Brooklyn, has been visiting her mother, Mrs. Nancy Wilcox.

George L. Dunn led the young people's meeting in the Baptist church last evening.

Mrs. William Bacon, of Plainfield, has been the guest of Miss Eva Baker.

—Wednesday of this week the State Council, Jr. O. U. A. M., will meet at Trenton.

—Queen City Lodge, No. 226, I. O. O. F., will celebrate its anniversary this evening.

—Thursday evening of this week Greenbrook Council, 1725, Royal Arcanum, will hold an entertainment.

THE AMUSEMENT WORLD

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local and Metropolitan Performances That Will Please Those Who Delight in the Art of Thespis and Mimic World

When "The French Maid" is presented at Music Hall tonight local theatre-goers will be given an opportunity of seeing a witty, lively entertainment that achieved a run of nearly an entire season at the Herald Square Theatre in New York and afterwards succeeded in crowding the Park Theatre in Boston during a tenancy of several months. It also scored success of like magnitude in Philadelphia and Chicago and in all these cities charmed its patrons by the lively comedy, tuneful music, brisk action and brilliant ballots that pervaded it. The piece is of English origin and is classified as a musical comedy, but like "The Runaway Girl," "The Circus Girl" and other examples of this style of stage entertainment, it requires the services of some fifty people to give it adequate presentation while the scenic equipment and costuming are of the most elaborate and brilliant description. The production that will be shown here is the identical one that was on view at the Heral Square Theatre while the company is largely the same that appeared in it there. The action of the play permits the introduction of several novel ballets, and the work of the principals is aided by the efforts of a chorus made up of young and pretty girls.

* * * * *

A rare treat is in store for lovers of Hoytian humor next Saturday evening at Music Hall when a "Contented Woman" will make its bow in this city. The production is a sumptuous one, and all the scenery used in the piece during its phenomenal run at Hoyt's Theatre, New York, will be seen here. This scenery is all of a special design, and from the brush of the well-known scenic artist, Arthur Voegtlin. The piece is heralded as a bright and rollicking satire on politics as treated by women in some of the western States, where the law gives them the right to vote and to hold office. It is written in this author's most humorous vein, replete with witty dialogue, sparkling music, absurdly funny situations, and a host of vaudeville features that are said to be new, and many of them bordering upon the sensational order. The engagement of "A Contented Woman" will be the most prominent attraction of the season, and that theatre-goers appreciate these facts is evidenced by the heavy demand for seats in advance. The cast is headed by America's most beautiful woman, Miss Belle Archer.

* * * * *

Edwin Knowles' "Becky Sharp" is still the unrivaled leader of current plays. After several prosperous weeks at the Fifth avenue, the box office man reports a brisk demand for tickets weeks in advance. It has not only drawn regular theatre-goers, but largely from a class that seldom enters a play house because of the degeneracy of art so often made manifest on the stage. This play offers offense to no quality of refinement, nor to the most delicate sense of propriety, and its high art is unquestioned. Mrs. Fiske has become one of the stage's celebrities, as everyone who pretends knowledge of contemporary dramatic art must see, and in this production she has given the intelligent, art-loving theatre-goer something to feel thankful for.

That Throbbing Headache

Would quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and strong nerves and build up your health. Easy to take. Try them. Only 25 cents. Money back if not cured. Sold by L. W. Randolph, Druggist.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

Victor Christoffensen, of Newark, spent Sunday with Plainfield friends.

W. W. Hart, of 30 Duer street, has returned from an extended western trip.

Mrs. Tillie Riker, of Central avenue, has recovered from her recent illness.

Mr. and Mrs. Chas. Westphal, of Brooklyn, spent Sunday in Plainfield with relatives.

Mrs. Albright, of Newark, who has been visiting Plainfield friends, has returned home.

Miss Mabel VanMiddlesworth, of Elmwood place, has been visiting out-of-town friends.

Dr. Fred Hughes, of St. Vincent's Hospital, New York, called on Plainfield friends yesterday.

Miss Jessie Saxton, of East Fourth street, has returned from a visit with New Brunswick friends.

Mr. and Mrs. Stephen Brown, of Dunellen, spent Sunday with Miss Mary Brown, of Washington avenue.

Spencer Conway, of this city, who has been traveling about Virginia visiting old-time acqnaintances, has returned home.

Irving Clark, of Princeton University, spent Sunday at the home of his parents, Mr. and Mrs. E. B. Clark, of Crescent avenue.

Howard Wikoff, of Richmond street, was taken suddenly ill last Thursday with a severe attack of pleurisy and is still confined to his bed.

Harry G. Auten, formerly of this city, is now stationed at Perth Amboy, where he is employed by the Prudential Insurance Company.

Miss Mabel Pierson, daughter of Mr. and Mrs. Israel C. Pierson, of Watchung avenue, is entertaining her friend, Miss Corbett, from out of town.

Charles A. Hitchcock, of New York, accompanied by Miss Gertrude Volck, of Brooklyn, were guests yesterday at the home of Miss Lillian A. Force, 82 Duer street.

Rev. Mr. Rapeljea, a returned missionary from China, will address the Endeavor Society of Trinity Reformed church at their meeting tonight. Visitors are always welcome.

The marriage of Miss Mabel A. Gillies and Nelson VanWinkle, of Central avenue, will take place in the Crescent Avenue church Wednesday afternoon next at 5:30 o'clock.

Mr. Hinman, of Grandview avenue, sang in the choir at Trinity Reformed church yesterday morning and evening in place of A. J. Moore, who is visiting relatives in the northern part of New York State.

Miss Veronica Cullen, a very popular and accomplished young woman of Brooklyn, spent Saturday and Sunday with Mr. and Mrs. Bernard F. Benson, of East Fourth street. Miss Cullen is a sister of Mrs. Benson. She was delighted with Plainfield's natural beauty.

EARLY INTELLIGENCE.

—At the meeting of Washington Camp, P. O. S. of A., to be held this evening there will be special features.

—This evening the Republican primaries will be held throughout the city, and some surprises are looked for.

—Next Thursday evening the young people of the Crescent Avenue church will hold a sociable in the parlors of the church.

—The women of St. Joseph church are arranging to give an entertainment in Saengerbund Hall about the middle of November.

—West Fourth and West Third streets are now being macadamized and the work is well under way. C. M. Meeker has the contract and he is hustling the work along.

—Justice J. Q. Miles, of Somerset street, has returned from an out-of-town visit, and has taken charge of his belongings which were removed from the rooms over H. J. Martin's blacksmith shop.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free.

Two Important Features. Dress Goods. Outer Garments.

We said "important features," that is hardly emphatic enough, for as a matter of fact these two sections are the most important features of the store just at this time. Your thought is on these matters. To guide that thought and finally fix it on this handsome equipment of gown stuffs and ready-to-wear garments is the mission of this message.

This store is prepared to demonstrate to your entire satisfaction that for style, for beauty, for worth of material and price modesty these items are worthy of all the emphasis that we can give them.

The New Autumn Plaids.

Touched with warm, rich brightness, woven in every popular color combination; many new and novel effects. As to prices—kindly read on:

79c Silk and wool effects, 40 inches wide.

1.50 Golf plaids, 54 in. wide.

Cloths for Tailored Suits.

Broadcloths, cheviots, tweeds, rough effects; they're all much in demand for tailor-made suits this season. Newest and best here, all shorn of fancy profits.

75c All-wool venetian suiting, 54 inches wide.

90c French broadcloth, 54 inches wide.

1.00 All-wool cheviots, 54 in. wide.

The New Black Crepons.

To say a thing is popular does not make it so. Popularity is measured by demand. The demand for black crepons is such that makers and importers are at their wits end to supply it. Happy the merchant who was farsighted enough to buy early. Need we add our crepons were bought early.

1.00 Silk and wool crepons, 40 in. wide.

1.50 Silk and mohair crepons.

1.75 Silk and mohair crepons.

The New Winter Jackets.

If you knew the time and care which has been spent in gathering this big assemblage of stylish coats together you would fully appreciate the enthusiasm which we feel at the result. It was labor and money well spent. You'll say so when you see what a showing is here.

3.98 Kersey jackets, ½ lined.

7.98 Melton jackets full lined.

12.50 15.00 16.50

Fine Kersey and Melton jackets, all satin lined.

Golf Capes.

No more serviceable garment ever made a bid for popularity; no garment ever won its way more completely. We are equipped to supply your golf cape needs for the present, and there's more coming but—first pick always at the beginning of the season.

Tailor-made Suits.

You wouldn't buy a jobby, ill-made suit at any price. That's why we insist on having every suit in this collection perfect. Perfect in fit, perfect in style and perfect in price, for a perfect price is a just price.

7.98 Venetian cloth suits.

10.98 Camel's hair cheviot suits.

12.50 Camel's hair and heavy twilled cheviot effects.

A Large Purchase and a GREAT SALE

We will start a great sale this week with some of the finest high-grade fall and winter suits, overcoats and trousers, which was purchased by us from the well-known firm of Henry Mann & Son's, of Baltimore, Md., having closed out the entire balance of their heavy winter overcoats and suits.

The Overcoats consist of the finest Meltons, Black or Blue Kerseys and plaid backed whipcords and covert cloths, cut in the latest style full backs, box shape, the suits are mostly with double breasted vests, made of blue or black heavy weight Serges and winter weight worsted stripes.

We ask you one and all to come to this sale as we have purchased this entire stock at not more than 33c on the dollar, and we are able to offer you the handsomest clothing ever shown in Plainfield at prices that you will buy enough to last you this winter. Here is the price list for our bargain week.

250 Men's all-wool cassimere, cheviot and homespun suits that were made by Henry Mann & Son, to be sold at from 8.00 to 10.00, will be sold this bargain week at 2.75 and 3.75.

50 Men's genuine Washington Mills, black and blue worsted cheviots, heavy weights, considered a good bargain at 10.00, to go this week at 4.25 to 4.75.

Men's black clay diagonal dress suits, in frock and sack, at 6.75, worth 14.00.

Men's wide wale double breasted black suits at 6.75, worth $16.

Men's box overcoats with plaid backs at 4.50, 5.50 and 6.50, worth from 10.00 to 14.00.

Men's fall top-coats 2.75 to 6.50, worth from 8.00 to 15.00.

Men's black melton or kersey overcoats at 4.25, worth 10.00.

We received over 2,000 pairs of men's trousers that will be sold

Extra heavy weight trousers at 95c., worth 2.50. Men's dress trousers at 1.25, 1.50 and 1.75, that are worth in other stores from 2.50 to 3.50.

New York Clothing Company

M. WEINBERGER, Mgr.

214 W. Front St. Next Door to Music Hall.

Plainfield, N. J.

Lokal-Nachrichten aus der alten Heimath.

Provinz Schleswig-Holstein.

Kiel. Hier tobte ein orkanartiger Südweststurm, welcher das Hafenwasser in See jagte, so daß das Meer auf weite Entfernung trocken war. Im Kriegshafen lagen die Torpedoboote auf Grund. Der Segler „Julie" brach im Sund in der Mitte durch; mit knapper Noth erreichte die Besatzung das Land. Im Kattegatt und in den benachbarten Gewässern sind zehn Fahrzeuge gesunken oder gestrandet; die Mannschaften wurden gerettet. Im Großen Belt trieb ein von der Mannschaft verlassenes, unbekanntes Segelschiff, welches mit Holz beladen war, an Land. Allem Anscheine nach sind die Leute von den Fluthen verschlungen worden. Schiffe, die von der Nordsee nach Norwegen und Westschweden bestimmt waren, benutzen trotz der größeren Kosten den sicheren Kanalweg, um die Fahrt an der Westküste und durch den Skagerrak zu vermeiden. Der Sturm knickte in der Nordsee die Masten des Seglers „Rebekka," welche den Kapitän Jark so schwer trafen, daß er in kurzer Zeit starb. Der Fischer Wittrook kenterte mit seinem Boot und ertrank. An der Westküste ertranken in Folge Ueberschwemmung viele Schafe und Rinder.

Provinz Westfalen.

Münster. Anläßlich seiner silbernen Hochzeit schenkte Graf Landsberg der Gemeinde Velen ein neues Krankenhaus.

Dortmund. Das Koskot'sche Dampfsägewerk, die Bauschreinerei und das Holzlager brannten ab. Der Schaden beträgt über 100,000 Mark.—Die hiesige Strafkammer verurtheilte einen Baumfrevler, der in einem Garten eine Anzahl Obstspaliere muthwilliger Weise zerstört hatte, zu neun Monaten Gefängniß.

Sachsen.

Dresden. Bei einem in der Hechtstraße ausgebrochenen Brande sind drei in einem Zimmer des betreffenden Hauses eingeschlossene Knaben, Kinder einer Familie Belger, erstickt.—Nach dem dieser Tage zur Ausgabe gelangten Jahresbericht des „Königlich sächsischen Militärvereinsverbandes" gehörten diesem Ende Juli d. J. 1476 Militärvereine mit 169,286 Mitgliedern und 4694 Ehrenmitgliedern an. Bei den Reichstagswahlen bilden bekanntlich auch in Sachsen diese eigentlich unpolitischen Vereine eine Stütze der „Ordnungsparteien."

Hainichen. Der Rentner Rudolf Herfurth hat der Stadtgemeinde letztwillig 20,000 Mark vermacht. Die Zinsen hiervon sollen alljährlich theils zur Christbescheerung für arme Kinder verwendet, theils an würdige Arme vertheilt werden.

Leipzig. Dem aus dem Amt scheidenden langjährigen Stadtverordnetenvorsteher Oberjustizrath Dr. Schill wurde das Ehrenbürgerrecht der Stadt Leipzig verliehen.—Eine Versammlung von 79 Musikdirektoren beschloß die Gründung eines deutschen Musikdirektoren-Verbandes mit dem Sitz in Leipzig.—Außerdem wurde hier ein Verband deutscher Kinderwagen-Fabrikanten gegründet. Ein vorläufiger Vorstand wurde mit dem Entwurf der Satzungen beauftragt. Grundsätzlich wurde eine Preiserhöhung auf Kinderwagen beschlossen.

Lichtentanne. Die Inhaber der Firma Karl Schmelzer sen. stifteten am Geburtstage ihres verstorbenen Vaters, des Begründers der Karl Hermann Schmelzer-Stiftung, 60,000 Mark für diese Stiftung.

Walddorf. Goldene Hochzeit feierte der Maler und Hausbesitzer Johann Gottfried Hohlfeld mit seiner Ehefrau, geb. Matthes. Unter den Gästen befanden sich auch zwei Personen, die vor 50 Jahren zu den Hochzeitsgästen zählten.

Zittau. Der Sanitätssergeant Hentschel vom Infanterie-Regiment Nr. 178 vergiftete sich aus Furcht vor Strafe wegen Pflichtverletzung.

Thüringische Staaten.

Eisenach. Hier ist der frühere Reichstagsabgeordnete Kammergerichtsrath Hugo Schroeder im Alter von 70 Jahren gestorben.

Weimar. Dieser Tage wurde hier die neuerbaute englische Kirche in Gegenwart des Großherzogs Carl Alexander, der zahlreichen englischen Gemeinde und einiger geladener Gäste eingeweiht. Reverend Walters hielt eine feierliche Ansprache.

Wenigenjena. Hier wird jetzt mit dem Abbruch des weitbekannten Gasthofes „Zur grünen Tanne" zum Zweck eines Neubaues begonnen. Mit dem alten Hause sind mancherlei geschichtlich interessante Erinnerungen verknüpft. Goethe, der dort 1818 wohnte, dichtete daselbst den „Erlkönig." Am 12. Juni 1815 erfolgte in der Tanne die Gründung der Deutschen Burschenschaft.

WINTER STYLES.

Accessories and Trimmings of Various Sorts.

The newest models for winter hats and bonnets tend to show one color instead of many in combination. Often the color is that of the costume with which the hat is to be worn.

Guipure is as much used as ever for decoration, and that having a heavy pattern is sometimes enriched by a tiny ruche of fine ribbon, which follows the main lines of the design. The ribbon may be white or colored. Embroidery in colored silk is also added to guipure.

Fringe is coming more and more to the front and is shown in all colors and widths. The narrowest is employed to edge ruffles and ruches, while the deep varieties are used on skirts in the manner of flounces, usually over a flounce of some material. Entire gowns among the new models are thus trimmed, but fringe is an ornament which requires to be used judiciously and in not too great profusion in order to give the best effect.

LOUIS XV COAT.

The cut depicts a Louis XV coat of black velvet. It is tight at the back and partly fitted in front, closing at the left side with jeweled buttons. The basque is bordered with a circular ruffle of white satin with an embroidered edge, and the revers and cuffs are of white satin to match. The high, flaring collar has a border of white satin embroidered, and the cravat is of white lace. A hat of black velvet is trimmed with black plumes, black velvet and jeweled ornaments.

JUDIC CHOLLET.

THE SEASON'S STYLES.

Fashions For Children and Grown Persons.

The costumes of even very small girls recall those of the mothers. The little skirts are made in circular form, with no fullness at the top. The sleeves are tight and plain, the bodice is often different from the skirt, and rich laces appear as collar and revers.

A favorite trimming for children's dresses is insertion, through which is interwoven the narrowest possible ribbon or velvet, a bow of loops occurring here and there. When sheer dresses are thus trimmed, the ribbon matches the underdress in color.

At the beginning of every season the waist different from the skirt is loudly proclaimed to be entirely out of date and quite "gone by." Every season, however, the individual waist appears in a variety of forms and gives the contradiction to such reports by holding its place among the best worn fashions. In French flannel, taffeta and silks of all grades, as well as lace and mousseline de soie, it is well to the fore for the coming winter and will be seen as much as ever.

WINTER WRAP.

Today's picture shows a new model for a winter wrap. It is a cape of heavy cloth, of demilength, and is curved in to the figure at the back. In front is a close fitting pointed vest with large armholes. The cape has straight revers and a high, flaring collar. All the edges are bordered with stitched bands of cloth, and the wrap is lined with satin to match the goods. The velvet toque is trimmed with a velvet bow and white feathers.

JUDIC CHOLLET.

Accommodating.

"He only needs a little urging," is a common phrase among us when somebody seems reluctant to push himself forward. A man is not always disposed to give another credit for his modesty.

When Garibaldi, the Italian patriot, was in London, his popularity was unbounded, and the crowd wished him to exhibit himself continuously. One particularly noisy admirer of the general used to tell this story:

"I was in the Strand at the time, and the crowd was so thick that I couldn't even see his carriage, much less him, so I just halloed, 'Stand up, Jaribawldi!' and blowed if Jaribawldi didn't stand right up in the carriage and let me see him!"

SKUNK FARMING.

An Agricultural Official Says There are Millions In It.

"There's money in a skunk farm," said an official of the Agricultural Department, "and skunk farming will some day be a great industry in this country. There's a barrel of money in the business, and yet the man who suggested it was regarded as out of his head. It does not take a prolonged and expensive investigation to demonstrate the truth of what I assert.

"While there are no official statistics on record, it is known that skunks—the American skunk—will begin breeding at one year old. They breed twice each year, and have litters of from five to thirteen, an average of eight to a litter. It is said that skunks can live on as little as any known animal, so there is little expense in raising them. They are of a different disposition to the coon, squirrel and many other small animals, in that they cannot be tamed, and I do not suppose that many people would care to have one as a pet.

"Now, it has been figured out that a man who understands skunk farming can begin on twenty skunks—fifteen females and five males—and in a very few years will have a large and healthy bank account. It is easy to calculate how rapidly these twenty skunks will increase in number. If you begin operations on the farm in the early fall the skunks will breed in December. Right from the jump, estimating the increase at the rate of eight to the litter, you have an increase of 120 skunks. Well, in June they breed again and at the same ratio of increase at the expiration of one and one-half years you will have 7,495 skunks. In four years, without mishap, your skunks will have increased to 3,780,000.

"This is a good big drove of skunks, and if the pelts are worth $1 each, the pelts of 200 male skunk would bring in open market $200, and the oil at 50 cents an ounce would be worth $800. Then figuring as we did on the increase of skunks, at the expiration of one and one-half years, you could kill 3,700 male skunks, the pelts of which would be worth just as many dollars as skunks killed. The amount of oil gathered from this number of skunks would amount to 29,600 ounces, worth just $14,800. At the expiration of four years you would have killed 1,890,000 male skunks the pelts of which would be worth $1,890,000, and the oil—15,120,000 ounces—$7,560,000, and you would still have 3,700,000 skunks left to continue business with.

"These figures are not at all extravagant, and it will not be long before some of our enterprising citizens will be embarking in the skunk farming business. I do not know of anything which will produce money faster than this, and the beauty of it is that it takes only a small sum to begin with. It discounts raising five cent cotton or any other agricultural pursuit that I know of.

Dogs in Harness.

Parliament set about remedying the lot of horses, asses, and mules; but it prohibited the employment of dogs altogether. Why? I suppose because dogs appeal more nearly to our sympathies than any other animal, and an overloaded or ill-fed dog stirs more surely the commiseration of the passer-by than the mute endurance of a cab-horse; nevertheless, the act was probably a mistake. Mark the behavior of dogs in Germany, where they are still employed to draw carts. They go at their work with a will, and, being naturally social and co-operative animals, seem to enjoy the sense of being helpful.

I am never tired of watching these industrious, willing servants in the streets of Brussels or Berlin, and although they are sometimes overloaded, (which is a proper subject for legislation,) I have never happened to see one otherwise maltreated, nor one whose behavior showed dread of or indifference to his employer. In fact, it does not pay to ill-use a dog in harness. Strike him, and he will not suffer mutely and redouble his efforts like the less intelligent horse, but will lie down and yelp or creep under his cart. When not in motion he can lie down in the shafts and rest himself or sit up and scratch.

The right, therefore, which Parliament has conferred on thousands of British dogs is one to statutory idleness, a very dubious boon, as many a fat, overfed collie could testify, which would be far happier working for its living than lounging as a superfluous pet.—Blackwood's.

A Mirror Trick.

"I have a little scheme of making my visitors feel very well satisfied with themselves, hence they are very charming during their stay," said a young hostess in Avondale recently, with an amused twinkle in her eyes as she displayed her dainty mirror arrangement in her guest-room. The white-draped mirror and the lace-covered toilet table looked very attractive.

If one would see herself in the deceptive mirror as others see her with the eye, or as nearly as possible, let her hasten to a dry goods store and buy a quantity of soft, pure white material—gauze, if possible; if not, Swiss or India muslin will answer very well.

Be sure and have it pure white, and after polishing the surface of the mirror gather the material at the center of the top and bring it down softly on either side, framing the glass in folds of pure white. When this is done to artistic satisfaction peep in and what a transformation. The true tints of the complexion, the expression of the countenance and eyes, the correct color of the hair, will be very accurately reflected.

Persons thus have the best possible view of themselves and a little flattery is administered.—Cincinnati Enquirer.

The Bicycle Bell and the Lion.

Mr. Edward North Buxton is at present bicycling with his daughter along the high road to Uganda, which is now good enough through most of its course to make an adequate *bicycling track*. In one of his letters home he describes an amusing adventure. As Mr. Buxton and his daughter were riding along, they found that a lion had taken up a position right across the track. People with less iron nerves would have perhaps got off, and the lion might have plucked up heart to attack them. But Mr. North Buxton and his daughter took a simpler course. They violently rung their bells, and the king of beasts, appalled by such a novel sight and sound in the silences of mid-Africa, just rose and slunk away.—Westminster Gazette.

KISSEE'S YOUNG BRIDE.

She Prefers Happiness in a Hut to Misery in a Palace.

SHE IS 15 AND HE IS 65.

Woes of a Lonely Old Man and How He Wooed a Child and Lost Her.

He Tells His Story and She Tells Hers—A Music Box Would Not Satisfy Her—The Recent Sensation of a Famous Missouri County.

Capt. Alexander C. Kissee, "King of Taney County, Mo.," has given in his own words the story of how he, at the age of sixty-five, married Rosa Dora Garrett, a mere strip of a girl half a century his junior, and after a honeymoon of two weeks she fled from Kissee Hall to return to the dolls and toys and picture-books she had left at the humble home of her parents.

Gen. Cassius M. Clay, of Kentucky, married his Dora and lost her.

Capt. Kissee married his Dora and lost her.

The child wife tells of a younger love—Charley McVey, a farmer boy of nineteen years—who plows among the rocks and hills of Taney County in summer and feeds live stock in winter and does other farm chores, for which he receives $15 a month and his board.

Rosa Garrett is now living at the home of her father, Alvin Garrett, seven miles from Kissee Hall, in Taney County. Mr. Garrett is a plain farmer.

Here is Capt. Kissee's story: "I am the father of twenty-three children, but all of them except nine are dead, and most of the survivors are married and moved away. So since the death of my second wife last November I have been lonely here in this big house.

"I decided a short while that I would marry again. I concluded that I didn't want any hen, but a pullet of fryin' size. I had heard Rosa Garrett spoken of as a rather smart and pretty girl, and as she is of fryin' size I determined to get acquainted with her. There was a big fish fry down on Beaver Creek, and the whole neighborhood for miles and miles was there. I knew the Garretts would be at the fry, so I went to get an introduction to Rosa. She smiled as I shook hands with her, and after we had talked a few minutes and I started to walk away she said: 'Capt. Kissee, we would like mighty well to have you come and see us some time.'

"That set me to thinking that the girl had a favorable opinion of me, so a day or two after the fish fry I drove over to the Garrett place. Mrs. Garrett met me at the door. I told her that I wanted to marry, that I was in a hurry and saw no need of fooling away time with a long preliminary courtship. I told Mrs. Garrett that I wanted a fryin' size pullet; so to speak—fryin' size is just my way of saying that no old maids or widows need apply to me—and that I reckoned her Rosa would

(Capt. A. C. Kissee and his child wife.)

do about as well as any in the country.

"I told Rosa that I had come to marry her, and that she might wear dresses befitting the mistress of Kissee Hall. She seemed to think it was all so sudden, but I reminded her that some of the best trades I had ever made in my life were made in a hurry. She said: 'Ask ma and pa.' I asked Mrs. Garrett if she cared if Rosa married me. Mrs. Garrett said: 'Go to the barn and ask pa.' She calls Mr. Garrett pa, and I asked him. He said, 'Yep.' I went back to the house and told Rosa to put on her shoes and hat and go with me to Forsyth, the county seat, to get the license. An hour later we were at Forsyth getting married.

"I brought Rosa here to Kissee Hall and installed her as mistress. We had a fish fry, a barbecue and a dance in celebration of the marriage. We invited the people for miles around. I was proud of Rosa and wanted people to see her. I bought her china dishes and a silk dress and a music box.

"I used every possible effort to make her happy, and I showed her through the big house and told her she was the ruler of it all, but in spite of everything I could dot he child would pucker up and cry half a dozen times a day. She would throw herself down on the floor in some of the way rooms and cry as if her heart would break. Finally I asked her what was the matter. She told me that she didn't love me, and that she was sorry she had married. I neglected business of every kind then and devoted my whole time trying to please her. That just made matters worse. And then she left me, as you know."

And here is Rosa Garrett's story: "I would rather live in a dirt-floor log cabin with the man I love than to be the mistress of Kissee Hall. I would rather wear calico bought by the man I love than to dress myself in silks bought by a rich man I do not love. I left Capt. Kissee because I do not love him and never can. There is another boy, a poor boy—and he may always be poor—but I love him, and when I get ready to marry again he may have me if he wants me.

"Yes, his name is Charley McVey. Everybody knows him, so I had just as well tell it.

"You ask how I happened to marry Uncle Alex? Well, that is easy to answer. He came here and took me so by surprise that I lacked the presence of mind to say no. We have always looked up to him here as the richest and the biggest man in Taney County, and his word is usually accepted as law. I agreed to marry him without really knowing what I was doing. I regretted it almost a moment after we had started to get the license, but I was too timid then to go back on my agreement.

"Charley McVey came to see me at the home of a relative soon after I was married to Uncle Alex. As Charley took hold of my hand I could not help but cry. Tears were also in his eyes. 'Why did you do it?' he asked. Then my heart seemed to be breaking. My head was in a whirl. I was dizzy. We were standing in the yard by the well. I clutched at the well-curb for support. Charley looked on in silence. It was the first time I had seen him since I had been installed as the mistress of Kissee Hall, as they called it. Just then my married sister came out of the house and told me to go in. She said it didn't look well for a married woman to be keeping company that way with young men. Charley went away.

"I hope I shall never see Kissee Hall again. I have had enough of it. I will marry again some time, but I am young yet and am in no hurry about it."

FASCINATING CAIRO.

The Most Picturesque and Interesting of Oriental Cities.

Frederic Courtland Penfield, former United States Diplomatic Agent and Consul-General in Egypt, describes in the Century Magazine the pictureque features of the African metropolis, with illustrations by Paul Philippoteaux.

From its founding in 969 by the Fatimite califs, as an offshoot of the tented settlement of Fostat ,to the present rule of Abas Pasha, seventh khedive, or viceroy, of the dynasty of Mehemit Ali,, Cairo—capital of Egypt, metropolis of African continent, and chief seat of Mohammedan teaching—has had a romantic history. Scenes of great exploits of great personage, from Saladin to Napoleon, of sanguinary conflicts between Christians and Islamism, and the memorable massacre of the Mamelukes; cradle of religion and cults; home of the "Arabian Nights" tales: the place where lasting principles of philosophy and science were conceived, and where Bible scenes were laid. Cairo has become the meeting ground of winter idlers from every clime.

Cairo looks old, but comparatively is not; Alexandria has the appearance of newness, but was twelve hundred years old before the first stone of the present capital was laid. But the Cairo of to-day is only the development of Fostat, Old Cairo, New Babylon and Heliopolis, probably. There has always been a great city there or thereabouts, changing in appelation with its locale.

The visit to Egypt has become almost as essential to Americans—and fully half of the eight hundred winter visitors are from the States—as the pilgrimage of good Mohammedans to Mecca. The Mohammedans' religion takes them but once to the sacred city of the prophet, but pleasure draws those favored by fortune to the Nile capital time after time. Cairo is more than interesting; it is fascinating. The antiquarian, the student and the savant have always been at home there; and the invalid, real or imaginary, seeking a climate, finds in and about the khedival city the superlative air and temperature.

Artists never weary of reproducing Cairo's picturesque scenes and vivid colorings. The blue of the skies, the splendor of the setting sun, the Turneresque afterglow, and the delicate browns of the desert, seem to be best suggested in water colors. Like Venice, Egypt demands a master hand in oils.

The traveler of impressionable nature yields to the fascination of Cairo's quaint Eastern life as perfect as if met far beyond the Orient's threshold and doubly satisfying because found within a half-hour of the creature comforts of hotels conspicuously modern. To walk the streets of an Oriental capital wherein history has been made, and delve by day in museums and mosques perpetuating a mysterious past, the dine de rigueur in the evening, with the best music in Europe at hand, explains a charm that Cairo has for mortals liking to witness Eastern life providing they are not compelled to become a part of it. If Egypt disappoints, the indecisive idler can in four or five days be back at Paris or the Riviera.

PRISONER RELEASED

Because it is no Crime in Texas To Counterfeit Nickels.

Governor Sayers has just pardoned out of the penitentiary a man named Draughtcup, who was sent up three years ago to serve a ten-year sentence for counterfeiting. His release from prison is on peculiar grounds. He was sent up under the State law for counterfeiting. The money he counterfeited and passed was nickels. His release was secured on the ground that under the Texas law there could be no counterfeiting of money save of gold and silver. The counterfeiting of nickels was, therefore, argued not to be punishable under the law of Texas, which is very explicit in its definition of what counterfeiting is. The legal presentation of the case was to the effect that inasmuch as he was then serving a term of imprisonment for a crime that was no crime under the Texas laws.

His pardon was secured upon the petition of all the Court officers who tried him, and who expressed the opinion that he was not guilty under the Texas laws. As he had only passed a small amount of money, and had already served several years, that also had a tendency to make the officials more lenient toward him. His case, however, presents that peculiar reading of the Texas law on counterfeiting which has hitherto been overlooked until presented in this case by some clear-minded lawyer.—Austin, Tex., Cor. St Louis Republican.

First Tramp (in the road)—Why don't you go in? The dog's all right. Don't you see him wagging his tail?

Second Tramp—Yes, and he's growlin' at the same time. I dunno which end to believe.

MOST DEADLY SNAKE

THE MAMBA, AN EXTREMELY SLENDER REPTILE, FOUND IN AFRICA.

In Color These Venomous Serpents Are Either Black or Green and Attain Great Length—One Ten Feet No Larger Around Than Man's Wrist.

Perhaps the most deadly and aggressive of all reptiles is the mamba, an extremely slender snake which is found all over Africa. In color these venomous serpents are either black or green, and they attain to a great length, one ten feet long, however, being no larger than a man's wrist. It was one of these terrible creatures that killed the late Col. Montgomery of the Welsh Regiment, one of England's most gallant soldiers.

Col. Scott of the Royal Army Medical Corps has just written an account of the affair, which is given verbatim:

"On looking over my notes of the case," he writes, "I find we had crossed the Tugela River to the Zululand side. After luncheon Col. Montgomery and his Adjutant (Capt. Reid) went out to shoot quail. When they were some distance from the camp they dismounted and threw the saddles over the ponies' heads, as is the custom in South Africa, and then went into some long grass. Soon after Col. Montgomery felt something prick his leg, which he took to be a thorn, but in a few seconds he felt a great shock to his system, and called out to his Adjutant that he had been bitten by a snake, and that he was to ride into the camp for me. As soon as Capt. Reid told me what had happened I turned my pony (I was mounted at the time) toward the place indicated, and in a few moments I saw Col. Montgomery riding toward camp at a canter. He at the time looked like a drunken man on a horse, as he was swaying from side to side to such an extent that I momentarily thought he would fall off. When I got to him I and others helped him to dismount. His legs immediately collapsed, the result of paralysis, by which it may be seen that he rode in by balance only. The injury was sustained at 4 p. m., and he was helped off his horse at 4:10 p. m. Already he was pale, nervous, very sick (vomiting profusely), had cramps and a feeling that he was going to die. Everything that medical skill could devise was done for him, but nothing was of any avail. Just ten hours after the accident he was dead. The enormous strength of jaw possessed by the reptile is shown by the fact that the fangs passed through a cloth colonial gaiter, colonial riding breeches and drawers. Col. Montgomery was buried in Zululand, at the Mission Station.

How a Badger Gets Rid of Fleas.

Paul W. Henrich, a real estate dealer in Denver, is also a student of entomology, natural history and animals in general. He lived down in Nebraska at one time, where the badgers have taken the place of the buffalo. Mr. Henrich was explaining the peculiarities of the animal, and stated, by way of introduction, that a genuine Nebraska badger was sharper than a fusion politician, says the Denver Times.

"They have several bright ways of doing things," he began. "Perhaps I need tell of but one to make their intelligence plain. Now, if a badger has vermin, do you know how he goes about it to rid himself of them?"

"Scratches 'em off," said the proprietor.

"No, sir, Mr.Badger isn't fool enough for that. He just goes to some stream; then he stands on the bank and reaches around with his mouth and pulls a little tuft of hair out of his tail. Now listen closely. With that bunch of hair in his mouth he turns around and backs slowly down into the river. The vermin naturally crawl to keep out of the water and begin to wend their way toward the neck, and, as he dips himself down deeper into the water, they hasten to his nose and then out on to the tunch of hair which he holds in his mouth. When Mr. Badger finds that they are all out on that little tuft he opens his mouth and lets the current drift down the stream. Then he crawls out on land again, shakes himself and laughs, while he listens to the vermin floating away, singing 'A Life on the Ocean Wave.'"

Found a Snake Fighting Her Mirror

Mrs. Charles Cole, of Aurora, Ind., was attracted by a peculiar hissing and rapping in her bedroom. On investigating she beheld a large black snake swinging from the top of the dresser by its tail and viciously fighting its reflection in the mirror. Mrs. Cole called for her husband to come and kill the reptile, but when he came he could not strike at the swaying serpent, that continued the combat with the shadow in the glass, unmindful of his presence, for fear of shattering the costly mirror. He then procured a long pole and succeeded in disengaging its coils from the mirror frame and hurling it out of the open window through which it evidently entered. The fall to the ground from the second-story room stunned but did not kill the snake, and when Mr. Cole descended the stairs and reached the yard to accomplish its death, it swiftly glided away in the grass and escaped.

Passengers Can Put on the Brakes.

In the new automobile cabs in Paris there is an arrangement in the interior of the vehicle which enables the passengers to check the speed or even bring the vehicle to a standstill independently of the action of the motorman.

This is due to the reckless speeds with which these vehicles are being driven. There is another novelty in the form of a register which is placed at each cab stand, in which the patrons may enter any remarks or suggestions.

Bicycle Watchmen in Boston.

As a further precaution to prevent the robbing of Boston, Capt. Dawson has sent out several of his men in citizen's clothes, mounted on bicycles. These men will spend the nights riding about the different streets of the Back Bay section, and, as they make practically no noise whatever and are dressed in citizen's clothes, this new idea may assist in the capture of the thieves.

Central R. R. of New Jersey

Anthracite Coal Used Exclusively, Insuring Cleanliness and Comfort.

Stations in New York, foot of Liberty, and South Ferry Whitehall Streets.

TIME TABLE IN EFFECT OCT. 10th, 1899.

For New York 2 14, 3 37, 5 37, 6 29, 6 50, 7 26, 7 29, 7 55, 8 00, 8 13, 8 30, 8 37, 8 48, 9 16, 9 43, 9 58, 10 37, 11 10 a. m.; 12 09, 12 44, 1 25, 2 12, 2 29, 3 12, 3 46, 4 17, 4 55, 5 37, 5 54, 6 21, 6 30, 6 45, 7 08, 7 30, 9 30, 10 17, 11 28, p. m. Sunday 2 14, 3 37, 5 37, 7 19, 8 01, 8 52, 10 08, 11 10 a. m.; 12.00 m, 12 58, 1 45, 3 17, 3 30, 5 41, 6 52, 8 23, 8 32, 9 15, 10 22 p. m.

For Newark at 5 37, 6 29, 6 50, 7 26, 7 47, 8 13, 8 37, 9 43, 9 58, 10 37, 11 10 a. m.; 12 09, 12 44, 2 12, 2 29, 3 12, 3 46, 4 17, 4 55, 5 37, 6 21, 6 45, 7 30, 9 30, 11 28 p. m. Sunday 7 19, 8 52, 10 08, 11 10 a. m.; 12 58, 1 45, 3 30, 5 41, 6 52, 8 13, 8 32, 10 22 p. m.

For Somerville at 5 18, 7 12, 8 19, 9 40, 9 54, 11 00, 11 59 a. m.; 1 01, 2 08, 2 29, 3 25, 4 35, 5 03, 5 27, 5 34, 6 04, 6 09, 6 19, 6 38, 7 12, 7 34, 8 21, 9 37, 10 28, 11 29 p. m.; 12 48 night. Sunday 5 45, 8 06, 9 55, 10 44 a. m.; 2 03, 3 40, 5 09, 6 35, 8 30, 10 15, 11 14 p. m.

For Easton at 5 18, 8 19, 9 54 a. m.; 1 01, 2 20, 5 27, 6 38, 8 21 p. m. Sunday at 5 45, 8 06 a. m.; 2 03, 6 35 p. m.

For Lake Hopatcong at 9 54 a. m.; 5.27 p. m.

WESTWARD CONNECTIONS.

5 18 a. m.—For Flemington, Easton, Allentown, Reading, Harrisburg, Pottsville, Mauch Chunk, Williamsport, Tamaqua, Upper Lehigh, Wilkesbarre and Scranton.

7 12 a. m.—For stations to High Bridge, connecting for stations on High Bridge Branch except Chester.

8 19 a. m.—For Flemington, D. L. & W. R. R. Easton, Bangor and Mauch Chunk.

9 54 a. m.—For stations on High Bridge Branch, Flemington, D. L. & W. R. R. Easton, Allentown, Reading, Harrisburg, Mauch Chunk, Williamsport, Tamaqua, Pottsville, Shamokin, Nanticoke and Upper Lehigh, Wilkesbarre, Scranton, etc.

1 01 p. m.—Way for Easton, connecting at Junction for stations on D. L. & W. R. R.

2 20 p. m.—For Flemington, Easton, Bethlehem, Allentown, Mauch Chunk, Tamauqua, Sunbury, Williamsport, Wilkesbarre and Scranton.

5 27 p. m.—For Flemington and Easton, Bethlehem, Bangor, Allentown, Mauch Chunk, Reading, Harrisburg, connecting at High Bridge for stations on High Bridge Branch.

6 19 p. m.—For Flemington.

6 38 p. m.—For Easton and at Junction for D. L. & W. R. R.

8 21 p. m.—For Easton.

8 45 a. m. Sundays—For Easton, Bethlehem, Allentown, Mauch Chunk, Tamaqua, Sunbury, Lewisburg, Williamsport, Wilkesbarre and Scranton.

8 06 a. m. Sundays for Flemington and Easton.

2 03 p. m. Sundays—For German Valley, Flanders, Kenvil, Easton, Allentown, Mauch Chunk, Tamaqua, Sunbury, Lewisburg, Williamsport, Reading and Harrisburg.

5 09 p. m. Sundays—For Flemington.

6 35 p. m. Sundays—For Easton, Bethlehem, Allentown, Mauch Chunk, Reading, Harrisburg, etc.

FOR LONG BRANCH, OCEAN GROVE, ETC.

Leave Plainfield at 3 37, 8 13, 10 37 a. m.; 3 46, 4 17, 6 21 p. m.; Sundays, except Ocean Grove, 8 52 a. m.; 3 30 p. m.

For Perth Amboy, 3 37, 5 37, 8 13, 8 37, 9 58, 10 37 a. m.; 1 35, 3 46, 4 17, 5 37, 6 21, 6 30, 11 28 p. m. Sundays 8 52, a. m.; 3 30 p. m.

For Atlantic City, 3 37 a. m.; 1 35 p. m.

For Freehold, 3 37, 8 13, 10 37 a. m.; 1 35, 4 17, 5 37 p. m.

For Lakewood, Toms River and Barnegat, 3 37, 8 13 a. m.; 1 35, 4 17 p. m. Sundays 8 52 a. m.

ROYAL BLUE LINE.

Leave Plainfield for Philadelphia, 5 17, 8 14, 8 44, 9 46, 10 44 a. m.; 2 16, 4 14, 5 09, *5 34, *6 38, 8 21 *9 37 p. m.; 1 17 night. Sundays, 5 17, 5 45, 9 55, 10 44 a. m.; 2 16, 4 55, *5 09, *6 35, 9 47 p. m.; 1 17 night.

For Trenton, 5 17, 7 12, 8 14, 9 46 a. m.; 1 01, 2 16, 4 14, *5 34, *6 38, 8 21, *9 37 p. m.; 1 17 night. Sundays, 5 17, 5 45, 9 55, 10 44 a. m.; 2 16, 4 55, *5 09, *6 35, 9 47 p. m.; 1 17 night.

For Baltimore and Washington at 5 17, 8 44, 10 44 a. m.; 2 16, *5 34, *6 38 p. m.; 1 17 night. Sundays, 5 17, 10 44 a. m.; 2 16, *5 09, *6 35 p. m. 1 17 night.

For Buffalo, Chicago and all points West, week-days at 9 54 a. m.; 1 01, 6 38 p. m. (Plainfield passengers by trains marked *) change cars at Bound Brook.

Through tickets to all points at lowest rates may be had on application in advance to the ticket agent at the station.

J. H. OLHAUSEN, General Superintendent.
H. P. BALDWIN, General Passenger Agent.

Lehigh Valley Railroad.

Time Table in Effect May 21, 1899.

LEAVE SOUTH PLAINFIELD, N. J.

WESTWARD

8 05 a. m. daily, and 7 25 p. m. daily except Sunday. Easton local.

9 02 a. m. daily, Express for Buffalo, Niagara Falls, Chicago and principal intermediate stations.

11 52 a. m.; 3 34, 5 22 and 9 35 p. m. daily except Sunday. Local for Bound Brook.

12 51 a. m. daily except Sunday, "Black Diamond Express" for Rochester, Buffalo and Niagara Falls.

2 06 p. m. daily local for Easton, Wilkesbarre and Scranton.

4 58 p. m. daily except Sunday, express for Wilkesbarre, Scranton, Pottsville, Hazleton, Shamokin, L. & B. Junction and principal intermediate stations.

6 21 p. m. daily except Sunday. 6 25 p. m. Sunday Mauch Chunk local.

CARNEGIE'S HOUSES.

His First One and His Great New York Palace.

The house in which Andrew Carnegie was born was itself a very humble structure. His father was a fairly well-to-do master weaver in the historic little town of Dunfermline, Scotland, and lived in a plain little house one and a half stories high, rude and lowly. The unadorned windows were small, and resembled the openings in an old-fashioned fort. In such a place "Andy," as the family always called him, lived as a boy until his father was deprived of the profit of his labor by the advance of progress and the invention of new machinery for weaving. At such a time, when Andrew Carnegie was only ten years old, the family decided to come to America.

Since leaving their first home in Pennsylvania, the one that was mortgaged to raise money enough to give the steel king his start in life, the Carnegies have lived in houses of varying degree, always the best they could do under the circumstances. Andrew Carnegie, like all true, proud-hearted Scots, has always been a great home lover, and has made his houses as comfortable and cozy as it was possible for him to do.

In later years, since he has been a rich man, he has had fine estates. His sister owns a beautiful and princely estate, Dungeness, on Cumberland Island, off the Georgia coast, with many sweeping acres covered with verdant lawns and the dense foliage of tropical shrubbery. She has recently petitioned the State for a complete title to the property in order to clear away any claims that may hereafter arise concerning the conveyance of this historic spot. This is a mere formal step to have the records clear, for the property is already hers, and she has been residing there many years.

The interior of the Carnegie residence at 5 West Fifty-first Street, New York, where Andrew Carnegie lives when he is "at home," is a study. In his private office, or library, or, as he puts it, his "workshop," there are rare pieces of art, paintings of Scottish landscapes, American scenery, photographs of iron mills, factories and shops, newspaper cartoons, books of fiction, history, science, all mixed in wondrous though pleasing confusion. One finds a masterpiece of art and close beside it some laughable cartoon rudely snatched from a newspaper, illustrating some passing political turn in American history—there is no closer student of American politics in this country than Mr. Carnegie, and the cartoon artist never fails to interest him. Whenever he finds a cartoon with a clever point to it he is apt to tear it out and hang it on the wall, and studies it and laughs at it, oftentimes for a good long time.

Frescoed in artistic lettering across the sides of the walls in Mr. Carnegie's "workshop" are texts, or mottoes, which have been the keynotes in his life. On one side, and set out more conspicuously than the rest, is the following:

"This above all: To thine own self be true,
And it must follow, as the night the day,
Thou canst not then be false to any man."

Opposite this is another text which illustrates most fittingly the thrift, industry, and indomitable perseverance of the diminutive giant of the business world. It is this:

"The present moment is our ain,
The next we never see."

Such are Mr. Carnegie's conceptions of the meaning of the word home, and in such spirit he seems to make the environments about him a part of himself.

Jenkintown's Tramp Dentist.

After an absence of over fifteen years Jenkintown can again boast the possession of a genuine oddity in the shape of a tramp dentist, who carries his workshop about with him. The itinerant dentist is not an ordinary hobo, but boasts a lineage and a college education. A peculiarity about this man is that he carries a folding chair with a comfortable head rest, and will pitch his outfit anywhere he can find a job. His great field is the mill district, where people have no time to go to a dentist. The forceps with which the teeth of the customers are pulled are made of solid silver, and were won as a reward for writing a scientific essay. Some years ago this strange man was the leader of a gang of desperate tramps, whom the police had much trouble to break up. The other day a Newfoundland dog was brought to him with an aching tooth. Although a little out of his line the obliging dentist pulled the tooth, and, as a reward for his kindness, was bitten by the ungrateful dog.—Philadelphia Record.

President Grant's Suggestion.

An official who quite generally knows what he is talking about was dilating the other afternoon upon the funny hopelessness for all reasonable purposes of many of the little creeks and rivers for the "improvement" of which Congress was asked to appropriate money under the River and Harbor bill.

"When Grant was President," said the official, "he used to alternately chuckle and fulminate against the expenditure of good government coin for the 'improvement' of measly little streams that he himself knew could never be made fit for any human purpose. There was a Virginian who, failing to get Congress to stick in an appropriation for the dredging of a little stream down in his section, finally importuned Grant in the matter.

"'Let's see,' said Grant, musingly, 'I believe I crossed that stream in 1864, wasn't it?'

"The Virginian, who remembered Grant's crossing of the stream pretty well, replied affirmatively.

"'Look here,' said Grant, after a pause, his face lighting up suddenly, 'why don't you macadamize it?'"—Washington Post.

SOME ILLICIT STILL RAIDS.

Trilling Facts Told by United States Revenue Officers.

MEN WHO ARE HUNTED.

Jim Redmond, a Man Who Has Been Through a Baptism of Bullets.

Stories That Form the Material for the Richest Romance—Fight in an Attic—Terrible Battle With Pistols—Where the Use of a Pistol is as Natural as That of the Hand.

As you read this you may begin to have a vague idea of the strenuous life that the United States Revenue agents lead when they are assigned to raid illicit stills in the heart of the Carolinas or Tennessee. It is hard to get one of those officials to tell his past experiences, but if you ever succeed break your most pleasant engagement without compunction, and you will be entertained beyond the powers of a novelist to do it. Such a man has been in Cincinnati the past few days, and it was such a conversation that a reporter had the good fortune to listen to when "Jim" Redmond told a few of the things that he had seen and done—told the story of the man hunt where the hunter is at the same time the hunted. Redmond is a splendid type of the Kentucky gentleman, tall, strong, lithe, quick to see and act and fearless.

[As He Got to the Door He Let Fly.]

The first story he told was of Revenue Agent Bouldin, whose name is a terror to the 'shiners wherever he has been, and who is impatient of city life and the comparative ease in which the City Revenue Agents find themselves. Bouldin got information from a North Carolinian, whose name will remain forever unknown. It is death to be found out as an informer for the Government against the operators of illicit stills. The man told Bouldin where a certain still was situated. Bouldin knew the man in charge and went at once to arrest him. He found the man at the door.

"I want you," said Bouldin.

"All right," was the answer. "Wait until I get my coat."

He went in and came out with his coat and with a shotgun charged with buckshot. As he got to the door he let fly. Bouldin saw what he was doing. He himself was armed with a pistol, whose calibre was in the forties, but the man had the first shot. So Bouldin lifted his hand across his heart, or he would have been a dead man instead of living to tell the tale, with a body full of shot. As it was his arm received fearful lacerations and his breast was riddled. After the first shot (in fact, the 'shiner had discharged both barrels at once) the mountaineer fled. Bouldin, however, was not done. He knew that the man would come back. So he went a little distance down the hillside and lay down behind a fallen tree. He was too weak from loss of blood to sit. However, he raised his left hand to the top of the log and waited for six hours. He was almost fainting, when, through the haze that had gathered in front of his eyes, he saw the 'shiner returning. Bouldin almost with his last strength pulled the trigger. The bulet sped a little wider of the mark than Bouldin usually shot. The man tumbled over and flopped like a decapitated pigeon. Bouldin was too weak to pursue and that mountaineer is still at large.

The next story that Redmond told was about a raid in which Jim Smith, the terror of the Stokes County (North Carolina) 'shiners, was the leader, with Walter Dais as his aid. Charley Tate, a fearless man, was also to be along, but he mistook the place and did not arrive in time. In Kernersville, N. C., there was a man named Jordan, and he had a son, Banner Jordan, who was killed in the fight which followed. The elder Jordan was not suspected, but the son was. When the officers arrived they met the elder Jordan. They told him that they had come to examine the premises. He said it was agreeable to him. On the second floor they found a half dozen barrels of illicit whisky. They rolled these out on the ground and destroyed them. But the largest store was supposed to be on the third floor, which in these country houses is an attic, with the only entrance through a manhole in the ceiling and there are no steps. A man has to remove the cover of the manhole, and, if he has no ladder, must swing himself up. When the officers asked him to remove the cover he suddenly lost all his politeness.

"If you want to go up there you'll have to remove the cover yourselves," he said.

Davis took him at his word and removed it. Smith was in the room. As soon as the cover was removed Davis leaped into the opening. He had hardly got his hands up when Banner Jordan, who was concealed there, let go with a revolver and tore Davis's right arm from the fingers to the elbow. Nevertheless, Davis kept on trying to get up, and Smith had to pull him down by main force. Just then Banner Jordan tried to shift his position, and in doing so he broke through the plastering and crashed down to the floor feet foremost, and he landed shooting with pistols in both hands Davis pulled his pistol and shot back. He put six bullets into Jordan through and through.

Smith was busy keeping out of the range of both the contestants. At last he found an opening, and, stealing around Jordan he put the seventh bullet into him and finished him. Then he put his left arm around Davis and started with him downstairs. In his right hand was his trusty revolver. As they got down the door opened and the elder Jordan emptied a shotgun at them. The charge struck and disabled Smith's right hand in which he held his pistol. Swift as thought he whipped the weapon into his left hand, which he never removed from around his partner, and shot the elder Jordan dead, sending him to join his son. He took no aim. They didn't do it in that country. A pistol is as natural to them as their hand, and they take no more aim than they would to throw a stone, and they can kill a bird in a treetop with a throw.

Smith knows all the ways of the 'shiners. He used to be one himself, and while he was in the heyday of his lawlessness no Deputy from the Government ever went after him and come back. After a half dozen had been lost this way a seventh was sent to the same country.

THE CURSE OF WOMEN.

Those Who are Compelled to Beg for Money.

Of all the burdens a woman is called upon to bear there is none that can be made so galling to her as dependence. Man is usually, in the family life, the bread-winner. Whatever money the woman wants comes to her from his hands. It could, of course, be given to her in such a way that she could preserve her self-respect, but it so often is not. Consequently, if she is a proud woman, she will bewail in secret her dependence and mourn over the shame of humiliation which it brings to her. Men are seldom so mercenary as women, but for the selfish pleasure of showing that they are masters, like the jailer who rattles his keys lest the prisoner forget that he has lost his liberty, they neglect in most cases to make a stated allowacne for household expenses, but say with a lordly air: "The money is always here: if you want any, ask for it." It may be handed over without a murmur, but the very fact of being obliged to ask for it is humiliating to a sensitive spirit.

Were I a man I would not even allow my children to come to me for every nickel they wanted, but I would make them an allowance. That would teach them the value of money, would make them less extravagant and would cultivate that feeling of independence which goes so far toward making a successful man or woman.

We are all more or less conceited, and to have money which is absolutely her own gives a woman a feeling of power, and power is only gratified conceit. There are wives who have to use all the dipomacy of a foreign minister to obtain a new gown. Yet the same husband is often ashamed of his wife's "down-at-the-heel" appearance. Almost all women, no matter what their social status, like to look pretty, to be admired, and not more than one in a hundred would be a sloven if she were allowed sufficient money with which to cloth herself decently.

Go into any down-town haunt where Bacchus is king and you will see these same husbands idle away a day's wage upon sociability or find them among the votaries of fortune who crowd around the long paper tape or perhaps in some back room where racing pool tickets are rapidly issuing to a motley crowd of masters, clerks and even porters who play the horses, they will be the heaviest losers.

In the evening the wife timidly begs for money for a new gown for "Laura," then the (self) indulgent huband and father launches forth upon a long discourse, with "the ruinous expense of keeping up a family" as the text.

Then, on the other hand, there is the unselfish man, who neither spends his money on lottery tickets nor slot machines; who works early and late that his children may, like the lilies of the field, have no need to toil, and to maintain the ostentation of display upon which depends the social success of a vain and frivolous wife. This family seems to think that all the "head of the

(A Maddening Jingle.)

family" is good for is to accumulate riches and pay bills. They stand before him with open hands, crying, "give," like hoppers waiting for a grist. These men are as much martyrs as any that were ever burned at the stake. Perhaps this same extravagant family, if confronted with the amount in figures which every month they spend more or less foolishly, would be surprised and incredulous. It has been so often urged, but it is safe to again say to all husbands and fathers, make your family an allowance, that in very shame the extravagant may restrict their expenditures, and that the sensitive wife and daughter may be spared the humiliation of begging for a mere pittance, and may not feel their dependence so keenly, when they should in fact be equal sharers in the family purse, although no more than equal. There is a justice in all things.—Cincinnati Enquirer.

Fortune for a Lad.

At Columbia, Murray County, Tenn., 20-year-old William Howard was left an estate by his mother a few years ago. The money was put in the home farm. When phosphate was discovered on the place he refused to sell. Young Howard has just leased the property to a company which pays him a royalty of $1,20 a ton on all phosphate mined, and he is growing rich at the rate of $1,000 a day. Over 500,000 tons are on the farm.

The laundress is sure of satisfactory results in her work if she uses Ivory Soap. Linens are of immaculate whiteness; no dirt or streaks anywhere. There's no room for criticism in the work when brought home. Ivory Soap is cheaper than common soaps in the end.

A WORD OF WARNING.—There are many white soaps, each represented to be "just as good as the 'Ivory';" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

SPORTING.

VARICUS SPORTS.

J. H. James' celebrated St. Bernard "Rodney King" has been sent to the kennels of L. A. Kline at Guttenberg to be in condition for the bench show to be held at Philadelphia Thanksgiving week.

GOLF.

Next Saturday morning at the Hillside Tennis and Golf Club grounds there will be a tournament for the caddies. In the afternoon there will be general play.

AMONG THE STEPPERS.

A number of local horsemen visited the Plainfield Driving Park Saturday afternoon and enjoyed a few races.

FOR CHEAPER FARES.

Westfield Board of Trade to Join With Plainfield in Petition to Central Railroad Company.

The Westfield Board of Trade and Improvement Association, at a meeting held Friday evening, decided to join with the Plainfield Board of Trade in the effort to secure cheaper commutation tickets and rates of fare on the Central Railroad between Plainfield and New York.

A committee, consisting of President Martin Weller, Secretary B. J. Crosby, and the executive committee, composed of Postmaster L. M. Whittaker, James T. Pierson, J. S. Irving, H. L. Fink and W. S. Welch, were appointed to confer with a like committee of the Plainfield Board to devise a plan to be presented to the Central Railroad Company.

A Church Bazaar.

A bazaar for the benefit of the German Reform church will be given by the Ladies' Aid Society of the German Reform church in the church from November 5th to 11th.

A Night of Terror.

"Awful anxiety was felt for the widow of the brave General Burnham of Machias, Me., when the doctors said she could not live till morning," writes Mrs. S. H. Lincoln, who attended her that fearful night. "All thought she must soon die from pneumonia, but she begged for Dr. King's New Discovery, saying it had more than once saved her life, and had cured her of consumption. After three small doses she slept easily all night, and its further use completely cured her." This marvelous medicine is guaranteed to cure all Throat, Chest and Lung Diseases. Only 50c and $1.00 Trial bottles free at L. W. Randolph's drug store.

In a Nutshell:

Regular collections; intelligent washing; careful ironing, prompt deliveries. This makes a good laundry. People who have known us as dyers for thirty years back may not realize that we are doing the largest laundry business in New Jersey. Send us your bundle for a trail.

HILLIER & CO.,

Opposite Crosby & Hill's. 'Phone 851.

LEG CAUGHT IN A WHEEL.

Andrew Boyle Badly Hurt While Riding in a Wagon With a Lot of Other Boys.

Andrew Boyle, aged 9 years, a son of Patrick Boyle, of 525 West Fourth street, was playing about the corner of Plainfield avenue yesterday afternoon when Edward Barry, greenkeeper at the Park Golf Club, drove up with a horse and wagon. The boys wanted to take a ride, and Mr. Barry allowed the boys to take the rig for a time.

Young Boyle was attempting to get into the wagon when his foot slipped, allowing his leg to get in the spokes. Before he could get his leg out he sustained a fracture of the bone just above the knee. His screams attracted the attention of the other boys who were driving and the vehicle was stopped. The lad suffered terrible pain, and his companions becoming frightened returned to the place where they started.

Roundsman Frederickson happened along just about that time, and he picked up the injured lad and took him to his home, and from there he was taken to the hospital by his father. The injury was found to be a simple fracture, but the lad will be laid up for some time.

Y. M. C. A. NOTES.

The Union Bible class, taught by Rev. D. M. Stearns, will meet at the Y. M. C. A. Hall this evening. All are invited.

The Literary Society of the Y. M. C. A. will meet this evening.

The advertising columns show how young men can increase their wage earning ability in the educational department in the Y. M. C. A.

A VETERAN RESIGNS.

Central Ticket Agent Retires After 37 Years' Service.

Mark Osmun, the veteran ticket agent at Finderne, has resigned his position after being in the active service of the Central Railroad Company for 37 years. Mr. Osmun was severely shocked with lightning last summer. The telegraph wires had been disconnected from an instrument in the station and allowed to remain without a lightning arrester. During a shower the electric fluid came in and shocked Mr. Osmun and daughter. He never fully recovered. He will remove to Plainfield, where he will reside in the future.

An Official Visitation.

Representatives from Columbia and Central Lodges, A. O. U. W., of this city, will visit Bernards Lodge, at Basking Ridge, tomorrow evening on the occasion of the official visit of Grand Master Workman McCullough.

The Lehigh Valley Office.

Arrangements are rapidly being perfected for the opening of the Lehigh Valley Railroad ticket office at Rowley's drug store, and it is expected that the same will be opened next week.

Lawsuit May Follow.

It is the opinion of many that the Church street crossing of the Central Railroad was never closed, and that if an effort is made to close it a lawsuit is likely to follow.

To Cure Constipation in One Week

kindness during the convention.

The closing part of the convention then took place in the chapel of the church where the delegates assembled by themselves and joined in a season of prayer. This service was for the delegates only and was very affecting and helpful.

Trouble in Getting Rails.

Owing to the great trouble in getting steel rails for trolley roads there is not much prospect of the Arlington avenue line being built before next summer.

Public Hearing.

This week there will be a public hearing on the application of the People's Gas Company for a franchise to establish a plant.

SPARTACUS TO BOARDERS

Declares Himself to Those Who Have Sat at the Table With Him.

Ye call me chief; and ye do well to call him chief who for twelve long years has met upon the table every manner of hash and pie that this broad city could furnish, and who never yet lowered his arm. If there be one among you who can say that I ever shrank from any dish let him stand forth and say it. If there be three in all your company who will challenge me to eat prunes with them, let them come forth.

And yet I was not always thus—a savage chief among boarders. My ancestors came from Brooklyn and settled among the vineclad rocks and pokeberry groves of Harlem. My early life ran as quiet as the elevated railroad, by which I sported, and when at noon, I gathered my goats under the shade, and played upon a B flat cornet, there was a friend, the son of a neighbor, to join me. We led our flocks to the same pastures and partook of the same rustic growler. At evening, when our goats were in their folds, we would gather round my cottage door and hear my grandsire tell how, in olden time, his ancestors, a little handful of men, held the stairway at a wake against many thousand warlike enemies.

And once I kissed my grandsire when his story was done, and my grandmother brushed the hair back from my throbbing temple and bade me go to bed. That very night the scorchers came up the Boulevard, and I saw the breast that had nourished me run over and my grandsire knocked seventy-five feet in the air by a tandem. To-day I saw a man lying under the dinner table, and when I struck a match, behold it was my old-time friend. He had a piece of pie between his lips, and he knew me. He smiled, gasped faintly, and died. I told the landlady that the dead man had been my friend, generous and brave; and I begged that I might bear his body away and burn it on a funeral pile and mourn over its ashes. And the landlady drew back as if I were pollution, and sternly said:—"Let him be carried to the ash barrel; there are no noble boarders." And so, fellow boarders, must you and I die like dogs. Oh, New York, New York! Thou hast taught me to drive the steel through buckwheats and rugged breakfast; to gaze into the fierce kidney stew, even as a boy upon a laughing girl

Hark! hear ye yon dinner bell! If ye be beasts, then stand here like fatted oxen, waiting to be called to death. If ye be men, follow me—strike down yon cook, gain the back yard, and then do bloody work. Oh, comrades, friends, boarders, if we must die, let us die fighting like noble men—beneath the blue sky, behind the back-yard fence!

ANTS AS FIGHTERS

TINY WARRIORS WHOM LARGE ANIMALS DARE NOT MEET IN COMBAT.

Six American Miners Were Routed From Their Camp in Venezuela by an Ant Army—The Insects Drive a Coolie Crazy.

"I was one of the six American miners who were routed from their camp by a Venezuelan ant army," said a mining expert who lately arrived in New York from Venezuela. "We retreated before the invaders without making a fight, and for two good reasons. In the first place we would have gotten the worst of the encounter, and, secondly, we knew that if we let them alone they would do us a good service.

"Shortly after dawn one Sunday, while we were still snoozing away in our hammocks, our native cook burst in upon us with the news that we were about to be attacked by an army of ants. We had heard enough about ant armies to know what to do. We arose hastily, and every ounce of provisions that was not sealed in cans or in jars was hurriedly piled on a table, the four legs of which were immersed in as many basins of water. Every manoeuvre that is known to the armies of civilized humans you may safely expect from an ant army, but the little black warriors have never learned to swim. Our provisions thus protected, we left the camp to itself and went out to reconnoitre for the invaders and to watch their assault from a distance. The army was making fair time. An irregular patch of black ten feet wide and double as long was swarming steadily toward our camp. As the army was in no way disturbed by our presence it was possible to approach its lines closely. There must have been millions upon millions of little soldiers marching hip to hip. At the head marched the leader. On went the army, up the posts that supported the camp and then within. The patter of their countless little feet was audible like the rustling of grass in a light breeze.

"Once within, the army spread itself in all directions, forming hundreds of little attacking parties. The camp was an old palm-thatched affair and so infested with scorpions, centipides and spiders that we had been on the point of destroying it. Now, however, the ants had come and would clean house for us, and therefore they were welcome. The ants swarmed up the joists and the dry leafy walls, and wherever there was a spider or a bug there was a brief tussle and a dead foe. But there was bigger game in store for the invaders.

"The star battle was with an immense centipede, one of the bluish-gray kind, about seven inches long, and about as big around as your middle finger. He darted out of a hole like a blue streak, evidently trusting to his speed and superior strength to run through the enemy's ranks. But he didn't go three feet before he was stopped. Ants literally covered him. He turned on himself and swept them from his back, but before he had gone another three feet he was buried beneath another swarm of his plucky assailants. And then began a fight to the death. Again and again he swept his tormentors from his back while from all sides hurried streams of ants to take the place of fallen comrades. The wriggling of the big fellow became less violent as the fight progressed, and finally, after an effort, which I well knew was a desperate last one, he remained quiet while what little life was left in him was bitten out of him. Later when the army had retreated and when we had swept up the centipedes and scorpions and lizards and a tarantula which the ant army had vanquished, we put the hero of the star battle under a quartz magnifying glass. The bodies of the dead ants still clung to their foe. From his back, from his legs, from wherever there was a chance for a hold the bodies of ants dangled, holding on, I suppose, by their teeth.

"Perhaps you wonder what would happen to a man who would undertake to fight an army of ants, assuming of course that the man relies on his natural means of defence—his hands and feet. I can best illustrate that by the rare story of an unfortunate who was brought to a hospital in Caracas shortly before my return home. The man was a coolie who had worked on a cocoa plantation in a creek not far from Caracas. Following a habit of some of his countrymen, the coolie, owing to the heat, had left his camp and stretched himself on the ground to sleep outdoors. Exactly what followed no one can say with certainty. Presumably he was surrounded and covered by an army of ants before he awakened. At dawn the shrieks and cries of a man in agony aroused the inmates of the camp, who ran out to learn the cause.

"The man was gesticulating wildly and calling for help, while he squirmed and writhed and slapped his face and neck and chest and legs in a mad effort to slap himself all over at once. He was standing in the midst of an army of ants and was too distracted with pain to run away. Then he did exactly what a panther or a leopard does when he is being overcome. The man threw himself to the ground to roll his tormentor to death. A single active white man could have saved the poor wretch, but the stupefied bare-legged coolies, dared not, or thought not of rescue, while the victim himself was too crazed with agony to seek other than instant relief. From a slight personal experience, I know the poor fellow was burning in a fire which would take hours to kill him.

"Finally a bystander regained his wits and rushed into the midst of the army and dragged the man after him and threw him into the creek. The rescue came too late. The victim became unconscious. His velvety brown skin was a pink mass of raw bites. When he came to the hospital he was bound hand and foot, a maniac, whose continuous notion was that he was being eaten by ants."

Whence the Kicking Comes.

Indignant Patriot—Think of President McKinley allowing them to pin a former Confederate badge on his coat down there at Macon!

Elderly Man (wearing a G. A. R. button)—Oh, yes! Let's think of it. By the way, what battles were you in during the civil war?

"I wasn't in any, but—"

"I thought not."—Chicago Tribune.

THE FILIPINO'S BOLO.

A Terrible Weapon When Used in a Hand-to-Hand Conflict.

A letter from Lieutenant William M. Copp, of the Sixth Artillery, who was on the gunboat Napidan in Laguna de Bay, gives the following interesting information concerning one phase of the fighting with the Filipinos:

"An odd trait in the character of the natives is that they never leave one of their dead if they can possibly get him away. They leave more now than they used to, for this reason: Formerly they had at least five men for every gun, and about all these men were good for was to carry away the wounded and dead, although they were armed with bolos. These weapons were very effective against the Spaniards, as the bolo men apparently cared nothing for their own lives, and the Spaniards had not the courage to stand when they charged, so, of course, they were cut to pieces, the bolo being without doubt one of the most terrible weapons at close quarters in the world. It is very sharp and so heavy that it will smash any sword in pieces that I have seen. They use them in the right hand and a long, heavy dagger in the left. I had one of the many amigos who could handle the bolo go through the motions for me, and it was truly wonderful. The rapidity of his moves were such that the eye could hardly follow them, and all the time he kept a constant guard. The bolo is to cut, no point; the dagger is used to stab, no edge. When the bolo men tried the same tactics on our men that they were accustomed to employ so successfully against the Spaniards, they were killed in large numbers, as our men did not run, but simply shot them. Now so many of these men have been killed, there are fewer of them to a gun, and they are not able to get the dead away quite as well as formerly.

"If your servant goes away for a day or two, you can be certain he is with the insurgents and in some fight. It is too common to excite comment here when an officer's servant, who has been absent several days, is found in the insurgents' uniform killed or is brought into our hospital for treatment."

Early to Bed in Manila.

The recent order of Gen. Otis that all residence of Manila must be off the streets by 7 o'clock in the evening has had a wonderful effect in tranquillizing the city. The order is obeyed to the letter. When the clock bells in the many church towers peal their seven strokes they chime in with a general shop doors and rattling of rigs along the bumpy streets. In a few moments swarming, buzzing Manila is changed into a rural, drowsy village where the maxim "Early to bed," etc., holds iron sway. Barefooted pickaninnies and loose sandaled men and women hurry to their homes and the streets resound only with the heavy tread of the civil guard.

Toward the curfew bell the vehicles begin to move faster, the horse cars all run one way, toward the barns, and the Filipino clerks and waiters begin to stamp about in a restless and impatient manner. A lingering customer perhaps finds himself suddenly walled up within a store, and is compelled to make his exit through a small opening, which is closed as hurriedly as possible after him.

It is a transformation while that street is full of humanity. At five minutes after 7 the last two or three Filipinos are seen almost running to get home. The provost guard calls out "Pronto," or "hurry along," and the tardy culprit instantly halts. He would rather halt twenty times than run the risk of misunderstanding a command and getting a bullet in his person. Then he sets out with renewed vigor—not running, for if he ran he would surely raise suspicion and run a greater risk of getting shot, but walking with both hands flapping and linen shirt swinging wide to the breeze, and with that earnest expression which is meant to say to the guards, "Yes, Senor, I am hurrying home just as fast as possible."

Spain's Greatest Need.

Mr. R. P. Olivia, of Barcelonia, Spain, spends his winters at Aiken, S. C. Weak nerves had caused severe pains in the back of his head. On using Electric Bitters, America's greatest Blood and Nerve Remedy, all pain soon left him He says that this grand medicine is what his country needs. All America knows that it cures liver and kidney trouble, purifies the blood, tones up the stomach, strengthens the nerves, puts vim, vigor and new life into every muscle, nerve and organ of the body. If weak, tired or ailing you need it. Every bottle guaranteed, only 50 cents. Sold by L. W. Randolph, Druggist.

GIRL WANTED for light housekeeping. Apply 103 Central avenue. 10 23 2

To the Republican Voters of the First Ward, Plainfield, N. J.

GENTLEMEN—It has been rumored that the ticket which I am supporting for delegates to the County Convention is against B. Frank Coriell for Sheriff. The rumor is entirely false. The men whom I favor for delegates are, I know, all in favor of Mr. Coriell's nomination for sheriff. They are the following named gentlemen: Charles W. Runyon, Walter Longman, Jr., L. S. Pocock, John King, William Jukes, Joseph Neill and L. L. Croom.

Yours truly,

J. T. MacMURRAY.

CORIELL'S CHANCE IS TO JOIN HALSEY.

Plainfield's Support Likely To Decide Convention.

ELIZABETH EVENLY DIVIDED.

HOWARD—HOUSTON TICKET HAS A STRONG SUPPORT.

Plainfield's Delegation Will Favor The Candidacy of Coriell—Kirk's Boom Is Dead—Big Times at Third Ward—Record Breaking Primary In First Ward—MacMurray Faction Was Victorious There.

Plainfield seems to hold the pivotal point in the Republican politics of Union county today. If a solid delegation goes down from this city to attend the county convention, there is a chance that the slate will [illegible] and Plainfield will get the nomination for Sheriff or County Clerk. The primaries, that were held throughout the county last evening, have brought the fight down to two combinations.

There is the slate that has been predicted for some time as the probable one, William Howard for County Clerk and Robert Houston for Shrievalty. The First, Second, Third, Fourth and Fifth wards of Elizabeth, that constitute the "Port," and the Seventh and Ninth wards, uptown, choose delegates numbering thirty-seven who will support Howard and Houston. Rahway's delegation of nineteen will support the same combination. Summit's nine delegatee, while they will give a complimentary vote to their fellow citizen, Mayor J. A. Hicks, for County Clerk, are afterwards expected to turn their support to the Howard-Houston ticket.

The Sixth, Eighth, Tenth, Eleventh and Twelfth wards, of Elizabeth, with forty-one delegates, have come out for Charles H. K. Halsey, of Elizabeth, and have expressed a willingness to combine with Plainfield's thirty-seven delegates to give the shrievalty to B. Frank Coriell.

In the First and Third wards, of this city, last evening tickets were elected with the direct understanding that they should support the candidacy of Coriell. The boom of Sheriff William T. Kirk for the county-clerkship was killed completely. The fact that Kirk did not win even in his own ward was sufficient to count him out of the possibilities. The Second and Fourth ward delegations are not pledged to support anybody, but both will naturally support any Plainfielder who has a fair chance of winning. At present the only Plainfielder who can be counted in that category is B. Frank Coriell.

If Plainfield unites with the friends of Halsey, there is a chance, and a fair one, that such a ticket can win. The only obstacle to such an alliance is the fact that many Plainfielders believe that a promise was made to Houston that he should get the shrievalty this year. This fact is emphatically denied by some.

The result in the various wards is as follows:

FIRST WARD.

The First Ward furnished a most exciting contest for the voters, and the largest vote at a primary in its history was cast. The vote was 443 and the contest was between what was known as the regular Republican ticket, championed by City Clerk MacMurray, and "The Ticket," which was put in the field by J. Fred MacDonald and his friends. The latter ticket showed great strength, and was a surprise to the opposition. This ticket received 208 votes, while the "regular" received 233, there being a difference of 25 votes in favor of the latter. In some cases the "regular" nominees ran ahead of the ticket, and vice versa. The fight was one to determine who is to be leader in the ward. It was seen that the "regulars" were a trifle scared while the counting was going on, for the opposition kept a close second throughout. It appeared like a regular election about the polls, for every worker was out and plenty of carriages were being run here and there.

At 8 o'clock a business meeting was held and W. R. Codington was selected chairman. J. Fred MacDonald was made secretary. The only business transacted was the adoption of a resolution providing that in case of vacancies the executive committee be empowered to fill them.

There were two rejected ballots because someone tried to vote two at once. The result of the primary is told in the following which shows the vote of each candidate:

MacMurray ticket—For delegates to County Convention: Charles W. Runyon, 223; Walter Longman, Jr., 227; L. S. Pocock, 235; L. L. Cromm, 230; Joseph Neill, 229; John King, 231; William Jukes, 233. For members of the County Committee: James F. Buckle, 237; David C. Smalley, 236.

MacDonald ticket—Delegates to the County Convention: R. F. R. Huntsman, 208; John Rowland, 209; William J. Campbell, 209; Jed. M. Smalley, 206; H. M. Case, 209; I. L. McVoy, 204; William Jones, 205. For members of County Committee: Joseph B. Coward, 204; Charles S. Swinck, 201.

SECOND WARD.

The utmost harmony prevaded the primary in the Second ward, held in the Bryant school building on East Sixth street. The "machine" and the opposition were both satisfied with the ticket and it went through without the slightest opposition. As there wasn't any contest, the turnout at the primary was small.

The business meeting at 8 o'clock was called to order by J. B. Dumont of the city executive committee, Thomas A. Cuming was made chairman and William N. Runyon secretary. The delegation was empowered to fill any vacancies that might occur in its ranks.

The primary officers were J. Hervey Doane judge, William Spangenberg inspector, and Armstrong Mulford clerk. The result of the vote was as follows: For delegates to County Convention—John B. Dumont, 73; S. B. Ginna, 73; M. S. Ackerman, 73; Thos. A. Cuming, 73; J. E. Keely, 73; Chas. Davis, 73; J. VanHerwerden, 72; Chas. S. Foote, 73; W. N. Runyon, 73. For members of the County Committee: W. N. Runyon, 73; J. E. Keely, 73.

THIRD WARD.

The Third ward never saw such a bitter fight as was witnessed at the Republican primary, held in the Casino last night. It resulted in the defeat of Sheriff William T. Kirk and his ticket by the forces advocating the candidacy of B. Frank Coriell. The latter ticket won by a vote of 149 to 105.

It was known early in the day that a fight was on in the ward but the full extent was not realized. Neither side had made any attempt to organize in advance and it took some great hustling. Kirk's boom was supported by Former Mayor Charles J. Fisk and Andrew McCardell and a number of his workers from the Fourth ward came over to help Kirk. Coriell had the support of practically all the regular "machine" with Assemblyman Roger F. Murray in active command.

The leaders of the machine had objected at first to putting Kirk's name on their ticket for the county committee but Mr. Murray was very anxious that it should be there and so it was. Kirk, in return, placed Murray on his own ticket as county committeeman.

The "machine" workers claim that the other side resorted to the practice of running in Democrats in their efforts to win. That caused considerable feeling at the start. They were promptly challenged by Murray and Coriell and immediately swore that they had voted the Republican ticket at the last election. As there wasn't any way of proving the contrary they were allowed to vote. From 7 until 9 Murray and his assistants had their hands full in getting out everybody they could. It looked like a victory for the Kirk forces and Murray was nearly ready to concede. He kept fighting, however, and the count showed that his ticket was in the lead by 44 votes.

Murray and Kirk were the only ones nominated for the county committee, being named on both tickets. Murray polled every vote cast, 254, but there were four scratches for Kirk. The following is the vote for the delegates to the county convention, the first nine being elected: N. R. Titsworth, 250; Alex. Gilbert, 149; Charles F. Abbott, 149; Roger F. Murray, 149; F. E. Marsh, 149; W. A. Pinto, 449; Fred H. Andrews, 149; Robert Rushmore, 148; Albert I. Littell, 147; H. G. Runkle, 107; J. Caspar Kirkner, 106; H. M. Stockton, 105; Charles W. Brooks, 105, and George J. Tobin, 105.

For county committee, Roger F. Murray, 254; W. T. Kirk, 250.

FOURTH WARD.

The Fourth ward primary went off without a hitch, though there was some attempt to introduce an opposition ticket headed by Herman A. Weber. There was no one to be found, however, who would stand sponster for it and it did not prove much of an opposition, getting only one vote. Before the voting began the ward committee held a meeting and chose William A. Wastphal chairman and Frank H. Smith secretary. A resolution that all vacancies be filled by the delegates was adopted. A count of the ballots after the polls closed showed that 245 votes had been cast and that the following ticket was successful: For member of county committee, William Newcorn, Frank H. Smith; for delegates to county convention, Neal Head, Daniel Galbraith,

"WE'LL HAVE TO CUT HIM ALL WE CAN"

Chancery Clerk L. A. Thompson Is Not For Harmony.

SITUATION IN SOMERSET

BOTH PARTIES HAVE TROUBLES IN THEIR RANKS.

The Reported Harmony in Republican Ranks In Bridgewater Is Purely Imaginary—Antagonism Was Too Great to Permit a Complete Fusion So Soon—These Troubles Make It Impossible to Tell Outcome.

It is difficult to predict what is going to happen at the approaching county election in Somerset county. Under ordinary circumstances, the county goes Republican by about 500 plurality. Last fall Assemblyman E. E. Cooper was elected by 361 plurality while Congressman Howell received 720 plurality in Somerset. This year both parties are suffering to a greater or less extent from factional differences which makes it quite possible for the unexpected to occur. The natural plurality that the Republicans have is about offset by the extreme bitterness that still exists in the ranks of the G. O. P. That leaves the parties on practically even terms.

The intense rivalry between the two factions in the Republican ranks in Somerset was made very apparent at the recent county convention held at Somerville. The convention resulted in a complete victory for Senator Reed and his friends. After the convention some of the adherents of Mr. Thompson were free in their declarations that when election day came Reed would be buried out of sight. The more moderate ones declared that any Republican, even Senator Reed, was better than a Democrat and that the party ticket should be sustained.

A report, emanating from Somerville, appeared in several of the New York newspapers to the effect that Chancery Clerk L. A. Thompson would support Senator Reed's candidacy. Those who are in touch with the situation in Somerset declare that the report is false and merely given out as a blind.

It requires a considerable stretch of the imagination to think of Thompson supporting Reed for the Senate after all that has so recently happened. Those who saw the extreme bitterness that was very apparent on the day of the convention find it difficult to believe that such discordant elements have been fused together.

Futhermore, Chancery Clerk Thompson has spoken since the convention in such a manner as to leave no doubt regarding his intentions. Only a day after the convention he was in conversation with a Republican worker from Bridgewater and, calling the man by name, he exclaimed.

"We'll have to cut him all we can."

At the time he was conversing on the political situation and that "he" meant was Charles A. Reed.

The defeat of P. V. R. VanDoren, last year, for sheriff, was an exhibition of this same "cutting." VanDoren was Reed's choice and it was Reed who succeeded in having VanDoren nominated. The Republican ticket won in the county, but VanDoren was defeated. The "cutting" was principally done in Bridgewater and Branchburg, Thompson's strongholds. These things have not been forgotten by the factions which makes fusion hardly to be looked for at this day.

The Democrats are not suffering with a split of anything as severe a character but still there ranks are not as solid as they might be. While Former Speaker James J. Bergen is a very popular man personally, his candidacy is admitted by the Democratic leaders as not being as strong as it would but for certain facts.

Then there is an influence in the Democratic ranks that will be felt particularly in Bridgewater, that will now be thrown for Reed and against Bergen. This influence, though shadowy and indistinguishable now, may play an important part in the coming campaign.

With all these modifying causes brought to bear on the ordinary State of affairs in Somerset, it is not possible as yet to say how the compaign will come out. It will be hot and all of the fighting will not be between the Republicans and the Democrats.

Revival Meetings.

Revival meetings have been held at the Calvary Baptist church during the past week, and they have been very successful. They will be continued this week.

—If there is a lady that is wearing seedy kid gloves it is not Peck's fault when he is selling the best one dollar glove that has ever been offered.

FIRE IN A PAINT SHOP.

BROKE OUT AT 1 A. M. AND MADE A LIVELY BLAZE.

Property Owned and Occupied by Jas. Smith—Supposed to Be Work of Incendiary—Embossing Works Scorched.

About 1 o'clock this morning a fire broke out in the paint shop located on the property occupied and owned by James Smith, of Elmwood place. The building and contents were almost totally destroyed, entailing a loss of about $500.

The fire was first seen by Miss Hand, who lives next door. She opened a window and screamed fire several times. This awakened the neighbors, and just as a still alarm was being sent into headquarters by telephone, Patrolman Vanderweg, who was a short distance away, sent in an alarm from Box No. 46, corner of Liberty and West Second streets. Inside of a half hour the fire was completely extinguished.

The barn was of medium size and was filled with paints, oils, creosote and many other combustible materials. The building was located on the rear of the lot in close proximity to the Crescent Embossing Works, and if there had been a strong wind no doubt that large structure would have suffered. As it was the paint was scorched. There are other barns and small building close by that were in danger of being consumed.

James Smith, the owner, has been in Orange for several days visiting his daughters, and no one was at home but his son, Wm. M. Smith. He was awakened by the neighbors, but he could do nothing to save the burning building. No effort has been made to determine the cause, but it looks as if it was of incendiary origin.

TROLLEY UP THE NOTCH"

INDICATIONS THAT LINE WILL BE BUILT IN NEAR FUTURE.

Over Sixty Per Cent. of Consents From Property Owners Have Been Secured, and Everyone is Anxious.

It looks as though the trolley will at an early date be extended to Washingtonville, and thus bring the people in that section more closely in touch with this city. There have been many attempts to get the trolley extended, but all have failed, simply because there were two factions, one that wanted it to run near the Mountain Park Inn and the other wanted it to follow the main road to the Valley. Overtures are now being made to the Plainfield Street Railway Company to extend its line, and over sixty per cent. of consents of the property owners have been secured.

Last Saturday H. C. VanEmburgh, representing the Plainfield Street Railway Company, met with the Township Committee at Washingtonville and talked the matter over. The property owners are willing to make all reasonable concessions, and the trolley company feel disposed to give the people what they have been waiting for so long a time.

GUARD OF HONOR.

Detail of the New Jersey Naval Reserves to Attend the Sword Presentation Exercises.

With a view to giving the affair the appearance of a naval function, Governor Voorhees has issued orders direction Commander Washington Irving, of the Battalion of the East, Naval Reserves, to send a detail to Trenton tomorrow to act as a guard of honor to Rear Admiral Sampson during the ceremonies attendant upon the presentation of the sword given by the State of New Jersey to the Admiral. The detail will be selected at the weekly meeting of the officers of the reservee, which was held last night in Commander Irving's cabin on board the Portsmouth.

Fifty of the citizen sailors, including officers, will, in all likelihood, constitute the detail, twenty-five men being selected from each division. The officers will also decide upon the uniform to be worn. The men will report to the commanding officer tomorrow morning in uniforms or "clean blue," with leggins and side arms.

As far as possible, men who served on the auxiliary cruiser Badger during the late war will be selected for the detail. The Badger, while cruising in Cuban waters, was attached to Admiral Sampson's squadron.

Tarried at the Flowing Bowl

Daniel Conway, of this city, visited the borough last evening and tarried too long at the flowing bowl. In consequence he became disorderly and intoxicated, and Marshal Kliner was obliged to lock him up. This morning he was arraigned before Recorder Long, and given his choice of $3 or five days. He paid.

BATTLED AT "TANKS" FOR ABDUCTED CHILD.

Little Florence Grote Was Enticed Away From Home.

DRESSED IN BOY'S CLOTHES.

LARRY READY RESCUED HER FROM HER CAPTORS LAST NIGHT.

Fought "Reddy" McGrail, Leader of Gang, and Ruined His Face—"Reddy" Had a Razor, But Larry's Fists Won—Girl's Brother Went After Her—McGrail and Miss Grote in New Brunswick Jail.

After being used as a tool for a gang of tramps and petty thieves quartered at Greenbrook "tanks," who enticed her away from her home in Elizabeth Saturday, little twelve-year-old Florence Grote was released from her captors last night. Release came after a terrible battle between the leader of the tramps, "Reddy" McGrail, and Lawrence Ready, who is in charge of the pumping station of the Jersey Central Railroad. McGrail now lies in jail at New Brunswick with his face mashed beyond recognition while Ready is on duty as usual. The girl is in the Brunswick jail as well, where an effort will be made to send her to the Industrial School at Trenton.

Although only twelve years old, Florence Grote has the reputation in Elizabeth of being incorrigible. She is the daughter of Henry Grote, of Second street and Insley place. Mr. and Mrs. Grote separated sometime ago, and since then Florence has lived with her married brother, Louis Grote, at 445 First avenue. Last Saturday the elder Grote saw his daughter on the street and tried to persuade her to return to her brother's home. That was the last that any of her family saw of her until yesterday.

According to her statement and that made by McGrail, the latter persuaded her to join his gang, enticing her with various promises. She was then dressed up in boy's clothes and had her long hair cut off at Bound Brook. When clean and properly dressed she is a pretty little girl with light curly hair and blue eyes. In short trousers and with her hair cut, it was difficult not to believe her a boy. For the last three days she had been living with McGrail and his friends, sleeping in the sandhouse at the pumping station and spending the day begging and picking up what came to hand.

"Reddy" McGrail is one of Union county's toughest characters. His father, Detective Frank McGrail, of the Elizabeth police force, long ago disowned him. Although a young man he has been a frequent visitor at the county jail and was arrested in Plainfield twice and sent up for long terms.

Yesterday Florence's older brother, Charles Grote, eighteen years old, learned that his sister had been seen enroute to the "tanks" in a box car with "Reddy" and that the latter had tried to hide her. So young Grote started out to find her, accompanied by Robert Fisher and John Cotter, two young men from Elizabeth.

Reaching the "tanks" late in the afternoon, Grote saw his sister, but she ran away from him. She afterwards came up to Fisher and Cotter, who did not recognize her until she told them who she was. She begged them not to "give her away." Then Danny Cobb, a well-known character from Newark, made his appearance and finally recognized the girl.

It had grown dusk when young Grote tried to get his sister away. McGrail ordered everybody away from the girl threatening violence to any one who went near her. Here Denny Cobb said that he was going to take Florence Grote back to her home. McGrail objected seriously and drew a razor. Cobb picked up a coupling pin and declared his intention of braining McGrail. Young Grote and his friends sprang upon a passing train and started for Plainfield to notify the police that the girl was there and that the toughs were fighting over her.

McGrail and Cobb were quarrelling over the girl when Ready, who heard the high words, came out of the pumping station. He declared that he would take care of the "little boy" who was too young, he said, to go with such a crowd. McGrath replied with an oath and started for the boss of the pumping station.

Lawrence Ready, usually called Larry, is probably the strongest man in Middlesex county. He lives on the Nelson Giles farm near New Market and is one of New Market's most orderly citizens. He is six feet, three inches tall and weighs nearly 300 pounds. McGrail is a powerful man but does not compare with Ready.

McGrail made a pass at Ready with his razor. The blade cut through Ready's coat and shirt and left a gash in the arm three inches long. Another slash with the razor cut the clothing but did not reach the flesh. Then the tramp went down before a powerful blow from the other's fist. Ready knelt on McGrail's chest and held his arm out demanding that he throw away the razor. The tough refused and then the other began to convince him of the necessity of so doing. Ready says that he guesses he got mad. At any rate, he drove McGrail's head into the cinders so that the back of the head was cut open by them. With his right fist, he soon converted McGrail's face into pulp, smashing his nose and disfiguring him for life. Finally the fallen man threw away the razor and was dragged into the pumping house where he was locked up.

Constable Rinehart was summoned from Dunellen and took McGrail and the girl there at 7 o'clock. Dr. Brakeley dressed the former's wounds and took five stitches in Ready's arm. McGrail was then taken to the New Brunswick jail by the constable, while Florence Grote spent the night in the public hall in Dunellen.

Young Grote and his friends came to this city at 7 o'clock and notified the police. Chief Detective John K. Large, of the Central Railroad, was notified and left on the 8:08 train, accompanied by Chief Grant, Sergeant Kiely and Boundsman Frederickson. They found that Ready had done the work and that the other members of the gang had fled. Young Grote and his friends remained over night in the city jail and were released this morning.

ADDED A TENTH.

Roselle Has to Pay a Claim for Near $6,000 With $600 Added Thereto.

The celebrated Waters contract case against the borough of Roselle, which has been pending in the courts for years past, and which involves over $6,000, has been ordered settled by the Borough Council.

W. H. Waters built the sewer system at that place in 1895. Difficulties arose between the contractor and the Council and the latter refused to pay him all the contract price. Henry Brothers, lawyers of Bayonne, represented Waters in his fight against the borough. Judge E. S. Atwater, of Elizabeth, recently acted as referee in the case, and awarded Waters $6,167.64, or about $400 more than the borough engineer's final estimate. Waters wanted $2,500 additional.

The Mayor and Council ordered Attorney Frank Bergen to settle the case with Waters for $6,480.44, which amount includes the referee's award, referee's fee of $150, costs of court and interest amounting to $7,770, which accumulated during the four years the case was being fought in the courts.

GRAND OFFICERS CAME.

Royal Arcanumites Enjoyed a Fine Time at Their Meeting Last Night.

The annual visitation of the grand officers of the Royal Arcanum to Plainfield Council, No. 711, last evening was an important and interesting event in the history of the council.

During the evening one candidate was initiated and the work of the order was exemplified by Grand Regent L. A. Lightfoot. Brief addresses were also made by some of the other grand officers, after which a collation was served.

The following grand officers were present: Grand Regent L. A. Lightfoot, Vice Grand Regent Horace I. Bowen, Past Grand Regent J. D. Otis, Grand Secretary R. H. Alberts, District Deputies Messick and Drummond.

BRYAN TO VISIT NEW JERSEY

Representative William D. Daly Say the Democratic Leader Will Tour the State in December.

Representative William D. Daly, of Hoboken, said yesterday that William J. Bryan would visit New Jersey some time in December, and would make addresses in the larger cities in the interest of the Chicago platform.

Mr. Daly is chairman of the committee that will receive Mr. Bryan and look after him while he is in the State.

Plainfield Representatives.

At the annual meeting of the New Jersey State Federation of Women's Clubs, to be held at Atlantic City Thursday and Friday of this week, Mrs. Florence Howe Hall, of Madison avenue, chairman of the committee on education, will give a report, and David P. Hall, of Madison avenue, will present a paper on "Property Interests of Married Women in New Jersey." The delegates from the Monday Afternoon Club are Mrs. S. R. Struthers and Miss Emily B. Tracy.

DEMOCRATIC CLUB IS NOW ASSURED.

Ulrich Building on East Second Street Secured.

YOUNG MEN AT THE HEAD.

FORMAL OPENING WILL TAKE PLACE NEXT WEEK.

It is Planned to Maintain the Clubhouse the Year Around—A Membership Fee Will be Required That, With Good Support, Will be Sufficient to Maintain the Headquarters.

A Democratic club that will maintain a clubhouse the year around where members may meet for political and social purposes at any time in practically assured for Plainfield. A number of the young men—many of whom have not heretofore may identified with party affairs except as local voters—who have been agitating the project, met last night and discussed the situation and the club idea.

A committee that had been looking into the details of the matter reported that the Ulrich building, on East Second street, known as the old Crescent League clubhouse, could be secured for the use of the club, and steps were at once taken and perfected towards obtaining the use of the building, which is excellently adapted for club purposes.

Another meeting of those interested will be held this week when plans will be perfected for the formal organization of the club within a few days and arrangements for putting the clubhouse work in full swing before the campaign is very far advanced.

As outlined now the members of the club will be required to pay a yearly fee of membership, the total amount received from such a source being estimated to be sufficient to maintain the establishment in good style twelve months in the year. During the campaign the clubhouse will be made the headquarters of party organization, and all Democrats will be invited to come there and enjoy the Democratic hospitality that will prevail.

Some day next week a formal opening of the clubhouse will probably take place, at which time the candidates nominated by the Democrats at the county convention next Friday, as well as those from Somerset county, will be made guests of honor and will be given a chance to greet the party voters to whom they appeal.

A PLAINFIELD GROOM.

Thomas A. Randall Weds a Phillipsburg Belle—A Pretty Home Ceremony.

(Special to The Daily Press.)

Phillipsburg, Oct. 24—The marriage of Miss Rewzillia Nixon, daughter of Mr. and Mrs. William Nixon, of 93 Lewis street, to Thomas A. Randall, a popular and well-known man of Plainfield, was celebrated last Saturday afternoon at 4 o'clock at the home of the bride's parents. The wedding was a pretty one and was largely attended by relatives and friends of the contracting parties.

The bride was gowned in white silk, trimmed with lace and ribbons, and she carried bride roses. She was attended by her sister, Miss Addie Nixon, who was gowned in white silk, and carried pink roses. The best man was Edward Randall, a brother of the groom. After congratulations and supper was served, Mr. and Mrs. Randall left for a honeymoon. Upon their return they will reside on Franklin avenue, Plainfield. Mr. Randall is a machinist, and is employed in one of the local shops. He has a host of friends who will welcome him and his bride, and wish them a happy and successful life.

To Aid Relief Association.

Rev. John Brown, D. D., who is to give his lecture on "John Bunyan" in Plainfield, October 31st, is the sixth in succession from Bunyan in the Bunyan church in Bedford. His "Life of Bunyan" is the classic of English biography. He is the author of "The Pilgrim Fathers and Their Puritan Successors." He is one of the most distinguished of English Congregationalists. The fact that he is the Yale lecturer on "The Lyman Beecher Foundation" for the year makes it sure that he is a man whom it is a great privilege to hear. Subscriptions for the lecture to be sold at the nominal price of $1, each subscriber to receive four tickets. Subscriptions will be received by Dr. W. C. Snodgrass or Rev. C. L. Goodrich or Mulford Estil at his bookstore. If there are any profits from the lecture they will go the Relief Association.

—Gavett has only handled one water and oil heater for years, the Miller. They are all viger, he says.

BOERS MOVING ON DUNDEE

In Face of Overwhelming Defeats They Come up For More Punishment.

A STUBBORN RESISTANCE

They Try Hard to Close in on General Yule's Forces From the North and South.

Anxiety Exists at Cape Town Concerning Fate of Eighteenth Hussars—Another Signal Victory is Scored by British Forces—President Kruger Takes Command.

London, Oct. 24.—The Daily Telegraph has received the following from Ladysmith:

"The Boers, reported to be 9,000 strong and under the command of Commandant Gen. Joubert and President Kruger in person, are again attacking Glencoe.

"General Yule, commanding our troops, has moved his camp back into a better defensive position."

General Yule, evidently, is in a very tight corner, as he now has or had to face the main Boer army, under Gen. Joubert. General Sir George Stewart White, the British Commander-in-Chief in Natal, undoubtedly will detach part of the force which was victorious at Elandslaagte to his assistance. Such a detachment, however, will leave Ladysmith poorly protected against the threatened attack from the west, as General Hunter, on Saturday, wired that the departure of the force to Elandslaagte left him with only a couple of battalions of regulars, a mountain battery and 500 Natal volunteers to defend the town, which is the British military base in North Natal.

General Cronje Captured.

London, Oct. 24.—The correspondent of the Daily Mail at Durban, Natal, says:

"An official of the Bonanza Mine, who has just arrived from Pretoria, declares that while he heard that Col. Baden-Powell, the British commander at Mafeking, had captured General Cronje and thirty other Boers and had killed 500."

The Present Situation.

London, Oct. 24.—In the House of Commons Mr. Wyndham, Parliamentary Secretary of State for War, gave a summary of the situation in Natal prepared by Gen. Wolseley, commander-in-chief of the forces. At Elandslaagte the Boers lost heavily and two guns were captured.

At Dundee the Boers are advancing from the north and west and General Yule, who succeeded General Symons when that officer was wounded, is falling back at Glencoe, leaving his wounded and the surgeons at Dundee.

Gen. White, who is at Ladysmith, is being reinforced from Pietermoritzburg. The enemy greatly outnumbers the British.

A sensation has been created in military circles by the publication of a supplementary list of the casualties among the Gordon Highlanders in the fight at Elandslaagte. The killed, wounded and missing in that regiment alone number 118. The total casualties in all the regiments engaged were 257.

Gen. Sir George S. White notifies the War Office that the Boers suffered a number of casualties among their high officers in the fight, at Elandslaagte. Gen. Viljsen was killed, Gen. Kock was wounded and taken prisoner, and his son was killed. Colonel Schiel, the German officer, who was in charge of the Boer Artillery, was wounded and is a prisoner. Gen. Pretorius was also wounded and is a prisoner. Several Boer standards were captured.

Scored Another Victory.

Glencoe Camp, Natal, Oct. 23 (delayed in transmission).—The attack made by the Boers under Gen. Lucas Meyers on the British position enabled the British forces to score another signal victory. The Boer column was driven pell-mell over the plains losing over three hundred killed and wounded. In addition the British captured several hundred horses and made many prisoners, who are well cared for. The Boer hospital has been taken under the wing of the British hospital corps, as the Boers had only one simple doctor, with a primitive staff, who was unable to cope with the wounded. As it has been raining all night long, and the weather is heavy and misty, it is hardly expected that the Boers will make another attack to-day.

A Regiment Missing.

Cape Town, Oct. 24.—The greatest anxiety exists here regarding the fate of the Eightennth Hussars, who were most active in the pursuit of the routed Boers after the fight at Glencoe. The Boers made a stand on the main road to the northward and engaged the Hussars in strong force. No news has been had from the latter since. The last despatch from Glencoe, reporting that the Boers turned upon their pursuers and that a fierce fight between them was in progress only makes apprehension the keener.

It is feared that the Hussars have been cut off from retreat to the Glencoe camp, and perhaps have been slaughtered or made prisoners.

Third Big Fight.

London, Oct. 24.—The second big fight in the "Neck of Natal," which resulted in the capture of Elandslaagte by the British and the surrender of a considerable force of the enemy, has been followed by a third important engagement. The main northern column of the Boers attacked Glencoe and also Dundee, according to a meagre report just received, shelling the latter vigorously until late at night. The column is said to be under the personal command of Commander General Joubert.

As soon as his men had rested from their victory at Elandslaagte, General White hurried reinforcements on to Glencoe to relieve the garrison there. The eastern and western Boer columns are entirely dispersed.

REASONS ARE NOT YET FILED.

Ingham And Newitt May Have a Long Time at Liberty.

Philadelphia, Oct. 24.—The reasons for a new trial for Ellery P. Ingham and Harvey K. Newitt, who were found guilty of bribery and conspiracy on Saturday, have not been filed. Four days are allowed for filing reasons when a motion for a new trial is made and the defendants, accordingly, have until to-night to place their paper on record in the office of the Clerk of the United States District Court.

After the reasons have been advanced Judge McPherson will fix a day for argument, and if his decision is adverse to the defence, an appeal will be taken to the United States Circuit Court of Appeals. When the latter step is taken one of the Judges of the Court of Appeals fixes bail, which the defendants must furnish pending a decision upon the appeal. If bail is accepted, as is reasonably certain to be the case, Ingham and Newitt will have a long time at liberty.

For The New Baseball League.

Chicago, Oct. 24.—Capt. Adrian Anson says that the prospects for the new baseball league are bright. "I am being overrun with applicants for positions," said the Captain. "They come from all classes—old professionals, young professionals and amateurs, although, of course, the younger players predominate. One thing is certain, the new league will not want for players. I am not saying anything about the quality, but there are more of them. I am in receipt of a letter from Frank Hough, who tells me he is receiving much encouragement throughout the East."

Mineworkers Organize.

Shamokin, Pa., Oct. 24.—One hundred and six delegates representing the twenty thousand United Mine Workers of Northumberland, Schuylkill, Dauphin and Columbia counties, met in Mount Carmel and organized the lower anthracite region district by electing officers for the ensuing year. Addresses were made by Edward McKay, of Pittsburg; John W. Fahy, of Pottsville; John Cartwright, of Scranton, and Benjamin James, of Jeansville, members of the National Executive Board.

Croker's Son Enters Politics.

New York, Oct. 24.—Frank Croker, son of Richard Croker, has entered upon his political apprenticeship. The self-possessed young man, who sat for several hours in the witness chair and by his quiet answers to the questions of Lawyer Frank Moss defied all the efforts of the Mazet Committee to obtain from him testimony which would militate against his father went to Tammany Hall Monday to learn the first lessons in the great game of politics.

Woman Lion Tamer Attacked.

Atlanta, Ga., Oct. 24.—While giving an exhibition in a cage of lions at the fair grounds here, Mrs. L. W. Holmes, known as "Leota, the lion queen," was attacked by one of the beasts, called Dewey. The woman fought the animal for some time, but it finally knocked her down and clawed and bit several pieces of flesh from her body and limbs. Attendants drove the lion off with bars, and rescued the woman after an exciting struggle.

American Officers Will be There

Washington, Oct. 24.—Through the courtesy of the British government, several United States Army Officers will accompany the British forces in the field during the South African campaign. Official announcement of the American representatives has been made at the War Department. Colonel S. V. Summer military attache of the United States Embassy in London, will be at the head of the delegation.

Patients Barely Rescued.

Findlay, Ohio, Oct. 24.—The City Home and Hospital building was destroyed by fire, caused by an electric wire. By heoric work the helpless patients were removed, the last being taken out but a moment before the walls fell. Seven of them are in a precarious condition from the exposure and excitement. The loss is over $60,000.

Too Much Moonshine.

Raleigh, N. C., Oct. 24.—Judge Purnell, of the Eastern North Carolina United States District Court, says there is an astonishing increase in the amount of illicit distilling. There is no increase in the Western district. In the Eastern district there are now four hundred cases against moonshiners on the docket.

More Rioting at Halleschau.

Vienna, Oct. 24.—Anti-Semitic riots have again broken out at Halleschau, Moravia. Jewish houses were stoned, stores were pillaged, a house burned and the gendarmes charged the rioters, killed three persons and injured several. The military finally restored order.

Long Island Man Victim of Lockjaw.

Cutchogue, L. I., Oct. 24.—Frederick Grathwohl, of this place, is suffering with lockjaw and has been removed to the Roosevelt Hospital, New York. It is thought he will recover.

Insurrection at Panama.

Washington, Oct. 24.—A cablegram has been received at the State Department from United States Consul Gudger, at Panama, stating that an insurrection has been begun there and that martial law has been declared.

Molineux Trial to Begin November 6.

New York, Oct. 24.—The District Attorney has decided to place Roland B. Molineux on trial on November 6 for the murder of Mrs. Kate J. Adams.

Fined For Killing Moose.

Bangor, Me., Oct. 24.—Alfred Muller of Brooklyn, N. Y., a restaurant proprietor, was fined $500 here for killing moose in close time. He may be prosecuted for smuggling large quantities of game out of the state.

Senator Platt, of New York, had a conference with Secretary Gage in Washington in regard to the selection of an architect for the new Custom-house building at New York.

CRYING FOR HELP.

Lots of it in Plainfield, But Daily Growing Less.

The kidneys cry for help.

There is no organ in the body so delicately constructed or so important to health.

The kidneys are the filters of the blood.

If they do not filter the blood very soon becomes foul and poisonous.

Anybody knows that there can be no health where there is poisoned blood.

Backache is one of the first indications of kidney trouble.

It is the kidneys' cry for help. Heed it.

Doan's Kidney Pills are what is wanted.

Are just what overworked kidneys need.

They strengthen and invigorate the kidneys—help them to do their work—never fail to cure any case of kidney disease.

Read the proof from a Plainfield citizen.

Mr. Richard Day, of 134 East Front street, says: "I was troubled at times with symptoms of kidney complaint for four years. My chief difficulty was a miserable pain across my back and a sort of lame feeling over my kidneys. Standing any length of time or walking any distance aggravated it greatly. I was never sick much in my life and consequently never took much medicine, so when I first began having these attacks I paid but little attention to them. They however grew worse instead of better so I had to look about for a remedy. I read quite frequently in our papers about cures brought by the use of Doan's Kidney Pills, so I got a box at L. W. Randolph's drug store and after taking them I felt greatly relieved. I have recommended them to my friends and those who have used them speak very highly in their praise. I consider that Doan's Kidney Pills are a splendid remedy for complaints like mine."

Doan's Kidney Pills for sale by all dealers; price 50 cents a box. Mailed on receipt of price by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name—Doan's—and take no other.

DRESSED CHICKENS.

There is nothing quite so good for dinner as chicken. This week we have an extra nice lot of fancy roasting chickens, broilers, also fowls of the highest grade. We pride ourselves on dressed chickens. Prices very low, considering the goods. We would like to have your meat trade and we think a plump dressed chicken would be a good introduction.

A Specific for Cancer.

"THE MISSISQUOI SPRING WATER has in some cases seemed to be of great benefit in arresting the progress of the disease. In a few instances, one of cancer of the breast and four of uterine cancer, the apparent effect *has been more striking than any results I have seen from any other agent.*"
Fordyce Barker, M. D.

'I can fully endorse all that my friend Dr. Barker has said about the MISSISQUOI SPRING WATER. I have prescribed it with benefit in a few cases of cancer. I also consider it a great remedy in all scrofulous diseases, and in syphilitic affections. In these diseases its true value has not yet been fully recognized by the profession. It is also an admirable remedy in affections of the digestive organs, and in some diseases of the kidneys."
J Marion Sims, M. D., LL D.

THEY DEFIED AN ARMY.

Surrounded Bandits Make Their Escape Near Atchison.

Atchison, Kan., Oct. 24.—Notwithstanding the fact that fully 500 armed men surrounded the island between Atchison and Doniphan, the two bandits who on Saturday night killed one man and wounded another at Doniphan and later duplicated this crime near here, have escaped.

The robbers crept through the line of guards some time during the night and, stealing a team of horses, escaped in the darkness.

The body of Policeman Robert W. Dickerson, who was killed near the log barricade made by the robbers, has been recovered. A pool of blood showed that one of the robbers had been badly wounded.

Hundreds of men are searching for the bandits. They seem to have provided themselves with plenty of ammunition, and they are cool and accurate in the use of their rifles.

Exports in Grain Increases.

Philadelphia, Oct. 24.—Grain Exports from this city show a continued increase over the corresponding period of last year. From Jan. 1 to the present time the shipments have been as follows: Corn, 24,178,296 bushels, as compared with 21,834,760 bushels; wheat, 3,381,226 bushels, as compared with 2,893,581 bushels; oats, 6,483,679 bushels, as compared with 5,430,373 bushels. In the shipments of rye there has been a slight falling off. From Jan. 1, 610,987 bushels were shipped.

Girls Escaped From Iowa Home.

Des Moines, Oct. 24.—Twenty girls escaped from the State Industrial School for Girls at Michellville. All of them were recaptured, and those remaining in the school, about 100 in number, became violent, kicked the windows out and destroyed property generally. The police of Des Moines were notified and a posse was sent to assist the authorities of the institution in preserving order.

Blind Scholar in The Toils.

Muncie, Ind., Oct. 24.—Col. Frank Freeman, a blind scholar, has been arrested on the charge of wronging young girls from the Children's Home. The alleged victims are Anna Miller, 13, and Emma Six, 12. He is a fine linguist, having classes at Winchester and Anderson, Ind., and Sidney and Piqua, Ohio. He has taken a prominent part in literary circles here.

Transatlantic's Crew Landed.

Dartmouth, Eng., Oct. 24.—The British steamship Hutton, Capt. Arkley, from Philadelphia, Oct. 1, for Copenhagen, has landed here eleven members of the crew of the Norwegian bark Transatlantic, Capt. Pedersen, from Mobile, August 10, for Stettin, which foundered on October 15, in latitude 47, longitude 27. The Transatlantic registered 579 tons.

Altgeld to Speak in Nebraska.

Chicago, Oct. 24.—William Jennings Bryan stopped in Chicago long enough to meet John P. Altgeld. The ex-governor assured the former colonel that he was ready to go into Nebraska and make ten speeches when the campaign committee was ready to bid him do so. Assistant Secretary of War Meiklejohn will visit Nebraska in the interest of the Republican ticket.

To Run Mills Day And Night.

Dover, N. H., Oct. 24.—Cocheco Cotton Mill No. 1, is to be operated day and night for the next few weeks. The printers' strike at the Cocheco Print Works continues with no prospects of a settlement, but the company, as far as can be learned, is not seriously handicapped, as all but one of the machines left by the strikers is running.

Cleveland at Home in Princeton.

Princeton, N. J., Oct. 24.—Ex-President Grover Cleveland has arrived in Princeton from New York. He was met at the station by Mrs. Cleveland and drove at once to Westland, his winter home on Bayard avenue. Mr. Cleveland will enter upon his new duties as a lecturer in the University next month. His subject will be current topics.

McKinley Will Vote in Canton.

Canton, O., Oct. 24.—President McKinley is coming home to vote Nov. 7. His affidavit for registration arrived and is in the hands of Secretary Davies, of the City Board of Election. President McKinley counts his new house, recently purchased, as his home and he will be registered in that ward.

Madman's Fatal Fight in Asylum.

Lafayette, Ind., Oct. 24.—William Trimmer, once a wealthy resident of Indianapolis, is dying at St. Elizabeth's Hospital. Trimmer was confined in the County Insane Asylum. An insane inmate assaulted him, producing rupture of a blood vessel in the brain.

Prominent Farmer Suicides.

Sandusky, Ohio, Oct. 24.—Thomas Milner, a prominent farmer, residing four miles north of this place, suicided by hanging himself from a rafter in his barn. Continued ill health is the cause of the act.

Body Found in Fishkill Creek.

Matteawan, N. Y., Oct. 24.—The body of a man was found floating in the Fishkill creek. It had been in the water a long time. It is supposed to be the body of an inmate who escaped from the State Asylum.

Killed Farmer With a Club.

Elyria, Ohio, Oct. 24.—Charles Watson killed C. L. Cheesman, a prominent farmer, by striking him on the head with a club. He says he did it in self-defense.

New Minister To Argentine.

Washington, Oct. 24.—William P. Lord of Oregon has been appointed envoy extraordinary and minister plenipotentiary to the Argentine Republic.

Crushed To Death.

Terre Haute, Ind., Oct. 24.—John E. Romus, foreman of the construction gang of John R. Walsh's new road, the Southern Indiana, was killed by the falling of a tree while at work.

IMMIGRATION INCREASING.

Over 80,000 More Foreigners Come to America This Year Than Last.

MR. POWDERLY'S REPORT

An Unsuccessful Attempt to Learn What Occupations New Arrivals Will Follow.

The Commissioner of Immigration to Recommend That Our Immigration Laws be Made More Stringent—Large Numbers Sent Back Home Every Month.

Washington, Oct. 24.—This is the season when the Government officials are busy with their annual reports. Among the first to be made public is that of Commissioner of Immigration Powderly. It shows that the total number of immigrants coming into this country last year exceeds the number of the year before by over 80,000. An attempt was made during the year to gather statistics as to the proposed occupation of all arrivals, but in collecting the data the ages had not been separated. It was therefore impossible to tell how many women had come to the United States for domestic employment, although the total of both sexes given domestic service as their occupation was 34,120. Those who informed the inspectors that they had no occupation at all numbered 109,000. On account of this large percentage Commissioner Powderly will recommend that the immigration laws be made more stringent. He says that even now a large number of the persons who come here are paupers or physicially incapacitated, and are certain to become burdens upon the rest of the population. Every month during the year he has been compelled to turn back large numbers. Of the newly arrived immigrants, 20 said they were bankers. Nine of these were Englishmen, 4 Italians, 2 Welshmen, 2 West Indians, 1 Japanese, 1 Portuguese and 1 Spaniard. Seven went to California, 7 to New York, 2 to Illinois, 1 to Florida and 1 to the State of Washington.

Siamese Minister Recalled.

Washington, Oct. 24.—It is possible that there will be no Siamese Minister at Washington after all. It has just been announced that Phya Visudda, the Siamese Minister to Great Britain and the United States, has been recalled to accept an important government position at Bangkok. Several months ago Mr. Visudda was appointed Minister to the United States as well as Great Britain, and he came to Washington, expecting to present his credentials. But it was found impossible to do so at that time, and he went to London, intending to return to Washington this fall. His recall to Siam has of course changed his plans. The announcement of recall makes no mention of the appointment of a successor, and it is not at all certain that the Siamese Government will send a representative to Washington again. This Government has as Minister to Siam Mr. Hamilton H. King. Siam has a Consul-General at New York City, Mr. Isaac T. Smith, and as the commercial intercourse between the two countries is exceedingly small, the Siamese Government may be content with the existing arrangement.

Our German Parcel Post.

Washington, Oct. 24.—It is evident that the people of the United States generally do not know that there is a parcel post between this country and Germany. Yet such is the fact. The parcels post convention between the two countries went into effect the 1st of October, but the returns to the Postoffice Department show that on the first day only twenty-eight parcels were sent from the United States to Germany and seven from Germany to this country. As soon as the public become aware of the existence of the treaty, Capt. Brooks, superintendent of the foreign mail service, says that it will prove of great convenience to Americans traveling abroad, and by next summer the general use of the mail for the exchange of parcels is expected to become quite large.

Harmer Suffering Of Bright's Disease.

Philadelphia, Oct. 24.—Congressman Alfred C. Harmer, who has represented the Fifth Congressional District for thirty years, excepting one trm, is critically ill at his home in Germantown a suburb of this city. Mr. Harmer is popularly known as "The Father of the House." He is suffering from an acute attack of Bright's disease.

British Ships Collide.

London, Eng., Oct. 24.—The British steamship Volage, Capt. Johnson, reported to have returned to Cardiff for repairs, after sailing for Vera Cruz, was in collision with the British steamship Devona, Capt. Tait, outward for Montreal, which has also returned to Cardiff. Both vessels are damaged severely.

Cartagena, Colombia, Oct. 24.—News received here shows that the revolution is general. The insurgents have taken river steamboats, armed them and have burned railroad bridges. The government is arming river steamboats and despatching them with troops. A government commissioner has arrived here.

Six Million Baskets Burned.

Painesville, Ohio, Oct. 24.—The warehouses of the Northern Ohio Grape Growers' Association at Wickliffe, containing 6,000,000 empty grape baskets, caught fire from a passing train last night and were burned. Three dwelling houses near by were also destroyed.

Klondike Has Typhoid Epidemic.

Seattle, Oct. 24.—Advices from Cape Nome, Alaska, brought by the steamship Lakme, which left there Oct. say that typhoid fever in severe form has broken out in the camp. More than 250 patients are in the hospital. Five deaths have occurred.

TEETH.

If you have any to be extracted remember you will not be hurt in the slightest. My local anaesthetic is the best that can be obtained and is not known to the other dentists in this city. Gas strictly fresh administered by an expert if you want that. If you need artificial teeth you may rest assured that the greatest care will be exercised in selecting shape and color to harmonize with the face, also to restore the features to their natural expression and fullness. This is most important.

Full Set (guaranteed)	$8

Theodore Hoff of Chicago Heights, Ill., says: "I desire to add my testimony to the great good Ripans Tabules have done for me. I am a mechanical engineer, 53 years old, an old soldier, serving four years during the late civil war. I had enjoyed good health up to two years ago, when I began to be subjected to pains in the head and heart. I took medical advice on the matter, and was informed that I was suffering from 'Tobacco Heart.' In the meantime constipation set in, and I suffered the torments of the damned, viz., the loss of sleep, intense fear of impending danger, dizziness, forgetfulness and inability to collect my thoughts. I stopped the use of tobacco, but the torture and the pains and distress went on. I expended many dollars for nerve tonics, heart medicines and dyspepsia cures, but from none of these did I receive a particle of benefit, but soon noticed that whenever I could get my bowels in any measure regulated for a short time I felt better. About this time I saw Ripans Tabules advertised in the paper and commenced using them. This was about seven months ago, and to-day I am quite free of the pains in the head and my heart is nearly in its normal condition. I feel myself once more a man. I give this testimonial freely, believing that it is only justice to my fellow man that ALL should know, and you are free to use this as you see fit. I will cheerfully answer all inquiries from any one similarly afflicted as myself. Ripans Tabules are a blessing to the poor, being so cheap that they are within the reach of all. Yours truly, THEO. HOFF, Chicago Heights, Ill."
A new Tabule is now retailing TEN RIPANS TABULES in a paper carton (without glass) is now for sale at some druggists. This low-priced article is intended for the poor and the economical. One dozen of the Tabules can be had by mail by sending forty-eight cents to the RIPANS CHEMICAL COMPANY, No. 10 Spruce Street, New York—or a single carton (TEN TABULES) will be sent for five cents.

THE BIG FIGHT.

Sharkey Takes Things Easy—Jeffries Works Hard.

New York, Oct. 24.—Having removed every ounce of superfluous flesh from his body and reduced himself to 185 pounds, his best fighting weight, "Tom" Sharkey, who is matched to fight James J. Jeffries for the heavyweight championship of the world at Coney Island on November 3, will now take mild training exercise for the battle. Beginning to-day, he will devote his time almost exclusively to road work. Rough boxing and wrestling, so conspicuous in his programme of daily exercises at his training quarters at New Dorp, S. I., will be dispensed with. The only sparring he will do will be of the mildest possible character. The sailor is now on edge for the contest, and as violent exercise might do him more harm than good Sharkey has decided to take things very easy. He is as strong as a horse and his muscles stand out like whipcords.

Jeffries, whose preparation for the contest has suffered considerably in consequence of the injury to his left arm has got to make up for lost time His final training will be the opposite of Sharkey's. He will work harder than ever from now until he enters the ring. Vigorous boxing bouts with "Tommy" Ryan, spirited contests on the mat with Ernest Roeber, rowing exercise on Deal Lake and plenty of road work will mark Jeffries' efforts to get into proper shape. The champion intends to weigh considerably less when he fights Sharkey than when he fought Fitzsimmons

Betting on the fight is now becoming interesting. Last night "Markie" Mayer bet "Mike" Downing $1,000 to $700 that Jeffries would win.

SHEPHERDS FROZEN TO DEATH.

Perish With Their Flocks in Mountain Snowstorm.

Helena, Mont., Oct. 24.—The northern part of this state is digging itself out of the snow. For four or five days last week snow fell almost unceasingly. At the town of Choteau, county seat of Teton County, snow was ten to twelve feet deep in drifts, and at least three feet on the level. Old inhabitants are agreed that nothing like this fall of snow has been seen in October for twenty years.

H. C. Burton, president of the Burton Land Company who has just arrived here from the blizzard-swept district, says that the bodies of eight sheep herders have been found in Teton County and fifteen other herders who are missing have been given up as lost. He says the loss of life may exceed twenty persons in Teton County and that 20,000 sheep perished in the storm.

A Bicycle Record.

New York, Oct. 24.—"Will' Brown, an amateur of the Nassau Wheelmen and Century Road Club, completed his one-thousand-mile record at Valley Stream, L. I., in good condition. He had then been at his task for eighty-three hours, four and one-half minutes, and had beaten "Gus" Egloff's amateur record by more than twenty-five hours, and G. C. Riviere's professional record by more than seven hours. His performance was one of the most notable in the history of cycling. Brown began his rids on the Century Road Club's twenty- mile triangular course in Long Island and was off his wheel only eleven hours and forty minutes in all, and his total sleep, taken in three sections, was six hours and forty-five minutes, his only ailment being a bruised knee, received in a fall over a dog on his first night out.

Carnegie to Build a Library.

Altoona, Pa., Oct. 24.—Andrew Carnegie has written to a friend in Tyrone, this county, offering to contribute $50,000 to build a free library for the town on condition that a site be provided, and that the citizens maintain the institution by public subscriptions, amounting to not less than $3,000 per year. The people of Tyrone are delighted at the prospect, and there is no doubt that the offer will be accepted promptly.

Will Build a New Trolley Road.

Denver, Oct., 24.—Otto Mars, the projector of the Washington and Chesapeake Railway, is preparing plans for an electric line between Ouray and Red Mountain. A wagon road connects the two points. At some places it rises 1,000 feet up the mountain side. The current for the new line is to be generated by water power.

Brothers Indulge in Fatal Quarrel.

Winchester, Ky., Oct. 24.—At Ford, ten miles from here Jerry Taylor and Joe Taylor, brothers, and colored, fought, and Joe was disemboweled by Jerry with a pocketknife. The wound is fatal. Jerry fled, and has not been apprehended. A dispute over the proper way to raise children caused the trouble.

One of The Smallest Babies.

Hamilton, O., Oct. 24.—A tiny baby has come to the home of Mrs. Louise Meusey, residing on South Seventh street. It is a healthy baby girl and tips the scales at a fraction over a half pound. An ordinary finger ring slips over its tiny hand and up its arm to the shoulder.

Martial Law Has Been Proclaimed.

Washington, Oct. 24.—A cable message has been received at the State Department from United States Consul Gudger, at Panama, in which it is reported that an insurrection has broken out there, and that martial law has been proclaimed.

Her Wish Was Gratified.

Mt. Vernon, Ohio, Oct. 24.—Mrs. Thomas Head died in Gambier on the fiftieth anniversary of her marriage. She fell a few days ago and broke her hip. She wanted to live until her marriage anniversary day arrived, and her wish was granted.

THE MARKETS.

New York, Oct. 24.—The market was stronger to-day, both industrial and standard railway shares showing fractional gains.

Chicago, Oct. 24.—Closing prices Wheat 69, corn 31, oats 22½, pork 7.84, lard 5.17, ribs 4.69.

THEY KILLED SIX FILIPINOS

American Scouting Party Has a Hot Engagement With the Natives.

OUR LOSS WAS SMALL.

The Enemy Scattered in All Directions Before the Hotchkiss and Gatling Guns.

One American Killed And Four Badly Wounded — Lieut. Ferguson And Forces Defeat The Filipinos Near Cabiao—News of Capt. Guy Howard's Death Confirmed.

Manila, Oct. 24.—A reconnoissance was made near Calamba by three companies of the 21st Regiment, a battalion of the 27th, and a small force of artillerymen with one Hotchkiss and one Gatling gun. After a short fight the enemy scattered in all directions. The Americans had one man killed and four wounded. The enemy's losses are not known.

Lieut. Ferguson, of the 36th Infantry, who was out with a scouting party of twenty men, got into two fights near Cabiao. He killed six of the enemy and took eight prisoners. He also captured ten rifles. The Americans suffered no losses.

Howard's Death Announced.

Washington, Oct. 24.—An official announcement of the death of Capt. Guy Howard, son of Gen. O. O. Howard, has been received at the War Department from Gen. Otis. The lack of transportation makes the forwarding of supplies to San Isidro difficult, but Gen. Otis says that transportation will soon be supplied. He reports the repulse of natives at Calamba and remarks that there were no casualties in the attack at Santa Rita. Gen. Otis says:

"Manila, Oct. 23.

"Adjutant-General, Washington.

"Capt. Guy Howard, Assistant Quartermaster and Quartermaster of Volunteers, killed near Arayat while on launch in Rio Grande River by concealed natives. His clerk, a civilian employe and a native, wounded.

"Scouting detachment, 36th Volunteers, encountered natives southwest Santa Rita, scattering them, killing 6, capturing 8, and 10 rifles. No casualties.

"Gen. Lawton operating at San Isidro. The forwarding of supplies to that point continues, attended with some difficulty on account lack of transportation, which will be supplied soon. Filipinos southern Luzon attacked Calamba. These were driven off. No casualties.

"OTIS."

In a later despatch, he says:

"Manila, Oct. 23.

"Adjutant-General, Washington:

"Kline, commanding at Calamba, vigorously attacked native force concentrating on his front, routed them from trenches and pursued three miles. His casualties, one private killed, one corporal and three privates wounded. Enemy's loss six killed.

"OTIS."

Capt. Guy Howard, was born Dec. 16, 1853, and appointed Second Lieutenant, 12 infantry, Aug. 31, 1876; First Lieutenant, July 19, 1882; Captain, Jan. 7, 1893; Major, March 12, 1898, and Lieut.-Colonel of Volunteers, Aug. 11, 1898.

Hobart Improving Slowly.

Paterson, N. J., Oct. 24.—The condition of Vice-President Hobart remains about the same, but there is no doubt felt in the household that he will surely recover. Dr. E. Newton, Mr. Hobart's private physician, said: "The Vice-President's improvement is very slow, of course, but then his was a very aggravated case, and there is no doubt in my mind of his complete recovery. Of course he will have to refrain from all work for some time. The Vice President himself is not worried and is willing to follow strictly the advice of his physician."

Conklin's Examination Begins.

Southampton, N. Y., Oct. 24.—The hearing in the William Strong murder case is on before Justice E. H. Foster, of this village. District Attorney Jaycox is conducting the people's case and H. H. Chatfield has been assigned as counsel to Sylvester Conklin, who was arrested on suspicion. Alonzo E. King, of Amagansett, who is known to have spent the night on which the murder was committed with Conklin, has been arrested. Strong's body has been brought here for burial.

Is Charged With Murder.

Munfordville, Ky., Oct. 24.—Deputy Sheriff John E. Hubbard arrested and lodged in jail here George Davis, who lived on the farm of Mrs. Shipp, who, with her grandson, was murdered a few nights ago. Blood was found on his clothing. He claims that he got it there while possum hunting. Two other men who are suspected are being pursued.

Kills His Wife and Commits Suicide.

Birmingham, Ala., Oct. 24.—Mrs. John Franklin, wife of a miner at Pinckney, whose husband quarreled with her Monday night, was found dead in bed, having been choked to death. After the murder had been discovered, Franklin ran to the woods near by and in sight of a deputy sheriff who was after him, killed himself with a revolver.

New York Woman Robbed of $75,000.

London, Oct. 24.—The police authorities of this city have been notified that Mrs. Stockwell, the wife of a New York jeweler, had been robbed of jewels, bank notes and securities worth in all $75,000. Of this sum, it is said, $25,000 was in currency.

Refused to Give His Name.

Marysville, Ohio, Oct. 24.—An unknown man was run over by the cars while trying to steal a ride near Melford Center. His leg was amputated. He had $75 on his person, and was a young man of good address, but refused to divulge his name.

COMING EVENTS.

October 30—Y. M. C. A. Star Course.

Plainfield's Need.

There seems to be some prospect of securing another factory in this city other than the one mentioned in last Saturday's Press. It is understood that a large concern has an eye upon Plainfield as a most advantageous place to re-establish a plant that will employ a number of skilled mechanics. That is what Plainfield needs—a greater number of diversified industries.

It is the cities having factories and plenty of good mechanics located permanently within her borders that are always prosperous. A manufacturing town is a lively place to live in and one in which enterprising business men are found in good numbers.

The mechanic is the fuel which keeps the merchants' machinery in operation. The mechanic makes a good citizen and the money he earns is spent in the town where he earns it.

All the nominations for the State Senate have been completed on both sides excepting in Union and on the Democratic side in Essex. They are as follows:

Essex, Thos. N. McCarter, Jr., Rep.
Camden, Herbert W. Johnson, Rep.; Elias Russell, Dem.
Gloucester, Solomon H. Stranger, Rep.; Thomas M. Ferrell, Dem.
Monmouth, Charles Asa Francis, Rep.; Aaron E. Johnston, Dem.
Salem, Richard C. Miller, Rep.; Jas. Strimple, Dem.
Somerset, Chas. A. Reed, Rep.; James J. Bergen, Dem.
Warren, Johnston Cornish, Rep.; Miller R. Nunn, Dem.

In one of its facetious moods the Hackensack Republican makes this suggestion: "The Hoboken statesman, William D. Daly, is pleased with the idea that his name may be brought before the Democratic National Convention next year as a candidate for vice-president. Stranger things have happened in the Democratic politics of this State than that Mr. Daly's name should be presented to the convention by Mr. Gourley, of the New Jersey delegation. Why not make this an event for having a love feast and harmonizing the party?"

One report says that Vice-President Hobart is a very sick man and almost simultaneously another report says that he is on the high road to recovery. But whatever his condition may be Mr. Hobart has the kindly wishes of Jerseymen, irrespective of political persuasion, that he may regain his good health and continue to fill his high office in the distinguished manner his Washington career has thus far been noted for.

The idea of a permanent clubhouse for the use of loyal Democrats for political and social purposes the year around ought to be a popular one with the members of that party.

Middlesex county would probably think itself out of the land of the living if it did not have an attempted or actual murder case to deal with every few weeks.

The young Democracy of Elizabeth is said to be pushing Bernard J. Higgins for the nomination of County Clerk by the county convention Friday.

The white winged dove of peace did not roost among the Republicans of Plainfield last night.

PRESIDENT STEYN AND HIS COUNTRY'S FLAG.

President Martimus Th. Steyn of the Orange Free State took a pronounced stand in favor of the Boer side in the South African trouble. This required some pluck, as the Orange Free State is nearer the British seat of war in Africa and therefore in

danger should there be war. Martimus Steyn is called the first son of the Orange Free State, because he was the first child born in the little republic to become in after life its president. He is 42 years of age and a lawyer by profession. He was chief justice of the republic before his election to the presidency in 1896.

WHAT THE SHEARS FIND

Editorial Comment From Other Papers of Interest in Plainfield.

It is mooted now that the justices of the peace and the constables are going to ask the next Legislature for more protection, and by the same token a bill should accompany their measure providing greater protection for the people from the conniving justices and their servants, the constables.—New York Press.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

There is an opportunity for some missionary work on the part of the City and Borough Boards of Health in regard to the condition of Green brook in the business part of the town. Steps should be taken to have it cleaned out.

* * * * *

Work has begun in earnest on the demolition of the old Taylor's Hotel building in Jersey City, and in the course of a short time the old landmark will be a thing of history. The interior of the building has been entirely stripped of doors and sashes, and the front of the ground floor has been taken away. The front of the restaurant has been purchased by George Campbell, of Jersey City, who proposes to equip with it a drug store at Somerville.

* * * * *

People who have friends and relatives in the army in the Philippines must soon begin to arrange for sending Christmas boxes to Manila. Directions for such shipments are given out by the Government. The boxes should not contain any perishable goods, should not weigh more than twenty pounds each, and should be forwarded, prepaid, to reach New York not later than November 1st, or San Francisco not later than November 20th. They will be carried free from those ports. The offer by the Government makes the cost of shipment small and will enable people of humble means to remember dear ones in the Philippines with substantial Christmas tokens.

To Raise an American Flag.

Next Thursday afternoon the members of Fairview Council, Jr. O. U. A. M., of Mt. Bethel, will raise an American flag on the school house at Mt. Horeb, and several Juniors from this city will attend.

—Friday afternoon the Woman's Home Missionary Society of the Crescent Avenue church will hold its regular meeting for sewing in the church parlors.

PARTICULAR MENTION.

Samuel and Nettie Haase, of New York, have been visiting at the home of Mr. and Mrs. Leichtentritt, of Central avenue.

Arthur Smith, of Grandview avenue, is now a student at Rutgers College, and he goes back and forth every day by trolley.

Miss Mary Bushnell, daughter of Mr. and Mrs. Frank Bushnell, of Hartford, Conn., formerly of Madison avenue, is visiting friends in town.

Mr. and Mrs. George Rockafellow's children who have been ill with scarlet fever at their home on West Second street, have about recovered and will be able to go out in a short time.

EARLY INTELLIGENCE.

—Press want ads bring results.

—This evening Winfield Scott Post, No. 73, G. A. R., will meet and elect officers.

—Monday evening, November 6th, the Common Council will hold a regular meeting.

—An entertainment will be given in Saengerbund Hall about the middle of next month by the women of St. Joseph's church.

—Martha Washington Council, Daughters of America, will hold a dime social this evening at the home of Mr. and Mrs. Geo. Allen, Linden avenue.

A Frightful Blunder

Will often cause a horrible Burn, Scald, Cutor Bruise. Bucklen's Arnica Salve, the best in the world, will kill the pain and promptly heal it. Cures Old Sores, Fever Sores, Ulcers, Boils, Felons, Corns, all Skin Eruptions. Best Pile cure on earth. Only 25 cts. a box. Cure guaranteed. Sold by L. W. Randolph, Druggist.

GRAIN-O BRINGS RELIEF

to the coffee drinker. Coffee drinking is a habit that is universally indulged in and almost as universally injurious. Have you tried Grain-O? It is almost like coffee but the effects are just the opposite. Coffee upsets the stomach, ruins the digestion effects the heart and disturbs the whole nervous system. Grain-O tones up the stomach, aids digestion and strengthens the nerves. There is nothing but nourishment in Grain-O. It can't be otherwise. 15 and 25c. per package.

Democratic Primaries.

Notice is hereby given to the Democrats of the city of Plainfield that the primaries for the election of delegates to the Democratic county convention, to be held in Turn Hall, Elizabeth, Friday, October 27th, will be held in the various wards of this city

WEDNESDAY, OCT. 25th.

The business to be transacted at these primaries will also include the election of members of the Democratic County Executive Committee, as well as propositions for the thorough reorganization of the party in Plainfield.

The places of holding the primaries in each of the wards, as well as the number of delegates each is entitled to, are as follows:

FIRST WARD, four delegates, vacant store in Voehl building, 320 East Front street.

SECOND WARD, three delegates, Bryant Schoolhouse, East Sixth street entrance.

THIRD WARD, three delegates, basement Revere House, Park avenue.

FOURTH WARD, eight delegates, T. A. B. Hall, West Fourth street.

It is the duty that every Democrat owes to his party to attend the primary in the ward in which he votes.

JOHN H. HILLMAN,
Pres. Democratic Asso'n.
W. W. ST. JOHN, Secretary.

Domestic Finish Only.

With our new machinery we are making a specialty of the Collar and Cuff trade. No stretching of collars so common with laundries using the old-style gloss-finish machine. Have you heard about our new turn-down collar shaper? No? Well, try it; no break. Call and see us use it. Always welcome.

AMERICAN STEAM LAUNDRY,
122 East Front Street.

For Your Comfort.

As choice a line of fine Wool Blankets as the most fastidious housekeeper could ask for. These goods are made and guaranteed by the "Muncy" Woollen Mills and are superior in quality and finish. The short wool is thoroughly combed out, making the blankets stronger and preventing, in large measure, their shrinking. We care not where you have been accustomed to buying your blankets—we are sure of being able to sell you these goods a little cheaper than any other concern in the business. We shall esteem it a pleasure to show you these goods. And then our Comfortables are worthy of your attention. As we have stated before they are far above the average. Filled with pure, clean white cotton, and covered with choice selected covering, they need but to be seen to be appreciated. Down Comfortables for those who prefer them (and who does not) and can afford them. Prices 3.98, 4.98 and 6.75.

YOUR ATTENTION

Is called to our new Beaded-all-over Dress Nets in black. They are beautiful and not over extravagant. We are also displaying some dainty embroidered chiffons and fancy corded and tucked Silks for Dress Fronts.

FOR THE LITTLE FOLKS.

Some exquisite Silk Caps and Bonnets. Inconceivably pretty, tastefully trimmed, well calculated to please all fond mothers. Bring in your little folks and fit them out while the assortment is greatest. The line includes some cunning little Silk Caps for small infants.

Something New Under The Sun.

"Silk Floss" Pillows. They are nicely covered, very soft and seem to take the place of Down at about ½ the price. We sell them as follows:
16x16, 19c. 18x18, 25c. 20x20, 39c. 22x22, 50c. 24x24, 59c.

AT 98c Per Suit.

Ladies' Combination Suits of Underwear (full bleached) You would pay 1.25 for same without complaining.

Trunks, Hand Bags and Suit Cases

An entire new line opened this week. Well finished and thoroughly honest in wearing qualities.

DOWN STAIRS.

CARPETS fit for a Queen to tread. Savonneries, Axminsters, Moquettes, Velvets in rich, warm colorings, and the latest Fall patterns. A full line Stinson's 10-wire Tapestries, the kind that lasts until you are ready for a new one. All our carpets are new and the most to be desired that the mills produce. We believe we have the largest line of Oil Cloths and Linoleums in this State, and have skilled workmen to cut and lay them.

-:- LACE CURTAINS -:-

All new up-to-date, beautiful, cheap. They may be found in the Carpet Department.

-:- DIRECT -:-

from the

Manufacturer to the Consumer.

For the past three weeks we have been very busy bringing from our factory bundle after bundle of our Fall and Winter stock and arranging them on our tables. We didn't say a word about them because we wanted to display our line in full and then scream.

NOW WE'RE READY TO SCREAM.

We never scream unless we have something to scream about, and we won't scream about anything that we can't substantiate. We are showing as extensive a line of clothing as any store in the vicinity, and the prices are right. The cut and finish is there and all extra profits are off. Besides our staple blacks and blues, we are showing a variety of up-to-date worsteds, with and without double breasted vests in stripes, checks and plaids. Everything that the designers art and fine tailoring can do is in them. We are proud of our stock and want everybody to see it. Come and look at it whether you want clothing or not, you will be treated right.

Below We Quote a Few Prices:

Men's Black and Blue Cheviot suits 2.75, 3.75, 4.25, 7.25, 8.00 and 9.00.
" Fancy Cheviot suits 3.25, 4.25, 5 00, 6.00, 8.50.
" Fancy Worsteds, elegant 7.50, 9.75, 10.50, 11.00.
Boy's long pant suits 3.00 to 8.75 Child's knee pant suits 95c to 4.00.

Winter Overcoats are being placed in stock now.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN

(Special Correspondence of The Daily Press.)

Dunellen, Oct. 24—The funeral of Henry Ludovice, the eccentric old man who committed suicide by hanging at his home at West Dunellen last Friday night, took place yesterday afternoon. The burial was at Samp town. It appears that the unfortunate man had twice before made an attempt to take his life. At one time his daughter, Mrs. Minnie Cutting, had discovered him in time to save his life. At another time Ludovice had attempted to cut his throat. He is believed to have been out of his mind for a number of years. He is survived by two daughters and one son, Henry. The latter will hereafter make his home at the homestead.

The Dunellen foot ball team went to Somerville Saturday afternoon and defeated the home team by a score of 6 to 0. The game was closely contested and some smart work was done by both teames. The feature of the game was the 90-yard run of Ernest Peters. The Somerville team averaged 160 pounds in weight and the Dunellen team but 145. A return game may be played next Saturday at this place. On election day the Dunellen boys will play with the Westfield's at the latter place.

The following officers were elected Sunday evening at the Presbyterian church by the Senior Christian Endeavor Society: President, J. D. DeGroff; vice-president, Lizzie Dunham; recording secretary, W. P. Bodine; treasurer, Lillie Warden; corresponding secretary, Mrs. A. I. Martine. The Juniors elected: President, Eugene Sutton; vice-president, Mary Baldwin; secretary, Charles Lake; treasurer, Mary Snyder.

Prof. and Mrs. Richard Morris, of New Brunswick, visited friends in the borough last Saturday afternoon. Prof. Morris was formerly the superintendent of the public schools at this place. He is now a member of the faculty at Rutgers college.

Rev. A. S. Phelps, rector of Holy Innocents' Episcopal church, held services Sunday afternoon and administered the right of baptism to the infant child of Mr. and Mrs. S. O. Sutton.

The carelessness of people in mailing letters is shown at the postoffice where two letters are held. One letter is without a stamp and the other was not properly directed.

The United Order of the Golden Cross will have an important meeting next Thursday evening. Two candidates will be initiated by Commander S. O. Sutton.

A large dog owned by A. N. Randolph made a grab at the leg of a negro yesterday morning. Dr. Brakeley cauterized the wound, which was slight.

Joseph Meyer, proprietor of the Meyer's Hotel, and Ticket Agent T. J. Ronayne took a trip to New York yesterday.

Walter J. Clawson took a wheel ride to Pluckamin Sunday to visit his sister, Mrs. George Wiegand.

Miss Nellie Trenbath, of New York, is visiting relatives in town for a few days.

PLAINS AND FANWOOD.

(Special Correspondence of The Press.)

Scotch Plains, October 24.—The newly-organized Fanwood Club was launched upon the social life of the borough last evening by a formal opening. A large number availed themselves of the opportunity and enjoyed a very pleasant evening in playing whist, bowling and dancing, after which refreshments were served. It was long after midnight before the guests departed for their homes. Those attending found that the club-house had undergone several changes, the bowling alleys being repaired, so that now they are up to their old standard again, and the club members expect to make some high scores during the bowling season.

Frank R. Allen has recovered his valuable setter dog which was stolen last week. The missing animal was found in Westfield.

David Clark has taken up his residence in Montclair, where he will engage in the confectionery business.

Miss Mamie Miller led an interesting Epworth League meeting in the Methodist church Sunday evening.

A. D. Bukon, of Fanwood, has returned from a vacation of several weeks which was spent in Maine.

John Stiliger, of Roselle, was the guest of his parents, Mr. and Mrs. George Stiliger, yesterday.

Irving W. Quereau has been spending a few days with Mr. and Mrs. George W. Randolph.

Thomas M. Paff, Jr., is detained at home by a severe attack of malaria.

Fanwood Council, R. A., will meet in their rooms this evening.

Trust Those Who Have Tried.

I suffered from catarrh of the worst kind and never hoped for cure, but Ely's Cream Balm seems to do even that—Oscar Ostrom, 45 Warren Ave., Chicago, Ill.

I suffered from catarrh; it got so bad I could not work; I used Ely's Cream Balm and am entirely well.—A. C. Clarke, 341 Shawmut Ave., Boston, Mass.

The Balm does not irritate or cause sneezing. Sold by druggists at 50 cts., or mailed by Ely Brothers, 56 Warren St., New York.

THE AMUSEMENT WORLD

CURRENT ATTRACTIONS THAT PLAINFIELDERS MAY WITNESS.

Local Metropolitan Performances That Will Please Those Who Delight the Art of Thespis and Mimic World

That jolly, lively and coquettish bit of feminity "The French Maid" will make known her charms and graces at Music Hall tonight. Of course the maid herself does not monopolize all the beauty of the occasion for she will be accompanied and surrounded by a veritable rose garden of pretty girls and also by an exceedingly clever lot of comedians, singers and dancers. The maid herself is a coquettish young person who is an attractive figure in the menage of a hotel at Boulogne. She succeeds in entangling most of the guests of the hotel in an almost inexplicable series of complications, and it is in restoring the peace of mind and status quo of these guests that the very comical story of the play is developed. The production that will be shown here is the identical one that made so great a succes at the Herald Square Theatre. The company is an exceedingly strong one and numbers quite fifty people, including a brilliant force of ballet dancers and a large chorus in which are combined beauty, grace and the charm of fresh voices. The principal figures in the cast include Frank B. Blair, Hallen Mostyn, Edd Redway, Henn Laurent, Edith Murilla, Anna Barclay, Madeleine Lowrie and others.

* * * * * *

That Music Hall next Saturday evening will have its seating capacity taxed there can be no doubt. That the occasion will be a joyous one there can be no doubt when the announcement that Hoyt's "A Contented Woman," the funniest work of this clever playwright, will be the attraction, and it comes with its wealth of scenery and gorgeous costumes, the same as used during its phenomenally successful run at Hoyt's Theatre, New York. "A Contented Woman" is a satire of the keenest kind, and one that according to flattering reports appeals to all classes of theatre-goers. The piece contains quite a pretentious plot and is replete with spirited and catchy music and no end of entertaining specialties. The cast is the strongest Mr. Hoyt has ever sent out and is headed by Miss Belle Archer, noted for her artistic acting and beauty.

That Throbbing Headache

Would quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and strong nerves and build up your health. Easy to take. Try them. Only 25 cents. Money back if not cured. Sold by L. W. Randolph, Druggist.

EARLY INTELLIGENCE.

—The Sunshine Mission Band of the Crescent Avenue church will hold a sewing meeting in the church parlors tomorrow afternoon at 4 o'clock.

—John Powers, the popular Somerset street druggist, always keeps a find stock of cigars, best brands, and lovers of a good smoke can always depend on getting the best.

—The water has been allowed to run out of the new stand pipe recently erected on the mountains by the Plainfield Water Supply Company, so that a few leaks can be repaired.

—There is an increased interest and attendance at the services at Holy Cross church, now that the fall and winter work has begun. The rector, W. M. Downey, is much pleased with the outlook and he predicts a successful year's work.

—The entertainment committtee, which has charge of the proposed entertainment to be given by Star of Plainfield lodge, Shepherds of Bethlehem, tomorrow evening, reported Saturday evening that sufficient encouragement had been received to warrant the success of the undertaking.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

W. R. Cock, of East Fifth street, has returned from a trip to Chicago.

Fred Millar, of Madison avenue, has returned after a lengthy sojourn in Wyoming.

Harry L McGee, of Orchard place, Washington Park, has been visiting in Philadelphia.

Mr. and Mrs. J. W. Sandford, of this city, are visiting relatives in New York for a time.

Mrs. M. T. West, of Crescent avehue, has returned after a visit at Providence, R. I.

Claud Edwards, of Bayonne, has been the guest of Harold Davis, of Kensington avenue.

Miss Burns, of Passaic, as been the guest of Miss Florence Williams, of West Seventh street.

Alex. Millar, of Madison avenue, has returned after a two weeks business trip through the west.

Miss Eva Couse, of New York, has been the guest of Miss Adelaide Baxter, of Putnam avenue.

Mr. and Mrs. James W. Perry, of Crescent avenue, have gone to New York to spend the winter.

Miss Ray Sinaberg, of New York, has returned after a pleasant visit with relatives in this city.

Bergen Carter and wife, of Stanton, Hunterdon county, are visiting Levi Kline, of 235 Somerset street.

Moe Leichtentritt, of New York, has been visiting his brother, Myers Leichtentritt, of Central avenue.

Mrs. Lyons, of Orange, is visiting at the home of Mr. and Mrs. George VanDerhoof, of West Front street.

Mr. and Mrs. Peter A. VanFleet, of East Third street, entertained company from New Brunswick over Sunday.

George Webber, of West Front street, has secured a position as motorman on the Plainfield Street Railway.

There is a slight improvement in the condition of Dr. Robert Lowry, of Madison avenue, and he is resting quite easy.

Miss M. G. Morse, of Franklin place, returned yesterday afternoon after spending ten days with friends in Chester, Pa.

Miss Wood, of Franklin place, is visiting Philadelphia relatives, and is also attending the exposition being held in that city.

Horace J. Martin, of Jackson avenue, has returned from a visit with relatives at Manasquan, where he went to regain his health impaired by an attack of typhoid fever.

Rev. C. E. Scudder and wife, of Newark, who have been in Plainfield for some time past, have returned home. They were accompanied by Mrs. Scudder's father, Thomas Crosley, who will reside with them.

Edison Brown, formerly of this city, but now of Bristol, Conn., is doing exceedingly well in business. He is associated with his uncle, B. A. Brown, who is consulting manager of the electric works at that place, and under his instruction he is making rapid strides in the study of electricity.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free.

Two Important Features.
Dress Goods.
Outer Garments.

We said "important features," that is hardly emphatic enough, for as a matter of fact these two sections are the most important features of the store just at this time. Your thought is on these matters. To guide that thought and finally fix it on this handsome equipment of gown stuffs and ready-to-wear garments is the mission of this message.

This store is prepared to demonstrate to your entire satisfaction that for style, for beauty, for worth of material and price modesty these items are worthy of all the emphasis that we can give them.

The New Autumn Plaids.

Touched with warm, rich brightness, woven in every popular color combination; many new and novel effects. As to prices—kindly read on:
79c Silk and wool effects, 40 inches wide.
1.50 Golf plaids, 54 in. wide.

Cloths for Tailored Suits.

Broadcloths, cheviots, tweeds, rough effects; they're all much in demand for tailor-made suits this season. Newest and best here, all shorn of fancy profits.
75c All-wool venetian suiting, 54 inches wide.
90c French broadcloth, 54 inches wide.
1.00 All-wool cheviots, 54 in. wide.

The New Black Crepons.

To say a thing is popular does not make it so. Popularity is measured by demand. The demand for black crepons is such that makers and importers are at their wits end to supply it. Happy the merchant who was farsighted enough to buy early. Need we add our crepons were bought early.
1.00 Silk and wool crepons, 40 in. wide.
1.50 Silk and mohair crepons.
1.75 Silk and mohair crepons.

The New Winter Jackets.

If you knew the time and care which has been spent in gathering this big assemblage of stylish coats together you would fully appreciate the enthusiasm which we feel at the result. It was labor and money well spent. You'll say so when you see what a showing is here.
3.98 Kersey jackets, ½ lined.
7.98 Melton jackets full lined.
12.50 15.00 16.50
Fine Kersey and Melton jackets, all satin lined.

Golf Capes.

No more serviceable garment ever made a bid for popularity; no garment ever won its way more completely. We are equipped to supply your golf cape needs for the present, and there's more coming but—first pick always at the beginning of the season.

Tailor-made Suits.

You wouldn't buy a jobby, ill-made suit at any price. That's why we insist on having every suit in this collection perfect. Perfect in fit, perfect in style and perfect in price, for a perfect price is a just price.
7.98 Venetian cloth suits.
10.98 Camel's hair cheviot suits.
12.50 Camel's hair and heavy twilled cheviot effects.

A Large Purchase and a GREAT SALE

We will start a great sale this week with some of the finest high-grade fall and winter suits, overcoats and trousers, which was purchased by us from the well-known firm of Henry Mann & Son's, of Baltimore, Md., having closed out the entire balance of their heavy winter overcoats and suits.

The Overcoats consist of the finest Meltons, Black or Blue Kerseys and plaid backed whipcords and covert cloths, cut in the latest style full backs, box shape, the suits are mostly with double breasted vests, made of blue or black heavy weight Serges and winter weight worsted stripes.

We ask you one and all to come to this sale as we have purchased this entire stock at not more than 33c on the dollar, and we are able to offer you the handsomest clothing ever shown in Plainfield at prices that you will buy enough to last you this winter. Here is the price list for our bargain week.

250 Men's all-wool cassimere, cheviot and homespun suits that were made by Henry Mann & Son, to be sold at from 8.00 to 10.00, will be sold this bargain week at 2.75 and 3.75.

50 Men's genuine Washington Mills, black and blue worsted cheviots, heavy weights, considered a good bargain at 10.00, to go this week at 4.25 to 4.75.

Men's black clay diagonal dress suits, in frock and sack, at 6.75, worth 14.00.

Men's wide wale double breasted black suits at 6.75, worth $16.

Men's box overcoats with plaid backs at 4.50, 5.50 and 6.50, worth from 10.00 to 14.00.

Men's fall top-coats 2.75 to 6.50, worth from 8.00 to 15.00.

Men's black melton or kersey overcoats at 4.25, worth 10.00.

We received over 2,000 pairs of men's trousers that will be sold

Extra heavy weight trousers at 95c., worth 2.50. Men's dress trousers at 1.25, 1.50 and 1.75, that are worth in other stores from 2.50 to 3.50.

Lokal-Nachrichten aus der alten Heimath.

Freie Städte.

Hamburg. Das seit etwa anderthalb Jahren vorliegende Projekt einer Vorortsringbahn für Hamburg wird nun zur Wirklichkeit werden, nachdem dieser Tage die Bürgerschaft sich im Prinzip dafür ausgesprochen hat, ohne daß auch nur eine Stimme dagegen laut geworden wäre und der Senat schon in der vorberathenden Kommission sein Einverständniß mit dem Projekt erklärt hat.—Auf Betreiben des deutschen Generalkonsuls von Algier werden die großen transatlantischen Dampfer der Hamburg Amerika-Linie und des Norddeutschen Lloyd bei ihren Fahrten auch im Hafen von Algier anlegen. Dieselben werden mit Vorliebe von reichen Amerikanern für ihre Rundreise nach Europa benutzt, und nächstes Jahr, zur Weltausstellung von Paris, erwartet man deren eine besonders große Zahl.—Dieser Tage fand die feierliche Eröffnung der in 2½ Jahren mit einem Kostenaufwande von 1,800,000 Mark erbauten neuen Fahrbrücke über die Süderelbe zwischen Hamburg und Wilhelmsburg statt. Durch diese Brücke wird eine feste Verbindung zwischen Hamburg und Harburg geschaffen.

Bremerhaven. Der hiesige Fischdampfer „Karl" ist mit der gesammten Besatzung von zehn Mann in der Nordsee untergegangen.

Lübeck. Für das kommende Jahr, nach Fertigstellung des Elbe-Trave-Kanals, stehen hier umfangreiche Hafenbauten bevor. In erster Linie handelt es sich um die Vertiefung des Fahrwassers von Lübeck nach Travemünde um circa einen Meter, wofür schon jetzt Bagger angekauft worden sind. Für diese Arbeit sind 7,500,000 Mark erforderlich. Außerdem sind neue Quaianlagen zur Beschaffung weiterer Lösch- und Ladeplätze in Aussicht genommen worden. Die neue Quaimauer auf der Strecke Alfstraße bis Engelsgrube, für welche von den gesetzgebenden Körperschaften 634,000 Mark bewilligt wurden, ist schon jetzt und zwar in der kontraktlich ausgedungenen Zeit fertiggestellt worden.

Oldenburg.

Elsfleth. Die diesjährigen Ergebnisse des Häringsfanges sind sehr gering. Die drei Fischdampfer, welche bis jetzt zurückgekehrt sind, haben nur insgesammt 500 Kantjes Häringe mitgebracht. Der Fang fünf anderer Dampfer soll nicht größer sein.

Mecklenburg.

Brunshaupten. Einer der ältesten Badewirthe Deutschlands, der Erbpachthofbesitzer Ferdinand Wittholz, ist im Alter von 78 Jahren gestorben. Der Verewigte rief bereits in den fünfziger Jahren auf seinem Anwesen ein kleines Seebad mit Sommerfrische hervor. Diese Anlage hat sich in ihrer ursprünglichen Einfachheit bis auf den heutigen Tag erhalten.

Braunschweig. Anhalt.

Braunschweig. Der Magistrat beantragte die Einführung der Biersteuer, deren Ertrag zur Erhöhung der Lehrergehälter verwendet werden soll.

Jeszniz. Der kürzlich wegen Falschmünzerei verhaftete Stadtverordnete Uhrmacher Klotzsch soll die Falschmünzerei schon seit zehn Jahren betrieben haben.

Großherzogthum Hessen.

Darmstadt. Wegen Zweikampfes standen der 20jährige Wilhelm Zwilling von Worms und der 19 Jahre alte Willy Binswanger von Augsburg vor der hiesigen Strafkammer. Beide sind Studirende der Technischen Hochschule und waren wegen einer Kleinigkeit in Wortwechsel gerathen, der eine leichte Säbelforderung zur Folge hatte. Während beide Duellanten mit leichten Verletzungen davonkamen, wurde der bei dem Zweikampf anwesende Studiosus Wirth aus Mainz durch eine abgesprungene Säbelspitze, die ihm in den Unterleib eingedrungen war, derart verletzt, daß er einige Tage darauf nach schwerem Leiden im hiesigen städtischen Krankenhause starb. Hierdurch wurde der Zweikampf entdeckt, der den beiden Angeklagten die gesetzliche Mindeststrafe von drei Monaten Festung einbrachte.

Mainz. Ein hiesiger Theereisender stahl in der Wohnung eines Wirthes eine Kassette mit 1000 Mark; 900 Mark sandte er postlagernd nach Hamburg. Als er dorthin reisen wollte, um nach Amerika zu gehen, wurde er verhaftet. In seinem Koffer fand sich die leere Kassette vor.

Worms. Der Naturheilkundige Wentzel wurde wegen fahrlässiger Körperverletzung seinen Patienten gegenüber zu 2½ Monaten Gefängniß verurtheilt.

MILLINERY NOTES.

Flowers and Ornaments For Fall and Winter Hats.

Green reed leaves are much used in millinery, as are also immense black silk poppies with thin, delicate petals. A novelty is produced in the form of begonia leaves of black tulle, the network of the veining being followed by lines of jet or diamond powder or a thread of black chenille.

Small round hats for afternoon wear are smothered in flowers, especially roses, used in a mixture of colors.

A new idea in the decoration of the revived directoire hat is a big black butterfly painted in imitation of nature. It is placed on the brim in front, choux of fine black velvet ribbon surrounding the crown.

PRINCESS COSTUME.

Generally speaking, hats are not high and are so trimmed as to broaden them instead of making them appear tall.

The cut shows a gown having a skirt of violet velvet. Over this is a princess tunic of lighter violet bengaline, bordered with applications of ecru guipure. The top and lower edge of the tunic are scolloped and slashed. The sleeves are of bengaline, with guipure applications, and the yoke is of velvet. The hat accompanying the gown is of violet velvet, trimmed with violet ostrich plumes, a jeweled buckle and a group of roses under the brim. The strings, which tie under the chin, are of mauve tulle.

JUDIC CHOLLET.

NOTES OF NOVELTIES.

Silk and Satin Tailor Made Gowns Now Seen.

The bolero is seen in many of the costume models for the coming season. It forms an integral part of the gown and is worn indoors as well as out of doors.

Tailor made fashions have encroached upon the domain of silks, and now one sees plain skirts and coats of satin or taffeta finished simply with stitched bands. When the tissue is of good quality and is carefully cut and made, the effect is very smart.

BENGALINE GOWN.

Costumes of lace over white taffeta are attractive.

A novel article of jewelry is a sort of S shaped clasp, which may be obtained in gold, silver or their imitations, and is often set with jewels. It is used to retain the ends of the short boa against the belt.

The illustration shows a costume of pearl gray bengaline. The long skirt is trimmed to simulate two overlapping tunics crossed in front, the decoration consisting of a bias band of gray velvet and a puffing of pearl gray mousseline de soie. The upper tunic is closed at the left side with ornamental buttons. The bodice has a tight back and is gathered at the waist in front, showing a plastron of guipure over pink silk. The plastron is bordered with a band of gray velvet. A pelerine collar of puffed gray mousseline de soie covers the shoulders. The collar is of pink silk, the cravat of white lace. The hat of black felt is trimmed with black plumes, a black satin chou and a gold buckle. JUDIC CHOLLET.

Porto Rico Once a Forest.

Porto Rico, say the scientists, was originally an immense forest from the seashore to the mountain summits. It is doubtful if there is a single foot of its land area which was not at one time covered by tree growth, from the diminutive mangrove bushes on the coast to the giant trees of the mountain sides and tops. Although still wooded in the sense that it is dotted by many beautiful trees, the island is now largely deforested from a commercial point of view.—St. Louis Post-Dispatch.

THE HOUSEHOLD

KITCHEN COMFORT.

Useless Expenditure of Muscles and Nerve Force.

Observation of the domestic arrangements of many homes has shown me, says a writer in the Ohio Farmer, that there is much useless expenditure of nerve force and muscles. My heart aches for the women who year after year patiently drudge to make a comfortable home for the family and grow prematurely old and gray in the service when really much of it is unnecessary.

The present age offers hosts of help, help that does not intrude on the family privacy demanding to be "one of 'em;" that does not break the china nor mark her presence by daubs of grease; that does not slam doors or leave them wide open; that does not sing at the top of her voice just when you are trying to enjoy the coveted hour for a bit of reading or a short nap. Better still, these helps are always ready, never ill, never "sass back," and do not cost as much in five years as you would pay for the services of the average "hired girl" in six months. The saving of time and strength means a great deal to a woman in the course of a lifetime, and anything that will do that is a real help.

One of the greatest helps I know of in housekeeping is a sharp knife, and three sharp knifes are still better, one for carving, one for bread and one for paring vegetables. A few turns on the grindstone once a week melts away the dullness, and a little oil stone to be had for ten cents puts on a fine smooth edge. Another rare and useful article is a Japanned tin server for carrying dishes, which can be purchased for from ten to twenty cents, quite good enough for ordinary service, and saves miles of walking in the course of a year, to say nothing of time. With it one can set a table elaborately for a dozen in two, with at most, three trips from pantry to dining-room, and it saves much climbing of those troublesome cellar stairs, because the broad, flat tray assures safety in bringing up cream, butter and other things all at one time.

One or two narrow shelves fastened to the wall near the stove and within easy reach of the hand saves many steps while cooking meals. If you haven't any, the next time you go to town visit a carpenter shop and have a shelf made to fit your space. One six inches wide and three feet long will be a convenient size. Have the carpenter attach stout iron brackets just far enough apart to be securely fastened to the studding, and underneath the shelf have him put a row of brass cup hooks about three inches apart and one inch from the back edge of the shelf. Here you can hang up the numberless small articles, such as iron spoons, large forks, small strainer, potato masher, holders, etc. A small curtain can be added to the shelf to conceal them from view. The whole need not cost more than fifty cents and in many places can be obtained for half that sum.

I have often wondered why the kitchen windows are never let down from the top. Everywhere I have noticed the lower sash raised as high as it will go, but never the upper one lowered an inch. Heat, smoke and steam always rise to the ceiling, and then finding no outlet trail their odorous way all through the house. Try opening a window at the top on opposite sides of the kitchen and see what a wonderful difference it will make, not only in temperature and comfort to yourself, but in dissipating the unpleasant smells arising from washing or cooking.

How often is time and patience lost while hunting for a piece of string or a bit of wrapping paper! You can prevent it by buying a yard of blue denim; tear off a strip six inches wide from one end for small pockets. Hem both ends of the long piece and fold one end back on the other twelve inches for a wide, deep packet to place the neatly folded pieces of wrapping paper that may be saved from time to time. On the space above it sew small pockets to hold the ball of string, the package of tacks, and arrange a couple of small loops at one side just long enough and far enough apart to firmly hold the handle of a small hammer. Tack it to the inside of the pantry door, and in a month you will wonder how you ever managed to do without it.

Mrs. Paul Kruger.

The wife of President Kruger of the South African Republic, is extremely domestic, and cares for her husband's household with the most rigid economy. Her chief occupation is knitting, in which she is an adept. She is very religious and hates war and contention.

If wives were as nice to their husbands as female clerks are to their male customers but few failures would be recorded on the matrimonial calendar.

THE TRADE IN FURS

HARD LIFE OF THE HUNTERS OF THE NORTH.

But the Element of Danger and Excitement is Ever Present — An Average Day's Journey in the Woods—Hunting Big Game.

The quantity and value of the furs, which an Indian may secure as the result of his spring hunt varies greatly, of course, but in a good year from $200 to $300 may be taken as a fair average. He may have eight or ten bears, a dozen beavers, for or five otters, a number of lynxes, martens and minks, and several hundred musquash or muskrats. When all the hunters have come in the furs are pressed into packs of a hundred pounds each and sent in York boats to the frontier trails, over which they are carted to the nearest railway station to be shipped to London, England, where they are carefully sorted and afterwards sold at the two great annual sales of the company in January and March, which are attended by buyers from all parts of the world.

In the hard life of the voyageur there are ever present the elements of danger and excitement. With the first glance of dawn the guide shouts his warning "Leve! Leve!" and the men spring from their blankets, pack their camp outfit into the boats and are off. Six oars to a boat, one to a man, besides a "sweep" in the hands of both bow and steersman. The oars are large and heavy, and the rowers rise to their feet and sink back with precision upon their seats with each long stroke. At 8 o'clock they put ashore for breakfast, and about noon another halt is made; then they go on until night falls, when they stop for the day, eat their supper and lay themselves on the ground for a few hours' rest. I have been told by voyageurs that they have been so tired at night that they were unable to eat, and have flung themselves down on the nearest level spot, without so much as removing their coats or snatching a blanket, and slept the sleep of dead weariness until aroused at daybreak by the cry of the guide.

Fifteen or twenty miles is perhaps an average day's journey; much depends upon the water. In some places rapids and portages occur with exasperating frequency; in others the stream is broad and deep, and there is a little current. Again, in crossing a lake, with a favorable wind, sail may be made and the rowers have a welcome rest; while in breasting a rapid around which it is unnecessary or impossible to portage "tracking" is resorted to. A long line is attached to the bow of the boat and the men disembark, leaving only the steersman to keep her nose off shore or off rocks in the stream, while the men, far ahead on the bank, haul her up against the torrent. Accidents are common. A block of overhanging ice four or five feet thick, left by the spring flood, may fall upon a man as he passes beneath it and crush out his life; a sudden access of force in the current as the boat rounds a bend may jerk the men from their feet and into the river, and some may *not get* out again. Or the boat may *drift* upon a rock, smash it to atoms *and* the cargo and men in her be lost.
